**THE ADMISSION OF IMMIGRANTS**

**QUALITY NOT QUANTITY SHOULD BE WATCHWORD**

**Useless and Fanatical Races of South Eastern Europe Not Wanted in Canada.**

(Special to the Times)

Ottawa, Aug. 6.—"Yes, I have read the published statements of Sir Wm. Van Horne and Premier Scott, of Saskatchewan, in respect to the open door for all immigrants, and to be perfectly frank with you, I entirely dissent from the views expressed by both gentlemen."

So spoke a gentleman high in the confidence of the Liberal party, but as he was not speaking for publication, he would probably consider that his identity should not be made public, although he did not ask that he should not be quoted, and therefore I suppress the name.

"I believe in the open door, too," said this gentleman, "but only for every desirable class of immigrant, and for nothing more. I would close the door tight and double lock it against undesirable, no matter where they came from. And in respect to some of the nations of Southern Europe and of Asia, the great majority of the people of those countries that would emigrate to Canada are undesirable from a strictly Canadian standpoint. I am speaking now of permanent settlers, of home-seekers."

"The time has come, in my opinion, and I am glad to know that it is also the opinion of the minister of the interior, when no further efforts should be put forth to bring to Canada any of the races of Southeastern Europe, Northern men of Europe and northern men of the United States only should be invited to become citizens of northern America. We debased the Chinese because they would not assimilate and become citizens, and because even were they willing to do so we did not want them. It is time now to extend that policy and debar the useless and fanatical races of Southern Europe. Better take ten or twenty years more to dispose of our free homesteads to men whose descendants will be Canadians through and through rather than give them all away in the next year or two to men who will always remain alien in speech as well as in political and social ideals."

"The quality of settlers, and not the quantity, should be the first consideration of the immigration department, and when the North Atlantic Trading Company goes out of business forever in November next, I believe there will be fewer of the undesirables than ever before. That is right, Sir William Van Horne is a railway magnate, looking into the immediate future for C. P. R. dividends, and Mr. Scott is a young premier in too great a hurry to people Saskatchewan with immigrants, because they do not look beyond the present. What they should be thinking of is the kind of people Canadians will be twenty-five, fifty or a hundred years from now if a sane policy of selection is strictly enforced from this time henceforth. In this climate, under our free institutions, with opportunities for advancement all around, and given the foundation of a homogeneous race, strong intellectually and physically, the Canadian people of the future will be the equal of any race on earth, and the superior of many. Both of these gentlemen must know, if their policy were to prevail, that while there might be more people in Canada in fifty or a hundred years from now, there would be fewer true Canadians and less patriotism among the people, and that therefore there would be less reason to have faith in the permanency of the nation. The man who cries, eat, drink and be merry, for tomorrow we die, had just about as much thought of his own future as has Sir William of the future of Canada, and that stupid fatalism would be just about as unsafe a guide for our statesmen to follow as would be the railway ex-president or the youthful premier from Regina. They say, 'take every person, good, bad or indifferent,' I say, the immigration department's efforts should be directed to securing the good and to keeping out the bad, leaving the indifferent alone; and the sober common-sense of Canada will agree with me."

**RIVERS RISING**

**Six Persons Have Lost Their Lives in Texas.**

(Associated Press)

Dallas, Tex., Aug. 7.—Specials to the News from Balling and San Angelo report a 36-foot rise in the Colorado and Concho rivers. Much damage has been done to the land and many heads of fine cattle and sheep have been drowned, and on the Blenmark farm, near San Angelo, a tenant, his wife and three children were drowned.

**REPORT DENIED**

(Associated Press)

Hamburg, Aug. 7.—The Hamburg-American line to-day denied the report current in Belfast yesterday that it had ordered a steamer of Harland and Wolff, exceeding in size the Lusitania of the Cunard line.

**END OF STRIKE IN RUSSIAN CAPITAL**

**WORKMEN'S COUNCIL WILL ISSUE ORDER**

**Provinces Expected to Follow Example of St. Petersburg—Government Rejoices Over Victory.**

(Associated Press)

St. Petersburg, Aug. 7.—A 2.30 p.m. the workmen's council has decided to call off the strike in St. Petersburg. The announcement will be issued to-night or to-morrow.

This action does not apply to the provinces, but there is little doubt that the workmen there will follow St. Petersburg's example.

More than half of the factories here have resumed work to-day, and while the employees of some of the establishments at Moscow are still out of the production of the strike, the government is fulfilled. Many of the trades unions totally refused to join in the movement, the railroad men, whose cooperation was vital, could not be induced to recognize the signal for a general strike, and there was no sign of a peasant movement.

**OLD MAN MURDERED**

**Shot Dead When He Refused to Give Money to Boys.**

Portland, Ore., Aug. 6.—Because he refused to allow them to rob him of his last 20 cents, William Powell, aged 70 years, a soldier of the Potomac and a veteran of the battle of Gettysburg, was murdered near Cottage Grove last night by two boys, each 15 years old, said to have recently escaped from the Washington Reform School.

**RACE FOR KING'S CUP**

**Four Yachts Started in Principal Event at the Cowes Regatta.**

(Associated Press)

Cowes, Isle of Wight, Aug. 7.—The chief interest in the yacht races here to-day was in the contest for the King's cup, for which there were four entries, Emperor William's schooner Meteor, Sir Maurice Fitzgerald's yawl Satanita, Sir James Pender's cutter Keating, and Viscount Inverclyde's cutter Cetera.

**RUN DOWN BY TRAIN**

(Associated Press)

Milwaukee, Aug. 6.—Two men and a boy were killed last night by being run down by the limited train on the Chicago, Milwaukee & St. Paul railroad in this city. The party was returning from a picnic in a buggy and was attempting to pass over a crossing when the train ran them down.

**THE LITHOGRAPHERS' STRIKE**

Statements Issued by the Employers and Workmen.

(Associated Press)

New York, Aug. 7.—President Strecher of the Employing-Lithographers' Association, against the members of which some 26,000 are on strike, issued the following statement yesterday: "We are prepared to continue the fight against this strike for six months, and if necessary for a year. I am greatly pleased by the attitude of our members. They are unanimously in favor of arbitration and the open shop. The union having refused to arbitrate, there was no other course left for us but to declare the open shop."

**MURDER AND SUICIDE**

**Man Fatally Wounded Wife, Begged Forgiveness and Killed Himself.**

Des Moines, Iowa, Aug. 6.—Because his wife refused to accompany him home, L. Mitchell killed her and then shot himself at Curlew, Sunday night. Mitchell fired five shots into the woman's side.

**AMOUNTS TO NEARLY FIVE MILLION DOLLARS**

**Four Thousand Acres of Land Will Be Mortgaged to Relieve Present Difficulties.**

(Associated Press)

Chicago, Ill., Aug. 7.—The first detailed statement of the indebtedness of Zion City was given to the investors at a meeting last night.

**EDITOR ARRESTED**

**On Charge of Criminal Libel Brought Against Him by Mayor of New Rochelle.**

(Associated Press)

New York, Aug. 7.—The Times says: "Because he called the mayor and aldermen of New Rochelle boozers and said that Sing Sing prison would be a good boarding house for them, Chas. D. Sibley, editor of the Saturday Evening Era, of New Rochelle, was arrested yesterday on a charge of criminal libel made by Mayor Henry S. Clarke. Mayor Clarke has also brought a civil action against Sibley for \$25,000. For weeks Sibley has been criticizing political conditions in New Rochelle. He was admitted to bail."

**MRS. MAYBRICK RETURNS**

**Arrives in New York After Having Spent Three Months Abroad.**

(Associated Press)

New York, Aug. 6.—Mrs. Florence Maybrick, who, travelling under the name of Chaney, a slight variation of her maiden name, arrived last night on the La Gasconne, tried in every way to keep her identity a secret, but finally acknowledged it and said she had been abroad three months. While not directly acknowledging that she had visited England, she said: "It is logical to acknowledge that the three months I have spent abroad have not been passed on the continent altogether."

**PROMINENT LAWYER DEAD**

(Associated Press)

Clean, N. Y., Aug. 7.—Hon. Chas. S. Cary, one of the leading lawyers of this section and a member of the United States treasury under President Cleveland, died early to-day.

**PREPARING FOR MANUFACTURERS**

**WINNIPEG COMMITTEES ARE HARD AT WORK**

**Ringleaders of Riotous Soldiers Convicted—Inter-Provincial Conference Postponed.**

(Associated Press)

Winnipeg, Aug. 6.—Great preparations are being made for the reception of the members of the Canadian Manufacturers' Association, which holds its annual meeting in Winnipeg on September 17th, 18th and 19th. The local branch of the association and the board of trade are actively at work. The reception committee of the local branch will meet with the reception committee of the city council, and the two will wait on the government on Wednesday to ask that the government tender a public reception to the visitors in the parliament buildings on Tuesday evening, September 18th. The local branch have asked the city council to give a public reception to the visitors on Monday evening, September 17th.

**Treasurer's Reply to Vice-President of Company When He Sought to Recover \$21,248.**

(Associated Press)

New York, Aug. 7.—On the Supreme court's order of contempt of Raymond R. Herbert, vice-president of the Adams Magazine Company, and the treasurer, Edward Rock, were arrested last night and locked up. Herbert complains that when he sought to recover \$21,248 which he had invested in the magazine, the treasurer only answered: "Have a drink and forget."

**ANNUAL OUTING**

**First Company of the Fifth Regiment Enjoyed Moonlight Excursion Last Night.**

(Associated Press)

A merry crowd of 200, including several ladies, left last night shortly after seven for a cruise among the islands. The city of Nanaimo had been chartered by No. 1 company, Fifth Regiment, for its annual outing, and the enjoyable time Major Currie, Captain Angus and Lieut. Harris and Duncan were the officers attending.

**THE HEAT WAVE**

**Thousands of New Yorkers Slept in Parks and on Fire Escapes—The City's Facilities**

(Associated Press)

New York, Aug. 7.—There was some relief this morning from the torrid weather conditions which have prevailed here for three days. Further relief is expected by the weather bureau by thunderstorms and lower temperatures to-night. Throughout last night every breathing spot in the city was crowded with sweating humanity. The parks were packed, and many persons on the east side slept on fire escapes, and even on the sidewalks. Men, women and children crowded the public fountains during the night. Two persons who were sleeping on fire escapes fell in the street and were killed. Three prostrations from the heat were reported early to-day.

**A WATER SCHEME HAS BEEN ADOPTED**

**City Council Will Submit By-Law to Provide for \$200,000—Committee's Report Endorsed Last Night.**

(Associated Press)

The city council at its meeting last evening decided upon a scheme to be submitted to the people in connection with the water question. The proposition which the property owners will be asked to endorse involves \$200,000. It is the water committee's scheme in full, \$10,000 being added to the estimate under the head of sundry expenditure to make the amount an even \$210,000.

**WOMEN SUFFRAGISTS**

**Annual Conference of International League in Copenhagen.**

(Associated Press)

Copenhagen, Aug. 7.—The third annual conference of the International League of Women Suffragists opened here to-day under the chairmanship of Mrs. Carrie Chapman Catt, of New York, president of the league, and will hold daily sessions until August 11th. Twelve countries were represented. Addresses of welcome were presented by the Women's Society of Denmark, to which Mrs. Catt replied in behalf of the conference.

**A WATER SCHEME HAS BEEN ADOPTED**

**City Council Will Submit By-Law to Provide for \$200,000—Committee's Report Endorsed Last Night.**

(Associated Press)

The city council at its meeting last evening decided upon a scheme to be submitted to the people in connection with the water question. The proposition which the property owners will be asked to endorse involves \$200,000. It is the water committee's scheme in full, \$10,000 being added to the estimate under the head of sundry expenditure to make the amount an even \$210,000.

The general heads under which the scheme is intended to be expended are as follows:

1. For the purchase of a pump and boiler and the erection of building and installation of said pump and boiler therein at the lake, same to be connected with the 12-inch main, which we believe will double the capacity of said main and materially increase and constantly maintain a good and sufficient pressure for all reasonable purposes.	\$ 8,000
2. For the purchase and installing of 2,300 meters throughout the city.	40,000
3. For ascertaining the flow of water during the winter months from the Highlands watershed.	1,000
4. For redistribution, this being necessary no matter what plan or scheme of improvement is adopted.	117,000
5. For a high level water tank situated somewhere on Rockland avenue ridge or other suitable site.	15,000
6. For sundry expenditure in connection with the above, which cannot be estimated at present.	15,000
<b>Total</b>	<b>\$200,000</b>

It is contended by the supporters of the scheme that the only expenditure which is contained in the plan which is not common to any scheme of supply is that of \$8,000 for a pumping station at Elk lake, which is to force the water through the present main at double the rate, it is represented that it now passes.

The remainder of the expenditure, the installation of meters, the redistribution of the water system in the city, a tank on the high level are all common, it is argued, to any water system which may be introduced into the city. These would all be used no matter where the ultimate source of supply might be found.

There then remains \$1,000 to be spent on ascertaining this winter the flow of water from the Highland watershed. If the Highland district can be made to supply the city it is represented that by laying a pipe from the water using the water of Elk lake available in the city without pumping, a gravitation system will be possible for Victoria. The \$8,000 pumping station would then pass into disuse. This station is, therefore, represented as the only temporary part of the proposition.

A by-law will be submitted in compliance with the action decided upon at last night's meeting, and the property owners will be called upon to decide whether they approve of this proposition.

Ald. Davey wanted full information as to what the pumping scheme would do and pressed to have the city engineer and water commissioner report on the matter. Ald. Stewart then reported that what was regarded as absolutely essential, namely the pumping station and the testing of the Highland district supply. This he thought could be done with \$10,000.

The opinion of the majority of the council, however, it was thought expedient to fix up the pipe system in the city, carry out an extensive system of meters and put in a tank on the high levels.

The expending of \$40,000 on meters caused considerable debate, and the question of whether wooden pipes should be sanctioned in the system also provoked a great deal of discussion. The subject of water last night was taken up by resuming the debate on the motion to adopt the water committee's report, which involved the scheme above outlined with the exception that \$9,000 was set down for sundry expenditure instead of \$15,000 as adopted.

His Worship suggested that a few points might be settled and have trouble. He thought it might be best to test the question of whether the council should go to Elk lake as a temporary or as a permanent supply. Fullerton said he would not vote on any question in that form. The Mayor had no power to force such a proposition on the aldermen. It would have to come up as a motion.

Ald. Vincent wanted to know if there was anywhere else to go for water. His Worship said there was Goldstream, Millstream, etc. Ald. Vincent said that to buy Goldstream would take more money than the city had the power to raise. The city could only raise the extent of \$1,375,000. If the Goldstream proposition were to be purchased, thought the city would have to get further powers from the legislature.

Ald. Davey thought that no time had been lost in carefully considering this.

### ADMIRAL SKYRDLOFF FEARS OUTBREAK

#### TRUSTS NEITHER SAULORS NOR ARTILLERYMEN

#### Double Staffs of Officers on Duty— Lack of Union Among Leaders of Workmen.

London, Aug. 6.—According to an Odessa dispatch to a local news agency steamer advisers from Sebastopol, says that fully 20,000 persons have left that city and that the exodus is still in progress.

Admiral Skrydloff, commander of the Black Sea fleet, the advice add, is in an awkward dilemma.—He is afraid to remove the breech locks from the fortress guns in case the crews of the warships mutiny and at the same time he distrusts the fortress artillerymen. At the fortress and on the warships double staffs of officers keep watch with cocked revolvers in their hands.

A dispatch to a news agency from St. Petersburg says it is reported that Admiral Skrydloff, commander of the Black Sea fleet, has left Sebastopol for Odessa on a torpedo boat.

#### The General Strike.

St. Petersburg, Aug. 6.—The fate of the general strike, which, although it has affected close to 70,000 men in St. Petersburg, has met with only slight response in other sections of Russia, probably will be decided to-day with an adverse expression of public opinion. The lack of union among the leaders of the proletarian organizations is playing against the success of the movement.

The railroad men, upon whom the success of the entire movement depends, are still working full time. The leaders of the railroad organizations are hesitating about issuing a call for a tie-up. They fear being deserted and discredited by their materialistic followers, who are no more responsive to the avowed pretext of this strike, namely, sympathy with the mutineers of Sveborg, Kronstadt and Revel, than they were to the similar reasons given for the abortive strike of last November.

The railroad employees have been intimidated by the recent law making strikes a penal offence. The law, which is strict in its terms, provides severe punishments. The council of workmen's deputies which met at Teriakio, Finland, continued its session until a late hour yesterday morning. The deputies were so incensed at the hastily displayed by the railroad men that they decided to resort, if necessary, to the blowing up of bridges and the destruction of the road beds, etc., to bring the transportation service to a standstill. The telegraphers thus far have been appealed to in vain. The final meeting of the council will be held at 1:30 p.m. to-day.

The local banks, the banks of the St. Petersburg strikers occurred yesterday, when the printers decided to return to work. The employees of several street car lines and river ferries have resumed work.

A steady downpour of rain all day long prevented the open air gatherings scheduled for the day in St. Petersburg and the consequent possibility of collisions and disorders. The day was without incident. There was a large number of drunken men among the soldiers. Telegrams from the interior throw little light on the manner in which the country may be expected to respond to the day's call for a strike. There has been no cessation in the number of robberies and murders in the interior.

The government attaches much importance to the declaration of the Poles in the Minsk congress against the principle of expropriation and in favor of acquiescing in the declaration of the lower house and preparing for new elections. This action is regarded in administrative circles as almost equal to the withdrawal of the proletariat classes of Poland from the revolutionist movement.

The Novoe Vremya, which is the only newspaper appearing except in dodger form, devoted a large portion of its space this morning to an article glorifying war between Japan and the United States and predicting a sure and speedy victory for Japan, the seizure of the Philippines and Hawaii and the occupation by the Japanese of California.

#### All Eyes on Moscow.

St. Petersburg, Aug. 6.—Late this afternoon it was evident that the government had practically succeeded in crushing the organization of the strike leaders here. The central committee of the Social Democrats was captured and imprisoned in the early hours, and the greatest confusion now prevails in the revolutionary camp.

The hope of the revolutionists is now centered in Moscow as the St. Petersburg railway committee has decided to await the result of the strike there before attempting to order out the men. Wednesday is now the day on which they say the railroad strike will begin, although the employees of several of the street railroad lines who struck on Saturday have resumed work.

The prefect of police of Kronstadt has notified the striking longshoremen there that unless they return to work tomorrow, they will be expelled from the island.

A private dispatch from the Westinghouse branch at Moscow received late to-day said that the men were at work, and that the manager had been assured by the prefect of police that a general strike in Moscow was impossible.

Unless dispatches from the interior within a few hours change the situation entirely, the general strike promises to prove a complete failure. Although the Liberals are strongly opposed to the course of the government, they shrink from precipitating a revolution and the horrors of a civil war, in which the country would be plunged if the plans of the proletarian leaders were successful.

Not only is the sympathy of the intelligentsia public lacking, but in St. Petersburg the leaders of the various labor organizations find many of their followers lukewarm and even in open rebellion against their orders.

When the central committee of the Printers' Union adjourned last night many of the men returned to their cases, with the result that four newspapers appeared to-day.

The central committee of the railroad men's unions finds so many of the men who have returned to their work, that they are being driven into the bargain that it has not yet, so far as known, issued a formal order to strike. If the train service is not brought to a standstill the collapse of the strike movement is inevitable.

The workmen's council has already

practically determined to resort to violence in order to stop traffic on the railroads if the men refuse to join in the movement.

Bank closed its doors.

Riotous Scenes During Rush of Depositors to Secure Cash.

Chicago, Aug. 6.—The Milwaukee avenue state bank, one of the largest banks outside of the downtown district, to-day closed its door following a run.

The first intimation of the trouble was the appearance of the bank of 20 policemen who had been dispatched to prevent anticipated disorders. The police department having been notified officially that one of the officers of the bank had absconded. The suspicious depositors were aroused by the sight of the policemen, and in a short time many who had money in the bank appeared and demanded their deposits.

At one time the run assumed the proportions of a riot, but the turbulence of the crowd was finally quelled by the police.

The news of the suspension spread rapidly and soon several of the smaller banks were besieged by depositors.

The Milwaukee state bank was organized in 1899 by Paul Osterland, who is its president. The capital stock is \$250,000 and the surplus is \$250,000.

Henry W. Hering, cashier of the bank, is missing, and a warrant charging him with embezzlement has been sworn out. At the same time State Bank Examiner C. J. Jones issued a statement to the effect that the whereabouts of the three officials of the bank is unknown to-day, and that the bank is without an official head.

The patrons of the bank are mostly Polish working people, who abound in the neighborhood. The statement of the bank issued June 24th gave the liabilities of \$4,697,474. Of this amount, \$3,175,195 was savings deposits, loans and discounts amounted to \$2,231,172. As far as known, all of this paper is good.

Theodore Stensland, when asked, said that his father, President Stensland is in St. Paul, where he has been for two weeks.

"I have telegraphed him," he added, "and he will be here not later than tomorrow."

Search for President.

St. Paul, Minn., Aug. 6.—Inquiry at all the hotels in St. Paul and other places where he would be likely to be known, have failed to locate Paul O. Stensland, president of the Milwaukee avenue state bank. Search for him is being continued.

The shortage.

Chicago, Aug. 6.—That the shortage in the accounts of the Milwaukee avenue state bank will run close to \$1,000,000, much of which has gone in real estate speculation and commercial ventures, was the statement made this afternoon to a reporter of the Associated Press. This statement came from a man in a position to talk authoritatively.

To cure womanly ills.

Very often ailments which in themselves are not important, though neglected develop into chronic troubles. In such cases Opiates, alcohol and narcotics must be avoided.

Probably nothing offers such permanent relief as Ferronine, which Mrs. M. Mead of Fraser, Wis., says: "I feel it my duty to let you know how valuable is Ferronine. For some time previous to the change of life I suffered more than I could tell. I had such pains and disorders I feared I would die. Neighbors told me Ferronine was the only remedy. It put a stop to my pain and sickness, had a direct action upon my troubles that gave relief from the start. I now enjoy perfect health and rest. No womanly medicine can possibly be better than Ferronine."

In women of all ages Ferronine creates a feeling of youth and spirit that is the result of its action on the system.

It is sold by N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Trains collided.

Twenty persons injured—Locomotives demolished and coaches derailed.

St. Genevieve, Mo., Aug. 6.—Twenty persons were cut and bruised in a head-on collision between a passenger and a freight train on the "Frisco" road yesterday. No one was fatally injured. The locomotives were demolished and three coaches derailed. It is said the accident was due to a freight train running in on the main track from a switch.

### FOUGHT FOR POSSESSION OF BOATS AND BUOYS

#### Reports of Fierce Fighting Among Emigrants on Board the Italian Steamer Sirlo.

London, Aug. 6.—The Madrid correspondent of the Daily Telegraph describes the Italian emigrant steamer Sirlo as the worst of her kind. The Italian emigrants, with knives in their hands, and without regard for the women or children, fought with the greatest brutality for the possession of life buoys or boats.

Many were killed or wounded, including several members of the crew, who were attacked by the emigrants. When the captain saw that the vessel was lost and the emigrants had captured the boats, he committed suicide by shooting with a revolver. The officers then lost their heads and there was nobody to direct the work of rescue.

Eye-witnesses gave awful pictures of the brutal panic on board. For half an hour the emigrants were masters of the situation. They completely overcame the crew by sheer force of numbers, and this in spite of the efforts of the officers, who tried to save the women and children first.

One report states, the correspondent continues, that a group of emigrants approached one of the ship's boats, which already was full, and about to be launched, and dislodged the people, killing several with their knives. Just as they were about to occupy the boat, however, another body of armed emigrants came up, and a fierce fight for the possession of the lifeboat followed.

Many of the survivors brought ashore were seriously wounded and a number had sustained fractured limbs. Some of the injured subsequently died. It is reported that the celebrated Spanish singer Lola Milaner was among the drowned.

#### MRS. THOMAS LAWSON DIES.

Wife of Boston Financier Succumbs to Heart Disease.

Seattle, Mass., Aug. 6.—Mrs. Thos. W. Lawson, wife of the Boston financier, died at Dreamwood, Mr. Lawson's summer home here, to-day. Mrs. Lawson has been suffering from heart disease for many months.

With the exception of her son Arnold, five of Mrs. Lawson's children and her husband were at her bedside when the end came. Arnold Lawson arrived home shortly afterward.

Mrs. Lawson before her marriage to Mr. Lawson in 1878 was Miss Goodwillie, of Cambridge.

#### SLAIN BY RAIDERS.

Six Men Killed By Puljanas—Soldiers and Constabulary on the Trail.

New York, Aug. 6.—A special from Manila says: "One hundred and fifty Puljanas pierced the military cordon, burned the municipal buildings, killed the ex-president of the town, two former members of the constabulary and three police at Abuyon Island of Leyte, twenty miles from the scene of the recent fight."

One hundred soldiers and constabulary are in pursuit of the raiders.

#### HAVE YOU PILES?

Dr. Leonard's Hem-Roid is an internal Remedy that entirely removes the cause of Piles, and cures to stay cured any case, no matter how long standing.

If you have Piles, and Dr. Leonard's Hem-Roid will not cure you, you get your money back.

A thousand dollar Guarantee goes with every bottle of Hem-Roid sold. If you want a perfect and permanent cure, ask for Dr. Leonard's Hem-Roid, the guaranteed Remedy.

All druggists, \$1.00. Or The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

#### FAVOR ARBITRATION.

Instructions for Pan-American Delegates to the Hague Conference.

Rio de Janeiro, Aug. 6.—The International American conference at today's session unanimously agreed upon a project providing for the arbitration of disputes between the countries represented. It affirms the adherence of the American republics to the principle of arbitration and recommends that the Pan-American delegates to the peace conference to be convened at the Hague be instructed to support a general arbitration convention. The vote on the project will be taken tomorrow.

### WILL AID RUSSIANS.

#### Seattle Socialists Agree to Raise Money to Buy Bombs.

Seattle, Aug. 6.—Local Socialists at the Socialists' temple last night agreed to raise money to buy bombs for the Russians.

"The Russians are our brothers and are fighting the same conditions that we are up against here in this country," said one speaker, "and as their only chance is the bomb, we will furnish them with money to purchase them."

The crowd contributed about \$4 last night, and next Sunday they expect to hold a big meeting in their hall, when a donation will be called for from all earnest Socialists.

As bombs can be bought any place in Russia for the very nominal sum of 20 cents, according to the speaker, the revolutionists ought to be able to procure a number of prominent holes in the way he figured socialism could be brought about, would lead one to believe that such questions are clear and very comprehensible.

Carlisle makes the remark that political economy is a deep and dreary subject, and he believed that Carlisle took an altogether wrong view of the matter.

#### BATHING FATALITY.

Angus Munro Lost His Life in Comox Lake.

Nanaimo, Aug. 6.—A sad bathing fatality attended by heroic attempts at rescue, was reported from Cumberland today, the victim being a young man named Angus Munro.

With a number of companions Munro was bathing in Comox lake, and several of the lads, being expert swimmers, swam to a float anchored some distance from shore. Munro after a while decided to join them, although he could not swim very well. He procured a light piece of wood and with this beneath his chest, and against the protests of his companions, struck out for the float.

When about 25 yards out he became frightened and exhausted and called for help.

Two of his companions, the Harrison brothers, swam to his assistance and attempted to bring him ashore, but so hard were his struggles that all were in danger of being drowned, and the rescuers becoming exhausted, relinquished their hold to save themselves. Had the drowning boy heeded instructions they could have brought him ashore.

George Scales arrived on the scene in a boat a minute later and dived to the bottom and brought the boy to the surface.

All attempts at resuscitation failed, although the body had only been under water four minutes.

#### KILLED AT SMELTER.

Nelson, B. C., Aug. 6.—D. H. Smith, of Thuro, Scotland, a man of thirty, who came here three weeks ago from Brandon, Man., was discovered this morning under a pile of ore in a disused mechanical roaster of the Hall Mines smelter.

Deceased was set to unload the roaster last Friday morning. A search instituted this morning resulted in the discovery of the remains. Deceased had evidently unloaded the chute from the bottom instead of the top, and the rush of ore overwhelmed him.

No blame is attached to the smelter by the inquest held this afternoon.

#### THE STRANDED BATTLESHIP.

Admiralty Has Abandoned Further Attempts to Refloat the Montague.

London, Aug. 5.—The admiralty has abandoned all further attempts to refloat the British battleship Montague, which ran ashore off Shutter Point, on May 3rd.

#### ACCIDENTALLY SHOT.

Leadville, Col., Aug. 5.—Martin Holbrook accidentally shot and killed Armond Veatch in Leadville to-day. The boys were playing "Wild West" and were using blank cartridges in a toy pistol. By some mistake a loaded shell got mixed with the blanks and resulted in the death of Veatch.

WATER SCHEME HAS BEEN ADOPTED

(Continued from page 1)

His Worship finally proceeded with his proposition. He said that it became a question whether the city should put in a faulty pumping system.

Ald. Fullerton wanted to know why this should be described as a faulty system. His Worship said his query was as to whether, knowing that rather than going to Elk lake with a larger main it would be more expedient to go to the Highland district for water.

A vote was taken on Ald. Davey's amendment, which was defeated on the following division. For Ald. Davey's amendment, Mayor Morley, Alds. Yates, Davey and Good-

Against the amendment—Aids, Stewart, Fell, Hall, Douglas, Fullerton and Vincent.

It was then decided to take up the committee's report serially. Item 1 for \$8,000 for a pumping station passed.

On Item 2 for \$40,000 for meters Ald. Vincent moved to reduce the amount to \$10,000. He did not feel like expending all that amount on meters.

Ald. Yates thought if the council was going in for meters the whole city should be metered.

Ald. Davey proposed to strike out the meters item altogether. If the Highland district was used there could be an abundance of water, and it would not need to be restricted.

Ald. Hall thought that if meters were used all should be done. The item finally passed as introduced by the committee.

Item 3 for expending \$1,000 in ascertaining the flow of water in the Highland district carried.

Item 4 involving \$17,000 for redistribution provoked considerable discussion.

Ald. Vincent proposed to increase this to cover the cost of making the pipes iron. He did not believe in using wooden pipes.

Ald. Fullerton did not see the need of going to a large expenditure to bring water from Elk lake if the Highland district was to give an adequate supply.

The present mains from Elk lake would meet the present supply.

Ald. Hall said that if Elk lake was to be used as a permanent supply, it was all right to spend the money on the permanent mains.

But if the Highland district proved what was expected, only about 1,000,000 gallons would be required from Elk lake, and the 12-inch main would be sufficient.

He therefore accorded with the committee's report.

Ald. Fell said that he as a member of the committee had not heard the suggestion made that Elk lake was to be deserted. His own idea was that Elk lake was not capable of delivering 2,500,000 gallons under gravitation without pumping.

There could be but one answer in deciding whether a pumping or a gravitation system should be adopted. If the Highland system was found what was expected of it there would be a gravitation system.

Elk lake was what it could deliver under a gravitation system. By heroic methods Elk lake was forced to supply more, it could never be made to give 2,500,000 gallons a day.

TYEE COPPER COMPANY DECLARES A DIVIDEND

Mine at Mount Sicker Proves a Paying Proposition—Shareholders are Pleased.

At the seventh ordinary general meeting of the Tyee Copper Company, held in London recently, a dividend of one shilling per share was declared for the year ending 30th April, 1905.

This amounts to 5 per cent. on the shares which have a par value of £1. Two of the directors, Messrs. Van Berg and A. Straube, who had reached the time for retirement, were unanimously re-elected.

The sum of £22,124 was written off commission and mine development accounts, being two-fifths of the total cost.

The reports read were satisfactory, showing the management of the mine to be most conservative. There was some objection to writing off the large percentage of one-quarter the whole cost for depreciation, but the explanation of the chairman that the directors considered it best until the new one body was struck, met with general approval, and the proposal was concurred in.

A vote of thanks to the general manager, Clement Livingston, was passed with enthusiasm. Mr. Hancock, in proposing it, said: "I should like to have the privilege of proposing a hearty vote of thanks to our general manager (Mr. Clement Livingston) and his very able staff for their service. I think that with a monthly output of only 2,000 tons the year has shown a very satisfactory result."

Mr. Hancock then proposed that the company should be pleased with the manner in which our property is looked after, and I think that it will meet with the general approval of the meeting that we should express our thanks to Mr. Livingston and all concerned on the other side.

Mr. Theobald seconded the motion, which was carried with acclamation. A similar expression of approval was tendered to the chairman and board of directors, in acknowledging which the chairman said: "On behalf of myself and my colleagues I thank you for your kindness in passing this resolution. I can assure you that we have done our best, and we shall continue to do so, and I hope that when we meet next year we shall have a better account to give you. However, you are perfectly safe in regard to this, you have a fine property, you have plenty of money, and if we find the one body for which we are looking, we shall be able to carry on this undertaking very successfully."

The proceedings then terminated.

COUNCIL BUSINESS

Some Matters Disposed of at Last Evening's Sitting.

Before proceeding to the water question last evening the city council transacted some necessary business.

The city engineer's report was read relative to a request from Challosser & Mitchell that Government street should be opened up in order to investigate trouble which occurred from time to time with the sewer connection.

It was explained by Ald. Vincent that there had been a stoppage several times, and it was necessary to investigate it.

His Worship thought that every effort should be made to do away with the necessity for opening the street.

It was finally left in the hands of the streets committee and sewers committee.

An offer of James Walker to remove the house of Miss Cameron on Government street extension was accepted.

Tenders were opened for printing voters' list. These were as follows: Phil R. Smith, 84 cents a page; T. J. Cusack, 17 1/2 a page. The contract was awarded to the lower tender.

His Worship reported that Mr. Beaumont wished to rent the unoccupied land at the Old Men's Home for pasture.

Mr. Beaumont represented that Mr. Henderson was pasturing his cow for nothing on the ground.

Ald. Vincent thought there was a mistake about this.

Ald. Yates said he understood that Mr. Henderson had supplied water for the privilege of allowing his cows to run in the lot. It was not a case of renting for pasture.

The matter was left in the hands of the Old Men's Home committee.

Ald. Fell raised a question as to voters' list. He thought that the list upon which the Mayor was elected was used all the year through.

WATER WORKS IMPROVEMENT.

The city council has finally decided upon a scheme which it is believed will simultaneously increase the supply of water at the service of consumers and curtail the amount of water consumed.

While there will of course be differences of opinion with respect to the details of the proposed scheme, there ought to be practical unanimity upon one point: that it is essential some action of a definite character shall be taken with the object of remedying the defects in our water system in the interval preceding the dry season of next summer.

The council having committed itself to the principle of renovation and improvement, there is at least a prospect that the era of interminable discussion has passed and the day for doing things has arrived.

It is presumed that in the course decided upon the aldermen are influenced by the counsel of persons in all respects technically qualified to give advice. Because it is held by other persons who assume to know that the principal weakness of the system as at present constituted lies in obvious defects, such as lack of harmony and proportion, in the pipes through which the water is circulated and distributed. Holding such opinions, they contend that if the improvements designated under this one head, for which a sum of \$117,000 will be asked, were effected, the chief cause of complaint against our water works system would disappear, and that there would be no necessity for the contemplated expenditure of close upon fifty thousand dollars upon meters and pumps to serve a merely temporary purpose of bridging the chasm which lies between the consumers and a plentiful supply of water for all purposes.

As there are manifestly wide differences of opinion upon this matter of paramount importance to the city, we would suggest that the ratepayers be not asked in casting their votes to adopt the aldermanic scheme in its entirety. If that be done, there will be some danger of the defeat of the project, with a consequently dangerous delay in the commencement of the work of improvement. Give the voter a chance to signify his approval or disapproval of each item on the programme separately. Such would appear to be the safe course, as well as the fair course alike to people and their representatives. Then, whatever the result, the responsibility will remain with the public. But if the council resolves to stand or fall by the scheme in its entirety, it must shoulder responsibility for the consequences.

THE LABOR MARKET.

If it were possible to so adjust the national scales that the supply and demand for labor and all commodities would be perfectly balanced and the rates of pay and prices generally just right, a supremely happy and contented people might be found upon the face of the earth. But such things are impossible under the present economic dispensation. We fear they will never be possible under any circumstances or conditions whatsoever.

In the meantime it is for us to adjust ourselves and our business to the conditions as they exist.

It has been suggested in certain quarters as a means of relief from circumstances which are said to be hampering the progress of the fruit growing, the farming and the canning industries of this province, that the prohibitive tax on the entrance of Mongolian laborers be removed entirely or greatly reduced. We say frankly we do not think there is any prospect of relief from any such quarter.

The present government, after making the fullest and most searching investigation possible, decided upon its course, and from that course we are sure

there will not be the slightest deviation, unless there be a momentous change in public opinion, or which there is not the slightest indication at the present time.

Conservative newspapers have for some time been throwing out feelers in the hope of grasping something substantial that would justify a bold avowal of opposition to the Chinese head tax. They have apparently found what they sought in their advocacy of new plain and unmistakable in its tenor. But on behalf of the administration which imposed the tax it can be said with confidence that the result of exclusion has justified the means taken to attain it. The province has never been so prosperous at any time in its history. The condition of the average man has never been better in this or in any other country of the world; the standard of comfort for the average family has never been exceeded in any portion of the earth. As these are facts and cannot be gainsaid, why should we attempt experiments which were not justified by results in the past? It has been proposed as a compromise with the laborers that we supposed to dominate this Dominion of ours that Mongolian laborers only be admitted, and these under certain restrictions as to occupation. If the proposition were practicable, it would be so utterly out of harmony with the genius of our institutions, as to be fundamentally objectionable. If a servile race, a people who shall at all times be separate from us, are to be admitted among the people as the Ganaaites were in the land the Israelites took possession of; hewers of wood and drawers of water to a superior class of Canadians—if the development of our province and its future prosperity depend upon the countenance of such a scheme by the majority of the people, we fear for our future; that is all.

As a matter of fact, the shortage of labor is not peculiar to British Columbia at all. There is a demand that cannot be supplied in all portions of the Dominion. The farmers of Ontario are making complaints similar to the resolutions of the fruit growers and farmers of British Columbia. The cry for assistance arises from the wheat-growers of the prairies in more imploring accents still. It is one of the pleasant signs of the times that labor is in such constant demand. There is a prospect that the present conditions will continue, we hope in a somewhat modified degree, for an indefinite period, because it will be an infallible indication that the country is being rapidly settled by a class who are not content to remain servants, but who aspire to become farmers and producers in their own right. This is the class of citizens we want in Canada, the material from which great nations which fear not the face of any combination are made. They are the class we require in British Columbia, and we shall eventually get them if our efforts be properly directed. We must keep the door tightly shut to undesirable, and to the class which cannot be assimilated, and wide open to such as can immediately adjust themselves to their new environment.

We do not know that it would be rash to predict that there will never be a government in Canada willing to undertake such an experiment as that which excited so much comment and hostility in connection with the operation of the mines of the Transvaal.

The European press is repeating a curious little story—which may or may not have a basis of fact—concerning the recent visit which the ex-Empress Eugenie paid to the Emperor of Austria at Ischl. It had nothing to do, so the tale goes, with either politics, or matrimony. In reality the ex-Empress wished to return to Franz Josef a letter written by him in the latter sixties to the Emperor Louis Napoleon. The Emperor of Austria was then full of anger against the Germans, because of Sadowa, and in this letter he is said to have promised the full help of the Austrian army for France if Prussia attacked or provoked her. Napoleon III., knowing that the Emperor was a constitutional, not an absolute, monarch, never regarded the letter as anything more than a generous expression of sympathy, but as such he prized it highly. Many a time, it is said, he showed the letter to intimate friends at Chislehurst, and asked, what would have happened if the Austrian Emperor had been an absolute monarch? At his death the latter could not be found. According to the gossip, the Empress Eugenie had it, and at Ischl returned it to its writer. The impudent pledge, if it ever existed, must have stirred some bitter memories in the minds of both the giver and the recipient.

Adrop of recent discussions on the utilization of alcohol for various purposes, we have seen in Washington.

In view of the recent law of prohibition, it is not surprising that the same question has been raised in the arts and industries free of tax.

The Bureau of Industries of the Department of Commerce and Labor has received a number of reports of United States consuls on the denaturing process, from which it appears a similar law is in operation in Italy, France, Germany, Cuba, Belgium and other countries. Of particular interest is a report of Consul-General Robert P. Skinner, of Marseilles, who says that the last word in regard to the industrial uses of alcohol has not yet been said, nor does he anticipate that American expectations in regard to the

What Other People Think

THE LABOR PROBLEM.

To the Editor:—I think it would be trespassing too much on your good-will for me to try to convince "Bill Stumps" that the tax on Chinese is right and in the interests of the province as a whole. With your permission, I will only refer to the questions he asks in this evening's issue and leave the rest to some more able pen. I am sure there must be some nearly as gifted as my sarcastic friend, "Bill Stumps".

1st. He asks for the name of a single farmer who started in business on account of Chinese exclusion. As I do not keep a farmers' directory he would do well to canvass the country districts.

2nd. He asks to what extent would the canning business be developed only for coolie labor. Will "Bill Stumps" please name one cannery that has gone out of business on account of shutting out the Chinese?

3rd. He asks if sawmills could sell cheaper if none but white labor were employed. The sawmills evidently consider that their own business. I am not talking for any of them.

4th. This is a long question. Permit me to say that I believe the government looked fully into the subject before passing the act.

5th. He asks, is it not akin to playing dog in the manger to refuse Chinese to do labor while men won't do. I do not know of any kind of work white men won't do if they are paid for it.

ASSOCIATION FOOTBALL. THE CORINTHIAN TEAM. The Corinthian team of soccer players that will arrive in Canada on Thursday is a particularly strong one. Only two of them are not blues. Seven of them are from Oxford and six from Cambridge, and seven have played in international matches. The team consists of: Forwards, G. C. Vassil, S. H. Day, G. H. Harris, N. S. Cornelius, G. N. Foster, H. O. Corbett and E. G. O. Wright; half backs, R. D. Craig and B. A. Willett; backs, C. C. Page, P. R. May and W. W. Timmis; goal-keeper, T. S. Rowlandson. G. A. Parker is acting as manager.

boat, and that means they are able to go some. They have lost only three games out of 18. McCormick is looked upon as a swell pitcher, and the visitors state that "Jimmy" Holmes will have to look to his laurels when it comes to holding down the score. Appended is the personnel of the teams: Fernwoods—P. Holmes, C. Robertson; 1st B., Blackburn; 2nd B., Moore; 3rd B., Shanks; 4th B., Carter; L. L. Malcolm, C. E. Carlow; F. J. Dodds. Paul Jones—P. McCormick, C. Cantwell; 1st B., Barton; 2nd B., B. Cox; 3rd B., Laughlin; 4th B., Love; L. F. Hickman; C. R. Lindsay; F. J. McGrath. Mr. Van Slyke of U. S. S. Boston, will act as umpire.

REGULY FOOTBALL. CALIFORNIANS WANT US. Coach James F. Lanagan, of the University of California, is anxious that the Victoria and Vancouver Rugby football teams should play at Berkeley, Calif. The game is taking great hold at the Golden Gate and a reply is now being awaited from Treasurer R. W. Bennett, of Vancouver. If he replies favorably the local team will be communicated with at once. The expense of getting the teams down to California will be considerable, but the University authorities believe a few first-class exhibitions would do a large amount of good. According to San Francisco papers the British Columbia players will be sought, regardless of expense.

LAWYERS. VANCOUVER TOURNAMENT. Next Monday the annual tournament of the Vancouver Lawn Tennis Club will open on the Denman street grounds. There will be a full program, including the following open events: Gentlemen's singles, for championship of Mainland, of B. C. Winner takes first prize, and is entitled to hold the challenge cup for the year. The cup must be won three years in succession to become the property of the holder. Captain Wright, of Victoria, B. C., is the present holder. Ladies' singles, for championship of Mainland, B. C. Winner takes first prize and is entitled to hold the challenge cup (presented by C. M. Beecher) for one year. The cup must be won three times in succession before becoming the property of any holder. Miss M. Pitts, of Victoria, B. C., is the present holder. Ladies' singles (not carrying the championship). Winner takes first prize and is entitled to hold cup presented by H. O. Oxelid, for one year. Cup must be won three times in succession to become the property of any holder. Miss V. P. Poley, Victoria, B. C., is the present holder. Doubles—Ladies', gentlemen's and mixed. There will also be a special open event for veterans, age limit 45 years and over, for a handsome challenge cup presented by A. C. Plumert. The cup must be won three times in succession before becoming the property of any holder. The entrance fees for all events are: Singles, B.; doubles, \$2 each; pair, \$3. Entries must be received by the honorary secretary, E. Cave-Browne-Cave, P. O. box 365, Vancouver, on or before Friday, August 10th.

JARVIS' BRILLIANT FEAT. J. A. Jarvis, of Leicester, who, about a month ago, won the annual long distance championship of England by covering the distance from Kew to Putney on the Thames, 3 miles 90 yards, in 1 hour 3 mins. 40 secs., has added another race to his laurels. It occurred in Paris on July 25th, when he came out first in an entry of 18, representing seven nations. The distance was 11,262 metres (approximately 7 miles 188 yards) from the Pont National to the Auteuil Viaduct. He went this distance in 2 hours 42 minutes, beating the record of Bongrin, a professional, by 25 minutes. Amateur, an Italian, won second, Mads, a Belgian, third, Rossi, Altiro and Cattaneo, Italians, fourth, fifth and sixth, Meyer, a Hollander, seventh, Dubois and Thrall, Frenchmen, eighth and ninth. Several ladies entered, the best being Middle, Marthe Robert, who came tenth. She is of French birth, and beat the record of Miss Kirkman, the Australian professional, by 20 minutes. Jarvis will enter a contest for the world's amateur championship, organized by the French Athletic Union, to be held on August 15th.

NANAIMO WINS. In the inter-city matches at Ladysmith on Saturday between Nanaimo and Ladysmith the Coal City won easily. Following were the results: Ladies' singles—Miss Teague, of Nanaimo, beat Mrs. Pick, of Ladysmith, 6-4, 3-6, 6-2. Mixed doubles—Miss Ketchen and Mr. Pick of Nanaimo, beat Mrs. Cornwell and Rev. Dixon of Ladysmith, 4-6, 6-4, 6-4. Mr. Peto and Mr. Futcher, of Nanaimo, beat Mrs. Pickard and Mr. Cornwall of Ladysmith, 6-4, 4-6, 7-6.

THE BIG TOURNAMENT. Portland will send sixteen men to represent that city at the big week of cricket to be held under the auspices of the Victoria Cricket Club, here during the week beginning Monday, August 20th. Their players will be: W. K. Smith, captain; C. W. Lawrence, E. J. Fenwick, Markell, T. Atkinson, J. Warren, S. Mills, A. Sibley, J. King, H. Hodges, J. Hooper, G. Shipley, E. Henderson, R. Ryland, A. Mills and A. Cunningham. They leave Portland on August 18th and come here confident of winning the championship, but are liable to meet with disappointment.

HARVARD AND CAMBRIDGE. When the Harvard and Cambridge crews go over the classic course from Putney to Mortlake on September 8th, the London papers express the hope that an annual international event will be inaugurated. Now that the same style of rowing is in vogue on both sides of the Atlantic there is a chance for an absolutely equal contest between the banner representatives of the Blues and the American colleges. The proposal is that there be a race every fall between the winners of the Oxford-Cambridge and the Yale-Harvard matches.

THE OAR. AFTER CHAMPIONSHIP. John O'Neil, the amateur sculler, who defeated the Halifax champion, William Duggan, by ten lengths on Saturday in the Lorne Club regatta at Toronto, has been entered for the single scull race at the national championship regatta at Worcester, Mass., on August 16th.

J. B. A. A. REGATTA. Preparations are well in hand for the 12th annual regatta of the J. B. A. A. to be held on Saturday next. The event is one that is always looked forward to with considerable interest, for as a rule the association always puts forth its best efforts in arranging aquatic entertainments well calculated to be thoroughly representative and exciting. The programme will commence at 2 o'clock sharp and as usual the club house will be the centre of all attraction. The course for long races will be from the outer harbor to the club house, that for the canoe events in the still waters of the inner harbor. This year spectators may enjoy the special advantage of witnessing the events from unexcelled positions on the C. P. R. wharves and from other vantage points that did not exist last year. The programme starts off with the club fours for the Plumerett cup, a prize given in perpetuity. Then there will be a junior launch race for an open prize. No. 1, a great one, is a double scull race with lady coxswain; No. 4, a single scull race, with lady passenger; No. 5, a junior single race for the Mallandine cup; No. 6, a tandem canoe race; No. 7, senior single race for the Heimann cup; No. 8, a ladies' double race; No. 9, a ladies' tandem race; No. 10, an open canoe race; No. 11, a titling race; and No. 12, a swimming race.

LACROSSE. VANCOUVERS ARE HOT. The trouble between the Maple Leafs and Vancouver in the senior lacrosse has developed a lot of ill-feeling. Threats are heard that the latter team will secede from the B. C. L. A., and generally everybody concerned is hot under the collar. A formal resolution has been passed by the Vancouver that the club resign, and it will, it is stated, be carried into effect unless the executive committee reconsider its decision. The match of July 21st is to be re-played. Next Saturday was the date named, and the same was arranged for Vancouver. These grounds are engaged for a Scotch celebration, and the two Vancouver teams will be compelled, therefore, to play the game at New Westminster, which was the alternative given by the committee. This will entail expense, and both the clubs concerned are seeking uncertainty, but after an hour's Mainland trouble, Victoria can afford to stand by and let them fight it out.

CLARK'S PORK AND BEANS. A fine food for children. Builds robust health and satisfies their appetite. In three flavors, plain or with Chili or Tomato Sauce—all are good.

BASEBALL. MATCH THIS EVENING. Another international match is on the cards for this evening. At Oak Bay park, commencing at 8.30, the Victoria Fernwoods will try conclusions with the nine from the United States torpedo destroyer Paul Jones. It is expected the game will be much closer than that with the Princeton, when the Fernwoods won with scores of 20 to 4 and 17 to 5. The Paul Jones team is said to be as fast as the

CHAPTER II.—(Continued.) The trained eye told him that Lauzanne was a racing-looking horse; his well-developed shoulders reached back toward the huge quarters until the small racing saddle almost covered the short back. What great promise of weight-carrying was there? He laughed a little at the irrelevance of this thought, for it was not a question of weight-carrying at all. A two-year-old at a hundred pounds in a sprint of only five furlongs. Speed was the great factor to be considered, and surely Lucretia outclassed the other in that way. The long, well-ribbed-up body, with just a trace of gauntness in the flank, the slim neck, the deep chest, the broad, flat cannon bones and the well-laid-down hocks, giving a length of thigh like a greyhound's—and the thighs themselves, as John Porter looked at them under the tucked-up belly of the gentle mare, big and strong, and full of a driving force that should make the others break record to beat her. From the disposition of the owner's study, Lucretia stood forth triumphant; neither the chestnut nor anything else in the race could beat her. And Jockey McKay—Porter raised his eyes involuntarily, seeking for some occult refutation of the implied dishonesty of the boy he had trusted. He found himself gazing straight into the small shifty eyes of Lucretia's midge rider, and such a hungry, wolfish look of mingled cunning and cupidity was there that Porter almost shuddered. The insinuations of Mike Gaynor, and the other things that pointed at a job being on hand, half the force of the dishonesty that was so apparent in the tell-tale look of the morally irresponsible boy in whose hands he was so completely helpless. All the careful preparation of the mare, the economical saving, even to the self-denial of almost necessary things to the end that he might have funds to back her heavily when she was in the high trials she had given him when asked the question, and which had gladdened his heart and brought an exclamation of satisfaction from his phlegmatic trainer; the girlish interest of his daughter in the expected triumph—all these contingencies were as less—than nothing should the boy, with his look of the demon in his eyes, not ride straight and honest.

CHAPTER III. In John Porter's home racing had no debating effect. If a man couldn't race squarely—run to win every time—he had better quit the game, Porter had always asserted. He raced honestly and bet openly, without care and without hypocrisy; just as a financier might have traded in stocks in Wall street, or a farmer might plant his crops and trust to the future and fair weather to yield him a harvest in return. So much of the racing life was on honor—so much of the working out of it was in the open, where purple-cloved fields gave rest, and health, and strength, to the honest atmosphere, was impregnated with moral truth, and courage, and frankness, in its influence on the girl's development. Every twist of her sly figure bore mute testimony to this; every glance from her wondrous eyes was an eloquent substantiating argument in favor of the life she affected. John Porter looked down at the

small, rather dark, upturned face, and a half-amused smile of content came to his lips. "Did you see Lucretia?" he asked. "Isn't she a beauty? Hasn't Dixon got her in the pink of condition?" "I saw nothing else, father." She beckoned to him with her eyes, tipped her head forward, and whispered: "Those people behind us have backed Lauzanne. I think they're racing folks." The father smiled as an uncultured woman's voice from some back seat, jarred on his ear. Alis noticed the smile and its provocation, and said, speaking hastily, "I don't mean like you, father—" "Like us," he corrected. "Well, perhaps; they're more like betting or training people, though." She put her hand on his arm warningly, as a "high-pitched falsetto" penetrated the drone of their half-whispered words, saying, "I tell you Dick knows all about this Porter mare, Lucretia." "But I like her," a baritone voice answered. "She looks a rattlin' filly." "You'll dime off zwieback and by your lonely Ned, if you play horses on their looks—" "Or women either," the baritone cut in. "You're a fair judge, Ned." But Dick told me to go the limit on Lauzanne, and to leave the filly alone." "The man persisted," "an' there's never anythin' doin' with Porter." "Perhaps not," the unpleasant feminine voice sneered mockingly, with an ill-conditioned drawl on the "perhaps"; "but he doesn't ride his own mare, does he?" (To be continued.)

There is no Tenderness, Pain, Sweating, Burning, or Unpleasant Odor About Feet That Use "Foot Elm". Foot Elm makes it easy to have comfortable feet.

WINDY ARM DISTRICT.

Good Prospects of New Northern Camp as Foreseen by Provincial Mineralogist.

The last number of the Atlin Claim to hand has this to say of the new mining camp on the border between this province and Yukon Territory.

PATENT OFFICE REPORT.

Rowland Brittain, patent attorney, Vancouver, obtained recently for Felix Hughes, of the same city, a Canadian patent on a skid-setting gauge.

In applying this system the inventor sets out along each side of the cleared skidway a line of stakes or pickets over the tops of which the track layer first aligns by the eye the contour of the track.

THE WHITE PLAGUE.

Reference Made to Crusade Against Consumption at British Columbia Medical Association Meeting.

The retiring president of the British Columbia Medical Association in his annual review of the conditions of the profession in the province made reference to the tuberculosis crusade.

H. 103.

## ALBERTA RED WHEAT.

Two Thousand Eight Hundred Bushels From One Hundred Acres.

(Associated Press.)  
Lethbridge, Alta., Aug. 7.—P. N. Stenowser to-day put on the market 2,800 bushels of Alberta red wheat from 100 acres near Lethbridge. He simply disc-harrowed the land last summer, and put in the seed without ploughing. It would have been a heavier crop, but was hindered by a local shower of hail.

## SEARCH FOR BANK OFFICIALS.

President and Cashier Will Be Taken Into Custody When Found.

(Associated Press.)  
Chicago, Aug. 7.—President Paul O. Stensland of the Milwaukee avenue state bank will probably be arrested as soon as he enters Chicago or can be found. Bank Examiner Jones, who closed the bank yesterday, said to-day that Mr. Stensland surely had guilty knowledge of the looting of the bank.

## WANT WHEAT FOR SEED.

Alberta Grain Will Be Shipped to Dakota and Nebraska.

(Associated Press.)  
Raymond, Alta., Aug. 7.—The Alberta Pacific elevator people offer Mr. Silver between sixty and sixty-five cents per bushel for his wheat, October delivery. They are shipping to Dakota and Nebraska for seed, demonstrating the superiority of this country for wheat production.

## ENGINEER KILLED.

Believed to Have Been Slightly De mented and Was Shot in Duel With Deputies.

Council Bluffs, Ill., Aug. 6.—Ed. Yoncker, a Great Western engineer, recently from Joliet, Ill., was killed in a pistol duel with several deputies at Lake Manawa, a summer resort near here, yesterday. Yoncker's wife and two children were witnesses of the tragedy.

## LIVELY TIMES EXPECTED.

At Annual Convention of the Brotherhood of Teamsters.

Chicago, Aug. 6.—Union teamsters from many cities in the United States and Canada, gathered here to-day for the annual convention of the Brotherhood of Teamsters. The political disturbance within the organization are expected to provide stormy meetings, and before the convention was called to order to-day, there was a division of opinion as to whether the international disputes should be fought out in the open meeting or behind closed doors. Cornelius P. Shea, the president, who seeks re-election, and Albert Young, aspirant for the office of president, both favor open-meetings.

## DISPERSED BY DRAGONS.

(Associated Press.)  
Moscow, Aug. 6.—Several red flag demonstrations were broken up last night by dragons, but the city generally is quiet. The central committee of the railroad men's union has refused to co-operate in the strike. Many of the factories here are resuming work, and the electric plant is again in operation. The Social revolutionists favor a strike in the autumn.

## THE CHEHALIS INQUIRY.

Vancouver, Aug. 6.—Commander Hunt, of H. M. S. Shearwater, has been selected to act as assessor in place of Captain Patterson, in the judicial inquiry into the loss of the Chehalis to be conducted by Mr. Justice Morrison.

## SHIPOWNER DEAD.

(Associated Press.)  
Liverpool, Aug. 7.—W. Imrie, one of the founders of the White Star line, died to-day.
