Game animals (except live animals) in numbers not exceeding the maximum seasonal limits prescribed by regulation 11, the hides, heads, and feet of game animals, articles made from such hides, heads, or feet, grouse and ptarmigan, and the skins and feathers of game birds, legally taken during the open season, may be possessed and transported at any time within the Territory by any person.

Any person may without a license possess and transport at any time within or out of the Territory the shed antlers of caribou, moose, and deer.

Any person may transport within the Territory during the period constituting the open season therefor migratory game birds legally taken during the open season, and any such migratory game birds or parts thereof in transit during the open season may continue in transit for such additional time immediately succeeding such open season, not to exceed five days, as may be necessary to deliver the same to their destination and may be possessed within the Territory during the period constituting the open season and for an additional period of 10 days next succeeding such open season, but no person shall possess more than 50 migratory waterfowl in the aggregate, but including not more than 30 ducks and 8 geese of all kinds, at any one time.

A nonresident may possess and transport at any time within or out of the Territory the skins and feathers of game birds and any article manufactured from the hides or hoofs of caribou, deer, or mountain goats, legally taken.

A nonresident citizen who is the holder of a valid game license, or a nonresident alien who is the holder of an alien special license, may possess and transport at any time within or out of the Territory 1 moose, 3 deer, 2 caribou, excepting if such caribou are from the Alaska Peninsula as particularly described in regulation 11 then only 1, 2 mountain sheep, 2 mountain goats, and 2 in the aggregate of large brown and grizzly bears, or any parts of such animals, but no more of any one kind legally taken by him; but before any big game animal or part thereof shall be transported out of the Territory, the person desiring to make such shipment shall first make and deliver to the collector of customs at the port of shipment, in case the shipment is made by express or freight, or to the postmaster at the place where mailed, if shipment is made by parcel post, his affidavit to the effect that he has not violated any of the provisions of the Alaska game law or the regulations thereunder; that the big-game animal or part thereof which he desires to ship has not been purchased or sold and is not being shipped for the purpose of being sold, and that he lawfully killed the animal and is the owner of it or the part thereof which he desires to ship; and if the shipment consists of a caribou or part thereof, the statement must show in the case of caribou whether the animal was killed on the Alaska Peninsula or elsewhere in the Territory. Such affidavit or affidavits shall accompany the shipment, if made by express or freight, to the port of clearance, there to be taken up by the collector of the port; collectors of customs at ports of clearance and postmasters shall promptly transmit such affidavits to the commission. Such shipment shall have attached thereto a license coupon for each carcass or part thereof contained therein.

On the return of the trophy or trophies to the consignor, the shipping license shall be securely fastened to the shipment, and the collector or postmaster through whose office it is received shall detach the original license, note thereon the contents of the shipment, and promptly forward the license to the commission.

A citizen of the United States who has been a resident of the Territory for at least two years and who is removing his residence from the Territory may export, by express, freight, or parcel post, trophies of game animals legally acquired by him upon first procuring from a member of the commission, or collector of customs, a shipping license, which shall be securely fastened to the shipment in a conspicuous place.

Collectors and postmasters shall promptly transmit such statements to the commission. In case skins or furs are shipped out of the Territory by means other than express, freight, or parcel post, the person transporting them shall first transmit by mail such a statement to the commission.

Persons desiring to have such skins sealed shall present them to a member of the commission, to a game warden, or to other person authorized by the commission to seal skins, together with such affidavit or affidavits of lawful taking or importation as may be required. Skins of beavers or martens unless sealed as prescribed by this regulation may not be possessed or transported by any person after the expiration of such period.

Such permit shall be carried on the person of the permittee when he is collecting animals, birds, or nests or eggs thereunder, and shall be exhibited to any warden or other person requesting to see it.

Applications for permits to take land fur-bearing animals for propagation should be addressed to the Alaska Game Commission, Juneau, Alaska, and must state the kinds and numbers of animals the applicant desires to capture, and where the animals are to be kept. Applications for all other permits should be addressed to the Secretary of Agriculture, Washington, D. C., and must state the name and address of applicant, his age, whether he is a taxidermist, name and address of the public museum or park, if any, which he represents, region where he desires to collect, number of each species of animal or bird or nests or eggs he desires to collect, probable port and date of shipment, and the purpose for which they are intended.

The permit may limit the number and species of animals, birds, and nests and eggs that may be collected thereunder, and may authorize the permittee to possess, buy, sell, and exchange animals and birds, parts thereof, and nests and eggs for scientific, propagation, or exhibition purposes, and prescribe the manner in which specimens may be taken or may be transported, or it may limit the permittee to one or more of these privileges and prescribe such other restrictions as the Secretary may deem necessary.

Each permit shall expire on December 31 of the year of issue, shall be revocable at the discretion of the Secretary, and shall not be transferable. A permit duly revoked by the Secretary shall be surrendered to him by the person to whom issued on demand of any employee of the United States Department of Agriculture or of the commission authorized by the Secretary to make such demand.

The holder of a permit to take land fur-bearing animals for propagation shall on or before the 10th day of January following the expiration of this permit report to the Alaska Game Commission, Juneau, Alaska, the kinds, number, and sex of all animals taken by him under the permit, the disposition made of all animals so captured, and whether any animals were killed or died in the course, or as a result of the capture operations.

A permittee holding other permits shall report to the Secretary on or before the 10th day of January following the termination of his permit, the number of animals, birds, and nests and eggs collected, bought, sold, exchanged, or transported during the preceding calendar year.

Shipments of specimens to the United States Department of Agriculture or to the Smithsonian Institution of the United States National Museum may be made without being accompanied by a permit, and shipments containing not to exceed 10 live animals and not to exceed 25 live birds in any one consignment may be sent without being accompanied by a permit to the following zoological parks, if shipped directly to one of such parks and not to some agent:

REGULATION 23.—PERMITS TO KILL ANIMALS OR BIRDS INJURIOUS TO PROPERTY

When information is furnished the Secretary that any species of bird or animal has become, under extraordinary conditions, seriously injurious to agricultural or other interests in the Territory, an investigation will be made to determine the nature and extent of the injury, and whether the animals or birds alleged to be doing the damage should be killed, and, if so, during what times and by what means. Upon his determination an appropriate order will be issued.

REGULATIONS OF THE ALASKA GAME COMMISSION RELATING TO GUIDES, POISONS, AND RESIDENT TRAPPING LICENSES

By virtue of the authority conferred upon the Alaska Game Commission by act of January 13, 1925 (43 Stat. 739), entitled "An act to establish an Alaska Game Commission to protect game animals, land fur-bearing animals, and birds in Alaska, and for other purposes," the following regulations for the protection of game animals, land fur-bearing animals, and birds in Alaska are made and published, to take effect July 1, 1930.

REGULATION A.—EMPLOYMENT OF GUIDES BY NONRESIDENTS HUNTING IN ALASKA³

No nonresident of the Territory shall take game animals in Alaska except in fur district 3 unless accompanied by a registered guide duly licensed by the commission, except that nonresident Federal officials engaged in investigations in Alaska upon securing a special permit from the commission shall not be required to employ licensed guides when hunting game animals.

REGULATION B.—QUALIFICATIONS OF GUIDES

Only a resident citizen or a resident native Indian or Eskimo who is the holder of a valid registered guide license shall act as guide for a nonresident hunter of game animals in Alaska. Any person desiring to be registered with the commission and granted a guide license for guiding nonresident hunters, shall file with the commission an application, on a form issued by the commission, which shall be subscribed and sworn to by the applicant before a person authorized to administer oaths. Such application shall state applicant's citizenship and residence status, his permanent address, and the regions in which he desires to guide nonresident hunters. Each applicant for a registered guide license shall be required to undergo a written and oral examination given by a member of the commission or by such person as the commission may designate, to determine his qualifications to guide and his knowledge of the Alaska game law and regulations.

If, in the opinion of the commission, an applicant for guide license does not possess sufficient field experience but meets all other requirements of the regulations, a special or assistant guide license may be issued to the said applicant limiting his guiding privileges until such time as the commission is satisfied that he is qualified for a regular guide license.

No guide license shall be issued unless the application therefor shall have been approved by the Alaska Game Commission at a regular or special meeting: *Provided*, That in cases of emergency the executive officer may, after due investigation and being satisfied of the applicant's qualifications, issue a guide license upon an application properly completed and accompanied by the required fee, authorizing the licensee to guide certain specified nonresident hunters, who shall be named in the application for such license: *Provided further*, That the extension of guiding privileges authorized by such licenses or the renewal thereof shall be made only upon compliance with the requirements first above stated.

A registered guide license must bear the signature of the chairman of the commission and be countersigned by one other member of the commission. Each license shall expire on June 30, next succeeding its issuance, shall be revocable at the discretion of the commission, and shall not be transferable.

³ A list of licensed guides may be obtained upon request addressed to the Alaska Game Commission, Juneau, Alaska.

(Certain islands of the Aleutian Chain have been eliminated from the Aleutian Islands Reservation—see p. 23.)

Each licensed guide shall submit to the commission immediately upon completion of a hunting trip, a record of the name and address of each nonresident in each hunting party for which he acted as guide, the period covered by his services rendered each hunting party during the open season, the number and species of animals taken by each nonresident guided by him, the number and species of animals wounded but not secured by each nonresident hunter guided by him, and the numbers and localities of each species of big-game animal observed by him and members of the hunting party.

REGULATION C.—USE OF POISON

No hunter or trapper, including native Indians or Eskimos, shall have in possession any strychnine, death capsules, or any other poison capable of being used for killing fur-bearing or game animals. Possession shall include presence of such poisons in camps, cabins, buildings, or boats occupied by hunters, trappers, native Indians, or Eskimos.

REGULATION D.—RESIDENT TRAPPING LICENSE

After July 1, 1930, no resident of Alaska, except a native-born Indian, Eskimo, or half-breed, who has not severed his tribal relations by adopting a civilized mode of living or by exercising the right of franchise, shall take or attempt to take land fur-bearing animals in Alaska without first having obtained a resident trapping license.

On and after July 1, 1930, all former regulations of the Alaska Game Commission relating to guides, poison, and resident trapping licenses shall be, and are hereby revoked.

A foreign-born person not a citizen of the United States who has not declared his intention to become a citizen of the United States, or who has not resided in the Territory for at least one year after having declared such intention, shall be considered an alien.

That if any clause, sentence, paragraph, or part of this act shall for any reason be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, or parts thereof directly involved in the controversy in which such judgment shall have been rendered.

Any officer or employee empowered to enforce this act shall have with respect to camps and vessels of the United States like authority and powers of search as are conferred with respect to such vessels upon wardens appointed by the Secretary of Agriculture for the protection of land fur-bearing animals in Alaska, by the act of June 30, 1921 (Forty-first Statutes at Large, page 694, at page 716). The several judges of the courts established under the laws of the United States and United States commissioners may, within their respective jurisdictions, upon proper oath or affirmation showing probable cause, issue warrants in all such cases. All guns, traps, nets, boats, dogs, sleds, and other paraphernalia used in or in aid of a violation of this act may be seized, and all animals, birds, or parts thereof, or nests or eggs of birds taken, transported or possessed contrary to the provisions of this act shall be seized within or outside the Territory by any officer or person authorized to enforce this act, and upon conviction of the offender or upon judgment of a court of the United States that the same were being used or were taken, transported, or possessed in violation of this act, shall be forfeited to the United States and disposed of as directed by the court having jurisdiction, and if sold the proceeds of sale shall be transmitted by the clerk of the court to the executive officer to be disposed of as are other receipts of the commission. It shall be the duty of the Secretary of the Treasury and the Postmaster General, upon request of the Secretary of Agriculture, to aid in carrying out the provisions of this act.

SEC. 8. TAKING OF ANIMALS AND BIRDS RESTRICTED.—That, unless and except as permitted by this act or by regulations made pursuant to this act, it shall be unlawful for any person to take, possess, transport, sell, offer to sell, purchase, or offer to purchase any game animal, land fur-bearing animal, wild bird, or any parts thereof, or any nest or egg of any such bird, or, except under regulations of the Secretary of Agriculture, to molest, damage, or destroy beaver or muskrat houses: *Provided*, That nothing in this act shall be construed to prevent the collection or exportation of animals, birds, parts thereof, or nests or eggs of birds for scientific purposes, or of live animals, birds, or eggs of birds, for propagation or exhibition purposes, under a permit issued by the Secretary of Agriculture and under such regulations as he may prescribe. Land fur-bearing or game animals which escape from captivity, unless recaptured by their owners, and all fur and game animals hereafter introduced into Alaska are declared to be wild fur-bearing or game animals and shall be subject to the provisions of this act.

SEC. 9. POISON, USE PROHIBITED.—That no person shall at any time use any poison to kill any animal or bird protected by this act or put out poison or a

No hunter or trapper, including native Indians or Eskimos who hunt and trap, shall have any strychnine or other poison designated by the commission in his possession, and any such poison found in the possession of any such person shall be seized and disposed of in such manner as the commission may determine. Any person selling or otherwise disposing of any strychnine or any other poison designated by the commission shall keep a record in a special book showing the name and address of each person purchasing or otherwise procuring it and the kind and amount thereof, which record shall at all times be open to inspection by any game warden or other officer authorized to enforce this act, and he shall transmit such information monthly to the commission.

SEC. 10. REGULATIONS.—That the Secretary of Agriculture, upon consultation with or recommendation from the commission, is hereby authorized and directed from time to time to determine when, to what extent, if at all, and by what means game animals, land fur-bearing animals, game birds, nongame birds, and nests or eggs of birds may be taken, possessed, transported, bought, or sold, and to adopt suitable regulations permitting and governing the same in accordance with such determinations, which regulations shall become effective ninety days after the date of publication thereof by the Secretary of Agriculture; but no such regulation shall permit any person to take any female yearling or calf moose, any doe yearling or fawn deer, or any female or lamb mountain sheep except under permit for scientific, propagation, or educational purposes; or to use any dog in taking game animals; or to sell the heads, hides, or horns of any game animals, except the hides of moose, caribou, deer, and mountain goat which the regulations may permit to be sold under such restrictions as the Secretary may deem to be appropriate; or to use any shotgun larger than a number 10 gauge; or to use any airplane, steam or power launch, or any boat other than one propelled by paddle, oars, or pole in taking game animals or game birds; or to sell any game animals, game birds, or parts thereof, to the owner, master, or employee of any coastal or river steamer or commercial power or sail boat, or to procure for serving or to serve any such game animals, game birds, or parts thereof, in any cannery or other commercial mess house, or to the employees on any such steamer or boat; nor, except as herein provided, shall prohibit any Indian or Eskimo, prospector, or traveler to take animals or birds during the close season when he is in absolute need of food and other food is not available, but the shipment or sale of any animals or birds or parts thereof so taken shall not be permitted, except that the hides of animals so taken may be sold within the Territory, but the Secretary by regulation may prohibit such native Indians or Eskimos, prospectors, or travelers from taking any species of animals or birds for food during the close season in any section of the Territory within which he shall determine that the supply of such species of animals or birds is in danger of extermination; nor shall any such regulation contravene any of the provisions of the migratory bird treaty act and regulations.

SEC. 11. LICENSES: SUBDIVISION A. SUBDIVISION J. FALSE STATEMENT IN APPLICATION FOR AND ALTERATION AND EXPIRATION OF LICENSES.—That any false statement in an application for license as to citizenship, place of residence or other material facts shall render null and void the license issued upon it. Any person who shall make any false statement in an application for a license shall be deemed guilty of perjury, and upon conviction thereof shall be subject to the penalties provided for the commission of perjury. No person shall alter, change, loan, or transfer to another any license issued to him in pursuance of this act, nor shall any person other than the one to whom it is issued use such license; and each of such licenses shall expire the 30th day of June next succeeding its issuance.

SUBDIVISION K. PROCEEDS OF LICENSES, DISPOSITION OF.—That each officer or person selling licenses shall, as soon as practicable after the first day of each month, transmit the proceeds thereof with a report of such sales to the executive officer, who shall keep accurate records thereof and of receipts from all other sources and promptly transmit 50 per centum thereof to the Secretary of Agriculture, to be covered into the Treasury of the United States as miscellaneous receipts, and 50 per centum thereof to the treasurer of the Territory to be covered into the territorial school fund.

SEC. 17. That nothing in this act contained shall be construed as repealing or modifying in any manner section 6 of the act of Congress approved February 26, 1917 (Thirty-ninth Statutes at Large, page 938), entitled "An act to establish the Mount McKinley National Park in the Territory of Alaska."

BIRD REFUGES IN ALASKA

On the Alaska bird refuges named below, which are administered by the Biological Survey through its representatives in Alaska, wild animals and birds are specially protected. (See laws, p. 25.) In addition, the Mount McKinley National Park, the Katmai National Monument, and the Glacier Bay National Monument, under the National Park Service of the Department of the Interior, are game sanctuaries, all hunting being prohibited in these places. (See map, fig. 3.) Certain other areas where birds and animals are protected in the Territory are defined in regulation 14 (p. 7).

Aleutian Islands (established by Executive order of March 3, 1913).—A chain of islands with vegetation characteristic of the treeless Arctic plains, extending westward 1,200 miles from the Alaska Peninsula, including Unimak Island on the east and Attu Island on the west; maintained for the protection of native birds and game animals, the encouragement of fisheries, and the propagation of reindeer and fur animals. Islands usually rocky and some of them covered with a vigorous growth of grass and lichens. Blue foxes are farmed on many. By Executive order of November 23, 1928, the islands of Akun, Akutan, Sanak, Tigalda, Umnak, and Unalaska, including Sedanka or Biorka, and by Executive order of December 19, 1929, a portion of Amaknak Island, were eliminated from this reservation and transferred to the jurisdiction of the Department of the Interior.

Bering Sea (established by Executive order of February 27, 1909).—Includes St. Matthew and Hall Islands and Pinnacle Islet in Bering Sea, about 220 miles north of the Pribilofs. St. Matthew, a jagged, straggling reach of bluffs and headlands, connected by bars and lowland spits, has an extreme length of 22 miles and varies in width from 2 to 3 miles. Hall Island, 3 miles to the west, is separated from St. Matthew by Sarichef Strait. Pinnacle Islet is a narrow rock about 1 mile long and 200 yards wide and rises to an altitude of 900 feet so abruptly that there is scarcely a place for a boat to land. Arctic foxes, represented mainly by the normal phase, which turns white in winter, are found in numbers, some coming from the mainland in winter on the pack ice. The rare and beautiful McKay's snowflake is known to breed nowhere except on this refuge, and the Pribilof sandpiper breeds here more extensively than anywhere else.

Bogoslof (established by Executive order of March 2, 1909).—Volcanic islets, in Bering Sea, commonly known as the Bogoslof Islands, about 40 miles north of Umnak and Unalaska, of the Aleutian Islands Reservation. Noted for the large colonies of sea lions, and the rocky portion as being the home of millions of murre.

Chamisso Island (established by Executive order of December 7, 1912).—A reservation about a mile and a quarter long and half a mile wide, consisting of Chamisso Island and Puffin and other near-by rocky islets in Kotzebue Sound, 2 miles south of the extremity of Choris Peninsula. One of the most important breeding rookeries of Arctic birds along the northwest coast of Alaska, including horned puffins, Pallas's murre, Pacific kittiwakes, and Point Barrow gulls.

Curry and Alaska Railroad (established by Executive order of February 21, 1927).—Certain areas along the Alaska Railroad between mileposts 40.5 and 252 set aside especially as preserves and breeding grounds for muskrats and beavers, but under regulation 14 (p. 7) all game birds and game and fur-bearing animals are protected; and an area comprising 14 square miles surrounding the Government hotel at Curry, Alaska, as a bird, fish, and game refuge; fishing regulated by the Department of Commerce.

Forrester Island (established by Executive order of January 11, 1912).—In the Pacific Ocean west of Ketchikan, at the extreme southeastern boundary of Alaska, including Forrester and Lowrie Islands and Wolf and other adjacent rocks. The breeding place of various kinds of sea birds.

Hazy Islands (established by Executive order of January 11, 1912).—A group of islands in southeastern Alaska, west of Coronation Island and 100 miles north of Forrester. Breeding place for numerous sea birds.

Nunivak Island (established by Executive order of April 15, 1929).—Located in Bering Sea, off the west coast of Alaska. Set apart for the use of the Department of Agriculture in conducting experiments in the crossing and propagation of reindeer and native caribou and also as a preserve and breeding grounds for native birds and wild game and fur-bearing animals.

St. Lazaria (established by Executive order of February 27, 1909).—At the entrance to Sitka Sound, about 30 miles west of Sitka. The breeding place of certain sea birds.

Tuxedni (established by Executive order of February 27, 1909).—Embracing Chisik, Egg, and other small islands in Tuxedni Harbor, Cook Inlet, set aside as a breeding ground for native birds. Within the Southwestern Fisheries Reservation, established November 3, 1922.

SEC. 1. Every person engaged in the business of breeding blue foxes in Alaska shall be the owner of a duly registered brand or mark of identification for marking blue foxes and skins of blue foxes as hereinafter provided.

Such skins shall then be tagged for identification by the commissioner in such manner and pursuant to such rules as shall be provided by the secretary of the Territory. The commissioner shall file such affidavits and keep in his office such records of such skins and their owners.

Unmanufactured blue fox skins hereafter legally imported or brought into the Territory shall, at the time of entering the Territory, be presented to the United States commissioner of that precinct, and shall be tagged in like manner to those legally held prior to the passage of this act. Any unmanu-

factured blue fox skins hereafter legally acquired in the Territory, other than skins raised on farms having a registered brand and branded with such brand as herebefore provided, shall likewise, on the first occasion when such skins are brought to a place where a United States commissioner resides or has his office, be presented to such United States commissioner with an affidavit showing the facts proving legal possession, and shall be tagged in like manner. SEC. 6. Subsequent to the first day of October, 1923, every blue fox skin not marked in the manner directed in sections 4 and 5 of this act and not in possession of a fox farmer on his own fox farm shall be presumed, *prima facie*, to have been unlawfully obtained and to be unlawfully possessed, bought, sold, given, received or transported as the case may be.

All persons dealing in, possessing or transporting fur pelts in Alaska, at any time during usual business hours, shall afford any marshal or deputy marshal, Federal or Territorial game or fur warden full and fair opportunity to inspect any and all pelts, furs and skins in their possession, and any person failing or refusing to do so, after demand, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars or by imprisonment for not more than one year, or by both such fine and imprisonment in the discretion of the court.

SEC. 12. It shall be unlawful for any person, other than an officer on lawful business, to land or enter upon any island lawfully used for fur farming without the permission of the lawful occupant or the person using said island as a fur farm. When such landing or entrance is made at any other place than within sight of said fur farmer's dwelling house and at a place established by him for landing purposes, such landing or entrance shall be presumed to be without the permission required by this section. Nothing herein contained shall be construed as limiting any rights specifically reserved in the lease, contract, or permit under which any fur farm or island is occupied, nor any right conferred by Federal law or regulation: *Provided, further,* That a landing made on any island by stress of circumstances, storm or accident shall not be deemed unlawful.

Every person occupying an island or land for the purpose of propagating blue foxes shall within three months after the passage of this act place signs within

SEC. 13. Any person other than the fur farmer himself or his duly authorized agent, who shall take or attempt to take, capture, or kill any animals of any kind on any fur farm, or who shall set any trap on such fur farm, or place poison thereon, or who shall fire or discharge any gun thereon, or shall shoot at any birds or animals upon such farm, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than one thousand (\$1,000.00) dollars, or imprisonment in jail for not more than six (6) months, or by both such fine and imprisonment in the discretion of the court.

SEC. 14. All traps, guns, boats, or other paraphernalia used in or in aid of a violation of this act shall be forfeited to the Territory of Alaska, and shall be liable to seizure by any Federal or Territorial game or fur warden, or any marshal or deputy marshal, and when so seized shall be delivered into the possession of the treasurer of the Territory or to someone designated by said treasurer to act for him in the matter, and shall by the treasurer or under his direction be sold at public auction and the proceeds covered into the treasury of the Territory after all expenses of seizure and sale have been paid.

For the purpose of carrying out the provisions of this section, the treasurer is authorized to execute all instruments and conveyances necessary for the purpose of conveying title to such property so seized and sold.

SEC. 15. Any person who shall, in violation of the provisions of this act, have in his possession, buy, sell, offer to buy or sell, give, receive or transport any blue fox pelt not marked or branded as herein provided shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000.00) dollars or by imprisonment for not more than one year or by both such fine and imprisonment.
