 I'll judge Kansas!!!
 disorders that would
 shame the worst
 of the world -
 & no free state ever
 has committed an
 error in Kansas

D

Mr. San says that he
has never exchanged
single soldier in Iowa
~~and~~ I traveled into
streams the more to
be out of the way of
observers —

The man still lives
with a stainless head
to show an outraged
world the courage that
has secured it thus

I defy anyone to find a
single act committed
by any man in my
country that is deso-
gatory to a gallant sol-
dier or a gentleman

The Hon. Proslavery
have decided all
of the dispatches that
I have enumerated for
the President

Paul - all by Galley
abroad at nobody's
order

Second part
 Causes of the present
 alarming state of things
 No rebel has been
 resulted from slavery
 in this country -
 1825 Messrs. Edmund
 to Mr. V. - Slavery dying
 in Europe at the 17
 same date -

12 An. - Trade made no
 Slaves Pap. Catholics
 #1620 the last vestige
 of Slavery has appeared
 from England and
 all Europe -

Slaves are rendered by
 having the same rights
 as apprentices in
 N. A.

We cannot blame the par
 us of the constitution
 for the man in
 which this parallel is
 shown -

It was the best they
could do to admit the
0% claim - so they
fought and perhaps
it was - The I said
they would never come
into the union without
the claim -

The fathers had a
memorandum on
this and perhaps it
was the best they could
do -

The claim is for
territory into which to
pass the border of
slaves is the land
of our troubles at
present -

Slaves held were used
with slaves as such
as this was a free
state to be admitted

All of the states except
free were free states
and so be admitted
seem an slavery
seems I state it

The why not appeal it

Every Senator in Congress
looked up to J. R. A. as
the soundest man of
