COMMUNICATION

From: Otomi Kinchaku Ami Kumiai
(Otomi Purse Net Fishing Association)
Address - Oigun, Utsuhomura, Fukui Prefecture
(On Wakasa Bay)
President - Kitaro Sato and 60 members

To : Headquarters I Corps
Daiken Building, Kyoto

General translation
of attached letter

The purpose of this communication is two-fold: (1) To convey to you the heartfelt gratitude of the Otomi Purse Net Fishing Association (on Wakasa Bay) for your great efforts in showing use the way to a peaceful and democratic Japan. May we assure you that your kindness is greatly appreciated. (2) To solicit your support and every assistance in our effort to allevitate the dire sea food shortage in Japan.

We, the members of the Otomi Purse Net Fishing Association are primarly fishermen in near waters. For sometime we have been watching tremendous schools of fish off shore but have not been able to catch them because of our physical equipment.

This year, fortunately, large schools of fish have come near shore and have done so over a fairly long period of time enabling us to make fine catches. But in so doing our boats and nets have suffered considerable damage and are in grently need of repair.

At our recent association meeting it was unanimously decided that this is an excellent time to re-orient ourselves. We have decided to build larger boats and to make ocean nets for off shore large scale fishing. We have the necessary material for the boats and engines and the work is underway. The Fukui Prefectural Government authorities assured us that the association would be given a large distribution of raw cotton for nets but we have now discovered that what they call large is only 100 kans of raw cotton which is not nearly enough for the boats we are preparing. To equip them properly we need 1,000 kans of raw cotton for nets. Not wishing to request more than is absolutely necessary, the members have decided to salvage the material in the nets on hand. But even though we use them and the Fukui Prefecture supply, we still lack 400 kans of raw cotton for the ocean net.

This raw cotton is or was on sale in the black market but we cannot buy it there as our catches are all sold at official prices through regular channels. If we must buy at black market prices we cannot possibly

Incl 5

Cont'd

make both ends meet and will have no other recourse than to disband.

This is a sincere request. Please help us. We want to buy:

400 kans of raw cotton
2 bundles of 8-bu manila rope
2 " " 6-bu " "
10 " " 4-bu " "

At Official Prices.

Please help us with your orders or your recommendations or in any and all ways possible in our efforts to give the people a better and larger supply of sea food in this time of food crisis.

(Signed) Otomi Kinchaku Ami Kumiai
Oigum, Utsuhomura (Fukui)
Sato, Mitaro and 60 others
