Questionnaire

1. Name (In full).

Tōru Fujikawa

2. Other names which you have used or by which you have been known.  
(alias or penname).

None.

3. Date of birth (age).

The 3rd January, 1894. ( 55 years old)

4. Place of birth (prefecture).

Kumamoto Prefecture.

5. Present address (in full) and telephone number.

No. 317, 2-chome, Higashiokubo, Shinjuku-ku, Tokyo.  
Tel: Yodobashi (37) 0098.

6. Permanent address (in full).

No. 317, 2-chome, Higashiokubo, Shinjuku-ku, Tokyo.

七、現に保有し又は就こうとする財閥、制限、從屬又は關係會社における役員としての地位

(一) 會社の名稱及び財閥系統(昭和二十年九月二日以降稱號變更があつた場合は舊稱號を含む)

朝日生命保險相互會社

古河財閥系

(二) 財閥會社、制限會社、從屬會社又は關係會社の區分(財閥會社の場合には更に直系、準直系又は傍系の區分)

(三) 地位

準直系會社たる帝國生命保險株式會社の承継會社

常務取締役

(四) 就任の豫定日

現任

八、前項の他本人の保有するすべての身分及び職業

無し

九、財閥としての指定者との親族關係

(一) 關係の有無及び有りとすればその詳細(財閥同籍者との親族關係を含む)

無し

(二) 指定者か指定された日において指定者と同一戸籍内にあつたことの有無

無し

11. At the time of your assumption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangement existed in writing.

*none*

b. Details of circumstances under which you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

On the 30th June, 1942, Mr. Tatsugoro Usami resigned the position of standing director of the "Teikoku" Life Insurance Company owing to his family relation. In the selection of substitute director to fill up the vacancy, the Board of Directors had at first decided to select it from among the employees of the "Teikoku Life", and then I was unanimously recommended by all the member of the Board of Directors and was elected as the director at the general meeting of share-holders held on the 27th July 1942.

The reason of such recommendation and election were as follows:

I was in service of office for twenty one long years since my adoption to the Company; and I devoted considerably to insurance mathematics and actuarial affairs through the knowledge acquired in the U.K. and the U.S.A. where I had been over two years respectively; further I rendered the most remarkable services to that most difficult and technical part of assuming en bloc the portfolio risks of the "Toyo" Life Insurance Company and the "Maekawa" Life Insurance Company, when those two companies were absorbed by the Teikoku Life Insurance Company Limited.

Immediately on the election as a director at the general meeting of share-holders, I was elected as a standing director by mutual election from among the directors there. The reason of this final election was as follows:

There had been a firm well-established system of "one presidency and three standing directorship" as the top ranking organ of the Company. But a gap to this system was made by the retirement of Mr. Usami, the standing director, and if such vacancy were filled up from the ordinary directors at those times, there should occur the overlapping of standing directors in either of the Financial Dept. or the Business Dept. of the Company, which must be avoided to the clever operation of Company's management.

In order to solve this hardness and also to keep on the "One presidency and three standing directorship system, I, a specialist for actuarial affairs was elected as the standing director, though I was entirely a new director. So, I was entrusted chiefly with the actuarial business affairs of the Company similarly to my services before my assuming the position of directorship.

I did not assume the business affairs of which Mr. Usami had been in full charge.

It is therefore clear that my appointment to the position of a standing director was quite a contingency which took place for the sake of keeping on the old-established system in Company organization.

I was not therefore, coming under the sphere of "a standing director" in general sense, but I assumed such situation nominally.

DISAPPROVED June 22 1948  
不承認 昭和23年6月22日

Misao Ueda

Toru Fujikawa,  
No. 317, Higashi Okubo,  
2-chome, Shinjuku-Ku,  
Tokyo.

June 4th, 1948.

Hitoshi Ashida Esq.,  
Prime Minister.

Sir,

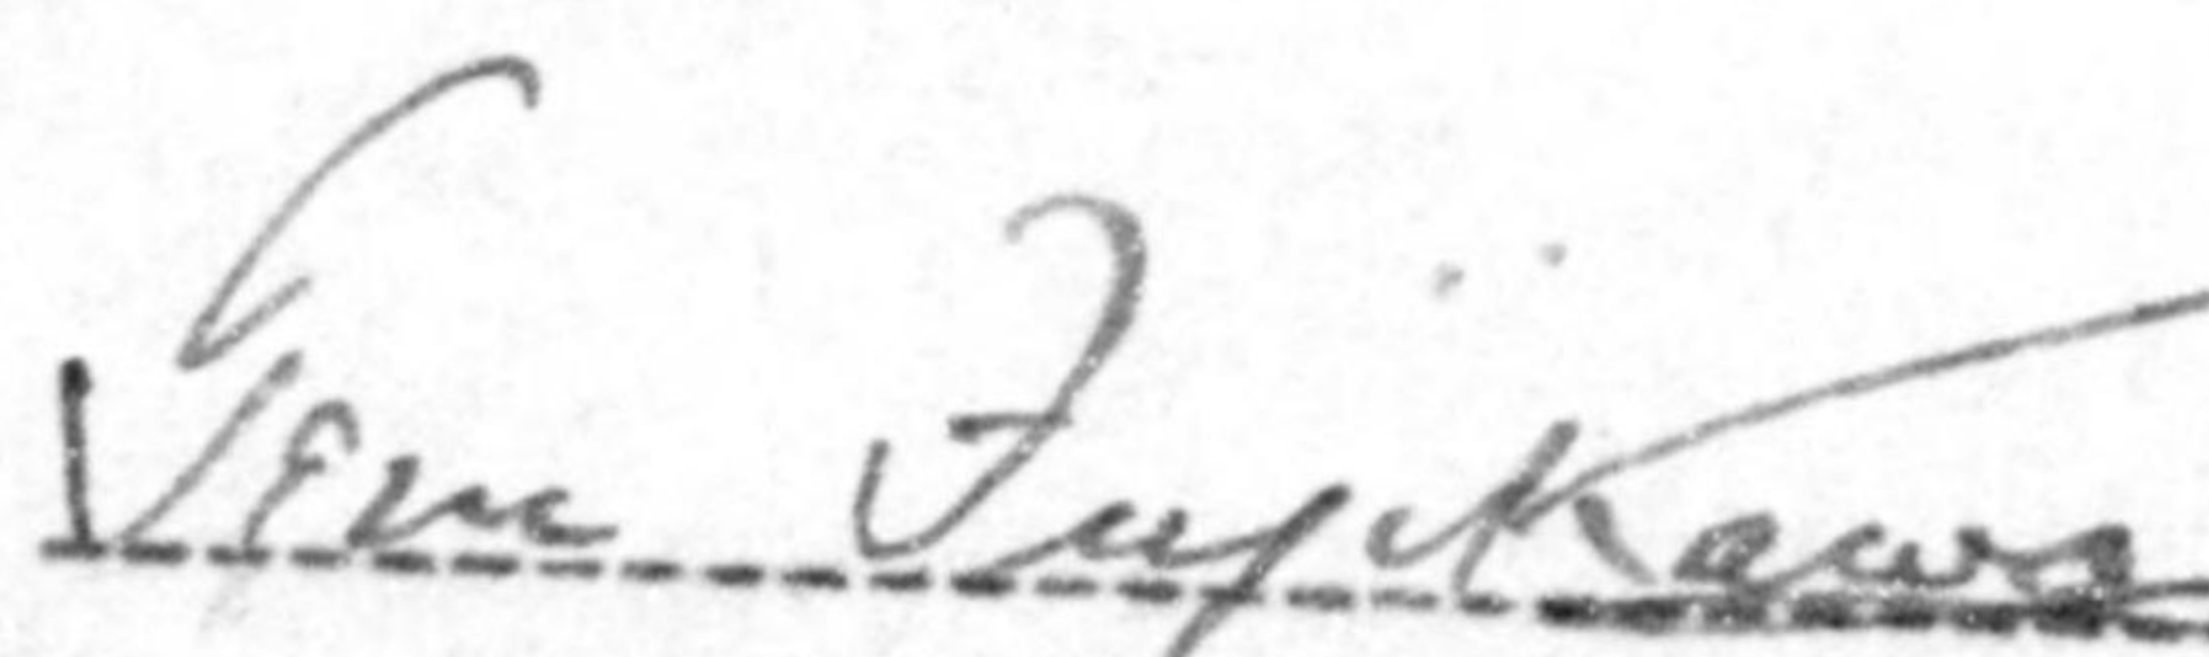

Application for Non-falling under Purview of  
Officials in Former "Zaibatsu" Concerns.

I have the honor in presenting to you an Application for the approval to the effect that I am not coming under purview of the provisions of Item No. 1, Article 6 of the "Law for Termination of the Zaibatsu Family Control" issued on the 7th January, 1948.

For your information and investigation, I am enclosing here the following documents.

I shall be very much grateful if you will kindly pay prompt and kind attention to this particular matter.

Yours obediently,

  
Toru Fujikawa.

Enclosures:

1. Reasons for Application.  
Attached documents:
  - (1). Mr. Asabuki, ex-president's greeting address in appointing Fujikawa to a standing director.
  - (2). Certificate of Mr. Kokichi Namekata, president of the Asahi Life Insurance Mutual Company.
  - (3). Copy of Petition by Mr. Chimato Hirasawa, former president of the Teikoku Life Insurance Company Limited.
  - (4). Extract of provisions in the Insurance Business Law and the Regulations concerning the operation of the Insurance Business law.
2. Questionnaires (a personal investigation and report).

Reasons for Application

The "Teikoku Life" Insurance Company Limited had been designated as a semi-directly connected company with the Furukawa Zaibatsu, under the provisions of Item 7, No. 2 of List in the Law for Termination of the Zaibatsu Family Control of January 7th, 1948.

Then the "Teikoku Life" made the adjustments of all insurance contracts and its assets in accordance with the provisions of the Law for Rehabilitation of Financial Organ, and achieved its final disposal on the 31st, March 1948. All the portfolio policies at the hands of the "Teikoku Life" on such date were transferred en bloc to the "Asahi Mutual" Life Insurance Company, and the "Teikoku Life" made liquidation on the 31st March, 1948.

But the "Asahi Mutual" was designated, on May 22nd, as a successor company to the "Teikoku Life", on the ground that the comprehensive transfer of the portfolio policies of the "Teikoku Life" to the "Asahi Mutual" was regarded as the transfer of business under the provisions of Item 3, Article 9 of the Law for Termination of the Zaibatsu Family Control.

I am at present holding office as a standing director of the "Asahi Mutual". Prior to assuming this post of office, I had been appointed as a director of the "Teikoku Life" on the 27th July, 1942, and was elected as a standing director there on the same date, which post I held upto the 2nd September, 1947. So, I come under purview of Items 1 & 2, Paragraph 2, of Article 3 of the Law for Termination of the Zaibatsu Family Control.

However, as I have a firm and accurate evidence and proofs that I am under purview of Item 2, Paragraph 1 of Article 6 of the Law for Termination of Zaibatsu Family Control, I am now making an application to you, accompanying herewith the verifying documents, for your approval to the effect that I am not an office-holder of the Zaibatsu Family.

I. Detailed Statement

I was born in Toyonomura, Shimomasuki-gun, Kumamoto Prefecture on the 1st January, 1894, and after graduation from the Elementary School and Middle School there, entered the High School in Kanazawa city; passing through the whole course of three years there, I came up to Tokyo where I entered the Economics College of the Tokyo Imperial University and graduated from it in March 1922.

It was hard time to get job at such occasion, but I was able to be employed at the "Teikoku Life" as a clerk passing the examination for the job. The president of the "Teikoku Life" at those times was Mr. Arinobu

Fukuhara who had no relation at all with the Furukawa Family. With the intention of turning me out into a chief officer in charge of the actuarial and statistical business affairs of said company, the President ordered me, soon after my entrance to the company, to go to the U.S.A. and Europe for study of insurance law, insurance system, insurance mathematics and others in advanced countries.

In November 1922, I left Japan for foreign trip, touching on China, India, France &c., arrived in England where I studied life insurance mathematics or actuarial science, as well as the business practice in British life insurance companies for over two years. Then I made inspection of various insurance companies in France, Switzerland, Italy, Austria, Germany, Belgium, and went over to the U.S.A. in August 1925.

In U.S.A., I made acquaintance with numerous actuaries of the leading life insurance companies there, made scrupulous investigation and pursuance to insurance system, insurance mathematics, company organization, business system, manner of insurance management and then returned home in April 1927.

In my absence, President Fukuhara decayed and Mr. Tsunekichi Asabuki succeeded. Mr. Asabuki was already occupying a leading position in the commercial and financial circles of Japan in those years and was entirely separate and independent of the Furukawa Zaibatsu.

I was ordered at the "Teikoku Life" to be in service at the Statistic Section, and while attending the daily routine works there, I made readjustment of all the data which I brought back from abroad, introduced the actuarial system of foreign advanced countries to our life insurance circles, and also published various essays of my own, for the improvement of insurance mathematics and actuarial system of Japan, which was far inferior to those in Europe and America.

In those days, an opportunity presented itself that an actuarial system should be created in Japan, and at last the actuary system was legally effected as from January 1940 through amendment of the Insurance Business Law. (As regards the details of actuary's duty, refer the attached documents).

I married Miss Tamako, the 4th daughter of Mr. Kingoro Mitaki, in Kanazawa city, in January 1922. Mr. Kingoro Mitake was, at such time, the professor at the Fourth High School in Kanazawa and entirely had no relation with Furukawa family.

Such being the real state of my career, I have not any relation at all with the Furukawa family in respect of my family relation, birth and marriage, as well as in getting job at the "Teikoku Life" and my services there. I was quite independent of Furukawa family and also any others in my life insurance business career; and through the continued study and efforts by myself, I have devoted to the improvement of actuarial activities in Japan in addition to my services to the "Teikoku Life".

## II. Assuming the position of official

After my entering the "Teikoku Life", appointment of officials from among the employees' was made gradually in the order of Messrs. Taro Suzuki, Chuzaburo Joya, Ryujiro Kubota, Tatsugoro Usami, Hiroshi Kobashi, Saburo Yamada, Jihei Tazaki.

In making appointment, the "Teikoku Life" used to elect at the Board of Directors a candidate for an official from among the higher rank employee, and the elected one was recommended to the general meeting of share-holders by the President.

It seemed that the candidate elected for the official was not always the top rank employee of longest services or best paid. Character, knowledge, ability and personal qualification were the essential condition to deserve the candidate.

The above mentioned seven personals were the top ranking employees of the "Teikoku Life", starting from the lowest position, and had no relationship towards Furukawa family nor to the Furukawa Concerns.

The "Teikoku Life", being organized in 1886, occupied the leading position of life insurance business in Japan as the "Three Biggest" or the "Five Biggest"; it made a leap jump when Mr. Asabuki assumed the position of its president, absorbed the "Toyo" (= the Oriental) Life Insurance Company Ltd. in 1936, and the "Maekawa" (Name of a family) Life Insurance Company Ltd., in 1942.

I was appointed as the Actuary of the "Teikoku Life" immediately on the introduction of actuary system into the company, and in absorbing the "Toyo Life" and the "Maekawa Life" I was in charge of the most complicated part of business affairs, such as the comprehensive assumption of portfolio policies of the absorbed companies.

At the time when the absorption of the "Maekawa Life" was nearly completed, standing director Mr. Tatsugoro Usami retired from the office, and I was recommended as its substitute by the President Asabuki. At the extraordinary general meeting of shareholders held on the 27th July, 1942, I was elected as the director of the "Teikoku Life". The reason

of such election was, as per Mr. Asabuki's address at the general meeting of shareholders, that I had devoted myself for the 21 long years to the company, especially on the statistical and actuarial business affairs, and also I rendered remarkable services in the difficult technical affairs in the absorption of the two life insurance companies.

It is, therefore, perfectly clear that my appointment as the Director to the "Teikoku Life" was made entirely free from Furukawa Zai-batsu. (Refer: Attached document (1).).

III. Appointment as the Standing Director

As soon as I was appointed as the director of the "Teikoku Life" at the general meeting of shareholders, I was elected as the standing director by the Board of Directors. The reason and fact of this election are as follows:

In those years, the management of the "Teikoku Life" was adopting the system of one presidency and three standing directorship; and therefore, Mr. Asabuki was the president and under whom there were three standing directors of Mr. Tatsugoro Usami, in charge of the General Affairs, Mr. Hiroshi Kobashi, in charge of Business Affairs, and Mr. Yoshiro Odagawa, in charge of Financial and Accounting Affairs.

By retirement of Mr. Usami, the Company had naturally to elect a standing director to fill up the vacancy in order to keep on the established system of one president and three standing directors.

As to the composition of Board of Directors, the directors were seven in all, of whom Mr. Asabuki being the president, Mr. Kobashi, standing director, Mr. Odagawa, standing director; besides the above three personnels, Mr. Shinzo Fukuhara (President of the Shiseido), being a dormant director, Mr. Jujun Furukawa (President of the Furukawa Mining Co., Ltd.) also dormant director, and the two other directors of Mr. Saburo Yamada and Mr. Jihei Tazaki who were elected from among the employees of the company.

Well, Director Yamada was an expert in accounting business, having been in charge of this special line for many years while he had been the employee, and Director Tazaki was an ace in life insurance field campaigning, having many years' experience from a mere field-man to several Branch Managers. But, as there were already the top rank officers of two standing directors of Mr. Odagawa in charge of finance and accountancy and Mr. Obashi in charge of campaigning, there would appear two standing directors in either of these two departments, should either of Mr. Yamada or Mr. Tazaki be appointed as the standing directorate

fill up the vacancy made by Mr. Usami's retirement.

In order to avoid this over-lapping, I was elected as the standing director though I was a newly appointed director at such time. In other words, my assuming the post of a standing director was made by chance in order to keep on the established system of three standing directorship. As a matter of fact, I did not touch the business affairs under charge of Mr. Usami, though I was appointed as a standing director. My service of office was remaining unaltered as an Actuary and I was entrusted with the statistical and actuarial affairs of the Company. In a word, I assumed the position of a standing director nominally and quite in different sense as those in general use.

Now concerning the state of things on my assuming this position, please refer to the copy of Petition made by Mr. Hirasawa, former President of the "Teikoku Life", since he had a definite views upon the same (Refer: Attached Document No. 3).

At the time of my assuming the position, the Auditors of the "Teikoku Life" were as follows:

- Mr. Kihei Konishi (President of Konishi Partnership Co.),
- Dr. Yoshihiro Takagi (President of the Jikei Medical College),
- Mr. Yoshimi Yano (President of the Sansei Medicine Mfg. Co.).

The Auditors were three in all and were dormant auditors who didn't attend the office daily.

IV. Real State of Business Operation as an Official

Even on and after assuming the position of the standing director of the "Teikoku Life" I held the post of Actuary concurrently, and the business affairs in my charge were limited to insurance mathematics, statistics and all the actuarial affairs of the company, as well as the particular matter of rationalization of company management through actuarial activities.

My service of office was, therefore, mainly the business of an actuary that was provided by the "Insurance business Law", though I had been bestowed with the honorable term of a standing director.

(Refer: Attached Document No. 4; copy of the Insurance Business Law and the Regulations concerning Operation of the Insurance Business Law).

I had been designated as falling under purview of the provisions of Article 4 of the State Ordinance No. 1, of the year 1947 and had to leave the position of an official of the "Teikoku Life".

I at once made an Appeal on the ground that, though I had been a

standing director of the "Teikoku Life" in War-time, the real business affairs which were in my charge were chiefly actuarial business. Upon this Appeal, I was very recently relieved of the purgee on the ground that I had a fair and proper reason for the appeal.

The copy of Petitionary Statement by Mr. C. Hirasawa, the former President of the "Teikoku Life", attached herewith must have been one of the most firm evidences in connection with my Appeal.

Such being the real state of my service of office at the "Teikoku Life", I had not any intention at all towards the formation, operation and maintenance of Furukawa Zaibatsu's business or the employment of their economical and financial influence. I did not receive any indication, suggestion or command from the Furukawa Zaibatsu, and also I had no relation at all with all the business of said Zaibatu. These facts are perfectly clear if one study or examine the real substance of the business affairs that were in my charge during my term of office.

V. Conclusion

In conclusion of the above-mentioned true and real fact concerning my birth, marriage and family relation, getting the job at Teikoku Life Insurance Company Limited, assumption of the position of a director and a standing director, as well as my service of office therein, it is quite fair and right to state that there was not any slightest fact at all by which to regard myself as an official of the Furukawa Zaibatsu or a public office holder in connection with said Zaibatsu.

This is why I ask you to approve that I am not coming under purview of Zaibatsu screening.

Further Remarks

1. I resigned the standing director of the Teikoku Life Insurance Company Limited on the 2nd September, 1947 and left the office, but prior to this, there had been a project of establishing the Asahi Mutual Life Insurance Company in accordance with the Law for Financial Organ Rehabilitation and I joined to this project, acting as one of the promoters.

The Asahi Mutual Life Insurance Company was established on July 1st, 1947 and I assumed the position of a standing director there, which post have been kept upto the present.

2. Upon the promulgation of Law on January 1st, 1948, Mr. Kokichi Nanekata, Mr. Mitsukuni Date, Mr. Yoshihiro Takagi and Mr. Tsutomu Yamashina, respectively of the President, director, auditor and director of the Teikoku Life Insurance Company Limited had made applications for

approval of non-felling under purview of the screeners, to the Prime Minister, and all of them were approved definitely as non-screeners on the 7th & 17th April this year respectively.

---

Attached Document    No. 1

President Asabuki's Address delivered at the Inaugural Ceremony held immediately on completion of an Extraordinary General Meeting of share-holders of the Teikoku Life Insurance Company Limited, on the 27th July, 1942.

---

(Recorded in the "Teikoku Life Bulletin", August 1942 issue.)

I have pleasure to tell you that, at the Extraordinary General Meeting of share-holders held today, we have decided to welcome our Actuary Mr. Toru Fujikawa, as one constituent official in the Board of Directors of this company, as a substitute to the retired Director, Mr. Usami.

Mr. Tatsugoro Usami, the retired standing director has rendered much services to the company during the thirty long years term of office since his entrance to this company in 1909, and his vast merits in insurance business deserves not only to our company, but also to the wider range of insurance fields in Japan. It is indeed a great loss for us that he left the office owing to his health.

Well, Mr. Fujikawa, being quite familiar with all of you through daily attendance to business at this office, joined this company immediately upon his graduation from the Tokyo Imperial University in 1922, went over to foreign lands for study of insurance business in general, and insurance mathematics in particular and returned home with profound knowledge in advanced countries.

Since then, as you are quite aware, he rendered much services to this company for the fair and right improvement of insurance business in the capacity of the chief for Statistical Section, Business Planning Section as well as an Actuary of the "Teikoku Life".

Now, upon his assuming the post of a standing director, our old established system of "One President & Three Standing Directorship" has been firmly maintained. Furthermore, a combined force of two directors, Mr. Yamada and Mr. Tazaki who attend the office daily with an incessant efforts will, without a word, strengthen the activities of our Board of Directors hereafter.

---

Attached Document      No. 2

Asahi Life Insurance  
Mutual Company,  
No. 1, 1-chome, Maru-  
nouchi, Chiyoda-ku,  
Tokyo.

Certificate

I, the undersigned, am the President of the Asahi Life Insurance Mutual Company, after pursuing the career of chief of Personnel Section, Superintendent of the Personal Affairs Department, Director, and Standing Director and then the President of the Teikoku Life Insurance Company Limited, since my entrance to the latter in March, 1940.

At the time when Mr. Toru Fujikawa was elected to the position of a standing director from among the employees of the "Teikoku Life", I was the Chief of Personnel Section of said company. It is, therefore, quite natural that I was directly and thoroughly aware of all the personal affairs of directors and employees of the company, because of the business I was in charge.

Such being the real state of things, it is fair and right for me to make the under-mentioned certificate concerning Mr. Toru Fujikawa.

THIS is to certify:

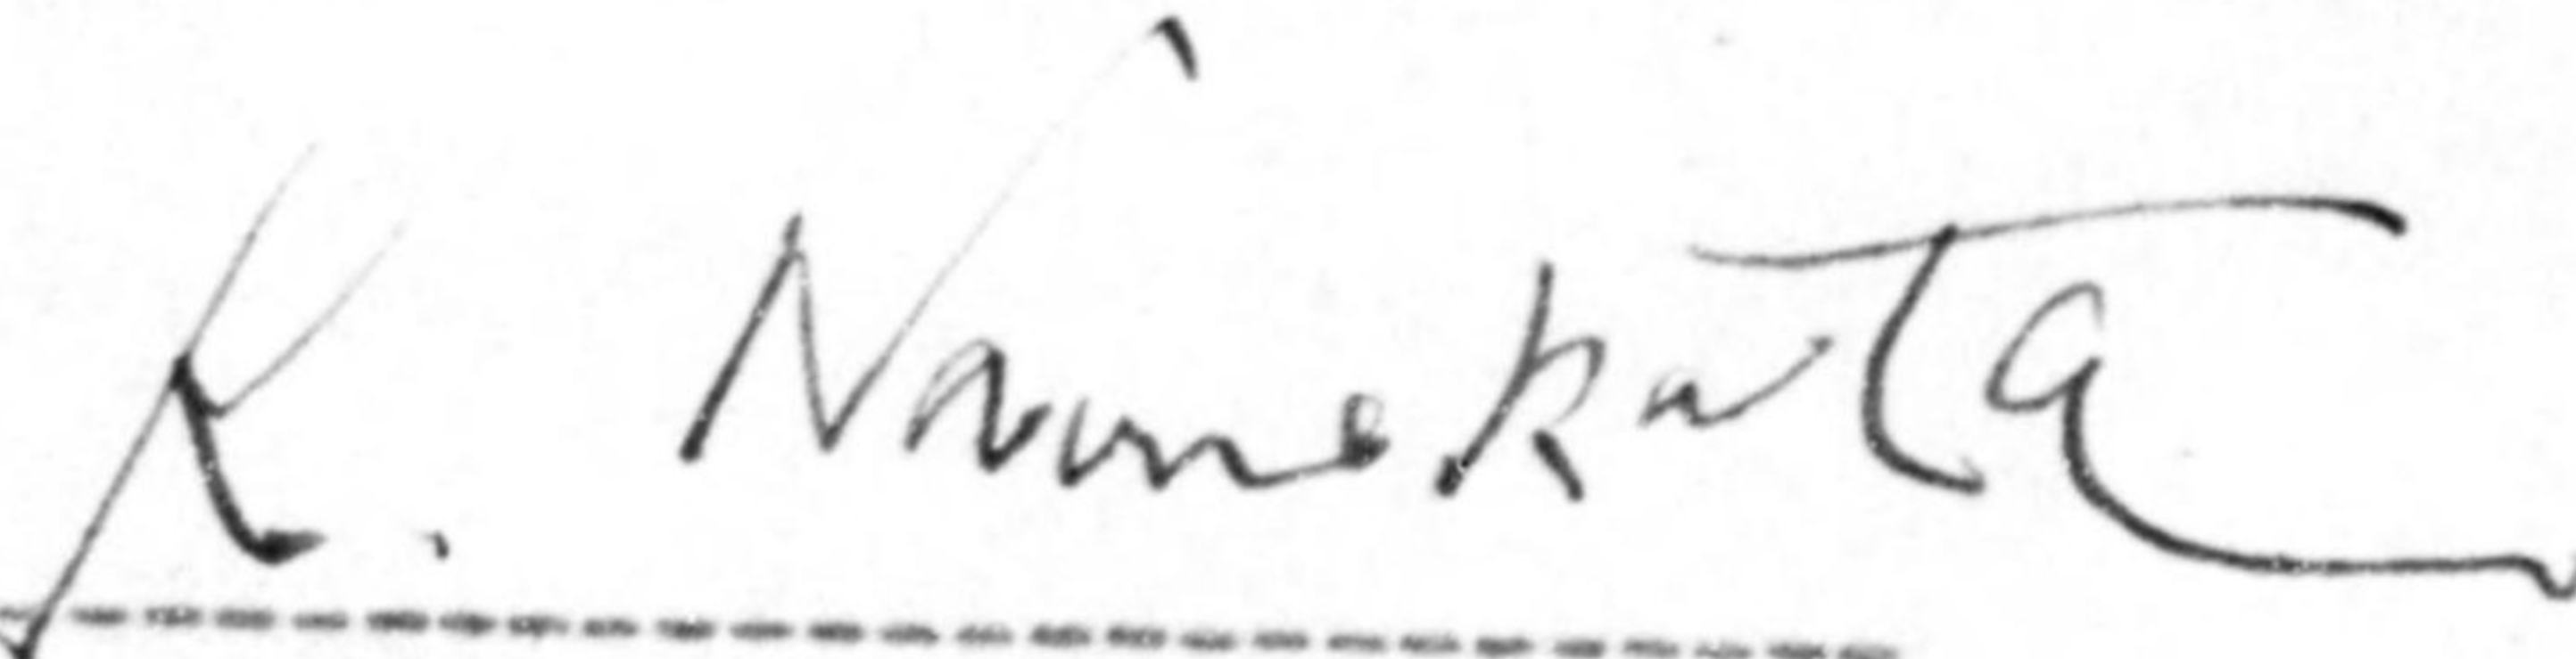

- (1) — THAT Mr. Toru Fujikawa joined the Teikoku Life Insurance Company Limited as a junior clerk on the 19th May 1922, immediately on graduation from the Tokyo Imperial University, but upon examination of documents regarding his adoption to the company, there was no fact at all that he was recommended or introduced by the Furukawa Zaibatsu concerning his employment in said company.
- (2) — THAT Mr. Toru Fujikawa had been attending the Statistical Section since his return home from foreign sojourn in April 1927 (except services in Investigation Section during the period between September 1927 and October 1929), then he was appointed to an Acting Chief of Statistical Section in January 1934, and to the Chief of the same Section in January 1937, finally to an Actuary of the Company in January 1940.
- (3) — THAT Mr. Toru Fujikawa was elected as a Standing Director from among the staffs and employees of the company on the 27th July 1942, but was concurrently entrusted with An Actuary which post of office he kept on holding upto June 1945, and then resigned the situation of the Standing Director on the 2nd September 1947.

(4) — THAT the organization of the officers and the Board of Directors of the Teikoku Life Insurance Company Limited in vogue in July 1942, as well as the kind of business affairs shared by each of the Directors were quite precisely the same as those stated by Mr. Toru Fujikawa in his Application.

(5) — THAT, as a real matter of fact, Mr. Toru Fujikawa has never contributed to the formation and maintenance of all the business which were operated by Furukawa Zaibatsu in so far as my knowledge is concerned.

IN WITNESS WHEREOF I have set my hand herewith this First Day of June in the Year of One thousand Nine hundred and Forty-Eight in Tokyo.

  
-----  
Kokichi Namerkata,  
President of the former Teikoku  
Life Insurance Company Limited,  
President of the Asahi Life  
Insurance Mutual Company.

CHIMATO HIRASAWA,  
No. 305, Tsunura, Kamakura  
city, Kanagawa Prefecture.

Kamakura, January 30th, 1948.

Tetsu Katsuyama Esq.,  
Prime Minister.

Sir,

Petition Statement

I, the under-signed, Chimato Hirasawa had taken the position of Managing Director of the Teikoku Life Insurance Company Limited of Tokyo in February 1943 and was then appointed to the President of said company in February next year, and had been therefore, the supreme commander for two and one-half years until the termination of war. Then, upon earnest and deep meditation, I resigned the position of the President of the "Teikoku Life" entirely out of my own intention in December of the Year 1946, bearing on my shoulder all the responsibility of the Teikoku Life Insurance Company Limited during the war-time.

During my post of office, I presided and governed all the business affairs of this company either as the Managing Director or the President, and put much stress on the business with my power since we were operating the business in war time. As to the supreme policy of this company concerning life insurance campaigning, mode of investment, personal affairs of all the staffs and employees and so forth discussed at the meetings of Board of Directors, I decided them at my own responsibility, and so, I treated the Standing Directors and Directors nearly alike on the same line. Therefore, there was no significant difference between Standing Directors and Directors during those years.

Also as regards the exterior affairs of this company, I personally made negotiations with the Ministry of Finance and other governmental authorities, and attended the various meetings at the Life Insurance Companies' Association by myself and our Standing Director and other Directors did not almost attend such conference of meetings.

Consequently, I should alone be liable to the responsibility of the company at least for the period from February 1943 to the termination of war, should there be any responsibility which the company have to bear. I firmly believe that the Standing Director and all the officials of the "Teikoku Life" have no substantial responsibility, though of course there should be a formal and legal responsibility.

On the 18th December 1945 when I resigned the President, I expressed this opinion of mine to all the staffs and employees of the company, and addressed the following speech, the draft of which are kept at the

archive of the company:

"For a little while soon after the defeat of war, there was prevailing a special wordings of "Whole repentance of 100,000,000 people". This means that the responsibility of war should not be borne alone by the leaders of war, but it means at the same time to intend to ascribe the responsibility to the whole of our nation. But the correct interpretation of the words of "the whole nation should be liable" shall be no more than to say "No body shall be liable". It is natural and right that any and every kind of responsibility should solely be borne by some particular personages and that it should never be allotted to the whole of corporation or nation.

Now, on reflecting our company, I who have presided and governed all the business affairs as the supreme organ of the company, with all the others under my command shall solely be liable to the responsibility of the company and any sharing of responsibility by others is not to be allowed."

"Why I utter these words to you is that I want to express my views and firm determination on my responsibility without any reserve, and to make you fully understand that all the responsibility of the company should be borne by myself alone, but should never be borne by any other directors as co-sharers."

As you will see clearly in the two paragraphs in my farewell address on my retirement, those who should resign the position of public office in the Teikoku Life Insurance Company Limited is one personage of myself alone. I can not, therefore, allow Mr. Toru Fujikawa to be designated as falling under the purview of the Memorandum of Art. 4 of Imperial Ordinance No. 1, 1947, and of 3 of 7 of Appendix 1 of the Cabinet and Home Ministry Ordinance No. 1, 1947, on the ground that he was enlisted as the Standing Director of the company during the war-time.

Now, Mr. Fujikawa is naturally an insurance actuary, and if I am allowed to say without any reserve, he is not only an actuary in the "Teikoku Life", but also may be looked upon as an actuary to the whole life insurance circles of Japan. The system of actuary in Japan, being introduced in January 1940, has rather a short history, has not been fully recognized by the public its authority such as we see in the advanced countries in Europe and U.S.A.. At the time when this system was organized in Japan, most life insurance companies appointed their chief of Statistical Section as the actuary and consequently there are very few who are really entitled to be regarded as an actuary. But Mr. Fujikawa attained to the standard of an actuary in Europe and America early in 1940.

If the situation of an actuary in Japan had been appreciated with honor, and therefore the candidate for same had to undergo a strict election and the actuary had been treated with much respect, the "Teikoku Life" should have had no need of appointing Mr. Fujikawa to the Standing Director but would have left him at the position of glorious actuary. It is not fair that Mr. Fujikawa to be left on the same line of other common-place actuaries, since he has far-passing knowledge and ability as an actuary.

The "Teikoku Life" did, therefore, give him the honor of Standing Director in order to afford him an additional force as an actuary. Such may be the real state of things which he was appointed as the Standing Director of the "Teikoku Life".

(Note: Mr. Fujikawa's appointment as the Standing Director took place one year before my assuming the position of the Managing Director of said company.)

Should the above be the real circumstances which made the appointment of Mr. Fujikawa to the Standing Director, I should agree to his being purged on the ground that he was the Actuary during the war-time, but I should say it would be rather out of the point if the reason of his designation as a purgee be solely on the fact of the Standing Director during the war-time.

Mr. Fujikawa is not only profound in the arts of insurance management and insurance mathematics and statistics, but also is familiar with all the details on business in our insurance circles and one of the best English speakers in life insurance fields. So, he has acted as the liaison mission between the G.H.Q. and our life insurance companies. On one hand, the authorities at the G.H.Q. have got information on the real status quo of life insurance business in Japan, and on the other, our insurance companies have learned the intention of the insurance executive authorities at the G.H.Q. through Mr. Fujikawa.

In the event of reopening the intercourse between Europe and America and Japan, insurance companies in the former will naturally extend their business operation into this country and there may be much more opportunity to make direct contact between home and foreign insurance companies. In such case, if Mr. Fujikawa remains at the "Teikoku Life", it will afford much convenience, not only to the "Teikoku", but also to those of foreign insurance companies.

I think, therefore, that the designation of Mr. Fujikawa as the purgee is a damage to our life insurance circles too, in addition to a loss

of the "Teikoku Life". So, I earnestly present this petition to you so that Mr. Fujikawa may be relieved of the designation as the purgee, under your favorable consideration to my description.

Yours very truly,

-----  
Chimato Hirasawa,  
Former President of the Teikoku  
Life Insurance Company Limited.

---

Extract from the Regulations concerning the  
Operation of the Law for Insurance Business.

Article 40. Life insurance company shall have its actuary participated in the under-mentioned affairs:

1. Matters provided in Article 13.
2. Besides the matters under the foregoing item, matters concerning the computation of policy reserves and unearned premium.
3. Matters concerning the computation of policy loan in conformity with the provisions of insurance clauses of the company.
4. Matters concerning the various statistics necessary for computation under the foregoing three items.

Life insurance company shall have its actuary interested in drafting the provisions for salaries and remuneration to field-men, planning for the campaign of new business, as well as in matters connected with life insurance actuarial mathematics.

Remarks:

Article 13. In the Provisions for Computation of policy reserves and life insurance premium, the following items shall be definitely prescribed by the life insurance company:

1. Matters concerning an expected rates of mortality and disability.
2. Matters concerning the remaining rate over surrender, in the policies with profit dividends or with surplus dividends.
3. Matters concerning expected rate of interest.
4. Matters concerning expected rate of expenses.
5. Matters concerning the computation of surrender value.
6. Matters concerning the computation of premiums.
7. Matters concerning the computation of policy reserves.
8. Matters concerning the computation of dividend reserves to be set aside out of the profit or surplus in respect of insurance contract.
9. Matters concerning the extent of computing unearned premium.
10. Matters concerning the computation in altering the insurance amount, kind of insurance or term of insurance.
11. All the other matters necessary for the insurance actuarial science.

Para. II of Article 40.

The actuary shall be appointed from among each of the following persons:

1. A person having more than five years' experience in the business affairs of life insurance mathematics among those who have studied mathematics at the university established in accordance with the law for University and have been entitled to the degree of bachelor.
2. A person having more than eight years' experience in the business affairs of life insurance mathematics among those who have studied mathematics at the college established under the law for college.
3. A person approved by the Finance Minister as an actuary among those who have knowledge and business experience on life insurance mathematics excepting those mentioned in the foregoing two items.  
These who want to get an approval under the 3rd item shall make an application to the Finance Minister by presenting the curriculum vitae accompanied by the document which vouchifies the qualification of an actuary.

Article 41. Life insurance company shall without delay file the report with the Finance Minister, accompanied by a curriculum vitae, when it appoints an actuary.

Life insurance company shall without delay report to the Finance Minister, accompanied by the document stating the reason, when it dismisses the actuary.

In case of there being more than two actuaries in a single life insurance company, it shall affix a further document describing the each business participated by each actuary, in addition to the documents prescribed in the foregoing two items.

Extracts from the Law for Insurance Business.

Article 89. Life insurance company shall, in accordance with the provisions of law or ordinance, appoint an actuary and have it participated in matters concerning actuarial science.

The competent Minister shall be able to order an insurance company to dismiss the actuary from the post when he finds the negligence in conduct or improper conduct in fulfilling the duty as an actuary.

Article 90. The actuary shall, among the items to be entered in the report to be filed with the competent Government by the company, examine and approve the correctness of policy reserves and other reserves in respect of insurance contract, as well as unearned premium and loans under the provisions of insurance clauses.

When requested by the competent Minister, the actuary shall make reports to the Government without delay on matters under paragraph 1 of the foregoing article.

Penalty:

Article 139. When an actuary has violated its obligation and caused material damage to the property of the company with the intention of profiting himself or others, or of impairing the interest of the company, shall be under penalty of imprisonment for not exceeding seven years or of fine of not exceeding Yen 10,000.

Article 153. When an actuary has not made the report or has made a false report in violation of the provision under paragraph 2 of Article 90, shall be under penalty of punishment charge of not exceeding Yen 5,000. Provided, however, that this provision shall not apply in case where criminal law shall be applied for such conduct.

---

Tōru Fujikawa,  
No. 317, Higashi Okubo, 2-  
chome, Shinjuku-ku, Tokyo.

Hitoshi Ashida Esq.,  
Prime Minister.

June,       th, 1948.

Sir,

Further Application for Approval of Non-  
falling under Purview of Official in  
Former "Zaibatsu" Concerns.

I.— The reasons why I became one of the promoters for the formation of the Asahi Life Insurance Mutual Company and achieved its establishment are as follows:

- (1). Although the Teikoku Life Insurance Company Limited was designated as the direct Zaibatsu affiliate, yet the formation of a new mutual life insurance company will, without fail, attain to the particular object of decomposition of the Zaibatsu influence.
- (2). The Teikoku Life Insurance Company Limited had sustained much loss and damages due to the late War, and it was indeed under pressing need of making its economic reconstruction and rehabilitation at these times. It was, however, not advisable for the "Teikoku Life", bearer of a huge burden of war loss, to keep on campaigning for the sale of life insurance policies for the sake of guarding the interest of the insureds and beneficiaries. In such case, if we establish afresh a life insurance company who will proceed for the sale of new life policies, and then if we transfer en bloc all the portfolio policies at the hands of the "Teikoku Life" into such new company after accomplishment of its readjustment and rehabilitation, we shall be able to secure and guard all the interest of the "Teikoku Life". Here lied the necessity of establishing the new company called the "Asahi Life Insurance Mutual Company".

We have ofcourse got the full and thorough understanding of the Economics and Science Section of the General Headquarters of Allied Powers on the above project beforehand.

In a word, our intention of establishing a new life insurance company was to facilitate the decomposition of Zaibatsu on one hand, and to secure and guard, at the same time, all the interest of the insureds and policy-holders, and also to achieve democratization of our life insurance business through mutualization into the bargain.

II.— As to my assuming the position of a Standing Director concurrently with the post of an Actuary of the "Teikoku Life" I would ask your fair understanding by stating in details the duty of an actuary hereunder:

It was really upon the promise that I should one day come to be an actuary that I got a job at the "Teikoku Life", and for such purpose I was despatched to the U.K. during the year between 1923 and 1925, for undergoing an actuarial education in general and thence extended my sojourn to U.S.A. until 1927, for technical study.

Since my return home, I have devoted myself chiefly in the capacity of an actuary of the "Teikoku Life". It is quite a common practice that an actuary shall be either a director or a standing director concurrently in foreign lands, and it is usual to see "General Manager and Actuary" in U.K., and "Vice-President and Actuary" in U.S.A." The reason of fixing such concurrent titles in these two countries is that, it is absolutely necessary that one must be embodied with a good character and an excellent opinion and views additionally to the profound knowledge and vast experience in insurance mathematics and actuarial science, in order one shall be able to become an actuary.

The occupation of an actuary is, so to speak, to secure and promote the fair and common interest among the management, the staffs and employees, and the insureds and beneficiaries. It is, therefore, regarded similarly to those of barristers in foreign soil.

The system of an actuary has early been recognized in advanced countries, and especially in U.S.A., U.K., and Canada, they have the old and good established institution for the education of actuary and have devoted very much to the development of life insurance business. Here in Japan, the "Actuarial Society of Japan" had been pursuing the similar course with those in Europe and America since many years ago, and since the enforcement of the law concerning actuarial system through revision of the Insurance Business Law in 1926, actuaries in this country have evidently been able to exercise their full function in the same manner as in the advanced countries.

Mr. Joseph B. Maclean, a wide-worldly known actuary in the State side, made a description on the function of an actuary as follows in his works "Life Insurance". I would like to quote his full description here, as it is a representative explanation on an actuary ever made in U.S.A..

Duties of Actuary. (By Mr. Joseph B. Maclean)

"It is the duty of the Actuary of the company to see that its operations are conducted on a sound theoretical basis. The business of life insurance depends, as we have seen, on calculations which involve the rate of interest and the rate of mortality. An actuary is specially trained in such calculations. His duties are, however, of a broad nature and, in addition to much work of a technical description, he must advise the other officers of the company on many matters affecting the company's business. The work of the actuarial department has to do chiefly with premium rates, reserves and dividends. The actuary determines the basis of mortality, interest and loading upon which the premium rates shall be calculated and his department. The rates of commission payable to agents should be approved by the actuary. An important duty is the calculation, at the date of a financial statement, of the amount of the liability on existing policies (the "Reserve") upon which depends the amount available for distribution is also determined by the actuary, who must keep all records required either for reserve or dividend calculations. The actuarial department furnishes the table of cash and other non-forfeiture values which appear in the company's policies and makes all necessary calculations when policies are lapsed, surrendered or changed in many manner. In conjunction with the comptroller, the actuary prepares the annual financial statement. In addition, the actuarial department keeps the necessary records of the mortality experience of the company and makes any investigations which may be desirable and for which its equipment and knowledge are particularly quoted".

On my first interview with the late Lt-Colonel Locker, Chief Officer of Insurance Division in Autumn of 1945 when the Economic and Science Section was created at the G.H.Q., he expressed frankly -- "I am ever so delighted to realize that you are an actuary, as I have been looking forward to seeing a Japanese actuary since my arrival".

Since then, I filed said Division with some of my descriptions on insurance, such as "War and Life Insurance in Japan", "Desires for the Mode of Treating Japanese Life Insurance in Korea", "The Status Quo of Life Insurance in Japan" &c., and have, from time to time, presented my full views and opinions on insurance to the competent authorities in G.H.Q. without any reserve, basing on an actuary's point of view.

Also Captain Phuse who came over to the G.H.Q. from Korea in connection with insurance administration showed a thorough understanding and full respects to the actuaries' views and opinions in conference on the investigation of Japanese life insurance business in Korea.

These facts, indeed, assure us that the U.S. people are quite familiar with the importance of an actuary.

*Toru Fujikawa*  
TōRU FUJIKAWA

Jujun Furukawa,  
No. 30, Wakaniyacho,  
Shinjukuku, Tokyo.

Certificate

I, the under-signed who was once The President of the Teikoku Life Insurance Company Limited in Tokyo have the honor in certifying the following facts concerning the public office holding of Mr. Toru Fujikawa in the capacity of a standing director of the above-mentioned company:

I.— THAT Mr. Toru Fujikawa was elected as a Director of the Teikoku Life Insurance Company Limited at the Extraordinary General Meeting of Shareholders held on the 27th July 1942, and was then elected as the Standing Director of that company from among the directors on mutual election by the Board of Directors held immediately on completion of the General Meeting of Shareholders.

The established practice of election and appointment of officials of the "Teikoku Life" at those times was, at first, to elect them from among the top rank employees of long services with more merits to the company in addition to good qualification and character, and then, to recommend to the Board of Directors.

Mr. Fujikawa who was then one of the top rank employees of the "Teikoku Life", having rendered more than twenty one long years' services had, early soon after getting job at the "Teikoku Life", proceeded to the U.K. and the U.S.A. etc. for study of insurance mathematics and actuarial science about six years, and made the best use of such profound knowledge in the company since his return home from Foreign trip and exercised his excellent ability, mainly in charge of insurance mathematics and actuarial science in the capacity of an Actuary.

In order to fill up the vacancy of a standing director made by retirement of Mr. Tatsugoro Usami due to his family relation, Mr. Fujikawa was elected as its substitute at the General Meeting of Shareholders held on the 27th July 1942, owing to the afore-said career and reasons. As regards the reason why he was appointed to a standing director, it was perfectly clear in his description on the "Reasons for Application".

The Board of Directors of the "Teikoku Life" in such time was consisted of Mr. Tsunekichi Asabuki who was widely known as an excellent President that had brought the said company up into one of the leading life insurance offices in Japan through incessant efforts since 1925 and the four directors of Mr. Usami, Mr. Kobashi, Mr. Yamada, and Mr. Tazaki, all of whom had been appointed to Directors from among the employees and also of further three personnels of Mr. Fukuhara, Mr. Shibusawa and Mr. Odagawa who had assumed the position of directorship in the capacity of

share-holders of the company.

Since it was the well-established practice and guiding principle that the recommendation of every candidate for the situation of the official was to be made through the unanimous approval of all the directors of the "Teikoku Life", it would be evidently unfair if anyone should regard that Mr. Fujikawa was appointed as the director of a company that had a particular relation with myself, if one would see the real fact above stated.

Among the directors of the "Teikoku Life", the official who had a particular relation with Furukawa Concerns was indeed the under-signed alone, and naturally I could not have any idea of appointing a personnel having particular relation with me to the director of the "Teikoku Life" when I had not been in full charge of the latter's management as the supreme command. In a word, Mr. Fujikawa's assuming the post of director was entirely due to his career, past merits as an employee and his character, as well as his ability as an actuary.

II.— THAT I had assumed the position of President of the "Teikoku Life" on the 29th January 1943, and in view of the importance of such position I accepted, in July the same year, Mr. Chinato Hirasawa afresh to the position of the Managing Director as an official having relation with me. Then I assumed the position of Chairman of the Board of Directors of said company, and appointed Mr. Hirasawa to the President in lieu of myself in February 1944 next year.

Such being the real state of things, it was sufficient that I had Mr. Hirasawa alone occupied the supreme position of the company as my own relative official, and there was no need at all of seeking for further personnel in such capacity.

As regards Mr. Fujikawa, he was concurrently the Actuary of the Company even after assumption of the Standing Director, and devoted himself mainly to business affairs of an actuary defined by the Insurance Business Law. The title of a standing director should, therefore, be designed to be an honorary one gifted to him for his far advanced ability as an actuary. Consequently and as a real matter of fact, he had no relation at all with the business of Furukawa Concerns, while operating the business affairs of the "Teikoku Life".

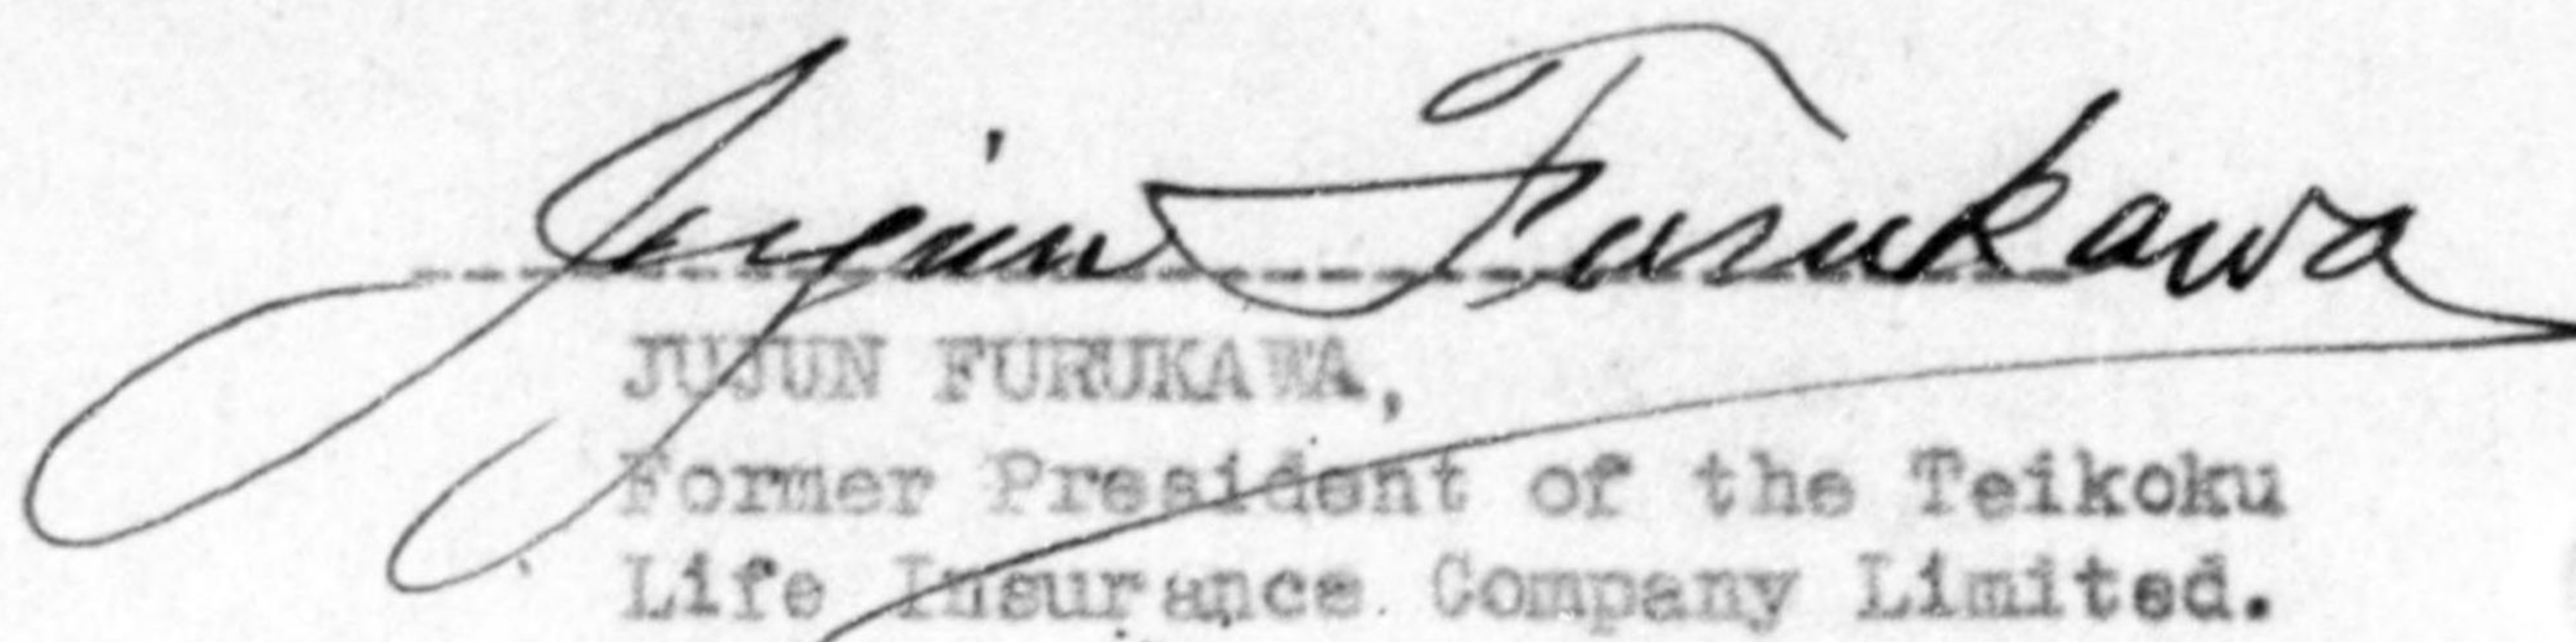

I would, therefore, firmly state here that Mr. Toru Fujikawa had nothing at all to do with the business operation and policy making of the "Teikoku Life", on behalf of or in representing the interest of the Furukawa Concerns as per the provisions of the "Law for Termination of the Zaibatsu Family Control" of January 7th, 1948.

III.— THAT, in concluding the above statement, it is evidently unfair to regard Mr. Toru Fujikawa as an office-holder who had a relation with

Zaibatsu, seeing his no-blood-relation to the under-signed and the real state of his assumption of the position at the "Teikoku Life", as well as the business operation there.

IN WITNESS WHEREOF I have set my hand this 15th Day, June in the year of One thousand Nine hundred and Forty-eight in Tokyo.

  
JUSON FURUKAWA,  
Former President of the Teikoku  
Life Insurance Company Limited.

Chimato Hirasawa,  
No. 305, Tsumura, Kamakura,  
Kanagawa Prefecture.

Certificate

THIS is to certify the under-mentioned facts:

I.— THAT I, the under-signed had been a Director of the Furukawa Mining Company Limited in Tokyo until February 1943, and entered in the same month into the Teikoku Life Insurance Company Limited in Tokyo and assumed the position of the Managing Director ( a representative director) there when Mr. Jujun Furukawa, one of the biggest share-holders of the "Teikoku Life" assumed the Presidency of said Company to fill up the vacancy made by retirement of Mr. Tsunekichi Asabuki owing to his family relation.

Prior to such date, Mr. Jujun Furukawa had been occupying the position of a Director at the "Teikoku Life" in the capacity of the representative of Furukawa Concerns, but when Mr. Furukawa took the supreme position of the management of the "Teikoku Life" as the successor to Mr. Asabuki, I was invited afresh to said company in the capacity having relation with Furukawa Concerns and came to be in full charge of all the business affairs of the "Teikoku Life".

In such time, Mr. Toru Fujikawa was in charge of the business affairs of an Actuary of the "Teikoku Life", being an official elected from among the employees; and he showed remarkable ability and profound opinion in insurance mathematics and actuarial business affairs, affording much knowledge on this particular line to the under-signed who was then a fresh man to insurance business, I remember.

In February next year, I assumed the position of the President of said company bearing on my shoulders all the responsibility of the supreme command of the Company during the war-time, until I resigned the post voluntarily in December 1946. During this period, I had Mr. Fujikawa carried on the business affairs in the capacity of an actuary defined by the provisions of the Insurance Business Law, the "Hoken Gyōhō".

II.— THAT Mr. Toru Fujikawa got the job at the "Teikoku Life" immediately on graduation from the Economics College of the Tokyo Imperial University and paved his way into the position of a standing director from the apprentice clerk through his diligence.

His assumption of such a top rank position was entirely due to his merits in services to the company for longer years and also to the ability and qualification as an actuary, and as well as his excellent good character, which coincide with the general guiding principle in making election

of an official of the "Teikoku Life".

Needless to state that insurance business should always be managed most fairly and soundly, since it has publicity in itself for existence, and that it does not allow any particular interest to a limited personnel or to any particular concerns. I believe I acted quite in accordance with this principle with firm determination during my term of office at the "Teikoku Life".

Ofcourse I had determined to join the "Teikoku Life" at the earnest desire of Mr. Jujun Furukawa, and therefore was a representative of Furukawa Concerns in this respect. However, I resigned the "Furukawa Mining Co." beforehand, and assumed the new position at the "Teikoku Life", as I thought such steps should, in my confidence, be right and fair to take.

It was, therefore, entirely of no use to have any further personnel joined the "Teikoku Life" as the representative of Furukawa Concerns in addition to myself. Really Mr. Furukawa held much confidence on me for the management of the "Teikoku Life", out of his excellent and wide views and proper recognition of the state as well.

Such being the real status of affairs, I would firmly state here that no one should be able to think that Mr. Toru Fujikawa was an officeholder having any particular relationship with Furukawa Concerns, and that it should be improper and unfair to regard him to such effect.

IN WITNESS WHEREOF I have set my hand, this 15th Day in the Month of June, the Year of One thousand Nine hundred and Forty-eight, in Kamakura city, Kanagawa Prefecture.

Page 4

10. Chronological record of profession and employment.

Note 1: "Organization or company" mentioned in this column include any organization or company other than Zaibatsu company. With reference to organizations, relationship with economic organizations such as union, association or conference etc. will particularly be given in detail.

Note 2: In case you did not, in fact, handle duties for which you have been authorized, duties and powers which you actually handled and name of the person who dealt with duties originally authorized for you will be given.

Note 3: With reference to the Zaibatsu company where you served as official or as a person accorded with the status of official, the following entries are additionally required.

a. Name and stock-holding percentage of stock-holders owning 10 per cent or more of the total stock of the company at the time of your assumption of office and retirement.

b. Name, position and dates of appointment and retirement of other officials of the company during the period when you served.

Dates of employment and retirement.	Name of company or organization where you served.	Status of the position (including position as ordinary personnel.)	Duties and powers (in detail).	Substance of business of organization or company where you served and its location.

Hirakawa Zenzo

11. At the time of your assumption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangement existed in writing.

None

b. Details of circumstances under which you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

My assumption of the Director of Nissan Chemical Ind. Co. Ltd. (Nihon Yushi (Oil & Fat) Co. Ltd at that time) was due to my long experience in the work and selection according to the number limitation of officials. There was no fact that Zaibatsu being concerned in approving my assumption of office.

The assumption of official position at Nihon Kogyo K.K. (Japan Mining Co. Ltd) - amalgamated of former Nippon Chemical Industrial Co. Ltd. - was due to my experience and ability at Nissan Chemical Ind. Co. being highly estimated and also due to the selection in order to develop the works of the Company. Zaibatsu had nothing to do with my assumption of office.

The assumption of the Director of Nissan Chem. Ind. Co. Ltd (former Japan Oil & Fat Co. Ltd or Nihon Yushi K.K.) was due to the fact that the Chemical Dept. of Nihon Kogyo K.K. (Japan Mining Co. Ltd) succeeded in the said company. Zaibatsu had no concern in approving my assumption of office.

My assumption as to the Director of Nissan Chem. Ind. Co. Ltd. in Korea was <sup>due</sup> to the fact that the technical guidance of the said company was done by Nihon Kogyo K.K. (Japan Mining Co.) (The Chemical Dept. of)

Under these circumstances I was selected and there was no fact that Zaibatsu was concerned in approving my assumption of office.

APPLICATION

*Misao Ueda*

February 5, 1948.

To: The Hon. Tetsu Katayama,  
Prime Minister.

Sir:

Our company, Nihon Kogyo K.K. (Japan Mining Co., Ltd.) and Nissan Kagaku Kogyo K.K. (Nissan Chemical Industrial Co., Ltd.) were designated as an affiliated concern with Nissan Zaibatsu in compliance with the Law No.2 to Eliminate the Controlling Influence of Zaibatsu Families promulgated on January 7, 1948 and with the Procedure Provisions of the Directive No.7 of the same Law promulgated by General Affairs Board on the same date. Consequently I have come under the law as an officer of the Zaibatsu company concerned.

I hereby submit this application for your kind approval in accordance with Article 6 of the Law that I am not an officer of the Zaibatsu company concerned according to the reason stated in the separate sheets.

*Z. Hirakawa*

---

Zenzo Hirakawa  
Former Director of  
Nihon Kogyo K.K.  
Director of Nissan  
Kagaku Kogyo K.K.

### Reference of Application

1) I graduated the Industrial Chemistry Dept. of the Kyoto University in 1918 and was employed by the Nihon Shami Seizo K.K. (Japan Chemicals Industrial Co., Ltd.) which renamed afterwards as Dai-Nippon Jinzo Hiryo K.K., (Japan Chemical Fertilizer Co., Ltd.), Nihon Kagaku Kogyo K.K. (Japan Chemical Industrial Co., Ltd.) and Nissan Kagaku Kogyo K.K. (Nissan Chemical Industrial Co., Ltd.) (This company is different from the present Nissan Chemical Ind. Co., Ltd.) as an apprentice engineer. Since then I had served in the same company ~~for fifteen (15) years~~ till Oct. 1940. In November in 1940, I was employed by the Nihon Yushi K.K. (Japan Oil & Fat Co., Ltd.) as the acting chief of the Paint Dept. and had been appointed to be the manager of a pigment plant and paint plant and the chief of construction dept. of a wilding rod plant, and at last to be the director.

In March, 1944, the Nihon Kogyo K.K. (Japan Mining Co., Ltd.) planned up to enlarge its Chemical Division which the company had amalgamated, when I assumed director and Chief of the Planning Dept. as I was acquainted with the business of the company, for I had served in the Nissan Chemical Industrial Co. for twenty-four (24) years and had been the Chief of a Chemical Engineering Section and a member of the Planning Dept.

I planned up new businesses under Mr. Ryoza Isahaya, managing director, but in the company there was the "Officers Committee" in which important matters were deliberated together, so I did not take part in the management of the whole company.

Meanwhile, the Chemical Division of the said company was decided to sell to the Nihon Yushi K.K. (Japan Oil & Fat Co.,Ltd.) on March 29, 1945 and directors from the former Nissan Chemical Industrial Co.,Ltd., including me, was ordered to retire their position. The Japan Oil & Fat Co.,Ltd. which amalgamated the Chemical Division of the Japan Mining Co.,Ltd. renamed as Nissan Kagaku Kogyo K.K.(Nissan Chemical Industrial Co.,Ltd.), considering its businesses. And the abovementioned directors were succeeded to the new company as directors. My business in the new Nissan Chemical Industrial Co.,Ltd. was the Chief of the Chemicals Dept. I took charge of leading of technique in manufacturing chemicals. I took charge of management of factories belonged to the Chemical Division as the Chief of the Chemical Engineering Dept. since Oct. 27, 1945, and since June 1, 1946, I have engaged in the construction work of the Wakayama Plant as the Chief of Construction Dept. of the factory.

I am never an officer of the lineage of the Zaibatsu as abovementioned. The reason why I assumed the director of the Chosen Nissan Kagaku Kogyo K.K.(Korean Nissan Chemical Industrial Co.,Ltd.) was that the Chemical Division of the Japan Mining Co.,Ltd. had lead the said company in technique of chemical industry. Of course, I am a nominal director in the company. The reason why I assumed the director of the Chosen Barium Kogyo K.K.(Korean Barium Industrial Co.,Ltd.) was that I had some knowledge of barium industry as I had researched it during I was in the Japan Oil & Fat Co.,Ltd. Of course, I was a nominal director.
