## Editorial

**I**N this, the ninth volume of the Ramikin, the year book of the Class of 1919, it has been the privilege of the students of Mechanics Institute, through the medium of the editorial staff, to record the events of the past year.

Owing to the general upheaval caused by the war, there have been many changes, which have more or less affected the content of this book. Because of the fact that many of our students left the Institute to enter the service, the number of our school activities has been greatly reduced, thus decreasing the amount of material to be printed. Moreover, because of prevailing war prices, we have been unable to insert all that we would like to, had we unlimited means. However, in spite of these difficulties, we have endeavored to compile a book which will be of interest to all and we hope that what we have lost in quantity, we may have gained in quality.

For the entirely satisfactory response of the student body in contributions to the book and for the excellent co-operation of the members of the Ramikin Staff, we are truly grateful.

May this book express in part the undying interest of the Senior Class in the welfare of Mechanics Institute.—*The Editors.*

EASTMAN BUILDING

BEVIER MEMORIAL BUILDING

GIRLS' DORMITORY

## Girls' Dormitory

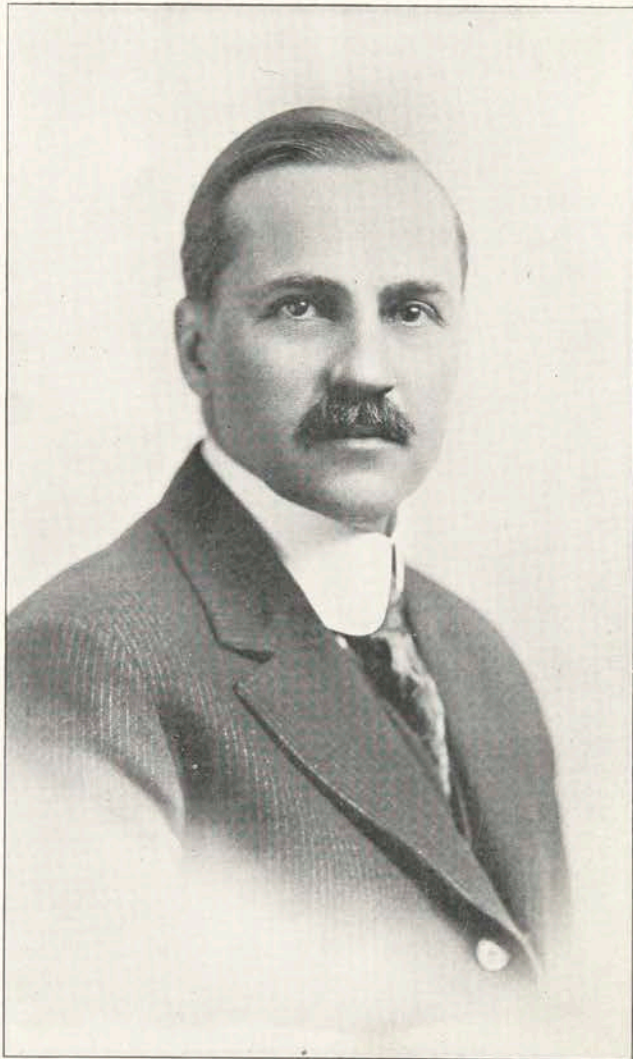

The building illustrated here, is to be used as a dormitory for women, under the supervision of a competent house mother, and will be ready for occupancy with the opening of the Institute in September, 1919. The entire building has been remodeled and placed in first class condition, new furniture has been purchased, and the apartments will be equipped in a very tasteful manner. Over \$30,000 has been invested in adapting the building to its new uses.

This property is located next to the Institute's main building, and in order to make access easy to the Eastman Building, a bridge connecting the third floor of the dormitory with the second floor of the Eastman Building has been erected, so that students may come directly to the main building of the Institute without going out of doors from the dormitory. This was made particularly desirable because of the fact that the Institute maintains a restaurant in the Eastman Building where students in residence in the dormitory will be furnished meals. In all, there are approximately one hundred outside rooms in the dormitory. They are arranged in suites of three and four rooms with bath. Small groups of women can arrange to use the suites in conjunction, thus placing at the disposal of each group a living room, bed room and bath facilities. There are a few single rooms and a few bath rooms for general use. Ample storage room for trunks and clothing is available for each suite.

On the first floor is a large reception room, and several smaller ones also are provided. There is a kitchennette for use in connection with entertainments and functions given by the students. A suite of rooms has been set aside for the Medical Department, and a nurse is constantly in attendance. The Institute physician will also visit the department regularly.

Two meals, breakfast and dinner, will be served in the Institute Restaurant. Rates, including the two meals, will vary according to the location of the rooms, from \$6.00 to \$8.00. Students may patronize the school cafeteria, a la carte, at luncheon.

Reservations may be secured by applying in advance to the Business Manager.

## *THE HISTORY OF THE CLASS OF 1919*

“The play is done; the curtain drops,  
Slow falling to the prompter’s bell;  
A moment yet the actor stops,  
And looks around to say farewell.”

Three years have been ticked off on the never failing clock of Time since we as Freshmen made ourselves known to Mechanics Institute. Everyone appreciates the fact that the historian is bound by oath to tell the truth and it is, therefore, our painful duty to relate our Freshmen Tragedies and Errors as well as the more brilliant side of our career.

In the fall of the year 1916 we came and the school having proper respect for the incoming class greeted us, soon after our arrival, with a reception. Upon that occasion, each Freshman felt that upon him and him alone did the future of the Institute depend. Our version of life is somewhat changed since then. Older and wiser, does the present find us. Following this reception by the school, another one was given in our honor by the upperclassmen. We prefer to pass this hastily, for reasons of our own. One glowing success can be registered in our Freshman year—the Frosh dance—it had been our determination from the very beginning to keep out of debt, even if we had to borrow money to do it.

With a year’s experience stowed away, September, 1917, found us at M. I. again, with much anxiety as to what the future held for us. The first event of that year which deserved attention, was our dance. Here we proved to the Seniors that if we were nothing else, we were original, yes even in our manner of dancing. The basket ball team had done so nobly, that we decided to give them a party. Our magnanimity was self-evident by the fact that we allowed upper classmen free access to our supplies.

No one can record the history of the months that followed without bringing in a touch of the sadness which universally prevailed. Many of our boys left us to do their best for the country which had so freely given to them. We, who were left behind, did our smaller share in the Red Cross Rooms and collected funds in various ways for this organization.

On May 31st, 1918, the Seniors were given their farewell at the Junior Prom. Existing conditions necessitated this being an unusually

subdued affair. Despite that fact, everyone appeared to have a very good time and no disappointment was registered on the faces of those who were present.

Our Senior year arrived. If this fact alone failed to bring us to a realization of the serious responsibilities in life, it was aided in its cause by lesson plans and practice teaching. Our time was well filled with Red Cross work, school activities and confidential talks with Mrs. Fisher.

In October we had a "Flu" vacation, when many of us had an opportunity to review our past life and make worthier plans for the future, should we by any chance be given a future in this loved habitat. Shortly after school opened a very memorable day dawned—Peace Day. Never will we forget it. After that we felt the need of relieving our feelings and as a result the Carnival which had been postponed was held in the form of a Victory Carnival. Athletics were revived—Bevier was busy with dances. We welcomed our boys who came back, feeling justly proud of them.

Our school days draw to a close and unconsciously we look to the past where many pleasant memories dwell. But it is to the Future we look and say:

"Our hearts, our hopes, are all with thee,  
Our hearts, our hopes, our prayers, our tears,  
Our faith triumphant o'er our fears,  
Are all with thee, are all with thee."

**I**T IS fortunate for us that we escape the "wise fool" stage. "Junior" sounds much more dignified and grown-up. Just take a look at the officers and see how dignified and motherly they look. The President, for instance, is so very capable, that it has been predicted that she will hold a seat in Congress, as representative from Pennsylvania. Argue? She'll take either the affirmative or negative, or both, of any subject suggested and make you believe what you never thought you would.

There is but one essential that the class does not possess and that is men, men, men! It was rumored once that there was a man, roaming around the halls that claimed to be a Junior. Poor fellow? I suppose he feels terribly lost in such an awful class of girls.

On November 30th, we gave a dance in Bevier hall. Was it a success? Well, what else could you expect from the Juniors?

Then the "circus" was the feature of the Carnival. If you missed that, it certainly was too bad. We proved to the public that we could be first-class monkeys, apes, roosters, etc., and the gold Dust Twins were the cleverest ever.

Mr. Woodland will tell you that our minds run along scientific lines, for as chemists we are experts. Yes, Division B became so interested in an experiment, that they put the evaporating dishes with contents, on flame under the hood and at midnight happened to think that they were still there. Division C, however, went one better. They caused some real excitement when the explosion occurred causing two girls to burn thir hands severely. Since then "Woody" will allow no one to enter the laboratory alone, for he says, "Someone must be on hand to carry out the remains."

—Marion Alstadt, Secretary.

### FRESHMAN CLASS HISTORY

**I**N NO small numbers, it is true, and an altogether eager and determined crowd of students, we were when we entered M. I. halls in September. We found the upper classmen ready to greet us in a manner furnishing much amusement for themselves, but as for the "Frosh," ask us how we enjoyed our initiations. Still we survived and showed our "spunk" from the first.

It was not long before we were searched for by our Senior mothers, in whom we found real friends. At the Faculty reception we were given special attention so that we no longer felt so strange and new, but could consider ourselves as belonging to Mechanics Institute. Our girls were taken into the Woman's League and a few became active in Y. W. C. A. activities.

Just as we were becoming accustomed to our surroundings, and school work was progressing well, we were obliged to cease our activities for a period of four weeks in October, due to the influenza epidemic which made it necessary to close the school.

Upon our return, school life began in earnest. Our class organized and upper classmen now were aware that we were ready to "shoulder our own responsibilities" and help carry on M. I. functions.

It was not long before our girls showed their bent for athletics. Gym with its "hit-pin ball" and "Captain Ball" ever being an interesting topic in our circles. Swimming found its place and we are proud to say that it is the Freshmen girls who have taken the lead in swimming interests this year.

When the M. I. annual Carnival came to be the topic of the day the school found our class ready to do its little bit. Even though our suc-

cess may be put in small print by our judges, great loyalty and interest were displayed by the persons who helped to make our little play "At the Photographer's" a success.

We can not leave our history without mentioning the fact that in the annual track meet, held in February, though we did not win the meet and were unable to beat the Seniors, we were found to be worthy of considerable notice, coming in as we did a close second.

What could a class history be without a big class dance? Ours was a delightful affair and our class feels proud of the great success of our "Frosh Hop" held in Bevier Building February 28th.

In the two years which are before us, we will strive to entirely overcome the points which stood against us as Freshmen, and having gained the true spirit of the work, maintain high ideals and standards of Mechanics Institute.—R.M.P.

### CLASS SLAMS

Deb in class will not be seen,  
She hurt her foot and can't turn the machine.  
Laura is young and Laura is charming,  
But, oh how she hates to get up in the morning!  
Madge is our class soloist.  
Is she? I'll say she is!  
Beaux in America, Beaux in France,  
Marion step out and give us a chance.  
Giggle early and giggle late,  
Ruth is tardy as sure as fate.  
Eleanor's shy in House Decoration,  
Ripping and dancing's her chief occupation.  
"Not knowing, I cannot inform you  
with any degree of accuracy."—Arline.  
Lillian in gym does always shine,  
Her diving on dry land sure is fine!  
Anna's conscience is quite disconcerting  
When embroidery class we're all deserting  
Marjorie's lived here, Marjorie's lived there  
California, Texas and everywhere!  
"Hurry up!" "Hurry up!" is Rhoda's cry  
From early morn till night draws nigh.  
Peg couldn't stand M. I. after all  
But had to rush back to see her Paul.

## THE HENRY LOMB SOCIETY

The Henry Lomb Society, established in 1916, and named for the founder of Mechanics Institute, is an honorary society, whose purpose is the appreciation and encouragement of the highest type of citizenship, exemplified by Captain Lomb.

Students are elected to membership after successfully completing a three years' course, the election being based on scholarship, personality and an active interest in student organization.

**T**HE Students' Association of Mechanics Institute, organized in 1914, has wrought steady advancement in government and school activities. Its success has been due, principally, to the voluntary co-operation between the Student Body and Students' Council.

The Students' Council, composed of representatives from various departments is the means through which all activities are carried on. The carnival, athletics, Pay Day, noon dances, Students' Hand Book, assemblies, have all been brought about and carried out by the council. The past year several dances were given for the benefit of the soldiers stationed at the barracks.

At the beginning of the year the Council was badly handicapped owing to conditions caused by the war, some of the men elected to the council being in the service. For this reason and, owing to the fact that the boys' gymnasium was being used by the government school, a basket ball team was an impossibility. However, base ball is being looked forward to with all the more enthusiasm and the prospects are good for a strong team.

Girls' Athletics, instituted as an association activity last year, have been enlarged upon, especially the track meet, swimming, tennis and captain ball.

The association membership fee, along with the carnival proceeds, has made possible the financial standing of the Students' Association.

The dancing class has had one of its most successful years, the number of members having increased. The assemblies this year have been both instructive and interesting.

For the first time in its history, the Ramikin has been put on a paying basis.

The council wishes to express their thanks to Mr. Farnum, faculty advisor, for his advice and time given to the Council.

#### CLASS NOTES

And what is so rare as a day in June?  
Why—a soft pillow coming out of the window of 114 Adams St., when,—  
It might have been a brick.

Neither a borrower or lender be  
If you wish again your umbrella to see,  
Just watch Miss Kessler down the street flee  
With the umbrella, but not the rubbers, Oh,  
Gee!

The hardest problem of one little senior

What can tell? Or tell!

Speaking of Freshmen's funny sayings:  
Who has been heard saying this—"I'm all  
right, but there's a man in the room—next!"  
Why be so timid?

If I chase 'em will Liz Ketchum?  
If I sit on a chair where will the rapid

If I ride will Jadie Leggett?  
If apples won't gelatenize will Florence

Early in September a mass meeting was conducted by the President of Woman's League. Miss Benedict addressed the girls at this meeting, bringing before all a broader vision of their duty to the League and School. The new and revised set of rules which were approved and voted upon last year, were read by the secretary. The house presidents have met with the executive board at each meeting, to discuss League and house problems.

On September 23d Woman's League invited the Senior girls to bring their Freshmen daughters to an informal party held in the Hostess Room.

During October the girls sold paper knitting bags to raise money for the League.

WE, as the students of an age of stupendous world problems, realize our duty in playing a very definite part in the furthering of the Christian Association spirit of good will.

Our usual preparations for incoming students were made in the fall. The denominational census was carried out successfully. In that way the freshmen found their temporary church home.

Late in September Miss Benedict greeted us in our opening meeting. She revealed to us new opportunities for Christian service in our own locality.

At intervals ministers from Rochester churches gave us talks explaining war conditions as well as inspirational, practical advice.

Our Missionary Department has been very enthusiastic. We had Japanese meetings supplementary to our Christmas Japanese Bazaar

which proved a wonderful success, socially, financially as well as spiritually.

Dr. Belle Allen, a returned medical missionary from India, spoke to us in a special morning association meeting. Later in the year we gave an illustrated lecture on South America at our regular weekly meeting. The missionary spirit was fostered by the aid of our study group which meets every Monday at 4:30. Dr. Thompson very kindly consented to guide our discussion in these study groups.

Two delegates were sent to the N. Y. State Student Volunteer Conference at Albany State College, February 21-22-23. Thoughts of thinking people were exchanged there. What is more valuable in the life of the student?

One of our members was elected delegate to the National Y. W. C. A. convention in Evanston, Ill., Feb. 20, 21, 22, 23. She brought us a national vision of the "New World."

During the winter semester Miss Alice Hoyt, our Traveling secretary, visited us. Plans for the remainder of the year were discussed and a definite program decided upon.

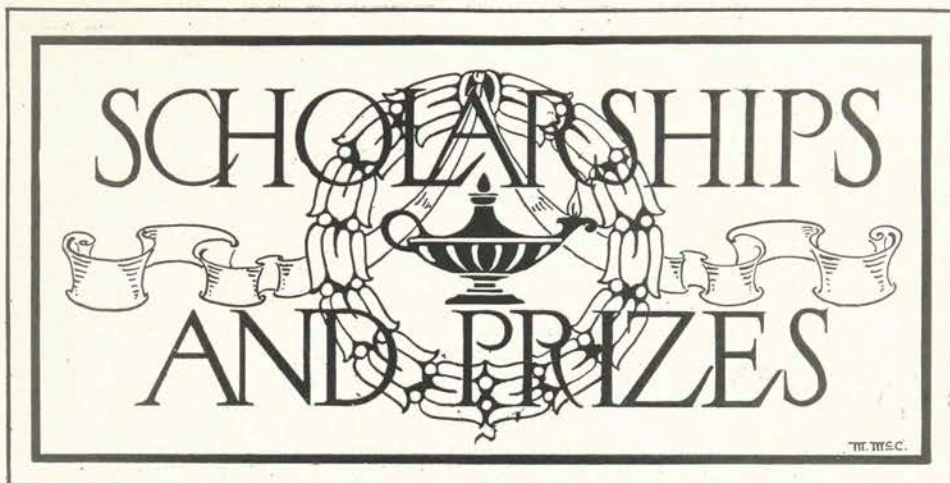

A special course of industrial meetings was opened by an address by Dr. Cecil Greil, a medical worker with the Italians in America. Dr. Greil urged us to form friendship clubs with foreign girls and thus bring about a more friendly feeling between different nationalities. A second industrial meeting was held when Miss Ruth Palmer, a Y. W. C. A. Industrial Secretary, spoke to us.

Our social committee has been bettered due to the fact that a number of our members have taken the eight weeks course offered at the Central Y. W. C. A. for recreational leaders.

One of our social functions was the Children's Valentine Party, the Freshmen and Juniors being special guests. Every one was dressed as a child and enjoyed themselves trying to act as they were costumed.

We take great pleasure in thanking those members of the advisory committee who so kindly offered their support to us through the difficulties of this year.

Silver Bay is another source of help. Last year four delegates attended the Conference. Go to the wonderful place if you ever have the opportunity. You will never forget it. Every college girl needs just such an experience as only a place like Silver Bay can give her.

### ART LEAGUE

A man is at his best when he is himself and it is here that the Art League proves itself worth while. With its workings for common interests, its good times, its informal get-togethers, the student appears as he naturally is, forgets his apparent shortcomings and his shyness and enters into things with his whole heart. And it is here that the Art League, though small, is big,—big,—because it is doing big things and works with big aims in view.

And it has helped, with work and with fun. Let us take its fun. First in the year, as always, comes the "sausage roast." There are weiners á la Mechanics Lunch, á la Manhattan, even á la Odenbach, but weiners á la Summerville are the best ever we know.

Then there is the initiation; girls in curl papers and queer costumes and boys still funnier; stunts that are trying and eats that are not. Then, the carnival stunt, a full fledged cabaret, with ballet dancing, dramatics and true Parisian waitresses. Oh Marie! And the sale!

This time it was an Easter Sale instead of the usual Christmas Sale, where one buys everything from a napkin ring to a bridge set.

And of course there are the teas. But these teas have been a big part of the League's work. They have brought the students together and brought out their own ideas. Good speakers have been heard and discussions held, which have proven very interesting and instructive.

As an example of the big things the League has attempted take the

afternoon when it sent Mr. Van Ingen, architectural instructor, as its representative to the New York of the America Institute of Architects held at Syracuse. Of course, Mr. Van Ingen boomed the League as only he can, and who can tell of the far-reaching effects that trip may have had?

Oh we have worked, we Art Leaguers. We have worked, but it has paid and though in print our "doings" look small we who have taken part in them know, and shall always remember that the Rochester Art Students League has been an important factor.

A word about Chi Phi: It has been an "off" year, we admit, "off" all around. The male section of Mechanics was, for a time, rather inconspicuous. But Mechanics is coming back and so is Chi Phi. Of last year's thirty or more, there were but two or three to keep things alive, but it was done, and Chi Phi still lives and is growing stronger and bigger and better than ever.

As always, its watchword has been "For Chi Phi" *and* Mechanics" and the two work together. The new men taken in this year are few, but they are good and these with the old men who plan to return in the fall, will continue to keep up the standards of Chi Phi and tend to make it as it has been before, the life of M. I.

### THE JUNIOR PROM

All work and no play makes Jack a dull boy. In order to see that the grave and revered Seniors were given some opportunity to play as well as to work, the Juniors gave a dance in their honor on the evening of June sixth, nineteen hundred and nineteen, in the Rose Room of the Hotel Seneca. Their enthusiasm showed that even the Seniors did not consider work their only aim in life.

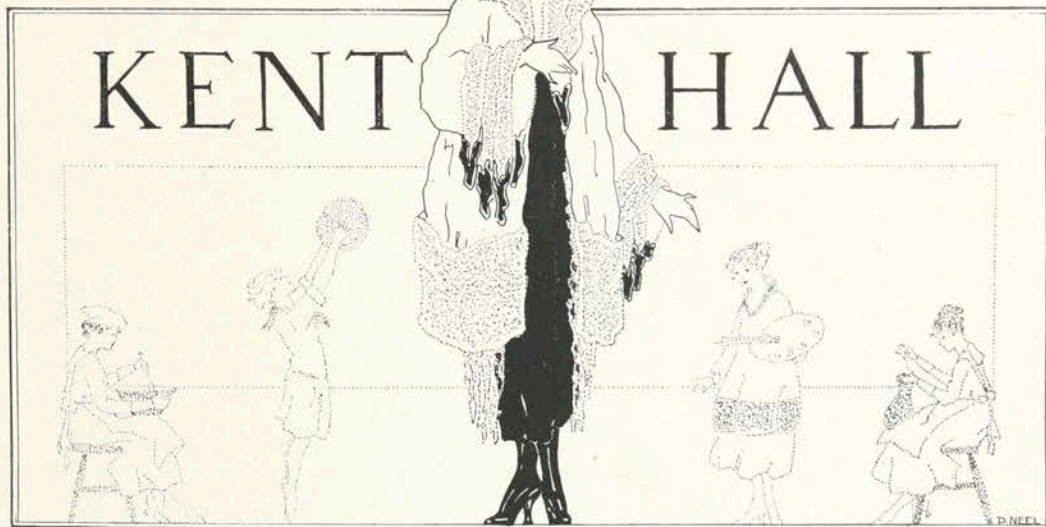

The rainbow effect produced by the gowns of the girls made one think of Fairyland and the days when Cinderella attended balls and the Fairy Godmother ruled the earth. It is even whispered that Prince Charming was present at this ball and stole a staid and stately Senior's heart quite away.

Seniors—one and all—may our farewell speed you on your road to success.

LOIS ALLEN. Wanted—Instruction in agricultural pursuits.

- DOROTHY WILLARD. Wanted—Breakfast served in bed and 10:30 classes.
- MILDRED WOOD. Wanted—Refunds on soda checks.

ON September ninth we were given a hearty welcome by the seven Seniors, who had to come back a week early for practice teaching. The first few days were busy ones, getting programmes arranged, unpacking and of course stopping between times to relate in detail the experiences of the Summer.

September sixteenth we issued the regular orders to the Freshmen, also their green caps. For one week the Freshmen breathed only with the consent of the upper classmen, so it seemed to them. They were nine of the best sports ever and took everything smilingly. "A Country School," the play which they gave to the upper-classmen was clever. The "Military Mock Wedding" was a very elegant and thrilling affair as all weddings are; not to mention the numerous other stunts that they did to amuse their elders.

What next? Why on the morning of October ninth we learned that school was closed indefinitely due to the "flu" epidemic. It was rumored that Rochester would be put in quarantine at mid-night. Such a mad scramble—everyone was much excited. Some girls went home, others visiting, some industrious creatures became farmerettes, and our brave, noble girls remained, assisted in taking care of the "flu" patients.

School re-opened on November sixth. Oh! how glad everyone was to come back. Due to our long and unexpected vacation we missed our annual Hallowe'en party but we made up for it at Thanksgiving. It was the best party ever. Each floor did a stunt; then a delicious lunch was served after which everybody danced.

Our first house dance was December fourteenth. A Christmas dance!! The decorations and programmes were lovely, fine music, good eats and my but everyone did have such a good time.

December nineteenth was our annual Christmas dinner and slam

party combined. At mid-night the Juniors sang Christmas carols thru the different corridors. It was beautiful and most impressive. Then we all left to spend the Holidays at home.

On January twenty-eighth we gave a farewell dinner to our house manager, Miss Jean Kincaid. Miss Dorothy Dorrance, house-president, presented the girl's gift and gave a splendid farewell speech.

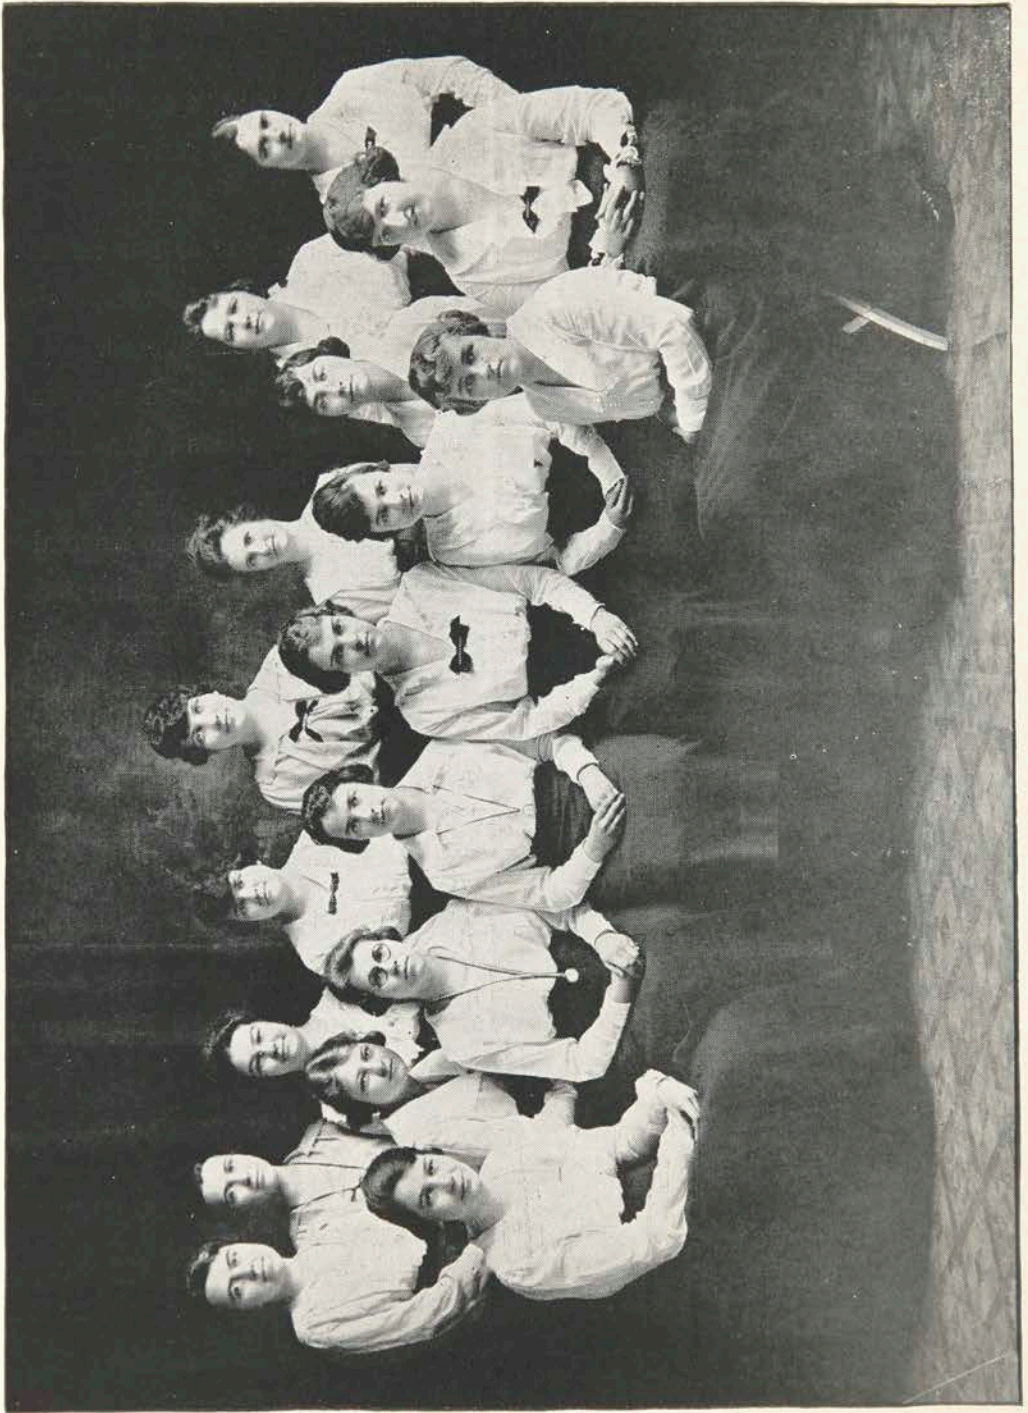

February eighth, the house was in brilliant attire for the tea given to introduce our new matron, Mrs. Sarah E. Frank. It was a beautiful affair and the girls looked their loveliest.

We celebrated Washington's birthday by having our House Formal Dance. It was a wonderful party. The decorations were red, white and blue flags and palms. Supper was served in the dining room, which was most attractive. Oh yes, we had the cutest favors ever. The music was fine and the girls looked most attractive.

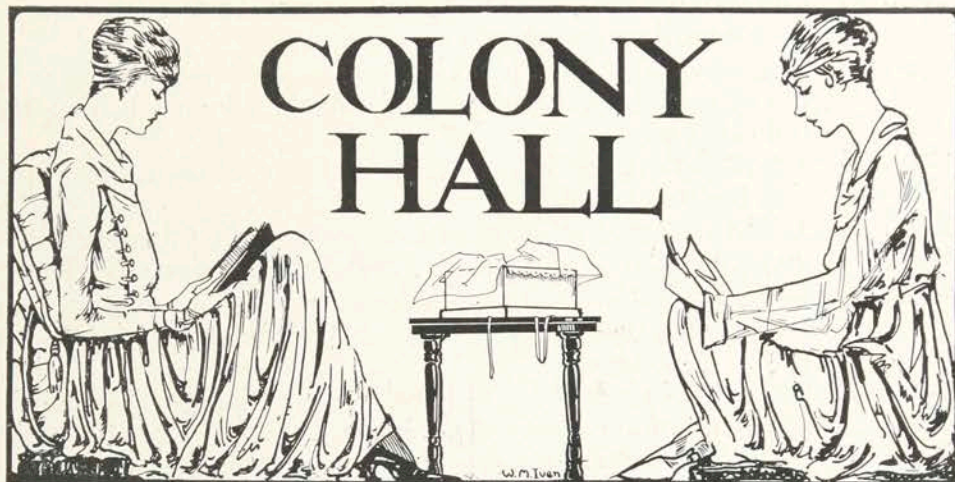

Spring is coming when everyone wants to be out of doors all of the time, but unfortunately can't, so we have Spring flowers to brighten our house.

Besides our May dance, many parties are being planned for our Seniors, whom we will all miss. We wish them much good luck and happiness, and hope they will never forget all the wonderful times we have had together at Kent Hall.

COLONY HALL 1918-1919

- Sept. 4 Sad day for the Seniors. Practice teaching compels them to return earlier than the rest.
- Sept. 11 Freshmen and Juniors welcomed, and a Farewell dance at the Barracks for the summer contingent, who are leaving the following day.
- Sept. 15 Freshmen dressed in rather unusual way, as a part of initiation for Sunday dinner.
- Sept. 14 Initiation of Freshmen with a very much frightened and excited bunch of freshmen. We followed out the regular custom of initiation. After a very strenuous evening, we had a real party for them. Now they are a real part of Colony Hall.
- Oct. 9 "Flu." No school! Oh what joy and sadness combined, nearly all of our girls left for home.
- Nov. 6 "Flu" excitement quieted a bit, so we returned once more to our studies.
- Nov. 7 Celebration for Mechanics Institute in general parade up Main street. "Suppose Peace" being declared
- Nov. 11 Real "Peace Day" Legal half-day celebration. Once more a parade.
- Nov. 23 Dance at Colony for the men at the barracks. The affair proved *almost* a success.
- Nov. 28 Thanksgiving—"O! I wish I could eat more!"
- Dec. 4 This week proved half mournful and joyful, because the first half of our friends, the Barracks men, left and now we shall be able to sleep until 7:30 peacefully. No more embarrassed moments passing the line up, trying to get to a 1:30 class on time. No more dances and parties with the excuse of entertaining the "*enlisted men.*"
- Dec. 18 Our Xmas Party, also a very beautiful wedding was solemnized, uniting in happy wedlock Capt. Issy Human (Isabell Warner) and Bridget O'Rourke (Julia Kerwin). This was followed by a very beautiful wedding dinner and recreation Dancing followed and the bride and groom were recipients of many beautiful and costly gifts. We also enjoyed the usual "slam party" and in most all cases a great many helpful suggestions were issued. Such as, sleeping tablets for the early, noisy risers; alarm clocks for the always tardy ones and many articles relating to personal experiences. The decorations were suitable for Xmas tide.

- Dec. 19 "Good-nite." I'm tired. But first let me tell you there are just six hours, fifteen minutes and ten seconds until we all pile onto that train for home.
- Dec. 20 Strains of Home Sweet Home echoed through the halls.
- Dec. 30 Seniors! We freshmen and Juniors pitied you, having to return early date "Practice Teaching—oh where is thy joy?"
- Jan. 5 Behold travelers from home. "How many days before spring vacation?" "Didn't you have a wonderful time?"
- Jan. 24 We had the pleasure of having Miss Hoyt here for dinner. She is a Y. W. C. A. secretary and gave a very interesting informal talk after dinner on Japan and how the Japanese lady accustomed herself to American dressing.
- Feb. 14 "Happy the man who, void of cares and strife can go to Shriners' dances all his life." Dr. Smith very kindly invited Colony Hall girls to participate in the Shriners' Ball Masque. We escorted the queen to her throne. Then were allowed to meet our escorts and later enjoy the general dancing. Returning home in the wee small hours next morning.
- Feb. 18 Mid-winter gym meet. "Wasn't it the best ever?" But oh my poor form how stiff thou art.
- Mar. 4 Our last dance before Lent. We were all very much excited as it was arranged for on the spur of the moment. We all had a most exciting time and unanimously decided it was the best dance so far this year. Now we are quite contented to quiet down until after the Lenten season.
- Apr. 19 Start home for Easter vacation, spring clothes.
- Apr. 26 Back from home. "How many more days until we go home for good?" Excitement Seniors?
- May 2 Colony Hall Formal Dance. Wonderful decorations, wonderful eats, wonderful men, wonderful dances. One wonderful time.
- May 30 Informal dance.
- June 10 Junior Prom, Seneca Hotel.
- June 19 Commencement. We hate to see the seniors go, for they were such a jolly bunch. Home Sweet Home looks good to us.

### GIRLS ATHLETICS

**W**E MADE a very poor beginning in athletics this year. The year began very slowly and it was a long time before any spirit or "pep" was shown. Basket-ball, the favorite sport among most of the girls, was out of the question because of the new use of the boys' gym by the school of optometry.

The first real event of the year was a track meet, held in February, in which all three classes participated. The crowd out that night was large and made a good beginning for the year. There was an exhibition of obstacle races, relay races, high and broad jumps, basket-ball throw, etc. The rivalry was great and the final score very close, this being due to the well distributed talent along these lines. The Seniors, a mere handful, living up to their work of the previous year, came out on top with score of twenty points. The "Frosh" came a close second with nineteen points.

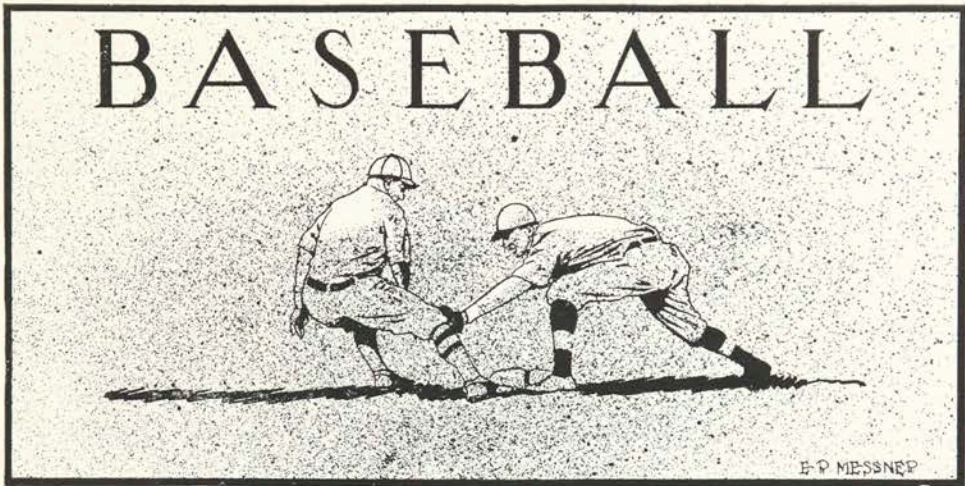

The next event will be a series of inter-class Captain Ball games. This sport is taking the place of the former interclass basket-ball games that have been missed so much by all. The girls have been out to practice quite regularly and it is evident that there will be a close contest for the championship. The basket-ball "cup" will be given to the winning team.

What has been perhaps of more interest to the girls than in former years, is swimming. There are two classes a week at the Y. W. C. A. building, which are attended well. The girls are having lots of fun and at the same time are learning to swim and do the various stunts correctly under the kind supervision of Miss Moffette. The result of these classes will be shown by the girls themselves sometime in May, when a swimming demonstration is planned. All girls who can swim will be present to show what they can do and at the same time will support their class records.

After the swimming season will come tennis. Plans are being laid to make this sport a success this year. Tournaments are to be held, which will be entered into by many of the girls. In this way we will endeavor to make tennis as popular at M. I. as it was three years ago.

Last year the Students' Association awarded the "M" and numerals to girls for the first time. The same plan will hold good this year, numerals being awarded for good work in any line of sports. Three numerals mean a school letter and this in turn means good all around work. There was one letter awarded last year for athletics, but it is hoped that although the active season began later, that more of the M. I. emblems will be worn this year.

# BASEBALL

The Mechanics Institute base ball has suffered under the pressure of war, like all other school activities. However with Captain Mansfield at the helm, this season's team is making a successful effort to put the American game on our athletic map again. A fine schedule with some of the strongest teams of Western New York, has been arranged by Manager Rex.

## CARNIVAL NIGHT—ONE LIVELY TIME

Amid the wild clamor of the megaphones, the bright colors of the costumes and the laughter and chatter of the crowd, the annual Carnival was held in the halls and class rooms of the school on January 22d.

The booths were astir with the various attractions which were scattered over the first floor of the building.

The entertainments varied and were featured by the different school organizations. A sketch entitled "Wanted, a Wife," was pulled off with great success by the Woman's League. The Seniors gave "Reflections of Past Life" in a little country school, conducted by Mis Fit.

A three-ring circus was cleverly given by the Juniors with their trained monkeys, elephants, bears, snake charmer of tradition and the only bearded lady in captivity, which far surpassed Ringling. The Chi Phi "cops" checked the mobs from feeding peanuts to the monkeys and from blocking traffic.

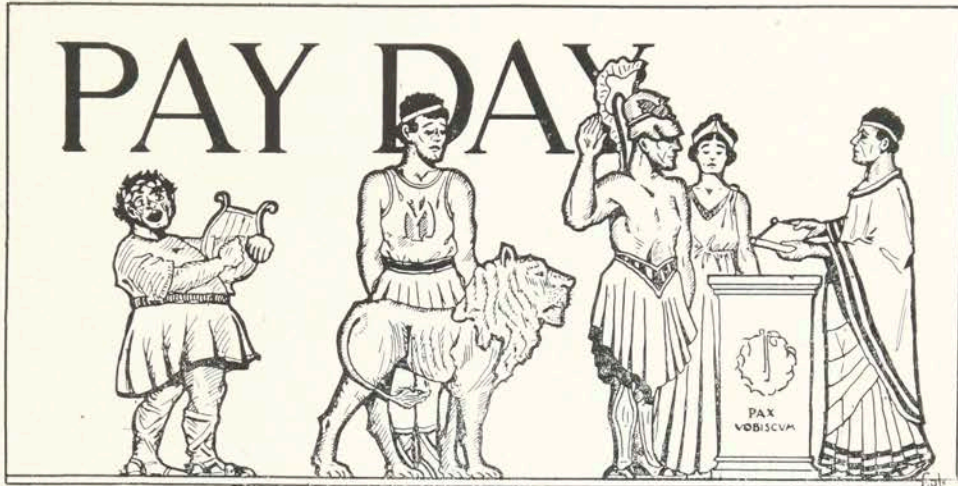

Al Johnson, the noted colored comedian, was the head liner of the Y. W. C. A. Vaudeville. The cabaret, held in the gym by the Art League, drew large crowds and was enthusiastically applauded.

The library was changed into a delicatessen shop, where lolly-pops, fudge, popcorn, jellies, jams, relishes, mincemeats, canned fruits and vegetables, muffins, rolls and cakes were sold. Dancing followed the regular programme of stunts. The school orchestra, consisting of piano, drums, violin and saxophone furnished the music.

With the co-operation of the Faculty and the students, the Carnival was made the most successful stunt of the year 1919.

### Conversations Heard in and Around the Organic Chem. Lab.

- Gee—"Has 'Woody' been in yet?"  
"What are we supposed to do anyhow?"  
"Say Em Weed, quit gassing, come here for a few minutes."  
"Aw! Shut up!"  
"Oh Marian: I've just broken another beaker."  
"I bet if I had sneakers on I could get to the top of that pole."  
"Hey! Maratha, what are we doing?"  
"Bump!! Bump! Bang!! Ooooh!"  
"What the Hellup!"  
"Who says my hair is standing on end."  
"Goodnight, we will all need our wooden — before we get out of here."  
"Pst! Here he comes!"  
"Mr. Woodland, how do you make lime water?"  
"Hey 'Miney', you put the apparatus away to-day!"  
"Aw! let's go—we can finish the rest next time."  
"Thank the Lord we are through and still alive."

### *PAY DAY 1918*

Nineteen hundred and eighteen Pay Day was figuratively and literally speaking one howling success. It was a bright clear day,—with just enough cool breeze to keep a person on the jump. About twelve-thirty the procession left Mechanics. All the Rochesterians had a free show that day who were between school and the post office where the street cars waited. We went to Seneca Park. Here were the sports, faculty and students and they couldn't have been better. People are still gossiping of the wedding and the base ball game—who won? Why whom do you suppose? After the game supper was served and all around you could see the couples with their lunch boxes under their arms and balancing coffee cups and ice cream cones. Soon after supper people drifted back to the city tired but happy.

Constructed along scientific lines and is capable of simple adjustment in a few seconds by two simple movements of the hand.

The "Unjustit" Is The Highest Grade Car Made

Yet it is the cheapest, for it takes the place of Four Cars. It eliminates any chance of injury to the child's spine. Guarantees a straight pair of legs, insures comfort, pleasure and health.

This Car Cannot Tip Backward

The "Unjustit" Car is in a class by itself. Metal bearings, forged steel axles, powerful steering post and steel truss make it indestructible and fit for the roughest kind of usage.

# The Rochester Athenaeum and Mechanics Institute

is intended to be an open door to unmeasured possibilities in the life work of its graduates; and, that which proves valuable to those of the present generation will be equally so to many in the future.

If our preparation here has inspired us with confidence in ourselves, and a determination to win out, we owe it to others to suggest that they, too, should avail themselves of the advantages which we have enjoyed.

The real way to do something for the other fellow is to get him started right on the road to independence. That's a genuine application of the Golden Rule.

### A "Good Anytime" Dessert

Such a dish of plain Jell-O as Bobbie and Jack welcome with clapping of hands and cries of "Oh, Good-e-e-e!" is good enough for anybody.

But just now, when "substitutes" are still having their day, Jell-O, whipped like cream, is one of the most useful and enjoyable of all foods.

What particularly interests college girls is the fact that whipped Jell-O—say in the form of a pineapple Bavarian cream—is a treat, and one that any girl can provide.

The new Jell-O Book tells how to make all the whipped Jell-O dishes and it will be sent to any address.

Jell-O is put up in six pure fruit flavors: Strawberry, Raspberry, Lemon, Orange, Cherry, Chocolate, and is sold by all grocers, 2 packages for 25 cents.
