We published a short time since, an accou of a mutiny and murder on board the brig Orbit board from the coast of Africk for New York, this vascellawing been boarded at sea by a Bos-ton brig or ship, which brought in two of the Or-bit's crow. By the arrival at this port yesterday from St. Thomas, of the schooner Cicero, intelligence is received that the Orbit had gone ashore Prinidad, with all sail set, and that "on boar-

ding her not a living creature was to be found."
No other particulars are given.

Flour at St. Thomas, Oct. 5, was selling at \$50, the stockbeing light. Business in general was dull, but as the past season had been very fuvorable for the crops, an improvement was soon expected.—Belt. Aucr.

MARTINIQUE.-We see it stated in some of the papers that the tri.colored flag was raised on receipt of the intelligence of the French Revulution, with great collamns at Martinique. We learn that private letters received at this port give a very different account. When the news arrives the shops were all closed and the streets emptied, and a general glown pervaded et.

Pierre. The tri-colored day was not knisted until three or four days had elapsed; and then in abadisance to orders from France, and without a ny appearance of cordiality on the part of the in-labitants of the island. The inhabitants seemed disposed to avoid all conversation upon the subject—they were all silent as if a common distaste for the change was entertained. This is not unexpected intelligence, for it is well known that he pupulation of the island are zealous Bonaparciats, whom no change, which did not resoure the emperors family to the Government, would satisfy. Business on the island was re-presented as very dull. New Haven Hale.

It is needless to mention that Geography, Astronomy, History, Rhetoric, Belles Lettres, the Elements of Physics and Chamistry, &c. &c.

are included in the course of studies.

The College of Spring Hill is susigned to be essentially classic. All the students, without exception, will pursue according to their age, progress, and the direction of the Council of Profession, in connection with other branches, the study of the Ancient and Modern Languages.— The English, however, will be exclusively the

language of communication.
Though the Regency of the Cellege be Catholic, yet so influence will be exercised upon pu-pils bred in the principles of other Christma denomitations. Good order, however, will require them to attend the public exercises of morning and evening prayers and the Divine nervice of the Sebtath. A rigid maral police will be exercised ever all.
