Tobacco Stocks Report as of April 1, 1957

U. S. DEPARTMENT OF AGRICULTURE AGRICULTURAL MARKETING SERVICE TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather Director, Tobacco Division.

Washington, D. C. May 10, 1957

EXPLANATION OF GROUP SYMBOLS BY TYPES OF TOBACCO FOR PURPOSES OF THE TOBACCO STOCKS REPORT

GROUPS OF FLUE-CURED	GROUPS OF OHIO FILLER
TYPES 11, 12, 13, and 14:	TYPES 42-44:
A-Wrappers	C-Fillers (1 wrappers)
B-Leaf and smoking leaf	X-Crop-run and stemming grades
C-Cutters	Y-Farm fillers or ground leaves
X-Lugs and primings	S-Scrap
S-Scrap	
N-Nondescript	GROUPS OF PUERTO RICAN TYPE 46:
GROUPS OF FIRE-CURED	C-Superior
TYPES 21, 22, and 23:	X-Inferior
A-Wrappers	Y-Trashy (Rabia)
B-Heavy leaf	S-Scrap (Picadura)
C-Thin leaf	p-oorap (rioutara)
X-Lugo	GROUPS OF CONNECTICUT VALLEY
S-N-Scrap and nondescript	BROADLEAF AND HAVANA SEED
3-M-3Clab am nondescripe	
GROUPS OF BURLEY	TYPES 51 and 52:
TYPE 31:	A-Wrappers
E-Leaf	B-Binders, seconds, and brokes
T-Tips	C-Fillers and short darks
C-Lugs and cutters	X-Stemming grades
X-Trash and flyings	S-Scrap
S-Scrap	Shorms OF MILL MODE AND DUMBERT HAND
N-Nondescript	GROUPS OF NEW YORK AND PENNSYLVANIA HAVANA SEED
M-Mondescipe	
GROUPS OF SOUTHERN MARYLAND	TYPE 53:
TYPE 32:	B-Binders, seconds, and brokes
B-Heavy leaf or dull crop	X-Crop-run and stemming grades
C-Thin leaf or bright crop	S-Scrap
X-Seconds and ground leaves	ADOTTE OF COMMENTAL AND MODERATOR
S-Scrap	GROUPS OF SOUTHERN AND NORTHERN
N-Nondescript	WISCONSIN
H-HORGESCI IP	TYPES 54 and 55: B-Binders
GROUPS OF DARK AIR-CURED	
TYPES 35, 36, and 37:	C-Fillers
A-Wrappers	X-Crop-run and stemming grades
B-Heavy leaf	S-Scrap
C-Thin leaf	GROUPS OF CONNECTICUT AND GEORGIA
X-Lugs	
S-N-Scrap and nondescript	AND FLORIDA SHADE TYPES 61 and 62:
5-M-Scrap and nondoscrip	
GROUPS OF PENNSYLVANIA SEEDLEAF	A-Wrappers
TYPE 41:	B-Stout wrappers and binders
B-Binders or tops	C-Fillers or tips
C-Fillers (farm Wrappers)	S-Scrap
X-Crop-run and stemming grades	ADAMBA AH HADDIRAN ADAMB ARAM PRAS
Y-Farm fillers or ground leaves	GROUPS OF FOREIGN-GROWN CIGAR-LEAF
S-Scrap	TYPES 81, 82, and 83:
n=0crah	A-Wrappers
	C-Fillers
	S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/
Total Leaf Tobacco Stocks Larger Than A Year Ago

Stocks of leaf tobacco in the United States and Puerto Rico totaled 5,212 million pounds (farm-sales-weight) as of April 1, 1957, based on the 2/quarterly reports of dealers and manufacturers. This is an increase of 182 million pounds, compared with stocks reported a year earlier (5,030 million). The 1956 crop of about 2,230 million pounds was in stocks as of April 1 with the exception of around 55 million pounds consisting of Maryland and Puerto Rican types. Approximately 273 million pounds were marketed during the first quarter.

Flue-cured stocks were up 10 percent for the most significant increase compared with a year earlier. Other kinds of tobacco showing increases from a year ago were fire-cured (up 4 percent), dark air-cured (up 2 percent), cigar-wrapper (up 3 percent), and foreign-grown cigar-leaf (up 14 percent). Larger inventories of Philippine (Manila) tobacco accounted for the increase in foreign-grown cigar-leaf. Stocks of Burley leaf were down slightly from the previous April 1, and significant decreases were shown for cigar-filler (down 6 percent), Maryland (down 11 percent), and cigar-binder (down 12 percent).

Stocks as of April 1, 1957, included about 1,116 million pounds (farm-sales-weight) of leaf tobacco under Government loans (1,006 million pounds as of April 1, 1956). These loan stocks were divided as follows: flue-cured 671 million pounds, Burley 320 million, Maryland 6.1 million, fire-cured 60.8 million, dark air-cured 35.1 million, and cigar-leaf 22.8 million.

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis). This report is issued quarterly.

^{2/} All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Flue-cured Stocks Larger Than on Last April 1
Burley and Maryland Holdings Smaller

Flue-cured stocks totaled 2,770 million pounds as of April 1, 1957, an increase of 251 million over holdings a year earlier (2,519 million). About 2 million pounds entered stocks through sales in early January.

Inventories of <u>Burley</u> were reported at 1,559 million pounds this April 1, a decrease of 6 million from stocks of this type held a year ago (1,565 million). Sales during the quarter totaled about 90 million pounds, the amount remaining to be sold from the 1956 crop after the Christmas holidays.

Maryland holdings -- reported at 60.7 million pounds on April 1, 1957 -- were nearly 8 million less than stocks held on last April 1 (68.6 million). The 1956 crop, estimated at 38.5 million pounds, will be marketed during the period May-July, 1957.

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) of 174.7 million pounds on April 1, 1957, were 38 million pounds under the record-high holdings of a year ago (212.7 million).

DARK TOBACCO STOCKS

Fire-cured and Dark Air-cured Inventories
Show Increases Over Stocks Reported April 1, 1956

Fire-cured stocks, reported at 171.8 million pounds on April 1, 1957, were 6.5 million pounds more than holdings on the same date last year (165.3 million). An increase reported in Type 22 more than compensated for a decrease in Type 21. Stocks of Type 23 were about the same as on the previous April 1. Marketings of the 1956 crop, completed during the first quarter, totaled 70.1 million pounds. Virginia fire-cured stocks on this April 1 were 27.5 million pounds, Kentucky and Tennessee Eastern District, 113.8 million, and Western District, 30.4 million.

Dark air-cured inventories totaling 99.8 million pounds on April 1, 1957, were 1.7 million larger than those reported a year ago (98.1 million). Holdings of Types 35 and 37 were larger, and those of Type 36 slightly smaller than stocks on hand a year ago. Sales of the 1956 crop of 33.5 million pounds were completed during the January-March quarter. Inventories of dark air-cured as of April 1, 1957, by types, were as follows: One Sucker 59.7 million pounds, Green River 33.3 million, and Virginia suncured 6.8 million.

CIGAR LEAF STOCKS

Holdings of Domestic Cigar-leaf Lower Than A Year Ago Foreign-grown Cigar-leaf Stocks Larger

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 347.3 million pounds (farm-sales-weight) on April 1, 1957. This is a decrease of 28.9 million pounds, or about 8 percent, compared with stocks reported a year ago (376.2 million). Except for part of the 1956-57 Puerto Rican filler crop, practically all of the 1956 cigar-leaf production was in stocks by this April 1. Holdings of foreign-grown cigar-leaf were 23.8 million pounds (unstemmed equivalent), an increase of 2.8 million pounds, or 14 percent, over stocks reported on April 1 the previous year (21.0 million).

Holdings of the cigar-filler types as of April 1, 1957, totaled 205.4 million pounds -- 13.3 million smaller than the figure reported on last April 1 (218.7 million). Stocks in all types were lower than those held a year ago, the decrease of 10 million pounds in Puerto Rican accounting for most of the difference. Cigar-filler leaf inventories by types on April 1, 1957, were as follows: Pennsylvania filler 125.0 million, Ohio filler 26.3 million, and Puerto Rican filler 54.1 million.

Cigar-binder stocks totaled 120.1 million pounds on April 1, 1957 -- a decrease of 16.3 million from stocks reported a year earlier (136.4 million). Holdings of all types were lower, the largest decreases (about 17.5 percent in each) being reported in Types 51 and 52. Connecticut Valley Broadleaf stocks this April 1 were 31.0 million pounds, Connecticut Valley Havana Seed 23.8 million, New York and Pennsylvania Havana Seed 1.2 million, Southern Wisconsin 26.7 million, and Northern Wisconsin 37.4 million.

Shade-grown cigar-wrapper stocks of 21.8 million pounds on April 1, 1957, were 0.6 million more than those on hand a year earlier (21.2 million). The increase was accounted for in Type 61 stocks, holdings of Type 62 remaining about the same as those reported on April 1, 1956. As of April 1, 1957, stocks of Connecticut Valley Shade were 13.4 million pounds, and of Georgia-Florida Shade, 8.4 million.

Stocks of <u>Cuban</u> leaf (Havana), reported at 16.1 million pounds, were down slightly as compared with the same date a year ago; holdings of <u>Sumatra and Java leaf -- 0.1 million -- were down about 45 percent from the previous April 1; and Philippine Islands (Manila) inventories totaling 7.5 million were more than twice as large as stocks on hand a year ago.</u>

TABLE 1.--Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by describe and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 1 on page 5 for conversion factors of farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.-Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, April 1, 1957, compared with other quarters 1/

^{1/} For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for April 1, 1957 are as follows: Type 41, 107; Types 42-44, 114; Type 51, 106; Type 52, 106; Type 53, 109; Type 54, 102; Type 55, 104; Type 61, 109; Type 62, 114. April 1, 1957 figures subject to revision.

^{2/} For explanation of stocks included in this classification, see footnote 4 on page y.

^{3/} Foreign-grown leaf is converted to an unstemmed equivalent basis only.

^{*} Revisions in January 1, 1957 report.

Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

Includes Puerto Rican on the Island, Type 46.

Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

Table 4.-Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers

April 1, 1957, compared with April 1, 1956 1/

^{1/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

^{2/} This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

^{3/} Includes stocks on the Island of Puerto Rico.

^{4/} For explanation of stocks included in this classification see footnote 4 on page 9.

^{5/} Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

Table 5.-Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, April 1, 1957 compared with other quarters 1/
