SHOOTING FATALITY.

Young Man Accidentally Killed By Twelve-Year-Old Boy.

(Associated Press.)
Oakville, Ont., Oct. 5.—Frank Fisher, 12 years old, was accidentally shot and instantly killed by Gilbert Hardy, 25 years old, on Thursday. Young Fisher and Hardy were engaged in pursuit of a mischievous cat which had been a nuisance to both families, and were under Hardy's hand when the accident occurred. The supposition is that Fisher was either mistaken for the cat in the semi-darkness or the revolver struck by an obstacle and suddenly discharged. Hardy's mind has become unclouded with grief over the accident.

WILL MARRY AGAIN.

Senator Chauncey M. Depew To Wed Miss May Palmer.

(Associated Press.)
New York, Oct. 5.—The Herald announces that Senator Chauncey M. Depew is to marry Miss May Palmer in the near future, and quotes the Senator, who is a guest of H. McK. Twombly at his home, Fordham park, near Morris-town, N. J., as follows: "It is true that I am to be married again. The lady who has honored me by agreeing to become my wife is Miss Palmer, whom I have known for years."

WORK AT EXTENSION RESUMES ON MONDAY

Mines Inspector Believes Fire Out—Ladysmith Miners Are to Have the Preference.

(Special to the Times.)
Nanaimo, Oct. 5.—There is great indignation among the miners of Extension over the action of the company giving preference to Ladysmith residents. A mass meeting was called this morning by the Miners' Union to discuss in earnest that the mine boss at the annual had ordered Extension men to take their tools out in order to make room for Ladysmith men.

A committee was appointed to wait upon Manager Little and report immediately. Mr. Little assured them that Mr. Dunsinuir would show preference for Ladysmith men in resuming work. He told the delegation that he had decided to build up Ladysmith. He did not think the mine boss was instructed to discharge the present workers, but in all new workings Ladysmith men would be given the preference.

The report was received by the meeting with general dissatisfaction, it being held that Mr. Dunsinuir had broken the promise of last April when he assured them they would not be interfered with because of the Ladysmith residents. Several felt it a hardship, as they owned property in Extension. Several advocated censuring the company. It was finally decided that the men take work wherever offered, and so test the truth of being displaced. Ladysmith miners generally refuse to take the places of Extension men.

Officials of the company are inspecting a site for the new slope to be sunk on Panther ridge, not far from No. 2 slope. It is expected men will be put to work on the extra shafts in the tunnel at Alexandria, so all that remain will get work in the near future. Mr. Little assures them work in from ten days to two weeks.

Inspector of Mines Morgan visited them yesterday. He found the tunnel, in his opinion, fit to work in. Work is to commence on Monday morning. The gas committee of the Miners' Union was ordered to-day to inspect also, and report at the mouth of the tunnel on Monday morning, before the men go in, to safeguard miners. Mr. Morgan found the temperature by inserting thermometers through the stoppings. As only 120 degrees were registered in 2 and 3, he feels the fire is out.

PROPOSES A DAY OF HUMILIATION

PASTORAL ISSUED BY ARCHBISHOP OF YORK

No Session of Imperial Parliament This Autumn—American Contribution to Late Queen's Memorial.

(Associated Press.)
London, Oct. 5.—The Archbishop of York's pastoral proposing a day of national humiliation because of the slow success of British arms, and of penitence for national sins, has been received with astonishment, especially as he openly suggests therein an imitation of the Boers, who proclaimed August 24th as a day of humiliation. The archbishop quotes the Boer proclamation in full for the edification of the British clergy.

"It is easy," he says, "and not uncommon to denounce these people as hypocrites, to laugh to scorn their open Bibles and meeting for prayer. If without hypocrisy we long ago had taken a similar course it might have fared better with us than it has done."

No Special Session.

Sir Michael Hicks-Beach, chancellor of the exchequer, denies that parliament will meet this autumn to provide money for the prosecution of the war in South Africa. Nevertheless, at the present rate of expenditure the deficit for the fiscal year will be £60,724,000, while the £60,000,000 of new consols which it was expected to meet the deficit, realized, at 94 1/2, £56,700,000, leaving a net deficit, which must be provided for by fresh appropriations, of £13,000,000.

Queen Victoria Memorial. The American contributions to the Queen Victoria memorial fund amount to £15,000 which, according to the King's consent to a request made by the American Society in London, will be applied to a clearly designated portion of the memorial. This will be designed and executed by an American sculptor in harmony with the memorial general artistic design. It is expected that this sculptor will be selected after some form of preliminary competition in the United States.

The American Society in London discussed at a meeting held this week the propriety of opening a subscription in London for an English memorial to President McKinley.

RUMORS OF RISING.

Carlists Are Reported to Be Active in Spain.

(Associated Press.)
Barcelona, Oct. 5.—Reports of an impending Carlist rising are confirmed. The Duke of Solferino, the Carlist leader here, has gone to the frontier. On the other hand several Carlism chiefs have received from Moore, who resides in Toulouse, instruction forbidding any insurrectionary movement except under specific orders.

Cape Corrientes says advisors received there from various points along the frontier, show that the Carlist preparations are nearly completed. They have accumulated through smugglers 20,000 rifles and uniforms. Large supplies of ammunition have been obtained from Cuba and the Philippines Islands.

The rising is expected to commence at Berge. An important meeting will be held on October 10th, when two Carlist generals are expected to attend with instructions from Don Carlos.

No Trap Licenses. (Special to the Times.)
Ottawa, Oct. 5.—Aulay Morrison, M. P., wired the fisheries department to-day that it was the intention to issue trap licenses. Deputy Minister Gourdeau replied that the department had no such intention.

JAPAN'S POLICY.

Wishes to Improve Harbors and Build Railways.

(Associated Press.)
Seattle, Oct. 5.—An effort was made here to obtain from Marquis Ito a statement regarding the announcement from London that Japan was about to procure a loan of fifty million yen, equal to \$25,000,000 in gold. Of this sum it was asserted that five million yen was to be expended in Formosa, Marquis Ito was asked point blank whether or not his visit to the United States was in connection with the proposed loan. To this Secretary Todehiki, speaking for Marquis Ito, replied:

"This is the first I have heard concerning the alleged desire of Japan to float a loan in the United States. I am hardly prepared to credit the authenticity of the rumor. Moreover I can say with almost absolute assurance that Marquis Ito is here for no purpose of this kind. Japan's necessities are merely temporary, and no trouble whatever will be encountered in securing the loan spoken of. In fact I will be surprised if it is not placed with our own people. If the loan is made it will be for the purpose of internal development. Japan is at the height of a great era of development. She wishes to improve her harbors, to foster shipping and commerce, to build railroads and other industrial enterprises. The expenditure of the sum named in the dispatch will undoubtedly be an incentive to future trade between the Pacific coast and Japan. We need American supplies of every kind, including steel and iron, coaches, locomotives, etc."

Marquis Ito leaves for the East today. He will remain several days in St. Paul. The rest of his itinerary is unsettled beyond the fact that he will pay his respects to President Roosevelt at Washington.

A banquet was tendered the Marquis at the Rainier Grand last evening. It was attended by prominent residents of the city. The local Japanese colony gave a magnificent reception to their distinguished countryman yesterday.

THE PREMIER WILL REMAIN IN OFFICE

Says He Will Meet the House at Its Regular Session With Twenty-two Supporters.

Premier James Dunsinuir has decided to remain in office. In spite of the defeat in New Westminster and the resignation of the minister more directly involved in that defeat, he has concluded that he has the support of an overwhelming section of the legislature.

His decision was communicated in an interview in which he was asked regarding his intentions.

"I will meet the House with twenty-two supporters,"

He was asked if a special session would be called, or if he would wait for the regular meeting of the legislature.

He replied that he would wait for the regular meeting of the legislature, which will probably be held early in January.

In reply to a question as to what was being done to fill the vacant portfolios or to bring on an election in the city of Victoria, he stated that no decision had as yet been arrived at in regard to either matter.

The Times is asked by Mr. McBride to state that the rumor of any understanding between Mr. McBride and Mr. Ebergs over the present political crisis is absolutely without foundation, and that the former's attitude toward the Dunsinuir government remains the same as when he left it.

EXCELLENT INVENTION.

Product of Victorian's Genius One of Features in the Main Building.

On entering the main exhibition building the eye is attracted and concentrated by an invention patented by Chas. Ebergs of this city, one the secret of which is kept so close that it is not to be known by the public. The machine will also extract larger particles of gold from earth, sand and crushed stone. The machine will be found especially desirable and valuable for use in locations where the supply of water is limited. After the water has passed through the agitator, and upon the wheel it may be directed into any suitable reservoir where its use may be repeated. The several parts may be found of any preferred material and of any desired size, which may be deemed productive of the best results, it being understood that the machine may be manually operated by attaching a suitable crank to the outer end of the shaft.

Mr. Ebergs has given a great deal of time and attention to the invention of this machine, and it is considered by the exhibition committee that have visited the exhibition building as the best machine of its kind that has ever been patented. The principal claim made is that it is an easy washing and concentrating machine, a suspended receptacle for receiving the water and ore, and provided with a strainer which extends below the bottom of the receptacle, combined with suitable eccentrics, a rod operating thereby, a ring upon the end of the rod, and which encircles the outlet extending below the bottom of the receptacle, suitable curved springs placed inside of the ring, and means for operating the eccentrics.

THE LIBERALS AND PARTY LINE QUESTION

Representative Convention Will Be Held in Vancouver Before Another Election Takes Place.

(Special to the Times.)
Vancouver, Oct. 5.—The executive of the British Columbia Liberal Association met yesterday afternoon in the Mack block to consider the question of calling a convention of the party. Senator Templeman presided. After a full discussion of the situation in provincial political affairs, the following resolution was unanimously adopted:

Moved by Dr. McKechnie, seconded by Harry Senkler. That the secretary, on the advice of the president, be authorized to call a convention of the Liberal party immediately, as it is intimated that a general election is about to be held; that the convention be held in Vancouver; that each provincial electoral district be entitled to three delegates per member elected; that all Liberal provincial and Dominion members be ex officio members of the convention; that no proxies be allowed.

The opinion was unanimous that a convention would be opportunely held just before an election, and that the question of party lines, in so far as the Liberals are concerned, could be determined then. On the other hand, it was thought that a declaration in favor of party lines by a convention, if no general election was to immediately follow, would be inopportune and would only tend to further complicate an already much complicated situation.

The Liberals of British Columbia will therefore feel assured that a representative convention will decide this proposed party line question before another appeal is taken to the country, and deal with other vital questions at the same time.

NO TRACE OF BRIGANDS.

Kidnappers of Miss Stone Have Not Been Located.

(Associated Press.)
Sofia, Bulgaria, Oct. 5.—A semi-official denial was issued to-day of the statement that the kidnapers of the American missionary, Miss Helen Stone, are in Bulgaria. "The authorities declare that troops and police who have actively searched the frontier for ten days have not found any trace of the brigands, who demand that Miss Stone's ransom shall be paid in Turkey."

DETAILS OF ATTACK. United States Troops Were Completely Surprised by Ninety-Forty-Three Killed.

Washington, Oct. 4.—The war department to-night received the following dispatch from Gen. Chaffee, dated Manila, giving further details of the disastrous attack on the 9th regiment:

"Manila, Oct. 4.—From those who escaped the following is learned: On Sept. 20th, while at breakfast at 6.45 a. m., the company was attacked at a signal of the ringing of convent bells, by about 450 bolomen, 200 from the rear of the quarters, 200 from the front and a simultaneous attack on the officers' quarters. The company was completely surprised and the force attacking in front gained possession of the arms.

"A fight ensued forthwith, in which men met death in the mess room in the rear. The enemy was beaten off temporarily by about 25 men, who gained their arms. Sergt. Betron assumed command and endeavored to collect the men to leave in boats, when they were reattacked by the enemy.

"The strength of the company was 3 officers and 72 men. The killed are: 3 officers and 40 enlisted men; missing: 6 wounded; 13 present, 13. The party attacking the officers, in the convent entered through the church, and a large number being led by the president, there were probably 100 rifles with the company, and of those 25 were saved and 15 of the lost rifles have been drawn; 25,000 rounds of ammunition were lost. Ninety-five prisoners outside Guarded joined in the attack at a signal. The host of missing men captured. Capt. Hoodmiller may have picked them up. (Signed) Lieut. James P. D. Rowland."

BRITISH CASUALTIES.

Four Officers and Fifty-One Men Killed in Fight at Modocville—The Wounded. London, Oct. 4.—The casualty list shows that the total British losses in the attack on Col. Kekewich's camp at Modocville were four officers killed and twenty-three wounded, fifty-one men killed and one hundred and fifteen wounded, numbers much greater than those hitherto reported.

For cuts, wounds, rheumatism, stiff joints, burns, scalds, bites of insects, bronchitis, coughs, colds, Hazzard's Yellow Oil will be found an excellent remedy.

To His Royal Highness George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothesay, Prince of Saxe-Coburg and Gotha, and Duke of Saxe-Meiningen, Earl of Carrick and Inverness, Baron of Renfrew and Killarney, Lord of The Isles and Great Steward of Scotland, H. B. R. L. H. C. R. G. G. E. V. O. L. L. D. D. E. I. et. et.

May it please Your Royal Highness.

I am authorized on behalf of the Municipal Council and Citizens of Victoria, British Columbia, to extend a warm welcome to Your Royal Highness and to the members of your first visit to this city, a warm and cordial welcome.

It is my hope that you on the part of the British Empire are to be a most successful one, and that the people of this Empire are to be a most successful one, and that the people of this Empire are to be a most successful one.

The Municipal Council and Citizens of Victoria, British Columbia, have united in all profound and ardent wishes for your success in all your undertakings.

The Municipal Council and Citizens of Victoria, British Columbia, have united in all profound and ardent wishes for your success in all your undertakings.

ADDRESS TO THEIR ROYAL HIGHNESSES.

FACSIMILE OF THE CIVIC WELCOME TO THE DUKE AND DUCHESS:

DUKE MAY COME HERE FOR THE SHOOTING

Charmed With Victoria and Its Surroundings—Some Incidents of the Visit to This City.

Although His Royal Highness the Duke and Cornwall and York has gone from Victoria there is a strong probability that at no distant day he will return to this place and stalk the big game of Vancouver Island. His Royal Highness was charmed with the place, and on learning of the splendid shooting and fishing which was to be enjoyed on the Island, intimated to one of his secretaries that he would return here and gratify his keen sportsman's instinct in the West. His return will of course be contingent upon his not succeeding to the throne in the meantime, and in any event he will probably return privately.

His Royal Highness saw more of Victoria than many people imagined. On Wednesday night, after the Royal party had gone on board the Empress of India and had dined, the Hereditary Prince, dressed in ordinary civilian clothes and accompanied by two of his aide-de-camps, entered a carriage and drove through the city, viewing the decorations and illuminations without the necessity of observing any formalities. It is probable that this little drive "snooze" was one of the most satisfactory of the whole tour.

One of the matters upon which their Royal Highnesses insisted while on the present tour was that all relatives of those who had been in their personal suite should be presented to them. At one of the up-country points at which the Royal train stopped an old rancher, whose brother has for years been in the Royal service, was brought in to the Duke and had a long talk with him. As he came out from the Royal presence

THE OLD MAN WAS ASKED WHAT HE THOUGHT OF THE DUKE.

"Fine fellow, capital fellow," he exclaimed. "I just felt like asking him out for a drink!"

Mrs. Thos. Brooker, of this city, was one of those who enjoyed exceptional opportunities of seeing the Royal couple through her relationship to one of the former members of the Duke's suite, Her brother, Henry Taylor, of Marlborough House, was with the Royal family for years, and went to Australia with the Duke and Clarence and York as travelling secretary and librarian to the young Prince. On the death of the Duke of Clarence, Mr. Taylor became travelling secretary to the Prince of Wales, a post he retained until a few months ago. During the Royal visit here Mrs. Brooker and a friend, Miss Becker, were permitted to wear for a moment or two the ring given to the Prince Consort by Her late Majesty Queen Victoria upon her betrothal. The ring was worn throughout his life by the Prince Consort, and after his death by Her late Majesty, the Queen's death it was given to the Duke of Cornwall and York. The circlet of gold is now worn quite this. It bears the Crown emblem in the Royal colors.

CAREER AND CHARACTER OF ABRAHAM LINCOLN.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway, and may be had by sending six cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

The influence of temper upon the tone of the voice deserves much consideration. Habits of quietness or ill-nature will communicate a cat-like quality to the singing as inflexibly as they give a quality to the speaking voice.

THOSE TRAILING SKIRTS.

We have long been staid observers of the varied and beautiful cycloidal curves into which the dust of the footsteps is arranged by the skirts of female pedestrians, and have often pondered on the course and destination of the less weighty particles, and on the consequent bacterial flora and general cleanliness of what would be called, in America, the "blower" extremities of the fair sweepers." We have even thought about the amplitude and the radii of the curves themselves; and have speculated on the extent to which these might afford indications of the stature, the character, or even the personal appearance, of the producer. We lately watched the gradual convergence, from the neighborhood of Regent Circus, Oxford street, to the door of the Langham hotel, of an inexpressibly filthy piece of newspaper, covered with grime and saturated with grease, which had probably been used to wrap up the broken victuals of some tramp, and had been discarded by him when that office had been fulfilled. No less than five skirts were required for the indicated journey, and we much regretted that a more important engagement prevented us from devoting an hour or so to the further travels of the delectable. It would be interesting to know whether it is still a wanderer, or whether it found a final refuge in the wardrobe of the last lady to whom it clung.

HIS CAREER.

"That boy," said Mr. Tuppan, gloomily, as he sat at the foot of the room, "is going to be a railway porter when he grows up."

"How can you tell?" his wife wondered.

"By the way he bangs the doors," Mr. Tuppan explained.

LARGE CROWD AT FAIR YESTERDAY

FIRST DAY'S HORSE RACING TOOK PLACE

Annual General Meeting Was Held Last Evening—Fire in Exhibition Building—To-Day at Show.

Yesterday rivalled if not eclipsed the opening day of the exhibition in point of attendance. The great attraction, the horse races, drew crowds to the track, and filled the grand stand.

on behalf of the farmers of the poor accommodation afforded the district displays at the present show. He said that there was considerable feeling among the farmers at having their exhibits displayed in what might be termed a cow shed.

A FINANCIAL SUCCESS.

The Secretary Made a Very Favorable Report at Meeting Last Night. Last evening in a tent loaned for the purpose by Wm. Bullock, of Salt Spring Island, the annual meeting of the British Columbia Agricultural Association was held on the exhibition grounds.

YESTERDAY'S RACES.

A Number of Interesting Events Run Off—A Large Attendance. Never, perhaps, in the history of the turf in this city was a larger crowd seen than was in attendance at the exhibition held yesterday afternoon at the exhibition grounds.

The third race was first called, the starting event on the programme having been temporarily called off because there were only two contestants. The third event was for a mile dash; King's Flute, open to all British bred horses, for a purse of \$250.

The sale of the live stock imported by the Dairyman's Association of the province was concluded yesterday, occupying two days. As auctioneer, Mr. Paisley, of Chilliwack, was a great success and showed that he was well up to the mark.

owner up, and Woody's Bessie. The horses were all fine looking animals, but Karabel seemed the swiftest. She was certainly well ridden, and was in good trim. Pedro was held some in the commencement and made a strong bid for first place on the home stretch.

ADDRESS ON DAIRY STOCK.

On Thursday after the parade of live stock D. C. Anderson gave another interesting lecture on dairy stock, which was listened to most attentively by a large number. He used as illustrations two splendid animals, a sweepstake dairy bull belonging to A. C. Wells, of Chilliwack, and the 1st and 2nd prize Holstein cow owned by G. T. Corfield, of Colfield, B. C.

TARIFF MODIFICATION.

The Montreal Gazette has joined the Toronto World in advocating the repeal of the British preference. These are two of the leading Conservative papers in Canada, and it would not be surprising to hear any day of the leaders of the party attempting to travel along the path these able journals have pointed out.

the current of trade. Then, when tariffs are once built up it is a difficult matter to get them down again. The American tariff was originally a revenue-producing concern. Now it devotes all its energies to turning out millionaires.

The favorite route from this city to Nanaimo is now by the Victoria & Sidney railway and steamer Queenoos. Train leaves every Monday and Thursday at 7 a.m. Single fare \$1.50. Return, good for ten days, \$2.50.
This afternoon at the A. O. U. W. hall an entertainment is being given by the Savoy theatre in aid of the families of those who lost their lives at Extension. Many novel and interesting features are included in the programme.
Continuing to-morrow morning and continuing while the hunting season lasts, the Victoria & Sidney railway will provide an early Sunday morning service. The regular train will leave the depot on Hillside avenue at 7, instead of 9 o'clock.
The fund for the relief of the sufferers from the loss of the steamer Islander received a very substantial contribution this morning in the sum of \$500 presented by George McL. Brown, executive officer of the C. P. R. Company, on behalf of that corporation.
**Owing to the chief justice being confined to the room by illness, the civil sittings appointed for Victoria for the 8th inst. are adjourned until the 16th, as Mr. Justice Drake, who was assigned to take the Victoria sittings, will have to go to Vancouver for the purpose of holding the criminal assizes on that day.
The gowns worn by the young women in the Hosiery show last night, some of the most beautiful ever designed for stage use. Worth personally designed and fitted them in Paris last July. One costume worn by Miss Rossmore cost ten thousand francs. Mr. Robson will appear at the Victoria theatre Tuesday, October 15th.**

STEAMERS ARRIVING FROM SKAGWAY NEXT WEEK will carry probably the last passengers from Dawson to come south until the snow flies. Navigation on the northern rivers will, it is expected, be closed by the 10th, and from then on until the trails get in such a condition as to allow of the stages there will be no little traffic to and fro. Capt. Thomas Brown, of the steamer Orca, who has just returned from the north, states that the water in the rivers is falling rapidly, and he is of opinion that the navigation will not last beyond the 10th. The last few steamers arriving at Skagway, he states, landed sufficient freight to keep the river craft busy for the remainder of the season. These latter are going down to Dawson very lightly loaded. The Mary E. Graft, one of the biggest vessels running, which is capable of carrying from 300 to 400 tons, had only 150 tons on her last trip. She could have filled up with cargo, but with a deeper draught could possibly not have got down stream. So far as local shipments are concerned, there is little moving north, although considerable quantities of late been forwarded from Vancouver. The Cottage City, sailing from the outer wharf at 6 o'clock to-morrow morning, will carry a couple of small shipments of liquor from Victoria, but this will be the only freight sent from here in over a week.

THE SALMON FLEET.
Probably on Monday next the first of the fleet of ten vessels chartered to carry salmon from British Columbia to the European market will sail. The *Large* is about ready and is expected to sail in a few days, followed closely by the *Hyndwood*. Both ships are receiving their cargoes on the Fraser, the former is being loaded by W. Ward, of this city, and the latter by R. Ward & Co. Four ships of the fleet have yet to arrive, while the remaining six are now loading, five being on the Fraser, and one, the *Chas. Cotworth*, being at the outer wharf. Those to arrive are the *Ballauchulish*, which left Santa Rosa Island on the 25th, and is now about due; the *Reindeer*, en route from Callao; the *Santa*, which is coming from the Hawaiian Islands; and the *Gretna*, which started from Cardiff with coal for the navy in Esquimaux, on August 25th. All the fleet will receive quick dispatch this year.

RETURNED TO THE BLACK.
"Constable Hoskins, of the provincial police, Victoria, came over this morning with the remaining six crew members of the ship *Alexander Black*, who was ill-treated on the voyage from Liverpool," says the *Vancouver World*. "The ship is now lying in port here, and the boy, who is afflicted, was put on board this morning, and the captain will be held responsible for his safe keeping and proper treatment. When the case came up in Victoria, charges were laid against the first officer and the third mate, the latter pleading guilty. As the ship sailed and the witnesses were not obtainable, the case against the first officer was withdrawn. The matter will be reported to the Board of Trade at Liverpool, which will enquire into the matter when the *Black* reaches home, and if the boy has any complaints to make the captain and officers will be brought to account."

MISSIONARIES FOR CHINA.
Since the situation in China is again assuming a peaceful character and the lives of foreigners in certain parts are no longer menaced, the indefatigable American missionaries have commenced to think once more of the unconverted millions in the Flowery Kingdom, and are going forth in strong number. The *Kanakura Maru* on her last trip took perhaps the vanguard of the big army that will during the next few months find its way to the Orient. Another large contingent will be leaving on the *Kaga Maru* sailing on the 15th, and it is expected that the passenger list of the R. M. S. *Empress of India*, taking her departure on Monday, will include the names of a considerable number.

MARINE NOTES.
On her outward trip last night the steamer *Yosemite* carried the officers and men of the Northwest Mounted Police, together with their mounts. After returning to headquarters in the Northwest the detachment will disband. Steamer *City of Puebla* will sail for the Golden Gate to-morrow evening. She will have six passengers from this city.

Provincial News

GRAND FORKS.

The death occurred on Sept. 28th of Mrs. Emma Schaeffer wife of Theobald Schaeffer, an employee at the smelter. Deceased was aged about 23 years, and had been out here since June last only. The remains were sent to Winnipeg for burial, accompanied by the bereaved husband. Deceased leaves no children.

KALOOKS.

A very sad case was brought to the hospital last Saturday by Mrs. Robertson, of Cumberland, B. C., who was accompanying her only child, a boy of 12 years, to this city for the benefit of his health. He was taken ill on the train and carried to the hospital, where it was found that he was suffering from heart disease. He only lived a few hours after his arrival. The body was sent back to Cumberland on Sunday evening.

ROSSLAND.

Thos. M. Beamish was yesterday sent to the provincial jail to serve two months at hard labor. The charge was infatuation arising out of the incident of August 10th, when Joseph Horn, a non-union employee of the Northport smelter, was followed through the streets by a number of strikers. The case was originally tried in the police court, and the verdict of the police magistrate was yesterday affirmed by Judge Leamy, of the County court, who expressed his disapproval of the incident in strong terms. On being taken from the court room, the prisoner became abusive and was handcuffed. He will serve his sentence at Nelson.

FERMIE.

Rev. Father Milneux, who has been pastor of the Roman Catholic church here for the past two or three years, coming down from St. Eugene Mission every other week, has taken up his residence in Fergie, and service will henceforth be held every Sunday, commencing with the first Sunday in October. On Tuesday, Sept. 28th, W. E. Wilson, the retiring manager of the Crown's Nest Pass Coal Company, was made the recipient of two very beautiful presents as tokens of the respect in which he is held by the citizens of Fergie. The first was a magnificent silver set, composed of several pieces, and the other was a handsome piece of furniture. The presentation took place at the company's office in the presence of about fifty men. T. C. Thompson made the presentation and also read an address.

CHILLIWACK.

For some time past farmers in the vicinity of Chilliwack have frequently lost a cow or two from a herd. Where the animals disappeared to has been a mystery, but it is now learned that thieves have been operating. On Saturday evening, shortly before dusk, two men were seen on the Burns prairie rounding up a herd of 60 cattle, owned by Reese, Evans & Zing, of Chilliwack. Out of the herd the men selected 20 head, and drove them off. Young Reese returned home late at night, and found the cattle and two men. He spoke to the strangers, but the men, pretending that their horses were afraid of the head light on Reese's bicycle, rode into the ditch and made no reply to his salutation. The next evening the cattle were missed, and a gang of men commenced scouring the country on bicycles and horses.

VANCOUVER.

An attempted suicide on Tuesday afternoon, about 5 o'clock, was happily frustrated by the prompt arrival on the scene of Dr. T. H. Wilson, who was hastily summoned. Mrs. Crompton, of 225 Pines street, while in a fit of melancholia, to which she is subject, drank the contents of an ounce bottle of laudanum. She was removed to St. Paul's hospital, where she is slowly recovering. There was reported in all 46 deaths during the past month, of which 8 were Japanese, 5 Chinese and 14 persons dying outside of Vancouver and brought here for interment. A pretty wedding took place at the residence of Mr. Thos. Tidy, Ninth avenue, Monday last, Saturday evening, when Miss Mabel Tidy was united in the holy bonds of matrimony to Mr. John Martin. The ceremony was performed by Rev. G. A. Wilson. The happy young couple were the recipients of many beautiful and

costly presents, which testified the esteem in which they were held by their numerous friends.

On Thursday night, at the residence of Mr. William Cline, 532 Duncey avenue, the wedding took place of Mr. A. E. Cline, the well known building contractor, of this city, to Christiana, daughter of Mr. Thomas Galloway, the Hastings street stationer. The ceremony was performed by the Rev. H. G. Mayhew, in the presence of a large number of invited guests.

BICAMOUS.

Some evenings ago two young ladies were almost asphyxiated at the hotel at [Bicamus Junction. Miss Edith Mail and Miss Gertrude Buden, of Tacoma, who have been staying for some time at Kelowna on the Okanagan lake, were journeying with friends to the New Westminster exhibition. It was necessary to stop over at Bicamus, where connection was made with the Imperial for Vancouver, and it was then that the accident happened. When the ladies attempted to turn out the gas light, the tap would not work. The gas was left partly burning, and shortly afterward was accidentally blown out by the breeze. The manager of the hotel detected the odor of the poisonous vapor, and eventually discovered whence it proceeded. The door was broken in, and none too soon, for both ladies were well under the influence of the gas. One was quite insensible, and it was only after some time and vigorous resuscitation measures that she was restored to consciousness.

NEW WESTMINSTER.

There was again a very large attendance at the exhibition yesterday. It was Children's Day, and the fairground was given up to them. Twelve hundred scholars of the public schools marched from the Central school to the exhibition grounds, headed by the City band, and escorted a float on which were a score of girls from the kindergarten. The parade circled the athletic grounds, after which all formed up in company order, making a pretty sight with flags, ribbons and bright happy faces set off with neat costumes. The kindergarten detachment performed a musical drill, this taking the place of the usual singing. Afterwards fruit was distributed freely, and the little ones were dismissed to patronize the merry-go-round and amuse themselves as they liked. At 2 o'clock a baby show attracted a large number of spectators. The judges, composed of press correspondents, passed upon 14 babies born this year. The best looking one was Viola Richardson, the eight-month-old daughter of the lighthouse-keeper of Provost Island. She won the Province prize of \$25. Another prize was given to a baby girl, a local baby boy won \$5 for being the heaviest. As soon as this was over, the parade of live stock took place. There came another balloon ascension and parachute drop. This time the aeronaut and parachute dropped in the penitentiary grounds, and the balloon in the asylum grounds. A baseball match between Vancouver and Everett followed. It proved an easy win for the Everetts, who won by 13 runs to 2. Vancouver not scoring till near the end. In the sixth innings Dobbney was hit six runs, though Mackie gave good support. Sebeck's pitching was good. The exhibition practically closed last night with a band concert, a ball, and the annual meeting of the society. Today the celebration will wind up with horse races and sailors' sports.

NELSON.

Harry Wright, registrar of births, deaths and marriages, has completed his report for the quarter ending September 30th. The figures show 27 births, 25 deaths and 23 marriages, and it is safe to say that not more than one-half of the births are registered.—Tribune. The returns for the port of Nelson for the month of September show that during the month the collections amounted to \$18,670.68. The total value of the imports for the same period was \$72,590, and which \$65,729 were dutiable and \$7,229 free.

Rev. D. H. Reid, missionary superintendent of the London and Canadian Congregational church, is in Nelson on a visit. He is now establishing a Congregational church at Phoenix, where a new building is to be erected immediately. Two lots have been donated as a church site by the Granby Mining Co., the president, Mr. Miner, having given the liberal sum of \$1,000, and the assistant managers \$100 each toward the building fund. Architect Ewart, of this city, is engaged in getting out the plans and specifications for the church edifice, which will be a handsome structure, capable of accommodating over 300 persons. It will cost something over \$2,000 when completed.—Work on the building will be commenced at once, and it is anticipated that it will be dedicated about the end of November. Mr. Reid expects to return to Phoenix in a few days, where he will remain until the church is well established, when a new minister will be sent out from Montreal to take charge. Then Mr. Reid will proceed to a new field to organize another church.

YACHTING.

YESTERDAY'S RACE.

New York, Oct. 4.—With flags floating from her towering mast head, and the ends of her spreaders in honor of her concluding triumph in the cup races of 1901, the gallant sloop Columbia returned to her anchorage to-night under the escort of the entire excursion fleet. She to-day completed her defence of the honored trophy in another stirring race with Shamrock II, over a kewart and windward course of 30 miles crossing the finish line two seconds behind her antagonist, but winning on the time allowance conceded by Lipton's boat by 41 seconds.

Sir Thomas Lipton, on the bridge of the Erin, led his guests in three hearty cheers for the successful defender. "She is the better boat," he said, "and she deserves to be cheered." The series of races just closed will always be memorable as the closest ever sailed for the cup, and Sir Thomas, although defeated, will go home with the satisfaction of knowing that his golden yacht is the ablest boat that ever crossed the western ocean.

Today's race on paper was the closest of the series, but because of the kindness of the wind on the way home, as a contest of the relative merits of the yachts, it is not to be compared with the magnificent, truly run and royally fought battle of Saturday and yesterday.

The racers were sent away before the wind, each carrying a penalty for crossing the line after the handicap gun. No official record is kept of the time after that gun is fired, but the expert with stop watches estimated Columbia's handicap at 15 seconds and Shamrock's at 20 seconds. Notwithstanding the fact that Columbia beat Shamrock before the wind last Saturday the challenger to-day gained slowly, but steadily, all the way out, and rounded 40 seconds before the defender, having actually gained one minute and four seconds.

Immediately after the yachts turned noses for the best home, the breeze moderated and turned fully. The skippers split tacks, each searching for wind, with the result that first one would get a lift and then the other. One time Columbia sought a mile ahead, when a sudden slark of wind allowed Shamrock to hold some 300 yards. Then the breeze freshened and the challenge appeared to be leading by fully half a mile. The talent began to feel nervous, but as the yacht approached the finish the Yankee skipper by some miraculous legwork showed his boat into the light, air like a phantom ship, and 100 yards from home the two racers were almost on even terms. They crossed the line, the white yacht's bowsprit just lapping the golden boat's mast. Pandemonium followed; whistles, bells, horns, and drums united in a grand chorus of jubilation, and J. P. Morgan's steam yacht Corsair added to the din by firing an additional salute of 21 guns.

After the Columbia had hauled down her sails and set her victory flag, the excursion boats crowded alongside to cheer the Yankee sailors and the winning skipper. Nor did they forget either Lipton or his gallant craft. In turn the crowd of steamer crews ran alongside Shamrock and Erin, and the yamphobs received almost as much as the victors. While taking his defeat gamely, Sir Thomas Lipton made no attempt to conceal his honest disappointment when he talked about the race to-night on the Erin.

"I am very much disappointed," he said, "I cannot bide that. I thought within 15 minutes of the first half we had won. I was sure as my life that we had won. When I looked around the situation had changed, and we had lost. It was a hard blow to be so near winning and then to lose. I should liked to have got one race, just by way of consolation. It is a very hard thing to be beaten by a breadth, by a few feet of the pulse. I have been so severe strain on me. I have worked so hard for many months now, and I am glad it is over. To have won would have been a joy greater than today's disappointment. Columbia's win to-day was fair and square and honorable. There is nothing to protest, if I wanted to protest. In fact I have a feeling in my heart that if there had been any error in judgment at all, it would have been in my favor. If there had been any possibility of choice in the matter, I believe the New York Yacht Club would have given me the race. Sometimes a man may have the better boat, but even having it must have a wit bit of luck to win. I am very grieved, indeed, very grieved," and he added, "I should like to have the Erin's anchors touched. Hardly had the Erin's anchors touched bottom when a launch from the Corsair came alongside bearing the regatta committee of the New York Yacht Club. Sir

Thomas met them at the head of the gang-way, and as he shook hands with them individually, he said: "Gentlemen, it was a fair beat. I want to say again that you have treated me with the utmost fairness and courtesy. You have met every wish of mine, and from my heart I thank you." Commodore Lewis Cass Ledyard, chairman of the New York Yacht Club regatta committee, replied: "Sir Thomas, we have never had a truer sportsman to deal with." E. D. Morgan, manager of the Columbia, said: "I am very happy that we won, and glad the strain is over. We certainly had to make a splendid fight for it. We had a splendid captain and a splendid crew."

DISAPPOINTMENT IN LONDON. London, Oct. 4.—There is a feeling of supreme disappointment in London over the failure of the Shamrock to win even a single race. Those who denominated Sir Thomas Lipton's ambition, asserting that he was using his yacht to advance his business interests, now realize that his sportsmanlike efforts deserved a better result.

The question is much debated as to whether the defeat of Shamrock was due to the superiority of American seamanship, or to the better constructive ability of the Americans. With a view of settling the question, the Daily Express has called Commodore Morgan and Sir Thomas Lipton, suggesting they should arrange a race with Columbia's crew on board Shamrock II, and the crew of the challenger on board the defender.

UNCONFIRMED RUMOR. Glasgow, Oct. 4.—The secretaries of the Clyde Yacht Club disclaim any knowledge regarding the report that the Scotch syndicate will challenge for the America cup.

CANADA SHOULD TRY. Chatham, Ont., Oct. 4.—Ex-Mayor Smith, who has just returned from England, is convinced that in the event of Sir Thomas Lipton failing to lift the America cup, that if Canadians are given the opportunity they will lift it. He suggests that one of Canada's millionaires take up the matter.

ASSOCIATION FOOTBALL.

SCHEDULE OF GAMES.

At the annual meeting of the British Columbia Football Association, held a few days ago in Nanaimo, delegates were present from Victoria, the Columbia (Victoria), Garrison (Esquimalt), Vancouver, and the Thistles (Nanaimo). Routine business was transacted, and the election of officers was proceeded with, resulting as follows: President, James Crockett (Victoria); secretary, A. Thompson (Nanaimo); vice-president, Mr. Campbell (Garrison); treasurer, W. Payne (Vancouver).

The following are the entries for the cup competition: Nanaimo Thistles, colors, blue and white; Columbia, red; Vancouver, red; Victoria, red and blue; Garrison, dark blue with red collar. The association decided that home and home matches be played with each team, and the following schedule was drawn up: Garrison v. Nanaimo at Nanaimo, Oct. 10; Columbia v. Vancouver, at Vancouver, Oct. 10; Nanaimo v. Victoria, at Victoria, Oct. 26; Vancouver v. Garrison, at Esquimalt, Nov. 2; Victoria v. Vancouver, at Vancouver, Nov. 9; Garrison v. Columbia, at Victoria, Nov. 9; Columbia v. Nanaimo, at Nanaimo, Nov. 10; Victoria v. Garrison, at Esquimalt, Nov. 10; Nanaimo v. Vancouver, at Vancouver, Nov. 23; Victoria v. Columbia, at Victoria, Nov. 23; Victoria v. Nanaimo, at Nanaimo, Nov. 23; Garrison v. Vancouver, at Vancouver, Nov. 29; Nanaimo v. Garrison, at Esquimalt, Dec. 14; Vancouver v. Nanaimo, at Nanaimo, Dec. 14; Garrison v. Victoria, at Victoria, Dec. 14; Columbia v. Garrison, at Esquimalt, Dec. 21; Nanaimo v. Columbia, at Victoria, Dec. 28; Vancouver v. Victoria, at Victoria, Jan. 11; Columbia v. Victoria, at Victoria, Jan. 11; Vancouver v. Columbia, at Victoria, Jan. 18.

It was then also decided that the referees of the various matches be left with the home team for selection, and if not satisfactory to the opposing team that notice be given to the secretary of the association four days previous to the match so that the president of the association may name such referee.

A resolution was passed authorizing the purchase of a medal for the president and secretary of the association, in recognition of the services they have rendered since 1883. The meeting adjourned to the call of the secretary.

LACROSSE.

DEPARTURE OF Y. M. C. A. TEAM. Vancouver, Oct. 4.—The Y. M. C. A. lacrosse team, 288 an enthusiastic send-off at the C. P. R. station this morning. There was round upon round of cheering as the train moved out. The "Y's" did not get the \$1,000 promised them by the Westminster Agricultural Society, as they did not play a third game according to agreement. They, however, received \$750, and Mr. Macintosh very generously contributed the additional \$250 to enable the boys to get away to-day. Referee C. L. Callin gave simple satisfaction to Vancouver, and there has been no adverse criticism from Westminster.

CRICKET.

YESTERDAY'S SCORE. Philadelphia, Oct. 4.—The second match between the Bosquet cricket team, of England, and the eleven of all-Philadelphia, opened here to-day. The Quakers won the toss and decided to bat first, and when stumps were drawn for the day had scored 292 runs.

WEAK MEN, LISTEN

Is it any argument against my Electric Belt that medicine, which contains no vital tonic properties, has not cured you? How can it give you something that it has not? Is it any argument against my Belt that a battery which tears and strains at your delicate nerves, or some crude, blistering, out-of-date electric belt, applied without sense or consideration of your trouble, has not cured you? Certainly not. My

DR. McLAUGHLIN'S ELECTRIC BELT

has been invented and perfected for the cure of weakness in men caused by overwork, excesses and dissipation in earlier years, such as Nervous and Vital Weakness, Pains in Back and Limbs, Rheumatism, Kidney, Liver and Stomach Troubles, Varicocele and Drains of Vital Strength and all the effects of a wasted vital force. It is made with one special object in view, to renew the vital power in weak parts, and it does this as nothing else can do it. I have spent twenty years in learning to adapt it to these weaknesses in men, and I say honestly that it will cure you when my advice is followed; I care not what has failed to cure you. I am curing supposedly incurable cases daily.

I guarantee a cure if I say I can cure. I don't ask any one to take chances on my invention, it doesn't cost you anything if I fail.

If you are tired of treatments that fail, I want you to study my plan, and when you see how sensible it is, come and try it.
SPECIAL NOTICE. If you have an old belt of any other make which has burning it in and I will allow you one-half the price of mine for it. I give a free test to all who call. If you can't call I will send you my beautifully illustrated book with full information free. Call or write now. Don't delay.

LARGE CROWD AT FAIR YESTERDAY

(Continued from page 2.)

LAST DAY AT FAIR.

By the time this paper reaches the streets the last day of the exhibition will be more than half over. Even now there are indications of approaching dissolution. Some of the exhibitors have moved their stock, and there is not so much activity on the grounds as on the previous days, barring of course the race track, where races are being resumed this afternoon.

NOTES.

With reference to the imported live stock which has been sold at the exhibition, Mr. Anderson, one of the stock judges, said that nearly all the short-horn cattle were of the right stamp, while there were several sweet young Jersey cows sold, which were of the right line of breeding. There were some very nice yearling Shropshire rams sold, and the pigs were splendid. The Live Stock Association of the province, he said, was doing a grand work for the farmer, and for the province generally, in introducing first class stock.

Possibly one of the most interesting exhibits in the exhibition is situated in the northwest corner of the first gallery in the main building. This is the display of Mrs. D. Freeman, of Vancouver, who, with all the zeal of a relic collector, has gathered together a sufficient quantity of curios to stock a large museum reliquary. They consist of Indian relics, most of which were held in great veneration by the untutored people from whom they were obtained, and consequently some of them are of great value. Included in the collection are bear claws, necklaces, regalia, the medicine man's fetishes, mats, war head dresses, whips, saddles, braves' and squaws' wearing apparel and innumerable other articles. There are also the rods, but in the hands of the Indians, implements of various descriptions, even the scalp lock, may be seen, all of it black, having probably been "lifted" from some warrior of a warring tribe. With some of the sacred relics are the legends which Mrs. Freeman has had typewritten. Her collection was secured in a sixteen years' residence among the Blood, Piegan and Blackfoot Indians of the Northwest.

In the horticultural prize list J. T. Higgins was credited with getting prizes for ferns and button hole bouquets, instead of in the floral design, for which he got first prize. He did not exhibit in the other two classes.

According to J. A. Fullerton, one of the judges of the races at the agricultural grounds, yesterday afternoon, the primary cause of the delay in starting the races was the programme, which did not reach the judges until 3 o'clock. A copy of the programme Mr. Fullerton is keeping, as he regards it the most unique collection that extends over many years. Much information was omitted which should have appeared. The horses, Mr. Fullerton says, should have had saddle cloths on them with numbers corresponding with those on the programme. Another mistake was made in not having the track in good condition. It was too hard and should have been plowed to a depth of six inches before the races. What ought to have been done preparatory to the meet was to select a committee of management which would have looked after these details. It was too much, he thought, to expect one man to look after this and other features of the show at the same time.

The following are the results of the judging of the educational exhibits: Map drawing 1st, Grant Eleanor Cross, South Park school; 2nd, Cavilla, Jane Casselton, South Park school; Penmanship, division I, 1st, Wilhelmina Baxter, South Park school; 2nd, Jean Goodman Roberts, South Park school; Penmanship, division II, 1st, Gladys Elsie Cruickshank, South Park school; 2nd, Conchita Abeltide Schuster, South Park school; Penmanship, division III, 1st, Maude McBeath Smith, South Park school; 2nd, Dorcas Lillian Pearson, South Park school. The box manufacturing department of T. N. Hibben & Co. is well represented. This display is situated in the south wing of the main building on the ground floor, and is very representative of the excellent output of this well known establishment. Displayed conspicuously in show stands in a neatly enclosed apartment are boxes of all descriptions, from the large shirt box, for the northern trade, to the delicate lined and embossed tin confectionary box. Large quantities of these are being manufactured for Vancouver houses, Okell & Morris, and others. There are shoe and flower boxes, and in fact a display which for efficacy and taste reflects great credit on home industry.

Dr. Milne this morning took home his magnificent pigeons, which distinguished themselves in their department by capturing seven first and three second prizes. They were greatly admired, consisting of stately dragon beauties, carriers, and splendid owl pigeons, barbs, Jacobins, Acrobats, and rollers. Those were imported from the Old Country, and are unexcelled, ranking foremost among pigeon aristocracy. Master Bertie Foot, son of the late

Capt. Foot, distinguished himself by carrying off a special prize for a beautifully executed model of Shalimar II. The delicate lines and graceful appearance of the miniature craft indicate that the lad possesses not only the instincts of a mariner, but artistic and designing talent which may one day make him a Herreshoff or a Watson. The first prize in the natural history department was won by Fred Foster, with a Lindley second.

THERE IS ONLY ONE Permanent Cure for Catarrh-That is What a Well Known Toronto Gentleman Says About Japanese Catarrh Cure.

Mr. John Sloan, 178 McGill street, Toronto, writes: "I have had catarrh in the nose disagreeable form for years; have at times got remedies which would relieve me, but nothing to cure me completely, until I tried the Japanese Catarrh Cure. From the very first it gave me much relief, and every day's use showed a marked improvement. I used it in all six boxes, and it has completely cured me. I cannot say of scores of other remedies tried, and I feel it my duty to attest my appreciation of anything so worthy." The Language of the Hand. The study of character reading dates from the beginning of human existence. Down through all the ages men have been cognizant of the fact that the shape of the hand and the formation of the lines indicate unfailingly the character and talents of the individual. It is the crowning glory of the present century to have reduced this study to an exact science; to have gathered the data and formulated the laws and principles which now enable one to become proficient in the reading of the hand. The rich man is rich because he utilizes his best abilities-the poor man is poor because he lacks a true knowledge of himself. The moral is evident.

PRIZE WINNERS AT THE COMOX SHOW

NUMBER OF PEDIGREE ANIMALS EXHIBITED

Fine Weather Favored the Annual Fair - There Was a Large Attendance - Some of the Features.

Comox looked its best on the 26th, but the heavy rain on the previous day hindered many from collecting the products of the field, and discouraged others in getting their stock ready. But a finer day than Thursday could not have been desired. The crowd was immense. Union was well represented as usual. The flag, a present from Hon. J. H. Turner, decorated the flagstaff for the first time on show day. Sports were going on outside, while the judges were at work in the hall. These included horse racing, foot racing, tug-of-war, bicycle races and football. Then the Riverside had a pigeon shoot.

A walk round the stock showed amongst the usual exhibits a number of pedigreed stock. Percy & Ledingham had a Durham bull imported from Hon. John Dryden's stock, a fine animal; when bought from Mr. Dryden he weighed at 14 months 1,000 pounds. He has the historic name, Duke of Buckingham (34,000). Another Durham, 16 months, owned by S. F. Yeatman, of Valdez island, had a great number of admirers. The owner has called him the "Duke of York" (No. 39,282).

A span of imported Clydesdales owned by Mr. A. Urquhart, took the first prize in their class, and one of them the first prize as the best horse on the ground. These animals are registered in the Stud Book as Wanda (2,459) and Oneta (2,180).

The Berkshire sow taking first prize, owned by A. Urquhart, was also imported, is a fine animal, and lifted first prize as the best pig at the show. Geo. Broadwell had a Shropshire ram on exhibition which he sold to Geo. Gano.

The poultry display was limited, owing to the few wet days before the show. The prize list is as follows:

THE CANADIAN CENSUS AND SOME QUESTIONS

The Hon. David Mills recently addressed a successful meeting at Highgate, Ont. Nothing could exceed the cordiality and respect with which Mr. Mills was received, and it must have inspired the distinguished speaker, who delivered a splendid and important speech.

Territorially, he said, Canada is one of the most extensive countries in Christendom, and it is our business to make it, so far as we can, in wealth and in population commensurate with its territorial dimensions.

There is no denying the fact that the census returns for the past decade have proved disappointing to our people, but this disappointment is in a large measure due to expectations that were founded upon mere conjecture.

Quality, Not Quantity. I am disappointed that our increase of population was not greater. I am sure that we possess those elements of growth which are necessary to political greatness and strength.

I have no doubt that those who have predicted the disintegration of our Empire will depend to some extent on what we may do here, and a good deal on what may be done in the United Kingdom.

It is not too much to say that the emigration reduces the increase of the population in each country by at least 1 per cent. It may be even more.
