PRICE FIVE CENTS

IRISH FACTIONS EXCHANGED SHOTS

Free Staters Arrested Six "Republican" Insurgents

Men Left Dublin Four Courts Building

Belfast, April 25.—Insurgent "Irish Republican Army" troops to-day attacked a lorry carrying "Irish Republican Army" regulars at Mullingar. Several shots were exchanged, marking the first fighting between the two factions. The regular troops were reinforced and made six arrests.

Did Not Return

London, April 25.—A dispatch to The London Times from Dublin says forty-two men who had been garrisoned in the Four Courts Building, which was seized some time ago by members of the irregular army, left the building yesterday and did not return. The significance of this, the dispatch adds, is not known.

Killed. Former Sergeant Gunn of the Royal Irish Constabulary was shot and killed at Ennis yesterday, according to The Times.

LEADER OF TROOPS KILLED IN ATHLONE

Adamson, of Regular "Republican Army," Shot

Deed Done by a Group of Armed Men

Dublin, April 25.—Brigadier-General Adamson, commanding the Athlone Brigade of the regular "Irish Republican Army," was shot and killed to-day near the headquarters of the Independent "Republican" forces in Athlone.

An official communique issued from the headquarters of the regular army in Beggar's Bush Barracks, this city, says:

"Brigadier-General Adamson, of the Athlone brigade, was shot dead in a street of Athlone. The general was returning to the barracks, near the hotel where the mutineer troops have their headquarters. He was suddenly confronted by a group of armed men, who ordered him to throw up his hands.

"The general, being alone, complied, and while his arms were raised, the assailants deliberately fired into him. Several of the mutineers' officers were arrested."

RETURNS WITH ASHES OF WIFE

W. J. Snyder Lost Wife by Assassination

Holiday Tour Which Ended in Tragedy

Grief-stricken over the violent death of his wife, the unfortunate victim of an assassin's bullet at Shanghai, William J. Snyder, of Brazil, Ind., was a passenger arriving here to-day on board the Admiral Liver Wengleche.

Mrs. Snyder was shot down by a bullet intended for General Tanaka former Japanese Minister of War, a passenger by the same ship, and whose life was attempted at Shanghai. Mr. and Mrs. Snyder, who were on a holiday tour of the Orient and who left here by the liner Pine Trees, happened to be within range of the bullets fired by the Korean assassins on the morning of April 24, and Mrs. Snyder fell mortally wounded. The remains of Mrs. Snyder were cremated and the ashes brought home by the husband, whose tour was cut short with such tragic suddenness.

"The death of his wife under such awful circumstances proved a terrible shock to Mr. Snyder. A successful business man of Indiana, Mr. Snyder and his wife happily set out on a holiday tour which had been long contemplated to the Orient.

It was only by the merest chance the couple became involved in the Shanghai incident. The holiday, so happily started, was brought to a tragic termination. To-day the husband is returning home a broken man.

STEAM HAMMER CAUSED DEATH

E. J. Gorman Died in Vancouver; Another Man Killed

Vancouver, April 25.—Edward J. Gorman, who sustained terrible injuries through the fall of a steam hammer at the Ballantyne Pier here on Wednesday last, when Harry McCoy was instantly killed, died last night, Gorman, according to witnesses at the McCoy inquest, was hit by the hammer and fell among the frame timbers some distance below.

At the McCoy inquest a verdict to the effect that the accident was due to the incompetency of the engineer in charge of the hammer was returned and a charge of manslaughter was therefore laid against J. K. Fleisher.

U. S. RESERVES ALL RIGHTS ON RUSSIAN DEBTS

London, April 25.—Richard Washburn Child, American Ambassador to Italy, has notified the Genoa Conference that the United States reserves all its rights on the repayment of debts due from Russia. He says a dispatch to The Evening Standard from Genoa this evening. These debts include private bankers' loans which advances to the Kerensky Government.

Lower Freight Rates Mean Grain Will Move More Cheaply

Winnipeg, April 25.—(Canadian Press)—Reduction of railway freight rates by about 40 per cent., to the 1919 level, will be made before the 1922 crop begins to move, according to an announcement made to-day by Hon. T. C. Norris, Premier of Manitoba, at the Provincial Liberal Convention, which is in session here. The statement was received with tremendous applause.

The reduction, said Mr. Norris, would mean an annual saving of approximately \$18,000,000 to Manitoba farmers in freight rates. The reduced rates would become effective, he said, on or before July 7 of this year.

Mr. Norris, who returned from Ottawa a few days ago, reviewed in his address to the convention the fight during the past three years to obtain lower freight rates.

Arguments presented to the Act should abrogate all existing agreements between Provincial Governments and the railway companies. This Act, therefore, set aside the Manitoba agreement with the Canadian Northern Railway whereby the Province had certain powers over freight rates in return for its guarantee of Canadian Northern bonds.

The Senate continued Mr. Norris had made this clause to apply only to July 7, 1922. While in Ottawa, he and Hon. T. H. Johnson, Attorney-General, had been successful in securing the consent of the King Government to letting this clause lapse, and consequently the Senate would revert automatically to the 1919 level.

EFFORTS TO DRIVE JAPANESE OUT OF SIBERIA REPORTED

Tokio, April 25.—Some of the Japanese language newspapers to-day published dispatches declaring the Siberian Government at Chita and Soviet Russia had agreed to co-operate against the anti-Bolshevik forces and the Vladivostok Government in efforts to drive the Japanese out of Siberia.

OLD GOLD CHANNEL AT CEDAR CREEK

Hydraulic Only Way to Handle Most Workings

Official Report to Hon. William Sloan

Probabilities of rich gold discoveries in the Cedar Creek district of the Cariboo are dealt with in a statement on the district by the Hon. William Sloan, Minister of Mines after investigations by mining experts of his department.

This statement points out that the general course of Quesnel Lake into which Cedar Creek flows is east and west, while the five miles of the lake from the outlet takes a sudden bend to the northwest in direct line with the Quesnel River to the Forks, which has been gold-bearing.

"The old gold-bearing channel at Bullion undoubtedly followed the general trend of this part of the Quesnel River and the Bullion pit is about midway between Cedar Creek and the Forks," Mr. Sloan points out in his statement.

"There is therefore a distinct possibility of there being an important old channel, following the usual southeast trend of placer-drift, possibly extending at least as far as Cedar Creek.

\$40 Per Cubic Yard. "According to the statements of a geologist who has been working at this point, they found an old channel near lake-level which was bounded on the northeast by a hard rock, through which Cedar Creek had broken. From this channel the syndicate brought out very coarse gold, somewhat similar to the old Bullion channel and this channel is (Concluded on page 16.)

SEAPLANE WITH SIX IS MISSING OFF FLORIDA

Key West, Fla., April 25.—The commercial seaplane Santa Maria, which left here Monday at 6.10 a.m. for Nassau with six persons aboard, including a woman, has not arrived at its destination, and naval seaplanes of the Atlantic squadron left here early to-day to search for it.

400 EMPLOYEES OF POST OFFICE AT SHANGHAI STRIKE

Shanghai, April 25.—Four hundred employees of the post office have gone on strike, further crippling the service, which has been hampered through railroad interruption due to the warfare between the North and South. Wages and hoists and the regulation compelling the workers to deposit a proportion of their earnings in the postal savings bank are the cause of the strike.

ALL READY FOR FERRY OPENING

Large Party of Americans Due Here To-morrow

Sidney Is Rendezvous for Welcoming Party

(By The Times Special Representative). Seattle, April 25.—Seattle is a hive of publicity over the Victoria-Anacortes motor-car ferry service. A large party of influential business men, including Mayor Caldwell and representatives of the Chamber of Commerce, Rotary Club, Pacific Northwest Tourist Association, Publicity, Hotel and Transportation Organizations left here at noon to motor over the Pacific highway to Anacortes for the first voyage to Sidney en route to Victoria.

This city is alive with interest regarding the matter. One hotel proprietor says he alone will send one hundred cars to Victoria via the new route, which makes Victoria easily accessible to all Puget Sound points.

Mr. Warren With Party. Every medium of publicity literature circulated out of Seattle, includes a special feature of the Victoria-Anacortes ferry service. The splendid feeling of co-operation and friendliness toward Victoria and Vancouver Island is apparent everywhere.

George I. Warren is in Seattle, and will personally conduct the party to Victoria. He has sought out and made use of every possible medium to add veneer to the pleasures of touring in the Pacific Northwest.

Seattle businessmen are of the unanimous opinion that the ferry will prove a tremendous success, and they add veneer to the pleasures of touring in the Pacific Northwest.

As many automobiles as can be conveyed by the two ferries Harvester King and Clearer will be brought over but there will be a large number of cars left at Anacortes while the owners continue their voyage to Victoria. For this reason it is hoped that as many motor cars from Victoria as possible will be at Sidney at 12 o'clock noon on Wednesday to welcome the guests.

Members of the Victoria Automobile Club, of Commerce and the Publicity Bureau are asked to make a special effort to help swell the procession which will start from the ferry landing at Sidney and end at Victoria, where the guests will be honored at a banquet at the Empress Hotel at 1:30 o'clock. Other visitors will arrive for the celebration by other means of transportation and while the guests are in the city they are asked to attend to the duties of their respective offices.

The Sidney Board of Trade members will attend to greet the large party and members of the Board will accompany the visitors to Victoria.

Representatives from all cities and towns along the Pacific Highway from Seattle to Anacortes will attend the opening. The Harvester King will leave Anacortes at 8 o'clock to-morrow morning and Clearer at 9 o'clock later. Traffic officials of the various American railways will be among the guests and the Seattle Chamber of Commerce and other bodies will be represented.

POLICY CLEAR

Wished Nations to Understand Treaty Attitude

No Plan for Occupation of Germany

Paris, April 25.—Premier Poincare has not adopted any plan for the military occupation of Germany in case of default in the German reparations payment on May 31, it was asserted by official circles today. The Premier's speech yesterday, in which he declared France would, if necessary, undertake alone to see that the Treaty of Versailles was executed in case of a default, is said to have been intended to make the Government's policy clear and put an end to the criticisms that France was persisting in an obscure attitude.

M. Poincare desired to clear the ground before action at Genoa on Premier Lloyd George's plan to commit all Europe to a policy of hands off other people's territories.

The French Premier, it is explained, considered it necessary to let the Genoa Conference know exactly the attitude of France before the conference took a stand which the French delegation found itself unable to approve.

Echoed. The sentiments expressed by Premier Poincare in his declarations of yesterday at Bar le Duc were echoed throughout France by leading public men at the sessions of the general councils of the departments.

The monarchists are worked up to the highest pitch, and have placarded the dead walk of Paris with posters demanding a march on Berlin. Officials close to the Premier, however, deplore the idea that he will take any drastic, precipitate action. They forecast an earnest effort to find some means of putting pressure upon Germany without employing the army.

CHEAPER PAPERS.

London, April 25.—(Canadian Press Cable)—The Liverpool Daily Courier and The Liverpool Daily Post and Mercury are reducing their price from twopence to the pre-war price of one penny.

CANADA'S LOAN IN NEW YORK IS QUICKLY TAKEN UP

New York, April 25.—J. P. Morgan & Company announced at noon that the subscription books for the \$100,000,000 Canadian Government loan had been closed.

CANTEEN FUNDS LOTTERY URGED

Quebec Members Makes Proposal in Commons

Civil Service Bonus and Other Questions

Ottawa, April 25.—(Canadian Press)—Asking that the distribution of the C. E. F. canteen fund surplus shall be made by means of a lottery, Major C. G. Power, Quebec South, has introduced a resolution which he will move in the Commons.

Mr. Power's resolution asks the House to declare that "it is expedient that the canteen funds belonging to the ex-soldiers of the Canadian Expeditionary Force be distributed by means of a lottery, in which all who have seen active service in France shall have equal share, the organization of such lottery to be entrusted to a board on which ex-service men shall have representation."

Bonus. The Labor members of Parliament are in receipt of resolutions from various independent Labor parties and their related organizations in favor of the retention of the civil service bonus.

Other resolutions demand the appointment of a representative of Labor on the board of management of the National Railways when the board is reorganized.

TWO PIONEERS CALLED BY DEATH

T. E. Ladner and A. C. Wells Die on Mainland

Vancouver, April 25.—Thomas Ellis Ladner, father of Leon J. Ladner, and Mr. A. C. Wells, died at his home here to-day. Mr. Ladner, who was nearing eighty-five years of age, was one of the early pioneers of the province, having come to British Columbia over fifty years ago.

Thomas Ellis Ladner was born on September 8, 1837, at Trenton Park, in the Duchy of Cornwall, England, where his father, Edward Ladner, resided. He was educated at Falmouth High School, in 1852 he travelled to California, where he was engaged in mining and trading.

After having tried his luck at mining during six years, he left California he came to this Province where he arrived on September 20, 1858. After having tried his luck at mining, he was engaged in the farming industry and fish canning trade. He owned 1,200 acres of improved prairie land. He was manager of the Wellington Hotel, in the company of Mr. Canoe Pass on the Fraser River. He was interested in almost every industry existing throughout the Province.

He was a member of the Church of England, a Free Mason and a member of the United Workmen and Pioneers societies. In 1865 Mr. Ladner married Edna, daughter of Wm. Booth, of Victoria, who died in January, 1882. In February, 1884, he married Minnie, daughter of J. M. Johnson, of Delta, B.C. His late brother, W. H. Ladner was Reeve of Delta and M.P.P. for Delta.

A. C. Wells Died. Vancouver, April 25.—The death of one of the province's oldest pioneers, A. C. Wells, one of the first settlers from the Province and the first dairy farmer on the coast, occurred here to-day. He was born in Ontario in 1837 and came to British Columbia in 1862, settling in the Chilliwack district. He was previously in charge of a large cattle ranch in Alberta from Ontario the first herd of Ayshire cattle to be brought to this Province.

GRAIN INQUIRY AT OTTAWA

Ottawa, April 25.—R. M. Johnson, of Moose Jaw, will be chairman of the sub-committee of the House Agriculture Committee which will consider the possibilities of creating a but on Bisleys Common for permanent occupation by Australian ground next to the Canadian but. There has been talk from time to time of Canada offering Australia a share in the Canadian premises, but so far it has not resulted in anything definite being done in the matter.

Great efforts are being made this year to strengthen the price list and in other ways make the meeting of the crop risks more attractive than formerly and the same time make a drastic reduction in the overhead expenses.

ROYAL CITY TO REORGANIZE ITS POLICE FORCE

New Westminster, April 25.—A reorganization of the city police force is in prospect. This leaked out to-day following a secret conference between the Police Commissioners and the City Council.

Details are lacking, but it is understood that there was some very plain talking, that the force came in for severe criticism, and that action has been determined upon, although the exact form it will take has not been decided.

MARCHANT FAVORS SUNDAY REFERENDUM

Agrees to Plebiscite Now, But Prefers December

Hits Back at Critics With Vigorous Defence

NO TROUBLE GETTING NAMES ON PETITION FOR PLEBISCITE HERE

So many Victoria electors are signing the petition asking for a plebiscite on the closed Sunday issue that the supply of petitions is running short and new copies will be prepared in a few more days. New copies of the petition would be ready some time to-day, they said.

Mayor William Marchant, Chairman of the City Police Commission, declared to-day in favor of a referendum on the Sunday closing question at the annual election next December or an immediate plebiscite provided the electors are allowed also a vote immediately on other matters of public concern such as the improvement tax question.

In a formal statement, dictated this morning, the Mayor said: "I am always in favor of obtaining the will of the people, and while I think that primarily the Lord's Day Act is an act of the Federal Parliament, it should be enforced and observed in the spirit in which it was conceived, yet it can be reasonably enforced unless there is a general consensus of opinion in favor of its enforcement. I would not have been a party to the bringing into force of the Sunday closing of stores were I not profoundly convinced that it was in the best interests of the people of the city and would be supported by them whenever a plebiscite may be taken; and while I am in favor of a plebiscite it would seem that the most suitable time to secure a full expression of opinion by the electors would be at the time of the annual election next December.

"Would you vote for the immediate submission of a plebiscite provided the Council receives a large petition for such a plebiscite?" the Mayor was asked.

"I would quite agree to have the plebiscite taken at a future time provided plebiscites also were submitted in reply to other big petitions, such as that of the retail clerks and that of those who oppose the proposed taxation of improvements," the Mayor replied.

"Such a plan, I believe, would have a tendency to make inquiries into the question of railway rates, which would be a much broader expression of public opinion than would be secured otherwise, would be obtainable. I deprecate a snap judgment and believe we should have the fullest expression of public opinion on this subject."

In his statement to-day the Mayor replies vigorously to his numerous critics in connection with Sunday closing. "Opponents of the Sunday regulations," he says, "have endeavored to make it appear that it is solely a religious question. It is quite true that ministers of religion (Concluded on page 4)

BIGGER PRIZES AT THE BISLEY MEET

Reduction of Canadian Team Causes Disappointment

Effort to Make Event More Attractive

London, April 25.—(Canadian Press Cable)—The decision to reduce the number of competitors in the Canadian rifle team for the Bisley meet, at various points, has caused among riflemen here with considerable disappointment, although many of them will understand the reasons for the change. The step being taken. This year will be the jubilee of Canada's participation in the national rifle meeting.

Canada is the only Dominion which has consistently entered a team annually for the Bisley meet, the distance from Australia and South Africa to England making it practically out of the question for either of them to participate.

Australia, however, is now seriously considering the possibilities of creating a but on Bisleys Common for permanent occupation by Australian ground next to the Canadian but. There has been talk from time to time of Canada offering Australia a share in the Canadian premises, but so far it has not resulted in anything definite being done in the matter.

NO WORD FROM MISSING SHIP IN LAKE SUPERIOR

Ottawa, April 25.—The Department of Marine and Fisheries has not so far been able to secure any definite word of the lightship tender Lamont, missing in Lake Superior. The Lamont was a Canadian vessel belonging to the Department of Marine and Fisheries.

French Now Insist Conferes Recognize M. Poincare's Terms

Paris Delegates Want Ultimatum to Russians or They Are Ready to Break Away From the Conference, Says Dispatch.

London, April 25.—There is reliable information, declares a Central News dispatch from Genoa, that M. Barthou, of the French delegation, received telegraphic instructions to-day to insist at the Economic Conference upon the terms contained in Premier Poincare's speech of Monday. The French delegation, says the message, has declared it will press for a 48-hour ultimatum to Russia or else break from the conference altogether.

Premier Poincare's speech created great consternation in conference circles, it is added.

A dispatch said that Premier Poincare, in a speech at Bar le Duc yesterday, announced that if the French delegation at Genoa could not go ahead with its work under the agreed conditions, France would regretfully have to cease participation in the conference.

ELEVEN DROWNED DURING STORM

Fort Worth Region of Texas Suffered

Fort Worth, Tex., April 25.—Eleven persons were drowned, at least 1,500 made homeless, the city water plant was put out of commission, other public utilities were endangered, property damage of \$600,000 was inflicted, all interurban traffic was suspended and street car service was crippled as a result of a storm, the most terrific that ever visited Fort Worth and vicinity, last night and this morning.

TO INVESTIGATE RAILWAY RATES

Commons Asked to Appoint Special Committee

Ottawa, April 25.—(Canadian Press)—A resolution for the appointment of a special committee to consider railway rates, notice of which was given by Hon. W. C. Kennedy, Minister of Railways and Canals, in his railway budget speech before the House yesterday morning at 9:30, was adopted by the House on Wednesday.

The resolution reads: "That notwithstanding that the regulation of railway rates is a matter within the jurisdiction of the Board of Railway Commissioners, it is advisable that a select committee be appointed to make inquiries into the question of railway transportation costs, it having been disclosed by recent conferences held between the Government and the chief executives of various railways, which with respect to the reduction of freight rates that the representatives of the railways deem it inadvisable immediately reduce rates on any commodities because of the expiration on July 6, 1922, of the suspension of the Crow's Nest Pass agreement.

"That in the circumstances it is advisable to appoint a select committee interested parties to submit their views on the subject matter of the inquiry to the said committee, with a view to the reduction of the rates established by the Crow's Nest Pass agreement, development and Canadian industry generally."

HOME BURNED OUT AT WATER POINT

Ex-Sergeant R. M. King Suffers Heavy Loss by Fire

Fire totally destroyed the home of Ex-Sergeant R. M. King at Otter Point yesterday morning at 9:30, a brick chimney and a heap of charred debris and ashes being all that is left to mark the spot where stood his comfortable five-roomed house.

The origin of the fire is unknown, for Mr. King and his wife and little girl were out in the fields when a neighbor drew his attention to smoke issuing from the roof, where it must have been smouldering for some time. Rushing back, he found the place in flames, the fire having taken such hold that it was impossible to save anything but the furniture and belongings beyond a mere handful of bedding. Fortunately the farm buildings escaped the flames and to-day the family is sheltered in the dairy premises, with the assistance of a little furniture loaned by kindly neighbors.

Ex-Sergeant King is well-known in Victoria. He was the popular president of the original Comrades of the Great War organization here and under his direction the famous "dig-out" at the corner of Port and Douglas Streets featured largely in the Victory Loan campaign. He stated to The Times to-day that yesterday's catastrophe has set him back financially to where he started with his farm three years ago. His many ex-service friends in Victoria will sympathize with him in this heavy trouble.

RISSIANS NOW WANT CREDITS

London, April 25.—M. Tchitcherin, head of the Russian delegation at Genoa, is quoted by The Daily Herald's correspondent as insisting that credit from a foreign Government are absolutely necessary. Russia is to shoulder the burden of debt the Allies wish to impose on her. Among the concessions Russia was prepared to offer to foreign capitalists, he said, were timber lands and other sources of natural wealth from which profits were immediately available. He was willing that the Soviet's share of the profits accruing from the concessions should be set aside as a guarantee for interest and sinking fund. To be as additional guarantees would be found in Soviet goods in foreign countries, as well as leases in Russian state lands.

No Fear. Questioned as to whether Russian Communism would be endangered by the penetration of foreign capital, M. Tchitcherin replied: "No, for in Russia all power is vested directly in the hands of the workers and peasants. Our Parliament and executive are not bourgeois, which are instruments of the capitalists. We are the direct representatives of the proletariat. So long as the Soviet system lasts we fear nothing from the partial introduction of capitalism alongside of Communism."

Massey Silver-Ribbon Bicycles

## "What's this 'Triplex' Stuff I Hear So Much About, Ed?"

"That's it, right there on that bicycle."

"It's as simple as A. B. C. But it means as much to a bicycle as the whole alphabet does to the English language."

"How's that, Ed?"

"Just this way:—"

"The crank hanger is the power plant of your bicycle."

"If your crank hanger turns just a little stiff or hard, that means more effort for you."

"If the hanger develops those mean 'tight and loose' spots, it means more friction and less power."

"But the 'Triplex' was designed and is built to overcome those faults."

"It is made of such fine steel and to such close limits of accuracy that it always runs smoothly. It makes your bicycle run so easily you'd think you were riding down grade."

"It takes a lot more time and

better workmanship to construct such an accurate hanger."

"Well, well! I never thought a crank hanger was so important. I see now that

it is really just as important to have a good crank hanger on a bicycle as a good engine in a car."

"That's right. The 'Triplex' is sure some power plant."

"Were you thinking of buying a new bike, Charlie?"

"Yes, I was thinking something about it, Ed. You know I bought a cheap one against your advice last year and I'm sick of pushing the old cart along. Besides, it's always wanting repairs."

"What you need is one of those new C. C. M. Bicycles. They're built to stay out of the repair shop. I know of many C. C. M.'s that are giving good service after ten to fifteen years riding over all kinds of roads."

### IMMIGRANTS TO QUEEN CHARLOTTE

Prince Rupert, April 24.—Seven families, totalling twenty-six immi-

grants from London, arrived here last night. They sailed by the Cunard liner Scythia from Liverpool April 8 and are bound for Musset to take up land. A second party is expected to arrive in a few weeks.

### R. H. ILLINGWORTH DIED

Newark, N.Y., April 25.—Robert H. Illingworth, until recently vice-president of the Crucible Steel Company died suddenly last night at the age of sixty.

## CLOSER CANADIAN UNITY IS URGED

Alberta Premier Addresses Montreal Canadian Club

Montreal, April 25.—A plea for closer unity between Canadians East and West was the keynote of an address delivered to members of the Canadian Club to-day by Hon. Herbert Greenfield, Premier of Alberta. "What we in Canada need," he said, "is a closer knowledge of each other. There is too much distinction between East and West. Let us forget petty jealousies and get together for the good of Canada."

## CORRESPONDENCE ON PREMIERS' MEETING BEFORE COMMONS

Ottawa, April 25.—Production of all correspondence between the Canadian and British Governments in preparation for the conference of the Prime Ministers of the Empire last Summer, was ordered in the House of Commons yesterday afternoon.

The motion was made by Right Hon. Arthur Meighen, the former Premier, and Hon. W. L. Mackenzie King called attention to the fact that part of this correspondence was marked "secret." Did Mr. Meighen, he asked, desire the Government to ask permission of the British authorities to make public the secret dispatches? "I am not asking for myself that anything be secret or confidential," replied the Leader of the Opposition. "I leave the Government to decide whether there is any public interest to be kept secret."

Five orders for the production of correspondence growing out of the Winnipeg strike were passed on motion of E. J. McMurray, Liberal, North Winnipeg.

## TELLS AUSTRALIANS THEY HAVE EMPIRE OBLIGATIONS

London, April 25.—(Canadian Press Cable)—Sir George Fuller, Premier of New South Wales, speaking in Sydney yesterday, warned Australians against the movement to create a purely Australian sentiment without regard to the great obligations toward the Empire. He commended a healthy Australian sentiment, but with it and paramount, should be Imperial sentiment. Sir George suggested the possibility of inaugurating a public fund to assist advanced students to go to England with a view to strengthening Australian Imperial sentiment.

## CHITA TROOPS BLEW UP RAILWAY, SAY JAPANESE

Tokyo, April 24.—Chita Government troops blew up the railway about 35 miles beyond Nikolok, in the Siberian coast district, on April 22, it was announced in a Japanese official statement to-day. A Japanese mail train was attacked and three of the soldiers engaged were killed.

## FORMER MAYOR SENT TO PRISON

San Francisco, April 25.—Harry Broloski, broker, gambler, once Mayor of Redondo Beach and chairman of the Los Angeles County Republican Committee, is on the way to the Federal penitentiary at McNeil Island, Wash., to serve a two-year sentence for conspiracy to violate the prohibition law. The sentence includes a \$10,000 fine.

Broloski, who once directed a statewide ring which dealt in liquor in wholesale lots secured from Government warehouses by forged withdrawal permits, apparently was as cheerful as ever when he left here. He was convicted nearly eighteen months ago. His last hope for freedom was lost only lately when the United States Supreme Court refused to review his case.

Douglas Norton, owner of a taxicab business in San Francisco, convicted with Broloski and sentenced to serve two years and pay a \$5,000 fine, began an appeal to the United States court a few days ago.

## GREATER INCOME TAX EXEMPTION BEING URGED

Ottawa, April 25.—That the exemption for income tax for a child be made \$500 instead of \$200 as at present, is the suggestion contained in a resolution placed on the order paper of the commons by Joseph Archambault, Liberal member for Chambly-Vercheres.

## ARBITRATION

Ottawa, April 25.—J. E. Moore, St. John, N. B., business man, has been selected to represent the British Empire Steel Corporation on the Board of Conciliation which will investigate the dispute between the Nova Scotia miners and the Corporation.

## "TIZ" FOR TENDER SORE, TITRED FEET

"The minute you put your feet in a 'TIZ' bath you feel pain being drawn out and comfort being soaking in. How good your feet, swollen, burning, itchy, feel. 'TIZ' instantly draws out the poisonous exudations that puff up your feet and cause sore, inflamed, sweaty feet. 'TIZ' and only 'TIZ' takes the pain and soreness out of corns, calluses and bunions. Get a box of 'TIZ' at any drug or department store for a few cents. Your feet are never going to bother you any more. A whole year's foot comfort guaranteed. (Adv.)"

## Household Necessity

Make Gillett's Lye your household assistant. Use it for making soap for washing dishes for cleaning sinks for washing greasy pots and pans. It cleans and disinfects.

## NEW EMPLOYMENT RELATIONS GROUP

U. S. Pacific Coast Business-Labor Organization

San Francisco, April 25.—Business men and labor leaders of San Francisco, organized into the Employment Relations Association of the Pacific Coast, will start an effort to "establish a real partnership between labor and capital" with a programme launched May 1.

Five lines of public service to be undertaken include: "A common meeting place and clearing house for discussion between workers and employers; a central gathering into libraries on the intricate problems of human relations in industry; education through the press; a department of research for investigation of problems with results at the command of the members."

## FIRST LAWSUIT ON CEDAR CREEK

Claim in New Goldfield Leads to Court

Vancouver, April 25.—First litigation arising from the gold rush to Cedar Creek began yesterday when A. H. Casey, acting for Robert W. Campbell, of Harper's Camp, filed a writ against Albert E. Platt, holder of the Discovery Claim. The suit is for enforcement of an alleged option given by Platt to Campbell on the bank of Cedar Creek.

The plaintiff asks the court to declare that the alleged option, dated January 21, 1922, is still valid and subsisting. He asks for an injunction restraining Platt or his representatives from mining the ground or taking out precious minerals therefrom, and also from granting option rights on or agreeing to sell or otherwise dispose of the property to anybody but Campbell.

In a further claim he asks the court to order an accounting of all gold and other precious minerals taken by the defendant from the claim since the date of the option and an order that the plaintiff be credited on the purchase price with the results of the accounting. Damages for alleged breach of contract are an alternative claim. It is reported that the option price on the Platt lease was in the neighborhood of \$100,000.

## SUGAR COMPANY CATCHING UP WITH AFFAIRS

New York, April 25.—The Cuba Cane Sugar Corporation to-day announced that \$7,000,000 of acceptances, maturing May 1, will be paid. The original amount of \$18,000,000 was reduced last October to \$13,500,000, and in January another payment of \$5,000,000 was made. Officials of the Cuba Cane Sugar Corporation would not discuss international conditions in the Antilles, but the recent trend of the raw and refined sugar markets point to marked recuperation from last year's severe depression.

## CANADA ADJUSTS WAR ACCOUNTS WITH BRITAIN

London, April 24.—(Canadian Press Cable)—The adjustment of war accounts between Great Britain and Canada has been taken up by Hon. P. C. Larkin, Canadian High Commissioner, who has found the authorities here most accommodating in the matter. It is expected that the adjustment will be concluded shortly on a basis entirely satisfactory to both sides.

## BOOTLEGGERS NOW USE SUB CHASERS

Extensive Fleet Believed Operating in Eastern American Waters

New York, April 25.—Custom officials announced to-day that they were working to smash a rich bootlegger ring which they charged had mobilized a fleet of former submarine chasers to meet creation of the "dry navy" of the United States. The federal agents are working on the theory that the swift craft that once pursued German U-boats and were sold after the war now are posing as naval vessels and, commanded by officers in the uniform of the United States, already have succeeded in running \$3,000,000 worth of rum into the United States from Bermuda and Havana.

The announcement of the discovery of the alleged smuggling scheme was made after a submarine chaser 101, re-christened the Fides, had been nabbed in New York Harbor by a police boat and customs launch after she had passed quarantine and was darting toward a pier. Customs men claimed they found aboard her numerous charts with marked landings along the Atlantic coast and Hudson River. No liquor was found aboard her and the crew told a hair-raising tale of having had their cargo plundered by pirates off the Long Island coast yesterday.

The ex-chaser, said to bear British registry, was tied up at the Battery, where she was held on a technical charge that she left Bermuda without clearance papers. Her captain, who gave his name as "John Kelly," and his crew of seven, were taken to the custom house for a severe grilling. After the examination, which was attended by a representative from the office of the British Consul-General, Assistant United States Attorney Falk said:

"Kelly wore the uniform of a United States naval officer. We have not yet made any charges against Captain Kelly and the crew. "It is understood that the Fides carried 2,100 cases of choice Scotch whisky from Bermuda and that is what we want to find out. The vessel failed to show on her manifest any cargo, and after questioning by customs agents, it was decided to take her into port and question the crew."

## NEWSPAPER QUARREL LED TO SHOOTING IN COLORADO

Durango, Colo., April 25.—William L. Wood, thirty-five years old, city editor of the Durango Herald, was shot and killed yesterday by Rod S. Day, forty-seven, editor of the Durango Democrat. The shooting occurred on Main Street, in the business district. Day gave himself up. No witnesses to the shooting have been found.

The trouble between the two men is said to have grown out of an editorial article printed in the two papers. It is said to have begun when The Herald printed a clipping from another Colorado newspaper which declared The Democrat was one of the few newspapers in the country fighting the Eighteenth Amendment to the constitution (the prohibition law). The exchange of editorial comment had been going on about a week. It finally grew personal. When Day and Wood met yesterday the latter is alleged to have started an argument. Wood then is alleged to have struck Day with some unknown weapon, breaking Day's nose and inflicting other injuries. Day then is alleged to have drawn a revolver and to have fired two shots. Wood died in a hospital an hour later.

Day declined to make a statement. Wood was married and came here from Montrose, Colo.

## BIG CONVENTION IN NEW ORLEANS

New Orleans, April 25.—A reception by the Grand commandery of Louisiana was given last night to all the visiting Knights Templar who are here for the thirty-fifth convocation of the order. About 30,000 members are here now and 5,000 more are expected.

To-day is a holiday for the entire city and will be featured by the Grand Knights Templar parade. It immediately after the parade the opening of the Grand Encampment will take place.

## TWO DROWNED

Regina, April 25.—William Houston and his son, Robert, were drowned three miles south of Hiva, Sask., Sunday afternoon, according to information received to-day at Saskatchewan provincial police headquarters from the detachment at Pelly.

## INGREDIENTS FOR A COMBINATION SPRAY

What should a good all round spray, effective both in the orchard and garden, contain? The man with an orchard, the woman with her garden, the rosarian, are alike asking the question. No better answer can be given than giving the formula for Kero-Spray—a spray which, while very inexpensive, has been doing most effective work. This contains in proper proportions Black-Leaf-Spray, Arsenate of Lead, Kerosene, Whale Oil Soap and emulsifying ingredients. A spray of such composition means sure death to all forms of insect life, especially if applied just after the egg hatches and the larvae feed voraciously. The spray has the additional qualification in that (while it is poisonous) it will not injure the tree, plant, leaf or bloom. The formula for Kero-Spray was outlined after careful study of the enemies of tree and plant and the spray is attracting wide attention. The manufacturers have placed it within the reach of all. For small gardens a large bottle making 5 gallons of spray costs only 40 cents while for orchardists a 1/2 gallon tin (making 25 gallons) costs \$1.25 while a gallon runs at \$2.00. Kero-Spray can be purchased at any Vancouver Drug Co. store, Van- couver, Victoria and New Westminster. (Adv.)

PROPERTIES SOLD.  
Toronto, April 25.—Debenjure holders of the Western Canada Pulp and Paper Co. met here yesterday and decided to allow the sale of the company's properties to proceed. The company defaulted in February last, in payment of interest on its bonds, and the holders have instituted foreclosure proceedings. The debenture holders have second claim on the assets, and will share in the proceeds, if any, after the claims of the bondholders are satisfied. (Adv.)

Victoria Daily Times

TUESDAY, APRIL 25, 1922. Published every afternoon (except Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED.

GOOD WORK DONE.

If a little over one million dollars have enabled the Provincial Department of Industries to establish sixty-six concerns and employ nearly nine hundred persons as a consequence it looks as if this branch of the public service of British Columbia has fully justified itself.

PUBLIC TAKES A HAND.

One of the developments of the week end in Ireland seems to have been a national awakening to the fact that contiguity of strife will merely add to the cost of the final reckoning that must precede a return to conditions of peace.

EXPENSIVE EXPEDIENCY.

Lord Meston's association with the Viceroy's Council of India and his vast knowledge of Indian affairs and Indian psychology entitle him to express definite views upon Great Britain's relationship with that part of the Empire and prescribe a remedy for some of the unrest which is causing British statesmen a good deal of uneasiness at the present time.

in public companies will create interest throughout this country and not a little flutter in the Motherland. Six Ministers supported the proposal; but the remainder of the Government members and a majority of the House opposed the change to the tune of a three to one majority.

Students of Great Britain's political history will recall that the late Mr. Gladstone enforced a rule that all Ministers in taking office should resign such directorates as they would be entitled to hold as private members of the House.

MINISTERS AND DIRECTORSHIPS.

Genoa is getting its full share of the "crisis" atmosphere. Russia wants more than she can reasonably expect to get. France holds fast in her positive refusal to have reparations discussed.

SIXES AND SEVENS.

Genoa is getting its full share of the "crisis" atmosphere. Russia wants more than she can reasonably expect to get. France holds fast in her positive refusal to have reparations discussed.

A LITTLE CHEER.

Whatever the Conservatives of Kamloops and the younger elements of the Party in Vancouver may think of Mr. Bowser as the leader of the Opposition forces in this Province, at least one district in his own constituency has failed to discover any reason why he should be dethroned.

DIRECTORSHIPS.

Last night's debate upon Mr. McMaster's resolution to discontinue the practice of Cabinet Ministers holding directorships

the manner to which we have alluded on more than one recent occasion. And the fact remains that the Leader of the Opposition would betray a weakness that we do not think he possesses were he to leave his post on the toe of one section of his critics before the June Convention.

NOTE AND COMMENT.

Monarchists in France want the French armies to march to Berlin. That could have been done in 1918 at a great cost of human life. If it shall be done in 1922 nobody can estimate the cost.

There are altogether too many ultimata flying around at Genoa. Why on earth cannot the delegates ask a few businessmen in to give them some advice on practical economics. As it is at present sword-rattling drowns such honest discussion as the politicians are trying to conduct.

MINISTERS AND DIRECTORSHIPS.

Commons Does Not Forbid Connection With Companies' Views Stated by Prime Minister and Others

Ottawa, April 25.—The House of Commons early this morning defeated by a vote of 142 to 59 a resolution of A. R. McMaster, Liberal member for Bromo, Quebec, on directorates and Cabinet portfolios.

SIXES AND SEVENS.

Genoa is getting its full share of the "crisis" atmosphere. Russia wants more than she can reasonably expect to get. France holds fast in her positive refusal to have reparations discussed.

A LITTLE CHEER.

Whatever the Conservatives of Kamloops and the younger elements of the Party in Vancouver may think of Mr. Bowser as the leader of the Opposition forces in this Province, at least one district in his own constituency has failed to discover any reason why he should be dethroned.

DIRECTORSHIPS.

Last night's debate upon Mr. McMaster's resolution to discontinue the practice of Cabinet Ministers holding directorships

Six of the men on Treasury benches voted for the bill a year ago; to-day they were sitting side by side with directors of corporations who would have been denied Cabinet positions had the bill passed.

McMaster's Views.

Mr. McMaster said his resolution did not mean that members of the Government who were directors in private companies should resign their directorships; but, success in doing business with the Government. The resolution did ask that members of the Government who were directors in large banks, transportation companies, etc., should resign their directorships in the public interest.

NOTE AND COMMENT.

Monarchists in France want the French armies to march to Berlin. That could have been done in 1918 at a great cost of human life. If it shall be done in 1922 nobody can estimate the cost.

L. CARUS-WILSON DIED IN LONDON

Formerly Professor at McGill University

London, April 25.—(Canadian Press Cable)—Captain, Louis Carus-Wilson, son of Ashley Carus-Wilson, former Professor of Electrical Engineering at McGill University, Montreal, died to-day. His death was due to tuberculosis contracted during the war. He made a remarkable record in his war service and his subsequent electrical researches gave great promise.

Professor Ashley Carus-Wilson, formerly of McGill, was the author of a publication, Electro-Dynamics, and his widow is the author of a number of works on Scriptural subjects and she has also published books of poems.

SIR E. WALKER SPOKE IN LONDON

Addressed Canadian Club; Told of Railways

London, April 25.—(Canadian Press Cable)—Sir Edmund Walker, president of the Canadian Bank of Commerce, addressing the Canadian Club in London yesterday, said that whether Canada believe in public ownership of railways or not she was forced to try the experiment. The trial would in any event be costly, but he was not sure in the long run the country might not benefit by its past mistakes, large as their scale might seem just now.

rectors to manage the railways like a business enterprise. Concerning the internal war debt, Sir Edmund declared that the super-taxes as now levied in Canada, England and the United States were unfair taxation and were calculated to destroy enterprise. This taxation was a suicidal policy, with same taxation, Canada would be able to readily to bear her war burden as far as she owed it to herself. For her smaller portion due to other countries, provincial and other debts owed abroad, and for over-building railways she must look to enlarged production, immigration and farm settlement. Sir Edmund paid high tribute to the Soldier Settlement Board, which had proved how successful could be a Government commission with devoted public servants. "I was one of those," the speaker continued, "who before the war was disturbed about our position in the Empire—not that we needed more autonomy, but that having so much we should do more in co-operation. The war drew us together, and I am sure it would do so again. We are proud that we are Canadians and that that we are British, but I wish every Canadian would put the Empire first. Our own future may or may not depend on the Empire, but world civilization clearly does."

MANY GUESTS AT GOLDEN WEDDING

Mr. and Mrs. W. H. Burkholder Received Host of Congratulations-Yesterday

A host of congratulations from friends both far and near received by Mr. and Mrs. William Henry Burkholder, who yesterday celebrated their golden wedding anniversary at their home, 1424 St. Patrick Street.

LOCAL ASSOCIATION OF GUIDES FORMED

Will Help in Encouraging Girl Guide Movement Here

There was a large and representative attendance at the meeting held for the purpose of reorganizing the Victoria District Girl Guides Local Association at the I. O. D. E. rooms, yesterday afternoon. Tea was served by Mrs. J. W. Gibson, assisted by Capt. Norah Hunter, and Lieutenant Aline Stewart. Mrs. W. J. Wallinger, Provincial Commissioner was present; also Mrs. Tyrell Godman, Deputy Provincial Commissioner and Mrs. R. L. Leighton, vice-president of the local association. At the request of Mrs. Nicol, Mrs. Tyrell Godman presided and in opening the meeting explained the objects of the local association. The following ladies were nominated to act as the Executive Committee of the Association: Mrs. J. S. Alexander, Mrs. E. P. Ayton, Mrs. J. W. Gibson, Mrs. J. H. Gibson, Mrs. Kinloch, Mrs. D. Miller, Mrs. Curtis Sampson, Mrs. Sherwood, Miss Watson, Mrs. Wright, and a representative from Metehoon, Mrs. Elwood and Mrs. Pears to act jointly.

Lady Astor Most Active Speaker at Conference

Woman M.P. to Give Address on "Political Experience," Will Visit Canada.

Baltimore, Md., April 25.—Fatigued by her incessant activity since reaching the United States last Wednesday, Lady Nancy Astor remained away from convention headquarters of the National League of Women Voters yesterday and spent the hours in rest.

In the afternoon Lady Astor worked on an address to be delivered to-day. Later she called on some of her friends of bygone days, when she was Nancy Langhorne of Virginia. Last night she and Lord Astor dined quietly.

CUTICURA HEALS SCALP TROUBLE

On Child, "Broke Out in Pimples, Head Scaly, Used To Itch."

"When my little girl was two years old she had a severe case of scalp trouble which broke out on her head in pimples, and her head was used to itch so that she was always scratching."

"I tried all kinds of remedies but in vain. I sent for a free sample of Cuticura Soap and Ointment which helped her. I bought more and after two weeks she was completely healed." (Signed) Mrs. Lillian Fortier, 104 Unit St., Providence, R. I., Feb. 11, 1921.

Cuticura Soap, Ointment and Talcum are all you need for every-day toilet and nursery purposes.

Among the Guests of Honor at the Last Tea of the Season

A delightful party was given on Friday evening by Mr. and Mrs. E. W. Carter, Badboro Bay, in honor of their daughter Gladys' twenty-first birthday. A number of games were enjoyed by the guests, after which dainty refreshments were served in the dining room. The table was artistically decorated with daffodils the color scheme throughout being green and yellow, while the birthday cake, holding a suitable number of candles, occupied a prominent position in the centre. Miss Carter was the recipient of many beautiful gifts.

When you buy Blouses at a "Specialty Shop"  
You expect "better" styles, "better" materials and "better" finish!  
We merely ask you to compare the "style," "materials" and finish of our Blouses. Scrutinize carefully the beautifully fine, strong, even stitching—the perfect "finish" of each seam. Never a raw edge—never an inadvertent rip—each seam a work of art—in its own way.  
Indeed we are as fastidious about the stitching and "finish" of our Blouses as we are about choosing Paris and New York styles—and best "quality" materials. Immaculate finish is the standard before the name "D'Alaird's" goes on.  
The Store of New Styles First  
D'Alaird's Blouses

Housewives Revel  
In Furnishings that are New and Pretty  
In the modern home there is no place for the closed-all-week room. Every room is used every day and the housewife wants colorful, attractive things in her home. She is going to have them. It is her right to have them.  
The attractive home is the home of HAPPINESS.  
Merchants who have a stock of new and attractive furnishings will do well to tell the young housewives all about that stock. The just-been-marrieds and the going-to-be-marrieds are interested. They must be told, and as 100 per cent. of them read this newspaper, this newspaper is the logical medium through which to tell them.

ANY kind of cake, from a simple sponge to an elaborate marble cake, can be made irresistibly delicious with an icing of FRY'S Baking Chocolate. It will gain in nourishment as well as in appetizing qualities, for FRY'S Baking Chocolate is very rich in food properties. FRY'S comes in powder form, ground very fine, so that it is most convenient, quickly prepared, and easily digested. Get a tin of FRY'S Baking Chocolate and let your family enjoy an exquisite "chocolate cake" tonight.

"Of course, remember, nothing will do but FRY'S"

**ARION CLUB WILL SING "THE DESERT"**

Great Symphonic Ode in Thursday's Programme; Orchestra to Assist

Next Thursday evening the second concert of the thirtieth season of the Arion Male Voice Club will be held at the Empress Ballroom.

Up to the present there has been a large demand for tickets, and as only a limited number can be disposed of to the general public, the number being augmented by reason of the active members denying themselves of their usual quota, it will be necessary for those desirous of enjoying the musical treat to secure their tickets without delay. For thirty years the Arion Club has maintained its fight to be considered the premier musical organization of the Pacific Northwest, and while the programme have always been selected with the idea of elevating the musical standards of Victoria, it is doubtful if a more charming selection of music has ever been prepared than will be given on Thursday evening.

The principal number to be sung is that wonderful "Symphonic Ode" by David Bennett, "The Desert" (the music of which is so wonderfully graphic and descriptive of life in the great desert. It depicts the Arabs starting out on their journey and their appeal to Allah for guidance, their rest for the night, the storm which overtakes them which is succeeded by a beautiful calm. Then the resuming of the caravan and their march over the desert, and finally their prayer to Allah again for a safe journey. A number of verses are recited through the work and these will be said by the Very Reverend Dean Quinlan, and some charming tenor solos will be sung by Mr. George Guy.

The orchestral accompaniments throughout the work are arranged by the orchestra conductor, Russell, the Arion Club conductor. Those composing the orchestra are: First violins, Mr. Drury Price, Mrs. Reg. Bennett, Miss Young and Mr. Aldous; second violins, Mrs. Leader Mrs. P. R. Brown, Miss Bradshaw and Mr. Birnie; violas, Miss Duckitt and Mr. Jesse Longfield; cellos, Miss Peggy Scott and Mrs. Thornborough; double bass, Mr. Skelton; flute, Mr. Lytton; clarinet, Mr. C. W. Squire; oboe, Mr. Chesney; bassoon, Mr. Culross; trumpet, Mr. George Green; trombone, Mr. G. H. Green; piano Mrs. C. C. Wainwright.

It is doubtful if such an orchestral array of musical talent has been heard here before and their combination with the forty-five voices in the Arion Club will ensure a worthy rendering of such a composition as "The Desert."

Another very special feature of the concert will be the singing of the Golden Hocks by the club.

Some of the other numbers to be sung by the club include the stirring "March of the Men of Harlech" and the wonderful "Pilgrim's Chorus" from Tannhauser, both of these numbers being accompanied by the orchestra.

Other numbers to be sung by the club are "Stars of the Summer Night," a delightful composition by Hatton, and "The Waltz," a very old and popular piece in the club's library are two numbers to be sung by the club alone.

Tickets can be secured by applying to Mr. Ira Dilworth, Mr. R. A. C. Grant, or by calling at Kent's Phonograph Store.

**FURTHER WORKS OF SIR PHILIP GIBBS**

New Series Is Being Commenced at Victoria Public Library

"Now It Can Be Told" was the first of the books of Sir Philip Gibbs to be secured by the Victoria Public Library. The waiting list is still unfinished, so popular is the demand. Miss Helen Stewart announces that the second book mentioned during his visit here has arrived, two volumes having been received. The title of the book is "More Than Can Be Told." It can surely be recommended as a very entertaining article.

Two sets of books are being compiled at the library. William Sharp who possesses a fascinating mode of writing, takes a different personality under an assumed name when writing. The library is endeavoring to make a collection of these works, together with a set of J. C. Squire's essays under the incognito of Solomon Eagle. Already two new volumes of Lady Gregory's books have been added to the library while one, two and three volumes of J. C. Squire's essays have also been secured.

Affiliated with these writings are sets of books by Lady Gregory and William Morrison who both write on similar lines as William Sharp when under the incognito of Fiona MacLeod. The library is endeavoring to make a collection of these works, together with a set of J. C. Squire's essays under the incognito of Solomon Eagle. Already two new volumes of Lady Gregory's books have been added to the library while one, two and three volumes of J. C. Squire's essays have also been secured.

**FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT**

THE WEDDING BREAKFAST Part II.

Mr. Crow cawed loudly and long at Mr. Fox when the next day he saw him down at the well.

"Why didn't you come to the wedding breakfast?" he asked. "Everybody was so upset because you were not there."

Mr. Fox looked up at Mr. Crow sitting on a limb of the tree over him and said in smooth tones: "I had a bone in my foot and could not get there; but I am sure you were there, Mr. Crow, and how could they miss you one when they had the pleasure of your company?"

Mr. Crow could not talk as well as Mr. Fox, so he just cawed and flew away. But if he had seen the look in

the eyes of Mr. Fox he would have been on the lookout for a while. He didn't however; and, in fact, he soon forgot all about the wedding breakfast.

Mr. Crow was a wise old fellow and it took more than a ragged-looking man standing in a cornfield to scare him away; and even a man

**CONCLUDING BANQUET ATTRACTIVE ONE**

Summer Programme Discussed Trophies and Medals Presented

Some hundred and seventy-five boys participated in the concluding season's banquet at the Y. M. C. A. Saturday night. Following the banquet an entertaining programme was rendered, and presentations were made to the various clubs and boys. The Tillicums won the prize which was contributed for the best decorated table, while the same club also won the silver cup for inter-club competition of Junior B department. Junior A winners were the Canucks, who were presented with a pennant. This same group also secured the shield for the stunt night feature. Silver medals were presented to the Junior employed boys, who were winners in the swimming contest conducted by that department, and Hunter McCloy was the successful boy to obtain the honor of holder of the medal, while J. Ross was the receiver of the silver medal for a similar event in the Intermediate employed boys.

ners in the swimming contest conducted by that department, and Hunter McCloy was the successful boy to obtain the honor of holder of the medal, while J. Ross was the receiver of the silver medal for a similar event in the Intermediate employed boys.

A varied programme of entertainment was given which included community singing and comedy acting. Following this the Summer programme was discussed, and large numbers of entries were received for various branches of the programme. The Summer programme is a very attractive one, and should provide plenty of recreation for the boys' leisure hours during their two months' holiday. The following are the various clubs on the Summer programme, which any member can belong to: Bicycle outings, life saving, athletics, speed swimming, boxing, pioneers, first aid, star guide, baseball, stamps, century, hikers, camera, Harriers and wireless. Rehearsals to the "Upper Trail" play, which is to be produced by the Y. M. C. A. is rapidly forming to a finished production, and will be ready for the performance on Friday night. Boys are selling tickets, and

**A Danger Warning —Bleeding Gums**

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

**Wrigley's Spearmint Gum**  
THE PERFECT GUM LASTS  
MINT LEAF FLAVOR

Satisfies the sweet tooth, and aids appetite and digestion. Cleanses mouth and teeth. A great boon to smokers, relieving hot, dry mouth. Combines pleasure and benefit. Don't miss the joy of the new NIPS—the candy-coated peppermint tid bit! Chew it after every meal.

Packed Tight—Kept Right

with a gun did not frighten him if he was near the woods.

Mr. Fox knew this and he did not intend to catch Mr. Crow or harm him; but what he did plan to do was to scare him nearly out of his wits, which he did, as you will learn.

One morning before it was light Mr. Fox was coming home from a hunting trip and crossing a cornfield he happened to see a very good looking scarecrow; in fact he had jumped when he saw it, it was so well dressed.

When he saw his mistake Mr. Fox smiled, and a smile meant to Mr. Fox that he has something on his mind. He walked right over to the scarecrow and for a few minutes he was very busy; and when he finished being busy there he was dressed in the clothes of the scarecrow and standing there just as natural he could be.

He knew he would have to wait until daylight and perhaps a little longer; but the fun he would have would be worth the trouble, he was sure of that.

By and by, when the sky was gray and streaks of light showed over the hill where Mr. Sun was making ready to get up along came Mr. Crow and perched on the rail fence by the cornfield. He gave a careless glance at the scarecrow, and after casting his bright eyes about he flew right over to the field and perched on one arm of the scarecrow and cawed loudly his scorn:

"Old raggedy scarecrow, you can't frighten me. For I'm a brave bird, as all can see. I can see through you with one sharp eye. You can't fool me, so you needn't try."

Just as he finished cawing Mr. Crow turned to peck at the coat sleeves on which he was sitting, when Mr. Fox gave a jump and a bark.

Mr. Crow was so frightened that his wings just flopped at his sides. He almost fell to the ground; but he was away in another second and Mr. Fox rolled over and over on the ground laughing and howling fit to burst.

Of course, Mr. Crow did not stop to see who it was inside of the raggedy clothes. He went as far as he could from the cornfield; but when Mr. Fox saw him sitting on a branch near the field he was looking very carefully, at the scarecrow waving its arms in the breeze.

"Old raggedy scarecrow, you can't frighten me. For I'm a brave bird, as all can see. I can see through you with one sharp eye. You can't fool me, so you needn't try."

Mr. Fox sang this loudly as he walked by hidden by the bushes, but Mr. Crow heard him and away he flew without giving one caw. "I guess he will keep out of my affairs after this, meddling old fellow," said Mr. Fox, as he trotted off home.

# THE HORRORS OF INDIGESTION

### Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies indigestion.

50c. a box; 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

## NOTICE TO MARINERS

**British Columbia.**  
25) Canadian List of Lights and Fog Signals—New Edition.  
A list of all the lights and fog signals on the Pacific coast of the Dominion of Canada, corrected to April 1, 1922, has just been published.  
Copies will be supplied free to mariners on application.

**British Columbia.**  
(29) Burrard Inlet—Entrance to Port Moody—Off Carraholly Point—Beacon Erected.  
Position—On rock that dries 11 feet, eastward of Carraholly Point, north side of entrance to Port Moody. Latitude N. 49 deg. 17 min. 37 sec., longitude W. 122 deg. 54 min. 30 sec., taken from Admiralty chart No. 922 (Edition, August, 1917).  
Description—Concrete base surrounded by a staff carrying a wooden slatwork drum.  
Elevation—Sixteen feet.  
Colour—White.  
Remarks—Fog ground extends about 150 feet southward of beacon.

**COASTWISE SAILINGS.**  
For Vancouver.  
Princess Victoria leaves 2:15 p.m. daily.  
Princess Louise or Princess Alice leaves 11:45 p.m. daily, except Saturday.  
From Vancouver.  
Princess Adelaide arrives 2 p.m. daily.  
Princess Rupert, Sundays, 11 a. m. daily.  
For Seattle.  
Princess Adelaide leaves at 4:30 p.m. daily.  
From Seattle.  
Sol Duc arrives 9:15 a.m. except Sunday.  
Princess Victoria arrives daily at 1:15 p.m.

# ALEXANDER WILL TRY FOR RECORD

### Thirteen Days Between New York and Los Angeles Is Objective

San Francisco, April 25.—The steamship H. F. Alexander, sailing from New York for Los Angeles May 27, will try for a record run of 13 days elapsed time between these ports with stops at Havana and the Panama Canal, or 11 days actual sailing time. The H. F. Alexander, formerly the Great Northern, has a maximum speed of 26 knots but it is not intended to go above 22 knots on the run to Los Angeles.

The steamer Bergen, 132 tons net, has been sold by a Portland man to Los Angeles interests, according to an announcement here to-day. The reported price was \$15,000. The vessel is in drydock here.

The Moore Shipping Company was low bidder by a small margin for reconditioning the Pacific Mail liner Wolverine State. The bid was \$44,500. The contract calls for installation of stowage accommodation for 219 passengers, re-arrangement of crew quarters and other re-arrangements. The Shipping Board has not yet approved the bid. Whether the contract will be given to the lowest bidder or the Mare Island yard is not to be learned to-day.

The United Engineering Company bid \$45,000, the Bethlehem Shipbuilding Corporation \$45,485, and the Main Iron Works \$48,800.

Arthur Cahill, local manager for Sudden & Christensen, returning from a visit to Northern ports to do the business in Portland and Seattle is better than for years past. He said conditions at Gray's Harbor are exceptionally good.

The P. B. Duckworth, Diesel engineer of Seattle, arrived here to-day to assist in the purchase of Diesel engines for Seattle interests.

A committee of four men representing New York shipping interests and working in co-operation with the Shipping Board will begin an inquiry here in May with a view to stabilizing loading and unloading charges. They are: T. V. O'Connor, chairman; F. J. Belsito, R. H. Overstreet and H. Y. Saint. This committee has just finished adjusting rates in ports on Atlantic and Gulf Coasts and have arrived at working agreements between ship operators, stevedoring companies and representatives of the workmen.

The steamer Pozan which was sold last week by a United States marshal to the Luckenbach Company cost the new owners \$253,000, according to advices from New York. The figure was a surprise because a previous effort to sell the vessel for \$200,000 cash failed.

**RUTH ALEXANDER HAD ROUGH TRIP**  
Capt. Cousins Reports Northwest Weather on Passage Up Coast

Running into a stiff northwester the Admiral coastwise liner Ruth Alexander, from San Francisco, was delayed twelve hours in making this port. The Ruth Alexander arrived at Pier 1, Richey Docks, about 10:30 o'clock this morning after a rough passage up the coast. Capt. N. E. Cousins, commander of the steamer, reported a meeting with head seas soon after getting clear of the Golden Gate, and a good sized northwester was blowing off the coast. The ship was not a fast vessel in adverse weather. She was scheduled to arrive in port at 1 o'clock last night, but it was not until 6 o'clock this morning that she passed in at Cape Flattery.

The Holland-American Kinderdyk has also been delayed by bad weather during the run up the coast from San Francisco. The Dutchman is expected to make port to-day.

**FERRY CANORA IS NOW IN DRYDOCK**

The C. N. R. car ferry Canora is now in the Esquimalt drydock for her spring overhaul. Yarrows, Ltd., are carrying out the work on the vessel.

The C. G. M. M. freighter Canadian Highlander is expected at Esquimalt shortly for drydocking.

## SIMON F. TOLMIE IS CHARTERED FOR TRIP TO AUSTRALIA

The wooden barquentine Simon F. Tolmie, Capt. J. C. Stewart, is now on her homeward voyage from Japan, has been chartered to load lumber at the Hastings Mills for Australia. The rate is given as \$13. The S. F. Tolmie sailed from Kobe April 4 and is expected here next month.

She was built at Victoria by the Victoria Shipowner Ltd., but is now controlled by the Canadian Government Merchant Marine, Ltd.

**ADMIRAL LINERS BEING RENAMED**  
SS. Wenatchee Will Leave Next Voyage as SS. President Jefferson

S.S. President Jefferson will be the new name of the S.S. Wenatchee when the ship, which arrived from the Orient to-day, again puts to sea from this port for the Far East. The renaming ceremony will take place while the vessel is in Seattle. All the passenger ships allocated to various steamship lines by the United States Shipping Board will be renamed after Presidents of the United States. The liner Pine Tree State, which sails from Seattle and this port on Saturday for the Orient, will be renamed after her old name, it being deemed impossible by Admiral Line officials to comply with the regulations incidental to the changing of her name to that of President Grant in time for sailing.

The other ships of the Oriental fleet will have their names changed as follows: Silver State, President Jackson; Keystone State, President McKinley; Bay State, President Madison.

The new names of other passenger liners of the U.S. Shipping Board fleet are as follows: Granite State, President Adams; Granite State, President Polk; Old North State, President Van Buren; Manhattan State, President Monroe; Buckeye State, President Roosevelt; Hawkeye State, President Wilson; Lone Star State, President Taylor; Creole State, President Pierce; Empire State, President Cleveland; Golden State, President Taylor; Hoosier State, President Lincoln; Creole State, President Hayes; Wolverine State, President Harrison; Levantine, President Harding, and Princeton, President Arthur. The steamships American Legion and Southern Cross retain their names.

## NEW OFFICERS FOR PINE TREE STATE

Seattle, April 25.—F. M. Raiff, until recently purser on the steamship Golden State of the Pacific Mail service out of San Francisco, arrived here to-day to become purser on the Pine Tree State, succeeding George A. Chramer, who becomes purser on the liner H. F. Alexander. H. Van Dusan, second officer on the Pine Tree State, has been made chief steward, and Fred Elwood has been named first officer.

The steamship Neponset, of the Inter-Coastal Service of the Navco Line, arrived here last night. She brought 2,000 pounds of fish, a gift from Mayor Curley of Boston to Mayor Hugh M. Caldwell of Seattle.

## FAST TRAIN IS ILLUSTRATED BY LOCAL POSTER

A special colored poster has been prepared by a local sign-writing firm for the C. P. R., illustrating the Trans-Canada, which will be daily operated commencing May 21, between Vancouver and Montreal in 52 hours.

A number of these posters have been sent to up-island points.

# Along the Waterfront

## NEW S.S. REGINA IS LAST WORD IN MARINE ARCHITECTURE

Main Companion Way showing painting of Saskatchewan Parliament Buildings, Bedroom Suite and Smoking Room.

Upon her arrival at Halifax on March 24th, the new S.S. REGINA was a revelation even to those experienced men of the White Star Dominion Line organization who inspected her, several of whom made the trip from Halifax to Portland on her the day following.

The REGINA made a remarkably fast maiden trip, averaging seventeen knots per hour, and owing to the fact that she is equipped with turbine engines, it is a wonderfully steady and seaworthy boat.

The public rooms on board the REGINA including the ladies' writing room, the smoking room and lounge, and also the dining saloon, are unusually large, beautifully finished and attractively furnished. Nothing has been left undone that would tend to give this boat every comfort that is obtainable in the modern hotel or metropolitan club.

After a glimpse at the illustration of one of the bedroom suites, shown herewith, it is hard to imagine that this is on board ship, the rooms having every appearance of a small hotel bedroom suite.

There are many innovations on the REGINA which will make her an outstanding boat in the Montreal-Liverpool service, in the list among these is the Topsis davits which appear just aft of those who are anxious to make the trip across on a steamer which affords such excellent accommodations and offers such a degree of comfort and safety. The REGINA is a 16,500 ton steamer, carrying cabin and third-class passengers.

# Canada Line CANADIAN SERVICE

July, August and September

Why not spend your holidays in Europe? The trip can be done comfortably in a single month. Travelling by the Canada-Canadian St. Lawrence route, you are four days only from land to land and two weeks on the water, for the round trip.

A holiday at sea is a real holiday—luxury and comfort on every hand—the bracing sea-air and a sea-going appetite—a wonderful cuisine to do it justice—new faces and new friends—attentive service at every turn.

See the Cunard Agent in your town for sailing dates, rates, etc., or write for General Information Folder to

THE CUNARD STEAMSHIP COMPANY

## ANNNOYING THE OYSTER.

The pearl is the result of a disease of the oyster in which it grows. Oysters do not want to breed pearls! An irritant, such as a tiny piece of grit, gets inside the oyster's shell. To save itself pain, the oyster, having failed to get rid of the irritating substance, proceeds to cover it over with a secretion composed of calcium carbonate.

Having hardened, this calcium carbonate becomes nacre, or "mother-of-pearl." It is laid by the oyster in thin, transparent layers, and thus, in time, a pearl is built up.

Examining the inside of an oyster shell and you find a thin layer of nacre, which the oyster has deposited in order to make the inner surface of his shell smooth. This is the stuff of which pearls are made.

Fishing for oysters likely to contain pearls is a risky and highly speculative business. The pearl fisherman may "spot a winner" more often he does not. In fact, it is estimated that 20,000 oysters have to be fished up from a great depth in order to get one pearl worth \$2 worth of oyster.

**Human Help for Nature.**  
It was this uncertainty of profit, and ever present risk of heavy loss, in pearl fishing from which grew the idea of oyster rearing and pearl culture—the brainy notion, in short, of teaching oysters to grow pearls.

The Japanese have made great progress in pearl culture, and the results produced by one enterprising Japanese firm have caused all the recent bother among dealers in pearls and owners of them.

It takes four years for the oyster to make a "cultured" pearl—it is going to make one at all. The pearl culturist takes the oysters from the sea when they are three years old. He inserts the irritant inside the shells, and the oysters are then planted systematically in "beds," where they are fed and tended carefully for four years. About thirteen oysters in every hundred are found to have made pearls.

It must not be imagined that these "cultured" pearls are in any way artificial; they are produced by the oyster just as naturally as the other kind. All that man does to help Nature is to insert the irritant under the oyster's shell.

The recent improvement in the cultured pearl is said to be due to the rocking of the oysters, which are now placed on bamboo frames which give this motion and thus stimulate the production of rounded pearls instead of pearls with a flat side.

**An \$81,000 Drink.**  
Hitherto the oysters treated in this way have been comparatively small in size. The oysters which produce the large Oriental pearls weigh sometimes as much as 14 pounds. They live on banks which abound in monstrous shell fish, so that the large oyster is held and held a pearl diver. The giant clam, for example, often weighs as much 500 pounds.

The romance which surrounds the pearl of great price is as old as history. Cleopatra dissolved and swallowed a single pearl valued at \$81,000 in honor of Antony. Sir Thomas Gresham, when Queen Elizabeth died with him at a city banquet, dissolved a pearl worth \$15,000 and drank it to her health. A pearl worth \$80,000 was cut into two pieces for earrings for the statue of Venus in the Pantheon at Rome.

Some of the finest pearls in existence are owned by American women. Princess Anastasia of Greece (formerly Mrs. Leeds) has a necklace worth \$150,000. Mrs. Weidner,

## REMAINS OF LATE CAPT. HOWARD C. THOMAS, WHO DIED AT MANILA, BROUGHT HOME

Contracted Pneumonia from Exposure During Blizzard at Shanghai

Bearing the body of Capt. Howard C. Thomas, her late commander who died from pneumonia while the ship was at Manila, the American passenger liner Wenatchee, of the Admiral Line, docked here at 8:30 o'clock this morning from the Orient. The captain, who rested the remains of Capt. Thomas was brought across the Pacific in No. 5 hatch, the roomy space on the upper deck of his hold reserved for the purpose. Numerous handsome wreaths, silent tokens of respect and sympathy from many friends of the late Capt. Thomas in the Orient, were grouped around the casket. Impressive funeral services were held by the Manila Elks' Lodge.

**Died on Board.**  
Capt. Thomas died from pneumonia in his cabin when the Wenatchee was at Manila. He had been in poor health for some time, and officers of the Wenatchee state that the end of the commander was hastened by exposure during a blizzard during the run up to Shanghai. Running up the river to Wosung the Wenatchee headed into a terrific blizzard and Capt. Thomas remained on duty on the bridge for many hours, and then, declining to anchor his ship at Wosung, insisted on remaining in charge until the vessel was safely docked at Shanghai. He caught a severe chill, which, in his weakened state, he was unable to throw off, and he died several days later following the arrival of the liner at Manila.

During his illness, Capt. Thomas was attended by Dr. S. B. Wakefield, ship's surgeon.

The remains of the late Capt. Thomas will be placed at rest at Seattle, the funeral service having been arranged for 2 p.m. of today, with the Seattle Elks' Lodge officiating for Lodge 1002, of Berkeley, Cal.

Orders have been issued by H. F. Alexander, head of the Admiral Line, that all ships and shore stations of the line shall cease activities for five minutes at the hour of the funeral. All Admiral Line flags will be hoisted throughout the day. Passengers will be well-known Pacific Coast mariners and will be as follows: Commander R. C. Brennan, marine superintendent of the Admiral Line; Capt. M. M. Jensen, of the liner Pine Tree State; Capt. R. D. McGilivray, port pilot for the Admiral Line; Capt. Charles G. Hanson, assistant port captain for the line; Capt. O. J. Humphrey, retired mariner and a life-long friend of the late Capt. Thomas; and Purser Myron Holzer, of the steamship Ruth Alexander. Interment will be in Calvary cemetery, Seattle.

## CORSICAN CARRIES CANADIAN PILGRIMAGE

Prominent among a large number of Canadians who left St. John, April 21, on the Canadian Pacific Corsican were Dr. Victor Morin, President Royal Society of Canada; Professor J. B. Lagace, M. A., Montreal; Norbert Decelles, former Senator and Director-General of the French-Canadian Artisans Society of Woonsocket, R. I.; P. O. Tremblay, honorary curator of the Chateau de Bonaparte, of Montreal.

This Canadian pilgrimage, under the direction of Thomas Cook & Son, numbered about eighty people, including many prominent church dignitaries, and had as spiritual director Rev. Father E. J. Devine, S. J., editor Canadian Messenger of the Sacred Heart; Rev. Father Joseph Pappin Archambault, S. J.; Mgr. S. J. Doucet, Vicar-General of the Diocese of Chatham, N. B.; Mgr. P. L. Belliveau, P. L. de G., Grandique, N. B.; Rev. Father H. J. Cornell, O. M. I., parish priest St. Joseph's Church, Ottawa; Rev. Father R. T. Lapointe, Vicar of the Basille, of Ottawa; Rev. Father J. C. Carberry, of Orillia, Ontario; Rev. Father J. B. Tetreault, St. Pie de Borgia; Rev. Father Napoleon Paquette, of Marquis, Sask.; Rev. Father John Mireault, of St. Elizabeth, Man.; Rev. Father A. J. Trudel, of Lemoine, N. B.; Rev. Father J. B. Bernier, of Lauzon, Que., and others.

another well-known American, owns a pearl worth \$200,000. \$24,000 has been paid for a single pearl. This gem, the largest single pearl on record, was pear shaped, and weighed over 200 grains. It belonged to Lord Dudley—Tit-Bits.

**PARSLEY POINTS TO FORTUNE.**  
Discerning beauty in the leaf of a sprig of parsley, the fourteen-year-old daughter of a manufacturer invented one of the most popular patterns in cotton cloth.  
The manufacturer—Peel by name—was engaged in making some experiments in printing on cotton handkerchiefs, when his little daughter hurried in from the garden with a sprig of parsley.  
She remarked that she thought it would make a pretty pattern, and her father said he would experiment with it. A pewter dinner plate was taken down from the shelf, and on it was sketched the figure of the parsley leaf. From this impressions were taken.  
The child's idea helped to lay the foundations of the enormous fortunes of the Peel family. Among members of the trade it was spoken of as the parsley-leaf pattern; while the father of the little girl became known as "Parsley Peel."

### NEWS IN BRIEF

**I.O.D.E. Educational Secretaries**—A special meeting of the educational secretaries of the primary chapters will be held in the I.O.D.E. headquarters on Wednesday afternoon at 3:30.

**Jubilee W. A. Meeting**—The meeting of the Women's Auxiliary to the Provincial Jubilee Hospital, which was to have been held at the Nurses' Home to-morrow, has been postponed until May 2.

**Council Sympathetic**—At the close of the meeting of the Esquimalt Council last night a sincere vote of condolence was passed to the relatives of the late ex-Mayor Robert J. Porter.

**Saanich Friendly Help**—An appeal issued for clothes, boots for children, also jam. Articles will be received either at the rooms, 3508 Douglas Street, or Mr. Free's shoe repair shop, 1318 Government Street.

**Social Was Held**—A very enjoyable social was held at the Metroton Church last night when the Young People's Forum met in the schoolroom. Games were indulged in and refreshments were served during the evening.

**Silver Tea and Sale**—The Ladies' Aid Society of St. Paul's Lutheran Church, Princess Avenue and Chambers Street, will hold a silver tea and apron sale Wednesday afternoon at the home of Mrs. Walter Priker, 2006 Chambers Street, commencing at 2:30. A pleasant afternoon is assured.

**Retains Trophy**—The Tillikum Club of the Knox Church are once again holders of the silver cup for the best club in the training curriculum conducted by the Y. M. C. A. during the winter months. They secured the cup last year, and were once again successful in obtaining it for a another season.

**Will Produce Play**—Owing to the big demand for tickets for the "Upper Trail," which is being produced by the Boys' Department of the Y. M. C. A., two performances are to be given. The opening night will be Friday at 8 o'clock, while another performance will be given on Saturday.

**Two Roof Fires**—The growing list of roof fires was augmented to-day by two before ten o'clock this morning. At 8:17 a.m. a roof fire at 725 Discovery Street occasioned an alarm. At 9:40 a.m. the brigade turned out for a second run, being a call to a roof fire at 4146 Rockland Avenue. Little damage was done.

**Graduate Nurses' Bridge Tea**—The Graduate Nurses' Association will hold a bridge tea, on Saturday, April 29, at the Balmoral Hotel by kind permission of Miss Tully. The game will commence at 3 o'clock and players are reminded to bring their own cards and score cards. Tables may be reserved with Mrs. Dixon, at Telephone No. 4692L.

**Police Issue Warning**—Chief of Police Fry to-day issued a warning to owners of poultry and pigeons. At this time of the year, with gardens producing young shoots, it is imperative to see that chickens do not escape and do damage. One case was reported to the police to-day, where three drills of young pea shoots were pulled and eaten by a small flock of pigeons.

**Victorian Again Scores Highly**—Victor C. Hall, son of Dr. Ernest A. Hall, who is a student in medicine at the Leland Stanford University, Palo Alto, California, has again distinguished himself in his examinations. He has come out second in the first year, his record of thirteen units of firsts and thirties seconds being surpassed by only that of Blake Wilburn, son of the President of the University.

**Ferry Opening**—Members of the Victoria Automobile Club are requested to be on hand in force at Sidney at two o'clock to-morrow to welcome the representatives from Western Washington on the opening of the new Sidney-Anacortes Ferry service. The ferry will be in the neighborhood of two hundred, and as some will not be able to bring cars, members are asked to reserve an empty seat to transport foot passengers.

**Daffodil Tea**—The Women's Auxiliary to the Boys' Naval Brigade will hold a daffodil tea at the Sailors' Club, Esquimalt, on Wednesday from 3 until 6 o'clock. The affair will be opened by Mrs. Thomson and three

## "I never thought running a car cost so little"

That's what many folks say when they learn that the average cost of operating an Overland is only \$4 weekly—the price of a couple of theatre tickets. Reckoning 5,200 miles a year, here are the items of the average Overland driver's expense for running his car a week:

Gasoline (4 gals.) at Toronto price	\$1.46
Oil (1 pint)	.25
Distilled water for battery, and grease	.08
Tires	1.00
Incidentals	1.21
Total	\$4.00

Real Estate Board—The following officers and executive committee have been chosen by the Real Estate Board of Victoria for the ensuing year: President, P. H. Brown; first vice-president, Major H. Cuthbert Holmes; second vice-president, John Musgrave; executive committee, Alfred Carmichael, C. E. Cross, Beaumont Boggs, Fred Landsberg, C. F. Swain, J. C. Bridgman, A. R. Wolfenden; secretary-treasurer, H. D. Pat-

will be a musical programme. Arrangements are being made for a miscellaneous and flower stalls, for which donations will be gratefully received.

**To Give Typing Demonstration**—Fred Jarrett, Canadian champion typist, will give a demonstration in the Elks Club to-morrow night. Following this demonstration the trophies won in the recent typewriting contest here will be presented to their winners.

**Lecture on Healing**—At the New Thought Temple, 935 Pandora Avenue, on Wednesday evening, Dr. Butler will give a talk on "Self-Healing," and give demonstrations of healing. The public are cordially invited to attend.

**New Thought Temple**—The New Thought Temple is receiving an overhauling, and being re-decorated both inside and out. In appearance it will look as good as new, and is very attractive and inviting. Next Sunday Miss Helena Martin, of Seattle, is to speak, and all are invited to hear her.

**I.O.O.F. Anniversary**—To celebrate the 103rd anniversary of the establishment of the I.O.O.F., the three local Odd Fellows' Lodges, Victoria, Columbia and Dominion, have invited Past Grand officers who headed their lodges prior to 1900 to give a demonstration of degree work to-morrow evening, followed by a smoker and musical social.

**Ward Four Liberals**—Ward Four Liberal Social Club will hold a cabaret to-morrow evening at the club rooms, Government Street, when a musical programme and dancing will be provided. An orchestra will be in attendance with an excellent programme. Refreshments will be served during the evening. Tickets may be obtained from The Rosary, 643 Port Street.

**In Police Court**—In a brief session at the city police court to-day Harrington Patterson was fined \$50 for being drunk in public. S. E. Vantreigh and George R. Fleming were each fined \$5.00 for improper parking of motor cars. A charge of failing to display the requisite manufacturer's label on twelve cases of beer, preferred against the Victoria Phoenix Brewing Company, was stood over until to-morrow for hearing.

**Railway Fears Rocks**—City road-building operations on the Reserve may be dangerous to Esquimalt & Nanaimo Railway premises there, Mayor Marchant was warned to-day in a letter from H. E. Bessley, General Superintendent of the Railway Company. The Mayor took the matter up with officials of the City Engineer's Department to make sure that the Railway Company's property was preserved from damage.

**Real Estate Board**—The following officers and executive committee have been chosen by the Real Estate Board of Victoria for the ensuing year: President, P. H. Brown; first vice-president, Major H. Cuthbert Holmes; second vice-president, John Musgrave; executive committee, Alfred Carmichael, C. E. Cross, Beaumont Boggs, Fred Landsberg, C. F. Swain, J. C. Bridgman, A. R. Wolfenden; secretary-treasurer, H. D. Pat-

erson. The annual meeting of members will be held on Wednesday, May 3, at 4 o'clock.

**"Nightmare" Rehearsals**—The members of the Victoria Dramatic and Operatic Society who are taking part in Reginald Hinck's "Nightmare" are specially requested to attend a rehearsal at the Little Theatre on Friday evening in preparation for the performance which will be staged on the evening of Wednesday, May 3.

**Guild of Health**—Rev. Wilberforce Cooper, of Vancouver, will address the Guild of Health in the Cathedral Schoolroom on Wednesday evening at 8 o'clock. The chairman, secretary and librarian of the Guild will be in attendance at the schoolroom Wednesday morning from 10:30 to 12 o'clock for the purpose of receiving reports, conferring with leaders of prayer circles and exchanging books.

**Native Sons as Hosts**—The Native Sons of B.C., Post No. 1, are having a "get together" gathering at their hall, Wednesday evening at 8:15 when they are to be the hosts to their friends, the Native Daughters also the Pioneer Society has been invited to attend. Music, cards and dancing will be the programme for the evening. The Native Sons' orchestra will supply the music for the evening and the entertainment committee will see that all who come have a pleasant evening.

## TO COMPLETE CITY INQUIRY NEXT WEEK

Dr. Shortt Expects to Leave For East by Middle of Week

Dr. Adam Shortt will complete his investigation into the finances by the middle of next week, and will leave immediately for Ottawa, he announced to-day.

"If all goes well I shall be finished my work here by the middle of the week and I am anxious to return to the capital as soon as possible," he stated to-day. "I shall, however, take a number of documents as well as voluminous statistics with me, and will not complete my report until I have looked into them further at Ottawa. By the time I leave I hope to have my general ideas on the subject under consideration fairly well nipped out, and the documents will be examined to support those ideas or modify them."

Shortt intimated that his report would reach Victoria in the course of a few weeks.

Members of the City Council are anxious to secure from Dr. Shortt advice which could be put into effect this year before the tax policy for the year is fixed. It is understood that Dr. Shortt would be willing to confer with the Council on these matters before leaving for the east. Meanwhile he is conferring with city officials of various departments. He was closeted with City Comptroller J. L. Raymur and Langdon Commissioner W. G. Cameron for several hours to-day.

## TO-MORROW'S LUNCHEON

Mayor Marchant will preside at the Ferry luncheon to-morrow at 1:30 o'clock in the main dining room of the Empress Hotel. It will be the welcome to visitors on the inaugural run of the Anacortes-Sidney Ferry. Tickets may be obtained at the Chambers of Commerce and Victoria and Island Publicity Bureau.

**Accidental Death**—A jury sitting at the inquest on the body of the late John Hall, who was found in the water of the Inner Harbor on Sunday returned with a verdict of accidental death. The circumstances were reported as related in The Times previously. Hall was missing from March 25, when he fell off the bridge.

**In Supreme Court**—The action of Scree versus the City of Victoria, in connection with the flooding of Bowker Creek, was continued before Mr. Justice Gregory in the Supreme Court to-day. The action occupied the morning session of the court and is continuing this afternoon, with the arguments of counsel and the defendant later. H. B. Robertson, K.C., with City Solicitor H. S. Pringle, act for the city, with S. T. Hankey for the plaintiff, Mrs. Elizabeth Scree.

**Judgment Reserved**—In the action of Singh et al versus Harris et al heard before His Honor Judge Lampan in the County Court yesterday judgment was reserved. Evidence occupied the morning and afternoon sessions of the court. D. S. Tait appeared for the plaintiffs, with P. J. Sinnott, junior, for the defendant. Judgment is to be given on Friday. It was stated. The action was one for damages as the result of a collision between a motor car and a car driven by the defendant.

**Club Social**—A very enjoyable social evening was held by the Crusaders' Club last night in the organization's club quarters. Games were indulged in, while a musical programme was rendered, including selections from the following artists: Misses Lily Muir and Marie Japson and Messrs. A. Smille, J. Bial, G. Allan and F. Webster. J. Parker was the accompanist for the evening. All those interested in the formation of a baseball team of the Crusaders Club are requested to attend the meeting, which is to be held to-night at 8 o'clock in the Centennial Church class room.

**Daughters of St. George**—Victoria Lodge No. 33, Daughters of St. George, spent a very pleasant evening on Saturday in honor of St. George's day, when members' families and their friends and the Sons of St. George were invited, about 200 being present. The Worthy President, Sister White, opened the concert with a short address. Sister Gaiger proceeded with a programme which was enjoyed by everyone. Those taking part were Mrs. White, Miss Halsey, Mr. Hadley, Mr. A. Gaiger and Mr. Webb. Dancing was afterwards indulged in. Mrs. Rigard supplying the music. During the evening refreshments were served. Mrs. Rowbottom and Mrs. Levy being in charge.

**Chamber of Commerce**—The Chamber of Commerce directors yesterday took up the question of the election of officers and deferred the matter until next Monday. A high tribute was paid to the officers who served during the past year, and it was the wish of the directors that President J. H. Beatty and vice-president R. C. Nicholas would find it possible to accept unanimous re-election to office at the adjourned meeting next Monday. N. A. Yarrow, J. H. Gillespie and Reginald Hayward tendered their resignations from the board of directors. The resignations were accepted with regret. J. L. Beckwith, Alfred Carmichael and David Leeming will be asked to take their place.

**The Structure of the Atom**—One of the most remarkable of the recent developments of science has been the discovery that the atoms, which until within the last few years were supposed to be the ultimate particles of matter, consist of a central nucleus with revolving electrons around it, a miniature solar system. An illustrated lecture in popular language on this interesting subject will be given in the Girls' Central School this evening at 8 o'clock, by H. H. Haskitt, of the Dominion Astrophysical Observatory. This lecture is under the auspices of the Royal Astronomical Society of Canada, and all interested are cordially invited to attend.

## MAYOR BANS GOLF IN BEACON HILL PARK

Golfing in Beacon Hill Park is the latest craze, Mayor Marchant was informed by agitated park officials this morning. Whereupon His Worship issued orders that golf should be confined to golf links, or at least should not make the park dangerous to its many frequenters.

Put up only by The T. Millburn Co., Limited, Toronto, Ont. —Advt.

must have a composite glimpse of snow topped mountains, thick set forests, wide expanses of open country and romping animal life.

Most of the scenes in "The Silent Call" were taken in the High Sierra mountains of Northern California in a freezing cold spell, fifty miles from the nearest settlement. Some of the difficulties the company had to contend with in this isolated location were shown when three camera-lenses were broken and the company was forced to rest for five days. It required a day and a half for the runner to reach the nearest settlement and send a wire for new lenses and another two days for the shipment to reach the settlement.

In the course of their tramps on location the company covered more than seventy miles of virgin country in the northern part of the state. So isolated was the section that John Bowers, who has the leading male role, was lost for half a day until Flash, the Belgian police dog of the picture, rescued him.

"The Silent Call" is presented by a notable cast, which includes: John Bowers, Kathryn McGuire, William J. Dyer, James Mason, Nelson McDowell, E. J. Brady and Robert Bolder.

## CAPITOL

"Alias Ladyfingers," which yesterday started a week's run at the Capitol Theatre, presents a new sort of crook play with Bert Lytell as the star. It is an artistic ensemble of love and crime so cunningly interwoven as to make a powerful drama.

In this story of Jackson Gregory's as adapted by Lenore J. Coffee for Metro, the orphaned child of a family of wealth is trained by a notorious safe breaker to follow that line of precarious livelihood. The youth becomes an expert, and because of his slim and delicate hands, is known as "Alias Ladyfingers."

He is much wanted by the police who learn that he is being sought as the heir of his rich grandmother. The youth, knowing nothing of this relationship, visits the home of the old lady intent upon playing his professional talents, and is informed by her of the relationship. So far from welcoming the chance to live in peace and security with the girl of his love, he determines to work out his own salvation.

Mr. Lytell portrays the character of the crook with dramatic power, while Ora Carew, as the trusting sweetheart, was altogether delightful. Others in the cast include Witt Jennings and Stanley Goethals. Arthur Martineau photographed it, while the art direction was by A. E. Freuderman.

## WILL APPEAR WITH MADAME YOLANDA MERO

MRS. GERTRUDE HUNTLEY GREEN

doff, two clever dancers, late of the Russian Imperial Ballet, are presenting their dance novelty entitled "Sweets." It is one of the most dainty and attractive of dances, the remarkable talent of these artists being shown to much advantage.

Philo McCullough, who for some time past had been out of Fox pictures, has returned to the Hollywood studio. McCullough has played in several big Fox productions, both as heavy and leading man, and also has taken a ring at directing.

John Gilbert has started work at the Fox Hollywood studio on George Gibbs' novel, "A Splendid Outcast." It calls for a dual role, the first this star has done. Renee Adore plays the feminine lead. Jerome Storm is directing.

Dustin Farnum has started work at the Fox Hollywood studio on a picture called "Strange Idols." The story and scenario are by Jules Furthman and Bernard Durning is directing. His leading woman is Doris Pawn.

## YOLANDA MERO HERE TO-MORROW

Return of Famous Hungarian Pianist; Mrs. Gertrude Huntley Green Appears

Following the successful recital last night by Yolanda Mero and Mrs. Gertrude Huntley Green in Wesley Church, Vancouver, the distinguished pianist will return to Victoria to-morrow night for a recital at the Empress Hotel.

The programme for the concert will be as follows:  
R. J. in the Vancouver Province, says of Mero: "She has every right to be classed as among the really few great women pianists of the world. Her reception and in fact her playing has probably not been approached by any pianist heard in Vancouver in recent years."

The programme will be as follows:  
Part I  
Theme and variations on a theme by Beethoven. Suite arranged for two pianos by Saint Saens.

- (a) Rhapsodie—B Minor ... Brahms
- (b) Intermezzo—E Major ... Brahms
- (c) Ballet Music—Kosmide, arr. by Rudolph Ganz ... Schubert
- (d) Impromptu—G. Major. Schubert
- (e) Jardins Sous La Pluie ... Debussy
- (f) Prelude No. 5 (by request) ... Chopin
- (g) Rhapsodie No. 5 (by request) ... Liszt

Part III  
Suit for Two Pianos ... Arensky  
(I) Romance ... Liszt  
(II) Valse ... Liszt  
(III) Polonaise ... Liszt  
Two Steinway concert grand pianos used.  
Fletcher Bros., Steinway representatives for British Columbia.

## PRINCESS

To-morrow night the players at the Princess will present the famous crook play, "Within the Law." It is ten years since this sterling play has been seen in Victoria, and its performance at this time is in line with the play's revival in New York, where it is now packing the houses at each performance. The stock company should give a fine performance of this play, as the different parts are well adapted to the various members of the company. No crook play that has ever been written can be compared with "Within the Law." Its story is a gripping one from start to finish, and its comedy, which is generously sprinkled throughout the four acts, is of the broad kind that sparkles and serves to enliven the tense dramatic story. Violet Neitz will have the best part that she has had in many weeks, when she is seen as Mary Turner. Jack Phipps has an important role in Kilk Gilder, while Harry Leland will have the important part of Joe Garson, the forger.

Wesley Campbell, who will appear as Inspector Burke, has the best part that he has ever appeared in here, and promises a fine performance of this important role. Earl Moore will be the English Eddie; Lily Dooley will play the shop-lifter, while other im-

## "WITHIN THE LAW" TO BE PRESENTED

Moose Night at Princess on Monday

The Walla Walla committee of the local lodge of the Loyal Order of Moose, having for its object bringing the 1923 convention of the N.W. Moose Association to Victoria, has arranged with the Princess Players to take over the theatre for the evening of Monday, May 1.

It is to be known as "Moose night," and the play "Within the Law" will be produced, in addition to which several prominent local artists will appear during the performances. Miss Eva Hart has consented to appear. Tickets are now available from the members of the committee and are exchangeable at the box office. As the capacity of the house is limited, those wishing to participate if the good time is advised to act quickly to avoid disappointment.

The committee is working to make this a red letter night and, as the bringing of the convention to Victoria means thousands of visitors for the greater part of a week and many more thousands of dollars, it is sincerely hoped that the citizens will back the movement.

Some time ago all the lodges of the Loyal Order of Moose were circulating asking for their support and are half of Victoria. Replies to hand would indicate that the convention is practically assured, but so that no hitch may occur the whole of the Island Lodges are getting together and are sending strong delegations to Walla Walla in June.

## SCOTS GUARDS' BAND DUE HERE NEXT MONTH

From England to British Columbia and back to the Old Country in fifty-one days constitutes probably the longest tour in the shortest time ever undertaken by any musical celebrity or musical organization. Such is the work cut out for the celebrated band of His Majesty's Scots Guards.

## MILLER'S WORM POWDERS

HAVE A WARM PLACE IN THE HEARTS OF MOTHERS FOR THEY HAVE PROVED THAT THEY ARE ONE OF THE MOST EFFICIENT AND BENEFICIAL REMEDIES THAT CAN BE GIVEN TO A CHILD. THEY ARE SWEET AND EASILY TAKEN AND QUICKLY ERADICATE THESE WRETCHED PARASITES FROM THE SYSTEM.

CONTAIN NO NARCOTICS

## Abbey's SALT for Insomnia

The arrangements are in the hands of Dr. Charles Harris. From the concerts to be given it is expected the Great War Veterans' Association will benefit considerably. The interest being taken in the coming of the Scots Guards by the ladies' and women's clubs and societies, the I. O. D. E., municipal chapters, national societies, Rotarians, Kiwanians, military authorities and divers other of many patriotic organizations all point to the desire on the part of these influential bodies to get together and make a grand success of the band's performance when they reach this city on May 22 and 23.

# WILSON-TUMULTY

## BREAK JUSTIFIES FRIENDS OF BOTH

Ex-President's Vehemence Laid to Anxiety to Avoid Controversy

Rift Came Suddenly Like Those With Harvey, House and Lansing

Washington, April 25.—The rift between Woodrow Wilson and Joseph P. Tumulty is positive and wide, but there is a pretty general impression that sooner or later the two will meet and that explanations will patch it up eventually.

Mr. Wilson's repudiation of the message to the Jefferson Bay diners in New York, delivered by his former secretary, interrupts an intimate relationship that dates from Mr. Wilson's advent into politics.

The suddenness of the break and the vehemence of the former President's declaration, "I did not send any message whatever to that dinner nor authorize any one to convey a message," has set people to digging for the possible roots of the trouble.

Reports have been circulated that Mr. Wilson was displeased at some of Tumulty's activities during his absence from the country and his subsequent illness. Likewise it has been stated that Mr. Wilson was offended by some of the chapters in the Tumulty book "Woodrow Wilson as I Knew Him."

Frequently Met.

There has been no evidence of any such feeling up to now, and it is doubtful if any existed. Almost the last act of Mr. Wilson before leaving the White House was his effort to take care of his secretary by appointing him to a judgeship in the United States Court of Customs Appeals which he recently declined, for Tumulty suggested that he take a place on the Canadian Boundary Commission.

Since Mr. Wilson's retirement Tumulty has been the most frequent visitor to the former President's Street house. Every Sunday has seen him there, spending the afternoon in the publication of Tumulty's book did not disturb this practice. Indeed it would have been remarkable had there been any such effect, for Tumulty was a Wilson worshipper, and the book reflected this attitude on every page.

Surmises as to the reason for the ex-President's vehemence in his denial of the authorship of the message generally centre around Tumulty's determination not to be drawn in any legislative or political controversy, and particularly not to be put in the position of endorsing a Democratic aspirant for the Presidency.

Though it is hard to read into the innocuous words of the Jefferson Day dinner a party partisan preference, it is a fact that the juxtaposition of a message from Wilson and Cox's League of Nations speech made it possible that some persons might interpret Wilson's words as indicating that he favored Cox.

Might Be Heated.

The friends of other possible candidates—McAdoo, for example—naturally resent the idea that Mr. Wilson might be made use of against their respective favorites. There is even the thought in some quarters that Mr. Wilson, feeling himself returning to health and worn to popularity, might have some notion of being the candidate himself, or at least of being in a position to influence the choice of the next Democratic National Convention.

Tumulty refuses to contribute any further comment on the episode beyond his original statement: "If Mr. Wilson says the message was unauthorized then I can only say that I am not responsible for the error which has arisen between us. I certainly would not have given the message if I had not believed it to be authorized."

It may be that the misunderstanding consisted of a suggestion by the former President to Tumulty that he (Tumulty) should say to the Democrats of New York the things he represented the former President as saying. This is, of course, pure surmise but anybody who knows the two and the relations that have always existed between them can have no doubt that the former secretary would never have ventured to invent a statement from his long-time chief. He never was that kind of a secretary. On the contrary, he was always supercautious in this regard.

He travelled to New York in company with Senator Pat Harrison Governor fasteners at knee; choice of grey, green and brown tweeds; sizes 33 to 36. Wednesday Morning, \$2.75 per pair

# WILSON-TUMULTY

## BREAK JUSTIFIES FRIENDS OF BOTH

Ex-President's Vehemence Laid to Anxiety to Avoid Controversy

Rift Came Suddenly Like Those With Harvey, House and Lansing

Washington, April 25.—The rift between Woodrow Wilson and Joseph P. Tumulty is positive and wide, but there is a pretty general impression that sooner or later the two will meet and that explanations will patch it up eventually.

Mr. Wilson's repudiation of the message to the Jefferson Bay diners in New York, delivered by his former secretary, interrupts an intimate relationship that dates from Mr. Wilson's advent into politics.

The suddenness of the break and the vehemence of the former President's declaration, "I did not send any message whatever to that dinner nor authorize any one to convey a message," has set people to digging for the possible roots of the trouble.

Reports have been circulated that Mr. Wilson was displeased at some of Tumulty's activities during his absence from the country and his subsequent illness. Likewise it has been stated that Mr. Wilson was offended by some of the chapters in the Tumulty book "Woodrow Wilson as I Knew Him."

Frequently Met.

There has been no evidence of any such feeling up to now, and it is doubtful if any existed. Almost the last act of Mr. Wilson before leaving the White House was his effort to take care of his secretary by appointing him to a judgeship in the United States Court of Customs Appeals which he recently declined, for Tumulty suggested that he take a place on the Canadian Boundary Commission.

Since Mr. Wilson's retirement Tumulty has been the most frequent visitor to the former President's Street house. Every Sunday has seen him there, spending the afternoon in the publication of Tumulty's book did not disturb this practice. Indeed it would have been remarkable had there been any such effect, for Tumulty was a Wilson worshipper, and the book reflected this attitude on every page.

Surmises as to the reason for the ex-President's vehemence in his denial of the authorship of the message generally centre around Tumulty's determination not to be drawn in any legislative or political controversy, and particularly not to be put in the position of endorsing a Democratic aspirant for the Presidency.

Though it is hard to read into the innocuous words of the Jefferson Day dinner a party partisan preference, it is a fact that the juxtaposition of a message from Wilson and Cox's League of Nations speech made it possible that some persons might interpret Wilson's words as indicating that he favored Cox.

Might Be Heated.

The friends of other possible candidates—McAdoo, for example—naturally resent the idea that Mr. Wilson might be made use of against their respective favorites. There is even the thought in some quarters that Mr. Wilson, feeling himself returning to health and worn to popularity, might have some notion of being the candidate himself, or at least of being in a position to influence the choice of the next Democratic National Convention.

Tumulty refuses to contribute any further comment on the episode beyond his original statement: "If Mr. Wilson says the message was unauthorized then I can only say that I am not responsible for the error which has arisen between us. I certainly would not have given the message if I had not believed it to be authorized."

It may be that the misunderstanding consisted of a suggestion by the former President to Tumulty that he (Tumulty) should say to the Democrats of New York the things he represented the former President as saying. This is, of course, pure surmise but anybody who knows the two and the relations that have always existed between them can have no doubt that the former secretary would never have ventured to invent a statement from his long-time chief. He never was that kind of a secretary. On the contrary, he was always supercautious in this regard.

He travelled to New York in company with Senator Pat Harrison Governor fasteners at knee; choice of grey, green and brown tweeds; sizes 33 to 36. Wednesday Morning, \$2.75 per pair

### FARMERS ENTER TWO COMPETITIONS

Metchosin Prizes for Potatoes and Gardens

(Times Correspondence)

Metchosin—Notice has been sent to the members of the Metchosin Farmers' Institute of two competitions which will be held this year and for which three prizes will be given. An entrance fee of 50 cents will be charged for each entry, as follows:

Potato competition—(a) With an area of not less than one-eighth acre; (b) of one and not more than two varieties; (c) plot must be staked for judging purposes.

Farm garden competition—(a) Not less than one-eighth acre in extent; (b) gardens will be judged three times during the season, and special attention will be paid to assortment, variety and range of produce; (c) vegetables may include small fruits and vegetables.

This will be an excellent opportunity for members to receive visits from experts of the Department of Agriculture, and secure valuable instruction and advice by entering the competitions.

The directors also feel that the holding of these competitions will enable residents to grow a higher quality of produce, and will also enable a wider range of choice produce to be secured to help the district to carry off honors, in the event of the Institute entering the Provincial Fair.

Preliminary notice of entries for Divisions D, E, K and M at the Metchosin Fall Fair, September 14 and 15, has also been distributed, to enable intending exhibitors to make preparation for entries in time.

The Metchosin 1922 Fall Fair bids fair to outdo any previous fair held in the district. Division D, composed of vegetables, contains thirty classes while Division M, the women's section, contains over forty classes. A complete catalogue of the fair, later with the lists of prizes offered.

Overtaken by Illness

Metchosin—The many friends of Miss Verna Barr, of Colwood, will be sorry to hear of her illness, which will necessitate her withdrawing from all her school examinations and sports. She must remain in bed for a period of six weeks or so.

### GIRL GUIDES RAISE FUNDS FOR THEIR NEW HOME

(Times Correspondence)

Duncan—The First Cowichan Girl Guides held a sale of needlework, plants, cooked food, candies, etc., at St. John's Hall, the proceeds to go to the building fund for their new hall, which they need as soon as possible.

The plants and seeds, which were sold at most reasonable prices, were in charge of Mrs. Dwyer and Mrs. H. D. Morten; candy stall, Patrol Leader Kathleen Townsend, J. Dalton and A. Lomas; cooked food, etc., Mrs. Castley, Mrs. Lamont and Miss Kate Lamont; needlework, Mrs. Findley and Mrs. Fletcher. Afternoon tea was daintily served in the committee room under Mrs. Stock's capable management, assisted by Miss McGehehan, Miss V. Hayward and Patrol Leaders Hazel Castley and Kathleen Dwyer.

Dr. and Mrs. C. M. Ralston, lately returned from the West Indies, have taken Mrs. Fry's house at Maple Bay for two months, May and June.

Steam cars are to make their appearance in Duncan early next month, a local agent having been appointed.

### BOAT FOR NAVAL BRIGADE BOYS

(Times Correspondence)

Sooke Harbor—The Sooks Branch of the Victoria Boys' Naval Brigade was inspected by Lieut. P. W. Tribe, accompanied by Chief P. O. Curzon.

A special examination was held of those boys holding acting rank as Leading Seaman and Coxswain or two others especially selected for examination. This resulted in Acting Leading Seaman C. Nicholson heading the list with 85 marks out of 100, followed by Seaman G. Willett with 83, who lost out only on his word of command. Seaman Willett was found to be proficient in both Semaphore signalling and the Morse Code that he was recommended for a Signalling Badge in addition to the Anchor and two years' Good Conduct chevrons.

Third on the list was Acting Leading Seaman T. Barbour with 80 points. Their ages are: Nicholson, 10; Willett, 12; and Barbour, 11, and for their years and the time they have been under instruction Mr. Tribe spoke very highly of each boy as well as the others examined who made 70 points and over.

The Subdivision has now been allotted a boat which will reach Sooke in the course of a few days and a good season's work is anticipated.

### BOY SCOUTS HAD PLEASANT OUTING

(Times Correspondence)

Cobble Hill—The Cobble Hill Boy Scouts on Saturday afternoon, instead of meeting at headquarters for their weekly meeting, took a trip to the Marble Falls. The Scouts met at the railway station and went by way of the Old Victoria Road, turning off along the Silvermine Trail until they reached Beasley's Mill where they again turned off, taking the old Coleman miners' trail through the woods until the Copper Mine was reached. Here the Scouts stopped to explore the mine by the aid of the one as keepers of the visit. After they had seen all they could only disturbing one bear, which made off as fast as it could on hearing their approach.

The Scouts were very much impressed with the sight of the smooth white marble that formed the bank of the opposite side of the river. In places the marble had small caves worn into it by the water. The Scouts stayed there for an hour to fish, but only had a few nibbles as the fish were not running yet.

The Scouts returned to Cobble Hill at 5.30 p. m., very happy and satisfied with their outing. They hope to make a longer time to spend in the future.

The Girl Guides and Boy Scouts met as usual and practised for the play which will be produced shortly at the Community Hall.

### TO ABSORB FRECKLES AND OTHER BLEMISHES

Every Spring numerous inquiries are made by girls seeking some reliable recipe for removing freckles. Very favorable reports have been received from many who have used our special mercurized wax during the freckling season. The wax seems to possess unusual properties which completely absorb the freckles, with no harmful effect whatever. The complexion improves and the freckles become soft as a soap and as delicately tinted. Get an unguent of this nature from your druggist, spread a thin layer of it over the entire face every night for a while, and applying with a brush. For rough, spotty skin, sallowness, blackheads, pimples, moth patches, liver spots, and all such blemishes, this treatment is superior to any other.

(Adv't.)

### "RAISIN WEEK" NOW IN PROGRESS

Retailers Will Inform Housewives of Benefits of the Southern Fruit

Restaurants, bakeries, retailers, and the California producers of raisins will exert all their efforts and centre all their attention on Raisin Week. The economic preparations of the fruit, the delicious ways they may be served and the health value of this fruit will all be dealt with extensively.

Through the helpful propaganda put out by the raisin producers the consumer has been well informed of the advantages of using this fruit for health purposes. But it is thought that the house wife is yet insufficiently informed of the quality of raisins and the various and numerous ways to which this fruit may be used so the motto for "Raisin Week" is to visit the retailer and secure information.

It is expected that the demand will be great during this week. Whole-salers and retailers are putting forth their efforts to meet this expected demand for the luscious fruit which can be served in so many different and appetizing ways. Many of the stores in town are helping in spreading the news of the splendid benefit to health and body that raisins are, and will make window displays which should attract the consumer to taste of this delightful fruit. The following stores will contribute to the window display and help in every way they can, including demonstrations of this commodity: David Spencer Ltd., Hudson's Bay, H. O. Kirkham, Copas & Son, James Adam, Cooper Grocery, United Co-operative Store, Purdy's Grocery, Acton Bros, Fenerty Bros., E. B. Jones and Stevenson's Candy Store.

### Corns? —just say Blue-jay to your druggist Stops Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

## Sherlock's Dad Has Become a Ball Fan

### Conan Doyle Sees New York Teams Play, and While He Says It's Only Re-incarnation of Egyptian Rounders, He's No Longer Cricket Enthusiast—Ruth's Spirit Not Enough

New York, April 25.—Sir Arthur Conan Doyle, creator of Sherlock Holmes, and general authority on things supernatural, saw the big leaguers in action at the Polo Grounds last week.

To-day after due consideration of the physics phenomena of the diamond, he announced he had made the following deductions concerning the greatest American pastime:

"No. 1.—The average fan is not satisfied without the spiritual presence of Babe Ruth. The game lacks excitement unless the 'king of swat' is there in person.

"No. 2.—Baseball did not originate in America. It is simply a reincarnation of the old Egyptian game of rounders, considerably elevated and glorified.

"No. 3.—Sir Arthur will henceforth be a baseball fan instead of a cricket enthusiast.

"No. 4.—The way the Giants followed the ground balls was wonderful. The way they judged the flies was remarkable. Outfielders are more impressive than infielders.

"Figures He Might Make Good.

Continuing his deductions Sir Arthur said there really was nothing to prevent him from spiritualizing in professional baseball, as he had been taught the game years ago by his American author friend, Hamlin Garland. Anyone who could star at cricket could star at baseball, he declared, and since he enjoyed somewhat of a reputation as a cricketer in his youth, equal fame as a 'baseballer' should be easily attained, with a little practice, he thought.

The principal merits of the American game, as seen by Sir Arthur, are that it is livelier and quicker than cricket and does not require such an expensive outfit. On the demerit side he places the tendency of baseball to become a sport for specialized professionals, and that it seems to be something in the national temperament that is attracted to cricket.

For this reason baseball has never achieved the same popularity in England and that cricketers in this country. There are nevertheless quite a number of baseball clubs springing up in England and in the future I think there will be more."

## English Drawn To Cricket.

"As far as the English are concerned," he continued, "the national temperament that is attracted to cricket. For this reason baseball has never achieved the same popularity in England and that cricketers in this country. There are nevertheless quite a number of baseball clubs springing up in England and in the future I think there will be more."

## Lack Spirit of Enjoyment.

"I think the reason why men in this country do not keep up baseball as the English keep up their cricket is that they have not the spirit of enjoyment, the great object being to win, rather than the mere enjoyment of the game. On this account, a man of middle age must feel as though he is indulging in a whirlwind finish in the last 10 minutes.

## WILLIAMS WALLOPS HIS FIFTH HOMERUN

### St. Louis Slugger is Hanging Up Record Which Has Ruth Worrying

St. Louis, April 25.—Kenneth Williams, the hard slugging outfielder of the local Americans, today is up with the home-run record made by Babe Ruth up to this date last year. When Williams made his home-run in yesterday's game against the Detroit Americans he brought his total of home runs for the present season to five, the same number the now suspended "home-run king" had to his credit on this date last year.

## AMERICAN LEAGUE.

St. Louis, April 25.—Urban Shooker pitched the Browns to a 2-1 victory over Detroit in the first game of the season between the two teams yesterday. Kenneth Williams hit a home run with several on in the second game for his fifth circuit smash in three days. Jacobson hit another home run against Oldham with two on in the third.

## SIXTH STRAIGHT FOR YANKS.

New York, April 25.—The New York Yankees won their sixth straight game yesterday, defeating Philadelphia in eleven innings by a score of 5-1. Mays was hit hard, but given great support. Pipp's home run scoring Devormer ahead of him in the eleventh accounted for the winning tally.

## INDIANS WIN IN TENTH.

Cleveland, April 25.—Cleveland broke its losing streak yesterday when it defeated Chicago 6 to 5 in ten innings. The locals knocked Quinn Mays was hit hard, but given great support. Pipp's home run scoring Devormer ahead of him in the eleventh accounted for the winning tally.

## SENATORS HALT ROUT.

Washington, April 25.—By defeating Boston yesterday 11 to 3, Washington ended a losing streak of five games. The White Sox got a hit from the box in the second and pounded a trio of his successors. Mogridge was hit hard, but with two on he run off Myers, with two on bases, in the sixth.

## NATIONAL LEAGUE.

Philadelphia, April 25.—Bunching hits in the eighth inning yesterday enabled New York to score three runs, sufficient for a 3 to 2 victory over Philadelphia. Groh's double followed by singles by Young, Meusel, Shinners and E. Smith did the damage.

## ZBYSKO WILL TRY TO REGAIN TITLE IN BOUT TO-NIGHT

Kansas City, Mo., April 25.—Stanislaus Zbyszko will get a chance here to-night to regain the championship he lost recently to Strangler Lewis. Lewis and the aged Pole will wrestle to a finish to-night, two falls out of three. Both men are reported to be in excellent condition.

## A BUNDLE OF HAIR

London, April 25.—(By Canadian Press)—Newmarket and the Guinness is the one thought uppermost in the minds of horse-lovers in England, and for the next few days the chief topic of discussion will be the "Headquarters" racing circles will be the probable winners of the Two Thousand and the One Thousand Guineas, which are to be run on Friday of this week. These are the first two of the five classic races for three-year-olds run during the year, and together with the Derby, the Oaks and the St. Leger, have for over a century done much towards the development of the thoroughbred and the maintenance of racing on a high level. Newmarket and the Guinness, Epsom and the Derby, the Oaks and the St. Leger—there is the foundation upon which the thoroughbred horse of England has come and gone; empires have risen and fallen, and wars have raged and changed the map of Europe time and again, but these classics of the English turf have passed through it all with an unbroken record for continuity extending well over a century, during which they have been run and won and the victors accorded their place in the roll of honor of horsemanship.

## PHILIPPINES PICK TENNIS TEAM TO SEEK THE DAVIS CUP

Manila, April 25.—Francisco Aragon, tennis champion of the Philippines and Gil Flores were selected yesterday to represent the Philippines in the Davis Cup matches this summer. They will depart for the United States April 30 aboard the same ship with the Philippine independence mission.

## LADIES TO DECIDE BASKETBALL ISSUE

To-morrow night the final game of the City Ladies' Basketball League will be played, when the Victoria High School girls meet the Vancouver Island Athletic Association beauties in a tussle for the championship. This time up for competition for the first time and during the past season the teams in the league have battled royally for its possession. It now lies between the above two teams, both having gained an equal number of points in their fixtures.

## TOODLES II.

A Maltese poodle, which won first prize in the puppy class at the dog show on Saturday night. Toodies is owned by Mrs. J. P. Townsend, of 1979 Argyle Street, and is sired by Toodies I, winner of the first prize and special at the 1920 Provincial Exhibition.

## High School and V. I. A. A. Famine Quintette to Play-off To-morrow

The officials of the league decided last night to play a 24-game schedule. Two games will be played each week, one on Wednesday evening and the other on Saturday afternoon.

## GOOD-BYE, "SPUDS"

"Pip" J. Balagno was swinging a wicked arm in the morning bus Sunday baseball game at the Royal Athletic Park between the "Newspapers" and the "Balagno Pippins."

## GARRISON BASEBALL

The three indoor baseball games played at Wins Point yesterday resulted in a win for the following teams: P.C.L.L. No. 1, P.C.L.L. No. 2 and the Departmentals.

## OLD COUNTRY FOOTBALL.

London, April 25.—Results of football games played yesterday: Third Division—Southern Section. Northampton 0, Southampton 0.

## ROTARY FIELD DAY ON CARD TO-MORROW

Vancouver Clubmen Will Come for Football and Basketball Games

Lester Patrick's athletic Rotarians have the sport card to themselves to-morrow. In the afternoon the soccer teams of the local and Vancouver clubs will meet at the Royal Athletic Park in one of the games scheduled for the "Toddies" cup.

## REGRET LOSS OF OFFICIAL.

The league was greatly affected over the demise of ex-Mayor Robert Porter, who was a member of the Elks, a sportsman, and a clubman.

## BURMAN WINS DECISION.

Montreal, April 25.—Joe Burman, of Chicago, outpointed Marty Collins, of New York, all the way and was awarded the decision in a 10-round bout here last night. Collins was frequently staggered with blows to the jaw but always rallied gamely.

**PROSPECTORS TOLD WHERE TO GET GOLD**

The best places to find gold were described to members of the Vancouver Island Prospectors' Association at their meeting last night by G. E. Winkler.

He said the best districts for prospectors to strike it rich in are those of an intermediate character, between the large, smooth, unbroken areas of one formation, apt to be barren of minerals, and the badly broken areas in which formations are much mixed, likely to have high-grade ores that are bunched and irregular.

"Largest known mineral properties in British Columbia are below the timber line," said Mr. Winkler. "Formations are apt to be more uniform on the lower slopes of mountains."

"As one goes north the good ore bodies seem to be closer to the sea level. This might be accounted for by the fact that the areas adjacent to salt water were those prospecting first."

Prospecting secrets were given to

**SUNDAY CLOSING BENEFITS ADJACENT MUNICIPALITIES**

Branch Stores Reap Harvest in Sunday Sales Near City's Limits

Fines to Support Church Suggested in London

Sunday passed over, without the police point of view, almost without incident. The Sunday closing regulations were observed generally, with but one type of infraction. This, stated Chief Fry to The Times today, was the hawking of newspapers on the City streets by boys.

Districts Get Trade.

One of the features of the day was the closing of city branches of some stores, in favor of suburban stands by the same concerns. More than one city store opened a booth in Esquimalt, Oak Bay or Saanich, on the necessary permit and license to carry on trade. District municipalities are reaping a harvest in increased license fees for Sunday and other trading, and citizens are going outside of the city to buy their Sunday necessities. These stores handled tobacco, papers and candy, for the most part, and found a ready trade for their wares.

Buying their Sunday necessities, they took Councillor Litterally.

Taking the words of Councillor Dooley, of Saanich, at their face value, one city tobacconist opened a booth at the end of the Burnside car terminus, just a few yards beyond the city limits. Here a brisk trade was done in tobacco, papers and candy, the premises being patronized by the passers, many of whom came from the city in search of a store to make their purchases.

Councillor Dooley, when the city announced its intention of having the Sunday closing regulations enforced, stated that Saanich should remain open wide, and that the municipality would be glad to receive all who wished to carry on their living in that district.

Oak Bay and Esquimalt benefitted to a similar extent, many premises doing an active trade all day long. The closing of the stores had affected some of the stores seriously, and more than one of the proprietors now operating in the city have given word of their intention of vacating in favor of sites in the suburban districts.

Boys Reap Harvest.

Boys were active in street sales of outside newspapers. Vancouver and Seattle Sunday papers were sold in this manner by boys, who reaped a rich harvest, with the competition of the regular newsagent removed.

Some of the boys interrogated by the police produced proof that they were delivering papers to customers, which is permitted, stated Chief Fry. The trouble arose from the fact that the boys, or at least most of them, did not confine their efforts to delivering papers to customers, where no money transaction was involved. They sold their papers from house to house at the C. P. R. boats, and on the streets of the City.

The regular newsagents remained closed, with the exception of Buller's, which remained open on permission to handle baggage and fulfill its function as a restaurant. Yesterday the privilege of selling newspapers on Sunday was removed from the Buller Stand.

Church or Fine.

The alternative of going to church on Sunday or paying a fine is suggested by the Rev. Robert Forman, non-conformist minister, as a means of raising sufficient revenue "to run the country without plunging it into bankruptcy," says a London cable of to-day's date. Such legislation, he declared, would net £80,000,000 a year.

Dr. Horton's suggestion is said to operate on a law passed in the reign of Edward VI, when anyone obstructing himself from church "without lawful or reasonable excuse" was fined one shilling. The law was repealed, but re-enacted and rigidly enforced in subsequent reigns.

Congregations Failing.

The fifty or more churches in the square mile around the Bank of England contained congregations in those days, but few persons enter them on weekdays now except American tourists, and the Sunday congregations, Dr. Horton declares, "do not exceed a baker's dozen." The Bishop of London has even gone so far as to suggest that some of them be demolished and the valuable sites sold to the public, with which churches could be built in other parts of the city.

"Heart Softening" Influence.

This suggestion brought a deluge of complaints upon the Bishop, but strange to say, they were not from persons identified with church affairs. Almost without exception they came from financiers, who maintained that the sight of these old churches served a very good purpose in softening the hearts of "money-mad crowds," who gazed upon them as they hurried by.

**ESQUIMALT WILL HAVE GARBAGE SYSTEM IF COUNCIL WINS**

Necessary Tenders Are Accepted; One Protest

The Esquimalt Garbage By-Law last evening received its first and second readings, being a measure to provide for the municipal collection and disposal of garbage in the district.

The by-law passed these readings without amendment, and apparently unanimously.

The Council received a delegation from the Esquimalt Protective Property Owners' Association, in the person of E. H. Anderson, a past president who advocated that the Garbage By-Law was a mistake. Failing to shake the Council on this point Mr. Anderson held that the occupants of houses should be made to pay for the collection, and that it would be a mistake to give away anything free.

Free Service Unfair.

Obtaining leave to speak, E. H. Anderson devoted fifteen minutes to enlightening the Council on how the garbage system would affect the district.

"The Esquimalt Protective Property Owners' Association," he said, "considers it most unfair that the work of collection should be done gratuitously. A charge of twenty-five cents per house should be made, and more for a large house."

The Night Watch.

"You should have waited on the committee when they were considering this matter, Mr. Anderson," remarked Reeve Lockley.

"There will be more collection from vacant lots than from residential areas," supplemented Councillor Porter.

"Well, you ought to fine them, then," replied Mr. Anderson.

"Ought to stay up all night with a horned lantern and stop them, you mean," put in Councillor Porter.

"If the taxes go up by leaps and bounds in this way where will we be at the end of five years, besides this means a tax of nearly two mills more," returned Mr. Anderson.

Community Benefit.

"Not every year," interjected Councillor Pomeroy, "besides the garbage collection is going to make your lots more valuable. It was the installation of the sewer system that attracted the number of fine residences we now have in Esquimalt."

"It is a bad example to receive this benefit without paying for it," persisted Mr. Anderson, "give them this, and the will at once wait more."

"All this has been taken into consideration," advised Councillor Wilson, "besides this is a community problem and will be for by the community as a whole, benefiting the community at large. If we do not have the garbage collection they will be using your vacant lot, Mr. Anderson."

"Setting Bad Example."

"You are setting a very bad example," returned Mr. Anderson, "no gifts should be given to a certain class."

"You are mistaken, Mr. Anderson, there will be no gifts given," stated the Reeve. "Let us make some progress. We cannot do anything for the health of the community in Esquimalt is going to benefit, it is well worth while."

Association Displeased.

"Our association is strongly against the garbage collection system," contended Mr. Anderson, "most strongly against it." At this juncture Mr. Anderson withdrew, and the Council, after expressing its surprise that there should be any complaints over the project, passed on to other business.

The Council adopted its committee's report on the purchase of an air compressor, at \$1,420.10. The Ingersoll Rand tender was the lowest received, for new materials, being the only Canadian tender received, it was stated.

Grants.

A donation of \$250 was voted to the Esquimalt Friendly Help, on request, the Council expressing its appreciation of the work of that body.

A similar request for a grant, from the Esquimalt Board of Trade was met with failing. The Council will accept an invitation to visit the new mill, which Mr. Porter was devoted, he said, "his services in connection with the mill will be invaluable. In spite of his other pressing duties, he always found time to attend the meetings of the mill, and give them the support and the advantage of his personal efforts."

Authority for the Esquimalt lot for the purchase of a new car was secured, the prices of the purchases being \$81, \$187, and \$86 respectively.

Girl Guides.

An invitation from the Esquimalt Women's Institute, asking the Council to lend its to-operation to the inauguration of the Girl Guide movement, at a ceremony to take place at the Lamson Street School in the evening of May 5, received the support of the councillors, who will be present. Mrs. Walter C. Nichol, wife of His Honor the Lieutenant-Governor, will be asked to take the chair.

Miscellaneous.

The Expenditure By-Law received its final reading, and was passed. Similar action was taken with the Tax Rate By-Law, setting a total levy of 23.50 mills.

Tenders for a two-ton truck were opened, the successful bidder being the Federal agency, from whom a truck will be purchased with an automatic hoist, for the sum of \$3,950. Four tenders were received. The new truck will be used by the engineer's department, while a truck now owned by the municipality will be used for the collection of garbage.

The tender of the B. C. Sheet Metal Works for garbage cans at the rate of \$4 each was accepted by the Council from four offers. The cans are to be bought in 100 lots, with 900 required altogether.

A tender for the garbage body required for the Commerce truck of the corporation, to be used in the collection of garbage, was accepted by the Council to John Meston & Son.

Out of seven applications for the post of auditor to the district the firm of A. P. Griffiths & F. C. Holderness were successful, being appointed the auditors to succeed the late J. S. Floyd.

**COUNCIL PAYS HIGH TRIBUTE TO EX-MAYOR**

Adjourns Meeting Out of Respect to Late R. J. Porter

Out of respect for the memory of the late R. J. Porter, who shared in its deliberations and guided its debates for so many years, the City Council last night adjourned its regular meeting and passed the following resolution, moved by Alderman John Harvey, and seconded by Alderman R. W. Perry:

"The City Council having learned with profound regret of the decease of the late Mayor of Victoria, Robert John Porter, who had served as an alderman for the City for six years and as Mayor for three years, and who had in that period displayed unremitting energy and devotion in all branches of civic affairs. It is hereby resolved:

"That the Mayor and aldermen do hereby place on record their high appreciation of his excellent qualities as the Chief Magistrate of the City, his kindly interest in humanitarian organizations for the relief of the distressed and helpless citizens, both old and young, and of all matters that would promote the City's interest as they in connection with the Council tenders its sincere sympathy and condolence to the bereaved widow and family, and to all members of their fullest recognition of the late Mr. Porter's solicitude for the prosperity and progress of the City, and his prominent part since his retirement from commercial pursuits.

"And that as a mark of sincere respect that the members of the Council attend the funeral on Wednesday next, in a body."

Tributes to His Service.

Alderman Joseph Patrick, who unsuccessfully opposed Mr. Porter in the Mayor's elections in 1921, paid a warm tribute to the former Mayor. "Mr. Porter was at all times of distinction and always had a cheerful word for everyone," he said. "Victoria has lost a most valuable citizen—a man loved by the whole community."

Alderman Hayward recalled Mr. Porter's splendid work in connection with charities and the Children's Aid Society were two institutions to which Mr. Porter was devoted, he said. "His services in connection with the Society were invaluable. In spite of his other pressing duties, he always found time to attend the meetings of the Society, and give them the support and the advantage of his personal efforts."

"Different as the views of citizens may be from time to time regarding public questions, there is a common place which is attainable by everyone," said Mayor Marchant. "If actuated by the highest and most unselfish motives there is a common basis of action for all, and through this public action, there has been expressed a doubt as to the high motives which actuated Mr. Porter's actions. He worked always for the good of the community. I knew him personally. I knew him as a cheery friend, a likeable companion, a kindly soul. Although we sometimes disagreed in public issues, there was never at any time any personal rancor or hostility between us."

**OLD GOLD CHANNEL AT CEDAR CREEK**

(Continued from page 1.)

about on a level, to coincide with the Buller channel.

"Assuming this information to be correct, it would appear possible that the supposed channel found near lake-level was of a different origin from the gold found higher up Cedar Creek and described in a report received from L. A. Dodd, gold commissioner at Barkerville. If Mr. Dodd's information is correct, it would seem that the Lyne-Platt findings have not as yet been proved as a continuing channel. But if they are as a product of the 50-foot cut are even nearly correct, it would show over 400 cubic yard in this cut.

"These remarks are intended to give an idea of the possibilities of the section rather than actualities. The project for the work so far done."

Mr. Sloan quotes the report turned in by Mr. Dodd in which he explains that the discovery was made about 1 1/2 miles up the creek on its left bank and perhaps some 700 or 800 feet higher than the lake.

Mr. Dodd says the pits there two in number, about 50 feet long and 4 to 5 feet wide and less than 3 feet in depth. From them less than 100 lbs. of gold were obtained. The figures as to the product of the 50-foot cut are even nearly correct, it would show over 400 cubic yard in this cut.

Hydraulic Work Required.

"Shortly above the second pit from the creek the ground takes a sharp rise and so far no trace of the run of gold has been found in it, although a great number of holes have been sunk in all the draws in the neighborhood," Mr. Dodd says.

"An effort to drain some of this deeper ground made by the locators on the back locations is being carried on by digging the drain some five miles up the creek until the ground commenced to get over 6 feet deep after which no traces of gold were found. This drain starts in the Lyne and Platt ground.

"All the ground is very heavily covered by second-growth timber and one could only get around by following paths cut by prospectors and along the location lines. I followed these lines, but the ground was over 6,000 feet from the creek much farther than where any work had been done. It would appear to me that the overburden, with the exception of a short portion of the Lyne and Platt locations, runs all the way from 25 to 75 feet deep, which thickness of ground cannot be worked advantageously except by hydraulic mining. Lyne & Platt have been using hydraulic mining for over 6,000 feet from the creek much farther than where any work had been done. It would appear to me that the overburden, with the exception of a short portion of the Lyne and Platt locations, runs all the way from 25 to 75 feet deep, which thickness of ground cannot be worked advantageously except by hydraulic mining. Lyne & Platt have been using hydraulic mining for over 6,000 feet from the creek much farther than where any work had been done.
