# TO OUR CUSTOMERS

\* \* \* \* \*

IN presenting our Catalogue for the fall and spring of 1894-95, we desire to return our sincere thanks for the patronage bestowed on us by many customers in the United States during the past season, and trust that they will continue to favor us with liberal orders for the coming season. We also desire to assure those who have never dealt with us that we will in the future, as in the past, use every endeavor to comply with all demands in a prompt and satisfactory manner.

The rapid progress in our business has enabled us to increase our stock, so that we now carry a large and beautiful variety of foliage, flowering, and decorative plants, including very old and rare dwarf trees, all in fancy pots. Customers and their friends are cordially invited to inspect our many curiosities on visiting our nursery.

The stock herein offered is of the best quality in all respects, true to name, and free from insect pests, and well worthy the attention of dealers and nurserymen.

Our collections are carefully examined every year, and such things as seem to have little or no value are discarded. In this way we offer to our customers assortments which we can recommend with the greatest confidence.

We take the utmost care in executing orders, and pack in a manner to insure safe arrival, but it must be distinctly understood that our responsibility ceases with delivery of goods to forwarders, be it by steamer, railroad, mail or express.

Complaints of whatever nature must be made within a week of receipt of goods. Otherwise they will not be taken cognizance of.

As we have full descriptive Catalogues of our head store at Yokohama, Japan, we shall be very glad to furnish them to those who desire to import direct from Japan.

## Please Read Carefully before Making Out Your Order.

Unknown correspondents desiring to open an account will please furnish *satisfactory reference*, otherwise order must be accompanied with *cash*.

No C. O. D. orders filled excepting for well-known customers.

Remittances should be made by Bank Draft, Postal Note, P. O. Money Order on Oakland Post Office, Express Order, or by Currency in Registered Letters. Money in unregistered letters is at sender's risk; we cannot hold ourselves responsible.

No charges are made for boxes, packing, or for delivery to Freight Depots or Express Offices in Oakland or San Francisco.

When ordering, please use the Order Sheet enclosed, and write name and address very plainly.

Parties ordering are requested to give explicit shipping directions. When no route is designated we exercise our judgment.
