Invest in an Idea

Intensive Personalized Wiki Training

To provide support to communities and individuals based on their need

- Personalized support and training
- Utilization of community members' expertise and skill as resource person or trainers
- Enabling exchange of knowledge and experience among Wikipedians

Regional TTT & MWT

Regional (smaller/mini) edition of the TTT and MWT program conducted in different cities of India

- Conducted as follow-up of the main event
- Increasing expertise of active editors
- Building technical resource persons to resolve technical issues
- Developing strong relationships between the offline and online Wiki Communities

Wikisource

Wikisource Conference India

- Common platform for all Indian Wikisourcers to meet and share their views, discuss challenges and exchange useful tips, best practices
- Primarily deal with issues relating to Indic Wikisource

Wikisource work in libraries

- Partnership with 8 libraries/archives and one librarians' association
- Making original reference material available on Wikisource to enhance the quality and authenticity of knowledge

Strengthening Existing Community

- Capacity building of existing Wikisourcers by building both individual level and community level support system

Telugu Wikisource Sprints

- Conducting sprints & workshops aimed at participants who can already type in Telugu, are interested in literature and have enough time to contribute, to expand the Telugu Wikisource community
