FUKUI NURSING AFFAIRS ACTIVITY REPORT

MAY 1949

Obama Public Hospital and Tsuruga Public Hospital expect to have Class "B" Nursing Schools next year. Obama Hospital will be able to qualify with some slight re-organization. Tsuruga Hospital will not be able to qualify as the daily average of patients is only 50. They were therefore advised not to admit any additional students this coming year.

A meeting was held with School Nurses and Student Health Committee members to discuss their duties and relationship. About forty persons attended the meeting.

A meeting was held with the chief nurse of the Health Centers to discuss the reports that will be reported during the coming month and their part in the re-registration program for all nurses.

The Red Cross Hospital and Fukuiken Central Hospital were visited in connection with Class "A" Nursing schools. The Director of the R.C. Hospital had found that his standards do not at the present time come up to the new requirements. This has been a source of disturbance to him and he was interested in remedies for the conditions. The Central Hospital falls far short of many requirements for any type of training school. The patient load is 130 but 100 of them are mental patients. The general set-up of the hospital is poor. The principle chief nurse is its only accrediting feature. As the Kencho is planning on taking over the administration of this hospital next month, recommendations were deferred until administrative matters are cleared up.

WEEKLY ACTIVITY REPORT

Week Ending 21 May 1949

PUBLIC WELFARE SECTION

Prepared and submitted by Sgt I/c Donald C. Kemp

I. ACTIVITY FOR THE WEEK:

1. Inspection of Institutions:

a. Two Fukui City institutions were visited and two private institutions in Ono Town.

b. The new Child Welfare center which opened 5 May was visited. A plan was drawn up to improve the recreational facilities.

2. Disaster Relief:

a. A visit to Goka village, scene of a fire which rendered 14 families (87 persons) homeless, was made to substantiate initial reports and survey relief measures taken. The Prefectural Welfare Department has furnished, to date, sufficient clothing, cooking utensils, bedding, food, and tents for temporary shelter without cost. Neighboring communities collected ¥100,000 and 30 bales of rice for distribution to the homeless.

b. The extent of destruction is not sufficient to warrant national aid under the disaster relief law and relief measures are the responsibility of the local government. The needed items supplied by the Prefecture were in accordance with the list submitted by the local Mayor and only male clothing was requested as it was considered the most practical for all under the circumstances.

c. It is believed that prompt relief measures taken by the village and Gun office are sufficient to alleviate any undue hardship for the homeless. The greatest need is for loans to rebuild the homes, and the local office has already taken the necessary steps.

3. Public Assistance:

a. Administrative review- Shikaura
b. Inspection of welfare workshop - Shikaura

4. Relief in Kind:

a. A conference with the Prefectural LARA Distribution committee was held to discuss a special distribution of LARA clothing.

Report Prepared and Submitted by: Mr. H. W. Blake

I. Activity for Week:

1. Youth day took most of our attention this holiday riddled week. Monday and Tuesday were orientation and plans with the elections held Tsuesday afternoon. Wednesday 69 children took over jobs in the Kencho, the Board of Education and the Police administration. The job was very effectivelydone. It was demonstrated again that the most aggressive and progressive children are turning to communism. I am told that 9 of 69 delegates are known, active communists.

2. At the Board of Education meeting Friday a resolution was passed directing the superintendent to make all necessary arrangement to put each senior high school into one building (they now occupy as many as 4). Both the subject matter of this resolution and the procedure in handling it represent victories for Military Government.

3. During an interesting and profitable trip to Kyoto I learned nothing of value.

II. Next week

1. Finish survey of senior highs.

2. Observe ~~enlmer~~ physical examination program.

3. Start study of Junior high situation.

WEEKLY ACTIVITY REPORT

PUBLIC HEALTH SECTION

Week Ending: 30 April '49

Report Prepared and Submitted By: Sgt. Robert D. Houck

I. Activity for Week:

a. Conference was held with Miss Ulmer, PH Nurse of Ishikawa MGT, Miss Kamiya, Chief Nurse of Ken Health Dep't, Chief of Ken Health Section, and a PH nurse, teacher of coming PH Nursing Course, on the subject of " reorganization of nursing schools in this prefecture".

Fukui Model Health Center was on Tuesday visited by Miss Ulmer and the clinic schedule was found to be inefficient. It was recommended that a new schedule be adopted.

b. From the viewpoint of industry hygiene, the Toyo Spinning Factory and the Hinode Spinning Factory, both in Tsuruga City, were inspected by this section. Their working places, clinics, dormitories, kitchens, etc. were well managed, especially the former factory showed the excellent equipments. The only problem was the bed-bug control method. A guidance was given to exterminate the insects.

c. The National Tsuruga Hospital has a detached clinic in Tsuruga City. The clinic has gradually received increasing patients, so that it is now suffering from the lack of doctors. The reason of doctors' shortage lies on the fact that the salary of the personnel of the National Hospital is much smaller than that of public hospital personnel.

d. The 35th Station Hospital was visited to pick up and receive smallpox and typhoid vaccine.

II. Proposed Activity for Following Week:

a. Dependent Housing, CIC, MG office building, quarters and kitchen will be sprayed with DDT next week.

b. The Japanese doctors of this section will be sent to the general conference meeting of the Japan Public Health Reaerch Association to be held in Tokyo.
