We deliver free by express or parcel post (our option) to any Express Office or Post Office in the United States **Seeds** quoted by the ounce and quarter-pound. **Bulbs, insecticides, fertilizers, and sundries** are at the buyer's expense. We make no charge for boxes or packing, and deliver free to all expresses or freight depots in Boston.

It will be helpful to our customers as well as ourselves to **have orders placed early**. All orders will be filled to the best of our ability, subject to harvest. **Use our order sheet**, if possible, as it will save us time after its receipt. **Write your name and address complete and plainly** each time you write us, to avoid delay and missent goods.

Our policy is to make shipments promptly, though it is difficult as the season reaches its height. All shipments are packed to withstand ordinary transportation conditions. In case of accident, sign for the shipment as "**damaged**" and have your delivery agent note the damage. Notify us instantly. Our responsibility ceases when we take an express or railroad signature.

Note. Where cash accompanies order we allow a 5% discount on Flower Seeds and 3% on Bulbs. Otherwise the prices are not subject to discount. All other items such as Fertilizers, Insecticides and Sundries are net, and are not subject to discount. **They are subject to change without notice.**

QUALITY BULBS

We spare no effort to secure the best that the market affords at home and abroad so our customers, in turn, can expect to receive the equal of any bulbs offered to the trade. Our prices are consistent with the quality furnished. **The prices, however, are subject to change without notice.**

Please bear in mind that we buy each kind of bulbs from growers who are specialists; there being no grower who is supreme in all kinds and varieties. Our stock, therefore, representing the best choice, is superior to much that is offered and second to none regardless of price.

Remember that we quote F.O.B. Boston and there are no uncertain packing, brokerage, drayage, and incidental expenses, and the vexatious delays frequent at the port of entry are entirely eliminated. Our importations are large and direct so we can serve you better in every way than foreign growers.
