THE NORTHERN MAIL failed yesterday from Richmond and Charleston.

NICARAGUA.

The New York mails bring us the full particulars of the intelligence received per steamer *Texas*, and which was transmitted here by telegraph a few days ago. These advices are almost literally identical with the telegraphic dispatches. To reproduce them would simply be a repetition of what has been already published. As far as they go, they certainly imparta most favorable coloring to the prospects of Gen. WALKER. If he has really defeated a large body of Costa Ricans at Virgin Bay, Gen. CANAS has raised a force at Leon, and is on the march to join WALKER; if STEBBINS, the agent of VANDERBILT, has left the city of Leon, Col. LOCKRIDGE is in complete possession of the chief strategic points on the San Juan river, has 500 men under his command, and is entirely confident of success—in short, if the news furnished by the master of the *Texas* to the New York press can be relied upon as substantially correct, we are bound to conclude that a very important change has occurred in Nicaraguan affairs, and that WALKER is again on the high road to victory.

We are glad to ascribe to give both sides of the story. We fervently desire the success of WALKER, but we cannot consent to wish ashes father to our thoughts. The New York papers publish conflicting statements made by passengers on the *Texas*. Mr. EDWARD AVERY, volunteers from which we extract the following:

[illegible] brought down twenty recruits [illegible] for our Walker, under the command of Captain Chatfield. When they left [illegible] Granada, and Major Turey [illegible] commanded them, telling them [illegible] Costa Ricans were in the neighborhood [illegible] attack them at any moment. [illegible] Ex PRESIDENT RIVAS.—The *Texas*, Capt. Crowell, arrived this afternoon from New San Juan del Norte, where she [illegible] and thirty men, under [illegible] of Major Cooper, for the re[illegible] she was found to be on fire; the flames were fortunately extinguished before any damage was done. The fire was evidently the work of an incendiary.

The Baton Rouge *Advocate* learns that the cold weather of Sunday night has killed the cotton at Manchac, and greatly damaged the corn and cane.

The following, says the *Advocate*, are the offices to be filled at the coming November election: Treasurer, Auditor, Superintendent of Public Education; and the names of the following gentlemen have been mentioned as candidates for said offices before the Democratic State Convention:

Treasurer—Robert Bourgeois, of St. Landry; Robert Buster, of Rapides; David A. Randall, of Ascension; Wm. Mundy, of East Feliciana.

Auditor—S. F. Bayne, of Jefferson; W. Robertson, of Iberville; Dr. Dubbs, of Ouachita; H. Higgins, of New Orleans.

Superintendent—J. McConnell, of Natchitoches; J. R. Wederstrandt, of Terrebonne; Rev. Mr. Cassidy, of Jefferson; A. W. Ball, of Baton Rouge: Dr. Mix, of St. Landry; A. N. Booth, at present Assistant to Dr. Bard.

Dispatches from Washington, of the 2d instant, says:

William A. Harris, of Me., has completed his arrangements for purchasing the office and proprietorship of the Washington *Union*, to take effect on the 15th inst. He was formerly a representative in Congress from Virginia, and ward Minister to Buenos Ayres, and was favorably known as the editor of the Richmond *Union* and the *Spectator*, formerly published in this city.

Although Mr. Appleton has not yet been appointed, there is little or no doubt that he will succeed Gen. Thomas, as Assistant Secretary of State.

Washington correspondents say that the Administration has definitely resolved to appoint a special Minister to China, to proceed to the American Coast as soon as Congress adjourns, the British attack on Canton.

The *Advocate* states that agents of both Spanish and Mexican governments are perfecting provisions and war munitions in aid of the Spanish invasion of Mexico.

THE FREEZE in Vicksburg on Sunday night has produced serious injury to the crops and gardens. The *Whig* says:

Every description of tree vegetation has been killed amongst Gene [illegible] to-day [illegible] young cotton has been [illegible] Corn has been cut down and probably [illegible] while the fruit crop is entirely ruined. Altogether, the effects of the freeze will be most disastrous to the agricultural interest, but the loss of the fruit is irreparable; other crops may be replanted, and to-day time the heart of the farmer is cheered with an abundant harvest, but for the fruit there is no remedy—there is no replacing of that.

LOUISIANA ITEMS.

The Bayou Sara *Constitutionalist* says:

On Sunday night last, a Mr. Tucker, from Franklin parish, committed suicide, at the China Grove Hotel, by hanging himself to a bed-post with a silk handkerchief. Mr. Tucker had been deranged, we learn, for several weeks, and was on his way, in charge of a friend, to the lunatic asylum in Jackson. As he had attempted upon several previous occasions to destroy himself, the gentleman who was with him remained awake until a late hour, watching him, but finally dropped to sleep; when he awoke, he found the unfortunate man hanging to the bed-post. In the morning the obstinate stains produced by printer's ink, said is the only kind of saponaceous compound that will effect this object. Messrs. DAVIS, KENDRA & CO. assure us that they can afford these articles at cheaper rates than the Northern manufacturers. We are always glad to chronicle the progress of home industry, and cheerfully recommend the soap manufactory of New Orleans to public patronage.

New Books.—Our thanks are due the publishers, through J. C. MORGAN, Exchange Place, for the following new books:

Virtis, or the Secret of Power. T. B. Peterson, publisher—one of Mrs. Southworth's fascinating and beautiful stories, full of power, and strong characterization, and with a pervading sense of moral and religious feeling. It will be read by every body.

Cotton Planter's Manual, by J. A. Turner-Saxton & Co., publishers. This is a compilation of facts from the best authorities, on the culture of cotton. It is crowded with valuable information, and will, of course, be eagerly studied by the planters of the South.

London Quarterly Review for January. A very good number.

LATER FROM PANAMA.

The following intelligence from the Isthmus is furnished by the N. Y. *Times*:

It was commonly reported at Panama that it was the intention of the natives to celebrate the anniversary of the massacre of the 15th of April, and fears were entertained that, in case this scheme should be carried out, there would be a renewal of the bloody scenes of that day. The French Consul has openly criticized the conduct of Americans in connection with that affair, casting the blame upon the California passengers, and exculpating the natives. This would, it was thought, not assist a peaceable termination of the affair.

The sloop of war *Decatur* and frigate *Independence* were lying in the bay of Panama, and an American man-of-war at Aspinwall.

The same paper has a letter from its Panama correspondent, dated March 22d, in which he says:

The French papers are disgusted at the head of the Bay. Her Majesty's ship Calcutta is at the West. The U. S. ship Lancaster is also in the harbor. Small steamers are stationed by the government above the harbor at night.

In consequence of a report brought in by the steamer *Orizaba*, from *Lady*, that a number of banks and make-boats were off Lighthouse Point and attempted to intercept her, the United States steamer San Jacinto had gone out to look after them.

The want of a steamer to cruise constantly in the neighborhood is now much felt, there being none available for the service at present.

THE AMERICANS.

Commissioner Yail had addressed Dr. Parker, the United States Minister, asking him why he has not ordered American men-of-war and American shipping of war away from Hong-kong, to be ready for any present eventuality. We have not heard of Dr. Parker's reply to this.

There was a report from Shanghai that an Imperial Commissioner from Pekin was expected to come down here shortly to arrange matters at Canton. This is premature.

A letter General, with about sixty steamboats, came down the river on the 16th inst., and was followed by the Governor, Admiral Seymour, and Consul Parkes, and went on at once to Canton via Macao, passing through this place unseen by the Chinese.

At Canton Admiral Sir Michael Seymour, owing to the formidable mode upon him for the security of the place, has taken up a position in the Dutch Folly, and Consul Parkes, and Commissioner Yeh, with the Tartar General, have taken up a position in the Honam Fort in the Honam suburbs, to be out of the way of all the shells that may be thrown over the river and by the Chinese. Should the Chinese think the Consul and Admiral are making preparations to attack them, they will probably remove to the Honam Fort, and the Admiral will be able to demolish both Fort and Yeh's residence.

The Admiral and Consul have issued a proclamation, calling upon the Chinese to remain quiet, and promising that no attack will be made upon them, unless they commence hostilities. The Admiral has also issued a proclamation, declaring that the blockade of the river will be raised on the 1st April, after which date all vessels will be allowed to enter and leave the river and port as usual.

The Admiral, Consul, and Commissioner Yeh, with their respective suites, are residing in the Honam Fort, and the Admiral has his flag flying from the flagstaff there.

The Chinese have been busily employed in strengthening the defences of the Honam Fort, and have mounted a number of guns on the walls, and have also thrown up a breastwork of mud in front of the fort, and have mounted guns on it.

The Admiral has also taken up a position in the Honam Creek, with the Hong-kong fleet, consisting of the Royal Navy steamers *Calcutta*, *Sampson*, *Hornet*, *Bittern*, *Coromandel*, *Pluto*, *Niger*, *Encounter*, *Inflexible*, *Nimrod*, *Acorn*, *Starling*, *Cormorant*, *Leven*, *Dove*, *Fury*, *Actaeon*, *Barracouta*, *Espiegle*, *Fantome*, *Hesper*, *Opossum*, *Rattler*, *Reynard*, *Staunch*, *Surprise*, *Vixen*, *Wasp*, *Woodcock*, *Haughty*, *Janus*, *Lee*, *Magpie*, *Medusa*, *Nankin*, *Pelican*, *Plover*, *Ringdove*, *Sparrowhawk*, *Starling*, *Sybille*, *Tribune*, *Vulcan*, *Waterwitch*, *Woodlark*, *Wrangler*, *Zebra*, *Zephyr*, and *Zoroaster*
