AMERICAN SEAPLANE N. C-4 ARRIVES SAFELY AT HORTA, AZORES, FROM NEWFOUNDLAND DEPARTURE POINT

First Leg of Trans-Atlantic Flight Completed This Morning; N. C-1 and N. 3-C, Not Reported Arrived Yet; May Be Proceeding Farther

Washington, May 17.—The American naval seaplane N. C. 4, under Lieut. Commander Albert C. Read, has attained its first objective in the trans-Atlantic flight, having landed safely at Horta, Island of Fayal, Azores, at 9.20 o'clock this morning, Washington time, after winging its way from Trepassey Bay, Nfld., in 15 hours and 13 minutes.

The original plans were for the planes to land at Ponta Delgada, and it may be that the N. C. 1 and N. C. 3 will continue on to that port, which is about 150 miles east of Horta.

An intercepted message from the N. C. 3 received at Horta at 5.15 a. m., Washington time, read: "We are off our course somewhere between 17 and 18 (station ships)."

Another message relayed to the Department was one from the N. C. 4 sent at 7.25 a. m., Washington time, saying she had sighted land. It read "We have just picked up land again. Think it is Pico."

The N. C. 4, in charge of Commander Read, reached Horta several hours ahead of the schedule time, officials having estimated that twenty hours would be required for the seaplanes to reach Ponta Delgada.

The N. C. 4 was the "lame duck" of the division from the time it started from Rockaway Beach, L. I. Three of the four Liberty motors which drove the ship to the Azores were installed.

Commander Read was forced to land at Chatham Light, Mass., on the first leg of his flight to Newfoundland. He remained at the station for several days repairing. He again was forced to make a landing on the way from Halifax to Trepassey to make repairs, and at Trepassey another new motor was put in the plane before it started overseas.

While the performance of the N. C. 4 is viewed as the most spectacular aviation achievement in the history of heavier-than-air craft, Commander Read has not equaled the American record either for duration or distance in seaplane flying.

On last April 25, Lieut. Commander H. B. Grew piloted the navy seaplane F-5 for twenty hours and ten minutes in a continuous flight in the vicinity of Hampton Roads, covering a total of 1,250 miles.

Ponta Delgada, Azores, May 17.—The American seaplane N. C. 4, which reached Horta this morning, sighted land at Horta at 11.35 a. m. The N. C. 1 then was close behind her. The N. C. 3 passed station 17 at 9.15 o'clock.

Ponta Delgada, Azores, May 17.—(Associated Press).—The seaplane N. C. 4 arrived at the port of Horta, in

Hawker and Raynham Ready for Non-Stop Atlantic Flight

St. Johns, Nfld., May 17.—Announcement was made here this morning that the two British aviators, Frederick P. Raynham and Harry G. Hawker, in all probability would start their trans-Atlantic aeroplane flight this afternoon.

GERMAN DEMONSTRATION.

London, May 17.—There was a mass meeting outside the headquarters of the United States Mission at Hamburg, the terms of peace being denounced, according to a Berne dispatch to the Exchange Telegraph.

TELEGRAPHERS AT WINNIPEG WALK OUT, SWELLING RANKS OF THOUSANDS ON STRIKE

Winnipeg, May 17.—At noon the Winnipeg telegraphers employed by the three commercial telegraph companies and brokers and the Canadian News operators joined the general strike.

A message sent out to all commercial telegraphers in Canada today by Chairman A. Robinson, of the local telegraphers' strike committee, contained the request that no telegrams originating in or destined to Winnipeg, except death, returning soldiers' or Government messages on matters relating to the strike situation, be transmitted.

EQUAL PENSION SCHEME IS URGED

Ontario Branch of Great War Veterans' Association Passes Resolution

Windsor, Ont., May 17.—That the pensions of soldiers of Canada of various ranks who fought overseas should be equal is the subject of a resolution passed in the closing hours of the convention here of the Ontario branch of the Great War Veterans' Association last evening.

That the men who had served as privates had made greater sacrifices than others fortunate enough to catch the eye of the Government and gain commissions was asserted by the mover and seconder of the motion, which even had the support of delegates who once held the rank of major.

The Government will be requested to grant a minimum pension of \$1,000 for total disability.

GREATLY DESIRE TO RETURN HOME

Chief Desire of Americans in Europe to Get Back, Says Daniels

New York, May 17.—"The uppermost thought in the minds and hearts of all the American soldiers across the sea is a burning desire to come back home," said Secretary of the Navy Daniels, who returned here today from Europe.

He declared the navy's building programme would be carried out in detail unless interfered with by the provisions of the League of Nations.

Washington, May 17.—President Wilson's message to the extra session of Congress was in the hands of Secretary (Frankly) today, having been received over the cables during the night.

ALLIED LEADERS DECIDE AUSTRIA MUST GIVE A SUM ONE-TWENTIETH AS LARGE AS GERMAN INDEMNITY

IS TO LEAVE FOR LONDON MONDAY: HON. J. W. DE B. FARRIS

ATTORNEY-GENERAL TO GO TO ENGLAND

Hon. Mr. Farris Will Argue Important Cases Before Privy Council

Hon. J. W. de B. Farris, Attorney-General and Minister of Labor, will leave the city on Monday afternoon on his way to London, England, where he will appear before the Privy Council in several cases in which Provincial interests are seriously involved.

One of the cases which Mr. Farris intends to argue before the Privy Council is the case for the Province in the E. and N. Railway vs. Treat, which is a matter of vital interest to British Columbia.

Two other cases are the Esquimalt and Nanaimo Railway Company vs. Dnuolop and the Esquimalt and Nanaimo Railway vs. Wilson and McKensie (Gannet Estate).

Cobalt, Ont., May 17.—With the exception of the postoffice, Todd's drug-store and the Crown Timber Agent's Office, the block in South Foregung bounded on three sides by Bruce, Golden and Bloor Avenue and on the fourth side by a lane, was wiped out by fire early Thursday afternoon.

LIST OF SAILINGS AND SOLDIER PARTIES ARRIVING.

Revised to Noon, May 17. The C. P. R. Special 737, from the S. S. "Royal George," left Fort William, Ontario, 7.20 a. m. on May 17, with 3 officers and 143 other ranks for this district.

Congress Arrangements Call for Austrians to Present Credentials to Allied Representatives at 3.30 Next Monday Afternoon

Paris, May 17.—The indemnity clause of the Austrian peace treaty provides for a payment one-twentieth as large as that demanded from Germany. The sum asked for is 5,000,000,000 gold marks without bonds (approximately \$1,250,000,000).

The exchange of credentials between the Austrian peace delegation and the representatives of the Allied and Associated Powers will take place Monday next. The function is set for 3.30 p. m.

ITALY DROPS HER CLAIM TO DODOCANESUS ISLANDS IN FAVOR OF GREECE'S CLAIM

Paris, May 17.—Italy has relinquished her claim to the Dodecanesus Islands, off the Asia Minor coast, in favor of Greece. This ends one of the most acute controversies before the Peace Conference.

Premier Orlando, Count Macchi di Cellere, Italian Ambassador to the United States, and Colonel E. M. House, of the American peace mission, today continued their conference, looking toward a settlement of the Adriatic question.

CERTIFICATES FOR GOODS FROM GERMANY

The Hague, May 15.—Delayed—The Netherlands Overseas Trust has abolished importation certificates beginning today, except on goods imported from Germany through Switzerland.

Sir Robert Borden to Sail To-morrow on Return to Canada

Ottawa, May 17.—Official notification has been received here that Sir Robert Borden and Hon. Arthur Meighen, with party, will sail to-morrow from Southampton for Halifax. They will come on the Aquitania.

STRATEGIC POINTS IN AREA OF SMYRNA HELD BY ALLIES

Paris, May 17.—Allied naval forces were landed at Smyrna on Wednesday, it developed in advices received today from the Near East, where military moves are being made in anticipation of the making of peace with Turkey.

Vienna Report Says Galicia Divided for Poles and Ukrainians

Berlin, May 16.—Via London, May 17. (Associated Press).—According to the agreement reached between the Poles and Ukrainians through the good offices of Entente representatives, the demarcation line between the two forces in Galicia has been drawn between Lemberg and Przemyel, according to a Vienna dispatch to the Vossische Zeitung.

JULIUS KAROLYI SETS UP A GOVERNMENT IN HUNGARY

Basel, May 16.—Count Julius Karolyi, a nephew of Count Michael Karolyi, former Premier of Hungary, has set up a Government in opposition to the Budapest Bolshevik Government at Arad, Hungary, Vienna newspapers say. He has issued a manifesto declaring it to be his first duty to restore law and order and then transfer the administration to a Government possessing the confidence of all parties.

CHARTING OF AIR COURSES WAS PLANNED

Secretary Daniels Says American Atlantic Flight Not Competitive Affair

456 Loops Made by American Aviators; New Record Set Up

Washington, May 17.—Making 456 consecutive loops during a flight lasting one hour and fifty-four minutes, Lieuts. Ralph J. Johnson and Mark R. Woodward set a new world record yesterday at Carlstrom Field, Arcadia, Fla. A Laperre two-seated fighting aeroplane was used.

Rioting in Stettin; Roads and Railways Occupied by Mobs

Berlin, May 16, via London, May 17. (Associated Press).—Serious rioting occurred in Stettin on Thursday night, according to The Lokal Anzeiger. A crowd stormed the prison there and attacked the barracks. It is believed that all roads and railways leading into the city have been occupied by the leaders of the mob to prevent the arrival of reinforcements for the Government troops.

PRINTERS MAY STRIKE
Portland, Ore., May 17.—The union printers employed on the daily newspapers of Portland held a meeting late yesterday at which the question was considered of calling a strike to enforce a demand for an increased scale of pay approximating \$1.00 an hour. The sentiment at the meeting, it was said, was strongly in favor of the strike demand, and a telegram was sent to international union headquarters asking for sanction for the proposed measure.

LIQUOR AT REGINA.
Regina, May 17.—At a meeting of the Regina Clinical Society a proposal was endorsed that liquor should not be prescribed unless compounded with other drugs.

CASH WANTED.
Saskatoon, May 17.—The local branch of the G.W.V.A. last night passed a resolution in favor of a cash bonus system in place of land settlement. The resolution was passed almost unanimously.

FUTILE ATTEMPT TO RESCUE CASTAWAYS

Barquentine Tried to Take Men From Flint Island, Polynesian Group

San Francisco, May 17.—A South Seas mystery, involving the fate of an unknown number of castaways on Flint Island, a bleak, uninhabited spot in the Polynesian group, was related here yesterday by Captain Eldswag, master of the barquentine Alta, from Melbourne, Australia. The captain said he nearly sacrificed one officer and seven men of his crew in a futile attempt to reach the island in a lifeboat. Because of treacherous cross-currents, Captain Eldswag was compelled to abandon his attempt at rescue of the marooned persons, and sailed away two days later.

The attention of the Alta's crew was first drawn to several smoke and fire signals on the island. Through the ship's glasses, Captain Eldswag said, several persons could be discerned on the island. That night the ship displayed several flares in response to a large fire signal on the island.

Boat Capsized.
The next morning a mate and seven men set out in a small boat, but owing to reefs and cross-currents were unable to make a landing. On the return trip the boat capsized, and its occupants were rescued with difficulty.

During that and the succeeding day Captain Eldswag made several attempts to draw in to the island, but failed.

Flint Island is far out of the trade routes, and the Alta found herself in those latitudes only as a result of having encountered a storm.

Local shipping men say that more than eight shipwrecks occurred in that region within the last year.

GUilty OF MURDER.
Moose Jaw, May 17.—Walter Edward Bromley was found guilty here of the charge of having murdered his five little children on the night of September 17 last. Immediately following the verdict, which carried with it a rider for mercy, Mr. Justice Lamont sentenced Bromley to be executed on August 21 next.

GENERAL PERSHING TO VISIT LONDON

American Commander-in-Chief Will Be Guest of Government

Washington, May 17.—General Pershing, according to plans announced to-day, will leave Paris on May 22 on his trip to London, where he will be the guest of the British Government and will review American and British troops. The American Commander-in-Chief will cross the Channel on a British destroyer and

GENERAL PERSHING.
will go from Folkestone to London on a special train. The General and his party will return by way of Brussels, where a big celebration will be held May 24. General Pershing will then go by automobile to the large American cemeteries at Beaumont and Romagne to attend a service on Memorial Day.

Summery Outer Garments For the 24th

OCCUPATION OF MEMEL EXPECTED

British Squadron is Lying Off That East Prussian Town Now

London, May 17.—A British squadron is anchored outside Memel, East Prussia, close to the Russian frontier, and a British force is expected to occupy the place in a few days, according to a Copenhagen dispatch received last night by the Exchange Telegraph Company, quoting Berlin advices.

Riga Region.
Paris, May 17.—The Germans, by their imperialistic manoeuvres in Latvia and Lithuania, are retarding any concerted campaign against the Bolsheviks in the region of Riga, and southward, according to the Warsaw correspondent of The Times. The effect of the coup at Libau, where the Germans overthrew the Lett Government, has paralyzed the anti-Bolshevik activities of the Letts and prolonged the domination of Riga by Soviet forces. Latvia, the correspondent asserts, is politically and militarily under the influence of the Germans.

The presence of German troops and German agents in Lithuania, it is added, is holding up Polish military activities against the Bolsheviks.

The correspondent urges the necessity of compelling the withdrawal of the German troops as fast as possible, asserting that there is no military reason for their presence.

A Bolshevik Claim.
London, May 17.—A Vienna dispatch to the Exchange Telegraph last evening said that according to a Hungarian official agency dispatch, Tschischer, the Bolshevik Foreign Minister of Russia, had telegraphed to Bela Kun, head of the Soviet Government of Hungary, that the Ukrainian Red Army had defeated the Rumanians along the Dnieper River and had crossed the stream, the Rumanians taking flight.

COL. CHURCHILL ON TRADE PREFERENCE

London, May 17.—(Reuter's)—Rt. Hon. Winston Spencer Churchill, Secretary of State for War, said in the Commons yesterday that he did not consider the proposal to give the Dominions a rebate on existing duties raised the general free trade issue. Referring to the statement "The door is banged, bolted and barred against taxation of foodstuffs," he said he always considered that a rebate of existing duties stood on an entirely different plane. If it removed taxation from food, it would certainly not add to the cost of living or in any way burden the British people. It should not be treated as a question of principle, but as a measure of Imperial diplomacy designed to express the warmth of the nation's gratitude to the Dominions for their assistance in the war. The Dominions wanted this rebate and the British would be wise to concede it while keeping the great body of doctrine and practice intact.

SUNDAY BASEBALL IN STATES IS ATTACKED

St. Louis, Mo., May 17.—Reports of committees on various church activities, including recommendations striking out at Sunday sports and amusements, and routine business marked the third day's session of the 131st General Assembly of the Presbyterian Church in the United States to-day. Unqualified condemnation of "desecration of the Sabbath" through the legalization of Sunday baseball games and motion pictures shows was contained in the report of the special committee on Sabbath observance, which recommended that a determined campaign be carried on to bring about a "Christian Sabbath."

VETERANS INTERVIEW

OTTAWA MINISTERS

G. W. V. A. Delegation Asks More Extended Aid for Returned Men

Ottawa, May 17.—A delegation from the Dominion command of the Great War Veterans' Association, accompanied by members of the House of Commons who saw active service in the war, interviewed Sir Thomas White and Major-Gen. Mewburn yesterday afternoon. The veterans were represented by Major Andrew, M. P., C. G. McNeill, Dominion Secretary, R. B. Maxwell and Col. Margeson. Members of the House present were Gen. Griensbach, Col. Lang, Major Redman and Captain R. J. Manion.

The questions discussed by the deputation were: Extension of the post-discharge gratuity to classes not now included; problems relating to the demobilization of the Canadians who served in Imperial units; pensions and other matters.

The proposal of a further post-discharge bonus, running from \$1,000 to \$2,000, which has been urged by a section of the Great War Veterans' Association, also was brought up. Members of the delegation stated afterwards that they considered their reception to have been distinctly favorable.

Consideration Promised.
Sir Thomas White promised early consideration by the Cabinet of the questions. In regard to the proposal of a further post-discharge gratuity, however, he observed that according to the estimate submitted it would entail an expenditure of \$50,000,000. This, Sir Thomas said, obviously was impossible of favorable consideration.

Sir Thomas added that in connection with this proposal it was overlooked that the expenditures of the Government for the present year would be almost as great as they were for the last year of the war. The expenditure for the reconstruction programme of the Government, which was designed to provide employment throughout Canada, together with the gratuity to returned men, would alone require \$125,000,000, and with the cost of demobilization would make the current expenditure total over \$500,000,000 for the year.

DECISION AGAINST A MOONEY STRIKE

San Francisco, May 17.—The San Francisco Labor Council, representing scores of building trades, crafts and thousands of workers, refused late last night, after a prolonged debate, to accede to a petition of the International Workers' Defence League that a strike be declared July 4 in behalf of Thomas J. Mooney and Warren K. Billings, now serving life sentences for murder growing out of the Preparedness Day bomb explosion here in July, 1916. The vote was 124 to 49 against any strike action.

AFGHANS DEFEATED BY BRITISH TROOPS

London, May 17.—It was learned from advices last evening that General Harrett's troops occupied Dikka fort, in Afghanistan on May 13.

This was a most important operation, and is regarded as a most serious blow to the Afghans. It has definitely stopped the menace to Lundikotal, and is militarily regarded as showing that the movement will fizzle out.

—Dikka is situated at a very important point on the Kabul River, where the road leaves the stream. Its loss will result in the Afghans being unable to cross the river.

PACIFIC COAST COLLIERIES, LTD.

(Incorporated Under the Companies' Act of Canada.)

NOTICE IS HEREBY GIVEN THAT a Meeting of the Holders of 6 per cent. First Mortgage and Collateral Trust Gold Bonds of PACIFIC COAST COLLIERIES, LIMITED, secured by Trust Deed between Pacific Coast Collieries, Limited, and Prudential Trust Company, Limited, dated the 24th of April, 1913, will be held at the Office of the Company, 202 Dominion Express Building, 145 St. James Street, Montreal, Que., on the second day of June next, 1919, at 2.30 p. m., for the purpose of considering, and, if deemed advisable, passing the following extraordinary Resolutions:

(1) Sanctioning the modification and compromise of the rights of the Holders of the 6 per cent. First Mortgage and Collateral Trust Gold Bonds of the Company and against its property under and in virtue of the terms of the Trust Deed securing the said Bonds entered into between the Company and Prudential Trust Company, Limited, dated April 24, 1913, and modifications and variations of the provisions of the said Trust Deed, to the extent necessary to:

(a) Cancel the liability of the Company to pay any sums into the Sinking Fund provided for in said Trust Deed for two years, that is to say, until May first, 1921.

(b) Defer the liability of the Company to pay the interest on said Bonds which matured first of May and first of November, 1915, first of May and first of November, 1917, first of May and first of November, 1918, and first of May, 1919, and which will mature on the first of November, 1919, and the first of May, first of November, 1920, until the first of May, 1921.

(c) Direct that the Trustee, Prudential Trust Company, Limited, shall not take any proceedings by reason of non-payment or to enforce payment of the Sinking Fund and interest referred to above until May first, 1921, in regard to said interest, and May first, 1921, in regard to said Sinking Fund.

(d) Authorize and direct the Trustee for the Holders of said Bonds to give such proxy to such person or persons as it may consider advisable to represent it at the Special Meeting of Shareholders of Pacific Coast Collieries, Limited, to be called for the purpose of authorizing such Company and the Directors thereof to execute, hypothecate and pledge the property and assets of such Company, both movable and immovable, to secure the indebtedness of such Company to the Pacific Coast Collieries, Limited, in the sum of \$1,775,000, with interest thereon at the rate of 7 per cent. per annum, until paid, amount owing by such Company to the Merchants Bank of Canada, payment of which indebtedness has been guaranteed by said Pacific Coast Collieries, Limited; the whole in accordance with the terms of a certain Deed of Mortgage and Agreement executed by said Pacific Coast Collieries, Limited, in favor of said Pacific Coast Collieries, Limited; the whole in accordance with the terms of a certain Deed of Mortgage and Agreement in which Deed of Mortgage and Agreement has been deposited with said Prudential Trust Company, Limited, Trustee of the said Trust Deed, the same may be seen and examined at the Office of such Trust Company, No. 9 St. John Street, Montreal, Canada, by any Bondholder of this Company or any other party interested, and also to vote at such Special General Meeting of Shareholders of Pacific Coast Collieries, Limited, for and on behalf of said Prudential Trust Company, Limited, Trustee, as Shareholder of such Company, in favor of the granting and execution of such Deed of Mortgage and Agreement, and also in favor of approving and ratifying and confirming said Deed of Mortgage and Agreement so executed by said Pacific Coast Collieries, Limited, on the said first of March last as authorized by Resolution of the Board of Directors of said Company.

(e) Upon such extraordinary Resolutions being adopted and such modifications and compromises being so sanctioned adopting such Resolutions as may be found advisable in order to carry out and effect such modifications and compromises and authorize and direct the said Trustee to act in accordance with same with a view that the said Trustee may give effect to such modifications and compromises and to the matters and things authorized and directed by such Resolutions.

THIS NOTICE IS GIVEN pursuant to the provisions contained in the said Trust Deed setting out the terms and conditions under which and the manner whereby the modification mentioned of the Holders, either present in person or represented by proxy, of the Bonds of the Company then outstanding at a Special General Meeting of the Bondholders of the Company, duly convened for such purpose, shall have power by Resolution, carried in accordance with the provisions of the said Trust Deed, to sanction any modification and compromise of the rights of the Bondholders against the Company or its property, as set forth in said Trust Deed, as may be considered advisable, and to authorize the Trustee to execute all deeds and documents that may be considered necessary or proper to give effect to such modifications and compromises.

Dated at Montreal, this eight day of May, 1919.

PRUDENTIAL TRUST COMPANY, LIMITED, Trustee for the Bondholders.

N.B.—Bondholders must either produce their Bonds at the Meeting or deposit them with any Bank or Trust Company which will issue to the person depositing the same a Certificate entitling such person either to attend personally or give a proxy for the Meeting.

Bondholders may obtain the Form of Deposit of Bonds for purposes of obtaining a Bank or Trust Company Certificate above set out and Forms of Proxy at the Offices of Prudential Trust Company, Limited, Montreal and Vancouver, and at the Office of Canada Securities Corporation, Limited, Montreal, Toronto and London (Eng.).

No. 5799.

AMERICAN TROOPS LEAVE ITALIAN FIELD

Rome, May 17.—All American troops will be out of Italy by May 20. An announcement to this effect led to the report that Italian and American relations are strained. It was pointed out yesterday that this report was unwarranted, as the order winding up American military operations was issued on April 15.

IT ISN'T THE HEAT YOU USE, IT'S THE HEAT YOU WASTE THAT COUNTS

One specially good feature about this Burner is that it wastes no heat. You turn it on when you want it and direct the heat where you want it. No burner could be simpler or more sensible than the

"ELLSWORTH" Coal Oil Gas Burner

For your comfort's sake—for the sake of your pocketbook—make point of seeing this Burner at our store to-day.

We demonstrate all day long. Come in. We cordially invite you.

SUM OF \$25,000,000 FOR HOUSING PLAN

Ottawa, May 17.—The Government's housing scheme was the subject of discussion in the House last night, the appropriation of \$25,000,000 being carried shortly before midnight.

TO WARD FOR INSANE

Seattle, May 17.—Miss Ruth Garrison, the eighteen-year-old Seattle girl recently acquitted of the charge of murdering Mrs. Grace Storrs, her rival in love, will be taken to the insane ward of the state penitentiary at Walla Walla to-morrow.

STRENGTH FOR THE DAY'S WORK

DEPENDS UPON GOOD BLOOD TO NOURISH THE BODY

Weak People Need a Tonic, One Which Acts Directly Upon the Blood and That Does Not Weaken the Body by Useless Purging

There are thousands of people throughout Canada who are without ambition or strength to do their day's work, and who are always tired out, have but little appetite and a poor digestion. They cannot get a refreshing night's sleep and are subject to headaches, backaches and nervousness, because their blood is impure. To men and women in this condition Dr. Williams' Pink Pills give quick relief and permanent cure because of their direct action on the blood, which they build up to its normal strength. As the blood becomes rich and red it strengthens the muscles, tones up the nerves, makes the stomach capable of digesting food, and repairs the wastes caused by worry or work. In a word, the use of Dr. Williams' Pink Pills means restoration to perfect health.

BLOOD TURNED TO WATER. Miss Jessie McLean, Trenton, N. S., says: "I was as weak as it was possible for any one to be, and yet be able to go about. My blood seemed to have turned almost to water. I was pale, the least exertion would leave me breathless, and when I went up stairs I would have to stop and rest on the way. I often had severe headaches, and at times my heart would palpitate alarmingly. A good friend urged me to try Dr. Williams' Pink Pills and I have reason to be grateful that I took the advice. Soon after beginning the use of the Pills I began to get stronger, and by the time I had taken seven boxes I felt that I was again enjoying good health. I think Dr. Williams' Pink Pills are a blessing to weak girls and I shall always warmly recommend them."

RHEUMATIC PAINS. The sufferer from rheumatism, who experiments with outward applications is only wasting valuable time and good money in depending upon such treatment, the trouble still remains, and is all the time becoming more firmly rooted—harder to cure when the proper treatment is applied. Treat this disease through the blood and you will soon be rid of the pains and tortures. As a cure for rheumatism Dr. Williams' Pink Pills are unequalled. They act directly on the impure, weak blood; they purify and strengthen it, and so root out the cause of rheumatism. Mr. D. Lewis, postmaster at Escuminac, N. B., says: "I was attacked with rheumatism, which settled in my elbow, shoulder and knee joints, and at times caused me great suffering. The trouble was particularly severe last spring and I decided to try Dr. Williams' Pink Pills. After taking the Pills for some time the rheumatic pains and stiffness in the joints disappeared and I have not had any return of the trouble."

A GOOD DIGESTION. Mrs. William Dale, Midland, Ont., says: "I suffered for a long time from a severe form of indigestion, and had doctored so much without benefit that I had all but given up hope of getting better. Everything I ate caused me

Mrs. W. L. Nott's Raisin Loaf Cake

Mrs. Nott sends this and another raisin loaf recipe for us to give to an enquirer. One looks so good and so simple that we take the liberty of giving it wider circulation. 1 cup of sugar, 1/2 cup of butter, 1 egg, 1/2 cup Pacific Milk and 1/4 cup water, 1 pint flour, 1 cup seeded raisins, 2 teaspoons baking powder and spices to suit taste. Bake in a moderate oven. Pacific Milk gives this a very fine grain.

Pacific Milk Co., Limited

MINERS OF FERNIE VOTE FOR STRIKE

Fernie, May 17.—The miners here balloted on a strike vote yesterday, according to instructions issued from the headquarters of District eighteen at Calgary last week. The general strike vote is to ascertain the feeling of the miners regarding the order issued by the Director of Coal Operations, W. H. Armstrong, carrying a reduction in wages proportionate to time employed. The result here was that 85 per cent voted for a strike as a protest against the acceptance of the ruling by the Director to 167 in favour of accepting the same. Corbin recorded twenty-two in favor of a strike to fifteen against, while Blairmore went 289 for a strike to eighteen against.

At Calgary. Failure of employers in the metal trades here to meet the demands of the Metal Workers' Union will precipitate a general strike in Calgary, according to G. Sangster, chairman of the Metal Workers' strike committee. Mr. Sangster said last night that the executives of practically all the craft unions in the city had definitely pledged themselves to support the Metal Workers by a strike if necessary. He said the civic employees and the C.P.R. employees who are affiliated with the Trades Council were committed by such a pledge.

Heavier of Late. Mr. Laverdus was inclined to think that the recent newspaper advertising had been heavier than previously, because of the administration of the Military Service Act.

Replying to questions by Mr. Boyd, the witness stated that it would be necessary to examine all the lists in the possession of the Government before it could be definitely ascertained whether any papers did not share in Government advertising.

BRIG.-GEN. R. P. CLARK COMING HOME NOW

London, May 17.—The Minnedosa and Northland are at sea on the way to Quebec and Halifax, respectively, with Canadian troops. The Minnedosa, thirty officers from London, 200 other ranks from Buxton, 519 wives, 182 children and 62 babies. Brig.-Gen. R. P. Clark and family are aboard. The Northland carries the 27th Battalion from Whitley Bay, 24 officers, 600 men and the 8th Field Ambulance with 190 men from Kimmel Camp, and 61 nurses and 19 officers of various units.

Ottawa, May 17.—The liner Corona, with 2,542 Canadian troops on board, probably will reach Halifax on May 21, according to Militia Department advice. She is bringing the 18th Battalion for London, the 19th and 29th Battalions for Toronto, and the 21st Battalion for Kingston.

RAILWAY CONSTRUCTION SUPPLIES FOR B. C.

Vancouver, May 17.—Supplies and materials for use on contracts let in British Columbia by the Canadian National Railways should all be purchased in this province, the B. C. Manufacturers' Association contends, and telegrams urging all the Federal members from this province to demand such a regulation from the Government have been dispatched.

U. S. REORGANIZES GRAIN CORPORATION

Wilson Authorizes Increase of Capital From \$150,000,000 to \$500,000,000

New York, May 17.—President Wilson, by executive order dated May 14, has directed the Food Administration Grain Corporation to change its name to the United States Grain Corporation and increase its credit stock from \$150,000,000 to \$500,000,000, according to a cable from Herbert Hoover.

BIG STEEL CONCERN BEING FORMED IN ONTARIO; AUTOMOBILES

Goderich, Ont., May 17.—The establishment of a new steel company to manufacture automobiles, automobile parts, tractors, trucks, etc., which have hitherto been largely assembled in Canada, is a big development just taking shape here. The capital is to be \$15,000,000.

MILK CHEAPER AT REGINA; BREAD DEARER

Regina, May 17.—Milk went down in price here to-day a cent a quart if purchased in quart bottles. Bread went up, the price being nine loaves for \$1.00 instead of eleven.

TREPASSEY TO THE AZORES.

The flight of a United States naval seaplane from Trepassey, Newfoundland, to the Azores, while not a trans-Atlantic performance in the sense of the Daily Mail competition for which British aviators have entered, nevertheless is a notable achievement.

The stretch between Trepassey and the Azores is the first leg of the journey. The second trip is across the Atlantic to Lisbon, the capital of Portugal, a distance of about 800 miles.

Every possible safeguard was taken to insure a successful flight between Newfoundland and the Azores. Ships were stationed at intervals to indicate the course, and the problem of navigation therefore was made easy, while the safety of the pilots was provided for.

The Daily Mail prize competition is an altogether different thing. It calls for a continuous flight across the Atlantic, or, in other words, between America and Europe. The distance over the course from Newfoundland to Ireland is 1,800 miles, or 600 miles longer than the first stage of the trip on which American seaplanes are engaged.

The distance from Newfoundland to Greenland is 665 miles; from Greenland to Iceland it is 900 miles and from Iceland to Ireland about 2,200 miles, the whole route covering about 3,765 miles.

Meanwhile, we hear very little of Lieut. Fontain, of the French army, who left some time ago for Senegambia, West Africa, from where he will try to fly to Brazil, a distance of 1,600 miles. This, also, is to be a continuous flight and we assume Fontain is a contestant for The Daily Mail prize.

TECHNICAL EDUCATION.

In view of the pressing demand for technical education in Canada the Educational Departments of every Province will welcome the resolution to be introduced to the House of Commons by the Hon. J. A. Calder, which provides for federal support to the extent of \$10,000,000.

Provision of funds for technical training in British Columbia cannot come too soon, if the younger generation is to get the advantage of practical education during the period when force of circumstances demand that the young boy and girl contribute to the family support.

Nobody will question the value of the technical school, and it is to be hoped that when the local school boards and representatives of the four municipalities meet on July 2, to discuss the proposal for a joint school for Victoria district, a definite measure of federal and provincial aid will

have been outlined. The establishment of such an institution in this city would fill the gap occasioned by the absence of a proper apprenticeship system; it would furnish young people of mechanical bent with an opportunity to develop their talents into a commercial asset and enable them to enter the industrial field a properly equipped and trained artisans.

SIR ROBERT RETURNING.

A Paris dispatch says Sir Robert Borden is being called to Canada by the "political situation" in the Dominion, and says a general election in the "immediate future" is predicted by the members of the Canadian delegation overseas.

If Sir Robert Borden is returning on account of the "political situation," he must have been advised of the presence of breakers ahead of his Administration, more apparent to his colleagues, perhaps, than to the average outsider. It is evident that the tariff issue has not yet been compromised by the conflicting wings in the Unionist forces, and there is considerable uncertainty as to what effect the forthcoming convention of the Liberals of Canada will have upon the solidarity of the Unionist following.

But we doubt if there will be an "immediate election" in Canada, and if the Canadian delegates in Paris who made that prediction were home they very likely would alter their opinion. The political horoscope warns Governments against launching their barques on the seas of general elections in the year 1919. This is not to say that elections would not be good things for the countries, but rather to say that they would not be good things for most Governments.

We think it will be found that Sir Robert Borden and Hon. Arthur Sifton are inspired by other motives in returning home than planning an "immediate election." One of them must be to report to the Parliament of this country the work of the Peace Conference and to elucidate the terms of the Treaty of Versailles. Parliament, and through it the people of Canada, are entitled to a full account of what has been transpiring in Paris, and it is the duty of the Prime Minister to give it.

A NOVEL STRIKE.

Apropos of strikes a situation developed at San Francisco yesterday which adds the touch of novelty to the day's happenings: Prisoners in the County Jail "organized" and "struck."

The idea of obeying regulations which require those incarcerated to complete a specified amount of work each day suddenly became obnoxious, and an I. W. W. propagandist, who was paying penalty for sabotage at Sacramento, regarded prison walls as no deterrent to the promulgation of those theories, with which a few of his ilk in the outer world are seeking to kindle the revolutionary blaze.

It will now be reasonable to look for a manifesto from Sing Sing at an early date, calling upon the "prison workers of the world" to rise in their might and throw off their brick and mortar shackles. At any rate San Francisco can boast of its originality, and even if an I. W. W. strike within the confines of prison walls is less harmful than its relative in the open air, temporary unrest must have its humor.

CLOSER REGULATION WANTED.

Progress is apparently being made to restrict traffic in opium and cocaine. Prohibition by the Dominion Government of their import and export from Canada, except under license to be issued by authority of the Minister of Trade and Commerce, is a step in the right direction. Whether the restriction will be of material advantage in preventing illicit trading remains to be seen.

It is patent to everybody that during the last few years the drug habit has secured an increasing hold on certain sections of society, so much so that police authorities in many cities on this continent have become considerably alarmed. Unlike other vices within the public ken, that of taking drugs—and particularly cocaine—is about the most elusive vice known.

Only by a vigilant regulation of the traffic in bulk can the thing be stopped. Half measures will not do at all, for the simple reason that for an addict's requirements his or her supply of the drug might be so small as to suggest the proverbial needle in the proverbial stack of hay.

A PLAIN MAN.

How the "movies" do extend the number of one's intimate acquaintances. A man has just died in New York. He never visited Ottawa and probably not half a dozen Ottawa people ever saw him in the flesh, yet thousands in this city will mourn his decease as a close friend.

HOUSING PROBLEMS.

A local lawyer the other day recalled an experience of his when, as a newly fledged barrister, he was called upon to arbitrate in a compensation case in regard to certain shanty property. Accompanied by an official from the city hall he proceeded to inspect the houses—there were six of them—and directly they set foot in the first one they noticed a distinctly disagreeable smell.

LIBERAL LEADERS CONFER AT OTTAWA

Provincial Premiers and Ministers Hold Discussion With Dominion Members

Ottawa, May 17.—All the provinces are represented at the conference of Federal Liberal members and Provincial Liberal members and Ministers which is taking place here to-day and will continue Monday, according to a statement issued from the Chief Liberal Whip's office.

British Columbia—Hon. J. H. King, Minister of Public Works; Alberta—Hon. Duncan Marshall, Minister of Agriculture, and Hon. J. H. Boyle, Minister of Education. Premier Stewart was here but has returned home.

Saskatchewan—Hon. W. E. Knowles, Provincial Secretary; Hon. George H. Langley, Minister of Municipal Affairs, and Premier Martin, who is on his way but will not be here until the Monday session.

Manitoba—Premier Norris has replied that he has been kept away owing to the labor situation. However, there will be other representatives.

Ontario—Hon. William Proudfoot, Leader of the Liberals, and probably Hon. H. Dewar, M. P. Quebec—Sir Gouin and Hon. Walter Mitchell, Provincial Treasurer.

New Brunswick—Hon. G. P. Veniot, Minister of Public Works, and Hon. E. A. Smith, Minister of Lands and Mines. Nova Scotia—Hon. E. H. Armstrong, Minister of Public Works.

Prince Edward Island—J. H. Bell, Leader of the Opposition.

AMERICAN SEAPLANE N.C.-4 ARRIVES SAFELY AT HORTA, AZORES

(Continued from page 1.) their schedule. At that time the Cape Race radio station still was in communication with the N.C.-4. The text of this report follows: "Progress of the three seaplanes from Trepassey to the Azores is ahead of the previous estimated distance at 8:35 Greenwich (2.45 Washington time) by 125 knots. At the above time the planes were reported as having passed station ship No. 13, 656 miles out. Cape Race (British radio) was still in communication with the N.C.-4."

Two-Thirds of Way. Ponta Delgada, Azores, May 17.—(Associated Press)—With seaplane N.C.-4 leading, the three American naval trans-Atlantic fliers had completed to-thirds of their course from Trepassey to the Azores at 8:30 o'clock this morning. (The equivalent of 8:30 a.m. Azores time is 4:45 a.m. New York time.) The other planes were going strong in the wake of the leader. The average speed of the N.C.-4 was computed at more than 125 knots in an hour.

Small knots of people gathered on the waterfront here shortly after day-break to seek news of the fliers and await their arrival. As the day progressed the crowd rapidly increased. Harbor Cleared. The section of the harbor where the planes will be moored has been cleared of all craft to permit of a safe landing. Two destroyers are ready to assist the planes if they should alight outside the breakwater.

The city is in gala dress and Admiral Jackson has invited the high civil officials to view the arrival of the fliers from one of the American warships. The departure of the seaplanes from Trepassey was first reported here at 11:44 o'clock last night when the ferry boat tender Melville received a wireless reading: "Planes in flight." This information, which was rapidly circulated about the city, caused much animation and the American naval headquarters was besieged with messages regarding the flight.

Received Reports. Admiral Jackson, Fleet Commander, Wortmutter, Commander Ordine and scores of other American officials remained up all night to receive reports of the seaplanes' progress. The wireless worked excellently throughout the night hours, merchant ships and radio stations heeding the request of the navy to refrain from interfering with messages regarding the flight.

Lisbon Ready. Lisbon, May 17.—(Associated Press).—Lisbon is prepared for the arrival of the American trans-Atlantic seaplanes. Two American warships are in the river and a meteorological mission daily is studying atmospheric conditions from the observatory. A British meteorologist also is here with stores and instruments for British flying boats or other planes which may arrive.

Smoke "Player's Navy Out" Cigarettes wrapped in Tin Foil

ATTORNEY-GENERAL TO GO TO ENGLAND (Continued from page 1.) automatically killed the validity of the grants.

The point of interest, as far as the Province is concerned—apart from the historic interest in the statute which has met with summary fate at the hands of the Federal authorities—and which Mr. Farris will argue before the Privy Council, is whether or not the Crown can be joined without its consent or without a petition of Right under the Crown Procedure Act.

The railway company did join the Crown in this instance, having no regard for the Act. Then the historic contest between the Provincial and Dominion Governments as to which owns the Spanish Bank in English Bay will be continued before the Privy Council. The case was last before the board courts a few years ago, but its appearance before the final court of appeal has been held in abeyance during the war.

In addition, the question of the right of the Workmen's Compensation Board to pay allowances to the dependents of the crew of the Princess Sophia is also to come before the Privy Council. S. E. Taylor, K.C., is in charge of this case and Mr. Farris will appear with him.

WASHED NUT COAL

The ideal summer fuel for your kitchen range.

This is an extra large Nut Coal, and so good in quality that thorough coal economy is made possible to all who use it.

APPEAR IN MUFTI IN BERLIN STREETS

Allied Officers Lay Aside Uniforms; Demonstrations in German Towns

London, May 17.—The British and American officers in Berlin have been ordered to wear civilian clothing outdoors, lest they incite the population to make demonstrations, according to a dispatch from the German capital to the Exchange Telegraph filed under date of Thursday. American couriers in uniform have mostly been forced to remain in the Hotel Adlon and there is a general feeling in the hotel that there will be trouble within the next few days.

WOMEN'S COUNCIL TO HOLD MUSICAL

Mrs. Macdonald Fahey to Assist at Concert to Aid Funds

Since the commencement of war the Local Council of Women have enjoyed the remarkable distinction of having made no public appeal for funds. Despite the leanness of the treasury engendered by this abstention the Council has performed an excellent service along both philanthropic and patriotic lines. With the rise of the many problems of social reconstruction, in the solution of which the Council is particularly interested and peculiarly fitted to take a hand, the need for funds is again emphatically brought home to the members.

To help to remedy this deficiency, Mrs. Macdonald Fahey with her customary generosity towards any good cause, has kindly consented to give a musicale, under the Council's auspices, at the Empress Hotel ball-room on Tuesday, May 27, to which it is hoped the public will rally in force. Tickets for the affair may be obtained from members of the affiliated societies or from the Finance Committee of the Local Council of Women.

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the Editor for loss of letters submitted to the Editor.

REGISTRATION CARDS.

To the Editor.—Could you let us know through the medium of your paper when we may discontinue carrying round our registration cards.

EAGLES TO SHARPEN BEAKS ON STONE TO BE GIVEN BY CITY

An air of satisfaction and anticipation is said to pervade the aeris of the eagles in Beacon Hill Park. A similar atmosphere of happiness is evident in the abode of the rascals. The Streets Committee of the City Council, after hearing the views of a deputation from the S. F. C. A. and the Local Council of Women yesterday afternoon, is contemplating the betterment of the eagles' and rascals' domestic life by the addition of a large stone and water pond.

A BEDTIME STORY Uncle Wiggily and Bunty's Scooter. Copyright, 1918, by McClure Newspaper Syndicate. (By Howard R. Garis.)

One day, when Uncle Wiggily Longears, the bunny rabbit gentleman, came home to his hellow stump bungalow, having been over to call on Grandpa Goosey Gander, Mr. Longears saw Baby Bunty sitting on the front steps looking very sad and sorrowful.

GRAY HAIR Dr. Freeman's Natural Hair Restorative, used as directed, is guaranteed to restore gray hair to its natural color or money refunded.

Social Personal

Mrs. C. M. Curtis, of Seattle, arrived at the Empress Hotel yesterday.

Miss Margaret Greig, of Burdette Avenue, went over to Vancouver, Thursday to spend the week-end as the guest of Mrs. W. J. Bartram.

Mrs. George Lindsay left on this afternoon's boat for Vancouver, which she will join her husband. They will make their future home in the mainland city.

Newtop Burdick, of Vancouver, was a visitor in the city yesterday, returning to the mainland on last night's boat.

John Alder returned to Victoria yesterday after two years' absence in the East, where he has been engaged in war work.

A garden fete will be held at "Hartley Park" through the kindness of the Hon. and Mrs. James Dunsmuir, on Wednesday, June 25, in commemoration of Florence Nightingale and her faithful followers, who have done such splendid work in this great war.

Mrs. J. W. De B. Farris returned to the city this morning from Vancouver, where she has been attending the closing ceremonies at the B. C. University, of which she is a member of the Board of Governors.

The members of the Y. W. C. A. Gymnasium Class made charming hostesses at a merry little social evening, an especially pleasing musical programme was contributed by the following pupils of Miss K. McGregor, of the B. C. Academy of Music: Mrs. Ogilvie and the Misses Watson, McClenon, Muir, Wright, McDonald and Dorrell, and Messrs. Harper and Lee, vocal solos, while Miss Jessie Smith, T. C. M., officiated as accompanist, and contributed two solos with much charm.

Mr. and Mrs. H. Currie, of "Cherry Bank" Quadra Street, very kindly placed their house at the disposal of the "Cherry Bank" Chapter, I. O. O. E., for a bridge and 500 party last night, the event proving a delightful success.

Mr. and Mrs. H. Currie, of "Cherry Bank" Quadra Street, very kindly placed their house at the disposal of the "Cherry Bank" Chapter, I. O. O. E., for a bridge and 500 party last night, the event proving a delightful success.

The Daughters of Pity have planned to hold a garden fete at the residence of Mr. and Mrs. W. J. Bowser on June 21, and the members are already actively preparing for it.

Exclusive Modes in Cream Serge Suits

DESIGNED with the utmost skill and care necessary to produce Suits with those distinctive, fashionable lines which are so admired by all women. The quality of the serge from which these models are developed is also worthy of your attention.

A particularly desirable model is designed with a roll collar, the folds of which extend down the front and finish in a smart novelty pocket. These are richly embroidered in silk in Copenhagen, henna, silver and white. The waist is gathered to a narrow belt—\$89.50.

A profusion of embroidery in navy blue is the most striking feature of this beautiful cream serge Suit. This is featured in a wide band round the bottom of the coat and on the collar and cuffs. The coat is belted and shows no small amount of individuality—\$89.50.

A touch of the military is given this Suit in both the designing and in the white military braid with which it is trimmed. The lines are somewhat severe and straight, but none the less smart and distinctive—\$75.00.

Striped Silk for Separate Skirts. The collection of Striped Silks suitable for separate skirts is replete with the newest and richest colorings and stripe effects.

High-Grade Summer Millinery. White Milan Straw Hats—Trimmed with silk bands. These are shown in newest shapes, ranging from the small roll hat to the large drooping Sailor Hat.

Sports Hats—Of straw with ribbon crowns. Offered in a wide range of colors to match the new sweaters and jersey dresses—\$7.50 and \$8.50.

Bath Towels of Exceptional Quality. All white with fringed borders: Size 22 x 45, \$1.30 a pair; Size 24 x 48, \$1.50 a pair; Size 26 x 52, \$2.00 a pair.

Attractive Values in All-Linear Huck Towels. Women who are acquainted with the values of various articles of linen will appreciate the extent of the values offered in these Linen Huck Towels.

PLAN TO HOLD MASS MEETING OF PROTEST. Women's Organizations to Be Asked to Co-operate Against Higher Living Prices.

As an outcome of the steps taken by the Women's Independent Political Association to arouse public interest in the matter of lowering the present high prices of foodstuffs, a mass meeting is to be held in Victoria at an early date, in co-operation with the other women's organizations of the city.

SOPHIA CLAIMS ARE BEING PAID

Vancouver, B. C., May 17.—"Every case in which the claimants are able to prove dependency according to the terms of the act governing the activities of the Board are being paid," said Commissioner Parker Williams of the Workmen's Compensation Board in discussing the outcome of the suit instituted by the Canadian Pacific Railway against the recognition of the claims of dependents of the Princess Sophia wreck.

"Although the company won the first round of the action and until the appeal is heard, dependents of the crew of the Sophia are not to be legally considered as coming under the Workmen's Compensation Act, an arrangement having been entered into between the Board and the company in which the company agrees to the payment of bona fide claims while the case is being fought in the higher courts—and reserves the right to contest in the interim the company will not take any action against the Board in the matter despite the injunction obtained preventing the Board from recognizing the claims.

"New Sophia claims are being heard every day," said Mr. Williams, "and they are paid as rapidly as they are proved. At the same time there have been a number of claims in which the Board did not consider dependency was proved, and these have been left in abeyance for the time being. The total result is that bona fide dependents are receiving their money without regard to the final disposition of the case."

PATHFINDER WILL FLY ACROSS SOUND WITH INVITATION

People of Seattle to Be Asked Over to Witness Victoria Day Pageant

LIEUT. RIDEOUT WILL BE PILOT ON FLIGHT

About 11 o'clock to-morrow morning the aeroplane Pathfinder will hop off from the Willows aerodrome on the initial flight to Seattle. Lieut. "Bobbie" Rideout will pilot the machine across the Sound and will carry Lieut. Harry Brown, M.C., as a passenger. The flyers propose to land in the big park at Ballard and after spending half an hour there, filling the gasoline and oil tanks, will take off on the return trip, arriving here about 2:30 o'clock in the afternoon.

The Pathfinder will carry a letter from Mayor Porter to Mayor Hansen, of Seattle, inviting the citizens of the Sound metropolis to visit Victoria on May 24 and witness the greatest celebration ever held here. The machine will also fly over the city and drop leaflets advertising the Victoria Day Pageant.

The weather forecast for the next twenty-four hours is favorable for the flight. A light easterly wind is predicted, but in the higher altitudes there will have veered around to almost a favorable wind.

On leaving the aerodrome the Pathfinder will fly over Trial Island and proceed direct to Protection Island, a distance of thirty-two miles over the Strait of Juan de Fuca. On picking up the land the machine will cross the foothills of the Olympic range, passing to the right of Port Townsend. The course will then be altered to almost south and the Pathfinder will cross Puget Sound, flying over the islands and straits direct to Seattle.

Several members of the Victoria branch of the Aerial League are now in Seattle arranging for the arrival of the Pathfinder. They are making the necessary arrangements for the passing of the plane by the customs authorities and it is expected that it will be cleared in much the same manner as a steamer. The Boeing Aviation Company, of Seattle, has interested itself in the flight, and is greatly pleased at the enterprise and initiative of the local boys.

The Pathfinder will keep in constant communication by wire with land stations and will also speak with any steamers passing beneath. The United States wireless officials have assured the league that it will do everything possible to catch messages from the Pathfinder.

The flyers are quite confident that they will make the trip. It is about the same distance as the Vancouver flight, which was under such sensational circumstances by the Pathfinder on Wednesday last. This will be the first attempt ever made by an airplane to link up the island with the State of Washington. It will also be the first time that a Canadian plane has flown in the Western States.

Victorians will follow the forthcoming flight with the same interest as they watched the Pathfinder on her record-breaking trip to Vancouver. This will mark the second long flight of the Aerial League. It will be followed at the end of next week by the non-stop flight from Victoria to Cumberland.

TIMBER CONTROLLER ARRIVED IN VICTORIA EARLY THIS MORNING

Sir James Ball, Timber Controller of the British Empire, and Montague Meyer, timber purchaser, reached the city this morning in company with the Hon. T. D. Pattullo, Minister of Lands, after visiting a number of points at which lumber and logging operations are being carried on at Vancouver Island.

Immediately after the arrival of the party in town Sir James accompanied the Minister to the Colwood Golf Links. Mr. Meyer favored a fishing trip, and both he and Sir James will leave Victoria to-morrow afternoon for Seattle and New York.

DIED IN HIS BED

Charles Smedley Passed Away During Night at Rooms of Friend, 843 Johnson Street

William Day, of 843 Johnson Street, suffered a terrible shock when he awoke this morning at 6:30 o'clock and found his partner, Charles Smedley, a returned soldier, lying at his side dead. When the two men retired last night, Smedley was apparently in the best of health. Day was about to arouse his friend when he discovered that he had passed away.

The Police were immediately notified, and the body was removed to the Thomson parlors.

OBITUARY RECORD

The funeral of George Innes Dunn took place yesterday afternoon at 2:30 from the family residence, Fernwood Road, where services were conducted by Rev. Wm. Stevenson. There was a large attendance and many beautiful floral tributes. The remains were interred in Ross Bay cemetery. The following acted as pallbearers: W. Dee, E. S. Harris, F. Pollard, H. Chapman, R. Power and P. Partington.

The funeral of Joseph William Taylor, who passed away at his home, 182 Gorge Road, on May 14, took place yesterday afternoon at 2 o'clock from St. John's Church. Rev. F. A. P. Chadwick officiating. Many relatives and friends attended the service. The hymns sung were: "Nearer, My God, to Thee," and "Peace, Perfect Peace." The following acted as pallbearers: A. P. Croston, F. Y. Blackenbach, A. O'Meara, M. B. Lloyd, A. S. Barton and C. H. Walker. Interment was made at Ross Bay Cemetery.

RECEPTION FOR "TIGERS"

Arrangements to Be Made at Meeting To-night to Welcome 29th Battalion.

All members of the 29th Battalion are requested to attend a meeting to be held this evening at 7:30 o'clock in the rooms of the Great War Veterans' Association, 512 Fort Street.

Arrangements will be made to give a suitable reception to the Victoria members of the battalion who will arrive about the end of the coming week. "Tobin's Tigers" as the battalion was familiarly known, belonged to the second Division and landed yesterday at Halifax from the Olympic.

SILVER WEDDING

Bandmaster and Mrs. Sidney Rogers Given Surprise Party.

The home of Mr. and Mrs. Sidney Rogers was the scene of a very pleasant surprise party on Friday, the occasion of the twenty-fifth anniversary of their wedding. The evening was spent playing cards and dancing. Delightful refreshments were served, during which toasts were proposed to the health and prosperity of the popular couple. Mr. and Mrs. Rogers are well known in Victoria, having come here from England fifteen years ago. Mr. Rogers was for eight years bandmaster of the Fifth Regiment, but resigned his position to go overseas as bandmaster of the 47th Battalion. After three years' service in France, he returned home last spring.

Big Band to Lead Procession.—A band of thirty-five pieces will lead the float parade in connection with the Victoria Day Pageant. Basil Prior and two girl marshals will precede the band.

THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can give each child a safe remedy to children of all ages. Concerning them Mrs. Joseph Therrien, St. Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would give my baby before trying the Tablets, but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dance in Foundation Club Rooms.—In connection with the Victoria Day celebrations a dance will be held in the Foundation Club Rooms on Friday evening next. It is expected that there will be a very large crowd present, as the people of this city are prepared to have a joyous celebration this year, after having reserved themselves during the hard years of the war.

Real Wonder-Worker For Wrinkled Faces

Those who have tried all sorts of so-called "wrinkle removers" in a vain effort to lose those unwelcome traces of age, will be glad to hear of the wonderful saxolite formula, once they have given it a trial. The secret of this method is due not alone to its marvelous effectiveness—upon the deepest lines and creases, as well as upon the fine lines—but also to its surprisingly quick action and its entire harmlessness. Its simplicity is another commendable feature, for one need only dissolve an ounce of powdered saxolite in a half pint with lukewarm water, and wash the face. At once a remarkable transformation is behind.

It is not only the effect on wrinkles and creases that is so noticeable, but facial contour is remarkably improved and the face looks much younger. One should be sure to ask the druggist for the powdered saxolite. The lotion, being so refreshing, is particularly grateful to tired faces.

CZECHS ARE EAGER TO RETURN HOME

Capt. J. Smetana, Staff Officer, Says They Are Heartily Sick of Siberia

The Czech-Slovaks are heartily sick of the campaign in Siberia according to Capt. J. Smetana, Czech staff officer, who passed through here last night on board the N. Y. K. liner Katari Maru.

Capt. Smetana has been serving with the Czech-Slovak force ever since this little band of adventurers left their homes in Bohemia and took up arms against the Bolsheviks.

The officer, who speaks several languages fluently, is making his way back to his home in Europe by way of Victoria, Seattle, Chicago, New York and Paris. Capt. Smetana states that the Czechs, tired of the continuous hardships to which they have been subjected while crossing the Russian steppes and downcast at the withdrawal of Allied support from Siberia, are eager to return to their homes. He fears, however, that the difficulty being experienced in securing tonnage for purposes of transportation will keep the bulk of the Czech-Slovak force in Siberia for some time.

Many invalid Czechs.

The captain knows nothing of the report to the effect that some four thousand wounded and sick Czech-Slovaks would be transported to Victoria and San Francisco for treatment. He says that there are seven thousand invalid Czech soldiers at Vladivostok, and up to the present time no opportunity has presented itself for the removal of the invalid soldiers from Siberia. Czech-Slovak soldiers have been the victims of terrible atrocities at the hands of the Bolsheviks, but the captain does not care to speak of them. He is also reticent regarding the movements of the Czech force through the vast territories of European Russia and Siberia.

NO EXPLANATION AS YET FORTHCOMING

Reasons For Cancellation of Esquimalt Hospital Contract Unknown.

No explanation has yet been received from Ottawa regarding the reasons for the order to cease work telegraphed to the contractor in charge of the alterations and additions to the new Active Treatment Pavilion for the Military Hospital at Esquimalt. Cancellation of the work was reported in yesterday's issue of The Times.

The contract was awarded to Robert Moncrief at a figure approximating \$130,000, and provided for two large additions to the St. Andrew's and St. George's wards two stories high, and for an additional floor on the Hydro-therapeutic section. The new wards were to contain thirty-six beds each, and the additions were to be modern in every respect.

Though nothing definite in the way of an explanation has been received as to why work has been stopped after excavations had been dug and considerable headway on construction of some of the additions had been made, several conjectural reasons have been offered. One is that the plans were drawn and approved while the war was on and it was expected that there would be many patients coming to this coast for treatment, but that now the war has ceased and many patients are being treated in the Old Country owing to the shortage of travelling accommodation, there is declared to be no further need for the additions.

Under the circumstances the Esquimalt Military Hospital is stated to be in a worse position than it was before the work was begun. The main hospital work had progressed to a considerable extent, having been under way for a little over four weeks, while the excavation-work and laying of the foundations was accomplished some time ago as far as the level of the ground floor.

Major-General Leckie states that before the erection of the buildings was begun in fact, while the ground was being surveyed, the military authorities explained that increased accommodation was not necessary under the circumstances. Quailcum and Resthaven Hospitals have been ample for the care of all patients sent here, and they are capable of looking after all other military patients who may arrive henceforth, state the military authorities.

DECIDE TO FORM TIMBER WOLVES CLUB

Members of 103rd Battalion Will Perpetuate Comradeship

Members of the 103rd Battalion met at the Belmont, Hastings last night and decided to form a 103rd Timber Wolves Club to continue the friendships made by the men of the battalion on the battlefields and in the training camp. There were nearly 300 men who formerly belonged to the unit at the meeting, and the O.C. of the battalion, Colonel E. Henniker, who recently returned to Victoria, in a brief address pointed to the excellent record of the men who left with the 103rd. The heavy list of casualties among the ranks of the Timber Wolves who had been drafted to different units in France would show that they had borne their share in the great fight. He was proud of the men whom he took overseas, and proud of the distinction they had won in the firing line.

Major K. R. Spurgin was made chairman of the meeting, and a motion was carried to form a 103rd Timber Wolves Club to meet once a month for social purposes, and to render any assistance possible to former members of the battalion who may be in need. It was also decided to arrange to welcome the returning men of the 103rd who will come back to Victoria with the 29th Battalion.

Colonel Henniker was elected first vice-president of the club and Major K. R. Spurgin second vice-president; Captain F. G. Dexter was chosen secretary, and Sergeant Chapman M. Thomas treasurer. Major W. D. Pemberton, Major F. P. Barton, Captain M. Thomas and Messrs. Binney, King and Blair were chosen a committee to draw up a constitution for the club.

The secretary was authorized to write a letter to the Salvation Army stating that the meeting was thoroughly in sympathy with the big drive for funds, and to send wishes for complete success.

Thanks were extended to the committee responsible for arranging the dance to be held next Wednesday at the Empress Hotel.

Held Enjoyable Dance.—An enjoyable dance was held at the Comrades' Club on Thursday evening under the auspices of the Women's Auxiliary to the Army and Navy Veterans of Canada. Refreshments were served during the evening and dancing continued until 11:30 to the attractive music supplied by Heaton's orchestra.

Obtained through Canada's leading boot shops.

MEMORIAL STATUE TO FAMOUS DIVINE

University of Pennsylvania to Perpetuate Record of Dr. George Whitefield

To wear out rather than to rust out—the policy of George Whitefield—presents a theory and a principle which every clergyman is called upon to consider at some time in his career.

The decision to perpetuate Whitefield's memory by a striking bronze monument on the campus of the University of Pennsylvania, to be dedicated next month, is a graceful tribute to a great personality. Like his great associate in the founding of Methodism, John Wesley, he also established a denomination after his parting from the Westons, but lacking the capacity for organization it is rather in the recollection of a marvelous preacher than as the founder of a great denomination that George Whitefield will be ever remembered. Preaching was to him the art of awakening human conscience and his opportunity came during the great sleep which fell on the seventeenth century England, the calm after the controversial storms of earlier days—when the established church had passed into torpor and political life had sunk into that slumber under Walpole and the Pelhams which for a generation produced a Government without an opposition. To all classes, even in Presbyterian Scotland among the descendants of the Covenanters, he aroused a dormant note in their consciences which stirred them to no revival before or since has done. What a record for the son of the Gloucester innkeeper, that the scoffing courtiers of a worldly-wise court should have been equally stirred as were the colliers on Kingswood Hill. Not only in the Old World, but in America, during numerous visits he gave a new meaning to religious life. The open air sermon, an obsolete form since Latimer had harnessed at Paul's Cross in those stirring days of the eighth Henry, under Whitefield took a new life. It called to a personal salvation to a justification of life by works—and when he passed by left no successor. Graven by a clever sculptor, the statue of Whitefield shortly to be dedicated shows the preacher with uplifted arms as if making one of those points of homely illustration he knew so well how to bring to a head. Vehemence and impetuosity of nature which have always been associated with his oratory have been suggested in the pose and manner of his standing in the campus statue in Philadelphia.

MEMORIAL SERVICE FOR NURSE CAVELL

In order to give every encouragement to congregational singing, St. John's Church in the regular church announcement gives the numbers of the hymns to be sung at the services of the day. Those to be sung on Sunday are as follows: Morning—42, 154, 755, and 415. Evening—42, 15, 280, these being the hymns sung at Westminster Abbey and Norwich Cathedral at the Memorial Service of Nurse Edith Cavell, whose memory no doubt many will be glad to honor by being present at this service. Members of the Order of the Eastern Star will attend in a body.

Bishop's Rules of Living—Dr. Alfred Earle, Bishop of Marlborough and Dean of Exeter from 1916 until July last, died a few days ago at Torquay, England, aged ninety. Dr. Earle once drove through Brentford seated on a coter's donkey barrow. He had gone on a Sunday for a confirmation, but found no vehicle at the station, and in order to get to the church in time, hailed a passing costermonger, mounted his cart and rode down the main street of the town. When he was eighty-five, Dr. Earle gave his rules of life, which included: Live simply and deserve no fee, find and cure doctor; rarely take his pipe; sleep when you are sleepy, and get up when you wake. Work hard, muse much, encourage lively thought. Hate none. Believe that happiness is earned not bought.

DR. THOMAS' ECLECTIC OIL

A PURE, SAFE AND SIMPLE REMEDY FOR ALL THE COMMON AILMENTS OF THE BODY. IT SHOULD ALWAYS BE KEPT IN THE HOUSE. IT IS THE ONLY OIL WHICH CAN BE USED IN THE TIME WHEN YOU WILL NEED IT.

MRS. BELSON ELECTED PRESIDENT OF W. A.

Interesting Reports of Girls' Annual Heard at Columbia Diocesan Board

Mrs. W. H. Belson, of Esquimalt, was elected President of the Diocesan Board of the Columbia Women's Auxiliary at yesterday's session, to succeed Miss Turner, who has retired after five years' work. Other officers elected were as follows: Third vice-president, Mrs. Vincent; treasurer, Mrs. Forbes; recording secretary, Mrs. Bishop; corresponding secretary, Miss Rye; girls and candidates secretary, Miss Turner; prayer partner secretary, Mrs. Lauderdale; Mrs. Hiscock, in moving a vote of thanks to the retiring president, Miss Turner, voiced the feeling of the meeting in tendering very hearty thanks for the able and devoted work of Mrs. Wollaston, who for fifteen years has given to the work of diocesan treasurer her best energies and devoted attention. The meeting endorsed the motion by a standing vote. To Miss Aston for her splendid work as convener of the fête on Wednesday, and to the girls' branches whose members helped at the tea, to the Times and The Colonist for valuable space for reports, and to all who had contributed to make the annual a success, hearty votes of thanks were passed.

At the afternoon session the reports from the five branches—Parkville, Sandwick and Courtenay, Sidney, Patricia Bay and Metchoin—were read by their representatives and the president congratulated all upon the excellent and faithful work done in spite of deterrent circumstances. Mrs. Bishop's paper on "Best Methods in Parochial Branches" was followed by general discussion, and many useful suggestions were contributed which should tend to future improvement. Correspondence included a letter from the Dominion Board containing much valuable instruction and recommendations re Social Service. There were letters from St. George's Hospital at Alert Bay with interesting information as to the work and needs of that institution; also from Miss Amy Carmichael, Tinnivelly, India. Balances on hand were voted to Oriental work in Vancouver, Victoria, Japan and India, the sum of \$114.41 to be sent undesignated to the Dominion treasurer.

The Girls' Annual was held last night, with Mrs. Quinton in the chair. Bishop Schofield presented to Miss Nixon the framed life membership certificate, inducting her as a life member with the new form of service. Miss Nixon, in thanking the Board spoke of her seven years' work in Alert Bay, and appealed to the girls to consider the taking up of missionary work. Representatives from the five girls' branches were at the meeting, and excellent reports were given of their work. A concise and interesting paper on "Homan, China" was read by Miss Wilson; Miss Piroit presented a paper on "Japan" and Miss Rye read an interesting account of missionary work in Kangra, India. Miss Southwell gave a pleasing talk to the girls before the meeting closed.

First Congregational Church, Where Rev. W. D. Spence Begins Pastorate

The Rev. W. D. Spence arrived in the city yesterday to commence his pastorate of the First Congregational Church, and will preach to-morrow both morning and evening and a public reception will be held next week.

METHODIST PASTORS STATIONS ON ISLAND

Draft of Stationing Committee's Report to Conference Was Presented Thursday

New Westminster, May 17.—The first draft of stations of the Methodist ministers was presented to conference at noon Thursday by the secretary, Rev. William Vance, as follows: Victoria District: Victoria (Metropolitan)—Herman S. Osborne, B.A., B.D., 916 Johnson Street; Albert J. Evans, missionary in China; John P. Hicks, editor of Methodist Recorder, left without a station, at his own request. Victoria (Centennial)—James L. Batty, 612 David Street. Victoria (Wesley)—R. McElroy Thompson, 561 McPherson Avenue; George W. Johnson, superannuated, Colville Road; Frank N. Stapleford, M.A., B.D., permitted to take work in Toronto. Victoria (James Bay)—William M. Scott; Charles M. Tate, 41 Turner Street, superannuated. Victoria (Belmont Avenue)—Robert Wilkinson, 1502 Gladstone Street; William Sheridan, 1524 Jubilee Avenue, superannuated. Victoria (Fairfield)—Samuel Cook, 220 Moss Street; E. B. Glass, B.A., 1165 Oscar Street, superannuated.

Grounds Were Scene of Important Sale of Work This Week: Bishops Close

Wesley Church Elects Officers—The Rev. R. M. Thompson was enthusiastically and unanimously invited to accept the pastorate for the third year at the annual meeting held last week. Wm. Beattie was re-elected secretary-treasurer, and Geo. Guy as envelope steward. The stewards of the church were elected as follows: Wm. Beattie, John Edward Brown, the evangelist who recently conducted a successful series of meetings here. Dr. A. P. Gifford, of Boston, will appear here on Thursday and Friday. He is an eloquent preacher of whom Dr. Robert Cameron, the editor of the Baptist publication, "The Watchword," writes in enthusiastic vein. Dr. Cameron will be remembered here as former Minister of the Tabernacle Church. Dr. Gifford will deliver two addresses in Victoria. The third visitor will be Rev. William Evans, who will be here on May 22 and 23. He is conducting a series of conferences in Chicago, and will visit Winnipeg and Calgary on his way west, being due at Tacoma on June 1, his services continuing until June 2.

Use Cuticura to Keep Your Hair From Falling

How many times have barbers given this advice to men who are losing their hair because of dandruff and scalp irritation. At night rub Cuticura Ointment into the scalp. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair. Cuticura Soap, Ointment, 25¢ and 50¢. Talcum, 25¢. plus Canadian duties. Sold everywhere. For sample, cut from address: Cuticura Dept., Boston, U. S. A.

TO TOUR ISLAND
Seattle Post-Intelligencer Party Arrived To-day for Automobile Drive.

First of the outside parties of automobile press representatives to tour the Island Highway for the purpose of graphic description of its natural beauties, "The Seattle Post-Intelligencer Party" arrived this afternoon on the Seattle steamer, and later proceeded north on the Overland car placed at its disposal by A. F. Tyson, Seattle manager for the Willis Overland people. Last year the automobile supplement of The Seattle Post-Intelligencer contained an excellent description of the beauties of the district, as seen from the vantage of a powerful car, as a result of which the Island Highway on this Island received very beneficial advertising. Publicity given by the newspapers helps the American motorists to select a suitable place for the summer holidays, and it is expected this will be the forerunner of other similar parties to follow later when the weather becomes more promising.

In this year's party are A. J. Kennedy, automobile editor of The Seattle Post-Intelligencer, Mrs. Kennedy and son, together with A. F. Tyson and others. The party will tour the Island and will return to Seattle via Vancouver. The story of the trip will appear later on the front page of the automobile Sunday supplement of The Post-Intelligencer.

Layman as Moderator.—J. Willis Baer, Pasadena, Cal., banker, was elected moderator at the one hundred and thirty-first general assembly of the Presbyterian Church in the United States in session at St. Louis, Mo., last week. This is the first time in history a layman was chosen as the highest officer of the Church. Mr. Baer's opponent was the Rev. Dr. S. Hall Young, an Alaskan missionary.

Mrs. Macdonald Fahey to Sing Tuesday

ALLURING PROGRAMME FOR RECITAL TUESDAY

Mrs. Macdonald Fahey, Well-Known Soprano, to Sing at Empress Hotel

Considerable interest has been aroused by the announcement that Mrs. Macdonald Fahey will give a recital at the Empress Hotel on Tuesday evening, and her reappearance after a long absence from the local platform is being anticipated with much pleasure by her many admirers. An especially attractive programme, of a catholicity to appeal to every taste, will be presented by Mrs. Fahey. The detailed programme follows:

1. Aria from Don Carlo Verdi
2. Four songs by Edvard Grieg—
(a) In the Boat
(b) Solvig's Song
(c) The First Primrose
(d) My Mind is Like a Peak Snow Crowned
3. Modern French songs—
(a) Serenade Gabriel Pierné
(b) Si mes vers avaient des ailes Reynaldo Hahn
(c) Ouvre tes yeux bleus Jules Massenet
(d) I Dreamed I Dwell in Marble Halls Balfe
(e) Caller Hérrin Lady Nairne
5. Three Opera Arias—
Louise (Deplus le Jour) Carpentier
Toots (Valse d'Art) Puccini
Dinorah (Ombra leggiera) Meyerbeer

JOHN McCORMACK TO SING AT SEATTLE

Famous Tenor an Exponent of Gospel of Hard Work

John McCormack, the famous Irish tenor, is to sing at the Arena, Seattle on Monday evening, May 26, under the auspices of the Ladies' Musical Club of the Sound city.

He was born in the town of Athlone, Ireland, on June 14, 1884. At the age of 12 he was sent to Summer Hill College, Sligo, where he was graduated at the age of eighteen with the highest honors, taking all the prizes in his class in Latin, Greek, the mathematics—in fact, he won a sufficient number of prizes and scholarships to pay "his own way" for five years of the six-year course. He had some local reputation as a singer, but his parents did not realize the great things he was capable of accomplishing in that line, and he did not take to himself the credit for being anything distinctly out of the ordinary. After his graduation from college his parents sent him to Dublin to take an examination for a place in the Royal College of Sciences. Apparently the idea did not occur to them that he would be able to turn his vocal talents to commercial account. One day he sat at the piano, accompanying himself in one of his favorite songs. A doctor from his home town entered the room. "Don't stop," said the physician, as McCormack started to get up from the piano. "Begin it over

again and let me hear it all." When the song was completed the doctor took his leave. "I'm going to get Vincent O'Brien," he said. "I want to have him hear you sing." Vincent O'Brien was director of the Marlborough cathedral choir, Dublin, and one of the most important musical personages in the Irish capital. He was speedily found by the doctor and introduced to McCormack. "Sing anything," said O'Brien. McCormack sang, "Then You'll Remember Me," from the "Bohemian Girl." "Young Man," exclaimed O'Brien, "there's a fortune in that voice. Don't you dream of being anything else but a singer." Then and there it was arranged McCormack should become a member of O'Brien's choir. For two and one-half years he studied in Italy under a famous master, Sabbatini, acquiring there the fine Italian legato and the perfect phrasing which make him a model of natural expression. He is a consistent exponent of the gospel of hard work. Hour in and hour out he may be found at the piano studying new songs or making sure of his absolute mastery of the old ones.

SISTINE CHORISTERS COMING TO STATES

The visit to America next season of a quartet of soloists from the Sistine chapel choir is exciting much interest here from the Catholic church's vocalists from the Catholic church's most ancient and honored choirs. Some disappointment, however, is expressed, as it was believed for a while that the country was to be honored by a visit of the entire organization. This was found impracticable, and so the four greatest singers of the Roman chorus in the Sistine chapel will be heard. They will be accompanied by Albert Cammett, pianist and precursor of the choir. Their repertoire will include not only the expected sacred selections, but operatic and other music as well.

NEW ENGLISH OPERA

Opening Performance of "Amy Robsart" Received Enthusiastic Welcome in Liverpool

An active campaign is being waged in Great Britain for the proper recognition of British music and composers by the public, and for this reason more than the usual interest attached to the first performance of a new English opera, "Amy Robsart." The opera was produced at the Shakespeare Theatre, Liverpool, and was accorded a tremendous reception. Madame de Lara, the composer, was present and was accorded an ovation at the close of the performance, when, after being recalled ten times, he made a speech from the stage. In the course of his remarks, Mr. de Lara said that though he was the composer of no less than eight operas this was the first time that any one of them had been performed in his native language, though the number of performances of these operas ran into the thousands in various countries on the continent.

TO INAUGURATE RECITALS IN SOUTH AMERICA

Alma Simpson, who enjoyed, before the war, a successful though brief career in grand opera in Europe and who has achieved celebrity in her Eastern engagements, sailed recently for Lima, Peru, on the Santa Lucia, with Earl W. Morse, American violinist; Bethune Trigor, accompanist; her business manager and her secretary, Miss Simpson is the daughter of G. W. Christensen, 1226 Highland place, Seattle.

Miss Simpson's "Sirenes Classiques" which will be joint vocal and violin recitals, will be presented at the municipal opera houses of South American

capitals. This is the first time, it is said, that song recitals have been given in South America. Alma Simpson's programme, of which she will present four, comprise old and modern English, Italian, French, German, Russian and Spanish compositions, each of which she sings in its original language.

OMIT CHRISTIANITY IN CHURCH STATEMENT

New York Church Will Not Recognize Sect, Class, Nation or Race

New York, May 17.—The Church of the Messiah, Park Avenue and Thirty-fourth Street, by a vote of its members, has adopted a new statement of purpose, from which mention of Christ and Christianity is omitted. The Rev. John Haynes Holmes, the pastor, announced that henceforth the Church will not recognize "sect, class, nation or race." "We are taking a step that will put our Church abreast of the times," said Dr. Holmes. "A spirit of progress is awakening in all religions although it has not yet manifested itself in most Churches. We believe the day of denominationalism is gone. I, myself, am a Christian, and I believe the best in Christianity and the best in Judaism are identical. We already have about fifty Jews and some Hindus in our membership. Chinese will be welcome regardless of their faith. You will notice that Christianity is not mentioned in our new statement of purpose." The statement of purpose as adopted by the members read: "This Church is an institution of religion dedicated to the service of humanity. Seeking truth in freedom it strives to apply it in love and cultivation of the character, the fostering of fellowship, in work and worship, and the establishment of a righteous social order, which shall bring abundant life to man. Knowing not sect, class, nation nor race, it welcomes each to the service of all."

BOSTON SYMPHONY ORCHESTRA

The conductor of the famous Boston Symphony Orchestra next season will be Pierre Monteux, now director of French opera at the Metropolitan. The present conductor, Henri Rabaud, will return to his family in France next month. The most popular song among the ranks of the English soldiers was the hymn, "In the Cross of Christ I Glory." In the exercise of supreme emotions engendered by the sacrifices of the battlefield, the soldier turns to the sincere and worthy in sentiment in music. La Brabançonne, the Belgian National Anthem, is replacing the German National Anthem in a hundred thousand American school books. After serving in the war as sergeant of artillery in charge of an anti-aircraft in Umbria, Tita Ruffo, the distinguished baritone has arrived in America and will go to Mexico City, where he will sing for two months. Julia Culp, the celebrated Dutch contralto, will tour America next season in concert.

HUMOR IN ALL TRADES.

Policeman (to suspicious stranger at midnight)—What are you doing in this store?
Burglar—Can't yer see I'm takin' stock?

SMOKING IN CHURCH

Startling Inaugurations Suggested by Congregation of a London Church. Worshipers at St. James's Church, Bermondsey, London, were appealed to last month for frank suggestions as to ways in which the Sunday evening services could be made more helpful and popular, with the result that some interesting replies have been received. Eleven correspondents advocate that part of the church, either a gallery or the back pews, should be reserved for smokers. It is suggested that where the pipe cannot be admitted the male will not go. Another member is anxious to know why a Lesson should always be read out of the Old Testament. It could be more profitably chosen, he thinks, from Carlyle or Ruskin. When it comes to the sermon the vicar and his curate are in something of a quandary, so varied are the suggestions. Some want topical subjects, while others ask for a studious course of instruction in the problems of economics, ethics, or philosophy. There is one suggestion which stands in a category by itself, and that is the advice to turn the church into a cinema. "A hearty laugh at Charlie Chaplin does more good than any piety," says the writer.

Yes, you can easily get rid of that Constipation by using

"RIGA"

Purgative Water. It never fails, acts mildly but surely, without colic, nausea or pain.

NONE BOLD ENOUGH TO SIGN ELK LAKE LEASE

An unaccountable unwillingness on the part of city aldermen to sign the notice of motion to lease the Elk Lake watershed area has been displayed by city aldermen. The Streets Committee of the City Council was informed yesterday afternoon by City Solicitor Hanington. For some reason or other, through the notice of motion confirming the lease of the property to the former caretaker has been ready in the City Clerk's office for some time no one to sign it has been discovered among the eleven members of the Council. Alderman Sargent excused himself on the plea that he already had a large number of notices on the board, and he did not want his name plastered all over it. Alderman Sangster pointed out that he had all along opposed the lease, and could not therefore be expected to move that it be approved.

As a matter of fact there was some opposition to the lease of Elk Lake to the former caretaker when the matter was first discussed, Alderman Sangster leading the party who thought that a better bargain could be secured elsewhere. A number of applications for the lease of the property have since been received, and writers have demanded of the Council why tenders were not taken for the use of the land. Mr. Hanington told the aldermen yes-

BY-LAW RUNS AGAINST SNAG EARLY IN CAREER

Some thirty-six hours after it came into force the City Council's latest attempt to deal with the early closing problem ran against a snag yesterday afternoon. When the Streets Committee of the Council was about to adjourn E. S. Woodward, of the Retail Clerks' Association, brought to the attention of the aldermen what he considered a flaw in the new Closing By-law.

Under the new ordinance, he asserted, Chinese stores which sell fifty per cent. of perishable goods are able to remain open on Wednesday half-holidays. Some of the aldermen thought that the Provincial Act covered this point, but Mr. Woodward insisted that prosecution made for Wednesday afternoon trading would fall as the by-law stood at present. The Committee promised that the matter would be investigated and that if a flaw really did exist, the by-law would be referred to the Council for amendment.

WILL ASK PROVINCE TO AID IN PAVING

Little Money Expected From Land Owners Along Esquimalt Road

The Provincial Government will be asked to pay a part of the cost of paving Esquimalt Road from Point Ellice Bridge westward, in accordance with a decision of the Streets Committee of the City Council yesterday afternoon. The Chairman of the Committee and members of the Council will meet the Minister of Public Works immediately on his return to the Capital and will solicit the Government's aid.

The Committee was informed by letter yesterday afternoon that the B.C. Electric Company had indicated its willingness to establish permanent tracks on the Road if the paving were laid, while City Solicitor Hanington stated that he could see no legal difficulties in the way of the work.

Discussing the possibility of the city collecting by the local improvement plan money toward the road from the adjoining residents, Alderman Sargent remarked that the land did not look as if it would be productive of much revenue.

Though he was personally opposed to the local improvement system, Alderman Johns reminded his colleagues that other property owners in probably no better financial circumstances had paid their share of improvements.

"Well, we had better know where we are going to end up on this proposition before we start," advised Alderman Sargent.

"I don't believe it will be possible to get the people there to approve a local improvement scheme," agreed Alderman Sangster. "The people won't do it. We must get the Provincial Government to put up its share of the cost."

"If there is going to be a Johnson Street bridge in any reasonable time won't it be unnecessary to pave from Point Ellice?" queried Alderman Johns.

Alderman Sangster replied that there would always be heavy traffic over Point Ellice bridge and under the present condition the money used to keep the road in repair was wasted. The aldermen thought that it would be good business to pave the road even if the city were obliged alone to foot the bill.

KEPT MUM.

"Did the bride's father give her away?"

"No; on the contrary he told the bridegroom she would make him a very economical wife."—Answers, London.

A MODEST AMBITION.

"I'd live in a house by the side of the road. A friend of mine said, 'I mean not too friendly, but just enough. To sell them their gasoline.'"

—Tennyson J. Daft.

AS AGE CREEPS ON

As age creeps on, vital force gradually decreases, until, when a man or woman is around 50, the kidneys and bladder need assistance to keep them in perfect working order.

Rheumatism, neuralgia and backache are common complaints of those getting on in years. It seems to be the custom to expect these afflictions—conclude they are simply the inevitable results of old age, and that there is no remedy for them.

There is a remedy—Gin Pills—and there are hundreds of people who can prove that the remedy is good.

Mr. Frank Lalonde, a well-known farmer of St. Raphael, Ont., was enabled to return to work at the age of 61 by the help of Gin Pills. Mr. Lalonde writes that he had suffered for years with pains in his back and sides, until finally he was forced to quit work. Gin Pills relieved him to such an extent that he now states he feels as strong at 61 as he did at 30 years.

Mrs. Hugh McLeod, of Lewis Cove Road, had a similar experience with Gin Pills. In her letter to us she says:

"I am 51 years and the mother of 8 children. Five years ago I was troubled with backache and dull pains across the abdomen. I used a box of Gin Pills, and feel much better. I will continue to use Gin Pills."

Testimonials such as these cannot be disregarded, for the aged speak the truth.

It is foolish to suffer when you don't have to. Use Gin Pills and enjoy your latter years. 50¢ a box. Sold by all dealers. Sample free upon request to The National Drug & Chemical Co. of Canada, Limited, Toronto, Ontario. U. S. residents should address Na-Drugs, Inc., 203 Main St., Buffalo, N. Y.

CELTIC BROUGHT MANY VICTORIANS

Large Party Debarked at Halifax for Vancouver Island

The British Columbia Returned Soldier Commission, Parliament Building, Victoria, has been advised by telegram from the O.C. Clearing Depot Halifax, N.S., that the following party from the Celtic arrived there on May 15, and on the same date for their dispersal areas. This party will probably arrive here on Sunday:

Victoria.

INSPECTED CADET CORPS

Major-General Leckie Pleased With Performance of Central School Boys

Showing that they had profited a great deal by the military training they had received, the Central School Cadet Corps marched past Major-General R. G. B. Leckie, C.M.G., G.O.C., yesterday afternoon in a most soldier-like manner. The general admired the formation as well as the uprightness and general bearing of the lads.

The corps was formed up on the school grounds and at the general stepped forward to make the inspection the lads presented arms in a competent manner. Following the inspection the corps carried out a few manoeuvres and then marched past.

Among those on the reviewing stand with General Leckie were: Major Bolton, Principal Cunningham, Inspector

The Travels of a "B.C." Dollar

Wages for Employees

Study This Story In Pictures

From the grocery store the dollar goes back to a B. C. Flour Mill where it is paid out in wages and up-keep; employees make their homes in B. C.; shoes, dry goods, etc., are bought; taxes paid, schools maintained and improvements made. All the result of your buying such a B. C. product as—

ROYAL STANDARD FLOUR

And, in buying ROYAL STANDARD FLOUR you will not be using a "just as good" article. Standards set and tests made, keep it just a little better than any other flour milled elsewhere. Your bread will have a bigger "oven-spring" and a finer texture as the result.

Vancouver Milling & Grain Co. LIMITED

This is Doing Yourself a Real "GOOD TURN" You Ever Did

And Comes Home With More Jobs for B.C. Men

"Oh, I Cannot Eat. There is Not a Thing that I Want"

"BUT you will never gain strength if you do not eat."

"No, I suppose not."

"What did the doctor say?"

"He blames it all on my nerves; says my nervous system is exhausted and that I have nervous indigestion."

"Does he think you will soon be better?"

"No; he says I will have to be patient and let my digestive system rest and my nerves gradually regain vigor."

"Well, I know what I would do."

"What is that?"

"I would start in right now with Dr. Chase's Nerve Food. I have been nursing on so many cases just like yours and have seen so many cured by using Dr. Chase's Nerve Food that I am sure it is just what you need to restore your nerves and make you well."

"I have heard lots of my friends tell about using Dr. Chase's Nerve Food when they get run down, but it never occurred to me to try it myself."

"Well, I certainly would try it if I were you. I have never seen such results as a treatment for the nerves from any medicine that the doctors give."

"If you will go around to the drug store and get me a box I will start in right now. Goodness knows, I need something to build up the nervous system so that I can eat and sleep and get some strength."

"All right, I will do that, and I know you will thank me for suggesting it."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.75, all dealers, or Edmansson, Bates & Co., Limited, Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

MILEAGE QUESTION IS MOST IMPORTANT

Partridge Tires Stand Rigid Tests, Says Thomas Plimley, Local Distributor

"The question of mileage to be secured from your tires is usually the deciding factor in purchasing. The tires that give the most mileage for the money expended are the most economical tires, no matter what their original cost.

"That is why Partridge tires are winning such an enviable name amongst the drivers who keep track of their mileage," said Thomas Plimley, local agent for Partridge tires.

"Partridge Tires represent the output of up-to-date factory and of men of wide experience in tire manufacturing. They are scientifically correct, made of the best material that can be bought and consequently are durable and dependable," he continued.

"The Partridge tires are 'hand-built' and that means in tires the same as it means in clothes. Every part of every process is watched by expert tire builders and tests are made at frequent intervals. The greatest resiliency, combined with undoubted strength, that years of study have been able to build into a tire with a reputation to maintain is found in the Partridge.

"The pleasure of motoring depends on the absence of tire trouble, and that's why Partridge tires and inner tubes should be specified when buying a car.

"Partridge non-skid for rear wheels and Partridge guides for front wheels give that feeling of security against accident or annoying delays.

"The Partridge tires are made in Canada and are adapted to Canadian road conditions. Sea Island and Egyptian rubbers, fine Para and the best grades of cultivated rubber only are used in their manufacture.

"Partridge inner tubes are of all the same high grade of material and workmanship as Partridge casings. Two kinds are made, one of red rubber, the other of standard grey. Both are heavy and of unusually tough texture, the proportion of pure rubber being the highest that safety and utility permit.

"No inner tubes surpass Partridge brand in any desirable feature.

HINTS TO REMEMBER WHEN BUYING A CAR

R. E. McMorrin, Hupmobile and Briscoe Agent, Offers a Few Suggestions

The average buyer who is not familiar with cars, does not have to trust to luck, if he will remember some of the following simple rules.

No one can doubt that in addition to pleasing his own desires in the matter, the buyer of an automobile has added something to his country's efficiency by putting into service another vehicle that contributes just that much to its transportation system. In fact, it is considered the patriotic duty of every man who can afford one, to buy a car so as to help make up for the decreased number put in operation during the last months of the war.

It is probable that more than 1,500,000 motor cars will be purchased during the remainder of 1919. The average man's investment will run somewhere in the neighborhood of \$2,000. "We want to point out briefly some of the precautions that the prospective purchaser should take before he signs his name on the dotted line," says the Calgary Herald, in writing on this subject.

"First, be sure that the maker of your car is financially sound and going to stay in business.

"Secondly, be sure the dealer has a good general reputation, especially among his customers. One giving quick service and open day and night is decidedly preferable.

"Third, if you do not feel fully qualified to pass on the mechanical qualifications of the car (after having selected a body model suited to your requirements), you should make careful examination of the front seat, and test the driving controls. Next ascertain frequent cleaning or adjustment are easily accessible.

"Look at the oil and grease cups to make sure they are easy to reach. See if the differential housing is easily drained and that the brake adjustments may be easily made.

"A car that is to be used in a hilly country must be a good hill-climber; it must have some superfluous power. For service anywhere, the owner wants a car with a respectable turn of speed. Any car should be able to throttle down to a slow pace while being driven in high gear.

"Take some thoroughly qualified but disinterested friend along with you when the car is being demonstrated. If he and you are both satisfied with the car's performance, there is just one thing more of importance to remember. The prospective buyer's best insurance is the purchase of a car manufactured by a company with a reputation to sustain, a car whose mechanical parts are of sufficient size and strength and where there has been no skimping in materials."

Mr. R. E. McMorrin says: "There are nearly a hundred different makes of cars on the market, but all will give more or less satisfaction, but if the prospective buyer will give the thought he would give a business transaction involving the expenditure of the same amount of money, bearing in mind that it is an investment for business as well as pleasure, he will treat the operation seriously, and first of all will investigate the new Hupmobile and the new Briscoe and then be governed accordingly."

AUTOMATIC LOCKING DIFFERENTIAL USED

Shell Garage Salesman Explains Why Nash Trucks Are Safe and Efficient

The satisfactory performance of Nash rear driven trucks in heavy service and their unusually low cost to operate is due in no small measure to the fact that they are equipped with the M. & S. type of automatic locking differential," declares J. E. Eve, sales manager for the Shell Garage, local agents for Nash cars and trucks.

"Briefly, this differential prevents the spinning of either rear wheel, no matter what resistance its mate may be encountering. It thus gives the wheel with traction adequate power to pull the truck out of trouble.

"It is also a safeguard against skidding. Neither rear wheel can ever turn faster than the other because it has lost traction. On slippery roads or pavements, where momentarily one wheel loses traction, the truck is never thrust sideways by the power of the other wheel.

"When one drive wheel of the truck with ordinary type of differential gets mixed or into deep snow, it receives very little if any power to help itself out. For, because this wheel is getting the greatest traction resistance, the power, taking the easiest course, is all going to the other wheel revolving this other wheel so fast that it loses traction altogether and spins, leaving both wheels without driving power and putting the truck out of service until it receives aid.

"With the automatic locking differential on Nash trucks the wheel with the greatest traction gets the greatest power. On the straightaway a solid one and the power of the motor is distributed to the wheels in the exact proportion to the traction they are getting. This means that the wheel mixed or meets a slippery spot the other wheel with traction drives the truck forward.

"Add to the fact that Nash trucks are amply powered to pull themselves out of tight places, they have the additional advantage that they are unusually economical of tires because their rear wheels can seldom spin. Spinning, as everyone knows who is at all familiar with trucks and automobiles, is a great destroyer of tires because it subjects them to unusually severe strains.

"Nash trucks equipped with this type of differential, and with their powerful motors, will go where other trucks with the ordinary type of differential find themselves in much difficulty. The Nash truck must be in a tight place, indeed, not to be able to get itself out under its own power.

"Users of trucks, especially those who must have a dependable service in very season of the year, winter as well as summer, will appreciate at once what a big advantage this efficient differential gives to Nash trucks.

"A demonstration of the Nash truck where road conditions are such as to give the differential a thorough test will convince you that the Nash is the truck you need to solve your hauling problem. It will show how much this differential contributes to satisfactory truck performance."

FYR FYTER POPULAR WITH AUTO OWNERS

Canadian Fairbanks - Morse Local Agents For Effective Apparatus

"Less than five per cent of all fires result in total loss, yet the average total loss per fire is estimated over \$500. Ninety-five per cent of fires start as little blazes where a good one-quart extinguisher quickly on the job is worth a great deal more than the city fire department later," says the local manager of the Canadian Fairbanks Morse Co. Ltd.

In further explanation of the Fyr-Fyter fire extinguisher known as the Fyr-Fyter, which is a never-failing fool-proof gun, instantly efficient and always dependable, and which is becoming exceedingly popular with the motor fraternity," he continued.

In further explanation of the Fyr-Fyter gun he explained that it is a powerful air pump which operated which discharges the liquid in a continuous easily-aimed stream. As the operator approaches the fire he can place his finger over the nozzle and begin to pump. As his finger is removed a strong, steady stream is instantly discharged. For fires in inaccessible places and where constant pumping is not possible, this feature cannot be overestimated. There is no loss of liquid, no dripping, and every drop of liquid is used. The pump capacity is great enough to permit the fire fighter to extinguish fire effectively at a distance of over twenty-five feet. A dent in the shell of the machine cannot interrupt the pick-up mechanism and Fyr-Fyter is always ready to shoot.

Coming in contact with the fire Fyr-Fyter liquid forms a heavy glass blanket which smothered fire by cutting off the oxygen. It is free from acids, alkali moisture or other injurious ingredients. It is an absolute non-conductor of electric currents, resists heat, and is not affected by the action of all

BUILDS ON REPUTATION

Wm. D. Cartier Speaks of Value of Right Treatment of Patrons.

"The only way to insure quick sales in the used car business is to insure a high grade stock of machines," said Wm. D. Cartier, used car dealer in the Old Church building yesterday. "If your patrons learn that your cars are reliable and they can always depend on getting a user car that lives up to the reputation given it they are always certain to talk about it."

Mr. Cartier reports that he has a number of excellent buyers on hand at the present time. In line with all other local dealers he reports that business is good.

737 BROUGHTON STREET.

In many of the older car models no means of adjusting the valve clearance is provided. By slipping one or more fibre or metal disks of sufficient thickness to take up the excessive play between the bottom of the valve stem and the push rod this trouble may be obviated. A metal retainer cut from sheet metal will keep the disks in place.

Few persons associate diamonds with the manufacture of motor cars, yet thousands of dollars worth of these precious stones are used each year in the big plant of Willys-Overland, Inc., at Toledo. The diamonds are used to "true up" emery wheels essential in grinding the more minute parts which go to make the Overland and Willys-Knight cars.

CITY MOTOR CYCLE PATROL IN BEACON HILL

The pictures of Mounted Officers G. E. Allen and T. Palmer with C. L. Harrison, Island Automobile Association, were taken to illustrate the gradual abandonment of the police mounted patrols in the city police force, and their substitution by motor cycles.

OVERLAND AGENT HERE PREDICTS BIG YEAR

Thomas Plimley Says Demand So Great Production Can Hardly Keep Pace

The Willows-Overland Company is now nearly up to normal production, but still the demand for Overlands is so great that even with the increased production there is still a shortage, reports Thomas Plimley, local Overland Distributor.

Millions of motor cars will be needed this year. For two years, 1917 and 1918, the output was below normal on account of the demand for war material. Many men who then owned cars and used to get new ones every year have been driving their old machines. Now that the war is over and conditions are rapidly assuming normal, these men want new automobiles. The production in 1916 was the greatest in the history of the industry. In 1917 this fell off and in 1918 the output was curtailed almost 50 per cent. of normal, so that the production will be less than the best previous year for the industry in 1916.

From these figures it can be readily seen that there are more buyers than there are automobiles produced. This does not take into account the hundreds of thousands of motor car prospects who will obtain their first automobiles this year.

50,000 For California.

Experts figure that in California alone there will be a demand for at least 50,000 machines. They figure that the average life of a car is five years. At the end of that time the car is either traded in on a new one or junked. In most instances a five-year-old car is junked.

This creates a demand for 50,000 cars a year. The year 1919 will amount to more than that, because there are those thousands who never before owned a car and are now getting them.

Business is better on the Pacific Coast than in any other part of the country. The reason is that the demand for cars here is greater. The people of this country need automobiles for every purpose under the sun. They need them for business, for pleasure and for transportation between cities and from farm to market.

"We figure that the year 1919 will be the greatest in the history of the motor car industry and that the Pacific Coast will get its full share," said Mr. Plimley.

It is poor practice to try to iron out dents in the fenders by hammering them with a block of wood, without removing them from the chassis, as so many car owners do. Inevitably this treatment leaves the fenders battered in appearance, and it may even cause more extensive damage. The only safe method is to remove the fender from the car, place it on the bench and hammer out the dents with a mallet and block of wood shaped to fit into the curve of the fender.

BEACH AT MILL BAY

the swollen condition of the river, our catch was not meritorious.

An early start was made on Saturday morning for Campbell Lakes, a string of lakes situated in the mountains and a veritable fisherman's paradise. As the clerk of the weather did not oblige, and as we were more on a sight-seeing trip than a fishing expedition, it was decided to continue the mountain road to the end, which by the way is the end of the road on Vancouver Island. Here I must pause to emphasize the magnificent scenery along this road, which travels through such dense forests that it was almost necessary to switch on the lights, but the most remarkable feature of all is the excellent condition of a really well-made road where one would never dream of its possibility. At the end of this road is a trail which leads to the Strathcona Park, under Government supervision, a distance of twelve miles, which can be traversed either on foot or pony. Ponies can be hired at Campbell River. The great attraction to this park is its magnificent scenery, and Buttle's Lake, which is the finest piece of water on the island for trout fishing.

After saving this ideal spot we wended our way back through the forests, springing several large game and innumerable grouse and pheasants en route to Campbell River and the Willows Hotel.

We left this haven on Sunday morning with regrets, and with Cameron Lake in view as our destination, a distance of about thirty-five miles in the direction of Victoria once more.

Cameron Lake is situated in the heart of a range of mountains, a steep climb for quite a long distance, and here I must give due notice to the wonderful "Gray Dory," which climbed some hills on high without the slightest hesitation. On one side of this beautiful lake runs a road that leads

SMOOTHEST REGULATOR FOR THE BOWELS IS HAMILTON'S PILLS

No Headache, Biliousness, Indigestion or Sour Stomach Where They Are Used.

A FINE CONSTIPATION CURE!

They Cleanse the Liver and Move the Bowels While You Sleep

Like a ship in the night, your constipated headache and digestive troubles will disappear after using Dr. Hamilton's Pills.

They cure the worst cases, act quietly at night while you sleep, and give you next morning the freshest, briskest, happiest feeling you have known in many a day.

Hamilton's Pills will move up the most dependent sufferer.

They will make tired folks feel like kids at play.

They overcome backache, sideache, nerveache and stomachache and kidney-ache.

If they fail to do this, you can have your money refunded. Fair enough, eh?

Don't stay sick or ailing! Use this grand family remedy at once. It will give you energy, spirit, ambition, appetite, good blood, better nerves—in short, good health. You can get all this in a 25¢ box of Dr. Hamilton's Pills. Sold by all druggists.

Among the Timbers

to Alberni; here the road is as good as any city pavement.

It was our fortune to arrive at the lake on a stormy day, and the view presented almost struck one speechless. The lake was churned up and very rough, clouds were rolling down the precipitous mountains which surrounded us on all sides, with an occasional break in the clouds which revealed a magnificent spectacle of fresh snow-capped peaks towering above.

On Monday morning, 10.30, we left this charming spot for the run home, a distance of about 112 miles, breaking the journey at Nanaimo for luncheon and leaving about four o'clock, arriving home in good time for dinner, ending the most delightful "four days' tour even spent in my life.

NEED OF CO-OPERATION

Comrades of the Great War Hope for Better Feeling Among Returned Men.

In order to promote a greater spirit of co-operation between the various ex-service organizations in this city, several proposals have been introduced. At the regular meeting of the Comrades of the Great War last night, the comrades concluded that the time had come when the organizations should forget their petty quarrels and work together in demanding and protecting the rights of the returned man.

The matter came up for discussion on a letter being read from Comrades Slavin and Smith. They pointed out the necessity of further co-operation and offered the suggestion that the presidents of the different associations pay regular visits to their brother organizations and give short addresses, explaining the work which was being carried out in their particular organizations. Considerable discussion was heard on the letter and every speaker emphasized the need of greater co-operation amongst the returned men if any lasting good was to be had.

To represent the Comrades of the Great War on the Central Council of the four ex-service organizations, the following were appointed: Comrades Abraham, McIntosh, Frogar, Chitty and Shaw.

A resolution was passed which prevents any member holding executive office who is a member of the Intelligence Department.

The Victoria Day celebration was discussed, particularly the part which the Comrades of the Great War is to play at the Gorge. Comrade Slavin reported that splendid medals had been received for the boxing events.

CADILLAC COMPANY TO EXTEND FACTORY

Increasing Business Calls For Expenditure of \$7,000,000; Begg Motor Co., Agents

The important announcement was made last week that work is to start very soon on a new \$7,000,000 factory for the Cadillac Motor Car Company in Detroit. Full details of this gigantic building plans were not announced but it is known that ground has already been obtained and plans completed for the erection of a new factory building in the western part of Detroit, new shipping facilities and a new salesroom and service station for the Detroit retail business.

This is part of the extensive building plan announced by the General Motors whereby \$37,000,000 will be put into new plants and improvements for the numerous General Motors units.

The Cadillac factory will be the most modern in the world and parts of it will be ready for occupancy within the next six months. The present Cadillac plant is one of the largest and best equipped in Detroit and when the Cadillac Company moves into its new buildings the present plant will be turned over to General Motors interests. During the last year an entirely new plant was built for the Liberty motor work done by the Cadillac Company. This is now being used by the passenger car mechanical department.

In view of these immense improvements made by the motor industry, it is interesting to note that within a very short time the people of the United States have purchased over 4,000,000 motor cars since the birth of the industry, representing a total investment of over \$5,000,000,000. This can be fully appreciated when it is recalled that only a few years ago the horseless carriage was a curiosity.

The Begg Motor Company are the local distributors for the Cadillac cars.

GOODYEAR COMPANY INITIATES POLICY

Employees Are Given Voice in Decisions Respecting Working Conditions

The establishment of a council of industrial relations, giving representation to all employees more than fifteen years of age who are American citizens and have had six months continuous service or one year's total service with the factory, has been announced by the Goodyear Tire & Rubber Company, Akron, Ohio.

This important step in the policy of one of America's greatest industrial organizations, vitally concerns more than 20,000 Goodyear workers, as they will in the future have a large voice in shaping the policy of the factory on such subjects as employment and working conditions and reconstruction problems generally.

This council of industrial relations will meet with the factory manager, and is intended to be made a broad and comprehensive democratic form of management in keeping with the progress of the times and as part of the great programme of reconstruction taking place at the Goodyear factories following the return of business to a normal basis.

"During the last two years," says P. W. Litchfield, vice-president and factory manager of the Goodyear, "our organization was shaped to conform with the war policy of our country, and our aims and plans were set aside until the emergency was over. That time is now past, and we have turned again towards the goal of a normal and better Goodyear. After a year of drain on our resources of men and meeting of problems on an emergency basis, we now find ourselves with our old men returning to us, and we are able to plan in a broad and consistent way."

The practical working out of the new democratic form of factory management contemplates, in its details, a body to be known as a council of industrial relations, composed of an executive council consisting of five members named by the factory management, the manager and assistant manager of the labor department, two foremen to be selected by all the factory foremen, and six non-salaried employees.

All questions of industrial relations will be passed upon by this body, and a plan to establish a legislative body.

At least two new tubes when on a tour, as even the tightest of patches may work loose on repaired tubes when driving over hot roads.

VALUE OF FEDERAL TRUCK DEMONSTRATED

Revercomb Motor Company Tells of Its Advantage in Farm Use

Federal trucks, for which the Revercomb Motor Company recently were appointed local agents, are proving their popularity by the number of sales that are being made. Walter Revercomb reports that although his company has only recently acquired the Federal agency three trucks have been sold with a good prospect list on hand at the present moment.

The truck as a factor in helping to reduce the cost of meat and other food commodities is emphasized by the local dealers. The demand of the country for cheaper foodstuffs is responsible for the immense quantities that have been raised. All these increased crops must be transported to the consumer, but if the place of their origin is some district that is distant from the market, and this in invariably the case, then one or more forms of hauling must enter into the question of marketing, and just as invariably the truck plays a leading part.

"When one thinks of the immense food that trucks are doing—when you try to contemplate what the world would do without them—then it becomes possible to realize the importance of motor trucks in their influence on every man's life, whether he owns a truck or not or whether he is even in business for himself," said Mr. Revercomb.

"Haulage is becoming a universal factor in success in almost every line of business everywhere. The great Munson ranch near Spokane, for instance, found that it was costing 10 cents per bushel to haul grain by team twenty miles to Almira, Washington. Upon investigation and demonstration it was found that a Federal 3½-ton truck would haul the grain that distance for 2½ cents per bushel, or a saving of about seventy-five per cent. Further, they can move the grain crop in less than one-third the time and they have the truck for all sorts of other useful purposes.

"That is only one of many practical demonstrations of how the truck is rapidly coming into prominence in the farming as well as other fields of industry," concluded Mr. Revercomb.

When the doors on one side of the body do not fit properly, either bind so that they are hard to close or fit too loosely, with so much clearance that the catch will not snap, the trouble wedges under the body at the rear. Metal plates may also be used. In either case the wedge should be bolted through the frame so that it will remain firmly in place.

Cheap Tubes Are an Extravagance

The cost of a tube is not measured by its price or life alone. It is the assistance it gives the tire to render greater mileage that counts.

Suppose you purchase a cheap tube for a few dollars less than the price of a good one. Then you put this tube into a high-priced casing—and lose thousands of miles of service.

A tube which fails to hold air properly is the most expensive tube in the world. The air escapes slowly but surely, lowering the pressure and deflating the tire. The best casing made cannot stand such treatment. Under-inflation quickly ruins any tire.

Goodyear Tubes are built up of many thin sheets of fine flawless rubber—with the valve patch vulcanized in. It costs more

to make this tube. It costs you more. But it costs less in the end because it goes farther—it helps the tire go farther.

Particularly remember—the larger your casing, the more important is it that the tube should serve you well. For with a large and costly casing you have much more to lose should the tube fail you.

For greater service, Goodyear produced the Heavy Tourist Tube—extra thick and extra good—a tube which will more than earn its extra cost in long life and assistance to the tire.

When you buy tubes, say "Goodyear"—distinctly. And if you buy the Heavy Tourist, see that you get the handy waterproof bag it comes in. Box, bag and tube are stamped "Heavy Tourist."

DEMAND FOR FORDS

SURPRISINGLY KEEN

Local Distributors Report Shipments Sold in Advance; The Ford Street Car

are much in advance of the supply. For instance, a carload of Fords reached the city this week, and there is not one of the consignment left. Another carload is due to reach the city next week, and every car in the lot has been sold in advance. A carload of trucks was also received by the National Motor Company this week, half of which were snapped up before the week was half spent. The prospects for sales of one-ton Ford trucks is exceedingly good, report the local distributors.

Ford Street Cars

The latest interesting news from the Ford factories in Dearborn, Michigan, is that Henry Ford's new production combustion engine street car, which is being built on a track like an automobile, it will not be equipped with pneumatic tires, as generally

with steel flange wheels and will have a carrying capacity equally as great as the present trolley. E. G. Liebold, secretary to Mr. Ford, states that if Dearborn township officials grant Henry Ford's application for a blanket franchise to operate a line in that township, the internal combustion street car, suggested as Detroit's solution for traction trouble, will be given a practical working demonstration.

Mr. Liebold said the franchise was sought both as a means to haul Ford workers between Dearborn and Oakwood, serving as a speedy method of transportation for the workers in the tractor plant and in the huge blast furnaces, and to prove the worth of the internal combustion gasoline-driven street car accepted by Mr. Ford as the traction unit of the future.

If the franchise is granted, work on the line will start within six months and cars will be in operation within eighteen months. Three cars of the proposed internal combustion type are now under construction at the Ford's tractor plant at Dearborn.

NOTHING SENSATIONAL

But Business Continues to Be brisk, Says Jack Cartier, Used Car Dealer.

"I haven't been up in an aeroplane and I haven't been arrested, so there is nothing sensational that I can tell you in the way of news," said Jack Cartier when a Times representative dropped in at his Johnson Street garage this morning.

"I can assure you, however, that the sales of used cars are just as brisk as they have been at any period during the present season," continued Mr. Cartier.

Coming from the clutch of a motor is the effect of a spark plug. The spark plug is the part which ignites the mixture of the oxygen. It is for a fraction of a second that the spark plug is in contact with the mixture. It is an amazing fact that a spark plug can be used for a long time without being replaced. The spark plug is the most important part of the engine. It is the spark plug that starts the engine. It is the spark plug that keeps the engine running. It is the spark plug that makes the engine work. It is the spark plug that is the heart of the engine.

Nash and Reo Cars and Trucks

We are pleased to demonstrate the predominant features of engine accessibility and design of these ultra modern cars, the aristocrat of cars in their class with an economy that cannot be beaten.

Sometimes the owner of a car has the motor to going again, finds that there is a water leak at the head, scraping out the carbon and getting the motor to go again, and that the power plant does not run smoothly.

as well as before he operated upon it. The reason for this is probably that particles of carbon have gotten into the stud holes or around the studs. With bits of carbon lodged here the cylinder head cannot be properly tightened, with the result that there are leaks at this point.

**MRS. J. H. MACGILL
TO ADDRESS CLUB**

Women's Canadian Club to Hear Well-known Vancouver Judge Tuesday

Mrs. Helen Gregory MacGill, Judge of the Juvenile Court of Vancouver, and a member of the Minimum Wage Board, is to be the speaker at the final meeting of the Women's Canadian Club, to be held at the Empress Hotel on Tuesday afternoon next at 3.15. Mrs. MacGill is well-known in Victoria, as well as in her own city, as a woman of keen intelligence, endowed with a broad vision and sympathetic understanding of the problems of the day, and her address on "Raising the Delinquent Citizen" should be of the greatest interest to every woman having the welfare of the community at heart.

In accordance with the usual custom at the club meetings, the business will be interspersed with musical numbers. Mrs. R. D. McCaw and Miss Dorothy Kirk having kindly consented to contribute vocal solos.

**SOLDIER-PATIENTS TO
HOLD GARDEN PARTY**

Leading Artists to Assist at Fete at Esquimalt on Wednesday

The beautiful grounds at the Esquimalt Military Convalescent Hospital will be the scene of a garden fete on Wednesday afternoon, arranged by the hospital's Recreation Club in aid of its funds. In addition to such pleasing attractions as a lawn tennis tournament, and croquet games, an orchestra has been engaged to play throughout the afternoon. A delightful musical programme has been arranged by Mrs. Harry Pooley, and those who have promised to help her are Mrs. Harry Briggs, Mrs. D. H. McCann, Miss Dorothy Kirk, Miss Lillian Holden and Mrs. A. J. Gibson, who will officiate as accompanist for the vocal numbers.

The Recreation Club, whose membership comprises patients of the hospital, has planned the affair as a means of raising funds for the provision of those little comforts in the way of extra delicacies and entertainments which mean so much to the hospital patient who is, by reason of his injuries, cut off from many of the more general forms of recreation. Every cent of the money raised will be used for this purpose and all of the men at the hospital. Given the strong support of the general public the success of Wednesday's entertainment is fully assured.

**INSTITUTION DESIRES
AN ENDOWMENT FUND**

Aged Women's Home Report Shows Pressure of Increased Food Costs

"We commenced the past year with forty-nine inmates, during the year seven left the institution and seven died; twenty-three have entered, so the number in the home at present is fifty-eight," says the report of the Secretary to the Committee of the Aged Women's Home, presented to the subscribers recently.

The report of Mrs. Helen Grant proceeds in part:

"There have been many changes in the staff during the year, and at times it has been very difficult to fill vacancies; but we are thankful to say we still have our capable matron, Mrs. Waldron, and our very kind and efficient nurse, Miss Robb, who, we are glad to say, is back again after her severe illness. During the summer while the matron and staff were having their holidays, Miss E. Flood supplied very acceptably, and afterwards, when Miss West left to take up stenography she took her place as night nurse. I am sorry to say that at present Miss Flood is very ill, and that Miss Fishenden is now supplying in her place."

Allusion is made to the repairs effected at the home. Reference follows to the various activities of the home and, dealing with the cost of living, Mrs. Grant says:

"During the past few years the constant rise in the cost of living and the increasing difficulty of procuring help, and the great increase in salaries, has made the financial problem very difficult. For whereas our expenses have nearly doubled, our income has not kept pace. Many of our inmates having been in the home for a number of years, and are quite unable to increase the amount they pay, and as most of those applying and who need such a home are of limited means and are unable to pay what should be adequate board, and as we are entirely dependent on this board that we receive from the individual inmates, and not having any Provincial or municipal grant, we are in great need of an endowment fund, which would enable us to assist many worthy cases that are not able to pay in full and to supply many little luxuries that are essential to the comfort of the aged and sick. I hope that some of our wealthy people in making their wills will remember our institution; and what better use of money could be made than to leave \$5,000 to our home, which sum, invested in our new bonds, would provide for one worthy old lady, not for a few months, but for all time. Not that we would not be thankful to receive smaller amounts, but we just mention this amount as the unit necessary to provide for one inmate. The thanks of the Committee are gratefully tendered to the kind friends who have in various ways remembered the home."

The President's Report

Mrs. Clay, the President, outlined the necessity to make provision for

more accommodation "before many months pass." She proceeded:

"I think it quite impossible to estimate all that our home stands for the life of our city and province. That a door is open, a table spread and a cosy private room provided, as well as the social pleasures of home life and all the nameless unrecorded services of a thoughtful and competent matron and staff, including skilful nursing, from any cause, find themselves in advanced years and unable to provide for themselves, is to them and to all persons of humane sympathy a matter of relief and gratitude. Moreover, many who have some means but who need a home and are willing to pay at least a portion of the actual cost of maintenance, find in our institution just that which they need."

She made fitting reference also to the late Miss McDowell.

**KING'S DAUGHTERS IN
ANNUAL SESSION**

Mrs. L. H. Hardie Again Elected District President; Excellent Reports Presented

Mrs. L. H. Hardie was re-elected District President, and Miss Leitch, Rest Room treasurer, at the annual meeting of the King's Daughters yesterday afternoon.

The very excellent reports represented at the meeting were illuminating, revealing the vast amount of work carried on in non-spectacular fashion by this splendid body of women. The Salvation Army, the Y.M.C.A., the "Corner in Blight," the Friendly Help Association, the soldiers in the Jubilee and Military Convalescent Hospitals, the B.C. Orphanage, and the hospital at Duncan all were beneficiaries at the hands of the Daughters during the past year, the donations including money and kind. The Victoria Circle achieved an estimable work by loaning out four invalid chairs for the use of soldier patients, while to another circle fell the kindly task of sewing for the children of fallen soldiers.

The rest-room which is one of the biggest undertakings of the Daughters has proved patients, while to another overhead expenses were concerned, the Daughters supplying furniture, dishes were needed as the following financial report of the room will show:

Receipts.	
May 1, 1918, Balance on	47.48
Flowers	1,268.69
Sale of Tickets	128.00
Donations from Circles	220.00
Donation, Mrs. Hobden Gil-lespie	5.00
Stamps Accrued	100.00
Discount on Bills	.50
Total	\$1,544.97
Expenditure.	
Rent	\$15.00
Gas	62.15
Greases and Milk	567.08
Help	178.50
House Committee	15.00
Printing	5.00
Expressage	4.00
Laundry	54.95
Tables and Chairs	47.00
Dishes and Silver	78.50
Plans Fund	5.00
Stamps	5.00
Balance on Hand, M. O. U.	58.31
Total	\$1,544.97

Mrs. Hardie, in her presidential report recapitulated the year's activities, and paid tribute to the officers and members whose cordial co-operation and "team work" had made the work possible. She stated that the Daughters had, by their own efforts raised \$2,956.52 during the year, practically the whole of this sum having been expended in the many patient-rooms and hospital cases which come within the scope of the order.

The breakfast your guests enjoy

When you have week-end guests, or any time you want to serve a particularly appetizing breakfast, make Aunt Jemima Pancakes. You can always be sure these cakes will turn out perfect—tender, golden-brown and rich-flavored.

There's no chance of failure. Everything needed to make good pancakes is already mixed in the flour—even the sweet milk, in powdered form.

SECRETARY DANIELS RETURNED TO-DAY TO U. S. FROM EUROPE

New York, May 17.—United States Secretary of the Navy Daniels, who had been in Europe for several weeks, returned to-day on the transport Mount Vernon.

Secretary Daniels said it was not yet determined what would be done with the German battleships, but that there was a strong feeling, particularly in the United Kingdom, that they should be sunk.

1313-1315 GOVERNMENT STREET, VICTORIA, B.C.

Jim Brown is after another pitcher from Detroit. This particular heaver has what is called the "flivver delivery," acquired while working as "cranker" on Lizzie's in Unk Henry's flivver factory. They say that games will start at 12 noon, when he occupies the mound.

A meeting of the Baseball League will be held at the Foundation clubhouse Monday, for the purpose of drawing up a schedule for the season of an Inter-Yard Baseball League. The League will comprise teams from the Ogden Point, Point Ellice and Point Hope yards, and will be one of the most interesting features of the sports activities. It is expected that within a week's time a start will be made on the series of games.

Did you ever see the musical comedy "Forty-five Minutes From Broadway"? Sharley Corrigan is a dead ringer for "Kid" Burns, the hero of that cast.

Pitcher Tom Rogers to-day went from the local American League team to the Philadelphia Athletics by waiver, it was announced.

The Foundation baseball team will journey to Nanaimo on May 24, and will play against a team of that city on May 24 and 25.

The fans would be disappointed to see Armstrong leave the Tyees now that he has showed what he can do by topping the slugging averages.

During the full week of baseball proms next week, the home supporters will be looking forward to seeing him put a few more over the fence.

Yarrows had a big tumble yesterday. They looked like a different aggregation of players altogether. The Foundation sluggers had a merry time with Fuller's ball.

VICTORIA THE NORTHWEST WORLD

ARMSTRONG HEADS BATTING AVERAGES

Tyees Infielder Sets a Hot Pace for Northwestern League Sluggers

Armstrong, hardhitting infielder of the Victoria Club, is out in front in the race for batting honors of the International Northwestern League, according to unofficial averages compiled up to and including last Wednesday's games. He has collected eighteen hits in forty-seven trips to the plate, for an average of .383.

GEORGE ARMSTRONG.

"Army" at first did not look good to the fans at all, but when he once did get his stride he more than made up for his doubtful debut. The local boy is setting a hard clip and he looks like being able to maintain the pace. Hinkle, Mullen, Easterly and Zinke are all batting in the three hundred circle.

Spranger and Manager Bill Speas, of the Vancouver Club, are also holding positions near the top, the former with a mark of .322 with fifteen hits in fifty-nine times up, while the Beaver plot has an average of .315.

DEMPEY LOOKING FOR TRAINING QUARTERS

Toledo, Ohio, May 16.—Jack Dempsey, challenger for the world's heavy-weight championship, inspected several prospective sites for a training camp on his arrival from Chicago. Dempsey expects to start training Monday for the championship contest with Jess Willard, scheduled for July 4. He said his preliminary work would be designed to increase his speed and endurance. Willard is expected to arrive in the middle of next week.

TYEES COULD NOT PLAY AT SEATTLE YESTERDAY

The Tyees had a disappointment at Seattle yesterday. Jim Brown had his men over in the Sound City all keen and eager to make Seattle the next victim of a series of straight wins for the Victoria boys, and to place the Island club on the top of the league ladder. The weather, however, was threatening all day, and when time came for the game to be called, rain came down too heavily for the players to take the diamond. By a win over Tacoma yesterday Vancouver took second place on the table.

FULL WEEK OF PRO. BASEBALL ANNOUNCED

Tyees Will Open With Tacoma Here Monday For Six-Day Series

A regular baseball feast is promised for the fans next week. President Dunc Hamilton, of the Tyees, who is at present in Vancouver, wires that Victoria is proving to be the most enthusiastic baseball city of any represented in the International Northwestern League. On top of the information published yesterday that more games are being arranged comes the announcement that the Tacoma series are being transferred to Victoria. The Tyees and the Beavers will open here Monday and play the entire week. Monday, Tuesday, Wednesday, Thursday and Friday the games are down for 7 o'clock, and on Saturday, Victoria Day, there will be a game at 10.30 in the morning and another at 2.30 in the afternoon.

FOUNDATION SLUGGERS PILE UP THE RUNS

Yarrows Went Under 16 to 2 in Amateur League Game

The Foundation nine did what they liked with Yarrows' aggregation in the amateur league game at Royal Athletic Park last night. Yarrows have played better ball than the brand they dished up last night, but in the game against the Foundation Company they could never seem to get going. Sixteen runs were made by the Foundation-nine and Yarrows' poor work only hang up two counters. Fuller on the mound for Yarrows pitched a slow ball that seemed to have nothing on it and in the first innings he was hit for ten runs. He pitched one more innings, and then George Corkie, whose services as catcher have been secured by Yarrows, took him off and put on Adam Corde. It was too late to save the game but at that Adam could not hold the boys down and they piled up another six with ease. The big total in the first innings could have been reduced with better work in the field, as Fuller had the luck of seeing several good catches slipping through the fielders' fingers. Yarrows got one in the second and one in the fourth. Ross pitched seven innings for the Foundation and Zaccarelli pitched a couple to warm up for to-day's tussle with Straith's Two Jacks.

SPORTING NEWS

PLAYERS EXONERATED BY ATHLETIC UNION

James Thompson Resigns From Position of Secretary of Local Board

The first step to a settlement of the differences between the amateur baseball players who figured in the Good Friday games with the professionals and the local board of the B. C. A. A. U. was made yesterday when the players were exonerated from all blame or charges of professionalism.

The players were not present to make explanation, but a letter was received from the City Amateur Baseball League and an explanation made by George I. Warren, President of the League. It was explained that the amateurs did not know that a gate was being taken, or a collection made at the game. The collection box, it was stated, was placed outside the grounds.

After discussing the matter it was decided to exonerate the amateurs who appeared in the game. Another request to the Amateur Baseball League to affiliate with the B. C. A. A. U. will also be forwarded.

The amateur and pro. question also came up on the receipt of a letter from the Comrades of the Great War to stage a boxing tournament at the Gorge, May 24. The Comrades were granted permission to hold the tournament, but were informed that nothing in the nature of a professional bout must take place.

The resignation of James Thompson, who expects to leave Victoria soon as secretary, was accepted with thanks for his past services. Harry Boyd was elected to fill the position.

LATEST RACING RESULTS

Louisville, Ky., May 16.—Churchill Downs results:

First race, claiming purse \$1,000, for-year-olds and up, six furlongs.—B. E. Johnson won, Circulate second, Senator James third. Time 1:14 4-5. Smoke "Player's Navy Cut" Cigarettes wrapped in Tin Foil

BEAVERS WRESTLE TWO GAMES FROM TACOMA

Vancouver, May 17.—Young Thomas Lukanic tried to do the iron-man stunt at the ball yard yesterday, but he did not win both his games, in fact, he lost both, though he and his teammates put up a good brand of ball tossing in both contests. It took the Beavers ten innings in the afternoon to win out, 2 to 1. In the evening they won in the regulation nine frames, but only by one run to nothing. In swatting the teams were even on Tuesday, the Tigers piling out 11 in the afternoon against Vancouver's 9, and the Beavers collecting 7 to 5 in the twilight. This makes 16 hits apiece for the two games.

This Is Bicycle Time

It's time you had your bicycle overhauled. Don't run it till something happens—allow Godfree to cast his eagle optic over it and fix what should be fixed. Godfree knows what to do, and how to do it; his charges are moderate and he gives excellent service. Take your bicycle to Godfree for repairs.

MOTOR CYCLE RACES HOLIDAY FEATURE

More Events Had to Be Added to Programme at Willows May 24

Following the announcement that motor cycle races would be included in the sports programme at the Willows May 24 such a rush of entries has been experienced by Arthur Manson, Chairman of the Sports Committee, that it has been necessary to arrange for more races or eliminate some of the speed artists anxious to show how they can burn up the track.

TO COMBINE FORCES TO PROMOTE ROWING CLUB

A movement has been inaugurated by Billy Kennedy which will lead to formation of a Foundation Rowing and Canoe Club. The organization meeting will be held at the clubhouse on Tuesday evening. Kennedy has made an offer to the Foundation boys from the directors of the James Bay Athletic Association. For the purpose of stimulating interest in a revival of the old-time prominence of Victoria in fast racing events, the J. B. A. A. directors offer affiliation to the members of the Foundation Rowing Club.

"FOR my part, I like still better to go to a familiar river and fish or dream along the banks where I have dreamed and fished before. I know every bend and curve; almost every current and eddy and backwater." —From "Fisherman's Luck"

Extra Years of Easy Riding

IMAGINE an engineer daring to design a bridge with only enough strength to bear the strain of traffic! He provides for a liberal surplus. This "factor of safety" means long life to the structure in spite of hardest usage. This principle is applied to

C.C.M. Bicycles

- Look for These Nameplates when choosing a Bicycle. All of these well-known names are members of the "C.C.M." family. Red Bird, Massey, Cleveland, Perfect, Columbia.

Sudden, accidental bumps mean terrific jerking strain on the frame joints. Just here ordinary assembled wheels usually wreck. But C.C.M. frames are practically wreck-proof. Not only are the frames made of the highest grade of steel tubing obtainable, but our "fishmouth" reinforcement provides more than enough "factor of safety." Extra plates fortify the inside of the joints against strain and make the frame practically unbreakable.

Rust soon spoils the ordinary bicycle, but C.C.M. bicycles are extra well enamelled. All bright parts are coated first with copper—and copper can't rust—then they are heavily nickelled. C.C.M. bicycles look like aristocrats long after rust has made ordinary wheels fit for the scrap heap.

Such typical and vital endurance features of C.C.M. bicycles mean extra years of service.

C.C.M. endurance advantages prevent the accurate C.C.M. running parts getting "out of true." Thus your C.C.M. bicycle can be depended upon to run smoothly year in and year out.

All C.C.M.'s have the famous Hercules Coaster Brake—the brake without the side arm. Press lightly and it slows the wheel down gently—a little more and you come to a stop without sudden shock. The clutch engages again without fuss. We back the Hercules with our special guarantee.

C.C.M.'s shine by comparison in any company on earth. There is a C.C.M. dealer near-by.

90% of the Parts of Every C.C.M. Bicycle are Made in Canada and Each Machine is Fully Guaranteed by

FAMOUS COMEDIAN OF THE DIAMOND IS DEAD

Sarnac Lake, N. Y., May 16.—Herman (Germany) Schaefer, noted ball player and comedian of the diamond, died here suddenly to-day. He was on his way to Lake Placid and suffered a hemorrhage while in a New York Central railroad train. He was removed here and hurried to a hospital where he died within an hour. Schaefer's body will be taken to Chicago at the request of John B. Foster, secretary of the New York National League Club.

JACK DOES ROAD WORK TO PREPARE FOR FIGHT

Toledo, Ohio, May 17.—Muffled to the ears in a heavy sweater, Jack Dempsey, challenger for the world's heavyweight championship, was up early to-day for the first roadwork of his training grind for his championship battle with Jess Willard here July 4. Accompanied by Jack Kearns, his manager, and two or three friends who were in an automobile, Dempsey covered ten miles in the Bayview Park District. The object of the jaunt was to keep the challenger from growing stale through inactivity until he can locate a place for his training camp. Dempsey plans to establish quarters Monday on the shores of Maumee Bay, about three miles from the site of the arena. He will do his boxing and gym work out of doors inasmuch as the championship battle is to be fought in the open. The public will be charged for the privilege of watching him go through his training paces.

BOXING BOUTS AT VETERANS' SMOKER

Four boxing bouts by V. I. A. A. fighters are to be included in the programme of the Great War Veterans' smoking concert to be held at the Crystal Theatre next Thursday. Billy Davies, who has not yet made his selection.

LACROSSE

The gutted stick experts will be out for the first real game of the season to-day when a team from Victoria will make the trip to Sidney to play the Sidney stickhandlers. The Sidney boys were early in the field with a challenge, which has been accepted by a team mostly made up of Foundation Minor Cup chasers. The Nationals are doing a lot of hard practicing to get into the shape for their first game in the intermediate league against the Victoria West players June 11.

No edge without stropping

Provide a barber with a number of the highest-priced razors obtainable and stipulate that he must use a new razor on every individual customer and he would refuse if he valued his trade.

Stropping, you see, is needful because it removes the roughness of the new blade and re-aligns the saw-like edge that shaving produces; and because it keeps the blade free from rust; and because it is the only means that will provide you each morning with a keen edge for shaving.

You don't take the blade out to sharpen it; nor do you take the AutoStrop Razor apart to clean it. From first to last—stropping, shaving and cleaning—you never need to remove the blade from the razor.

You can get an AutoStrop Razor anywhere—razor, strop and 12 blades, complete, in attractive case, for \$5.00.

Canadianize Our Alien Workers

The Grasping Hand of the I.W.W.

It is antagonistic to the ideals of honest labor

Bolshevism offers no possibility of advance for labor. It is an imported theory fomented by foreigners, which is impracticable and incompetent. Men that never knew how to get money will never know how to keep it.

Bolshevism, though doomed to extinction, may not die before several nations of the earth have had a big dose of it. Russian industry is turning somersaults and breaking its neck by turning the factories over to workmen without any directing boss or head. The equable distribution is of little value if little is produced.

In Russia, Bolshevism must be left to burn itself out. In Canada, it must be fought with the ancient weapons of a free people—the applied principles of law and order under a government of the people by the people.

The average normal man believes that the toilers will see ultimately that there is nothing in the false doctrines of Bolshevism.

The war has revealed that everything depends on the *loyal and continuous support of labor*. Employer and employee came together on one plane of common interest and common effort. The good spirit then developed should never be lost.

Democracy does not always get the best, but it always gets what it wants. It reserves for people the right to make their own mistakes. We do not believe in the class idea, but that one man is as good as another.

The Canadian laborer does not hate millionaires. He may be a millionaire himself some day. Most men of success have labored with their hands and have begun small and raised themselves above the other fellow.

Pantages—Vaudeville. Dominion—Anita Stewart in "A Midnight Romance." Variety—Mildred Harris in "For Husband's Only." Royal Victoria—Ethel Clayton and Elliott Dexter in "Maggie Pepper."

ROYAL VICTORIA

How an out of date department store may be transformed by the common sense and intelligence of a girl into a prosperous enterprise, is told in "Maggie Pepper," the new Paramount picture in which beautiful Ethel Clayton will be seen at the Royal Victoria Theatre for the last time to-night.

DOMINION

Mystery and romance combine in the story of "A Midnight Romance" to give it a right to the designation of A Woman's Picture, now at the Dominion.

ROYAL ETHEL CLAYTON

In "Maggie Pepper" See the girl who knows how to take care of herself

sentiment or romantic character there may be in any individual. There is no one who does not like a real mystery. And when that mystery shrouds the person of a beautiful lovable girl in her natural feminine desire to win against all odds the man who unknowingly has captured her heart, it becomes doubly fascinating.

VARIETY

Conent-bred Toni had been taking vengeance on Rollin Van D'Arcy for making a wreck of her heart. Her firing had been deliberate, skillful, and carried on not only under her indulgent and infatuated husband's nose, but with his unintentional connivance.

COLUMBIA

Love decides the custody of millions where lawyers fail, in "A Bachelor's Children," the Vitaphone Blue Ribbon Feature, which will be seen at the Columbia to-day for the last time.

ROMANO

The cutest dog on the screen is Lewis S. Stone's dog, and it is seen in "The Man of Bronze," the new World Picture, in which Mr. Stone is starring.

PANTAGES

In the big cattle centres of the West the leading yearly entertainment event is usually a horse-racing and roping contest to which the cowboys and cowgirls come, even from distant parts.

"Service First."

"The Bank"

BABY HARRIS.

"Firm, sturdy and strong"

56, East Dulwich Grove, East Dulwich, S. E., November 8th, 1916.

Dear Sir,—I feel I must tell you what Virol has done for our boy. At the age of 6 months he could not take any foods that were given him, nothing suited him, and I think we tried everything.

He is now 2 years old, and is very firm, sturdy and strong, and compares more than favourably with children we know who are 3 and 4 years old.

Yours faithfully, F. C. HARRIS.

Virol increases the power of resistance in the germs of disease and replaces wasted tissue, it is therefore a valuable food in Measles, Whooping-cough, Infantile Diarrhoea, Indigestion, etc.

VIROL

Sole Importers: BOWEN, Ltd., 27, St. Peter Street, Montreal, C.A.B.

to show their skill. Calgary has its "Stampede" Cheyenne, its "Frontier Days" and Pendleton, its "Round-up."

Last summer, at the enormous Sheephead Bay speedway in New York city, was held the biggest tournament and cowboy carnival and world's championship contest ever produced, contestants by the hundreds coming from old Mexico, Canada, and every cattle state in the union to compete.

Next week Mr. Weadick will present a synopsis of this great event on the stage of the Pantages Theatre, calling it "The Stampede Riders." The cast is composed of the best of the prize winners of the bigger show.

Other big features of the coming bill are the famous "Denishawn Dancers" and Blackface Eddie-Ross, the capital fun-maker. The first episode of the new Pantages serial photoplay, "The Man of Might," will be shown next week.

SUSPICIOUS.

"There's a friend in the outer office waiting for you, sir." "Here, James, take this \$10 and keep it till I come back."—Boston Transcript.

Every Wage Earner Should Answer Question Himself or Herself

WHAT DOES THE FUTURE HOLD FOR YOU IF HEALTH GIVES WAY?

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one-half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself run down, you reduce your chances for success in life—if sleeplessness comes you score lower still—should appetite or digestion fail, you are staired in the face by physical bankruptcy.

Don't let it go so far, take Ferronze, it has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces Spring tiredness by energy and new life. Ferronze rebuilds sick folks because it contains the strengthening elements that every run-down system requires.

Especially before the hot weather comes, everyone needs a purifying tonic—Ferronze fills the bill exactly—nothing known that juvenates and uplifts so fast.

At once the appetite improves. You rest well and arise next morning feeling fit and firm.

Headaches disappear, weakness gives way to the vigor that only Ferronze can supply. Try it, results are guaranteed. 50c per box or six for \$2.50 at all dealers or by mail to any address if prices is remitted to the Catarthons Co., Kingston, Ontario.

SOME OF CONTESTANTS FOR POPULARITY TEST

As Time of Closing Approaches, Interest in Competition Grows

Interest in the Popular Girl contest is increasing rapidly as the day of the close draws near, and to meet the demand a further supply of voting tickets has been ordered by the committee in charge of the contest.

Miss Trissie Hunt of the Yorkshire Bakery appears to be a favorite with a large section of the community, her ballot reaching a high figure to-date, and her friends see in her a prospective winner.

Miss Jessie Chapman, the veteran candidate in the Popular Girl contest, is claimed to be the first white girl born in the Yukon territory. She was born in White Horse, and did not leave the Yukon for a visit to the outside world until she was fourteen years of age.

Miss Watson. One of the contestants for the Popular Girl is Miss Sarah Watson, a Victoria young lady, who takes a keen interest in sports of all kinds and is a great favorite at public picnics, where she generally carries off some of the prizes.

Her favorite pastime is swimming at which she is quite an expert. She saved a child from drowning at Macaulay's Point two years ago at much danger to herself, ice skating during the winter months is greatly enjoyed by her. The Oak Bay basketball team made her their captain, and in high jumping she took the prize from all competitors.

Miss Myre Eleanor Carlow, candidate for Gordon Drysdale's is a native of this city. Her father, who is an insurance and stock broker, is the manager of Dunford's Real Estate Department. He is also a native of Canada. Miss Carlow is engaged on Gordon Drysdale's office staff, assistant bookkeeper and stenographer.

The other candidates are as follows: Miss Jean Nasmith, for the Romano Theatre; Miss Ethel Cook, for the Olympic Oyster House; Miss Nora Morey, for the W. A. of the G.W.V.A.; Miss Lily Dooley, for "Citizens"; Miss

MISS MYRA E. CARLOW

Doley Meacock, for the Dominion Hotel; Miss Irene Clark, for Terry's Drug Store.

THE WEATHER

Victoria, May 17.—5 a. m.—An ocean low barometer area is approaching the Coast and showery weather may become general in B. C. Rain has fallen in Southern Alberta and showers may extend to Manitoba.

A Tip to Hubby— Take Home a Loaf of Bread

SHORTER hours all round, says hubby, but what about wife—her home-baking and the warm weather coming on? Now's the time for you to make a "hit." Next time you're waiting for a car or "hiking home," step into the nearest grocery and take home a loaf of baker's bread.

WIFIE has lots of other things she'd rather do than bake—these days. She's just waiting for you to say the word. Try it and see.

VICTORIA CITY LOCAL IMPROVEMENT TAXES FOR 1919

Are Payable by 31st May Inst.

If from change of address or other cause this year's notice has not reached any taxpayer, please inform the undersigned.

EDWIN C. SMITH,
 Treasurer and Collector.

VICTORIA TAXPAYERS SPECIAL NOTICE

By the 20th May, 1919, the list of real properties of the

1919 TAX SALE

Will be advertised, and in order to save costs, general and local improvement taxes for 1914 and previous years should now be paid.

Up to the day of the sale all arrears to end of 1917 can be paid in full or on the **TEN YEAR PLAN**, under the provisions of the "Victoria City Relief Act, 1918, No. 2" as amended.

EDWIN C. SMITH,
 Treasurer & Collector.

NEXT WEEK'S SALES

Messrs. Stewart Williams & Co.

AMERICAN IRISH DELEGATES CALL ON LANSING IN PARIS

Paris, May 17.—The three delegates from Irish societies of the United States, who are here after visiting Ireland, called on Secretary Lansing today and asked that he present formal request to the British Government that Professor de Yvara, Arthur Griffiths and Count Plunkett, Irish Sinn Fein leaders, be given a safe conduct to come to Paris to present their case to the Peace Conference.

CAPTAIN D. BELLEW, OF BRITISH COLUMBIA GIVEN VICTORIA CROSS

London, May 17.—The London Gazette announces the awarding of the Victoria Cross to Capt. Donald Bellew, of the British Columbia Regiment, for a great deed during the fighting near Ypres on April 24, 1917.

THE U.S. MARRIAGES AND DEATHS

JOHNSON—On May 14, at the Royal Jubilee Hospital, Mrs. Ida Louise Johnson, beloved wife of Mr. Charles F. Johnson, of Queen Charlotte City. Deceased was 23 years of age, born on Denman Island, and a resident of this city for the past six weeks. She is survived by, besides her husband, three children.

The funeral will take place on Saturday, May 17, at 2 o'clock, from the St. Paul's Funeral Chapel, Rev. F. A. P. Chadwick will officiate and interment will be made at Ross Bay Cemetery.

O'CONNELL—On May 15, Lucella Hillaris, six months old daughter of Mr. and Mrs. J. D. O'Connell, of 1845 Craig-daroch Road.

Funeral announcement later.

N.C-1 ALIGHTED ON THE OPEN SEA

American Seaplane Came Down 200 Miles North of Fayal, Azores

N.C-3 IS BELIEVED LOST IN A FOG

Ponta Delgada, May 17.—(Associated Press)—The American seaplane N.C-1, on her way to the Azores from Newfoundland, reported at 3:40 p. m. Greenwich time that she had gone off her course and had been forced to alight on the open sea 200 miles north of Fayal. Four destroyers have gone to her assistance.

The N.C-1 is believed to be lost in a fog. The flagship of the flight reported at 4:15 a. m. Greenwich time that she was off her course between station ships 17 and 18. Nothing has been heard from the N.C-3 since.

STEEL INDUSTRY IS REVIVED BY PLANT AT MAUBEUGE, FRANCE

Longwy, France, May 17.—Louis Loucheur to-day re-ited the blast furnace in the Senelle factory at Maubeuge, the first to be re-opened in liberated territory in Northern France. Albert F. Lebrun, Minister of Blockade and Invaded Regions, and many men prominent in industrial life in France, were present.

TOKIO NOW CONFIRMS BIG N.Y.K. TONNAGE FOR PACIFIC TRADE

Tokio, April 17.—(Correspondence of the Associated Press.)—The construction of three fast passenger steamers to be placed on the American run has been decided upon by the Nippon Yusen Kaisha. The ships will have a speed of twenty knots, and a gross tonnage of twenty thousand. The first of the boats probably will be built in England, the remaining two in Japan later.

FINANCIAL NEWS

SHORT SESSION WAS VERY ACTIVE

Mercantile Marines Issues Were Bid Up To-day

(By Burdick Bros. & Brett, Ltd.)

New York, May 17.—There was very little stock offering for sale at the short session to-day, and while bidding was not as brisk as the preceding market generally held their own or sold fractionally higher. The outstanding feature was the bidding up of the International Mercantile Marine issues and also American International Corporation, who are big holders of the Marine shares. The railroad stocks are well taken up by important interests and signs are not wanting that trading is gradually going out of the higher priced industrial into the railroads.

THREE PROTESTANT BISHOPS OF U. S. CALLED ON POPE

Rome, May 17.—The Right Rev. Charles P. Anderson, Bishop of Chicago; the Right Rev. Boyd Vincent, Bishop of Southern Ohio, and Bishop Reginald Heber Weller of the Diocese of Fond du Lac, Wis., accompanied by the Rev. S. Talbot Rogers, of Racine College, and the Rev. Edward L. Parsons, of Berkeley, Calif., all prominent figures in the Protestant Episcopal Church in the United States were received by Pope Benedict to-day. Mons. Corbelli, Secretary for Extraordinary Affairs at the Vatican, acted as interpreter. The Pontiff was most cordial to the visiting prelates and thanked them for their call.

Before seeing the Pope the American prelates had a long talk with Cardinal Gasparri, Papal Secretary of State. During the interview the Cardinal said: "Father than a reunion of the Christian churches, the Holy See aims at the unity of the church, which in the opinion of Rome can only occur by all returning to the Catholic Church."

Pope Benedict told the visiting clergymen that it was not possible for the Catholic Church to take part in the proposed world conference.

The Pope explained that he in no way wished to disapprove of the participation in the conference of those who are not united to the chair of St. Peter.

DISASTROUS FIRE SWEPT YOKOHAMA

Sixty Blocks of Buildings Converted Into Smoking Ruins; Damage \$8,000,000

One of the most disastrous conflagrations in the history of Yokohama swept the native quarter of the Japanese port on April 28, and before the fire had been put under control, 2,500 houses had been destroyed and sixty blocks of buildings turned into smoking ruins.

Thousands Destitute. He states that thousands of people were rendered homeless and destitute. The Mayor of Yokohama immediately opened a relief fund to aid the fire sufferers.

Indescribable Scenes. Indescribable scenes were witnessed in the fire-swept districts. The poorer classes worked frantically to save what they could of their little property.

OFFICES TRANSFERRED. The Sidney Rubber Roofing Company has transferred its business offices from Sidney to 104 Union Bank Building here.

ALL ORDERS PLACED ON FRENCH CONTRACT

Bayly Hipkins Concludes Final Details For Ship Equipment. Orders for material to complete the twenty ships under contract here have now been placed, said Bayly Hipkins, vice-president and northwest manager of the Foundation Company, who is in the city to-day to wind up various details in connection with the placing of final orders for equipment.

In looking over the Ogden Point plant Mr. Hipkins expressed himself as satisfied that the organization is at a high stage of efficiency and capable of catching up with the construction end of the programme.

Assembling Started. A start has already been made in assembling the set of twin engines which were delivered here on Wednesday for installation in Hull 207.

MAY USE FRENCH SHIPS FOR LUMBER

Rumored Sir James Ball Arranging to Take Over B. C. Built Tonnage. Vancouver, May 17.—It is rumored that Sir James Ball, British timber controller, who is now at Victoria, is arranging to take over the wooden steamers now being built in British Columbia on French orders, and will use them to move the big 75,000,000 feet order of lumber to the United Kingdom.

KATORI ARRIVES WITH NEW MASTER

Capt. M. Tozawa Succeeds Capt. I. Noma on N. Y. K. Steamship. After a three months' vacation in Japan, Capt. M. Tozawa, one of the veteran skippers of the Nippon Yusen Kaisha, and formerly commander of the Kashima Maru, is now in charge of the bridge of the liner Katori Maru.

WANT CAR-FERRY SERVICE AT ONCE

Meeting Will Be Held Tuesday Evening to Urge Action at Ottawa. With co-ordinated effort on the part of the business men of Victoria and the forceful presentation to the Dominion Government of Victoria's claims as an ocean port, it is asserted by Frank Higgins, K.C., a member of the executive of the Victoria and Island Development Association that the possibility of making such an arrangement was what enabled Sir James Ball to inform the lumbermen, at a recent dinner in his honor that he had sufficient tonnage to lift half the order in the next six months.

FOUR LINERS ARE DUE FROM ORIENT. If the present schedules are maintained the early part of next week will be a particularly busy period at the Outer Docks. Completing a round-the-world voyage since last visit here, the Blue Funnel liner Tyndareus is expected to make port on Tuesday from the Orient. She is laden with a full Oriental cargo and has a number of Chinese passengers for disembarkation here. The Tyndareus sailed from Yokohama May 7, and usually makes the trans-Pacific run in fourteen days. On Wednesday next the Canadian Pacific Ocean Services liner Empress of Japan is due here with 600 odd members of the Canadian Expeditionary Force from Vladivostok. The Japanese liner Chicago Maru, of the O.S.K. fleet, is also due to put in an appearance on Wednesday, according to advices received by R. P. Rithem & Co. The Chicago Maru has passengers and cargo for this port. Also scheduled to arrive during the early part of the coming week is the Admiral Line steamer Senator. The Senator is making her last voyage in the Oriental service of the Admiral Line. By June she will be dispatched from Seattle for Nome and will continue to operate to Alaska throughout the remainder of the season. VALUABLE FURS DESTROYED. Moth, in Furs, Blankets, Carpets, Woollens, etc., means ruination. Keating's Powder sprinkled over them when they are put away effectively preserves them. Used quite dry it does no harm to the most delicate fabric. Has no objectionable smell. KEATING'S KILL'S MOTH. Programmes Printed.—Programmes for the Victoria Day celebration have been printed and are being sent to the various adjacent cities. The programme makes a most attractive appeal, and no doubt many outsiders will be here to see the spectacle.

Painting This Year Is a Patriotic Duty

The cry throughout the Dominion is "give our returned soldiers all the work you can."

By painting NOW, you are helping in three ways. The demobilized soldiers will find employment in the factories making paint; you can offer them the job of doing your paint work, and you will know that our boys are earning enough money to take care of themselves until permanent positions can be found.

When painting, we suggest that you use Martin-Renour 100% Pure Paint, and you will always get a satisfactory job. We have it in regular colors. Per gallon \$5.25

We have the Brushes too!

DROPPED CRATE OF EGGS FROM PLANE

American Aviator Performed Marvellous Stunt Without Breaking One Shell

Atlantic City, N.J., May 17.—Eddie Stinson, flying at a height of 700 feet at a speed of seventy miles an hour, dropped a crate of eggs on the Atlantic air port without smashing one of the number.

The eggs were tossed over the side of the plane by W. L. Watkins, of Seattle, inventor of the parachute used in the demonstration, while the machine was hurtling through space.

The wind carried the parachute and its egg cargo 300 paces from the point over which they were released and not an egg was broken, much to the relief of the beholders, who knew that it had been at the station ten days, waiting a chance to skydive.

An automatic release dropped the crate on the ground as gently as they ever settled in a nest. Incidentally the eggs brought real "high" prices as demonstration of the practicability of the parachute paying twenty-five cents apiece for them.

BLOTCHY SKIN

Many a time you have looked into the mirror and wished that your skin would be like other people that you know, without blemish. This wish can be yours for the asking. Wash D. D. D., the lotion of healing oils, over your pimples or blotches to-night—and wake up in the morning to find them gone!

C. H. Bowers & Co., Druggists, Victoria.

D.D.D. The Liquid Wash

TERMS FOR UNINITIATED

"Aerodrome"—the paddock in which the aeroplanes romp.

"Centre-section"—The solid-looking part of the machine which holds the pilot, or rather more accurately, the umbrella effect of the canvas over the pilot's head.

"Keel-surface"—All one can see of the machine when viewing it broadside on.

"Slagger"—Is the method of setting the top planes in advance of the lower ones. Unexpectedly this gives the machine a certain amount of stability.

"Tail-skid"—The ploughshare effect under the tail of the machine; responsible for the huge furrows in the ground all over the aerodrome.

"Rudder-bar"—The small piece of wood inside, on the floor of the machine, which moves sideways, something like the foot-rest in a row-boat.

"Air-pocket"—Peculiarly similar to a trousers' pocket is the emptiness displayed by some parts of the atmosphere.

"Bumphy"—The action of an aeroplane riding through several air-pockets, analogous to crossing the Irish Sea in a Dublin packet.

"Landing"—The small T in white canvas pegged down on the aerodrome. The pilot is supposed to fly down the length of the T and stop with his wheels on the cross-bar. If he is successful in doing this he is granted a week's leave.

LITTLE BOY CALLS PLANE A "PUFF-PUFF DICKIE"

Mr. Jones a high official in the Air Ministry, took a particular pride in being able to distinguish the different types of machines in the air. He was wont to bother his wife with the unasked for information if such and such a machine was an Avro. This practice continued until Mr. Jones met with unexpected opposition from his little son. Walking in the park one day with his family Mr. Jones was startled by a monoplane swooping down and flying low over the ground of the adjacent field and before he could volunteer the information that it was a Morane Parasol the son cried out, "Oh Daddy look at the 'Puff-Puff-Dickie'."—Punch.

SICK HEADACHE and CONSTIPATION CURED BY

Milburn's Laxa-Liver Pills

When your liver becomes sluggish and inactive, the bowels become constipated, the tongue becomes coated, the breath bad, and the stomach all out of order.

Then come those terrible sick headaches. They take out every bit of life and ambition, bring on depression, and often end in complete mental and physical prostration.

To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. Milburn's Laxa-Liver Pills will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to act properly on the bowels, thus making them active and regular.

Mrs. Winslow McKay, Jordan Branch, N. E., writes: "I have been sick for a number of years with sick headache and constipation. I tried all kinds of doctors' medicines, but none did me any good. I tried Milburn's Laxa-Liver Pills, and after using four vials I am completely cured. I would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are small and easy to take, and do not grip, weaken or sicken as so many pills do. Price 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

IS ONE OF ROMANTIC FIGURES IN WORLD

Lieut.-Col. Collishaw Has One Weakness, That Is Adventure

Toronto, Ont., May 17.—Lieut.-Col. Raymond Collishaw, a Canadian aviator, is a great favorite in Toronto, where he spent several weeks on his way back to England. The Toronto Star says of him:

Described as "a Canadian of Canadian blood," Lieut.-Col. Raymond Collishaw, D. S. O., has done much to deserve the tribute. By many he is looked upon as one of the most romantic figures in the world to-day. Broad-minded, blessed with a rare sense of humor, magnetic in personality, forceful and yet not stubborn in argument, stern when necessary, pleasingly modest, the young Canadian hero of the air was at all these things before he wore his first decoration. He wakes up cheery in the morning, and goes to bed cheery at night.

"His one weakness is adventure. Everything is an adventure to him. The ordering of a meal has hidden surprises, and he often orders dishes with strange names simply to see what they really are. He never gets bored with his surroundings or companions."

"The newest rumor concerning this well-known young figure is that he is considering the abandonment of the trip across the Atlantic—which interested him immediately, the war was over—in favor of taking a British aerial command in Russia. When in Toronto a few weeks ago he told a close friend that if the Russian or German situation began to look serious, he would forego all the possible glories of the winning of the transatlantic flight and go back to fighting. 'Until definite news is received that he is going to Russia, however, it should not be accepted as fact.'

"With an insatiable appetite for adventure, the thrilling kind, and a heart as big as a mother's, it is no wonder, to those who know him, why he was followed, admired, and deeply respected by all who came under his authority."

Not an Ordinary Squadron.

"His squadron, number 292—before the amalgamation of R. F. C. and R. N. A. S., number three naval—was not an ordinary squadron. His flight commanders and pilots, may, to the casual observer, have looked ordinary, but they were not. Their one idea was to serve him, and the best way to serve him—and the way he appreciated best was the shooting down of Huns."

"After a successful scrap, 'Collie,' as he was known to his friends, was always to be found in the anteroom of his squadron mess eagerly listening to the story of the fight. To his pilots the mere honor of 'shooting down' a Hun machine was nothing compared to the pat on the back that 'Collie' generally administered after a successful fight."

"The code of honor of his squadron, built up by himself of course, was very high. Here is one little incident that helped to build that code."

"He was returning alone one evening, and caught petrol in his tank to carry him back to his aerodrome. As he crossed over front line he casually glanced back, and found a broken-up formation of our long-distance bombers gallantly fighting a big patrol of Huns."

"Without hesitation he turned back and climbed up to the fight. Without his assistance the bombers would have had very short shrift. As it was he fought the Hun scouts all over the sky, and shot two down. By then the bombers were safely across our lines. At 14,000 feet, five miles into 'Hun' territory, his engines 'conked out' through his petrol supply having run out. Twisting and dodging his assailants, who realized that his engine had stopped functioning, 'Collie' glided back west, and effected a perfect landing a quarter of a mile inside the British lines!"

"There are scores of other tales of his personal bravery that might be told, but it is unnecessary to tell them, for the Canadian public already knows his true worth."

"If he goes to Russia in preference to attempting the Atlantic flight, it will mean that he considers the world can be helped along better by the doing his little share in straightening out Russia's tangled locks, rather than coming into the world's limelight as the first man to cross the Atlantic in an aeroplane."

"Hero of the sea, the air and the Antarctic, we watch Collishaw with a kindly eye for his next sphere of adventure."

CHICAGO-CLEVELAND SERVICE

Chicago, May 17.—The first aeroplane in the new Chicago-Cleveland aerial mail service left here yesterday at 9:35 a.m. and arrived at Cleveland at 12:45 p.m. Trent C. Fry was pilot of the machine, which is a de Havilland four. The mail weighed 450 pounds.

Cleveland, May 17.—Daily air mail service between Cleveland and Chicago was started at 9:30 o'clock yesterday morning when Pilot Edward Gardner left here for Chicago. He relayed the mail at Bryan, Ohio, and the mail reached Chicago at 1:24 p.m. The mail bag weighed 300 pounds.
