ZVOLANEK'S ROSE

A Sweet Pea that is equally desirable for under glass or outdoor culture. (See preceding page.)

See preceding page for list of NEW DAHLIA-FLOWERED ZINNIAS

TRITOMA, EVERBLOOMING—(Pfitzeri)

Blooms from July until December. Plants are perfectly hardy in open ground all winter south of Philadelphia; further north they must be protected or wintered in a cellar like the ordinary Tritoma. Just bury the roots in sand; nothing more is required. Should be planted out very early in spring. Plants show from six to twenty grand flower spikes all the time, each holding at a height of three to four feet a great cluster of flame-colored flowers of indescribable beauty and brilliancy. Each cluster keeps perfect several weeks, and when it fades two or three more are ready to take its place. Fall frosts do not kill it or stop its blooming, and it is as brilliant as ever long after all other garden flowers have been killed. For cutting it is unsurpassed, and the beautiful long spikes keep several weeks in water. It has created a sensation in the larger cut flower markets.

Strong Blooming Roots:

Per 25	\$ 4.50
