Analysing the Wikipedia Street Take Over Project

WIKIMEDIA

FOUNDATION

The Wikipedia Street Take Over; Learning, Unlearning and Relearning. The Wikipedia Street Take Over Project was a 60-seconds (for each individual) video story-telling that saw me as the presenter go into the streets of Abuja, Nigeria and find out the Wikipedia awareness of Nigerians and publish on social media in Igbo language. The session will be a splendid opportunity to analyse the project, find out what worked, what could have worked and what didn't work.

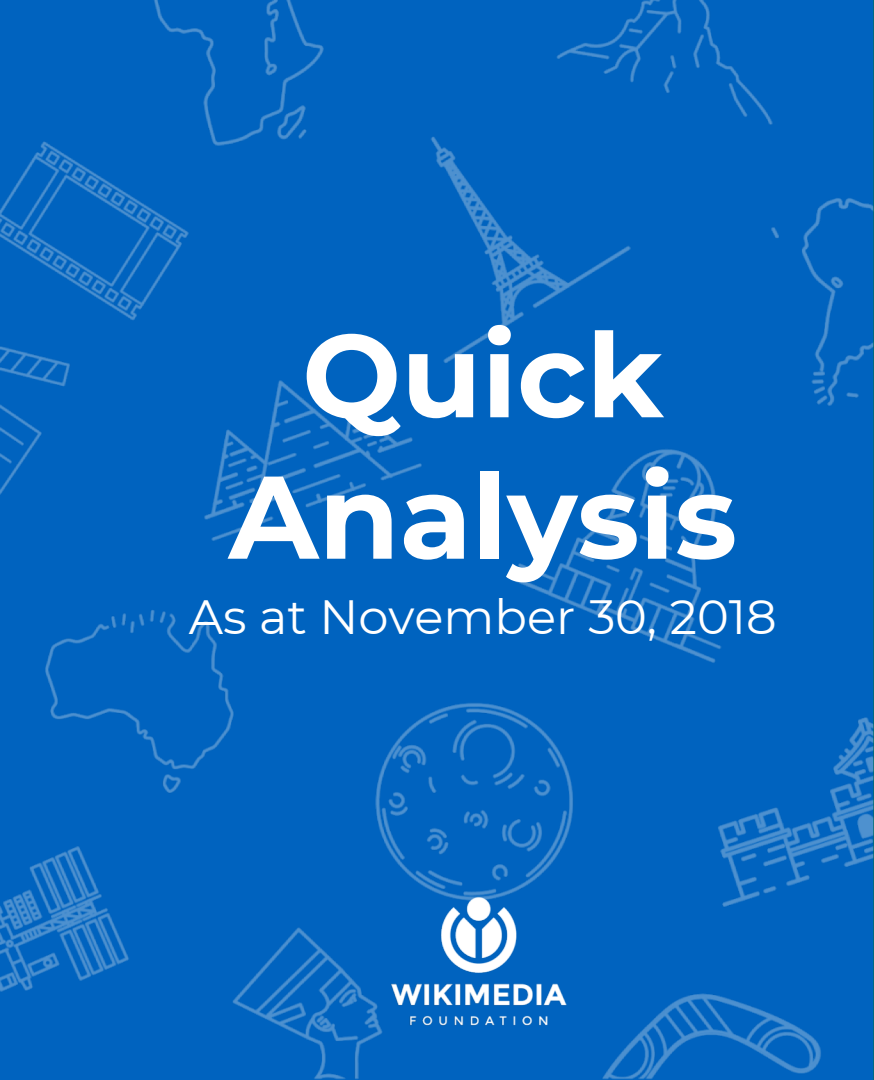

WIKIMEDIA
FOUNDATION

Focus will be on:

- Appreciating of the Igbo language
- Video screening of selected videos
- Encourage similar projects in other languages
