HYOGO LIAISON OFFICE

REMARK

NAME OF PLANT: THE NARUO PLANT OF THE KAWANISHI AIRCRAFT K.K.

In this plant the Meiwa Bicycle Factory is carrying on the manufacture of motor tricycles and the Settsu Vehicle Factory thr repair of motors for electric cars. The installations and materials for their work are indispensable for their carrying-on.

The installations and materials attached to the buildings where the reparations machinery is in store are necessary for their safekeeping.

It is considered that both of these should be avoided from being transferred elsewhere by PD.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDC
DOE NO.

Annex. Kawanishi Aircraft Co., Ltd.

After the termination of the war we have made plans for conversion to civilian purpose productions such as shown below. We are trying to satisfy the nation wide demands, and to take parts in reconstruction of peace time industry.

(1) We have started printing shop, building contract, hospital, and manufacture of domestic goods, utilizing the welfare buildings, equipments and materials we possessed. A great amount of the buildings have been speedly reconstructed by the Building contract department already.

(2) A new company was established in joint contribution with Hanshin Electric Railway Co., Ltd. to repair and to produce the railway coaches and to repair electric motors. Repairing of motor began already. Production of rail-way coaches will be started in near future when the factory is repaired, and machineries are installed by permission of Hyogo M. G. Team.

The production of Auto three wheeler is one of the major item of our reconversion plan. Experiments and design of the new auto three wheeler started in early part of 1946, and completed its experimental model in Aug. 1946. Since then, some modifications and preparation for the mass production were done, and when the permission for the production in Naruo Plant was granted in Nov. 1946 by Hyogo M. G. Team, mass production being started.

(3) Permission was given for convertion of production in Takarazuka, and Obayashi Plant by Hyogo Militarly Government Team in Aug. 1946. We have completed the experimental model of detachable light engine and began its mass production. Beside that we have received the order of roller skates from Special Services of The Allied Forces in Japan, and production of roller skates as well as electric heaters etc. are in progress at present.

(4) Kawanishi Motor Service was established and started repairing of the U.S. Army Vehicles in Tudo Repair Shop of 73rd Ordenance Base Depot since July 1946, also going to repair the surpluss trucks which were released by the United States Army to the Japanese Government in Konan Plant with permission of Hyogo M. G. Team.

(5) In Himeji Plant, production of the toys, domestic goods, repairing of Automobiles were started by the employess in neighbourhood of the plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NND

Government in Konan Plant with permission of Hyogo M. G. Team.

(5) In Himeji Plant, production of the toys, domestic goods, repairing of Automobiles were started by the employees in neighbourhood of the plant.

(6) In Fukuchiyama Plant (Fukuchiyama-shi, Kyoto-fu), production of domestic goods toys, and farming implements are in progress since the end of 1945 with permission of Kyoto M. G. Team.

(7) In Fuse Machine Tool Plant (Fuse-shi, Osaka-fu), production of machine tools for wood, printing machines are being produced at present.

In our company with about 2,500 employees, are trying to take parts in reconstruction of peace time industries above mentioned. Though the materials and supplies stocked in these plants are to be used for these new industries they are not at all sufficient and at present we are having great difficulties in pruchasing them.

Especially the materials and supplies mentioned below are essential for these industries and we shall not be able to guarantee the living of the employees without them. We should be much obliged if you give considerations so we should be able to use these materials and supplies for our new industries.
