SUBJECT: 60mm Mortar Training

Remarks:

1. Inclosed is draft letter concerning the use of the 60mm Mortar Training Shell.

2. The amount of ammunition shown authorized will expend about 50% of the annual allowance (50% of approved quantity) during the current training phase.

3. Letter, inclosure 1, provides for the following policy decisions:

a. Only actual gun/mortar crews will use the ammunition.

b. U.S. advisers will make the necessary training material available to the NPR instructors, including extracts of U.S. FM 23-85.

c. Authorizes an expenditure of 80 rounds of Cartridge, Ignition per crew during current phase.

d. Lists the actual crews, by type unit, authorized to fire.

e. By reference to U.S. FM 23-85 gives detailed advice as to the proper method of training with this type ammunition.

SECRET

SUBJECT: 60mm Mortar Training (Cont'd)

f. Inclosure 2 was used in conjunction with station list to determine current distribution of mortars.

g. Inclosure 3 is a summary of Inclosure 4 which shows method of arriving at recommended distribution.

4. Attention is invited to the fact that no training literature or aids (Mortar) have yet been issued to NPR units. Therefore, any mortar training material used by them to this date has evidently been furnished by the U.S. Advisers.

5. Approval of Inclosure 1 is recommended.

6. If approved, Inclosure 3 will be used as a reply to Logistics Division's request for information upon which to base the distribution of the ammunition.

OPERATIONS DIVISION
ADVISORY AND CONTROL GROUP
CIVIL AFFAIRS SECTION
APO 500

1 May 1951

SUBJECT: Mortar Training Ammunition.

TO: Chief, Logistics Division.

1. Request that action be taken to procure 60-mm Mortar ammunition in the amounts and types shown below. This ammunition is to be used during the National Police Reserve Training Program, Third Phase. These allowances are based on the following paragraphs of AR 775-10, dated 17 September 1947: 9 a(1), 9 b(1), 9 b(3)(a)5, 9 b(3)(b), 30, 39, and 55.

2. -a. Ammunition Required.

	Cartridge ignition	HE-PD	WP	Practice
Ordinary Companies (60-mm Mortars).	67,200	3,240	3,240	35,100
81-mm Mortar Platoons	28,800	1,440	1,440	20,340
Region Patrol Companies	2,400	120	120	1,260
4.2 Mortar Companies	28,800	1,440	1,440	20,880
Counter Mortar Radar Section				4,800
Total Special Units	76,800	3,840	3,840	71,560
TOTAL	204,000	10,080	10,080	153,940

-b. Since the NPR is to receive only 60-mm Mortars at the present time, 60-mm Mortar ammunition has been substituted for 81-mm Mortar and 4.2-Inch Mortar ammunition, based on allowances prescribed for 60-mm Mortar Units. The training program which has been approved by GHQ includes Mortar Training for Special Units, therefore, an additional amount of 60-mm Mortar ammunition has been included for Special Units on the same basis as for Ordinary Units.

DRAFT

SUBJECT: Mortar Training Ammunition (Cont'd).

3. -a. Based on T/E's, NPR is authorized the following:

336 Mortars, 60-mm
3360 Shells Training, M69 (10 per mortar)
6720 Fin Assemblies, M5 (20 per mortar)

-b. Training shells and fin assemblies are authorized in Ord 7 SNL A-43 dated Nov '47. See organizational spare parts and equipment section, stock numbers R-004-9010011 and R-004-9010060.

WILLIAM M. ALBERGOTTI
Lt. Col., FA
Chief, Operations Division

OPERATIONS DIVISION

4 June 1951

MEMORANDUM TO: Chief, Logistics Division, CASA.

SUBJECT: Distribution of 60-mm Mortar Ammunition.

1. The following list is the recommended allocation of 25,000 rounds of 60-mm Mortar ammunition, HE, recently approved for training of NPR.

a. Camps, 1st Region.	Amount.
Funaoka	252 rounds
Utsunomiya	793 rounds
Kurihama	793 rounds
Toyokawa	3,251 rounds
Takeda	793 rounds
Matsumoto	1,088 rounds
Kanazawa	1,045 rounds
Tachikawa	None
Total, 1st Region	8,015 rounds

b. Camps, 2nd Region.	Amount.
Sapporo	None
Eniwa	600 rounds
Obihiro	1,393 rounds
Bihiro	1,844 rounds
Hakodate	252 rounds
Engaru	541 rounds
Total, 2nd Region	4,630 rounds

c. Camps, 3rd Region.	Amount.
Fukuchiyama	None
Mizushima	793 rounds
Zentsuji	793 rounds
Himeji	3,000 rounds
Fukuyama	252 rounds
Kaidaichi	541 rounds
Uji	None
Maizuru	295 rounds
Yonago	252 rounds
Mitsuhama	252 rounds
Itami	None
Total, 3rd Region	6,178 rounds

d. Camps,	4th Region	Ammount
	Fukuoka	793 rounds
	Nakatsu	252 rounds
	Kumamoto	252 rounds
	Kanoya	793 rounds
	Hario	3,251 rounds
	Sone	295 rounds
	Ozuki	541 rounds
	Total, 4th Region	6,177 rounds

Total, NPR. 25,000 rounds

2. The above table is based on location and strength of units required to undergo training with the 60-mm Mortar. It is suggested that the total shown for each Region area be stored at camps within that area having appropriate ammunition storage facilities.

WILLIAM M. ALBERGOTTI
Lt. Col., Arty
Chief, Operations Division

DRAFT

TRAINING BRANCH

28 June 1951

MEMORANDUM TO: Chief, Training Branch

SUBJECT: Ammunition Allowance for Field Firing.

1. The number of persons authorized to fire field firing problems with the carbine is as follows; Region Units, 43,288 and Service Group Units, 9,394, total 52,682.

2. Recommendation is made that an allocation of 30 rounds per man be authorized for this training, a total of 1,580,460 rounds, Carbine Cal .30. 016

3. Since the majority of NPR Camps have only 1000 inch ranges available for this type training, recommendation is made that ~~8,250~~ 7560 sets of landscape targets be provided. This figure is based on an allowance of 1 set per squad plus 10%. Approximate cost of landscape targets is estimated at ₹ 100 per set, or approximately ~~₹ 825,000~~ ₹ 750 000 for the entire ~~8,250~~ 7500 sets.

4. There are 800 machine gun organic in NPR units, recommendation is made that 1000 rounds per machine gun be authorized for field firing, a total of 800,000 rounds. 016

5. It is recommended that the balance of carbine and cal .30 machine gun ammunition be reserved for Bn firing problems to be conducted during the latter part of Third Phase Training. 016

James W. Logan

JAMES W. LOGAN
Lt. Col., Inf.
Training Branch

1. Btr & GG Hqs to units giving # rounds to fire —
2. where facilities do not exist for F.F. Landscape Target firing will be used.

19 January 1951

MEMORANDUM TO: Chief, Training Branch

SUBJECT: Training Ammunition Allowance

1. The ammunition allowance shown on the attached tables are as authorized for U. S. units in AR 775-10, and are based on the number of persons assigned by T/O and number of weapons shown in the T/E, not on the partial issue of weapons received to date.

2. See AR 775-10, Chapter I, par 8c "definition of crew served weapons". And par 9 (3) (a) "Qualification Courses". Also 9 (3) (c) 1 "Familiarization".

3. See AR 775-10, Chapter 2, Sec I par 19, 26, 27, 28, 29 and 35.

4. Additional ammunition included, as authorized by Chapter 3, "Combat and Special Training Allowances". See par 39, 43, 46a (2) "per active submachine gun in tactical unit", par 47d, "cal. .50 anti-aircraft gun of other than anti-aircraft units" and par 51a "Rocket, Anti-Tank".

5. Total amounts of each type ammunition are shown, as well as the break down for each camp.

TRAINING BRANCH

5 January 1951

MEMORANDUM TO: Chief, Training Branch

SUBJECT: Training Ammunition Allowances

1. The ammunition allowances recommended on the attached table are based on the following:

a. That all men in the Heavy Weapons Company will fire the heavy machine gun 1917A1, FM 23-55 page 127. Table III and Table IV once for instruction (474 rounds) and Table IV once for record (162 rounds). Total 636 rounds per man.

b. That all men assigned to LMG squads will fire LMG 1919A4 for record. This would be nine (9) men per platoon (27) twenty seven per rifle company. See FM 23-55 page 127. Table III and Table IV once for instruction (474 rounds) and Table IV once for record (162 rounds) plus an additional allowance of (100 rounds) per man for field firing. Total 736 rounds per man.

c. That all personnel not assigned to either the Heavy Weapons Company or Light Machine Gun squads will fire either the LMG 1919A4 or 1919A6 for familiarization, FM 23-55 Table III, zeroing and first three exercises for a total of 162 rounds.

2. It is recommended that all personnel be allowed two (2) rounds of practice 2.36 inch rocket ammunition for familiarization firing and that an additional allowance of 10 rounds of HE-AT rocket ammunition be authorized each camp for demonstration purposes.

3. It is recommended that all personnel be allowed fifty (50) rounds of Cal. .50 Machine Gun ammunition for training in firing at ground targets. See FM 23-65 page 160 per 1 and 2, fire exercise once, single shots, 10 rounds fire exercise twice using bursts of 2 rounds, total of 30 rounds. Remaining 20 rounds to be fired at panel targets, 400 to 800 yards range, when facilities for such firing are available.

4. It is recommended that all personnel be allowed thirty (30) rounds Cal. .45 ammunition for sub-machine gun for familiarization firing. FM 23-41 page 84 par 71. Fire phase "A" and "B".

8 Jan

Col Albergotti —

I discussed the Rocket Ammo H E A T (10 Rds/comp) with Mazyk. Believe 10 Rds is sufficient. Assuming a Commitment of Dual Weapons for a large class, most of the rocket firing could be training ammo, with two or three rounds HE AT.

Thomas.

1 March 1951

MEMORANDUM FOR: Lt Col Albergotti

SUBJECT: Comments on NPR Instructions, Subject: "Storage and Transportation of Ammunition"

1. The attached NPR paper is not in conflict with any one of the following:

a. Instructions issued by the GGHq, National Police Reserve, file 471(5 Feb 51) GGH-O, Subject: "Weapons and Ammunition", dated 5 Feb 1951.

b. Letter, GHQ, SCAP, Civil Affairs Section (Annex), file 671.3(28 Sep 50) CAS(Anx)-O, Subject: "Disaster Plan", dated 29 Sep 50.

c. Proposed model camp fire and disaster plan now in draft form.

2. These instructions appear to be a proposed directive prepared by Hq NPR and addressed to each NPR Region Hq and Service Group Hq. Correct procedure, established by NPR Rule No. 1, dated 6 January 1951, would be from Hq NPR to GGHq which would in turn publish the directive to Region Hq and Service Group Hq as a general policy and/or plan.

3. These instructions are entirely too much in detail for the NPR Headquarters to publish. The detailed nature of this paper is such that it places the NPR Headquarters in the operation phase, whereas they should only be a planning and policy making headquarters.

4. Section I, Paragraphs 2 and 3 refer to the weapons officer. To be in conformity with the present published T/O's these paragraphs should be changed to read weapons maintenance officer, and a statement added indicating these duties will be performed in addition to primary assignment or duty.

5. Section III, Paragraph 3, could be interpreted as directing a separate and special guard force in addition to the regular camp interior guard. This paragraph should be clarified to indicate that this duty will be performed by the regular interior guard force, as letter GGHq referred to in paragraph 1a., above, directs this post will be included in the regular camp guard orders.

SUBJECT : The essential of Storage and transportation of Ammunition and Explosives.

TO : Each Regional HQ and Service Command HQ

1. General Provisions.

1. Regarding the receipt, storage, transportation of ammunition and explosives (hereinafter reffered to as ammunition etc.) and the opening and closing of the magazine there will be provided by this essentials excepting those provided in the Explosive Control law (Law No.149 of 1950, the enforcement Order of the same law, the Enforcement Regulations for the Transportation of the Powers (Minister of Transportation Ordinance No.86 of 1950).

2. Concerning the handling of ammunition etc. by this Essentials there shall be established the following resposible persons.

a. Police staff Officer in charge of Weapons (hereinafter reffered to as "Weapon Officer") ← Wpn Maintenance officer ?
b. Chief of magazine;
c. Persom in charge of ammunition.

3.a. The Weapon Officer shall have the responsibility of the general control of the inside and outside of the magazine concerned and shall be responsible in chage of the receipt and maintainance of the ammunition, by the ordersof the unit commander concerned (means the Chief of Camp or installation hereinafter reffered to as the unit commander)

b. The Chief of magazine shall be in responsible to the control of the inside and outside of the magazine and taking in and out works of the ammunition, etc by order of the Weapon Officer . The Chief of magazine must always know everything about the amount of the ammunition, etc within the magazine concerned, and examine the real state of the ammunition, etc once a week and must make clear the incomingsam and outgoings thereof, providing with the stock Record Book.

c. A person in charge of ammunition shall assist the ammunition officer and execute the general works.

d. The key of the magazine must be kept in the safe which does not be met with the duplicate key and the key of the safe will be kept by the unit commander or senior officer of the day at the absence of the unit commander.

e. The opening and closing of the magazine will be performed, inthe presence of the staff officer who is appointed by the Unit Commander, by the Weapon officer receiving the ORDERS of PERMISSION issued by the Unit COMMANDER.

SCM
12 Feb 51

11. Receipt.

1. The ammuniton responsible receiver (Weapon officer) shall insure that the boxes are stocked separately by the items and lot number.

2. The Weapon officer shall pay attention so that the ammunition etc.their boxes may not be damaged or the working personal may not be injured .

3. The ammunition handlers will be on the alert for the damaged boxes and when practicable,repair will effeect ed.

4. If ammunition and so on are found damaged,or an incorrect quantity shipped,the same will be reported by letter to U.S.Proprety Accountable Officer,Civil Affaires Section Annex,(GHQ,SCAP,APO 500)through the Regional HQ and Weapos Section of the GG HQ .

111. Storage

1. The ammunition, etc will be stored if possible in fire-proof buildings.

2. The windows and doors will be barred and properly secured . They key inthe above mentioned paragraph must be the one that does not meet with the master key.

3. There will be established at all times more than two guards for the magazine. The guards of magazines will be for responsible for guarding the magazine by order of the staff officer of the day as provided for separately by the Unit commander.

4. Persons who are going in or out in the magazine area will affix the fixed brassardas (which will be kept by the Chief of magazine).

5. The ammunition will not be placed on floor directly but will be stocked on dunnage at least two inches above the floor.

6. Dunnage at least a quarter of an inch thick will be placed between layers of boxes to allow proper air circulation.

7. The ammunition etc.will be segregated by lot number and issues made from the lot number of which there is the least amout of ammunition etc..

8. The fire fighting equipments (water barrels, sand,shovels,axes,etc.) will be maintained at ammunition dump buildings and checked at each guard change and fire Extinguishes be checked periodically as prescribed by Fire Marshal.

9. The fir e breaks will be established and maintained for a distance of at least 40 meters around ammunition buildings.

10. The fire telephone will be installed onthe outside of ammunition buildings so as to be easily accessible in case of fire , These phones will be used for report-

12 Feb 51

ing fire only.

11. In case fire break out in the neighbourhood other than in the magazine itself, the numbers of the guard should be increased so that the fir e fighting equipments may be used easily according to the circumstances and the crevice of the windows and doors and doors and others should be plastered up.

IV. Transportation

(a) Truck

1. Ammunition etc when transported by vehicle will be coverd with water proof covering.

2. Smoking is prohibited on the truck with ammunition etc. in its surroundings.

3. In the day time, the red flags will be on right front and right rear of each vehicle and in the night time red lamp should be lighted on the same place.

4. In case of transportation of ammunition etc more than two guards should be accopanied per vehicle, in case more than two vehicles, more than ten meters intervals should be maintained in respective vehicles.

5. Details for loading or unloading of ammunition etcwill not ride ammunition trucks.

6. The trucks will obey traffic regulations at all times.

7. The trucks will be serviced prior loading

8. Ammunition etc.except small quantities, will be transported separarately at all times. Ammunition etc. and inflammables materials will not be carried on the same truck.

(b) Rail

1. Ammunition etc. will not be shipped with inflammable materials when possible full car loads will be shipped.

2. Ammunition etc. will be securely braced and blocked to prevent shifting while in transit.

3. The guards will accompany with trains.

4. The doors and ends of rail cars will have explosives placards displaced except when security reasons exisist to the contrary.

5. The ammunition cars etc will be separated from bearing inflammable .

V. Precautions.

1. The ammunition, etc. will be handled carefully at all times.

2. The general workmen shall not be used as the helpers of ammunition.

3. "No Smoking"signs will be posted around ammunition strage area and suitable smoking areas will be

designated at least 100 feet from ammunition buildings.

4. The lighted cigarettes will be extinguish and lighters and matches,and all spark or flame producing devices to will be removed from pockets and checked before entering ammunition strage areas.

5. The handling of ammunition etc.will,in principlet,be made in the day-time. But when the said handling should be unaviodably made in the night- tiue,an electric tourch should be used except other lights and lamps.

6. The door of the ammunition building will be closed while the truck is driving to load or unload,and will not be opened untill ignition has been cut off and the motor stopped.

7. Regarding the preceeding three paragraphs provisions thereof will be pushed in the vicinity of the ammunition area.

8. The ammunition, etc will be kept as cool and dry as possible at all times.

9. The ammunition will be opened only as needed (exposure to moist air over period of time will tend to cause correction).

10. In case of malfunction or injury due to faulty ammunition, lot numbers will be noted and such ammunition suspended from issuing.

The report of the same will be made to the Weapon Section, GG Hq, NPR by fastest available means.

The Weapon Staff Officer in charge will immediately take steps to notify all units and camps of defective lots and arrange for proper disposition thereof.

P.S.

12. The following paragraph is added to Chapter III.

In case fire occures in the magazine, the instructions for such fire fihgting (as posted in the area at the fire station and guard posts), will be published separately. All personal concerned with fire fighting and operations in the magazine area will be familialized themselves with these posted instructions.

BY ORDER OF CHIEF OF GENERAL GROUP.

弾薬貯蔵輸送等要領

一、総則

イ、弾薬(火薬類を含む以下同じ)の受領貯蔵弾薬庫の周囲及び輸送については火薬類取締法(昭和二五年法律第一四九号)同施行令同法施行規則及び火薬類運送規則(昭和二五年運輸省令第八六号)に依るの外本要領に依る

ロ、本要領に依る取扱いについては左の責任者を置く

(1)武器係幹部警察官(以下武器係幹部という)

(2)弾薬庫主任

ハ、弾薬係

(3)武器係幹部は所属部隊長(営舎等は施設の長・以下部隊長という)の命を受け弾薬庫内外の一般監締及び弾薬の受渡い並びに保管の責に任ずる

ロ、弾薬庫主任は武器係幹部の命を受け弾薬の庫入並びに庫出作業の責に任ずる

弾薬庫主任は弾薬庫内の弾薬数を常に知悉し毎週一回弾薬の状態を点検すると共に出納帳簿を整理し置かなければならない

ハ、弾薬係は弾薬庫主任を補佐し作業を実施する

二、弾薬庫の鍵は合鍵の利かない金庫に保管しこの金庫の鍵は部隊長が保管し部隊長不在のときは当直先任幹部が保管する

ホ、弾薬庫の開閉は部隊長の命令又は許可を受け武器係幹部が部隊長の指名する幹部警察官立会のもとに行うものとする

三、受領

イ、弾薬受領責任者(武器係幹部)は弾薬を種目別且組番号(又は記号)別に別個に請け重ねてあるかどうか確めなければならない

ロ、武器係幹部は弾薬の取扱いに当っては弾薬や弾薬箱に損害を与えるような作業員が負傷する事がないよう充分注意を要する

3 弾薬取扱者は弾薬箱が損傷に注意し之を発見した際は直ち
に修理しなければならない。
4 送付された弾薬に損傷又は数量に相違がある場合は直ちに
管区総監部及総隊総監部武器課を経て米軍物品管計
官吏（SCAP SCAJAP A.P.O 500）に文書を以て報告しなければならない。

第5節 保管

1 弾薬は火薬類取締法の厳重にしなければならない。
2 窓及扉には鉄格子を設け戸締りを厳重にしなければならない。
3 弾薬庫には常時2名以上の警備員を置かなければならない。
4 弾薬庫構内に於ては喫煙又は火気を使用するものとする。
5 弾薬は床の上に直接置くことなく床の上少くとも二吋以上の敷
板の上に置かなければならない。
6 弾薬箱を積み重ねる時は空気の流通を図る為少くも四分
の一吋の敷板を各段毎の間に置かなければならない。
7 弾薬は組番号に従って分類して積み重ね最も弾薬の数量
の少ない組番号のものから支給しなければならない。

第6節 消火

1 弾薬庫には消火器（水桶砂袋）を備え警備員をして
交替毎に点検し消火器にあってはその使用法を熟知しなければならない。
2 弾薬庫には消火に必要（水桶砂袋）消火器の外
10火災報知器又は工場等の火災通報装置を設けなければならない。
3 弾薬庫の周囲最少限四十米位の距離は防火の為め空地を
設けるか又は工場等の火災通報装置を設けなければならない。
4 弾薬庫の側に設ける火災時以外は使用しない様にする報知器は火災時以外は使用しない様にする

ならない。

11. 弾薬庫以外の附近に火災が生じた時は、状況に応じ警戒員を増員し防火用具を直ちに使用する事が出来る準備すると共に扉窓等の周囲際に白塗をしなければならない。

12. 弾薬庫内火災のときは別に定める消火法に依ることゝし消防司令所又は警衛所（衛兵所）に掲示をなし消防関係者及び弾薬庫地区関係者は常にその掲示を熟知しなければならない。

(四) 輸送

(イ) トラック輸送

イ. 弾薬をトラック輸送する際は防水覆をしなければならない。

2. 弾薬を積んだトラック及びその周囲で喫煙してはならない。

3. 昼間は各トラックの右前部及び右後部に赤旗を立てゝ夜間は同位置に赤燈をつけなければならない。

4. 弾薬輸送の際は一車輛につき三名以上の警衛員を附し二車輛以上の場合は各車間に十米以上の間隔を保たなければならない。

5. 弾薬の積込積降しの作業員は当該トラックに同乗してはならない。

6. トラックは常に交通規則に従はなければならない。

7. 積込みに先だつてトラックは充分整備更検して置かなければならない。

8. 極く少数の際を除き弾薬は常に他のものと分離して輸送しなければならない。特に可燃性物品は絶対に同一トラックで輸送してはならない。

(ロ) 鉄道輸送

イ. 弾薬は可燃性物品と混載してはならない。なるべく他のものと混載をさけ弾薬のみ積載すべきである。

2. 弾薬は輸送中移動せぬよう積みエゞしかり縛りつけなければならない。

3. 弾薬取扱者は弾薬が相当損傷に注意し之を発見した際は直ちに修理しなければならない。

4. 送付された弾薬に損傷又は数量に相違がある場合は直ちに管区総監部及総隊総監部武器課を経て兵事物品会計官吏（陸軍にあつては陸軍主計官吏）に文書を以て報告しなければならない。

三、藏

1. 弾薬は必要な限り耐火建築物内に貯藏しなければならない。

2. 窓及扉には二重又鉄をかけ戸締りを厳重にしなければならない。

前項の鍵は合鍵のきかないものでなくてはならない。

3. 弾薬庫には常時三名以上の警備員を置かなければならない。

弾薬庫の警備員は別に部隊長の定めるところに依り当直幹部の命を受け弾薬庫の警備に任ずるものとする。

4. 弾薬庫構内に出入するものは許可を得た者の脱帽（弾薬車主任係員）

をつけなければならない。

5. 弾薬は床の上に直接に置くことなく床の上少くとも二吋以上の敷板の上に置かなければならない。

6. 弾薬箱を積み重ねる時は空気の流通を図る為少くも厚さ四分の一吋の敷板を各箱の間に置かなければならない。

7. 弾薬は組番号に従つて分類して積み重ね最も弾薬の数量の少ない組番号のものから交給しなければならない。

8. 弾薬庫には消火器（水桶砂箱）その他消火具を備へ警備員交替毎に点検し消火器については消防司令の定める定期的点検をしなければならない。

9. 弾薬庫の周囲最少限四十米位の距離は防火の為め空地を設けるか又は土堤等の火災延焼防止施設を設けなければならない。

10. 火災報知器を弾薬庫の外側に設け火災の際ただちに報知し得る様にする報知器は火災時以外は使用してはならない。

武器課担当官は直ちに全射撃に使用銃器について検
査を実施し適当な処分法を指示するものとする

1. The ammunition allowances for carbines of JNPR units, as established by Ordnance, GHQ, is as follows:

	45 D/S Reserve	Basic Load	Combat Trg. Allowance	Indiv. Qual. Allowance
Carbines, Cal. .30				
(tot wpns 75,000)	10,125,000	6,750,000	15,200,000	11,250,000
Rds per wpn	135	90	200	150

2. Ammunition requirements recommended for emergency operations is 10 days supply per carbine located in each camp, and based on estimated expenditure tables, par 112, FM 101-10 for "Defense of Position", rifle cal. .30 : 12,000,000 rds. (see inclosure 1 for computations). This requirement includes the basic load and is exclusive of the 45 D/S reserve.

3. Recommend that combat training allowances be reduced by 5,250,000 rds and added to the basic load to provide for 10 days emergency operations, until such time that carbines are replaced with M-1 rifles. At this time the distribution will revert to allowances shown in paragraph 1.

4. Above recommended changes reduces the Combat training allowances from 200 rds. to 150 rds. per weapon. and increases the basic load from 90 rds to 160 rds per weapon, shown as follows:

~~4. Above recommendations will change status of ammunition allowances only in combat training and basic load as follows:~~

	U S D/S Reserve	Basic Load Augmented	Combat TNG Allowance	In Div. Qual. Allowance
Carbine, Cal..30				
(tot wpns 75,000)	10,125,000	12,000,000	9,750,000	11,250,000
+do per wpn	135	160	130	150

5. Recommend letter, inclosure 2, be written to each region.

Hemphill

Computations

1. Estimated expenditure tables, par 11c, FM 101-10 for "Defense of Position", rifle cab. 30:

1st day	Succeeding days
25 rds	15 rds.

2. Recommended 10 days supply

3. Total Carbines: 75,000

4. 1st day: 75,000 x 25 rds equals 1,875,000 rds

Succeeding days:

9 days: 75,000 x 15 rds x 9 days equals 10,125,000

Total rds required 12,000,000

5. Total rounds required 12,000,000 rds

Less basic load 6,750,000 rds

Shortage 5,750,000 rds.

Inclosure 1

DRAFT

Subject: Distribution of ammunition, Carbine, Cal..30

Do : (Multiple address - all Regions)

1. Ammunition for carbines, cal..30, on hand in Regions and to be allocated to each camp as it becomes available, will be distributed on the following basis:

Rounds per weapon:

45 D/S Reserve	Basic Load augumented	Combat training	Individual Qualification
135	160	130	150
