1. Under date of 19 June 1946, your headquarters approved the application of the Kyoto Canning Company, Kyoto prefecture to use a portion of the land and buildings of the Maizuru Naval Arsenal as a place of operation for this company. It was the understanding of this headquarters at that time that use of machinery of the arsenal was not required. The Kyoto Canning Company now desires to use approximately 40 machinery and pieces of equipment which are stored in the Gojo warehouse of the arsenal.

2. The Kyoto Military Government Team states that control of reparation machinery will not be a problem, provided this request is granted. In view of the essential nature of the work which this company contemplates undertaking, it is the recommendation of this headquarters that the Kyoto Canning Company be permitted to use the machinery in question.

Attn: Mil Govt Section, Res. & Ind. Officer

1. Subject firm is applying for permission to use machinery located at the Gojo Warehouse of the Maizuru Naval Arsenal. This area is listed on Incl. 2 OD # 5. Buildings and land, of subject area, are controled by Kyoto Canning Industry in compliance with 5th Ind. Hq I Corps, AG 004-BA, dated 24 June 46, basic: Application for Reconversion of Kyoto Food Canning Industry, Ltd., Gojochiku, Ukishima, Maizuru City. It is this Hq feeling, that some misinterpretation must have been made of the aforementioned basic submitted to your Headquarters. It was the intent of subject firm to receive the use of some machinery as well as the buildings and land, at the submittance of this first application. Attached applications are being forewarded requesting permission of higher Hq for use of the machinery indicated on attached list.

2. A copy of the attached information has been sent to proper Japanese Government cannels in compliance with SCAP's Memorandum for, The Imperial Japanese Government, dated 18 April 46, filed No. AG 004, Subject, Applications for the Conversion of Military Arsenals and Laboratories.

3. Release of this machinery will in no way impair the present reparation program. The proposed products of subject firm, are vitally important, and essential to the economy of the general public. In view of aforementioned information and since subject area is well situated for intended products, subject permission is strongly recommended by this Headquarters.

SUBJECT : Temporary Use of Machinery by Kyoto Canning Industry at Gojo Warehouse.

TO : C. O. Kyoto Military Government Team, APO 713.

1. Submitted herewithis an application from the Kyoto Food Canning Industry Ltd. for the use of restricted machinery and equipment at Gojo Warehouse.

2. Since this company has been authorized to make use of the buildings and grounds and in maintaining proper care of all the restricted machineries in the Gojo Warehouse area, this office feels that it is highly advisable that said company be permitted to start its initial operation with the use of applied machinery.

3. The operation of the Plant will not only be to the best of our interest, but will also benefit the economy of the local citizens as well. From the middle of September fishing season on a large scale will again commence, and ice manufacturing and cold storage will be necessary.

Kyoto, July 25, 1946.

Military Government Team,
Kyoto.

APPLICATION FOR TEMPORARY USE OF MACHINE EQUIPMENT WITHIN THE DISTRICTS OF UKISHIMA GOJO, HIGASHI-MAIZURU.

Dear Sirs,

(1) As a result of the disastrous war, Japan now has two gigantic problems of building democratic nation and of feeding 77,000,000 people including those repatriating from various parts of the world, from the resources of the four main islands Hokkaido, Shikoku, Honshu, and Kyushu, and the waters surrounding them, by the production of provisions from these sources.

We are confident that it is a matter of great importance at this imminent moment, by doing the best of our ability to cultivate the waters surrounding these four islands, going hand in hand with the farming in the matter of the production of provisions.

(2) Speaking of this Kyoto Canning Industrial Company, we are devoting ourselves to the production of provisions and the distribution to the citizens, to perform our duty as the only one and the sole company, producing provisions, and for this purpose we applied to the Government of Japan, applying for the shifting of these equipment, enabling us to work out the production of provisions by using the equipment of former Maizuru Naval Munitions Department in full-scale.

It has been considered by the Central Special Goods Adjustment Committee Meeting, consisted of the officials of the Department of Finance and Home Affairs on April 26th 1946, having passed through the decision of the Maizuru City Assembly, Kyoto Prefectural Assembly, and Osaka Financial Office on the part of the Government of Japan, and it was decided to shift the equipment in question for use on behalf of this company.

(3) Under date of April 3rd 1946, we submitted an application to the Allied Occupation Forces through No. 103 Military Government of Kyoto for the economical shifting of the production of marine products, by which the Maizuru Branch of your Military Government announced to Kyoto Prefectural

(3) Under date of April 3rd 1946, we submitted an application to the Allied Occupation Forces through No. 103 Military Government of Kyoto for the economical shifting of the production of marine products, by which the Maizuru Branch of your Military Government announced to Kyoto Prefectural Office concerning the return of the land and buildings to the Home Department under date of July23rd 1946 (Kyoto Military Government Team, Maizuru Department, APO 713 'Maizuru' July 23rd 1946), which we certainly have noted.

(4) In this connection, however, we can make full use only when all the equipment, including land, buildings, machines, and tools, but cannot make full use even when the land and buildings only could be used, therefore we bessech you to grant us to keep and let us make complete upkeep of the machines, formerly used by the former Naval Munitions Department 4th Division, as per the enclosed list, until we can receive your instruction, lest it should make us fail to stabilize the civilian life at this imminent moment on the part of provisions.

Facing the abundant fishing seasons of mackerel starting from the end of August, yellowtails between October and February next year, and sardines and mackerel after March next year, we wish to do the best use of the production of provisions for this country, to contribute to the stabilization and recovery of Japanese economy.

Enclosed, please find the list of machines.

BASIC: Application for Reconversion of Kyoto Food-Canning Industry Ltd., Gojochiku, Ukishima, Maizuru City.

AG 004 - BA 3rd Ind EHN/ks

1551 Hq I Corps, APO 301,

12 JUN 1946

TO: CG, Eighth Army, APO 343.

1. Forwarded in compliance with Operational Directive No. 34, your headquarters.

2. This headquarters recommends approval of the application of the Kyoto Food Canning Industry Company to use the empty buildings of the former Maizuru Naval Arsenal. In support of this, the following reasons are offered:

a. Buildings which the Kyoto Food Canning Industry Company wishes to utilize, will be empty in the near future.

b. Proposed products are vitally important, and essential to the economy of the general public.

c. The buildings are well situated for such production, and reconversion can be accomplished with less disruption of local Japanese economy, than if attempted at other locations.

d. Utilization of the buildings will not involve movement or further control of any restricted machinery or equipment.

1. The basic factory is applying for the use of the buildings of the Maizuru Naval Arsenal which is listed on Encl. 2, Operational Directive No. 5, 18 Jan. 46, Hq. Eighth Army.

2. An inspection was made of this firm and found it represented as stated in the attached application. The Gojyo Warehouses are well-situated for a fish and food canning factory. At present these warehouses are being used for storage by the Second Demobilization Bureau and the Welfare Bureau of Maizuru. These agencies indicate that in the near future their use of these building will terminate.

3. Attached herewith, is a statement from the Governor of this prefecture and several other Japanese officials on the necessity of the intended items to be produced.

4. A copy of the attached information has been sent to proper Japanese Government cannels in compliance with SCAP's Memorandum for, The Imperial Japanese Government, dated 18 April 46, filed No. AG 004, Subject, Applications for the Conversion of Military Arsenals and Laboratories.

5. This Hq. feels, that in view of the urgent need of foodstuff in Japan, permission should be granted to this firm to produce the requested items.

REPRESENTATION

Concerning 18 May, 1946

The reconversion of the former Navy Provision Grounds (the IVth Sect.)

By Kyoto Prefecture Office.

1. The enterpriser, Kyoto Nanzume Kogyo Kabushiki Kaisha, or Food-Canning Industry Incorporation, is a union corporation organized under the directive of this officers and the Ministry of Agriculture and Forestry in March, 1943, of more than 40 expert concerns in Kyoto and Nara Prefectures devoted to the production of canned and bottled foods since early Meiji Period. It is a business concern of high productive capacity. The promotions of Agr. & For. Ministry for production of canned food and all otherwise in the way of prepared food are being practically executed by this corporation.

2. In view of the geographical situation Japan must rely on the marine resources for food supply to be utilized in order to feed a population of 77,000,000. Deprived of the rich resources in Saghalene, with a considerable number of factories of food production destroyed in war devastation, the people of Japan naturally look to Kyoto Prefecture for the supply of food, which has luckily escaped the havoc and endowed with resources on land and sea. Placed in the situation like that it is important that a concern like the said Food

pared food are being practically executed by this corporation.

2. In view of the geographical situation Japan must rely on the marine resources for food supply to be utilized in order to feed a population of 77,000,000. Deprived of the rich resources in Sagalene, with a considerable number of factories of food production destroyed in war devastation, the people of Japan naturally look to Kyoto Prefecture for the supply of food, which has luckily escaped the havoc and endowed with resources on land and sea. Placed in the situation like that it is important that a concern like the said Food Canning Industry Incorporation should command all its productive facilities to turn out healthy untritive food for the people at large, and contribute ultimately to stabilizing the economic condition of the state, not to mention the production of materials for balancing reparation.

3. It is in consideration of these facts that the committee for investigation of appropriation of released properties came to the decision to grant the appropriation of the former Navy Grounds at Maizuru to the said Food Canning Industry Incorporation.

(Kyoto Food-Canning Industry, Ltd.)

March ~~11~~ 21, 1946.

To the Commander of the VIIIth Army,
Through Kyoto Liaison Office.

Subject: Application for permission of operating former Navy Purveyance Depot into industrial facilities.

1. The undersigned wish to tender application hereby for your permission to be granted for the operation of the former Navy Purveyance Station at Maizuru into a food-canning factory.

2 The structure in question belongs to the IVth Section of Navy Purveyance Office, and formerly were employed as a depot for collection, storing, and distributing food and clothings for men of the Navy.

3. The structures are situated at Maizuru, the town that is renowned commands for rich fishing business center of the Japan Sea and is very conveniently located for our purpose of carrying out manufacturing operations of fish-canning business.

4. We, the staff of the company, have been engaged in food canning industry since 1887, although its organization into a join-stock company was authorized in 1942. We have three plants, two in Kyoto and one at Maizuru. We propose, in the event of our application being granted, to install some equipments of high
