THE SUNSHINE PAPER  
**THE EVENING INDEPENDENT**  
 ST. PETERSBURG, FLA.

**A Truly Independent Newspaper that Prints All the News Every Day While It IS News**

**THE NEWSPAPER THAT MADE THE SUNSHINE CITY FAMOUS**

The Evening Independent is the only newspaper in the world that gives away its entire edition, absolutely free to everybody, everyday in the year when the sun does not shine upon its office. Hence its title, "The Sunshine Paper of the Sunshine City."

This remarkable offer has stood for more than three years, and during that time The Independent has been called upon to "make good" and give away its papers only nineteen times. Thus has been established beyond question St. Petersburg's fame as the Sunshine City and The Independent's fame as an original and forceful daily newspaper.

**INDEPENDENT READERS GET ALL THE NEWS; INDEPENDENT ADVERTISERS GET RESULTS**

The Evening Independent has the largest circulation in proportion to population of any daily newspaper in the South. It covers the local field completely, and advertisers find it the one medium through which they may reach all the people worth while in St. Petersburg and vicinity. Independent Classified Ads. do get quick results. Telephone 189 for the Advertising Manager.

Evening Independent, by Carriers to all parts of the city, \$5 per year; \$2.50 six months; \$1.25 three months, strictly in advance; or, 25 cents two weeks, collected every second Saturday. Weekly edition, by mail, \$1.00 per year; 50 cents six months. Telephone 189 for the Circulation Manager.

## *St. Petersburg, Fla.*

St Petersburg is situated on the southernmost point of the Pinellas Peninsula (or Pinellas County), 270 miles south from Jacksonville, Florida. This peninsula is the interrogation point of the State—upside down—thrusting its inquiring outlines some forty miles between the Gulf of Mexico and Tampa Bay.

The town is beautifully situated on a gentle slope rising forty feet above the level of the Bay, and extends backward in the form of a parallelogram. The streets run east and west and north and south and intersect at right angles. Recently the city has annexed also a strip of land one mile wide and extending westward over five miles through the originally planned city and this "handle," Central Avenue, which divides the city into north and south, sweeps east from Tampa Bay, a magnificent boulevard, seven miles long, straight as an arrow, to Boca Ceiga Bay on the west. When the improvements of paving and planting of trees and shrubs along the line of this extension are complete, Central Avenue will be one of the famous "show" streets of America.

To the south a large area of partially overflowed land has been reclaimed, and hundreds of valuable city lots form the subdivision of Bayboro, where formerly were only tiny bayous and sand flats. The commercial harbor of the city is here.

St Petersburg is the southern terminal of the Atlantic Coast Line Railroad via Jacksonville, and connects with both the A. C. L. and Seaboard Air Line Railways at Tampa via Favorite line of steamers plying on Tampa Bay. Connections are made with Mallory and Clyde line vessels for New York and with Mallory and Brunswick lines for Gulf ports, also with Peninsular and Occidental steamers for Cuba and Panama.

This seaport is within from twenty-four to forty-eight hours of the great centers of population in the east and central part of the United States, and only three days from other points except the faraway Rocky Mountain sections.

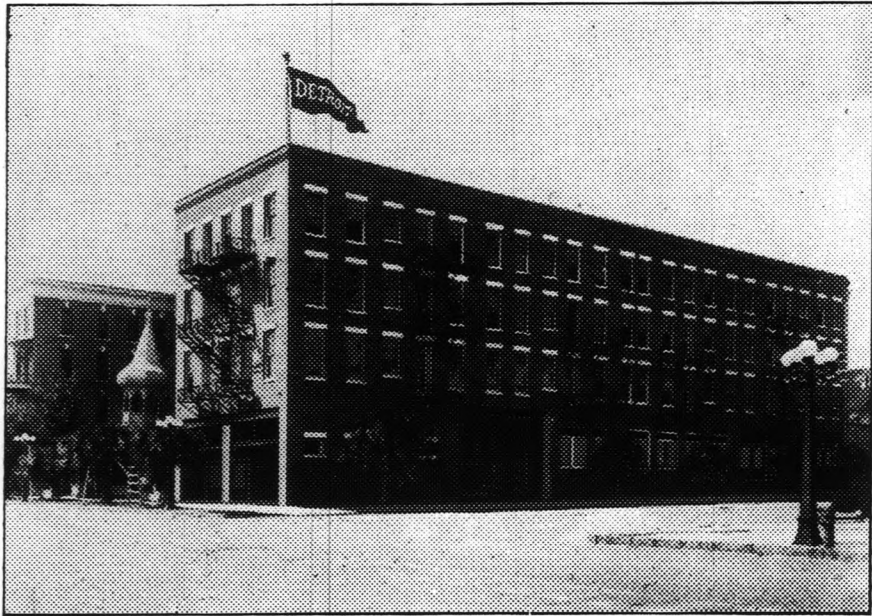

St Petersburg has eighteen miles of brick streets, four and one-half miles hard-surface streets, eighty-seven miles of sidewalks, twenty-four miles of sewers, twenty-six miles of trolley lines. seven beautiful parks, municipal water-works, paid fire department and automobile fire trucks, commission form government, municipal pier forty feet wide, built to twelve feet of water, yacht basin and harbor, commercial harbor, commerce 1913, 329,800 tons; value \$10,258,000.

G. B. HAYWARD, Assistant Manager

TELEPHONE 47-B

The water supply of St Petersburg is from never-failing artesian wells, pure and palatable. The city owns its water-works.

Taxable values for a period of five years are as follows:

1909 -----	\$2,058,104
1910 -----	2,231,157
1911 -----	3,158,717
1912 -----	4,160,660
1913 -----	6,192,655

The climate is more even than any other section of the State, in fact the whole Pinellas Peninsula is favored in the matter of climate. This, its greatest attraction, is due to its practically insular position. Summer and winter the climate is ideal. Sea breezes render the summers delightful, and in winter the warm winds from Gulf and Bay temper to a caress the touch of winter.

Weather Bureau records, showing average temperature and rainfall for the past four years:

1909-10-11-12	Average Temperature	Average Rainfall
January -----	62	2.38
February -----	61	1.43
March -----	68	2.27
April -----	73	1.16
May -----	77	2.92
June -----	80	9.63
July -----	81	8.41
August -----	81	7.76
September -----	81	7.26
October -----	74	3.19
November -----	66	2.20
December -----	61	1.43
Average,	72	Total Rainfall, --50.04

Fanned by soft winds which blow from Gulf and Bay, tempering the warmth of summer and banishing winter's chill; with nights cool and pleasant for sweet, refreshing sleep; with almost every day an "out-doors" day; and with the purest artesian water for drinking, it is no wonder that physical well-being rises to the highest mark in St. Petersburg. The city has an excellent system of sanitation, health rules are rigidly enforced, and streets, alleys, and grounds are kept in an admirably neat and clean condition.

Among the chief charms of St. Petersburg are the beautiful walks and drives. The eye is delighted with a symphony of colors. In the unique climate of the Peninsula are grown in perfection not only plants and trees of the temperate zone, but those of the tropics as well. Mangoes and avocado pears, guavas, and papayas or "paw-paws," and bananas and pineapples mingled with the com-

moner citrus fruit trees, such as orange, grapefruit, lime, and lemon. Tall palms grow here, and the magnolia, of glossy leaf and immense, fragrant, creamy blossoms, with oaks and many evergreens. Some of the vines are perfect curtains of glowing colors—the purple bougainvillea, the orange, and red bignonia and trumpet flower, the white and yellow jasmine, and the golden allemander. St. Petersburg's own special flower is the vivid green and red poinsettia. Hibiscus and poinciana, many-hued oleanders, rubber trees, and cacti are seen in perfection. Roses bloom all the year, and in the spring the perfume of orange blossoms is everywhere. This is the season when mockingbirds sing in the moonlight all night long and turn the days to music.

On the Pinellas Peninsula vegetables of every description may be grown, together with melons, berries, grapes, sugar-cane, rice, and various forage crops, such as pea vines, bermuda grass, beggar weed, and velvet beans. Owing to its immunity from killing frosts, Pinellas is one of the finest citrus sections in the State. Its grapefruit, especially, are of the finest quality and most delicious flavor. Many tropical fruits may be grown successfully.

For poultry raising there is no better country in the world, and bee culture is profitable.

The soil is for the most part a light, sandy loam, very easily cultivated, with occasional tracts of rich, black, wet muck land, which, when well drained, is the finest of soil for vegetables. Then there are stretches, here and there, of what is called scrub pine land, generally regarded as practically worthless for farming purposes.

Government by commission has recently been adopted as the method of conducting the city's business. Three commissioners transact all business. Police and fire departments are well organized and efficient. The city hospital, the park system, and the municipal library and advertising department are each in charge of a board of commissioners appointed for these purposes.

Much of the fame of St. Petersburg rests upon the reputation of the prowess of her fishermen, the actual catches of Spanish mackerel, sheepshead, grouper, trout, snapper, and many other edible fishes being so large as to be almost unbelievable to those unacquainted with the facts.

Cities, like persons, have individuality, and St. Petersburg's is clear-cut and unique. Whatever the town may be called, it is not colorless or neutral—the earnestness of its citizens may not be gainsaid. They are known, locally and abroad, for their foresight, energy, and enterprise, and particularly for their harmonious, united efforts to advance the common good. And the characteristic of the townspeople most remarked of all is their wholesouled friendliness and unaffected courtesy to strangers.

## POINTS OF INTEREST

**For a Day's Outing, Easily Reached by Boat, Trolley,  
Railroad or Autos Are Numerous  
Among These Are:**

Coffee Pot Bayou and Big Bayou, respectively north and south of St. Petersburg.

Davista and Gulfport, terminals of the electric railroad.

Fort Dade on Egmont Key, and Fort DeSoto and the government quarantine station on Mullet Key.

Pass-a-Grille, a beautiful island between Bay and Gulf, noted for surf bathing, fishing, and stone-crab dinners.

Anna Maria Beach, farther down the coast, a delightful island resort, with beautiful coast line, tropical scenery, and fine fishing and bathing.

Tampa, Florida's first seaport city, and celebrated for its cigar factories and its magnificent Tampa Bay Hotel.

Ruskin, a co-operative colony, on Tampa Bay.

Manatee, Bradentown, and Palmetto, interesting towns in the famous Manatee River fruit and garden section.

Long Boat Key and Cortez, fishing resorts, and Sarasota, a beautiful tourist town on Sarasota Bay.

### **Northward, up the Peninsula, Are:**

Pinellas Park, the home of an enterprising Northern colony.

Largo, the center of the county's citrus industry.

Belleair, with its palatial hotel and extensive golf grounds.

Clearwater, the county seat, a town occupying one of the loveliest natural sites in Florida.

Dunedin and Ozona, charming coast towns.

Southerland, the site of Southern College, belonging to Florida Methodists.

Tarpon Springs, famous for its sponge fisheries.

Anclote River, Indian Rocks, Wall Springs, and Crystal Beach, picturesque spots, ideal for picnics.

Espiritu Santo or Green Springs, with waters of wonderful curative powers.

## PREFACE

---

We herewith submit our first issue of the St. Petersburg City Directory, confident that we have placed before the public a complete exhibit of the information relative to the inhabitants, manufacturing, commercial, monetary and social interests of the city.

The miscellaneous department, beginning on page 49, contains full information regarding the state, city and county officials, churches, societies, secret and social organizations, etc. Beginning at page 57 will be found the Directory of Householders, or street guide, containing a complete list of the streets, alphabetically arranged, giving the number of the house and the name of the occupant of every building on the street. Following this department is a complete alphabetically arranged list of the residents of the city.

The information contained in this issue of the directory will be a valuable aid and assistance to the business men of the city and an incalculable accomodation to the thousands of visitors who spend their winters in this beautiful city. To further aid in this department of information the publishers of this directory will place on file at the Board of Trade rooms, for the use of the public, directories of the towns in Florida and also of the prominent cities in the northern states.

In addition to the St. Petersburg Directory will be found Clearwater, Tarpon Springs, Gulfport, Largo, Dunedin and Pass-a-Grille.

The Classified Business Directory, the last department in this volume, is a complete list of the manufacturing, mercantile, professional and other business interests of St Petersburg and the surrounding towns, compiled alphabetically under their respective headings.

## POPULATION

In estimating the population of the city on the basis of the number of names contained in the city directory, the multiple of 2.5 is the lowest used in any city. There are 4,662 names in the alphabetical list of this directory, which would indicate a population of 11,655, exclusive of winter residents.

This estimate is not confined strictly to the residents within the corporate limits of the city, but includes the territory outside of the limits, where the residents are as much identified with the city as though they resided within.

The census of 1900 gives the city population.....	4,127
Unofficial for 1911 .....	5,400
Unofficial for 1913 .....	8,000
City Directory estimate for 1914 .....	11,655

In conclusion the publishers desire to extend their thanks to the merchants, manufacturers and business men of St. Petersburg for their support and to the citizens in general for their co-operation and uniform kindness in furnishing the necessary data to our solicitors and enumerators; and to assure the public that we will strive to make each succeeding issue of the Directory more worthy of their commendation and patronage.

Respectfully,

R. L. POLK & Co.

**Is the live wire in  
Real Estate in St.  
Petersburg, known  
far and wide as the  
Sunshine City : :**

This city beats every other place for the number of days of sunshine. Here flowers bloom and radiate their fragrance every day in the year; and no city on the map has such perfect climate. These natural advantages, coupled with the most aggressive people, make it the safest and most inviting city in which to own property. And nowhere does ownership pay such splendid dividends. We have all kinds of Realty for sale—homes, lots, groves, etc. Let us show you and prove to you all of our claims. We know what values are, as we have been in the business here for many years and have seen the city grow from a small village to its present metropolitan proportions and character. We have seen men grow wealthy in it, and have never seen one person who did not make good money on his investments here.

## **Square-Deal Mitchell**

**MITCHELL BLOCK**

**Heart of the town. A Star will guide you**

# Real Estate

Is the foundation of America's phenomenal wealth. Some places grow faster and firmer than others, because, usually, of superior advantages. St. Petersburg, the famous Sunshine City, is one of these. She has an incomparable climate, is close to the Gulf Stream, high and dry on a peninsula jutting out into the salt water, and is fanned in summer by cooling breezes and in the winter by warm zephyrs. Here is the ideal home site, and possesses inducements and opportunities for the investor not offered by any other place in the country.

Invest in this land of perpetual sunshine, eternal flowers, the historic and actual Fountain of Youth, and add years to your life, happiness to your being and prosperity to your pocket-book.

We offer you the best possible service to secure a home or a home site, or to make investments that will make your purse laugh. Consult us for all kinds of Real Estate, whether in the city or outside. Our long years of experience are at your service.

# Stability AND Permanency

**Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?**

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

*"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.*

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

*May we explain how and why it will pay you?*

**The Publishers of this Directory**

## *Clearwater, Florida*

---

Clearwater the county seat of Pinellas County is one of the most beautifully located towns in Florida. Situated on a bluff rising sharply from the bay it commands a magnificent view over Clearwater Bay into the open gulf. Lying about 30 miles west of Tampa, 18 north of St Petersburg and 256 southwest of Jacksonville, it has splendid transportation facilities north, south and west. Clearwater has a modern sewerage system, electric lights, water works, paved streets and cement sidewalks. The fruit grown around Clearwater is exceptionally good and the numerous packing houses are kept going to their limit during the season. The uniform climate is the means of bringing more tourists every year, many of whom are building permanent homes. There are two large and flourishing banks in Clearwater with a combined capital and surplus of almost \$150,000.00 which speaks well for a city of its size, while churches of the various denominations are to be found conveniently located. The estimated population of 2633 for this year compares very favorably with the 1400 which the city boasted two years ago and is proof positive that Clearwater is steadily gaining each year. The publishers herewith extend their thanks to the business men and residents in general for the courtesies received.

Respectfully,

R. L. POLK & Co.

## Real Estate and Insurance

ORANGE and GRAPEFRUIT GROVES  
in the Pinellas, Peninsula and the famous  
lake section of Polk County yield  
from 20% to 50%.

We specialize in groves and grove lands and our expert advice is at your service. We have listed exceptionally good values on reasonable terms. Let us mail you our lists or permit us to show you our properties.

We allow R. R. fare not exceeding \$25.00 if you purchase groves of us or will gladly refund R. R. fare if our property descriptions cannot be verified.

In beautiful Clearwater, the highest city on the West Coast, we have Bay Front winter homes, lots and city properties on high class developments.

Detailed lists upon application.

DUNEDIN DIRECTORY, 1914

333

## DUNEDIN

Dunedin with a population of 785 is situated on the A C L R R 20 miles north of St Petersburg and about 262 miles south of Jacksonville. Facing Clearwater Bay it has a beautiful outlook and is an ideal place for a winter home, while the fishing is unsurpassed. That Dunedin is growing is evidenced by the fact that a new bank has been opened here. It also has churches of the various denominations and a good school. A Board of Trade has also been organized with H B Earthman as secretary

## LARGO

Largo situated about twelve miles north of St Petersburg, is one of the busiest fruit shipping centers on the west coast. There are four large fruit packing and shipping warehouses located here. It has churches of the various denominations and a new bank with a capital of \$60,000.00. Largo has a splendid public school and for an evenly tempered climate can not be surpassed. Building has been carried on quite extensively during the last year which insures a steady growth. The estimated population for this year is 700

PASS-A-GRILL DIRECTORY, 1914

361

## PASS-A-GRILL

This beautiful little island city is rapidly coming to the fore, encouraged no doubt by the wonderful growth of St Petersburg. Facing the broad sweep of the Gulf, its beaches and bathing are the equal of any on the famed East Coast. Transportation is very efficient, a boat line connecting at Gulfport with the electric car from St Petersburg every hour, also two all-water routes, one from St Petersburg and the other from Tampa and Manatee River points. Pass-A-Grill is quite proud of the fact that it was the first municipality to adopt the Commission form of Government. The hotel accommodations are excellent and reasonable in price and a great many attractive homes have been built during the last year. Estimated population 200

**Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?**

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

*"Fly-by-night," "fire-sale"* and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

*May we explain how and why it will pay you?*

## *Tarpon Springs, Florida*

---

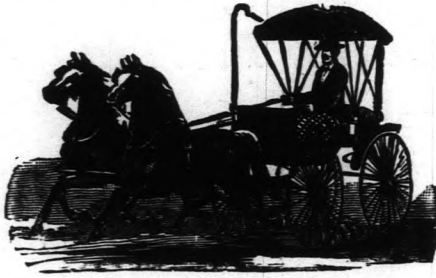

Tarpon Springs, the second largest city in Pinellas County, is situated on the beautiful winding Anclote River four miles from the Gulf of Mexico. Bordered on four bays and with the Anclote River flowing northwest, navigable for all kinds of pleasure vessels, the sport is ideal for the boating and fishing enthusiasts. Two miles east of Tarpon Springs lies Lake Butler, nine miles long by one and one-half miles wide, teeming with fish and surrounded by hills and pine trees making an excellent camping spot. Salt Lake lies to the northeast of the city and abounds with salt water bass and perch. At the foot of Tarpon a pure medicinal spring gushes forth which is famed for its healing qualities and is free to all. Starting from the spring and winding around the bayou is a beautiful cement boulevard, dotted here and there with picturesque boat houses and handsome residences. With the addition of two new hotels this year, Tarpon Springs is well equipped to take care of all who desire to visit here.

Tarpon Springs is lighted with electricity, has water works and an excellent sewerage system. The streets are paved with vitrified brick and the roads are fine for automobilism, to Tampa 27 miles to the southeast, or St Petersburg 31 miles south

The principal industry is the sponge fishing and the river shows very animated scene when the large fleet of vessels laden with sponges come to port

To prove that Tarpon Springs is in a flourishing condition and growing rapidly, it is only necessary to compare the present population of 2,920 with the 1910 U S Census

Respectfully,  
R. L. POLK & Co.

## R. L. POLK & CO.'S Classified Business Directory OF

St. Petersburg, Clearwater, Dunedin, Gulfport,  
Largo, Pass-a-Grille and Tarpon Springs

1914

Headings marked thus: (\*) are especially contracted for.  
An asterisk (\*) before a name denotes colored.

(COPYRIGHT 1914. ALL RIGHTS RESERVED.)

### EXPLANATION

The names in this department include all persons, firms and corporations engaged in business in the above places compiled first, according to the nature of the business in alphabetical order, then under each classification or heading in alphabetical arrangement according to name, regardless of the town in which the persons or firms are located. This arrangement has been adopted to facilitate locating a desired name and obviates the necessity of searching through a half-dozen or more classified lists in order to find a name in either St. Petersburg, Clearwater, Dunedin, Gulfport, Largo, Pass-a-Grille or Tarpon Springs.

It will be noted that each name is followed by the name of the town in which it is located, except in the case of St. Petersburg, where the street address only is given.
