INTERNATIONAL

YOUTH FILM FESTIVAL

www.siyff.com

Since its beginning in 1999, Seoul International Youth Film Festival(SIYFF) has been striving to increase the understandings for youth culture via film and to suggest film as an educational alternative. Every year, SIYFF is held for 7 days in July in Jongno, a central area of Seoul, and it has been growing as one of the globally recognized youth film festivals with active participation of teenagers from Korea and abroad. SIYFF focuses on opening windows for creative youths with unique viewpoints to explore their own world and on nurturing them for their bright future. SIYFF makes a new spot of culture-complex where everyone from children to the elderly can communicate through experiencing the festival and enjoying the films, breaking generation gaps and cultural boundaries.
