SUBJECT: Overall Drive against Illegal Consumption of Petroleum Products for Motorcars and Trucks.

This is to report to you that we are going to eaunch an overall drive against the illegal consumption of petroleum products meant for the use of motorcars and trucks engaged in activities having immediate importauce to Japanese recoustruction. During the drive we are to enforce more thoroughly and more effectively the control of petroleum products which we have been exercising since Sept. 18 in compliance with a Japanese Government driective then issued. After the drive a constant control in this line will be kept up more strictly than heretofare.

Outline of the Overall Drive against the Malpractices in the Use of Pelroleum Products.

1) Purport of the drive:
To check up the use of gasoline by strictly enforcing the regulations issued in compliance with a SCAP's directive, which went to effect on Aug. 1 (refer to the instructions given jointly by the under-secretaries of the Transportation, the Commerce and Industry and the Home Ministry).

2)
2) Period of the drive:
Three days, begining Nov. 20 through Nov. 22.

3) Area the drive to be carried out:
Throughout the prefecture.

4) Objectives of the drive:
Motorcars and trucks using gasoline.

importauce to Japanese recoustruction. During the drive we are to enforce more thoroughly and more effectively the control of petroleum products which we have been exercising since Sept. 18 in compliance with a Japanese Government driective then issued. After the drive a constant control in this line will be kept up more strictly than heretofare.

Outline of the Overall Drive against the
Malpractices in the Use of Pelroleum Products.

1) Purport of the drive:
To check up the use of gasoline by strictly enforcing the regulations issued in compliance with a SCAP's directive, which went to effect on Aug. 1 (refer to the instructions given jointly by the under-secretaries of the Transportation, the Commerce and Industry and the Home Ministry).

2)
2) Period of the drive:
Three days, begining Nov. 20 through Nov. 22.

3) Area the drive to be carried out:
Throughout the prefecture.

4) Objectives of the drive:
Motorcars and trucks using gasoline.

5) Points to be emphasized in the checking-up:
(1) To ascertain whether antomobiles that are equipped to run on substitute fuel, are using gasoline or not.

(2) To ascertain whether antomobiles not registered for use of fuel are using gasoline or not.

(3) To ascertain whether any antomobile is using gasoline that was not properly distributed.

(4) To ascertain whether cars that are using gasoline are engaged in essential activities as described in paragraph (3) of the ordinance no. 881.

(5) To ascertain whether the gasoline distribution certificate or the gasoline consumption certificate that the driver is provided with is genuine and valid.

6) Activities to be taken by way of carrying out the drive:
(1) The drive will be launched jointly by those officials in charge of the public safety and others in charge of the economic crimes prevention of each police station. Officers will be posted at check points temporarily established.

(2) In the police areas where road blockades are equipped the

drive will be conducted more strictly and more effectively, and they will be so utilized constantly even after this drive is over.

(3) With this current drive as the starting point constant control in this line will be carried on at each police area under a progran set up suiting the conditions of each area, including an all-out control to be exercised from time to time in order to thoroughly eliminate the malpractices in the use of gasoline.

7) The law to be refered to in exercising the coutrol:
"The Regulations respecting the Petroleum Products Distribution" as defined in the Law of the Emergency Resources Demand and Supply Coordination (refer to the Official Gazette, date Oct. 31, 1947)

8) Report of the results of the overall drive:
(1) The results on the action taken in this overall drive will be collected by Nov. 30 A monthly report on the continnous control which will be kept on after the drive will be made up at the Public Safety Section by the fifth every month.

(2) The violators of the regulations will not only received a judicial punishment, but get their registration for fuel supply canceled, in addition to ~~beside~~ their allocation of oil& cut off and what they have left on hand confiscated.

as defined in the Law of the Emergency Resources Demand and Supply Coordination (refer to the Official Gazette, date Oct. 31, 1947)

8) Report of the results of the overall drive:

(1) The results on the action taken in this overall drive will be collected by Nov. 30 A monthly report on the continnous control which will be kept on after the drive will be made up at the Public Safety Section by the fifth every month.
