MEMORANDUM FOR RECORD: ECONOMIC SECTION

SUBJECT: Alleged Pollution of Kitsune River, Yamanashi Prefecture by Hayakawa Industry Company (Tanning Factory)

1. General Facts Concerning Existing Conditions:

a. The plant does cause considerable discoloration, odor and amount of animal material (small pieces hides, hairs, etc) to small stream.

b. Those persons using stream for drinking water have been informed as to dangerous condition. However, those using it should realize that original condition prior to this makes it improper use for drinking.

c. Only a few persons are actually affected.

d. Those affected have well supplies for drinking nearby at present time.

e. Indications are that the drinking water idea is not basically true, but rather the water is used more for such uses as washing food and clothing which condition is bad for this but more weight would result from saying it was used as drinking water.

f. From the economic viewpoint the number of men employed, etc. far outweighs the danger supposedly cause by the pollution.

g. There is an inherent dislike for such an industry in Japan so much could be made of the present situation on this rather than factual case.

h. However, in view of its possible danger, the following steps to be taken by the company are under planning and will be carried out after agreement by those concerned.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

8 March 1951

Subject: Alleged Pollution of Kitsune River, Yamanashi Prefecture by Hayakawa Industry Company (Tanning Factory)

(1) All water leaving the plant will undergo treatment before entering the stream.

(a) Screening for removal of coarse material.

(b) Addition of coagulating material (probably lime) continuously.

(c) Sedimentation - tanks to be constructed to allow a minimum of 4 hours retention at maximum discharge rates.

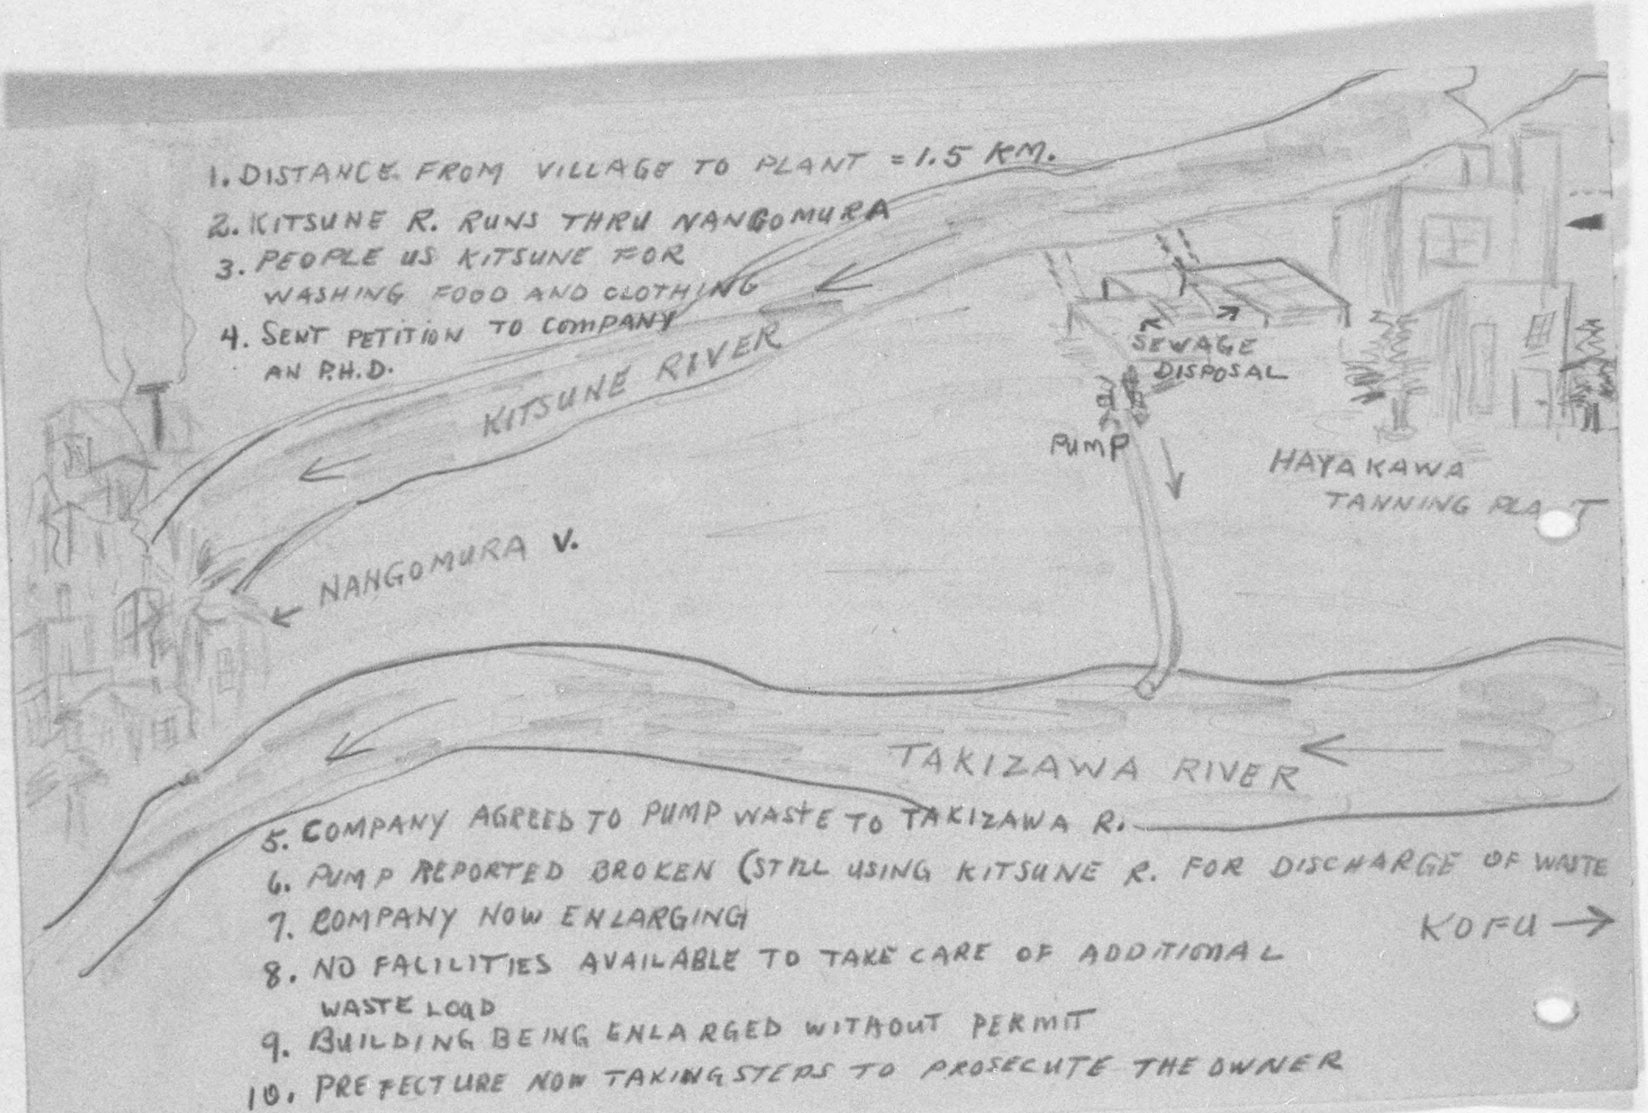
(d) Final screening.

(e) Control regulator for even flow into stream rather than surges as is now occurring. Allowing for an estimated 4 to 6 hour period beyond the operating period of the plant for disposal.

2. It is felt that with the above work being carried out and properly dosed should remove a great percentage of the material. Some color will remain regardless of what is done. However, the dilution caused by the stream is very great (estimated at 1/1500) and should eliminate any great public health hazard.

3. Conclusion: The economic factor involved (industry in small town) is by far much more important than danger illeged to exist.

CLINTON W. ALLEN
Sanitary Engineer



DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

To: Governer of Yamanshi Prefecture

From: Residents of Izumi Community of Nanko Village (119 persons)

18 Oct 50.

1. We think the prefectural authorities are well aware that we inhabitants in down stream area put up an objection in fear of our drinking water to be polluted when the Hayakawa Hide Company applied the prefecture for approval of establishing a factory in 1948.

2. After a series of several controversial inhabitants meetings and study meeting s we agreed to the prefecture's approval, as you know, with a view to respect of freedom of induvidual enterprize and to our belief ot talks of supervisory offices.

3. The present situations, however, are in such state that sewerage treatment facilities are left intact, despite the plant has been several times extended and wells for industrial use have been increased in several more places since its start, and menace to our life is increasing day by day with much pollution of river water due to insincerity of the company and breakdown of treatment facilities.

4. We representatives of inhabitants have requested both the Hayakawa Factory and the Ogasawara Health Center to take the best measures regarding disposal of sewerage. However, no materialized measures have yet been taken.

5. We request that a drastic measure be taken by the prefecture to have the company carry out immediately the safest method of sewerage disposal.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

寫

陳情書

昭和三年、早川工場現地に於て反革工業の工場施設の許可を縣當局に於て重々承知の事と存じます。其の際、我等の日常生活に缺くべからざる處の工用水路の汚濁することを恐れ工場設置に反対を致しましたるは、一部落民大会を数回開催一方は研究會の数を重ね、幾多論爭紛糾の後個人営業の自由を尊重し監督官廳の言を信じて、已承知の如き條件を以て工場經営を許可し同意致したるものでありまず。(同々條書)

然るに、工場の現況は営業許可当時に比較するに、数倍に拡張され、従つて使用水量も当時の三堀井戸も数ヶ所に増設されるにも拘らず、汚水處理の施設は從前のまゝにて又の流の汚濁甚だしく、我々生活不安は日々に増大しつゝあります。

依之、我々は先般より数度代表者を挙げて早川工場及び小笠原縣建所に対し水處理の實行及び監督を迫請陳情

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Yamaoka

1. A.
(11) Insect and Rodent Control:

In the winter season, the communicable diseases by mosquitoes and flies have been stamped out, but we must prevent these insects from increasing again in the early time of next Spring after they spend this Winter season.

In such a view, the inspectors of each health center and their assistants went round each city, town and village to investigate into the living condition of these insects, and held short course in several places and distributed the prints to each house, for the purpose of promoting knowledge and understanding of people for prevention of these insects.

Thus we have made effort, requesting people to cooperate with our works.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Y

Yamanashi Prefecture

(Population 815,485)

Address: Kofu City
Tel. : Kofu - 4801-9

Health Department Organization:

Chief of the Department recently resigned. -
(Former chief of medical affairs Welfare ministry

1. Medical Affairs Section: Chief - Mr. Sakurada

   a) Medical Affairs - Mr. Shindo
   b) General Affairs - Mr. Higuchi
   c) Nursing Division - Miss Yamamoto

2. Public Health Section: Chief - Dr. Uehara (?)
   Recently the preventive medicine section has been dissolved and absorbed into public health section.

3. Pharmaceutical Section: Chief - Mr. Mukoyama (he has been arrested by the police, Mr. Kawasaki is the acting chief)

Summary:

Reorganiztion in September 1949 of the health department carried out by the former chief, Dr. Iinaga who resigned later has met strong opposition. He was blamed for dissolving the essential section of preventive medicine simply on the basis of political reasons. Newspapers and public have been shown strong opposition to the action taken by the chief of the Department. Dr. Iinaga resigned in an early part of October 1949. Dr. Koike, the former chief of preventive medicine section has been known for the Communist membership. He has been transferred to Ogasawara Health Center as its chief.

Mr. Sakurada who is the chairman of the election committee of the Governor has the strong position and is known that he is trying to become the chief of the Department. Former chief of pharmaceutical section has been arrested for his fraud and accepting briberies. There have been some political complications in the Health Department. Mr. Sakurada is known that he has strong control over the budgeting financing and appointment of personnel in the department causing troubles.

YAMANASHI PREFECTURE

Health Dept. Chief , Dr. Abe

A. Organization

Sanitation Sect. (Dr. Uehara) -- Preventive Medicine Div. (Dr. Ishikawa)
-- Nutrition & Envi.Sanit Div. (Nut. Fukayama)
-- Vet. & Food Sanit. Div. (Dr. Hiraga)
-- Parasite Div. (Mr. Otani)

Medical Affairs Sect. (Mr. Sakurada)
Pharm. Affairs Sect. (Mr. Osada)

Medical Institute

Technician for R & I Control — Vet. Takano
In charge of water — Mr. Kawano

Yamanashi Medical Institute, total personnel 84 , having bacteriological & hygenic lab. and clinic.

B. Budget

Health Dept. ..... 2.3 % to total Pref. Gov.Budget.
Sanit. Sect. ..... 80 %
Medical Aff.Sect.(Inclu.Med.Inst.)..... 17 %
Pharm.AffairSect. ..... 3 %

Rodent & Insect control teams
Total 17,000,000 Yen — 5,500,000 Yen Natinnal subsidy
5,500,000 Yen Prefect. budget
5,500,000 Yen Local bodies

C. General Information

Schistosomiasis (typical local disease)
Spread in 1 city & 56 towns and villages.
Percentage affected against the total population: 17 % in 1946.
" " " " " 2 % in 1949.
Measures to be taken against this disease: Furrows to be converted in concrete bed . lime liquid to be used.

T.B.
Reported cases: 2,000 in
Death rate : $10\frac{1}{2}$ persons in 10,000 persons.

Typhoid, disentry etc, very few.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

D. Summary

7 Health Centers (Pref. run)
8 Sanitary Teams (Full time basis)
From Oct. to Mar. ... 8 teams (209 men including Asst. Insps.)
From Apr. to Sept....12 temas (229 men " " ")
161 Asst. Inspectors
Attached to teams, for small towns and villages Ass. Insps. only attached.
8 teams placed in Kofu City.
4 teams in Enzan, Shimoyashida, Yamura Towns and Masuho Village.
13 Inspectors
3 in Pref. Office. Inspection of hotels ,restaurants done.
10 in H.Cs. Inspectors are short.

E. Activities

Teams engaged in R & I control and cleaning except Kofu City(Kofu City having Scav. Div.) Dusting of private factory dormitories by teams but payed for by private Cos. Spraying 2 times monthly.
Fly & mosq. control this Summer:
16,000 gall. of 5 % DDT and 25 drums of pyrethrum consumed. DDT rationed through 2 Ratio Stations by tichets issued from Pref. Gov. Office to local bodies. Prefecture pays entire amount of materials sold to towns, towns then return 1/3 cost of to Pref. Amounts issued accoding to desire of towns.
People generally want ddt not pyrethrum.
Rodent control scheduled 3 times a year.
3 Oct-8 Oct. ..... 2,100,000 baits distributed, baits made by teams and youth ass. Rat-poison , a tube costing 11 Yen .. 30 baits.
130 Yen per day---some towns have family allownaces.

F. Envi. Sanit. Program Emphasised

1) Eduaation regarding disease and insect & rodents.
2) Renovation of toilets, model village having already nonovation toilets to be extended.
3) Starting of fly and mosq. control to be expedited. Budget slow in getting. to Prefecture.

F. Water

13 water plants(smallest servicing 4,000 people)
161 simple water plants
For 6 of 13 water plants 1.5 ppm of chlorine dosed, and residual chlorine is o.4 to o,5 ppm.
Test carried out bacterilogically & chemiaally once per manth for samples of raw water at source, raw water at reservoir, treated water , faucet water of water werks.
Test not done for simple waterworks but inspected by Sanit. Inspa. of H.Cs. Report required per month.
Well water tested at req uest of consumers.
Water for restaurants such as ice candy makers tested complying regulations.
