Honorable Yukio Kishida,
Governor of Hyogo Prefecture,
Hyogo, (Honshu), Japan

Dear Governor Kishida,

Reference is made to your petition, dated 28 June 1949, subject: "Materials for Exposition", forwarded to Colonel Gilman K. Crockett, Commanding Officer, Hyogo Civil Affairs Team.

The communication referred to above was forwarded through Civil Affairs' channels to GHQ, SCAP. A reply containing the following information has been received:

"GHQ, SCAP approval for the fair would be required only in the event the Japanese Government supported or sponsored the fair and made a request for allocation of critical materials, expenditure of yen funds not appropriated for such purpose, or the use of foreign exchange."

Yours very truly,

SUBJECT: Petition Concerning Kobe Fair

TO : Commanding Officer
Kinki Civil Affairs Region
APO 25

1. Attached is a petition from the Governor of Hyogo prefecture and the Mayor of Kobe concerning an Industrial Fair to be held in Kobe during the period March-June 1950. The purpose of this fair, plans and estimate of materials needed, are included.

2. I have given this matter much thought and consideration. Conferences have been held with officials connected with the development of this idea at which time the estimated revenues and expenses were examined. It will be noted that if the estimated revenue from taxes is realized, it will fail to balance the subsidy from prefectural and city sources by about fifteen million yen.

3. At a recent visit made to Yokohama, various section heads of the Kanagawa Civil Affairs Team were contacted concerning a similar fair which was held in Yokohama last year. With reference to this fair, the following facts are significant:

(a) There was no difficulty encountered in raising subscriptions.

(b) The presale of tickets was very successful. However, due to adverse weather conditions, the gate receipts were less than anticipated.

(c) There was no indications of any mismanagement of funds.

(d) Revenue derived from exhibitions and entertainment was equal to that anticipated.

(e) Poor planing in connection with advertising resulted in insufficient information being made available concerning what exhibits were being shown and their purpose. Free literature concerning the fair as a whole was not available to foreign traders. Posters were located in poorly selected sites.

4. Recommend that permission be granted to hold the Kobe fair as outlined in the attached papers if the materials for construction can be made available without curtailing any housing project now under consideration.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. It is further recommended that the officials connected with this fair be instructed to furnish plans as to the use of each building upon completion of the fair, such as schools, dwellings or government buildings. In addition they must be prepared to furnish an itemized final accounting, covering all expenses and revenues connected with the fair.

6. It is thought that if this fair is properly organized and operated and the mistakes made by the Yokohama fair are avoided, it will have a stimulating effect on foreign trade and the city of Kobe will be greatly benefitted.

1. Forwarded for your information.

2. This fair has no connection with the proposed "American Fair" to be held on approximately the same dates in Hyogo prefecture.

3. Local government officials and the Kinki Liaison Office are highly desirous that this fair be held in Kobe.

4. Japanese officials concerned are preparing a similar petition to be forwarded through Japanese channels.

1. This headquarters has completed a thorough study of the proposed fair. Study was conducted by a series of conferences with Hyogo prefectural officials, Kobe City officials, officials of other Japanese agencies and business men, including exporters and importers. All agree that the proposed fair would be advantageous to the area in promoting, or stimulating, manufacture for export.

2. The original concern of this headquarters was that by the use of an enormous amount of critical materials essential industries would be deprived of securing building material, etc. Also, it was first believed that these critical materials could be best used in a housing program for the burned out and overcrowded city of Kobe. However, the added inclosure indicates that a useful disposition would be made of the buildings, etc. after the fair has suspended operations.

3. It was brought out during conferences, and as the added inclosure indicates, that "top-level" personnel of the central government have approved this fair, and in most cases have accepted appointment as honorary advisers. This being the case, it is apparent that very little trouble is anticipated in securing most of the critical materials, which are desired. However, the Hyogo officials believe they will require aid from the Occupation Forces to secure the materials controlled by GHQ, SCAP.

4. In view of the above, it is recommended that the officials for the Kobe Fair be given all possible aid in securing the necessary critical materials required in order to hold the fair.

1. It is requested that the Hyogo Civil Affairs Team notify the enterprisers of the Kobe Fair that SCAP approval for this project would only be required in the event the Japanese Government supported and/or sponsored the project and made request for the allocation of critical materials, expenditure of yen funds not appropriated for such a purpose, or the use of foreign exchange.

2. It is further suggested that members or units of your command avoid comments, written or oral, which might be used by the enterprisers of Kobe Fair as a means to influence Japanese officials to support this project.

KOBE CITY HALL

KOBE, JAPAN.

August 30, 1949

SUBJECT: Purport of Japan Trade and Industry Exposition

TO : Col. Gilman K. Crockett,
Commanding Officer,
Hyogo Civil Affairs Team, Kobe

Sir:

Preparations are now being made for the Japan Trade and Industry Exposition which is scheduled to be held in Kobe next spring under the joint auspices of the Hyogo Prefecture and Kobe City. The main objective of this fair is to help promote Japan's self-support economy and we are confident that a nation's economy can only get on its feet by enhancing foreign trade. Fortunately our economy is now being rehabilitated rapidly thanks to the positive aid of the United States of America. We are also convinced that the Japanese people should have enthusiasm and responsibility in the reconstruction of our economy by their own efforts on this favourable occasion.

In this connection the role to be played by the Kobe Port, one of the leading commercial ports in our country, is of prime importance in the restoration of both foreign trade and domestic industries. A path to boost foreign commerce is to meet the demand of the international markets supplying them with excellent commodities at moderate prices. Therefore, foreign trade should not be left to exporters or manufactures only but each and every Japanese should know its importance at this economical situation. Accordingly, it will be most significant to exhibit commodities for export and the data of economic situation for the people's imformation and to give them chances to acquire the knowledge about them.

The purport of this exposition, as already stated, is to give people opportunity to recognize the actual situation of Japan's economy and the present circumstances of her foreign trade through their own ears and eyes and further to help elevate the standards of both commodities and industrial technics. In order to attain its aim, all sorts of commodities which are the results of both manufacturers' and exporters' efforts and hard work will be displayed so that the public can acquire the knowledge about the commodities for export and their technical standard. It is also hoped that the excellent goods manufactures in both European and American countries if available will be exhibited. If this plan be materialized, the people will be able to compare Japanese goods with foreign ones and will also be stimulated to create new devices and its effect will no doubt be great. We are sure that the reconstruction of cities is imperative so that Japan's economy may get on its feet. Therefore, it is our desire that the authorities concerned will give possible support to us taking the significance of this exposition into your consideration.

Yours faithfully,

Kenkichi Kodera

KENKICHI KODERA
Mayor of Kobe, President
of Japan Trade and
Industry Exposition

    To be taken away and be used as materials for repairing school-building.

15. Theatre: 180 "tsubo"
    To be removed and be used as an school auditorium.

16. Pageant Stage: 64 "tsubo".
    To be reserved and be used for the same purpose by citizens.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Leading Members Who Accepted

Honorary president-general	Prime Minister, Shigeru Yoshida
President-general	Minister of Trade & Industry, Hirataro Inagaki
Vice-president-general	Vice-Minister of Trade & Industry, Takayuki Yamamoto
Governor	Governor of Hyogo Prefecture, Sachio Kishida
President	Mayor of Kobe, Kenkichi Kodera
Vice-president	President of the Kobe Chamber of Commerce and Industry, Hikoichiro Miyazaki
"	Vice-Governor of Hyogo Prefecture, Satoru Yoshikawa
"	Deputy Mayor of Kobe, Toyo-o Seki
"	Deputy Mayor of Kobe, Takeo Saito
"	Deputy Mayor of Kobe, Tokio Nagahama

Honorary Advisors Who Accepted

Attorney General	Shungo Ueda
Foreign Minister	Shigeru Yoshida
Minister of Finance	Isando Ikeda
Minister of Education	Sotaro Takase
Minister of Welfare	Joji Hayashi
Minister of Agriculture & Forestry	Kōtaro Mori
Minister of Transportation	Shinzo Ohya
Minister of Postal Administrative, and Tele-Communications	Saekichi Ozawa
Minister of Labor	Masafumi Suzuki
Minister of Construction	Hideji Masutani
Director-General of E.S.B.	Takayoshi Aoki
State Minister (Director-General of Local Autonomous Board)	Kozaemon Kimura
" " (Director-General of Administrative Control Board)	Ichiro Honda
" " (Director-General of Reparations Board)	Kikuichiro Yamaguchi
" " (Secretary-General of the Cabinet)	Kaneshichi Masuda

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Compiled by the General Affairs Dept.,
the Kobe Exposition Office.

The Scenario of the Kobe Exposition of 1950

Exposition grounds: Oji Park

Exposition period: March 15 --- June 15 (1950)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The Overture:

The postwar World

Potsdam Declaration

Aid programs for Japan and Germany

GARIOA (Government Appropriation for Relief in Occupied Area)

EROA (Economic Rehabilitation Account for Occupation Area)

Land and Nation

A. Natural environments---the Geographical position.

B. Japan as viewed from the economic angle:

Products which are produced sufficiently enough to cover the domestic demands---sulphide, iron ore, and sulphur.

Lack of industrial resources.

Undeveloped resources---electricity and petroleum.

C. Population: How to support the population of 80 million?

D. What did Japan lose in the War?

E. The situation of Kobe.

9-point Economic Stabilization Program.

5-year Economic Rehabilitation Plan.

International Trade and Japan's Position.

Japan must realize its economic independence by 1953. By what means can Japan accomplish its economic rehabilitation and build up itself?

For what purpose is the present exposition held?

The Structure of the Kobe Exposition:

Part I.	The World.
Part II.	Resources.
Part III.	Production.
Part IV.	International Trade.
Part V.	Culture.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

This is the first exposition that has ever been held in Japan according to what is called the "functional principle." based on the "process of developing themes."

Part I. The World.

First of all, we must clearly observe the actual state of the world. In what direction is the world moving?
What efforts are being made by peoples on the globe? The reconstruction of our nation, also, is connected with the fate of the world.

1. America:

North America---CIE. GAG

Central America and South America

2. The British Commonwealth of Nations:

Britain, Canada, Australia, New Zealand, and India.

3. Europe:

France, Switzerland, Italy, Holland, Belgium, Austria , and Germany.

4. Soviet Russia.

5. Asia:

China, French Indo-China, Philippines, and Thai.

6. The United Nations:

The object of the United Nations.

Activities of the United Nations---UN headquarters, Lake Success.

UNESCO activities.

Part II. Resources.

To speak of the actual conditions of our country, its resources are extremely scanty while it is over-populated. Therefore, we must develop industries extensively, in order to import raw materials and to export manufactured goods.

1. The plan to develop lands.

A. Resources committee, of the Economic Stabilization Board,
Water --- Generation of electricity and irrigation.
Land --- mining, and agriculture.
Energy --- coal, petroleum.
Land planning.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

B. Resources Board.

2. Cardinal materials.

A. Coal.

B. Iron & Steel: pig-iron, ordinary steel, special steel.

C. Electricity.

D. Mining: copper, lead, petrolium, and light metals.

E. Fertilizers: ammonium sulphate industry.

3. Natural Resources Industry.

A. Agriculture.

Lands.

Enhancement of food production.

Mechanization of agriculture---

agricultural implements, power and chemicals.

Guidance of technics---agriculture laboratory.

Model farm.

B. Forestry.

Forest (forestation)---forest, public and private owned.

Sort of trees---their districts and quantity.

Lumbering.

Use.

C. Marine industry.

Fishing-ground--expansion of fishing area.

Amount of catch---7,000 million pounds per annum, biggest in the world.

Fishermen and fishing-boats---aid to repatriated fishermen.

Materials for fishing-boats---net, rope and fuel (flax, cotton and oil)

Whale catch

Marine products processing.

D. Tourist industry.

Beautiful country.

National park.

Spa.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. Natural resources from overseas.

Food-stuff.

Fabric.

Mineral products---iron, ore, nechel, bauxite, black lead,
magnesium,petroleum, salt and coal.
oil and grease.
rubber, hide and leather.
lumber.

NATIONAL ARCHIVES CHAMPION BOND

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Part III. Production.

In Japan, various handicrafts have developed from olden times, since meiji era, new foreign technics have been taken into these handicraft. Complying with the desideratum, many new commodities are being manufactured.

1. Domestic industry.

A Specialities (including demonstration) round fan (Marugame) folding fan (Kyoto) abacus (Miki) tea-whisk (Takayama) brush and Indian-ink (Nara) bamboo products and Japanese mat.

B Domestic industry

Lacquer ware - Wajima, Shizuoka and Wakayama
procelain - Kyushu, Kyoto and Kutani
glass ware - Osaka - (imitation - pearl)

C Side-line in the country

Rural specialities - Tottori, prefectures in Tohoku Area
In order to promote foreign trade, modern industry which produces in large quantity should be stimulated. Science and technics are the ground on which industry develops.

2. Industrial technics

A Outline of industrial revolution
B Character of modern industry
production by machinery - production in large quantity
C Development of modern science

physics - atomic physics (atomic energy)
chemistry - molecular chemistry (production of nylon, molecular industry association)
machinery - precise instrument industry (calculating machine industry)
electricity - high frequency theory (technics to dry lumber)
Civil engineering - structural dynamics, materials (modern building)
Biology - development of modern hereditary science

D progress of industrial technics in the world after the war a few instances
atom mills in England
(Culberland, Sheffield)
nylon production in Du Pont factory.
TVA (Improvement of the River Tennesse)
Living house production in the factory.
Artificial lumber

E Merit of Japanese technics - Invention Association.
men of merit in industrial technics
prize for industrial technics
by "Daimai")

F Character of Japanese technics
measures for medium and minor enterprizes - medium and minor enterprize office nationalization of enterprises

G Production in large quantity and commodity
Standard - Industrial technics Board, Japan commodity Standard Association

H Industrial design - examples in USA and England
instances in Japan
missing technicians

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

the latter half of the twentieth century is an age of the second industrial revolution. Japan should become the "Workshop of Asia" on the base of science andtechnic. What is this workshop producing at present?

3. Products

A. Fabric --- raw silk, cotton yarn and cloth, silks, woolen cloth and new chemical fabric.

B. Chemicals --- celluloid, rubber and plastic goods

C. Metal goods andmachinery --- agricultural implements, industrial machinery and electric apparatus.

D. Precise instruments --- optics, caluculating instruments and typewriters

E. Pottery --- Porcelain and glass wares

F. Chemicals and drugs --- penicilin, DDT and mosquito incense

G. Ships and railroad carriages

H. Agricultural and marine products --- tea, vegetable gelatine, "shiitake", fur, pearl, canned goods

I. Sundries --- bamboo goods, lacquer, toys and stationery

These products are in the highest standard which Japan can produce. Besides these, measures to obtain foreign currency --- that is, "unperceptible trade"

4. Unseen trade

A. C P O (for military personnel)

B. O S S (for foreign civilians)

C. Port service

D. Income from hotels

F. Income from tourist industry

Sightseeing facilities in Japan, hotels, propagation of interesting sights in Japan Japanese local festival (Osaka and Kobe Area)

Part IV International trade

Promotion of international trade is essential as well as rehabilitation of industries

Pre-war and post-war trade
International trade organization and Havana Charter.
Situations after the resumption of private trade
Future prospect

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Market:

   A. Home market

   B. Foreign market
      Trade agreement with foreign countries poind area, dollar area
      Export regulations and check system.

2. Measure to promote international trade:

   A. Activities in foreign countries - Establishment of overseas offices of the Trade and Industry Ministry.
      Despatch of officials.

   B. Upheaval of Trade Account - Promotion of barter system.

   C. Promotion of Private Trade - To simplify procedure, revival of exchange business, and overseas agent.

   D. Processing of foreign goods.

   E. Establishment of free trade zone - Vessels of more than 200,000 tons enter Kobe monthly.

   F. To ease trade finance - From F O B to C I F.

   G. Obtainment of working fund - priority system.

3. Traffic; transportation; communication.

   A. Transportation by land - Internal overland transportation network:
      Japanese Government Railways:
      Electrification plan of Japanese government railways.

   B. Transportation by sea - International marine transportation network - Foreign Steamship Companies in Japan and their lines: International situation of Kobe Port and its harbor facilities.

   C. Aviation - International air routes and Japan.

   D. Communication - Postal administration and electric communication.

4. Commercial technique.

   A. Import and export business.

   B. Racking and container - air freight carried by Pan American World Airways.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

C. Publicity; Advertisement.

D. Commercial design.

Part V. Culture:

Standing upon the solid foundation of independent finance, we must establish our country as the new cultured nation, as a member of the United Nations organization in the future.

1. Life culture.

A. Principles of life in the new age.
View of life seen by social democratism:
Scientific, rational and efficient life.

B. New life plan.

Cities - home of salaried people.
Farm villages - life of minor farmers.

C. Clothing - holiday clothes; daily clothes: working clothes.

D. Food - daily meal: holiday meal.

E. Dwelling - dwelling houses in cities and farm villages.

F. Labor and working place - companies: banks: factories: outdoor laboring.

G. Health and treatment - people's ages: national deseases: sexual life: hospitals health-centers: medicines: health insurance.

H. Public Welfare - policies and facilities: utilization of spare time: annual events: sports: recreation.
taste - liquor: tabacco: confectionery.

I. Children's life - children's circles: children's home - kindergarten: day nurseries: friends.

2. Social culture.

A. Education - new education system.

B. Society - democratic society: National Public Opinion Investigation Board.

C. Religion - festival and events concerned.

D. Learning.

E. Arts - fine arts: music: play: movies.

F. Publication - newspapers: magazines: publications.

C. Broadcasting - activities of N.H.K.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

H. Persons who have rendered great services to the Japan's culture.

Prize-winner of National Academy pride, Academy of Arts pride and the press Asahi's cultural pride.

I. Farm villages ---- recreation and festival.

J. Cities ---- peaceful city --- Hiroshima.
Cultural city --- Nagasaki.

Finale.

The political system of the atomic era is expecting to build up the international government cooporated by the whole nations in the world. With the idea of the one world, the everlasting and peaceful world free from war and oppression can surely be expected to be made.

Let us hope that the latter half of the twenty century be the entire peaceful age without any war.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Special Exhibition.

Special facilities

1. **Theme tower**
2. **Modern dwelling-house exhibition:**

   Prefectures which produce the timber are to offer them.

3. **Little theatre for children:**

   Special little theatre for only playing the puppet,, shadow picture and paper-picture-show.

4. **Outdoor theatre:**

   Intend to plan that we may dismember the framed stage to verticalize the production by means of special design and introduce the local art and others.

5. **Special exhibition hall:**

   Intend to establish the special exhibition hall for travelling exhibition and make the little exhibition movie, such as "the exhibition on tecqniqe," between Tokyo and other principal cities to Kobe.

6. **Theatre:**

   Intend to establish the theatre with the 16mm. projector which is also used as the standard.

7. **Entertainment hall:**

   The variety hall for the short productions and other entertainments.

8. **Exhibition hall of agricultural improvements:**
9. **Aquarium.**
10. **Zoological garden.**

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

11. Model road:

Intend to lighten the visitors by means of specifying the material, construction and feature of the road of the special area in the Exposition Ground, which the public-works contractors are to offer.

Information bureau of foreign trade:

Information bureau for the buyers.

Special Exhibition

1. Exhibition of "the World Exposition":

Origin and history of the Exposition.

2. Exhibition of "the Kobe foreign trade exposition as seen by children":

Exhibition of school products.

3. Exposition of overseas excellent posters:

Intend to collect products of leading English and American and other writers.

4. Exhibition of package of goods:

Exhibition of package and container.

5. Invitation of overseas travelling exhibition:

New York modern art museum.

London C.I.D.

Zurich municipal art museum.

Stockholm museum.

Tront art museum.

6. Exhibition of industrial design:

Intend to introduce the epock-making design of goods in the recent overseas market.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. Showing of special movie.

   1. New movie produced by the New York modern art museum.
   2. New movie of Walt Disney.
   3. Special movie or technique in making of plastic, gold and glass works.
   4. Movie recommended by Canadian Film Board.
   5. Overseas cultural propaganda movie of British Council.
   6. Propaganda movie of C.E. Dupont and other big companies.
