# SUMMER HOMES ON LONG ISLAND

*Vol. 1  
1898*

Class F127

Book .L8L3

# 5 ACRES OF GOOD VEGETABLE LAND

At Centre Moriches, Long Island,

ONLY \$150. \$3 DOWN.

\$3 MONTHLY.

**Are you a Rent Payer or a Wage Earner who longs for BETTER HEALTH, MORE COMFORT, BETTER LIVING? then Read this Advertisement through.**

**I**T is the torchlight which will lead you to the fertile fields of Eastern Long Island, now waiting for thousands of settlers to grow vegetables and grain and the raising of poultry for the markets of Greater New York. If 10,000 vegetable growers and poultry raisers were to locate in this section within six months, they could not begin to supply the demand from New York and Brooklyn, where the cash is ready at all times for your products. This beautiful country is twenty-five years behind the States and Territories of the West, where thousands upon thousands of people emigrated to take up the millions of acres which in no way are half as fertile as land on Long Island, and no such markets as the Long Island farmer has. From statistics the most prosperous farmers in the United States are farmers of Long Island.

**JUST CONSIDER THIS!  
DOES IT SEEM POSSIBLE?**

There are 250,000 acres of land right in sight of the Statue of Liberty, within two hours by rail, on Long Island, that a plow has never touched, nor spadeful of earth ever turned, where now there are herds of wild deer running and flocks of wild quail and partridges flying. Every acre of the land rich and productive when cleared of timber; will grow wheat, rye, corn, asparagus, cauliflower, celery, potatoes and strawberries in abundance. **NO HILLS! NO MOUNTAINS! NO SWAMPS!** but a beautiful piece of table land, covered with pine and oak timber, where you are certain to have excellent health, and where you are absolutely certain to make more money than you are making now. There is more money on deposit in the Riverhead Savings Bank (county seat) for the number of depositors, per capita, to the population of Suffolk County, than any county in the State of New York; all of this money results from the soil in this neighborhood. And there are more old people with greater vitality and agility pro rata to the population in Suffolk County than in any county in any State of the United States. This is all due to good, healthy, fresh air, fresh and healthy food.

**Shore Front \$250 per Plot.**

Do you go to the Country during the summer months? Do you admire a beautiful location right alongside the water, located on the beautiful Moriches Bay! In a most healthful and desirable location are the plots, 60 feet front by 200 feet deep, within ten minutes' walk of the depot, and within sight of five hotels. Sailing, fishing and bathing, no better on Long Island. Land is worth anywhere from \$500 to \$1000 a plot, but our price to make a quick sale is

**Only \$250. \$5.00 Cash Down. Balance \$1.00 a Week.**

We guarantee our five acre plots and shore plots just as we represent them in every particular, and if found otherwise at any time after investigation, money cheerfully refunded. In the purchase of a plot, you are entitled to free transportation at any time you desire to look the property over, or if you desire to make a change to any other plot which in your judgment is preferable, we will be pleased to make change, but from our experience we will select in our best judgment the most desirable and which will have the greatest future value. Ten per cent discount for all cash. Clear, free warranty deed. Title absolutely perfect.

Other information with Maps and particulars—

**WILLIAM H. MOFFITT,**

59 Liberty Street, New York City.

WE ARE OFFERING THE BIGGEST BARGAINS, ON  
LONG ISLAND, IN ACREAGE PROPERTY, AT—

**PATCHOGUE,**

**CENTRAL ISLIP,**

**ROCKY POINT,**

**MILLER'S PLACE,**

**BRENTWOOD,**

## Summer Homes on Long Island.

---

WHERE shall we go this Summer? is a question that presents itself in very many city homes. It is not often an easy question to decide. Every member of the family is interested in the solution of the problem. Upon a wise decision largely depends the health and happiness of a household or an individual during the Summer season. The object of this book is to present some of the attractive features of Long Island, together with a carefully prepared list of hotels and boarding houses on the lines of the Long Island Railroad.

Long Island is the natural and most accessible Summer retreat for persons residing in and about the city of New York. To business men who must be within easy access of their office Long Island offers advantages not possessed by any other near-by resort.

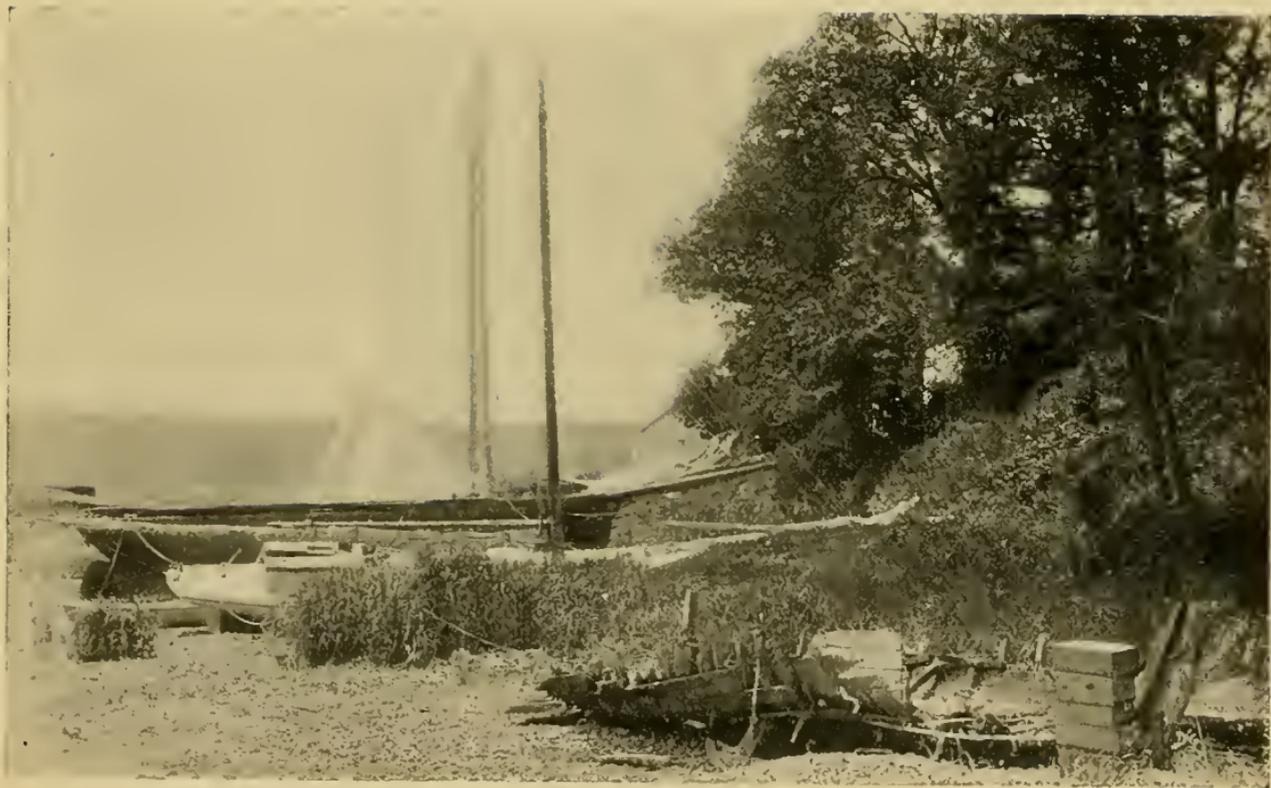

The Long Island Railroad stations in New York City (Manhattan) are at the foot of New Chambers Street, and at the foot of 34th Street, East River. An annex boat for the especial accommodation of down town business men is also operated during the Summer—June 1st to October 1st, morning and afternoon—from Pier 18, foot of Pine Street, East River. The stations in New York City (Manhattan) are readily accessible from the various railroad stations and steamboat piers by the elevated and surface lines. The terminus in Brooklyn is at Flatbush and Atlantic Avenues, and is reached from the Pennsylvania Railroad, Jersey City, by annex boat; also from the New York and Brooklyn Bridge and the Ferries by the elevated and surface lines. There are also other stations in Brooklyn at Franklin and Atlantic Avenues (Bedford Station), at East New York and at Bushwick, which are readily reached by the many car lines.

The frequency of trains and the ease with which they can be reached makes the Long Island Railroad service equal to that of any other railroad operated out of New York City.

The entire road-bed has been newly ballasted with heavy cinder ballast, thus absolutely avoiding dust and its general attendant unpleasantness. In addition to this the whole length of the road will be sprinkled with oil. For the past two years "oil sprinkling" has demonstrated for itself its efficiency to allay the dust and to keep the road-bed thoroughly clean. Positive safety (as well as ease and comfort of travel) is ensured by the use of heavy steel rails; hard-coal engines are in use, and the cars are illuminated by Pintsch gas.

Long Island is 122 miles in length and from 8 to 20 in width, and within this area of 1,500 square miles is almost every diversity of scenery. The climate is mild, and not liable to sudden changes or extremes of heat and cold. The temperature of Long Island is 10 degrees higher in Winter and 15 lower in Summer than in New York City. The modifying influences of the Ocean and the Gulf Stream are considerable. Statistics show that the mortality in Suffolk County and in the rural section of Queens County is lower than in any other part of the State. Long Island offers to the pleasure seeker unequalled surf and still-water bathing, ocean or bay sailing, brook, pond or ocean fishing, better shooting than can be found at a less distance than the Adirondacks; pleasant drives, unexcelled roads for bicycling, food fresh from the water, the air or the land, and atmosphere peculiarly invigorating and never tainted. Its pleasure resorts are especially attractive to women and children, because, being close to the city, the hotels and boarding houses are not abandoned by the men from Monday morning until Saturday night.

Long Island is naturally divided into three sections, the South shore or ocean front, the North shore by the Sound, and the Central section, the eastern part of which fronts on the picturesque Peconic Bay. Each division has entirely different characteristics, and will be considered separately.

ON THE SHORE OF HEMPSTEAD HARBOR.

## The North Shore.

ALONG THE SOUND FROM LONG ISLAND CITY TO WHITESTONE, GREAT NECK, PORT WASHINGTON, OYSTER BAY, PORT JEFFERSON, AND WADING RIVER.

THE North Shore of Long Island is bold and precipitous. The Sound makes many indentations of deep bays or harbors, and on either side of these the land is high and wooded with the finest growth of timber. Boating and bathing can be enjoyed along the entire North Shore. Fishing is plentiful, and, added to all these pleasures, are the matchless beauties of the scenery, unrivalled drives, cool and invigorating air, quiet villages and well-tilled farms. The accommodations offered the Summer visitor are excellent in character, moderate in price, and of sufficient variety to meet the desires of the most fastidious. There are several large hotels, popular and well managed. There are many smaller hotels and private boarding houses, some along the water front and others inland among the farms and in the woods, where first-class board can be had at modest rates. The resorts on the line of the railroad to Whitestone, Great Neck and Port Washington are all within a half hour from New York City. The other North Shore points of interest are to be found on the Oyster Bay Branch and the Port Jefferson Branch of the Long Island Railroad.

The first resorts in this division, or rather the nearest to the city, are the chain of villages centering about the quaint old town of Flushing. Among the number are College Point, Whitestone, Broadway, Bayside, Douglaston, Little Neck, Great Neck, Manhasset and Port

Washington. They are all near to the water, commanding a fine view of the Sound, and are especially well situated for the enjoyment of aquatic sports. In the vicinity are many handsome private villas. Equally well located with reference to harbor facilities, but having the added attraction of rugged hills and thickly timbered woods, are the villages of Roslyn, the home of the late William Cullen Bryant; Glen Head, Sea Cliff, at one time famous for its camp meetings; Glen Cove, Locust Valley and Oyster Bay. These places

AN OLD MILL ON THE NORTH SIDE.

are all within easy distance of the city. They combine the attractive features of land and water, though not having, of course, the surf bathing to be found on the ocean side of the island nor the high altitudes of mountain regions. There are, however, steep hills and dense forests, with

NEAR ROSLYN.

roads, with their spacious lawns and broad fields of highly cultivated acres. Beyond Oyster Bay, and reached by trains on the Port Jefferson Branch, are the villages of Cold Spring Harbor, with its well-known hotels; Huntington, an interesting town that figured in Revolutionary times; Greenlawn, Northport, with its "Bay of Naples;" Kings Park, Smithtown, St. James, Stony Brook,

drives as picturesque as are to be found in the Catskills or Adirondacks. To fully appreciate this region one must travel along the woodland roads, and from the hills and high bluffs view the numerous bays, inlets and delightful vistas of blue waters. The visitor need have no fear that he will tire of a vacation or an entire Summer spent here. An experience of one season only whets the appetite for a return visit the next year. Some of the handsomest private residences in the country are to be found along these

Setauket and the famous old ship-building town of Port Jefferson. East of Port Jefferson are Oldfield Point, Mount Sinai, Miller's Place, Rocky Point, Middle Island and Wading River—the terminus of the Port Jefferson Branch of the railroad—all retired country settlements, where visitors can find many charming Summer homes. The scenery is beautiful, and sport with rod and gun always at hand. In this section are grown some of the finest productions of the soil that are sent to New York, so that beside rest and contact with Nature in her richest garb, excellent table fare may be relied upon. All the praises of the North Shore are realized at these resorts.

A POPULAR ROAD ON THE NORTH SHORE.

# The North Shore Resorts.

## CORONA.

6 Miles from New York. 45 Trains each way Week Days. 41 each way on Sunday.

BATHING AT MANHATTAN BEACH.

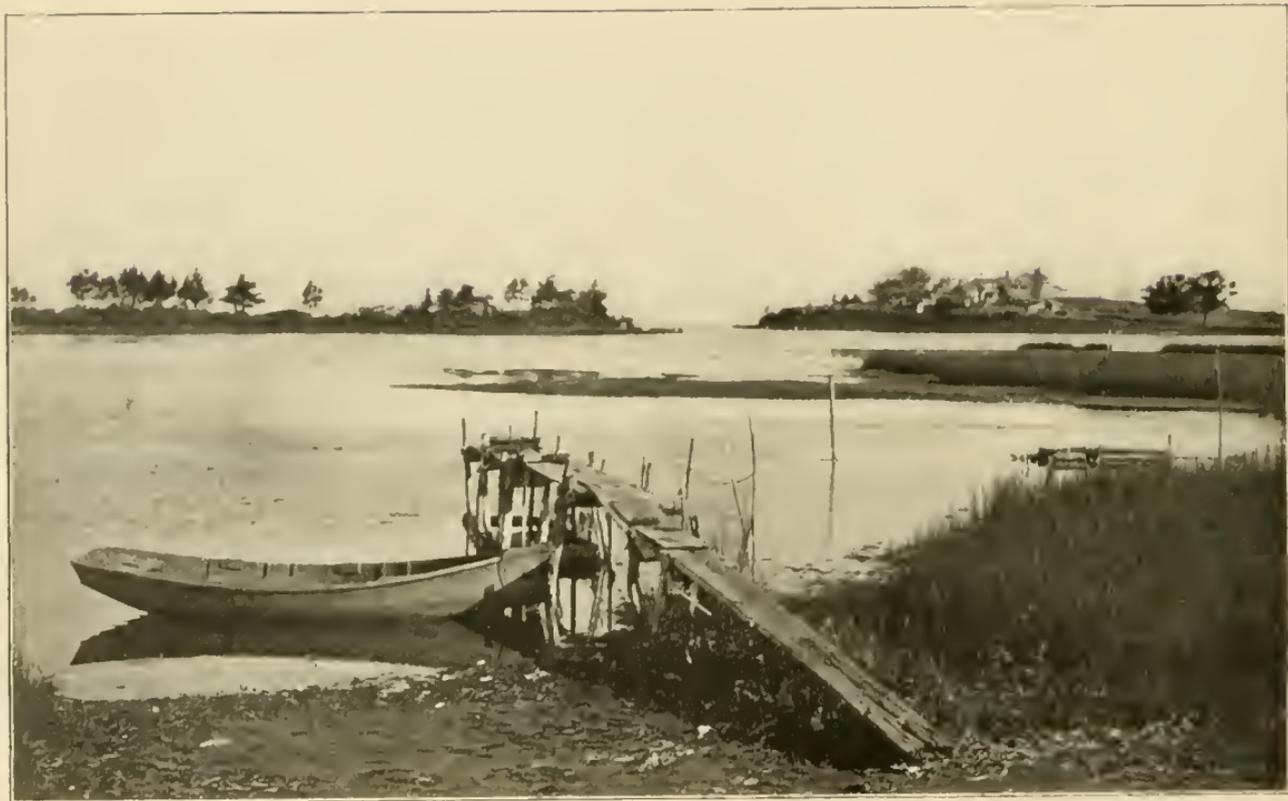

# The South Side Resorts.

---

## ON THE GREAT SOUTH BAY AND ATLANTIC OCEAN—CONEY ISLAND TO MONTAUK POINT.

THOSE who desire to spend their Summer by the seaside along the coast washed by the Atlantic Ocean must go to the resorts on the south side of the island. Some of the most famous seaside watering places in the country are to be found here on Long Island. Beginning with Coney Island, the metropolis among Summer cities, and continuing to the end of the island, to Montauk Point, there are over forty villages and Summer settlements, where accommodations may be had by visitors from the cities. The accompanying list will give the location of many hundred hotels and boarding houses. It is not the purpose of this book to call attention specially to any particular resort or hotel, but merely to state some of the prominent characteristics of different localities with the view of helping the stranger to pick out a satisfactory Summer home. It is proper to state in this connection that there are many large hotels on the South Side which rank with the best in the country. In fact, the reputation enjoyed by a majority of the hotels and boarding houses is exceedingly high.

The Long Islander, as a general rule, is hospitable, kindly disposed, accommodating, anxious to please his guests, and is not avaricious in his charges. It is safe to say that a comparison of rates charged at the different resorts of the East will result favorably to the Long Island landlord.

It is hardly necessary to point out any of the advantages of such well-known places as Coney Island and Rockaway Beach, which have been familiar to the traveling public for many years. There have been, however, many changes in recent years in the matter of hotel facilities and cottage life. Just back of Manhattan Beach, with its world-renowned Manhattan and Oriental Hotels, is Sheepshead Bay, an exceedingly popular near-by resort, with its numerous cottages. Beyond Jamaica are many new settlements

that offer special advantages because of their proximity to the city. This applies also to Hewletts, Woodmere (Woodsburgh), Lawrence, Far Rockaway, Edgemere and Arverne. To one who has not visited Far Rockaway within the last decade the improvements that have been made in the vicinity of this popular ocean resort can hardly be appreciated. These places are no longer mere

A FAVORITE DRIVE IN BAYSHORE.

BITS OF LONG ISLAND SHORE.

Summer settlements, but are occupied the entire year by the city people who find the cottage life in this vicinity especially attractive.

There are several pleasant villages along the railroad beyond, such as Lynbrook, Rockville Centre, Baldwins, Freeport, Merrick, Bellmore and Wantagh, that may be classed together. They are quiet places, with permanent populations, good society, fine drives, and within easy distance of the water. They offer first-class board in private homes at reasonable rates. At Massapequa and Amityville there are good hotels, handsome residences and varied attractions. In another group of villages farther east may be classed Babylon, Bayshore, Islip, Oakdale, Sayville and Bayport. These places are directly on the Great South Bay, the finest fishing ground in America—the sportsman's paradise.

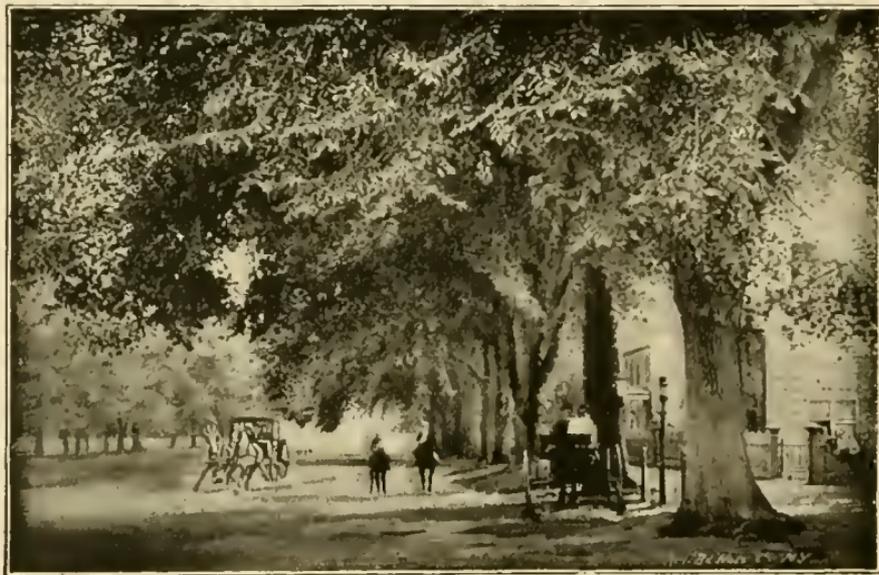

The superior advantages of these villages were appreciated many years ago, and, as a result, large hotels have been built, and some of the finest private homes to be found on the island have been erected.

These resorts are termed fashionable because of the large number of wealthy people who spend their Summers there. While this is a fact, the society is by no means exclusive, and the visitor can depend upon generous hospitality and full enjoyment of every attraction that is offered. The train service to these points is excellent.

The largest village on the South Side is Patchogue. It is one of the most cosmopolitan places on the island. While it has many transient visitors, it is also popular to many people who remain there for the entire season. It abounds in hotels and private boarding houses. It is the rendezvous for the Great South Bay catboats and fishing smacks.

Beyond Patchogue are some of the finest resorts on the island. Among the number are Bellport, Brookhaven, Mastic, Centre Moriches, East Moriches, Eastport, Speonk, Westhampton—all charming places; Quogue—a particularly attractive spot—Good Ground, the fashionable

Shinnecock Hills, and the famous Hamptons. Southampton is visited largely by wealthy New Yorkers; Water Mill and Bridgehampton have made rapid progress in Summer population in the

THE ELMS ON MAIN STREET, EASTHAMPTON.

last few years, while Sag Harbor, formerly one of the best known whaling harbors, has become no less famous as a retreat for city folk during the heated period.

From Bridgehampton the railroad extends to Montauk, passing through Wainscott, Easthampton and Amagansett; these places are among the quaintest and most picturesque in this country. Easthampton is a popular resort for artists. Montauk Point, which has always been an interesting place, now within easy communication, is well worth a visit.

MONTAUK POINT.

A FAMILIAR SCENE FROM THE SHORE.

## The Central Section.

---

### JAMAICA TO SHELTER ISLAND.

FROM Garden City the main line of the railroad continues through the central portion of the island, and then along the northern shore on the east end to Greenport. This section is rich in natural scenery, and because of its peculiar situation, with soil perfect for drainage, the hills to the north offering shelter from harsh winds, and the pine trees giving forth health, it is a region unsurpassed for salubrity. Starting with Jamaica, the county seat of Queens County, and in many respects a very desirable summer home, there may be mentioned Hollis, Queens, Floral Park—with all that its name indicates—Hyde Park, Mineola, Westbury and Hicksville. For quiet, health and accessibility to the city, these places can be commended. Garden City, the place where A. T. Stewart spent his millions, and Hempstead, are two exceedingly attractive resorts. The hotel at Garden City in every particular is first class, and in Hempstead there are a number of good boarding houses. The drives are superb, churches and schools abound, and the people are refined and prosperous. Central Park and Farmingdale are attractive rural villages, and have accommodations for a large number of boarders. Pinelawn, West Deer Park, Deer Park, Brentwood, Central Slip, Ronkonkoma, with its beautiful lake, the largest on the island, Waverly, Medford, Yaphank, Manor and Calverton, are all communities that can be highly recommended. Many of these places are in the belt of pine forests, a section most favorable to people suffering with pulmonary troubles.

One of the largest villages, and deservedly popular, is Riverhead. It always has a full quota of Summer visitors. From this point on to Greenport, the end of the railroad, are several very interesting places located on Peconic Bay, namely, Jamesport, Mattituck, Cutchogue, New Suffolk, Peconic and Southold. Peconic Bay is the yachtsman's favorite domain and the tourist's delight. The boating here is regarded by some as superior to that on the Great South

A HERD OF THOROUGHBREDS.

Bay. The fishing is excellent. The slope from the shores is so gradual that children can enjoy bathing with comparative safety. Examination of the lists of hotels will show that abundant provision has been made in these villages for the entertainment of Summer guests. The visitor may rest assured that he will be well taken care of and that he will not be overcharged. Southold is a particularly interesting place. It disputes the claim of Southampton as being the oldest settlement on the island. Greenport and Orient Point have long been attractive resorts. The former has several good hotels, which every Summer entertain a large number of people from all parts of the country.

Few watering places are better known than Shelter Island. The growth of this place as a Summer resort has been remarkable. It contains every variety of natural scenery and the best of boating facilities. Sanitary arrangements are perfect, a large reservoir supplies all the houses

SHELTER ISLAND

# The Central Section.

## JAMAICA.

9½ Miles from New York or Brooklyn. 66 Trains each way Week Days. 33 each way on Sunday.

# LONG ISLAND, A Paradise for Cyclists

LONG ISLAND is known everywhere as the "Cyclists' Paradise." The splendid roads of the north and south shores, the great number of beautiful cycle paths and smooth, hard edge paths, make unsurpassed wheeling. While the hilly country of the north shore gives the tourist climbs, coasts and extended views, the level south shore makes long trips a matter of little exertion and affords innumerable glimpses of inlets, bays and the ocean.

Excellent accommodations can be found everywhere on the island, and the majority of the inns and hotels cater to the cycling public.

The many sections of the Good Roads Association constantly keep roads and paths in good condition, and the sign boards erected by the L. A. W. giving directions and distances make touring on the island a comfort not known in any other section of the United States.

The Long Island Railroad Company is the first railroad in the United States to build and equip bicycle cars with the very best appliances for the transportation of bicycles without injury or even marring of enamel.

The "Cyclists' Paradise," a small hand-book issued by the Long Island Railroad Company, has a good map of the roads and paths of Long Island, together with tables of distances, railroad time-table, hotel lists, suggestions, and, in fact, complete information in condensed form. This book will be sent to any address upon receipt of two-cent stamp to cover postage.

## HOW TO REACH THE LONG ISLAND RAILROAD STATIONS.

The Stations of the Long Island Railroad in New York and Brooklyn can be reached as follows:

- Station—Foot 34th Street, E. R., N. Y.,** via Second and Third Avenue Elevated Lines direct to Ferry, and via the following Street Car Lines:

## The Chilton Paint

Is the most carefully constructed paint in the world. Beginning with the best materials, it goes through a process of seven different mixings and grindings through Burrstone Mills, and finally through Iron Mills. It is made with the best Linseed Oil and contains no Benzine or Benzine Drier. It is measured and sold by the United States Standard gallon of 231 cubic inches. It will cover more surface, cover it better and last longer than any article of paint ever produced.

Color Cards on application.
