GROWERS OF

WHOLESALE
ONLY

Choice Specialties for
NURSERYMEN AND DEALERS.

FOR THE SEASON OF 1895-96.

ROSES—An immense stock of strong plants on *own roots*. Grown on new land and especially fine. Try the *Margaret Dickson* with your agents. It is the finest white H. P. yet introduced. Plates and Circulars supplied.

CLEMATIS—The *Trio*—Jackmanni, Henryii and Romona. *MME. ED. ANDRE*, the new red. **GRAVEOLENS**, yellow.

ORNAMENTALS—A large assortment, including especially fine lots of *Hydrangea P. G.* (*Tree-form* and Bush), *Japan Snowballs*, *Tea's Weeping Mulberry*, *Ampelopsis Veitchii*, *Paeonies*, etc. Our price on *Japan Snowballs* is too low to publish and our plants the finest. An overstock this season. Better take advantage of it.

INDUSTRY GOOSEBERRIES—Extra fine plants for Spring at English prices. Also *Columbus*, *Downing* and *Houghton* for Fall delivery.

GRAPE VINES—An extra large lot. Grown with *heavy tops* as well as roots.

PEARS—Grown on *Pear land* and fine, *thrifty young stock*. They come out with the roots on them, too. *If you have not received our Trade List, write for it before placing orders.*

Raffia! Raffia! Raffia!

Root Grafts Made to Order.

The Secret of success among many buyers of root grafts, is that they realize the importance of getting them of a firm who has an established reputation for furnishing grafts that will grow, as well as be true to name, without this favorable start you are handicapped. If a long experience, maturing yearly into an increased business until its volume is second to none, is worthy of note, we claim your attention. Get our prices on our regular Commercial grades or any special graft that might suit your wants or fancy.

FRUIT TREE STOCKS.

We are still able to offer a good strong grade of No. 1 and No. 2 apple seedlings at reasonable prices. We have also to offer a full line of imported fruit tree stocks.

APPLE TREES.

Our Prices are Reasonable, Varieties Consistent, Grade Excellent, Age two years.

IMPORTANT.—Do you appreciate the importance of the location of St. Joseph, Mo., as a shipping point? Not only on account of its central location but more especially because of its being a Missouri river terminal making a great saving in tariff rates over all inland towns far and near, in whatever direction and whether with or without competing lines.

H. C. GRAVES & SONS,

THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 4.

HUNTSVILLE, ALA., JANUARY, 1896

No. 1

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE, ALABAMA.

W. F. HEIKES, Editor and Manager

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of 1,500 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

Pruning the Scuppernong Grapevine.

M. V. MOORE, ALABAMA.

Among the old growers of the Scuppernong grape the idea has long obtained that it is injurious to both fruit and vine to prune the branches, or to plow about the roots. Hence most of the vines have been allowed to grow unrestrained and without soil cultivations for years. All that is regarded as necessary is to keep a good high trellis upon which the canes can freely spread and offer ease and convenience in the gathering of the grapes. Piling muck and leaf mold about the main vine at the root is also recommended when the soil is naturally thin.

But recent experiments at the Alabama state experiment station at Auburn—as well as elsewhere—have shown conclusively that injurious results do not always follow close and severe pruning of the vines, nor from close cultivation about the roots with the plow. It may be said also that no decidedly good results have been obtained in regular prunings of the vine. It was thought for a while that both size and quality of the fruit were improved by the close pruning; but while this belief was questioned, or denied sharply, the facts in the experiments show that the

great loss occasioned by the removal of many valuable fruit-bearing canes cut from the parent stem in the prunings does not have adequate compensation in the increased size of the berry nor in the supposed improvement of flavor. Connoisseurs tell us that the Scuppernong grape and its pure wines are good enough even as products of the unpruned vine. This appears to be one instance where it is well enough to let nature have her way, only assisting her in making a convenience for yourself in gathering the fruitage.

The Scuppernong is unlike the majority of grapevines in another respect. It does not come into full bearing until nature has taken her own good time to produce sufficient roots and rootlets to sustain properly the fruit crop which develops on the canes. In the case of many of our best domestic or cultivated grapes, the tendency is to overbear, and to overbear especially in the tender ages. And hence the necessity for the regular cutting back for two or three years before allowing any fruit to grow. In some of the varieties, the vine will die before its fourth year if allowed to grow all the fruit its unpruned branches will start. The Scuppernong seldom produces a good crop before its fifth year. In the meantime the roots have run far beyond the length of the topmost canes, while the soil beneath is one mass of tiny and tough rootlets and suckers, which absorb and feed on every kind of fertilizer that can be reached by them in their ramifications. By all means give the Scuppernong a liberal allowance of plant food, and then let the canes grow to their utmost extent and limit,—keeping a good and secure trellis underneath.—American Agriculturist.

Mammoth Black Twig and Paragon.

We have lately had an opportunity of comparing the fruit of these varieties, and find the M. B. Twig ^{are} Paragon or Black Twig of Tennessee^{are} very distinct. The M. B. Twig is a very much handsomer apple; having greater brilliancy of color, a finer grained and better flavor, and from what we can learn is a better bearer. It also seems to be free from that great fault of the Paragon; its disposition to speck.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

THE HUNTSVILLE WHOLESALE NURSERIES

In this issue of our price list we show the numbers, sizes and prices in all varieties remaining unsold at this date. Correspondents should, however, give us the privilege of substituting varieties, sizes and prices, as far as it can be allowed, if in a hurry for shipment, as we do not substitute, as a rule, without permission.

We have sold a good many Kieffer pears since the last issue of our price list, but as we have plenty more we do not change our figures. We are making the prices very low to secure early orders. We expect to advance prices in Spring. We will, however, accept orders now at these prices for Spring delivery.

We believe cherries will sell for more money in Spring; but we will enter orders at present prices for early Spring delivery. Prices may be advanced at any time.

The Wickson Plum, Mr. Burbank says, "Among the many thousand Japan Plums which I have fruited, this one, so far, stands pre-eminent in its rare combination of good qualities." See our prices under Japan Plums. We will have a large stock of the trees for the Fall of 1896 and Spring of 1897, when prices will be \$12.50 per 100, \$100. per 1000, any size. Now is the time to order colored plates. See our advertising columns for a good firm to buy from. The Wickson is a beautiful grower in nursery, branching freely and symmetrically.

The Sneed Peach. This is the most profitable market peach for orchardist in the South, where extra early fruit, if it is good, always brings the best prices. The Sneed has been well tested and has proven to be the earliest and most profitable for commercial orchards. We have a large stock of the trees for sale. See our Price List for quotations.

We have a very fine lot of Orange quinces, two years old. See grade and quotations.

The Baltimore Belle and Queen of Prairie Roses we offer at \$35 and \$30 per 1000 are very fine plants,—as fine as can be bought anywhere. Will send samples if desired.

See reduced prices on Triumph peaches, June Buds, 3 to 4 feet, under quotations for peaches.

THE HUNTSVILLE WHOLESALE NURSERIES.

Distributing Points.

We are making St. Louis, Mo., Cincinnati, Ohio, Rochester, N. Y., and Philadelphia, Pa., distributing points; and will deliver free of freight charges to transfer companies, at either of these places; all orders in car lots, or in less than car lots, to be shipped from Huntsville on the dates named below:

For St. Louis—Early shipments from September 20th to October 10th; late shipments from October 25th to December 10th.

For Cincinnati, Rochester and Philadelphia—In Spring.

The orders will be packed in Huntsville, and those for less than car lots will be combined to make up car lots and shipped to these points and distributed promptly to the various railroads centering there. This plan insures quick time and low freight rates. Orders for less than car lots must be boxed at Huntsville. The price of boxes will be additional.

This offer to deliver to distributing points free of freight charges will not apply to less than car-lot orders, if shipment is required at other than the above named dates; but we will ship car-lot orders at any time after September 20th anywhere desired within the territory tributary to the cities designated, and will deduct from the bill the cost of freight to the nearest distributing point.

We will make special prices on Orange and Meech quince grafts, one year old, in thousand lots, for "Lining Out." Our stock is pure and true. We propagate them only by grafting, and they are not as liable to mixture as they are when budded.

We have a few thousands of Japan pear stocks for sale. No. 1 at \$10.00 per 1,000.

Note special prices on Satsuma plums one year old. We have a fine lot grown at our branch nurseries at Biloxi, Miss.

We have a large stock of Prunus Pissardi on Marianna stocks; fine low heads, two years old. Write for special prices.

Grown from cuttings at our branch nurseries, Biloxi, Miss. Orders required before December 1st will be charged double these prices. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. The extra and No. 1 plants will have three or more branches and will be cut back to 30 to 35 inches. The roots are very fine.

ROSES FOR "LINING OUT"—One half the price of No. 1.

JAPAN PEAR STOCKS—No. 1 very fine, root and top pruned, @ \$10.00, No. 2, \$3.00 per 1000.

ORANGE AND MEECH'S QUINCE—In thousand lots, one year from graft, for 'Lining out,' cut back to 10 inches per 1000, \$25.00.

APPLE SEEDLINGS—No. 1, \$5.00 per 1000.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit directions as to shipping, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from $7\frac{1}{2}$ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange" or add $\frac{1}{4}$ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

Address,

W. F. HEIKES, Manager,

Huntsville, Alabama.

Biloxi Nurseries.

We offer a few special bargains at our branch nurseries, at Biloxi, Miss.

SATSUMA PLUMS.—One year, 1 to 2 feet, \$12.50.; 2 to 3 feet, \$25.; 3 to 4 feet, \$30.; 4 to 5 feet, \$45. per 1000. The small sizes will be very fine for "Lining Out."

JAPAN PEAR STOCKS.—One year, root and top pruned No. 1, \$10 per 1000.

The best stock for growing pears upon in the South, as it does not leaf blight.

LeCONTE AND KIEFFER.—Pear trees, one year. See Price List.

ROSES.—The prices we quote on Roses are very low and the plants very fine. Our one year olds are equal to two year olds grown North. They must be dug in January and sent to Cold Storage. We pay the expense of storage and will hold until Spring for the Northern Trade. Orders should be sent in at once so that we can pack the assortment desired. Such as we do not have orders for soon will be packed in Box Lots and offered in that way.

MULBERRIES.—See Price List.
