Weller's
Perennials
with that
Wonderful Root System

TERMS

Prices net and subject to change without notice.

All goods travel at purchaser's risk and expense.

Prices are F. O. B. Holland, Mich.

Packing and Cases will be charged at cost price.

We allow 5% discount for cash with order, 2% 10 days or net 30 days after date of invoice.

All offers subject to goods being unsold upon receipt of order.

Orders from unknown parties must be accompanied with cash or satisfactory reference.

All claims for damage occurring in transit should be made to the railroad or Express Company delivering the goods. If boxes are broken or any other visible damage done, it should be noted on the receipt to be used in filing claim.

FOR CANADA

Prices quoted in this catalogue are in American Currency. Canadian customers should remit by draft on New York or Postal Money Order payable in American dollars.

OUR GUARANTEE (Read Carefully)

All plants offered in this list are grown in our own nurseries, and handled by experienced help, so that such stock as grown from cuttings or divisions, we know to be true to name and are glad to guarantee it as such. Should it by mistake prove otherwise, we shall gladly refund, upon proper proof, the original amount paid for the stock, or make replacement of the original order. Plants grown from seeds are from seed stocks obtained from the most reliable growers. Seeds, however, do not always come true to color of some kinds of plants, so that, while we are always interested in the results obtained from our stock and glad to meet our customers in possible disappointments, we can not be held responsible.

We do not divide our plants before shipping but send the entire plants as dug out of the field. Dividing is only done in rare cases and then only because it is necessary to get the best results.

If after receiving, you are not satisfied with the quality of our stock, you will afford us a favor by letting us know and we will replace anything you mention without charge or further question.

WELLER'S PERENNIALS

"With That Wonderful Root-System"

A Slogan which carries the Goodwill of Hundreds of our Customers

INTRODUCTION

Space is too limited to say everything about Perennials we would like to tell, though we are so enthusiastic about their possibilities in every branch of Floriculture and Horticulture that we could probably write books about them. As we advance, however, we aim to render our customers such service and furnish them with such information as will enable them to take up Perennials commercially and make them a profitable and important part of their business.

OUR NURSERIES

Our nurseries are located in Holland, Michigan, consisting of sixty acres of the finest sandy loam soil and with enough variety to adapt itself to all classes of plants. The growing is completely supervised by five members of our own family, so that we have the strictest order among our employees and have a great advantage over many nurseries, continually confronted with the scarcity of experienced help.

OUR PACKING

Our packing as well as our digging is supervised by two members of our family, one in the grading room and the other in the packing room. The interest of our customers is therefore continually at heart both in the grading of the stock and in packing for a safe transportation. All orders are counted and checked three times before boarding the train, first in the field, second in the grading room and third when packed, so that mistakes are hardly possible.

OUR CATALOGUES

Our catalogues serve two purposes one to offer our goods for sale and the other to render our customers service in whichever way possible, with all kinds of information valuable to every branch of their business. You will therefore find it a great convenience to save it and keep it in a handy place for easy and immediate reference at any time.

FLORISTS

The necessity of Florists having "A Patch of Perennials for Cutflowers" has already become vital. This catalogue will furnish you with all information necessary to make such a planting. If our personal advice is required, ask us for it.

NURSERYMEN

Neither can nurserymen ignore the Perennials; the public wants them. Our catalogue is the most complete Perennial catalogue out, and is compiled in a manner that will enable the Nurseryman to give his customers reliable information about Perennials and their habits. We grow large quantities of the most popular kinds, so that we are always prepared for large orders and glad to make special quotations in accordance.

LANDSCAPE GARDENERS

We are probably in position to serve Landscape Gardeners better than most growers of Perennials. Our list of varieties is complete, our stock will flower in abundance the first season, and our catalogue is the most descriptive.

SEEDSMEN AND CATALOGUE HOUSES

Most seed catalogues contain a page or two or more, offering a popular line of Perennials. We are prepared to make up such pages for you and give you such information as will enable you to carry a profitable line. We are also prepared to ship direct to your customers under your tags, which in most cases is the best way to handle Perennials.

Cordially yours,

WELLER NURSERIES CO., Inc.
Holland, Michigan.

Weller's Herbaceous Perennials

For Fall and Spring Delivery

Why You Will Find Weller's Perennials the Best and Most Satisfactory

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

All plants offered in this list are strong, field-grown, the only Perennials that give satisfaction. They are far better than pot-grown plants, as they are more vigorous and healthy, and sure to flower in abundance the first season. We want your business, and to keep it, for we are growing more every year. You will not appreciate our stock and good service until you have convinced yourself by a trial order.

GENERAL LIST

Those marked * are especially suited for cutting; those marked with † are best suited for rockeries.

In description the flowering period is indicated by the name of the months as May-June, etc.

All Perennials two years old unless otherwise marked.

ACHILLEA (Millfol or Yarrow) per doz. per 100

*LYONI. Heads of showy purplish-red flowers.....	1.75	12.00
--	------	-------

CHINESE LANTERN PLANT (See Physalis Franchetti)

* CHRYSANTHEMUM (Hardy October Rose)	per doz.	per 100
The development of the Hardy Chrysanthemum has made it possible to have color, life and beauty in the garden when the other hardy plants are past. Excellent for cut flowers. We can supply the following varieties:		
* AUTUMN GLOW. Red.....	1.75	12.00
* EVA. Delicate pink, very early.....	1.75	12.00
* FAVORITE. Rosy pink, popular variety.....	1.75	12.00
* QUINOLA. Large, golden yellow, excellent for cutting.....	1.75	12.00
* ROSY MORN. Silver-pink.....	1.75	12.00
* SNOWCLAD. Pure white, one of the best.....	1.75	12.00
* SYLVIA. Scarlet-bronze	1.75	12.00
VICTORY. Pure white.....	1.75	12.00
In separate colors.....	1.20	8.00
In separate varieties (our selection).....	1.50	10.00
In mixture	1.00	7.00
* CHRYSANTHEMUM MAXIMUM ALASKA (Shasta Daisy). A much improved hardy daisy, bearing a profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. 2-2½ ft.....	1.20	8.00
* KING EDWARD VII. We are safe in recommending this variety in preference to the above. The flowers are of a pure white, much larger than Alaska, come more in single stems, hardly branches out, and will stand the winter, when the Alaska freezes out. It is the best variety for Florist's use	1.50	10.00
* LOTHIAN BELL. Largest white flowered Daisy of its class, flowers measuring six inches across. One of our finest cutflowers. Should not be missed.	2.00	15.00
COLUMBINE (See Aquilegia)		
COREOPSIS (Tickseed)		
* LANCEOLATA GRANDIFLORA. The flowers are a rich golden yellow of slender graceful form, making them an excellent cut flower. 2 ft. All summer	1.20	8.00
CORNFLOWER (See Stokesia and Centauria)		

DELPHINIUM (Hardy Larkspur)

The Delphinium is beyond question the Queen of all Blue Flowers. Their wonderful stateliness, and their loose, graceful shape of flowers, and fine blue colors, make them suitable for most any floral-work and indispensable to an up-to-date Florist. As cut flowers they bring a good price at any time of the season and especially when forced even as high as \$15.00 is realized for one hundred spikes, which may be cut from a very few plants.

For Forcing and Outdoor

Delphinium (Hardy Larkspur) has always been our specialty, growing nearly one-half million plants for this purpose. All our Delphinium for forcing have been transplanted twice to cause them to make as many fibrous roots as possible (Our Famous Wonderful Root-System). As soon as the plants are well ripened in the fall, they are dug, heeled in flats in sand and left outside to freeze, after which they are put in cold-storage until shipment. This process is absolutely vital if good results are to be expected. For Forcing; No Plant or Bulb will Equal the Hardy Larkspur; For Profits, No Plant or Bulb Costs Less and Brings Bigger Returns.

* DELPHINIUM BELLADONNA. The most popular variety. The Sky-blue flowers are freely borne on numerous branching stems throughout the summer.	per 100	per 1000
Strong 2 year old plants.....	10.00	90.00
* BELLAMOSA. A deep blue form of Belladonna.		
Strong 1 year old plants.....	10.00	90.00
* ENGLISH HYBRIDS. A fine strain of imported Hybrid seedlings, grown from seeds, specially collected from true Hybrids. Beautiful variety of colors. Our Hybrids grew seven feet tall this summer.		
Strong 1 year old plants.....	10.00	90.00

	per doz.	per 100
DELPHINIUM—Continued.		
*GRANDIFLORA (Chinese) A beautiful gentian blue variety of dwarf habit, very free flowering, in flowering similar to Belladonna. Very fine for cutting. Strong 2 year plants.....	1.50	10.00
DIANTHUS BARBATUS (Sweet William)		
While it is impossible to determine the value of this group of the most popular old fashioned garden plants, we know that their striking colors, pleasing fragrance and freedom of blooming, make them a favorite with all lovers of hardy flowers. Where an abundance of cut flowers is desirable, these cannot be surpassed. Florists throughout the country highly praise them for summer cutting.		
*JOHNSON'S GIANT MIXED. The finest of Sweet Williams; immense flowers of gorgeous shades. Excellent for cutting. 1-1½ ft. May-June.....	1.20	7.00
ALBA. A white species of the above. May-June.....	1.20	8.00
HOLBORN GLORY. White with Crimson eye. May-June.....	1.20	8.00
*NEWPORT PINK. A soft salmon pink. (New). May-June.....	1.50	9.00
*SCARLET BEAUTY. A vivid scarlet making a striking contrast with the other varieties. May-June.....	1.20	8.00
*LATIFOLIUS ATROCOCCINEUS FL. PL. Beautiful deep crimson semi-double flowers, produced continuously throughout the summer.....	1.20	8.00
DIANTHUS PLUMARIUS (Hardy Pink)		
*SINGLE MIXED. Dainty fringed flowers of mixed colors. 1 ft. All summer.....	1.20	8.00
*SEMPERFLORENS. Everblooming Garden Pink. Fine mixture of colors.....	1.50	10.00
†DELTOIDES (Maiden Pink) A beautiful little plant with narrow leaves and bearing a profusion of small crimson flowers during June and July. Fine for rockery.....	1.50	10.00
DIELYTRA OR DICENTRA		
SPECTABILIS (True Bleeding Hearts) An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive. Strong clumps for forcing.....	4.00 4.50	30.00 35.00
DIGITALIS (Foxglove)		
One of the most popular plants of today, throwing a flower spike, tall and stately to the height of from 4-6 ft. July-Aug.		
†GRANDIFLORA. A beautiful clear yellow variety.....	1.50	10.00
†GLOXINAEFLORA. A strain of finely spotted varieties. We offer them in Purple, Rose and White.....	1.50	10.00
MIXED COLORS	1.20	8.00
ERYNGIUM (Sea Holly) A plant with thistle-like heads of flowers of a beautiful steel-blue. Very useful for dry bouquets in winter.		
*PLANUM. Steel blue, 2½ ft.....	1.50	10.00
EUPATORIUM (Hemp Agrimony)		
Vigorous growing plants of easy culture, more suitable for the rougher parts of the garden and the woodlands than herbaceous border.		
*COELESTIUM. (Hardy Ageratum) A fine Perennial closely resembling the Ageratum, flowers a lavender blue, flowering from August to frost. A fine Perennial for Florists' use.....	1.50	10.00
EUPHORBIA (Milk Wort)		
*COROLATA. (Flowering Sponge). A fine plant to take the place of Gypsophilla when that is past. Masses of pure white flowers.....	1.50	10.00
FLAME-FLOWER or Red Hot Poker (See Tritoma)		
FORGET-ME-NOT (See Myosotis)		
FOXGLOVE (See Digitalis)		
FUNKIA (Plantain Lily)		
An attractive group of plants of tropical appearance, lending themselves to any number of uses.		
*LANCEOLATA. Lilac flowers, valuable for its late flowering qualities. 2 ft. Sept.....	1.50	10.00
*LANCIFOLIA. Blue flowers. Green foliage. 2 ft. Sept.....	1.20	8.00
GAILLARDIA (Blanket Flower)		
The most glorious of our true "Old Fashioned Flowers." Flowering continuously from June to October in many rich and brilliant colors of orange, crimson and red. As a cutflower they cannot be excelled, and are used in any kind of floral arrangement.		
*GRANDIFLORA. Ranging in color from old gold to rich crimson. 1-1½ ft. June-October	1.20	8.90
*GRANDIFLORA SUPERBA. Extra large.....	1.50	10.00

GARDEN HELIOTROPE (See Vallariana)		per doz.	per 100
GEUM (Avena)			
Beautiful dwarf plants of tufted compact habit with long flowering period.			
*ATRO-SANGUINEUM FL. PL. A beautiful double scarlet borne on branching stems. 1½ ft. May-Sept.	2.00	15.00	
*COCCINIUM MRS. BRADSHAW. A stout branching little plant of recent introduction, bearing large double scarlet flowers in great profusion. Excellent for cutting. 2 ft. May-Sept.	2.00	15.00	
GOLDEN GLOW (See Rudbeckia Laciniata)			
GYPSOPHILLA (Chalk Plant or Baby's Breath)			
Masses of minute white flowers produced throughout the summer. Very useful for cutting.			
*PANICULATA. Pure white. 2-3 ft. July-Aug.	1.20	8.00	
GRASSES			
The hardy ornamental grasses are adapted to many positions in the garden. On the water side or as a border, they are specially effective.			
ERIANTHUS RAVENEA (Plume Grass). Violet tinged leaves resembling the Pampas Grass in habit. Graceful flower spikes of 5-6 ft.	1.75	12.00	
EULALIA GRACILLIMA UNIVITATA. Graceful habit, with narrow foliage of bright green. 6 ft.	1.50	10.00	
PHALARIS ARUNDINACEA VARIEGATA (Variegated Ribbon Grass) 18"	1.50	10.00	
HARDY PINKS (See Dianthus Plumarius)			
HELENIUM (Sneezeweed)			
A vigorous growing hardy border plant flowering from early spring until late fall. Useful for cutting.			
*AUTUMNALE RUBRUM. A splendid new variety. Deep oxblood red, changing to terra-cotta. 4-5 ft. Sept.-Oct. Better than Riverton Gem.	2.00	15.00	
*RIVERTON GEM. Old gold, changing to wallflower red. 4 ft. Aug.-Oct.	2.00	15.00	
HELIANTHUS (Perennial Sunflower)			
The usefulness of this beautiful hardy plant can neither by word or illustration be expressed. Their rich golden color and their full formed growth make them wonderfully effective in the hardy border or shrubbery planting. As a cutflower for floral decorations, they are unexcelled.			
*MISS MELLISH. Tall stately growth with clear yellow flowers. 6-8 ft. Sept.-Nov.	1.20	8.00	
*MULTIFLORUS FL. PL. Erect bush-like habit, with masses of clear yellow double flowers resembling the flower of a cactus Dahlia. For bouquets and floral arrangement, this variety is supreme. 5-6 ft. Aug.-Sept.	1.50	10.00	
HELIOPSIS (Orange Sunflower)			
In general it is like the Helianthus, of dwarf habit but is also very valuable for cutting.			
*PITCHERIANA. Golden yellow flowers throughout the summer. 3 ft.	1.50	10.00	
*SCABRA ZINNIAEFLORA. Double yellow, resembling the flowers of Zinnia. 2 ft.	1.50	10.00	
HEMEROCALLIS (Day Lily)			
Lily-like flowers, very ornamental foliage.			
*FULVA. Trumpet shaped flowers of orange with darker shading. 4-5 ft.	1.26	8.00	
*THUNBERGII. Funnel shaped flowers of rich butter-cup yellow. 4 ft. July	1.50	10.00	
HESPERIS (Rocket-Dame's Violet). In reference to the stars, the flowers being more fragrant at night, grand for cutting purposes.			
MATRONALIS ALBO. Fine white.	1.50	10.00	
MATRONALIS. A very fine shade of lavender-purple.	1.50	10.00	
HEUCHERA (Alum Root or Coral Bell).			
A beautiful dwarf compact plant, bearing loose graceful spikes of flowers in great profusion. Valuable for the rockery and for cutting.			
†*SANGUINEA. Bright coral flowers in great profusion.	2.00	15.00	

HIBISCUS (Mallow)	per doz. per 100	
Very robust growing plant having large flowers of rich shades of red, pink and white.		
MOSCHEUTOS. Flowers light rose with darker eye. Aug.-Sept.....	1.20	8.00
CRIMSON EYE. Immense large flowers of pure white with rich dark red center. 5-6 ft. Aug.-Sept.....	1.20	8.00
NEW GIANT FLOWERING MARSH MALLOWS. This wonderful new variety has been greatly improved and not alone produces flowers of enormous size, but the colors have been greatly improved on. These can be supplied in separate colors, Red, Pink, White. 5-7 ft. July-Aug.	1.50	10.00
NEW GIANT MIXED	1.00	7.00

HOLLYHOCKS

Under our improved methods we grow Hollyhocks that are absolutely FREE FROM RUST. Do not make a mistake and buy without this assurance.

DOUBLE VARIETIES in separate colors, maroon, red, rose, salmon, white, and yellow	1.20	8.00

YUCCA (Adams Needle)

FILAMENTOSA. A distinctive evergreen plant forming large sword-like leaves and producing large spikes of white flowers. 4-6 ft. June-July 1.20 8.00

Remember that Perennials cost you nothing after they are once planted, and that they give you an abundance of cut flowers every year. Have you ever had anything in your Greenhouse that would yield a crop from year to year without having to resow, repropagate, rebuy and to repot several times in one year? Make the Perennials your Supply House and save money.

Watch the recommendations for the planting of Perennials in the trade-papers.

WHITE , unnamed		17.50	
PINK , unnamed		17.50	
RED , unnamed. (Only with equal quantities of other colors).....		25.00	

OUR SUPERB STOCK

As pioneers in Gladioli growing, and having been among the first to introduce "Gladioli for Forcing" we have undoubtedly gathered so much experience in producing "A Superior Kind of Bulb" that the quality of our stock need not be dwelled upon. Our hundreds of satisfied customers are our best testimonials. Every year, we have been able to improve our stock through added experience, so that we are confident that our bulbs of today are as near perfect as can be produced.

"Hints for Forcing"

Plant the bulbs 2 inches deep, 4 inches apart each way, if possible in ground benches; raised benches are all right, provided there is not too much underneath heat.

Be careful with manure; water and sunlight are more important than manure.

Grow them under carnation temperature.

Plant from January 15 to February 1st. Bulbs planted before January 15 show more blind stalks than those planted later.

It's not the largest bulb that forces best; by all means forcing stock should be fat and plump, 1½ in., (no use forcing flat bulbs).

Gladioli that we recommend for forcing are marked with (X).

All varieties are fine for outdoor planting and No. 2 bulbs will give excellent flowers.

Prices per 1000 unless otherwise noted.

PLANTS FOR FORCING

One of our specialties is serving the Florists, and it is therefore not surprising that we have studied their requirements in Hardy Plants for Forcing and are well able to speak with authority on the wonderful possibilities which some of these plants offer to progressive Florists. Following is a list of our specialties, which we recommend as good, and profitable to handle.

SPIRAEA (Astilbe)

Sedum Sieboldi. Pink. In baskets or pots.....		15.00

ROSES FOR FORCING COMPLETELY SOLD OUT.

FOR FALL 1926 INQUIRE AFTER JANUARY 1st.

NURSERY STOCK

We generally have a small surplus of various Shrubs and Roses of which we send out a list during the season. Following are a few of our specialties:

ROSES

F. J. GROOTENDORST (Rugosa Baby Rambler). Finest Rose for the Northwest because of its hardiness. Imagine a shrub-like Rugosa Rose, covered with trusses of the Crimson Baby Rambler Rose and you will have a fair conception of this New Hybrid Variety. It is not a Rose you should plant in with your bed of Hybrid Teas or Perpetuals, but it is valuable to plant as an isolated specimen, or in a mass in an exposed position, or among shrubs. A splendid variety for an everblooming hedge, flowering until frost	6.00	45.00

Spiraea Anth. Waterer. Pink. 12-15 inches.....		20.00
Spiraea Anth. Waterer. Pink. 15-18 inches.....		25.00

General Information about Perennials For Cut Flowers

VARIETIES

All varieties best suited for Cutflowers have been marked with an (*). No Florist should be without any of them, although it is possible that a certain class suits one better than the other. Varieties shown enclosed in rule border, are recommended for planting before others or to remind you that they should not be missed by any means.

BEFORE ORDERING

Before ordering, it is well to first study the requirements of your business; at which times of the summer the demand for cutflowers is the heaviest and when you have the smallest crop and variety of your own. The market for cutflowers at Decoration Day is unlimited, so that varieties blooming at that time are of most importance. The flowering time is given with each variety or species, which enables you to make your selections accurately. Further, the colors are given of each variety, so that if you want blue most of all, such varieties as Delphinium, Centaurea, Eupatorium, etc., may be selected without difficulty. We advise planting a general variety under most circumstances, which prevents a surplus crop at any one time, but protects you against shortages at all times.

FALL PLANTING AND WINTER PROTECTION

To obtain the largest crop of flowers the first year at the proper time, planting should be done in the fall. Early planting is advisable, so that the plants can become thoroughly established before winter. Most important in fall planting is, that the land is well drained, so that no excessive moisture can collect during the winter and early spring. Plant Perennials the same depth as they grew in the nursery and after planting, hill up the soil around the plants to about two inches, not packing down the hills at all. As soon as the ground is frozen and winter seems permanent, cover up rows with straw or corn-stalks, which should be taken off as soon as the danger of frost has passed, at the same time leveling down the hills from the plants.

SPRING PLANTING

Spring planting suits nearly all situations, except that there is seldom time enough to do the work properly. Perennials planted in the spring will not flower as profusely the first summer as those planted in the fall. Orders for spring delivery will be reserved until the proper time, but owing to the scarcity of some of the outstanding varieties, we advise that you place your order now to avoid disappointment later.

10 VARIETIES, our selection.....		8.00
		1.50
		10.00

OUR DAHLIAS ARE GOOD—TRY THEM.

Some PERENNIALS and BIENNIALS

Such as Mentioned Below, if Planted in
the Fall, Need Protection During
the Winter Months

ANEMONES.

CAMPANULA (a biennial) {
DIGITALIS (a biennial) {
GEUM. }

To protect these, throw branches on the rows and on top of these straw. If the covering on Campanula and Digitalis becomes packed in the spring, they will rot, therefore be sure there are plenty of branches under the straw to insure plenty of ventilation.

HOLLYHOCKS. }
STOKESIA. }

They must have "dry feet." so plant them on a spot where there is plenty of drainage.

CHRYSANTHEMUM. If received in the fall, they should be "heeled in" in sand and covered up with straw and planted out in the spring.

TRITOMA. Must be kept inside in sand.

REMEMBER. THE ABOVE ITEMS, planted in the spring, DO NOT need protection during the following winter, as they have established their roots thoroughly during the year.

"THE MOST IDEALLY LOCATED PERENNIAL NURSERY"
