Shock in Emilia District More Serious Than First; Number of Dead and Injured In Other Sections Increasing; Many Towns Ruined.

Rome, Sept. 9.—(Associated Press)—Another violent earthquake occurred in the Emilia district at 2.35 o'clock this morning, causing loss of life and important damage.

MACSWINEY DIZZY AFTER LONG FAST

Signs of Atrophy of Skin on Mayor's Arms; More Constables Shot

London, Sept. 9.—Lord Mayor Macswiney of Cork, passed a very bad night and complained again this morning of dizziness, according to a bulletin issued to-day by the Irish Self-Determination League.

The Lord Mayor was visited last night by Father Patrick Macswiney, a cousin, who said he was surprised to find the prisoner so well. He expressed belief that the crisis would not come for three or four days.

The noon bulletin issued by the League stated that signs of atrophy of the skin had appeared and that as a consequence the Mayor's arms were being massaged and bandaged.

Galway, County Galway, Ireland, Sept. 9.—A constable was shot dead in the railway station here last night. Three of his assailants were killed and one or two were wounded.

Passed on Rollcall. Trenton, N.J., Sept. 9.—The Assembly last night by a vote of 25 to 12 adopted a resolution directed to Premier Lloyd George of Great Britain declaring that Lord Mayor Macswiney of Cork is slowly dying in a British prison in payment of a penalty not commensurate with his alleged offences and asking for his immediate release.

The resolution declared defeated by Speaker Glover on a viva voce vote, was passed on rollcall.

WANT SUNDAY CLOSED SEASON FOR HUNTING

Lord's Day Alliance Moves For Non-Sporting Sabbath in B. C.

Absolute ban on Sunday shooting and hunting in the woods and fields of British Columbia is the aim of members of the Lord's Day Alliance, whose representative, the Rev. Charles M. Huestis, of Red Deer, arrived in Victoria to-day to impress his demands on Premier Oliver and members of the Provincial Government.

Rev. Mr. Huestis is asking the Government to stop the increasingly popular desecration of the Sabbath by hunters and sportsmen by declaring Sunday a closed season for game all the year round.

He also is urging on the Government the necessity of giving municipalities the power to prohibit the discharge of firearms on the Sabbath Day within their boundaries.

Rev. Mr. Huestis has brought with him to Victoria to assist him in his drive for a non-sporting Sabbath in British Columbia a number of Ontario cases where power has been conferred on municipalities in Ontario to prohibit shooting on Sundays although Sabbath observance is a Federal matter.

Demands for the observance of Sundays in British Columbia are to be put in writing by Rev. Mr. Huestis and taken up by the Government.

Barcelona, Sept. 9.—Threats of a strike at the plant of the Canadian Electric Company, which furnishes light and power for this city and to factories here, is occupying the serious attention of the authorities.

HOPE FOR SOLUTION OF ITALIAN DISPUTE

Responsible Leaders Discourage Effort to Give Movement Political Character

Critical Day Friday When General Confederation of Labor Meets

Rome, Sept. 9.—Efforts continue to bring about a solution of the situation which has arisen throughout Italy as a result of the movement among metal workers to occupy plants in many of the most important industrial centres. The Government, it is said by newspapers, will not take any steps to occupy plants that quiet prevails at all affected centres, and that engineers, foremen and clerical staffs at the plants still refuse to join the workers.

It is declared the majority of the metal workers are controlled by extreme Socialists who are desirous of giving the movement a political character, but responsible leaders of the party are said to discourage such a policy.

Critical Day. London, Sept. 9.—Friday will be a critical day in the history of the movement of Italian metal workers, which has resulted in the occupation of many large industrial plants in that country, says the Milan correspondent of the Herald, organ of the Labor Party. The General Confederation of Labor meets in Milan Friday, and if no decision is reached by then, the correspondent says immediate action may be taken by the workers.

The ultimate aim of the Federation of Metal Workers, as well as the Confederation of Labor, he declares, is the socialization of industry, and this aim, now almost within their grasp, may at any moment overshadow claims for wages. Friday may well see an extension of the soviet principle to other industries of Italy.

Orlando Shipyards. Leghorn, Italy, Sept. 9.—Workmen, who have occupied the Orlando Shipyards here, launched a destroyer built there for the Italian Government to-day. Black and red flags waved above it, however, as it slid down the ways into the sea, and there rose deafening cries of "Viva Socialism!"

Capocchi, President of the Metal Workers' Union, launched the vessel, and Signora Pietro Mascagni, wife of the famous composer, acted as godmother for the new ship.

Tell Increasing. Florence, Italy, Sept. 9.—The number of dead from Tuesday's earthquake is steadily growing as additional reports come in. The latest from Livorno bring the total of dead in that city to 1,000.

King Views Ruins. Fivizzano, Italy, Sept. 9.—(By courier to Florence, by the Associated Press)—King Victor Emmanuel, of Italy, to-day viewed the ruin visited upon this city by the earthquake, which Tuesday morning shook Northern Italy to its centre. He went into every quarter of the town and endeavored to comfort those who were injured.

First Coal Shipped From Mines at Lens Since Early in War. Lens, France, Sept. 9.—A small shipment of coal left one of the pits here yesterday. This coal was the first that has been taken out of the Lens mines since they were flooded by the Germans during the war.

Economic Aid by States to Wrangel is London Report. London, Sept. 9.—The Russian Liberation Committee here which is an anti-Bolshevik organization, to-day issued an unofficial statement received from Constantinople saying, among other things:

"The representative of America, Rear-Admiral Newton A. McQuilly, stated to Brandis, Minister of Finance in General Wrangel's Government, that the United States are ready to give him economic aid, and asked him to present a list of goods wanted in the Crimea."

Pulp Output. London, Sept. 9.—(Canadian Associated Press)—Lord Riddell, the noted newspaper owner, said yesterday that the paper and pulp companies of Canada in considering the possibilities of the North American forests hoped the world's output would be substantially increased next year, but it would be impossible to say if the output would meet the steadily increasing demands.

Restrictions Lifted by Printing Trade. English Newspaper Owners Outside of London Withdraw Lockout Notices. London, Sept. 9.—(Canadian Associated Press)—The Printing, Trade Union Executive has agreed that as the Liverpool and Manchester trades have refused to obey instructions, there is no restriction to members of other branches doing their work. Both the Liverpool evening papers and the Manchester and Liverpool printers, which were issued as a consequence of the unauthorized strike of the Manchester and Liverpool printers, but it is understood the Manchester and Liverpool owners are likely to be indemnified for their present losses by owners in other districts.

France Approves Viscount Hardinge as Ambassador. Paris, Sept. 9.—The French Government has given its approval to the appointment of Viscount Hardinge as British Ambassador to France.

Market in Britain for Canadian Flax. Ottawa, Sept. 9.—R. K. Hutchison, flax expert of the Dominion Government, has called for Europe to market six thousand tons of flax fibre and is reported as being exceptionally and it is estimated that thirty thousand acres of land were placed under cultivation this year as compared with 15,000 in 1913.

OUTBREAKS AGAIN OCCUR AT TRIESTE

Trieste, Sept. 9.—(Associated Press)—The outbreaks here leading to street fighting between Nationalists and Socialists have been resumed. Two deaths have occurred and many have been wounded. Intermittent firing was continuing last evening, despite strong guards along the streets.

New Trade Convention Between Canada and France Is Suggested

Ottawa, Sept. 9.—(Canadian Press)—France needs many products such as building materials, foodstuffs, machinery and other goods which Canada has to sell, but the exchange rate and unfavorable customs regulations are keeping down the volume of trade which would otherwise spring up, in the opinion of Hon. Dr. Philippe Roy, Canadian High Commissioner to France, who is spending a short time in Ottawa. This morning the High Commissioner was in conference with Sir George Foster and it was expected that one of the questions which he would discuss with the Government during his stay here was the drawing up of a new trade convention between France and Canada to replace that which was cancelled on June 19 of this year.

PROHIBITION ISSUE IN FOUR PROVINCES

Manitoba, Saskatchewan, Nova Scotia and Alberta October 25

Ottawa, Sept. 9.—(Canadian Press)—With almost one-quarter of the work now general election on their hands, the staff of the chief electoral officer, Colonel O. M. Biggar, are spending busy days getting all necessary documents and instructions into the hands of returning officers. There will be voting in 57 districts on the Temperance question on the one day and at the present time forms for getting the vote are being forwarded as fast as possible. Returning officers throughout the whole of the Provinces are apparently grasping the substance of the new act, according to Colonel Biggar, who stated this morning that there was practically no evidence of confusion or misunderstanding among the staff and that no complaints as to difficulties were being received. Colonel Biggar stated that he had no intimation of any new developments of any kind in connection with the vote.

The four Provinces which vote on October 25 are Manitoba, Saskatchewan, Nova Scotia and Alberta.

The vote in the Yukon will not be taken until July next because the territory has not yet been made before the long Winter begins. The Ontario vote is on April 13, 1921.

WILL RUSH WORK ON NEW HEALTH CENTRE

Immediate construction of the Saanich War Memorial Health Centre was yesterday authorized by the special committee of the Saanich Council, which has been revising the plan to bring the cost within the \$25,000 available under the by-law passed by the ratepayers last January. The total cost of the building will amount to \$24,800, the contract for the hollow tile building being awarded to Williams, Treise and Williams at the price of \$13,412.40, a reduction of approximately \$1,500 from the \$14,912.40 originally estimated. The contract for the full original installation is \$23,490.50, to which are to be added the fees to Messrs. K. E. Spurrin and Rice, as supervising architects. Pleased With Bargain. The special committee abandoned any attempt to retain, from the proceeds of the by-law any funds for fencing the grounds of incidental expenses, believing that the prices secured are an excellent bargain, as the changes in the original specifications have been so carefully made as to assure that the building will be of the highest grade. Most of the economies have been secured by deciding to leave unfinished portions of the basement which will eventually be fitted for various accessory purposes, and also by cutting out a number of incidental equipments, which may later be added as funds are available. An immediate start will be made on the building, and it is confidently expected that the structure will be completed within one month, as hollow tile construction lends itself to quick work. The inside work will be proceeded with throughout the Winter months, and the hospital building will be opened in record time for a structure of its type.

HON. W. L. M. KING TO VISIT SEPT. 26

Leader of Liberal Party Will Be Accompanied By Four Opposition Members

Hon. W. L. Mackenzie King, Leader of the Liberal Party of Canada, with his party, will arrive in Victoria from Seattle on Sunday afternoon, September 26. It had been expected that Mr. King would reach the city on the previous day, and in that case the public meeting at the Arena, on Mr. King will commence his British Columbia campaign, would have been timed for September 25. However, the date of arrival falling one day later, the public meeting will now take place on Monday, September 27. Intimation to this effect was received by W. M. Ivel, President of the Victoria Liberal Association, in a message from Andrew Haydon, General Secretary of the Liberal party, to-day. The message to Mr. Ivel states that Mr. King's party will be composed of Hon. H. S. Beland, M.P., former Postmaster-General, who was in Belgium when war broke out, and was detained for a long period as a prisoner of war, W. C. Kennedy, Opposition member for Essex North, Ontario, and William Duff, Member for Lunenburg, N.S. Mr. Ivel plans to ask Hon. John Oliver, as leader of the Liberal party in British Columbia, to extend formal welcome from the platform to the Leader at the outset of his political campaign in this province.

GETTING READY FOR CONTINENTAL FLIGHT

Planes May Wing From Coast to Coast in Fifty Hours

Ottawa, Sept. 9.—A staff of mechanics from Camp Borden are expected to reach Winnipeg on Friday of this week, to be on hand for assembling the aeroplanes which are to take part in the trans-Canada flight. The first leg of the western flight will be from Winnipeg to Moose Jaw, where another machine will take up the bags of official messages which are to be carried and take them to Calgary. There a third mechanic will take the air and fly to Vancouver. The route to be followed all the way across the prairies and through the Rockies will be along by the side of the Canadian Pacific Railway main line. It is hoped to accomplish the flight from Halifax to Vancouver within fifty flying hours.

Judgment of Railway Board on Freights

Ottawa, Sept. 9.—The judgment of the Board of Railway Commissioners on the increase in freight rates lays emphasis on the fact that a large proportion of the increase granted will be taken up in maintaining the increased wages which the employees of Canadian railways will receive when the Chicago wage award schedule goes into effect in Canada. "At the hearing," it says, "Howard G. Kelley, speaking for the Railway Association of Canada, stated that they had decided to pay the railway employees the rates granted to the American employees by the Chicago award, granting back pay to the first day of May last, and on cross-examination he frankly admitted that if they were not granted he firmly believed there would be a general strike throughout Canada." Replied, as I do, the Chief Commissioner states, the sincerity of his statement and the terrible results which would necessarily fall on people of this country as a whole under such a contingency, I

PRESS COMMENT ON RAIL RATES

Toronto Globe Maintains Decision Will Inevitably Be Appealed

Toronto, Sept. 9.—The Canadian Press has gathered the following editorial comment on the decision of the Railway Commission on the freight rates: Toronto World: "The Railway Commission has nothing to do with the fact, if it be a fact, that compensatory rates for the Canadian National means excessive rates for the Canadian Pacific. The rates must be uniform and if they result in excess profits for the Canadian Pacific that will present a problem for action by the Government and Parliament."

Toronto Globe: "That the decision will be appealed is as certain as tomorrow's sun rise. We shall see then whether the little group of financiers who control the Canadian Pacific are more powerful politically than the industrial and commercial interests which are up in arms against this utterly unexpected decision."

Toronto Mail and Empire: "Even if the rate increases are heavy, we can at least remember that as a people Canadians are in a far better position to bear such a load than any people of almost any other country, but the time has come for stern action to prevent further inflation of railroad costs, even at the cost of having to fight strikes."

Manitoba Free Press: "The decision has been given out, not to meet the legitimate needs of the C. P. R., but to help out the Canadian National Railways. The Railway Commission, in considering the question of this right, has not thought of the fields in which it exercises no right jurisdiction. The C. P. R. is a real railway, and none will deny that. But it is not the business of the Railway Commission to solve the problem of how the disjointed hodge-podge roads known as the Canadian National are going to be transformed into an efficient, highly co-ordinated and solvent railway system."

Prince Will Reach England in October. London, Sept. 9.—(Canadian Associated Press)—The Prince of Wales is due to reach Bermuda on September 13. He will leave Bermuda on October 2 and arrive at Portsmouth on October 11.

MARITAL TANGLE SOLVED IN COURT

Judge Held Marriage Illegal and Not Binding Under Quebec Laws

Montreal, Sept. 9.—The marriage of Bernard John Dahlmann and Gertrude Idella Barbeau, which took place at Quebec September 21, 1914, was annulled yesterday by a judgment of the Superior Court rendered by Mr. Justice Bruneau on the wife's petition. The ground for dissolution was that, being a "mixed" marriage performed by a Protestant minister, it could not be held legal and binding under the Quebec civil laws. According to petitioner, the couple went to the Bishop's Palace at Quebec on September 21, 1914, and asked to be married. The request was refused both by a priest and the Bishop because she was a Protestant and Dahlmann a Catholic. Her fiancé then suggested they should be married by a Protestant minister, and they went to St. Matthew's Anglican Church, Quebec, and were married by Rev. Canon Scott by license. Her husband then, she stated, repudiated the marriage as having no binding effect on him "spiritually, religiously or civilly." There was no contestation of the petition.

AUSTRALIAN WHEAT CONFERENCE WILL BE HELD AT RIGA

Warsaw, Sept. 9.—(Associated Press)—Lithuania has given the necessary guarantees to the Russian Soviet Government, and a Bolshevik peace delegation will go to Riga to meet Polish representatives, Prince Sapieha, Polish Foreign Minister, was notified by George Tchitcherin, Russian Bolshevik Minister of Foreign Affairs.

Polish officials said they expect the delegation to leave Monday or Tuesday.

LAND SETTLEMENT ON WIDER SCALE

Lord Burnham Urges Special Facilities As Inducement To Settlers

Toronto, Sept. 9.—(Canadian Press)—Canada should give better facilities for the establishment on the farm of people from the Old Country, in the opinion of Lord Burnham, who told a big audience of Ontario people yesterday at the special facilities afforded by the Canadian authorities for the land settlement of ex-servicemen from Canada, that he intended to a wider circle of immigrants from overseas. If there is not a broader encouragement given to intending farmers in Canada, the bulk of British immigrants will inevitably make for the larger centres of population in Canada rather than for the farming communities, and the new immigration will be dammed up in such cities as Winnipeg, defeating the purpose of the Canadian authorities.

Speaking of the anxiety of Canadians to encourage the investment of British capital in Canada, Lord Burnham said his home in Great Britain from taxation and other causes and that surplus capital in the Old Country had dwindled but the coming of better times, he felt sure, was in sight, and the British capitalists would be glad to invest the large sums of business capital in Canada.

Mine Crisis Before Conference, but No Agreement in Sight

Robert Smillie Informs Sir Robert Horne That Proposals Contain Nothing Leading to Satisfactory Settlement of Miners' Demands.

London, Sept. 9.—A conference held this morning between Sir Robert Horne, President of the Board of Trade, and a delegation from the miners' organization in an effort to reach a solution of the coal crisis resulted in what is generally regarded as a failure. The conference was brought about by an invitation of the head of the Board of Trade to the Executive Committee of the Miners' Federation. That committee, which was attending the Trades Union Congress in Portsmouth, decided to accept the invitation and came here for the meeting. At the conclusion of the conference to-day Robert Smillie, acting as spokesman for the miners, informed Sir Robert that the miners' executive body was of the opinion the statement he had made to it contained no new proposal which would lead to a satisfactory settlement of the miners' demands. Trades Union Congress. Portsmouth, Eng., Sept. 9.—The Trades Union Congress in session here adopted a resolution declaring responsibility for unemployment shall be borne by industry, and that in no case should the level of income fall below 55 per cent. of wages earned when in full employment. Power should be obtained to force a levy on industry to realize the necessary fund, the resolution added, and the parliamentary committee of the Congress was instructed to take necessary action to end it. By a large majority on a card vote, the Congress decided to replace the parliamentary committee which had hitherto managed national labor affairs by a general council staff, or "general council" representing every district in industry, affiliated with the Congress. James Henry Thomas, general secretary of the National Union of Railwaymen, said that the two delegates appointed by labor's council of action, to proceed to Riga for the purpose of obtaining full information on the Russo-Polish peace negotiations arrangements, were having difficulty in obtaining passports. He submitted a resolution approving the appointment of the delegates and calling on the Government to grant passport facilities to British labor delegates. The resolution was carried unanimously.

TRANS-CANADA AIR FLIGHT ARRANGED

Aeroplanes and Seaplanes Will Be Used in Relays; Start This Month

Ottawa, Sept. 9.—The first cross-Canada airplane and seaplane flight is expected to be made in the last week of September. A seaplane will fly from Halifax to Winnipeg, and from that city to Vancouver the journey will be completed by airplanes, flying in relays.

The seaplane will be piloted by Col. Leckie, and the names of the three of the airplane pilots who will take part in the flight have been announced. They are: Capt. G. A. Thompson, of Winnipeg; Capt. J. B. Home-Hay and Capt. Carruthers, of Kingston, Ont. All three are fliers with excellent records.

The flying time expected to be consumed between Halifax and Winnipeg will be about 22 hours. If sufficient fuel can be carried to make the trip possible as a non-stop journey, it is not expected that the machine will alight between the two points.

HYSTERICAL WOMEN AT GOLDEN GATE URGE LONGSHOREMEN TO QUIT

San Francisco, Sept. 9.—Several women who said they were members of the Women's League for Irish Independence, paraded the waterfront yesterday, bearing transparencies urging the longshoremen to cease loading vessels destined for English ports. Their efforts in particular were directed against the men loading coal on the British steamer Muncaster Castle, and officials of the coal company said the women had persuaded some of the men to stop work. The vessel was bound for the West.

Later, leaders of the women said that sixteen longshoremen had quit. Thirty Quit. San Francisco, Sept. 9.—Thirty stevedores engaged in coaling the British steamer Muncaster Castle in San Francisco harbor deserted the job when confronted during the lunch hour with women bearing banners protesting the imprisonment of Terence MacSwiney, Lord Mayor of Cork, near death in Brixton Prison from hunger striking. The women who announced they were members of the Irish Women's Educational League, appealed to the stevedores to refuse to work on all British vessels.

Officials of the Riggers and Stevedores' Union and the Longshoremen's Association, the two organizations of stevedores said the walkout was not a protest by either and that the men who had quit work had done so on their own responsibility.

LABOR DAY SPORTS SUCCESS AT MCGILL

Cowichan Branch of G.W.V.A. Held Annual Re-Union; Victoria Band Attends

Duncan, Sept. 8.—A very enjoyable and successful day was spent on Monday last, when the Cowichan branch of the G. W. V. A. held their annual reunion and sports on the Duncan Recreation Ground. After the baseball match, and on the arrival of the Victoria G. W. V. A. Band, the excellent programme arranged by the G. W. V. A. sports committee commenced. The most notable feature of the programme for juniors was the "tiny tots" race, for which the winner received a kitten and each competitor received a prize. The race and three-legged races caused much amusement, and there were so many entries for these races that it had to be run off in heats.

The dance in the evening at the Agricultural Hall was most successful. The band played eclectically and untrillingly, in spite of their efforts during the afternoon on the sports ground. The hall had been very attractively decorated with flags for the occasion, and the red shades on the lights gave an effective finish. An unexpected hitch occurred when all the lights in the hall went out during the first part of the evening, but both band and dancers kept going with no apparent inconvenience until the defect was remedied.

A really excellent supper was served, and it was necessary to have the sitting to accommodate the large number of people present. It is hoped that the day was one of financial success as well as enjoyment.

School Opening The opening of the consolidated school for the Autumn term took place on Tuesday. There is an unusually large number of children enrolled this term. The children were dismissed early, after they had been placed in their classes for the coming term.

Does It Hurt You To Bend Over? This is a Sign of Kidney Weakness, But Can be Quickly Cured. Don't give up! You can be cured and made well again.

That backache and dragging weariness can be stopped for all time. Those sharp backache bending over, and that lameness in the morning can also be overcome.

Every ache and pain due to kidney weakness will disappear quickly if you start using Dr. Hamilton's Pills, a marvellous remedy long ago made famous by its strange healing effect upon the kidneys and liver.

Don't wait till the dragging pain in the loins grows worse. Start the cure today. Delay may mean swelled ankles and limbs, sharp rheumatic pains in the muscles and joints, and other painful symptoms as well.

If you are always tired, have continuous headache, dizzy spells and specks before your eyes or ringing in the ears—these are common symptoms that warn you of immediate need of Dr. Hamilton's Pills of Mandrake and Butternut Sold in 25c boxes.

DECLARES FIRE OF INCENDIARY ORIGIN

Fiance of Klamath Falls Victim, Informs Police of Plot; Story Doubtful

Klamath Falls, Ore., Sept. 9.—James Ayres, fiance of Miss Margaret Hamilton, one of the victims of the Houston Hotel fire here last Monday morning, in which twelve are known to have lost their lives, yesterday made a statement in which he said he had produced a man who would make an affidavit that the fire was of incendiary origin. Ayres said that the alleged incendiary plot was laid in the room of the man he claims would make the affidavit. The man's name is being withheld by the police here. Three men are alleged to have been involved, the police say, all of whom are understood to have left the city.

Sheriff Humphrey said that he had no evidence that would warrant arrests. The sheriff said he did not place much credence in Ayres' story, believing the latter's mind may be affected by his bereavement. The generally-accepted theory here of the cause of the fire is that it was due to carelessness. It is thought a lighted cigarette or cigar stub was thrown into a pile of rubbish.

PROJECTED LAND DEAL

The Tortures of Dyspepsia Relieved by "Fruit-a-lives"

Little Bras D'or, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching, gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives.' In a week, the constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON.

NO PROFITTEERING ALLOWED ON COAL

Commissioner Carvell Issues Warning to Coal Dealers at Ottawa

Ottawa, Sept. 8.—Hon. F. B. Carvell, chief commissioner, Board of Railway Commissioners, with respect to a statement appearing in a local paper to the effect that certain coal dealers had stated to that paper that they would have to raise the price of coal 50 cents a ton on Monday, when the new rates become effective, stated that the greatest possible increase which could take place on coal coming into Ottawa as a result of the increased rate decision, would be 15 cents per ton, and, therefore, if any dealer increases his price more than that amount, it is profiteering, pure and simple.

Mr. Carvell stated that in consideration of the tremendous cost of coal at the present time, the Board had granted the railways an increase in freight on this commodity less than one half of what it should have been to be fair to the railway companies, and if any person could bring him a clear case of any merchant adding to the price of coal even one cent more than the actual increase in freight rates, speaking for himself, he was willing to discipline him, even to the extent of refusing him any more coal for the remainder of the season, which he claims the Board has the right to do, under the recent legislation.

Mr. Carvell was very emphatic that there will be no profiteering, and the freight rates as an excuse anyway.

PAN-PACIFIC IDEA PROMOTED IN JAPAN

Premier Hara Named as Honorary President; Closer Relationship

Tokio, Sept. 9.—(By the Associated Press)—The Pan-Pacific idea was promoted yesterday at a luncheon presided over by Alexander H. Ford, Secretary of the Pan-Pacific Union, which was attended by prominent Japanese, American congressmen and others. Mr. Ford announced that Premier Hara would be named as honorary president of the union for Japan.

The aims of the Pan-Pacific Union were given as bringing the nations of the Pacific into closer relationship in order that they might work together for the advancement of all.

Immigration Barriers. Tokio, Sept. 9.—Barriers against Japanese immigration are a sign that the Western nations have attained control of almost every spot in the world where there is still room for immigrants, according to Ichiro Tokutomi, the editor of Kokumin, in continuing his series of articles entitled "The world after the great war."

TARIFF COMMISSION

Distinctive Styles in New Fall Coats

THE acme of smartness is reached in the new Fall Coats now on display at Mallek's. "The larger the collar the smarter the coat," seems to be the plan upon which they were developed from such warm fabrics as Bolivia cloth, duvety, velours and goldtone, in rich blues, browns, greens and purples. Important is the fact that they are priced below the average, as we are well satisfied with a moderate profit. Your inspection is invited.

SEEMS LIKE STARTING LIFE OVER SAYS BURNS

Back On Feet After Being Unable To Hit a Lick Of Work For Two Years—Gives Taniac Credit.

"I was just about helpless at the time I started taking Taniac, but when I finished the first bottle I was able to walk around without help, and now I call myself a well man once more," said David Burns, 192 King William Street, Hamilton, Ontario, a valued employee of the Canada Wire & Iron Goods Company. Mr. Burns has lived in Canada ten years, formerly residing in Toronto.

"Back about two years ago," he continued, "I had the flu like so many other people, and it left my whole system out of order. My stomach was all upset, and my appetite gradually dwindled away to nearly nothing. I couldn't get back my strength, and just felt lousy all the time. Then last Winter, due no doubt, to my already run-down condition, I was taken down with the flu again, and this time it came right near finishing me. My case was so serious that it developed into pleuro-pneumonia, and at one time no hope was held out for my recovery."

"After I did pull through I was left so weak that I was practically helpless. I could not walk around alone, and was simply a burden to myself and friends. My stomach was in a worse condition than ever, and I ate so little that I lost considerable weight. I worried and worried over my condition, and was about the most discouraged man you ever saw."

"I took to reading a lot while about the house, and kept seeing where so many people were taking Taniac that I made up my mind to give it a trial myself to see if it would do any good in my case. Well, sir, I commenced to pick right up and by the time I finished my first bottle I was able to walk about by myself. From then on I improved rapidly until now, although I have taken only four bottles, I am feeling so well that it seems I am almost starting life over again."

"My appetite has come back, and no matter what or how I eat it all agrees with me just fine. I have picked up ten pounds in weight, and am now working hard every day. I have told all my friends about Taniac and am going to keep on telling others for I consider it a medicine the whole world ought to know about."

Taniac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug-Store, Esquimalt Road.

REPLY OF SOVIET TO BALFOUR NOTE

London, Sept. 9.—The Russian delegation in London, headed by M. Kameneff, has published the reply of M. Tchitcherin the Bolshevik Foreign Minister, to the last note of Arthur J. Balfour, Lord President of the Council. It is a long and argumentative document in justification of the Soviet administration. It declares that, in the face of the Allied blockade of Russia, Mr. Balfour is hardly in a position to express astonishment that the Soviet Government has been unable to secure more for the well-being of the Russian people.

The note reiterates that peace, in order to develop her economic possibilities, is Russia's fundamental aim, and declares that the war with Poland is only an episode in the struggle for peace.

ROVING TURKS RESIST ADVANCE OF FRENCH FORCES

Constantinople, Sept. 9.—Turkish Nationalist bands are offering bitter resistance to the French in the regions of Urfa, Aintab and Adana. Many attempts have been made to destroy the Bagdad railway. The French are holding the cities with difficulty, occupying Aintab. Four workers of the American relief in the Near East are remaining at Aintab.

### Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment that can be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows.

### NEWS AND NOTES OF THE MINES

**Trail Shipments**  
Return of the Iron Mask mine at Kamloops to the shipping list, and the handsome total for the ten days of 11,257 tons, feature the statement of ore receipts at the Trail smelter for the last ten days of August.

**Iron Production in 1920**  
The total production of all kinds of pig iron for the first six months of 1920 was 18,435,602 tons, according to the report of the American Iron and Steel Institute. This compares with 18,274,175 tons in the first six months of 1919 and 14,737,189 tons in the second half of 1919. The six months' figures would give an annual pig iron production of 36,871,204 tons or an approximate 14 per cent increase over the 1919 production of 31,015,364 tons. The largest annual production was 39,434,797 tons in 1914, and the largest year was 1913, with 30,966,132 tons. Of the total six months' production, basic pig iron totaled 8,450,894 tons; Bessemer, 5,218,524 tons; foundry, 2,986,201 tons; malleable, 666,165 tons; forge, 168,869 tons; and all others, 251,149 tons. The basic pig iron total of 8,450,894 tons compares with 7,910,295 tons for the first six months and 6,581,836 tons for the last six months of 1919. Bessemer's total of 5,218,524 tons compares with 4,181,823 tons and 4,794,313 tons for the first

and last six months of 1919, respectively. The total number of furnaces in blast on June 30, 1920, was 322, as compared with 280 on December 31, 1919. Pennsylvania took the lead with a total production of 7,541,726 tons, and Ohio was second with 4,120,811 tons. Alabama produced 1,225,236 tons. Statistics of iron made for sale or for use of the makers themselves show that 13,959,115 tons out of 18,435,602 tons, or 76 per cent, was for the latter purpose, and the balance, 4,476,487 tons, was made for sale.

**Esperanza, Alice Arm**  
The same interests which bonded the Moose group have been investigating the Esperanza group close to Alice Arm. This is a high-grade native and ruby silver and argentine prospect, and some rich stuff has been taken out. A quantity of the ore is now lying on the side of the railway awaiting shipment to the smelter at Tena.

Work is starting on the Silverpit extension, owned by Wolverton, Hammond & Brugg. Practically nothing has yet been done on this property yet, but the surface showings are said to be very similar to the Dolly Varden and are very extensive.

**Kitsumkalum Lake**  
What appears to be the big, sensational strike of the Kitsumkalum Lake mining district was made recently when a seam, said to be thirty feet in width, was struck while cross tunneling on Maroon Mountain, says the Terrace News.

**LETTERS TO THE EDITOR**  
Letters addressed to the Editor and intended for publication should be clearly and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer desires it. The publication or rejection of articles is a matter entirely in the discretion of the Editor, and is not to be regarded as an endorsement of the views expressed in the paper for which submitted to the Editor.

**AN APPRECIATION.**  
To the Editor.—From certain letters and articles which have recently appeared in the press referring to "The Lonely Veterans," it is evident that an unfortunate misunderstanding has occurred in some quarters. This branch of the Invalided Tubercular Soldiers' Welfare League, which represents the whole of the patients here, wish to express the cordial appreciation of the patients for the valuable and welcome assistance received from the Red Cross and kindred societies, and to put on record their gratitude for what has been done on their behalf.

J. ARMSTRONG, Secretary.  
Balfour Branch, Invalided Tubercular Soldiers' Welfare League.

**TOO LONG HOLIDAY**  
To the Editor.—In reading your account of the gangs of bad boys, the suggestion comes to me that many partly be the cause. Idle children are always mischievous, and our children this Summer have had two and a half months' holiday. This may be all right for people who can afford to pack them off to the beaches and enjoy a lazy Summer, but to the majority of working people it is a hardship. Some mothers do not care how much their children roam the streets, but others try hard to keep them at home and busy, which is a difficult job when their highest of four or five children are in the family besides others smaller. The majority of school children enjoy their school hours, which are not long, and respect their teachers. Therefore, I say why not keep them in for the last week of June and let them go back at the beginning of September, for the year is short enough to allow for the year's work, and every week helps, and there are so many odd holidays during a year.  
Perhaps my suggestion may be worth considering, as I believe the children themselves would be just as happy with only eight weeks' holiday.

**A CORRECTION AND "CHARLIE'S AUNT"**  
To the Editor.—Referring to the account of the Kiwanis Club luncheon, as reported in your last night's issue, I find it necessary, in order to prevent all misconception, to bring to your notice a misstatement contained therein.  
Your article stated that the forthcoming production of "Charlie's Aunt" by the Victoria Dramatic and Operatic Society was to be in aid of the Jubilee Hospital Fund, and that is the point which needs correction. Mr. Stewart Clark, a member of the Committee of the Victoria Dramatic and Operatic Society, was present at the Kiwanis Club luncheon and enlisted the sympathies of the club towards assisting in the sale of tickets by the society for the production of "Charlie's Aunt" at the Pantages Theatre on September 26th and 27th.

It is the intention of the Dramatic Society to produce plays at frequent intervals and to do so in a most efficient manner for charitable purposes they must be in possession of funds sufficient to finance the productions and to purchase scenery, costumes, properties, etc. It is for this reason "Charlie's Aunt" is to be produced solely in aid of the Dramatic Society's funds and this was emphasized by Mr. Stewart Clark at the luncheon and the Kiwanis Club, who have undertaken to assist in the sale of tickets.  
In order that the public may be under no delusion regarding this matter I should esteem it a favor if you would make this correction at an early date.  
DERMOT H. BARRY,  
Secretary, V. D. O. S.

**THAT DOCTOR WAS WRONG.**  
To the Editor.—In your issue of September 1, on page 15, is an article headed "London Surgeon Says Tuberculosis Cures Are All Failures," and says further that, if he had to choose between Colorado health resorts and a resort in the London slums, he would choose the latter. No doubt this doctor's remarks will depress many people who have this disease or think they have, as when he says is not cheering if true, which fortunately it is not. This letter is not for the purpose of disputing or taking up your space, but is intended to offset the Doctor's statement. I was a cattle ranchman many years in the mountains of Colorado and have seen many cures of this dread disease, but no cures by doctors and their medicine, for most of those who died of it were under medical care, while those who completely recovered worked on sheep and cattle ranches, and were in the sunshine all day and slept in a tent or outside at night, and drank cream or milk, and raw eggs with a big dose of whisky in the milk or cream twice a day. I knew one sick man to take a pint of cod liver oil and a pint of whisky daily. Frequently relatives would bring a sufferer on the train as far as Omaha, Nebraska, and then buy a team and covered wagon, and start overland for the mountains, camping out the near 500 miles to Denver, and by the time the latter city was reached the patient had gained many pounds weight; whereas if he had traveled on a fast train he would have only been fourteen hours on the trip. Instead of this, the Valley, and the sore lungs becoming accustomed to the rising altitude. The London doctor says pine trees do no good, but I guess they do no harm, for a bed of small pine branches is nice to sleep on. Of the air of Colorado and New Mexico the poet says,

"We drink the air like drinking wine." I have thought what a God's blessing whisky was, when seeing a poor fellow making his fight for life mixing cream and eggs and whisky, and enjoying it, and gaining flesh every day and the only doctor he had was God's sunshine, and simple living and the deadly microbes was losing its power. Wealth, ease and luxury are friends of consumption, and the hotels of Colorado Springs, and Manitou, were filled with that class, who were under the doctor's care, preferring luxurious living and working for board on a sheep ranch. They are in the various graveyards around there; while from the simple life men gained health. This condition is good for all the high altitudes of the Rocky mountain region, be it Canada or in the U. S. or Mexico, although I must confess I have known men cured go to lower altitudes and the old trouble threatened to return. A doctor here recently wrote that whisky was not a narcotic nor a stimulant, but with us it had its use, for bitten by a rattlesnake a few drinks will save life. My ranch was 110 miles from the railroad, and only one stopping place between, and the second day both horse and rider were tired and choked with alkali dust, but when the railroad was reached a drink of whisky made one feel like the Moslem whose religion forbids the eating of whisky but when it was offered to him he drank it to the last drop and said piously, "God is good."  
JAMES GARDNER.

**PROHIBITION.**  
To the Editor.—In view of the fact that we are again to be called upon to express our opinion regarding the traffic in alcohol, it seems appropriate that an effort be made to place before your readers the facts regarding the relation of alcohol both to the individual and also to the state, with the hope that in the coming contest the vote may be intelligently given.  
It was said long ago, "Ye shall know the truth and the truth shall make you free." There can be neither freedom nor progress aside from this principle, and it will be the purpose of the writer in this series of articles to abuse none neither to exaggerate nor misrepresent. There may be strong statements made, and certain matters may be exhibited in a somewhat lurid light, but ever within the bounds of reason and common sense. The writer does not promise exclusively original material, but will endeavor to give the best from the best, and be true to truth as he sees it.

Fellow citizens, I shall presume that you are loyal, that however we may differ in our opinions with regard to minor matters of management and detail, you are a unit with me in your desire to develop a healthy, sturdy, intelligent people that will reflect credit upon the privileges and potentialities that are to-day latent in that term "Canadian." And that you will be also prepared to work, and if need be to make sacrifices towards that great end.  
The possibilities of Canada's future are beyond computation; they stagger the imagination and mock any attempt at description. Boundless, incalculable, unlimited, are but empty, meaningless terms in presence of the reality of our resources, the greatest inheritance God has ever given to any people. Potentially ours, shall they be ours actually? Shall we measure up to our "privileges"? If so, it must be a "right about face" for some of us, and a cleaning up process for others, lest we be numbered with the nations that once were and to-day attempt to eliminate, those causes which make for race deterioration and national decay.

Nations have their days of reckoning as well as individuals, and nations have also extended to them days of repentance. "A nation can not be built upon blood," nor progress be had upon measures that militate against vitality and efficiency.  
Citizens, let us take no backward step. We have a prohibition law given to us, and no willful sacrifice, if it is not perfect, it can be improved. If it has not been enforced, it is up to us to elect officials who will be true to their oath of office. "That our whisky traffic might well be our motto during this campaign. To abandon prohibition and adopt Government control would be almost as retrograde a step as to go back to the open market.  
Alberta and Saskatchewan now have prohibition laws similar to our present Act. In those provinces there is no thought of abandoning the present laws and adopting Gov-

**TENDER GUMS A WARNING**  
Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments.  
Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer.  
Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.  
If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.  
35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

ernment ownership and sale. The placiblets to be taken there are to ask the electors if they favor the shutting out of the importation of liquors. Saskatchewan having, after a fair trial, kicked out Government ownership by over seventy thousand of a majority. These placiblets if carried will make those provinces "bone dry."  
And here let me repeat what so often has been said, and yet understood by so few—that no Provincial Government has power to exclude the importation of liquor, but we can petition the Dominion authorities to grant us a plebiscite upon this question, and in the event of a majority favoring the stopping of importation, the privilege then ceases, and prohibition then becomes complete so far as legal enactment can make it.  
Quebec is now the only Province where liquor is openly sold as a beverage under license, it is also the only Province in the Dominion where the women do not have the franchise. The women of B.C. should bear this fact in mind and help us to keep this Province in the front rank along with the other English speaking Provinces.  
To vote for Government control is to give the Government a blank cheque signed by the electors, for no complete details as to how liquor is to be sold, save in sealed packages, has been submitted to us. Retail liquor stores may be opened at any corner or at any cross road. Nor is anything said as to the quantity that can be sold to any one individual. In fact Government control is the finger board pointing back to drunkenness, disease, crime and human degeneration.  
My next letter will deal with the errors and misconceptions of the Vanderbilt report.

AN ELECTION POSSIBLE?

It was not to be supposed that this morning's conference between the executive of the Miners' Federation of Great Britain and the President of the Board of Trade would remove the danger of a miners' strike altogether. It is seldom that the delegates of British Labor and representatives of the Ministry are able to compose their differences at an initial meeting.

One of the drawbacks to negotiation of the dispute is the miners' demand that the coal mining industry shall be nationalized. It might be possible to discover a solution to a request for more pay and the reduction in the price of coal; but the principle involved in nationalization is one which no Government may accept without a specific mandate from the electorate.

The moderate element whose understanding of democratic government has not become "sovietized" will do its utmost to curb the misguided enthusiasm of the younger members. On the other hand the Miners' Federation has no guarantee of "direct action" by the other partners of the triple alliance without which only those coal mining areas whose vote was an overwhelming one in favor of a strike would down tools.

There are a number of factors, moreover, which may be expected to guide the Government in its attitude towards the miners' demand in the event of too much pressure being brought by Labor as a whole. Nobody is better able to analyze public opinion than the Prime Minister himself, and if he chooses to place the whole issue involved in the hands of the electorate the Miners' Federation and kindred organizations would hesitate before attempting to take the country by the throat.

While to-day's conference appears to have led to a blind alley, therefore, it is more than likely that the Prime Minister will hold out every inducement to the miners to agree to arbitrate. With an election as the only alternative the miners—finally influenced by those leaders of Labor who are waiting for the day when a "ballot box revolution" shall place in their hands the reins of Government—undoubtedly would capitulate. Failure to do so inevitably would result in an avalanche of antagonistic public opinion upon which Mr. Lloyd George would return to Westminster with renewed and increased authority.

SEND THE ENGINEER.

Surely the Canadian Pacific Railway Company is just as desirous of clearing up the outstanding difficulties in connection with the construction of the Johnson Street Bridge as is the City Council. On that account there should be no hesitation on its part in agreeing to the suggestion made by the City Engineer that the company's own bridge expert be sent to Victoria with all the necessary authority to dispose of the various details which are hindering a commencement of the work.

tion has now been reduced to one of detail and should be disposed of without delay.

REMARKABLE FIGURES.

It was predicted that the temporary highwater mark of Great Britain's economic recovery had been reached in the month of July when the Board of Trade's statement revealed a remarkably healthy revival of British export trade. Students of industrial conditions expected a slump during the months of August and September at least and the British public was prepared for some increase to the adverse balance. A cabled summary of the Board of Trade's statement for August, however, does not fulfill any such doleful prediction. It shows that imports increased by £4,505,000; but it also records the fact that exports increased by no less than £40,130,000, while re-exports are credited with an advance over the month previous of £1,942,000, or a total of increased exports over July of £42,072,000, and a total decrease in the excess of imports over exports of £37,557,000. These figures demonstrate once more than if Great Britain is successful in negotiating the difficult period immediately ahead of her by making peace with the miners, there is no reason why September should not easily surpass the August statement of trade turnover.

A NEW OFFICIAL.

In Mr. W. G. Cameron the city of Victoria possesses a valuable public servant. His lengthy term as an Alderman has equipped him to speak and act with authority in all matters of importance to the citizens at large and to the ratepayers in particular. That he is to relinquish his seat on the aldermanic board would be a matter of more serious concern were it not for the fact that the duties he is about to assume will retain him in the city's service and permit his former colleagues to draw upon his advice and opinion whenever it may be necessary. In his new capacity of land valuator Mr. Cameron will be vested with a good deal of power and authority and the nature of his task will demand the exercise of that ability and knowledge of civic problems which he is known to possess in such full measure. Of Mr. Cameron's personal popularity and probity little need be said here; his record of public service is a more fitting testimonial.

THE BRUSSELS AUCTIONED.

In spite of the wave of public sentiment which arose against the Government's intention The Brussels, the late Captain Fryatt's ship, has passed to a private purchaser under the auctioneer's hammer. It was expected after its salvage by the Belgian authorities and its return to Great Britain that the Government would preserve her hull as a memorial to her master. It has decided otherwise; however, and the most appropriate tangible reminder of a gallant mariner's fate has been sacrificed in the general satisfaction of material considerations.

NOTE AND COMMENT

In its reply to the last note from the British Government the Soviet authorities reiterate that Russia's fundamental aim is peace, and that the war with Poland is only an episode in the struggle for peace. Moscow's declarations would find a great deal more sympathy in London were they to be borne out by the actual facts; but they are not.

It is an extraordinary thing that a Trades Union Congress is able to convene in Great Britain at a time when one of the essential industries has threatened to shake the industrial fabric to its foundations, and begin its sessions with the discussion of such abstract subjects as the direct taxation of the values and the imposition of a capital levy. Why the astrotocracy of topic when Labor's great big issue of the moment is coal, just coal?

The United States authorities have refused permission to Mile. Cecile Sorel to bring forty cases of champagne from France to New York as part of her "property" for a series of theatrical engagements. It is her custom to bath in the bubbling liquid twice each week in order to retain her

beauty. There are those, we believe, who would run the risk of an indifferent complexion by relying upon less costly ablutions and substituting an internal application of the champagne.

Pittsburgh and San Francisco societies have sent appeals to Mr. Lloyd George urging him to take no notice of suggestions from the United States that Lord Mayor Macswiney be released. The Mayor of New York, however, demands his freedom in order to "prevent the disgrace of our war aims." Thus does American sentiment differ upon an issue which concerns the British and not the United States Government.

OTHER PAPERS' VIEWS

FARMERS' POLITICAL ECONOMY (Exchange.) Farmers everywhere merely ask to be let alone. They have no delusions about political legislation or political economy. Their theory of life is to take what they can get, as it may be. The more they get, the better they work. They do not love work for its own sake. If their products yield high prices, that is the fault of those who clamor for them. If any man objects to the high price of milk, bacon or eggs the answer is ready: let him keep a cow, pig or hen of his own. In that answer lies all economic and political truth. Upon it the political farmer of Ontario will succeed. Against it an alliance between the farmer and laborer will break.

IN THE DAY'S NEWS

Signor Tommaso Tittoni, who has been appointed one of Italy's representatives in the League of Nations Council, is the president of the Italian Senate and one of the best-known of all Italian statesmen and diplomats. He was born at Rome in 1854 and has been an extremely able character since 1901. Early in his career he was elected to the Chamber of Deputies, and with the outbreak of World War he became Minister for Foreign Affairs. He was Ambassador in London from 1905 to 1906, and served in the same capacity in Paris during the early period of the war. One of Signor Tittoni's greatest achievements was the leading part he played in establishing the friendship between Italy and France.

WHY DO THEY SPEAK OF "UNCLE SAM"?

(Copyright, 1920, By The Wheeler Syndicate, Inc.) During the war of 1812, there was located at Troy, N.Y., a government inspector named Samuel Wilson—a fairly old and extremely lovable character known to all of his associates as "Uncle Sam." When the war opened, Elbert Anderson, the government contractor at New York, bought a large amount of beef, pork and pickles for the army, and these, after being inspected by Wilson, were labelled "E.A.—U.S."—meaning "Elbert Anderson—for the United States." The use of the abbreviation "U.S." for United States was then something of a novelty, and the workmen about the place figured that the letters referred to Uncle Sam Wilson, who had inspected and passed upon the shipments. Even after they discovered their mistake, they kept up the name as a joke. Later these men went to war, and while in the army they repeated the story, as evidence of a perfectly legitimate mistake. The anecdote not only went the rounds of the American troops, but made its appearance in print upon several occasions. The result was that it was not long before all thought of the name "Uncle Sam" when they saw the letters "U.S." and the name soon became as famous as the "John Bull" of England.

WHERE IT STARTED

(Copyright, 1920, By The Wheeler Syndicate, Inc.) The origin of golf is in dispute, both the Dutch and the Scotch claiming the invention of the game. However, the Scotch variety seems to be the closest to the present form. For a time golf was forbidden by church authorities; but it grew into great favor, so that in 1457 it was more popular than archery.

UNEMPLOYMENT OF EX-SERVICE MEN

Huge Number Without Work In England; Conference In London

London, Sept. 9.—(Canadian Associated Press)—A conference of the Mayors of London and the heads of other administrative bodies was held in the Mansion House yesterday to consider the employment of ex-service men. It was addressed by Dr. Macnamara on behalf of the Government. He denied that the Government was not employing as many ex-service men as possible. Fourteen thousand ex-officers and 142,000 men are still unemployed. Most of them are unskilled. The newspapers hold divergent views of the situation. The Morning Post asserts that trades union prohibitions are largely responsible for this state of things. "The Trades Congress," says the Post "can talk about Poland, Russia and Ireland, but when it comes to the needs of its own kith and kin, to whom the present prosperity of labor is due, it has not a word to say."

YALE CONSTITUENCY WILL BE CONTESTED

Penticon Convention To Choose Government Standard Bearer

Vernon, H. C., Sept. 9.—The call has been issued for a convention to be held at Penticon on Thursday, September 16, at which a candidate will be placed in the field to contest the constituency of Yale, as the standard-bearer of the Liberal and Conservative National Party. Organization work has now nearly been completed throughout the riding, and associations in support of the Melghen Government have been formed in all the principal centres. The meeting at Penticon promises to be a large and representative gathering. At present the names mentioned as coming before the Convention are those of Mr. A. McKelvie, of Vernon, and J. M. Robinson, of Naramata, though it is possible that others may be entered in the lists for the nomination. As stated, the Liberals are not likely to put a candidate in the field, though there is no authoritative information on the point. The United Farmers have decided to hold a convention with the view of considering the nomination of a candidate and this will also be held at Penticon on Monday, September 27. The labor party has already nominated Tom Richardson, a former labor member for Whitehaven in the British House of Commons, so present indications are that there will be at least three candidates in the field.

ANOTHER VIOLENT EARTHQUAKE OCCURS IN STRICKEN ITALY

(Continued from page 1.) Learning that some of the survivors had not tasted food for thirty-six hours, he ordered that all food in his private car be distributed among them. The King approached a stretcher on which was lying an aged woman, and gently touched her forehead. She recognized the monarch and her eyes filled with tears as she struggled to kiss his hand, sobbing: "My little grandsons; my little grandsons!" Victor Emmanuel learned that the woman's entire family had perished in the earthquake and the two small lads had been buried in their home and killed. When he promised to look after the children she murmured: "May the Madonna bless you. You are indeed good to me. You are a real father to your people."

JUDGMENT OF RAILWAY BOARD ON FREIGHTS

(Continued from page 1.) Operating Costs. The judgment states that the railways during the hearing of the application filed statements showing their financial conditions for some years past. Though all showed substantial increases in business in operating ratios (the number of cents which a railway must expend in order to earn one dollar) showed that in practically all cases with the exception of the Canadian Pacific Railway Co. it was costing as much as or more to operate them than they were receiving. The statement of the Canadian Pacific Railway showed that the operating ratio had risen from 62.47 in 1916 to 87.58 in a report for the month of July filed with the Board, this ratio had advanced to 91.47. The operating ratio on the Grand trunk for the first six months of the present year, says the

Judgment was 99.97, and for the Canadian Northern 117.61 for the 12 months ending May 31, 1920. According to estimates filed with the Board, the result for 1920 on the Canadian Northern if increased wages were granted and no increase was made in traffic rates, would be an operating ratio of 124.23. The Chief Commissioner stated that the Chief Master, counsel for the Canadian Manufacturers' Association, contended at the hearing that the rates should be so adjusted that the Canadian Pacific Railway would be able to pay its dividends without drawing on its reserves. Mr. Symington, counsel for the Province of Manitoba, was not quite so generous. And Mr. Coyne, representing the Amalgamated Boards of Trade of the three Prairie Provinces, advised drawing upon the reserves of the railway if necessary for payment of dividends.

WOMEN AGITATORS HAMPER SHIPPING AT SAN FRANCISCO

San Francisco, Sept. 9.—After halting the coaling of one British vessel the Muncaster Castle yesterday, a number of pickets of the Women's Irish Independence League resorted on the waterfront again to-day with the announcement that they would continue to work toward the hampering of "British industry here, "until the British army of occupation has left Ireland." According to the company, which was coaling the Muncaster Castle, the women succeeded in inducing thirty longshoremen to stop work. The coaling later was completed by the crew.

PIONEER OF SEALING INDUSTRY IS DEAD

Late Frank W. Adams, Partner in Firm of E. B. Marvin & Co.; Here in 1858

A link with the earliest days of the sealing industry in these waters was severed by the death at 1 o'clock this morning of Frank Woodman Adams, who passed away at the family residence, 3055 Dalfour Avenue, aged sixty-three years. Coming with his parents to Victoria in 1858 from his birthplace St. John, New Brunswick, via the Panama Isthmus, the late Mr. Adams lived for many years in the family home at the corner of Douglas and View Streets, on the site now occupied by the Vernon Block. His early education was received at Corrig College, and after leaving school he was employed for several years with W. and J. Wilson. He severed his association with that firm to enter the employ of the late E. B. Marvin in 1875, later entering into partnership with Mr. Marvin and the late Capt. J. G. Cox under the firm name of E. B. Marvin & Co., ships' chandlers. With his partners, Mr. Adams actively engaged for many years in the sealing industry with marked success prior to the formation of the Victoria Sealing Co. He thus gained a very extensive knowledge of the sealing industry, and his expert testimony was of considerable value in placing the claims of the Victoria Sealing Company before the Royal Commission and the Dominion Government on the occasion of the inquiry into the claims of the sealers in 1912. To further prosecute the company's claim, Mr. Adams went to Ottawa and interviewed the cabinet in 1917.

Mr. Adams was actively engaged in the management of the E. B. Marvin Company until a short time ago, when failing health necessitated his spending much of his time at his summer home at Shawinigan Lake. In 1878 Mr. Adams was married to Miss Sadie Gerow, who survives him, and who is well known to a wide circle through her activities in connection with the Y. W. C. A. and various charitable organizations. Mr. Adams' death will be mourned by a host of friends throughout the Province, and particularly to old-time residents by whom he was held in the highest esteem. In addition to his widow, he leaves to mourn his loss four children, Walter E. Adams and Ernest G. Adams, associated with the firm of E. B. Marvin & Co.; Mrs. Robert Eadie, of Montreal, and Miss Isala Adams, of this city. A daughter, Kate, predeceased him thirty years ago.

The funeral will leave the residence on Saturday at 2:30, proceeding to the Centennial Methodist

MOTHERS' PENSION ACT IN ONTARIO NOW IN EFFECT

Toronto, Sept. 9.—The first bulletin in connection with the Ontario Mothers' Pensions Commission contains the information that the members of the Commission do not wish applicants to be considered as applying for charity. Rather, the mother, when in receipt of allowance, is to be regarded as an employee of the Ontario Government, receiving remuneration for services rendered in the proper care of her children. "It is the duty therefore of the Commission," says the Bulletin, "and the local boards to investigate carefully the fitness of the applicant for her position. Certificates of marriage and the birth certificates of the children may be required for examination, and where the mother is a widow, the death certificate of her husband."

**FEAR CONGESTION  
IN CITY SCHOOLS**

School Boundaries to Be Altered Slightly to Avoid Crowding

Congestion may occur in some Victoria public schools this term, the City School Board was warned last night by Municipal Inspector Winsby. Colonel Winsby informed the Board that he probably would have to alter school boundaries considerably in order to relieve crowding at some centres.

A big increase, he stated, had occurred in the attendance of the High School. On the opening day 767 students had reported he expected 825 registered by Monday. This was a record attendance, the Municipal Inspector thought.

The chief trouble, however, said Colonel Winsby, was at the Boys' Central School, where 431 boys reported for work on the opening day. On this account, the Inspector said, he contemplated the restriction of the Boys' Central district so that some fifty boy pupils would go elsewhere.

**Vaccination**

The School Board last night declined to take action toward enforcing the Dominion Government school vaccination order. Trustee Dr. Raynor, pointing out that the order was being fulfilled in Vancouver, thought that sooner or later Victoria would have to act in the matter. It was too late to debate unvaccinated children from the schools, but other methods might be adopted, he thought.

The Board took no definite action on Dr. Raynor's proposal that the school nurses should report to the school doctor and that he should report monthly to the Trustees. Dr. Raynor wished to see the school doctor entirely responsible for his department.

A short passage-at-arms between Trustees Mrs. Spofford and Mrs. Andrews continued the meeting. Mrs. Andrews objected to a report of the Finance Committee because, in the absence of other members, it has been drawn up solely by Trustee Mrs. Spofford, the chairman.

**Want Art Classes.**

The Board heard with interest the views of a delegation, composed of Dr. Hasell, John Kyle, Provincial Director of Technical Education, Miss Cresce, T. S. Gore and J. S. McMillan, which urged that night classes in art be continued at the High School. It pointed out that the new Arts College was occupying the building formerly used for art work, and suggested that rooms suitable for the art classes could be secured in the Union Bank Building. The Board promised to take the matter under consideration.

**MEET TO ACT ON  
CEMETERY SCHEME**

Municipal Representatives to Consider Inter-Municipal Plan

In order to get action on the long-delayed inter-municipal cemetery project, Alderman Andros, Chairman of the Civic Cemetery Committee, will call a meeting of representatives of Victoria, Saanich, Oak Bay and Esquimalt immediately, he announced this morning.

The meeting Alderman Andros stated, would endeavor to draw up a comprehensive scheme for the management of the proposed new inter-municipal cemetery. It is planned to form a board of management, or a directorate for the cemetery of representatives of the city and the three municipalities. Representation on this board would be based upon the population of the municipalities interested.

It is proposed that money necessary for the purchase of cemetery land be raised by the issue of bonds by the four municipalities in proportion to their population. The municipalities will consider, in addition, the advisability of asking the Provincial Government to underwrite these bonds and allow the issuance of these bonds without the necessity of putting money bylaws before the rate payers. It is pointed out that the revenue to be derived from the cemetery is absolutely assured beforehand and it is thought that there will be no difficulty whatever in creating a sinking fund sufficient to pay off the cost of establishment. The cemetery, if proposed, would be maintained on the perpetual upkeep basis.

Fearing that the ratepayers would reject any cemetery scheme involving the expenditure of public money, the City Council recently instructed City Engineer F. M. Preston to report upon the number of grave sites which would be available by improvements to the Ross Bay Cemetery. Mr. Preston told the Council last night that as a result of work costing \$1,500, 282 graves would be made available. The Council referred the matter to the Chairman of the Finance Committee, and the Chairman of the Cemetery Committee for report.

**TO-DAY'S JEWELS**

A strange combination is formed by to-day's talismanic and natal gems. The former is the bloodstone; the latter is the turquoise. Good and evil are cleverly balanced by this combination. Ancient legends read that if the belief that riches will be acquired with the coming of distressing news.

The riches will consist of broad acres, and houses, and abundant crops, so said the ancients. The turquoise is believed to protect these possessions from loss by fire or flood. It is also a talisman against unwise investments, and is believed to have a restraining influence against those possessed by the gambling madness.

Yellow is the color decreed for wear to-day by those who desire to benefit from legacy or other generosity.

The yellow robe is the significant flower of this day. Curiously enough it is not lucky since it indicates jealousy and quarrels.

At Christ Church Cathedral yesterday at 12 o'clock Miss Dorothy Darr Pearce, daughter of Mr. and Mrs. G. Stawell Pearce, of Fort Astoria, was united in marriage by Dean Quanten to John Henry Falsh, of Maryborough, Australia. The bride, who was given away by her father, looked extremely pretty in a tailored suit of powder blue, with large pale grey ribbon hat, embroidered in rose and blue, and a corsage bouquet being sweetheart roses. She was attended by her sister, Mrs. R. W. Nixon, who wore a suit of pique brown Jersey cloth, with a hat to correspond, and carried a bouquet of roses and pink sweet peas. William Clark, of Victoria, was best man. The ceremony was held at the home of Mr. and Mrs. R. W. Nixon, Faithful Street, and Mrs. Falsh left for Vancouver and Seattle, and will return to Victoria after sailing on the Niagara for a prolonged visit to New Zealand and Australia.

Mrs. J. MacDonald Fahey left yesterday morning for Prince Rupert where she will fulfill a concert engagement, the first in a Coast-to-Coast tour. Mrs. Fahey will return to Victoria in about ten days, and shortly after will leave for the East, accompanied by Mr. Fahey and family. The children will be placed in school in Toronto. The length of Mr. and Mrs. Fahey's stay in the East will be indefinite, but it is anticipated that they will be absent from Victoria at least a year.

Local friends of the Rev. W. Lashley Hall, ex-president of the Methodist Conference, will be interested to learn of his marriage to Miss Martha Lindley, of Vancouver. The ceremony took place at Trinity Church, Nelson, yesterday, the Rev. Robert Hughes and Rev. J. P. Westman officiating. Miss Lindley was for some time director of the department of psychology in the Vancouver public schools.

On Saturday at Broadbalm, 1185 Fort Street, Mr. William Nicholas Johnson and Miss Mollie Katherine Herd were united in marriage by the Rev. Dr. Campbell. The bridegroom is a native of Denmark, and the bride of Russia. After spending a few days in Victoria they will make their home at Roche Harbor.

At Broadbalm, the minister's residence, the Rev. Dr. Campbell celebrated the marriage of Mr. Seth Wilson and Miss Edith May Bobbitt, both of this city. Mr. and Mrs. Wilson will make their home in Victoria after their return from a honeymoon trip.

James Shackleton, of Edmonton, Alberta; D. Martin and Miss Martin, of Toronto; Mrs. McNeil and Miss Hillock, of Saskatoon, and Miss R. Foster and Miss T. Daley, of Edmonton, are registered at the Strathcona Hotel.

C. F. Lockwood and L. Peno, San Francisco, and Mr. and Mrs. V. W. Madson, Miss Hattie Younger and Miss Florence McInnis, of Portland, Oregon, are guests at the Strathcona Hotel.

Mrs. Norman Musgrave and her two young daughters from Regina, Sask., who have been visiting Mrs. D. Muroe and Mrs. Wallace Grime, Rithet Street, will make their future home in Victoria, and are now living at 816 Harbinger Avenue.

Mr. and Mrs. Sharp and Miss Sharp, of Ganges, Mrs. G. Payne, of Saturna Island; R. T. Ward, of Bullion, Cariboo, and W. Jackson, of Sooke, are staying at the Strathcona Hotel.

Miss E. F. Roberts, of Seton College, 1140 Fort Street, will be at home from to-day to Monday, between 3 and 5 p. m., to meet parents desirous of entering their daughters for the coming term.

Mrs. E. Sylvester, of 1716 Fort Street, has returned to this city, having spent a very enjoyable holiday at Brentwood.

R. Van Volkenburgh, an old-time resident of Victoria, and now of Dawson, is staying at the Dominion Hotel.

W. D. Grant and Mrs. Walton, of Alberta, and family, of Calgary, are registered at the Dominion Hotel.

Mrs. Johnson and son are down

from Ucluelet, and are staying at the Dominion Hotel.

The wedding was quietly solemnized yesterday morning in St. Paul's Church, Vancouver, of Miss Dorothy Isabel McInnes, daughter of W. W. B. McInnes, late judge of the County Court, and Mrs. McInnes, to Frederick Mills Kelly, only son of Mr. and Mrs. Robert Kelly of Vancouver. Rev. Harold King was the officiating clergyman. The bride wore a becoming suit of tender duvetyne with hat to match of the same material embroidered in silver, and carried a bouquet of bridal roses. Her attendant was Miss Beatrice Lennie, whose suit was of golden brown cloth with moleskin collar and cuffs and hat of silver trimmed with moleskin. Bruce Macdonald acted as best man. Mrs. McInnes, mother of the bride, was gowned in dark purple with a black hat, and Mrs. Kelly wore a suit of navy blue with hat to match. Mr. and Mrs. Kelly left for Vancouver Island, where they will motor during a short honeymoon. On their return they will take up residence in Shaughnessy Heights.

Sister Mary Good Shepherd, who was formerly Sister Superior at St. Ann's Convent, has returned after an absence of some years, in Vancouver, and has taken up her new duties as Sister Superior at St. Joseph's Hospital.

Mrs. W. E. Brougham and her daughter, Miss Daphne Brougham, have returned to Vancouver after spending the past two weeks at Cowichan as the guests of Mrs. Dunsmuir and Mrs. Stevenson.

Mrs. Duncan Ross, who has been residing in the Highland district for many months past, has returned to the city and taken up her residence in her charming new bungalow on Rockland Avenue.

The engagement is announced of Miss Roberta C. MacAdams, M.L.A., of Alberta, and Major Harvey Stinson Price, of Edmonton.

Mrs. Harry Boyle has had as her guest for a few days Miss Mildred Chester, R.N., of Vancouver.

Mr. and Mrs. Lorne A. Campbell, of Rossland, have arrived at the Empress Hotel.

Mr. and Mrs. A. Edward Tulk, of Vancouver, are staying at the Empress Hotel.

Lt.-Col. Jackson and Mrs. Jackson.

**FIGHT BEFORE COURTS  
FOR MOLYBDENUM  
MINES STARTS AGAIN**

Owner Said To Have Over-  
looked Necessity of Keep-  
ing Claims From Lapsing

The big legal fight for the possession of the valuable molybdenum claims on Alice Arm, started up again to-day before Chief Justice Hunter in the Supreme Court. The fight has been going on before the courts since 1914.

H. A. Maclean, K.C., is representing the Molybdenum interests, which have spent a huge sum of money on the property.

S. T. Hankey is representing Robert M. Stewart, the plaintiff against the mines. Fred Elliott is for C. P. Riel and Teetzel, the third party in the fight.

It was explained to the Chief Justice that in 1914 negotiations were opened for the sale by Mr. Stewart of the Conundrum mineral claim on Alice Arm to Messrs. Riel and Teetzel. In 1915, however, assessment work was not done and the claim lapsed. It was restated by Messrs. Riel and Teetzel, who induced Stillwell Bros., of Seattle, to purchase the claim and spend \$100,000 on it.

In 1918 when the Molybdenum Co. applied for its certificate of improvement they were met by the adverse claim of Mr. Stewart, who had the claims in the first place.

Mr. Stewart through his attorney, claimed that Messrs. Riel and Teetzel were only trustees, although he had allowed time to go by and the Molybdenum people to invest \$100,000 in the claims without making any objection.

The last action in court was adjourned to give interested parties a chance to sell the claims, but they have been able to do nothing with them as the price of molybdenum has fallen since the war ended.

**PUT UP FIGHT**

License Inspectors Engage in  
Duel on Detroit River; Run-  
ners Escape

Windsor, Ont., Sept. 8.—At least one rum-runner was wounded in a gun fight which took place on the Detroit River, opposite Sandwich West, when license inspectors endeavored to stop a boat in which three rum-runners were carrying a supply of liquor to the United States side.

The license officers discovered the men just as the boat pulled out into the river. Orders to stop were disregarded by the smugglers and when the officers commenced to carry out their threat to fire, the trio of rum-runners showed no hesitation in replying in like manner at close range, maintaining their position until one of their number was hit. Owing to the possession of a high speed boat the men escaped and efforts are being made by the United States officials to locate them on that shore.

**AWARD MADE TO  
VICTORIA SCHOLAR**

Toronto, Sept. 8.—The Imperial Daughters of the Empire war is bursary in Canadian universities for sons and daughters of deceased and totally disabled soldiers and sailors and men of the air force has been awarded this year by the Provincial Committee of Selection to Frederick James Brand, Victoria, University of British Columbia, son of George Brand, of the C.A.M.C., who died on active service. Awards to others in the different provinces have also been made.

**AEROPLANE FLIGHT.**

Moose Jaw, Sept. 8.—Captain Drummond of the Dominion Air Board completed arrangements here yesterday for the stopover to take oil and gas of the planes in the trans-Canadian flight. Relays of pilots will take charge of the three machines here. The flight from Winnipeg to Calgary will be made by night, the planes arriving here somewhere around midnight.

**SHOWS ADVANTAGES  
OF IRRIGATION ON  
SAANICH PENINSULA**

The tremendous value which irrigation would be to the rich soil of the Saanich Peninsula was explained to the Rotary Club to-day by Rotarian G. E. Watson, Reeve of Saanich.

Reeve Watson pointed out that the possibilities of the strawberry industry in Saanich were very great indeed. It would take 4,000 acres of berries, stated, to supply the great prairie market, which was willing to pay higher prices than the local markets.

"With the use of water, we can take one-half the amount of land and plant one-third the number of plants and get one-half more fruit than we could get in our present method of doing things," he declared.

**BACK FROM TOUR**

Rev. J. G. Inkster Will Conduct  
Services on Sunday Morning

Rev. J. G. Inkster has returned from a visit to Portland, where he supplied the services at the First Presbyterian Church. He also spoke at the Gladstone Park Bible Conference.

Mr. Inkster had the good fortune to hear Dr. N. Murray Butler during the time he was in Portland. He travelled up by car, leaving Tuesday morning, reaching Seattle over the Pacific Highway that night. Detours were necessary where the main thoroughfare is now under repair. These detours he found very trying on the car.

Mr. Inkster returned here yesterday. Dr. W. P. White, of Albany, Oregon, will conduct the Communion preparatory service to-morrow evening, and Mr. Inkster will take the Sunday morning service.

**OBITUARY RECORD**

The funeral took place at Vancouver on Monday of Blanchard Bell, formerly a well known resident of this city, who died after an operation for an affection of the neck. The late Mr. Bell was a barrister and in a son of the late Henry Furdon Bell, the well known civil engineer, who took a prominent part in the construction of the C. P. R. Among the pallbearers were Major Stewart, E. N. McKenna, George Powell, of Victoria, and W. W. E. McInnes. The Rev. Dr. Henderson, First Presbyterian Church, officiated.

The death occurred in Vancouver on September 7 of May Annie, beloved wife of Chas. H. Moss, J. P., of Britannia Beach, in her twenty-seventh year. The late Mrs. Moss was born in Victoria and was a daughter of the late William Steinberger, who lost his life in the Sophia wreck. She is survived by her husband and one little daughter. The funeral will be held to-morrow morning at 10.30 from the Sands Funeral Chapel. Interment will be made at Ross Bay cemetery.

The death took place yesterday of Ralph Charles Martin, the infant son of Mr. and Mrs. Vincent C. Martin, of 1316 Carnarvon Street. The funeral will take place to-morrow afternoon at 2.30 o'clock from the Sands Funeral Chapel. Dean C. S. Quainton will officiate, and interment will be at Ross Bay cemetery.

**NORTHERN CITY CROWDED**

Although Living Costs Are High  
Everybody is Making Money in  
Prince Rupert, Investigator Says

Prince Rupert is the busiest and liveliest town on the Pacific Coast, according to J. A. Shanks of Five Points, who arrived back in Victoria to-day, after a three months' tour of the north country. Housing accommodation is at a premium, he says.

Mr. Shanks went North to look into and report on barbering conditions. At the same time he went over the land holdings of his family in the Bulkley Valley. The Shanks family has held these lands for years. So rapidly are settlers pouring into the North that the value of these lands is doubling in price almost every year. The Shanks holdings are said to be worth more than \$100,000.

In his report on conditions for the barber trade Mr. Shanks will say that Prince Rupert is an Eldorado for barbers, although the cost of living is high and far in excess of what it is in southern British Columbia. Men from the woods, the fisheries, mines, farms and shipyards come in to the city for a night's change, and order everything that a barber can do to them. The barbers make a flat charge of \$5.50 to cover all this. Besides this Prince Rupert night life continues until daylight in the morning.

"Prince Rupert is wide open, and everybody is making money," said Mr. Shanks. "The town is busiest at 2 a. m. There are no restrictions on any mode of life."

THINK GOVERNMENT MAY GRANT REQUEST BY LUMBERMEN

Nineteen Firms Are Ready to Use Assembly Plant at Ogden Point

That D. B. Hanna, president of the Canadian National Railways, and C. A. Hayes, vice-president, had been thoroughly impressed with the real importance of the lumber export possibilities on this coast, and that they would be likely to take action along the lines suggested by them at several meetings, here, was the firm opinion expressed by President J. L. Beckwith to the members of the council of the Board of Trade in session to-day.

When the chairman of the railway had been on the coast, stated Mr. Beckwith, he had met the Board of Trade and been introduced to the facts of the lumber export situation. On that occasion Mr. Hanna had promised that he would send a delegation to look fully into the matter, continued the speaker, which had been done with the presence here of Mr. Hayes, Mr. Manders and other officials of the Canadian National Railways.

The understanding. "It was pretty definitely understood," concluded Mr. Beckwith in summing up the hopes of the lumber export project at Ogden Point docks, "that accommodation would be provided on one of the existing tracks running on either side of the shed to take care of the lumber cars. These cars would be conveyed by ferry from prepared slips at Esquimalt and at the Indian reserve and hauled by crane to the Government dock, he continued.

It was thought at first by Mr. Hayes that the lumber companies themselves should take charge of the lumber assembly at the docks, but when the volume of business that would immediately offer itself was explained more fully, he was of the opinion that it would be wise of the Canadian National railways to take charge of the docking facilities.

General Freight. The vice-president further was acquainted with the fact that general freight would follow in no small measure ensuing on the provision of facilities for its handling at the Government docks, and that for a very small additional expenditure the millions of dollars expended in building the Ogden Point Docks would not be wasted, but turned to full and profitable use."

BOILER EXPLOSION KILLS THREE MEN

Ore Carrier Has Accident to Boiler Tube, With Loss of Life

Cleveland, Ohio, Sept. 8.—Two tugs brought the disabled ore steamer Empire City into Cleveland early to-day with the port side of the boilerhouse blown off, the result of a boiler tube explosion last night, which caused the death of three men.

Anthony Cobb, of New York, and P. J. Orr, of Chicago, were killed instantly. Harry Cooper, of Cleveland, died in a hospital from wounds. The men were working near the boiler tube.

The Empire City is a sister ship of the Superior City, recently lost with 29 lives 20 miles west of Sault Ste. Marie.

Three Liners Sail from East for U. K. Montreal, Sept. 9.—Three liners are sailing from the port of Montreal this week-end, the Grampanin of the C. P. O. S., the Minnedosa of the same line, and the Cassandra of the Anchor-Donaldson Line.

INCREASED RATES IN TRANSPORTATION CAUSING CONCERN

Opinion in Board of Trade Council, and in City Offices

The announced increase in freight and passenger rates over the railway systems of Canada is causing widespread discussion in transportation circles to-day. At a meeting of the Council of the Board of Trade the increase in freight rates was classed by the chair as "unwarranted and excessive."

Mr. Beckwith, Chairman of the Council, stated in the matter of freight rates "I think the increase is uncalled for, and it is the consumer that will have to pay the piper in the long run. The loss from the war period has been felt more keenly by the individual citizen than by corporations, and I think it would be fitting for the council at least to go on record as protesting against the unwarranted advance in freight rates. I think the idea that the C. P. R. must be taken care of by the country in order that the Canadian National Railway may follow in its wake is unfair to the people."

Opinion in City. Both of the railway offices in the city had received an official word of the raise in freight and passenger rates this morning, beyond seeing what had appeared in the press.

COUNCIL OUTRAGED BY ACTS OF HARBOR MARINE GROUP

Board of Trade to Send an Apology to the Hon. C. C. Ballantyne

"This Council goes on record as being outraged at the way in which the Harbor Marine delegation took advantage of the privilege accorded to them on the occasion of the meeting on August 21, of the Council of the Board of Trade with the Hon. C. C. Ballantyne.

The above resolution was further strengthened by another proposed by Mr. Cameron and seconded by E. Tomlin to the effect that the Council of the Board of Trade regretted the untoward meeting which was prolonged by allowing outsiders to come in and express views that were not held by the members of the Council—as the Council did not know the nature of the charges that were to be made.

The discussion of the action of the Harbor Marine delegation arose out of a resolution proposed by G. J. Warren after reading the "Rivet" on the visit of the Minister of Marine. Mr. Warren stated that at the meeting of the Board of Trade those present should not be allowed to express private grievances and to pose a resolution in the name of the Board of Trade.

BRIEF LOCALS
Firemen's Dances.—There will be a dance at headquarters, under the auspices of the city firemen at headquarters, Cormorant Street, this afternoon.
Find Veteran's Badge.—The police department has custody of a returned soldier's button which was last night found on the street. It bears the number 17934.

Three Inebriates Pay.—James Campbell, A. Cartwright and F. Connolly paid the prescribed \$5 before leaving the police court this morning.
Cree Entertainer Coming.—Frances Nickawa, the well-known Cree Indian entertainer, will give a recital at the Centennial Methodist Church on Friday evening at 8 o'clock. Local artists will assist Miss Nickawa.

Bank Clearings.—Bank clearings for the week ending to-day were \$2,902,815 compared with \$2,717,732 in the corresponding week of 1919. However, the first figure is for five days, as against six days in 1919.
Warrant Issued.—In the city police court this morning Magistrate Jay issued a warrant for the arrest of James Hillson, charged with having liquor in other than a dwelling-house who is on remand from last Monday, and failed to appear in court when his name was called.

To Preach on Sunday.—Dr. Frothingham, of Boston, the well-known Unitarian pastor who usually spends the summer vacation with Mrs. Frothingham in Victoria, has accepted an invitation to conduct the service at the First Unitarian Church on Sunday morning at 11 o'clock.
Boys Scouts Committee.—A meeting of the ladies' committee of the Boy Scouts will be held in the L.O.D. headquarters to-morrow afternoon at 4.45, at which all representatives of L.O.D.E. chapters and other organizations are asked to attend as important business will be discussed.

Arts and Industrial Institute.—To-morrow the first annual meeting of members of the Provincial Arts and Industrial Institute of B.C. will be held in the Exhibition Room of the Provincial Library at 3 p.m. Owing to alterations in progress in the lower hall of the Library, entrance to the Exhibition Room is by the main door in the front of the Parliament Buildings.
No Cash Shortage.—It is stated at the City Treasurer's Department this morning that shortages did not occur as stated at the City Council meeting, Tuesday evening. Mayor Porter, who stated that shortages occurred, said to-day that he wished to refer in his remarks, not to the Treasurer's Department, but to the Waterworks Department.

Run Down by Motorist.—At ten o'clock last night Miss M. Coverdale, of this city, was knocked down by an automobile at the corner of Yates and Douglas Streets. Miss Coverdale was dazed and cut about the head. The driver of the car, George Campbell, hurried her to the St. Joseph's Hospital, where she was attended by Dr. Moore, and detained for the night. She was able to return home this morning.
Lace Club Is Formed.—A Lace Club has been formed in Victoria with the object of reviving and keeping alive interest in the manufacture of pillow lace, a meeting for the purpose of organizing being held last evening at the home of Mrs. Jennie Harris. The newly-formed society will meet once monthly to work, and anyone who is anxious to join is asked to apply to Mrs. Dennis Harris, phone 4188R, for further information. All the members who joined last evening are lace makers, and it is expected, accordingly, that some very beautiful work should be done during the coming months.

Invited into Peace River.—A letter from Secretary Payne, of the Vancouver Board of Trade to-day, invited the members of the Victoria Board to join them in an excursion for business reasons into the Peace River country. The excursion is to start on September 22, and to last for two weeks covering the entire Peace River country. President J. L. Beck with stated that some of the Victoria members of the council should make an effort to attend, as there was a vast possibility of trade with that magnificent area.

Rate Decision To Be Appealed
Winnipeg, Sept. 9.—(Canadian Press)—Winnipeg's protest against the increased freight rates will take the form of an appeal to be carried by a delegation from the Board of Trade direct to the Federal Government. Details of the appeal are being discussed this afternoon at a meeting of the Board's directors.
D. A. Clark, chairman of the traffic bureau of the Board of Trade, recommended that objection to the award of the Railway Commission immediately be made. The appeal, it is said, will ask:
That the award be suspended; that an appointment be made to have the appeal heard at an early date by the Dominion Cabinet; that a committee of the Board of Trade be appointed to conduct the appeal.
It is taken for granted that the traffic bureau's recommendations will be accepted.

MOVIE CENSORS.
Winnipeg, Sept. 9.—A conference of western motion picture censors opened here to-day. Among the delegates attending are: Mrs. I. G. Purbeck, assistant censor for Alberta; Mrs. F. Patterson, Vancouver, and Chairman Robson, of the Saskatchewan board. As this afternoon's session was held in private there was no statement given out.

FIUME DECLARED INDEPENDENT STATE
Fiume, Sept. 9.—(Associated Press)—Gabriele d'Annunzio to-day proclaimed Fiume an independent state.
D'Annunzio declared he had received private news from Paris which forced him to declare Fiume to be independent to-day and that he could not wait until September 12 as he had intended.

SAYS CANADIANS VERY WASTEFUL
Lady Burnham Expresses Her Astonishment at Toronto Exhibition
Toronto, Sept. 9.—Lady Burnham, who with several of the ladies in the Imperial Press Party visited the Canadian National Exhibition here yesterday, expressed astonishment at the wastefulness of the Canadian people.
"You waste everything," she said, "food, lumber, waterpower—everything. You cut down trees, and instead of cutting them near the ground you saw them off several feet from the ground. You allow young fallen timber to lie around and rot."
But the waste of food was what appalled the visitor from overseas most of all.

WITHIN TWO MILES OF DESIRED GOAL
Ramsgate, Eng., Sept. 9.—Henry Sullivan, of Lowell, Mass., who last night started from Dover in an attempt to swim the English Channel to the French coast, was six miles off Cape Grisnez, Southwest of Calais, France, at 7 o'clock this morning. Sullivan abandoned his attempt, however, at 10.15 o'clock this morning. He was then within two miles of the French coast.

HOUSING PROBLEM.
Winnipeg, Sept. 9.—The Manitoba Joint Council of industry will investigate the housing situation in Winnipeg dealing not only with altered profiteering in rents but going into the whole housing problem, according to announcement to-day.

TORONTO'S POPULATION.
Ottawa, Sept. 9.—According to census figures released to-day, Toronto has a population of 273,512, which places the Queen City twelfth in the list of cities on the North American continent.

ENGLISH MONEY WORTH LESS HERE
But Value of Canadian Dollar Rises Again In Exchange In New York
Montreal, Sept. 9.—On the news from London that the conference between the miners and the Government, aimed at averting the strike set for September 25, had failed, bears here attacked the exchange value of the pound sterling and knocked it down as low as \$2.81. It opened at \$2.90 1/2 and shortly afterwards sold up to \$3.31 1/2. Then the attack began.
After the pound had been driven down to \$2.81 there was a quick rally to \$3.02 on shorts covering. It closed weak, however, at \$3.09 1/2 to \$3.90 1/2.

Improvement in Canadian exchange on United States is said to be due to wheat exports from this country.

COAL ADVANCES.
Regina, Sept. 9.—Following a meeting of coal dealers here to-day it was announced that coal would be advanced 20 cents a ton on Monday. Coal in transit, it was explained, would only equalize the amount of over orders. This means that Regina will pay \$13 a ton for standard soft coal and \$25 a ton for Pennsylvania hard.

STILL AT WHITEHORSE.
Whitehorse, Y. T., Sept. 9.—United States army aeroplanes are still here, having been delayed by bad weather. They expect to leave for Telegraph Creek to-day and for Hazelton to-morrow or Saturday.

BANK CLEARINGS.
Vancouver, Sept. 9.—Bank clearings for the week are as follows: Vancouver, \$18,922,935; New Westminster, \$624,554.

### SAYS PRICES HAVE NOT REACHED PEAK

Consulting Economist of Railwaymen Declares Government Alone Can Control

Washington, Sept. 9.—Restoration of wartime control over railroads, coal, food and other necessities alone can prevent high prices from soaring, W. Jett Lauch, consulting economist, declared. He said high prices have not yet reached the peak, and

would mount as winter approached unless the Government took control. "Unless living conditions are ameliorated," he warned, "widespread industrial conflict may result. The greatest menace with which the country is confronted to-day arises from the pressure of living costs on the great mass of wage workers in the basic industries."

"During the hearing of the wage case of the railroad unions last May I told the Railroad Labor Board that a family of five required a minimum annual income of \$2,500 to live in any sort of comfort. At the present scale of prices a family of five needs more than \$2,700 a year. The price of coal should be reduced at least \$1.85 per ton as result of the wage award of the Anthracite Coal Commission, but any talk that coal prices will drop is deception. We may expect exorbitant coal prices next winter."

Even with their \$1,500,000,000 rate increase, the railroads cannot restore efficient operation. They are too far gone for rehabilitation under private ownership. "So long as profiteering, exists labor cannot be induced to increase its output, and without increased production there can be no return to normal price conditions."

Condemn Practice of Placing Blocks of Fire Insurance in Outside Agencies

About forty members of the Victoria and District Fire Agents Association gathered yesterday at the Dominion Hotel for luncheon, and to hear an address by James Forman on "the evils of overhead fire insurance writing."

President D. W. Campbell occupied the chair, and songs were rendered by L. U. Conger, Jr., and Lieut. R. R. Webb. In approaching his subject Mr. Forman stated that overhead fire insurance writing is prevalent in Victoria to-day to an alarming extent, and that, while the Made in Victoria Week is before the public, it is a good time to call attention to the practice of placing insurance through sources without the community, there being today large blocks of Vancouver Island insurance so placed.

Mr. Forman claimed that the Fire Insurance agents of Victoria are just as important a body as any other in the city, and should take steps to eliminate a practice which is greatly to their disadvantage without being any benefit to the community as a whole.

**Banks Follow Practice.** He showed that overhead insurance comes under three heads, the first and most objectionable in his opinion being that written outside the Province and controlled by banks or large manufacturing interests who at their headquarters in the East, write policies on property in the Province, and then send the papers to British Columbia to be signed by local agents and so comply with the Provincial laws.

In the second class Mr. Forman placed policies written on the Mainland on buildings located on Vancouver Island, this type of insurance being generally controlled by firms with their head offices in Vancouver. He maintained that a real spirit of loyalty to Victoria among big business men would assure that such business was only written here.

Mr. Forman placed in the final category of unfair insurance practices policies local firms place away from their home town. He claimed that many of the prominent local firms are sending their insurance business away to other places for insurance, despite the fact that capable men here are able to take care of the business and at the same time provide a better service.

**No Monopoly Exists.** The speaker showed that the impression that the Board companies had engineered a monopoly in insurance affairs was groundless, as a recent Governmental report showed nearly 40 per cent of non-board insurance in existence.

"The Manufacturers Association of Canada is a strong body, it is persistently protectionist with regard to its own affairs, but with regard to insurance matters that body is in complete alignment with the free traders," said Mr. Forman, claiming that several of the prominent supporters of Made in Victoria propaganda are themselves guilty of placing their insurance elsewhere.

The discussions which followed the address were led by Messrs. S. Clegg, Major Shaw, T. O. McKay, R. S. Day and Arthur Colex.

To Support Home Concerns.—The Fire Underwriters Agents Association of Victoria and the Mosiac Tile Company of this city were two of the home concerns that were recommended to the members of the council of the Board of Trade to-day in connection with the Made-in-Victoria Week now in progress. The Fire Underwriters wrote a letter stating that many of the wholesalers overlooked the Victoria institution, Mr. Beaumont Bogg's made a strong plea for the use of home made tiles, stating that prominent builders were in the habit of importing mosaics from the United States.

### ADVISES RESIDENTS TO BUILD OWN HOMES

More Homes For Visitors Second Only To Patronage Home Industries

When in Victoria last week, Herbert Cuthbert, Executive Secretary of the Pacific Northwest Tourist Association, took great interest in the successful results of the Made-in-Victoria Week, and in course of a talk with The Times said: "As the originator of the Made-in-Victoria Fair I am naturally hoping that great success will not be permanently abandoned, but under the circumstances of the exhibition being held at about the time usually allotted to the Fair I think the present scheme to be well advised."

"There is no doubt but that the week should result in a greatly increased patronage of Victoria-made goods, and to that extent stimulate local industry and employment," said Mr. Cuthbert. "Victoria has only one asset able to compete in value with a well-established industrial power, that is the tourist trade, and if Victoria wants to retain that in its growing strength, then the people here must take urgent steps to provide for the visitors to come as they are taking to foster their home industries."

**A Wonderful Asset.** "It is a fact that this Summer Victoria has been visited by over 100,000 tourists, most of whom stayed here for a few days and have been computed to have been worth nearly \$1,500,000 to the city. This sort of trade is an asset only second to healthy home industries, and the Winter tourist traffic from the prairie provinces is even more valuable than the Summer influx," said Mr. Cuthbert.

"Now it must be remembered that the hotels of the city provide an excellent service for the Summer tourist, but the Winter visitor from the frozen prairies generally brings his whole family and stays for months at a time, a great number requiring accommodation in flats or small houses, where domestic arrangements to suit themselves may be made. It is this type of trade which is liable to be damaged unless the people here immediately set in motion the greatest home industry possible, the provision of homes from home for these people."

Mr. Cuthbert said that at the present time the apartment houses, flats and such like accommodations of the city are already filled to the limit, and frequently have a waiting list. He said the tenants in these buildings are usually permanent residents in the city, who he claimed should, both from far-sighted self-interest and civic patriotism, immediately undertake the construction of houses for themselves and so release the apartment houses for the accommodation of the coming influx of visitors.

**Build All Year Round.** "There are two sides to this question of home building to-day," he said. "In the first place the construction of a large number of small homes would give much employment at a time when it is going to be required by the city's workingmen. Victoria is in the enviable position of being able to carry on building operations all the year around, so there is no question of the work being held up by Winter storms."

"Then there is the question of the ability of people actually in occupation of rented quarters, being able to resist the pressure of competition for the quarters they occupy. I mean that a father of a family, newly arrived from the Prairies and intending to spend a holiday here, will pay even what he considers extortionate rents to secure a roof over his folk, and in their need, bid quarters away beyond the reach of permanent residents who will never forget the experi-

ence and the city will suffer accordingly through years of condemnatory reminiscence.

"The result will be a vast amount of discomfort this year, and a sudden end to a trade which bids fair to grow to one of the most remarkable successes of the tourist world if well looked after and catered to," said Mr. Cuthbert. "Patronize home products," he exclaimed, but a corollary to that is "Produce homes for your patrons," and between the two Victoria will have no cause to look with fear on the outlook for the coming years.

### WANT CITY TO PLEDGE ITSELF NOT TO "KNOCK"

Rotarians Lead Way in Campaign Against Useless Criticism

In an earnest effort to raise the mass psychology of the city of Victoria to a more optimistic plane, the Rotary Club at its weekly luncheon to-day pledged itself not to condemn new projects without investigation and to do all in its power to discourage the Victoria habit of "knocking" schemes and individuals. The pledge which the Club endorsed will be sent to all public organizations of the city and will be explained to them in the hope that they, too, will endorse it. The pledge approved by the Club to-day is as follows: "We, the undersigned members of the Rotary Club, do hereby individually and collectively pledge ourselves to make an earnest effort to raise the mass psychology of the city of Victoria to a more optimistic plane and to create a spirit of civic optimism and to discourage unconstructive criticism, and with that object in view we further pledge ourselves as follows:—

"1. That we will not in future condemn any project without doing so in a spirit of investigation and with that object in view we further pledge ourselves as follows:—

"2. That we will do all in our power to discourage and condemn in writing and publication of letters and articles in the public press which condemn or ridicule individuals or committees of individuals who are undertaking the benefit of such project will have on the community as a whole.

"3. That we will do all in our power to discourage and condemn in writing and publication of letters and articles in the public press which condemn or ridicule individuals or committees of individuals who are undertaking the benefit of such project will have on the community as a whole.

"N. B.: Even if a project does not seem to benefit some individual at the time, if it tends to build up the community it should receive his support, and it will eventually help him because a community consists of individual units and if the community as a whole benefits, it follows that the individuals composing it must also benefit."

The Rotarians to-day discussed at considerable length their campaign against "knocking." It was finally decided that the following committee should lay the matter before other organizations for the purpose of creating a great volume of public opinion against thoughtless and destructive criticism: Frank Higgins, K. C., chairman, and the whole idea, Frank Gloima, M. P. P., Rev. F. A. P. Chadwick, Clarence B. Deaville and James Hunter. It is hoped that the club's pledge will be widely signed by every section of the public.

### POINTS TO STEADY INDUSTRIAL GROWTH

H. C. Hall, M.P.P., Says Victoria Is Well on Road to Industrial Prosperity

"Victorians are too close to their advantages to see them with clearness, hence the tendency to lack of enthusiasm regarding her industries, their outlook and prospects," said Henry C. Hall, M. P. P., this morning, when discussing with The Times the Made-in-Victoria campaign to-day. The Industrial Aid Act has had in increasing the industrial activity of the city.

"If it were possible for Victorians to see the growth of the city during the past few years, from some detached point of view, they would note that there has been a continuous and steady progress in every line of the city's business activity," said Mr. Hall. "Taking the one little industrial area being created on the old Songhees Reserve. There have in the past few months, been no less than four new industrial plants established, and there is every indication that there will be many more within a short passage of time."

"This surety of increased industrial activity in that one area is based on the imminent advent of better shipping facilities, shortly to be completed by the Canadian National Railway, which will link up these new plants with the timber, mineral and agricultural resources of the island, to their mutual benefit and expansion."

**Railway Rates Aid.** Mr. Hall looked to the new schedule of railway rates as a means of greatly increasing the industrial activities of Victoria. "Not only will the new rates encourage the extension of the presently existing factories of the city, there can be no doubt but that far-sighted business men in the Eastern Provinces will make arrangements for the establishment of branch factories in the Western Provinces, and no city can offer better attractions than Victoria, once the

new railway services are in operation," he said.

A visit to this factory at Laurel Point will reveal up-to-date machinery which insures the finest possible grinding of the color pigments used in the manufacture of paints and the thorough mixing of the various products.

Each department is supervised by an expert while the men in most instances have practically grown up with the industry. We pride ourselves on having a most efficient and well-contented staff of employees, a large percentage of whom have worked with us during the past 10 to 25 years.

We merely state these facts because they are large factors in the success which has been met by BAPCO PRODUCTS throughout the West.

We guarantee these Victoria-made paints and varnishes to be the equal of any, and superior to many similar products offered for sale in this country.

### ARTISTS REPLY TO MRS. ASQUITH'S "BEAUTY HAS GONE" CHARGE

English Painters and Photographers Rush To Defend Girl of To-day

Mrs. Asquith's statement in her autobiography that "beauty has gone" has stirred up things in England, says a dispatch. Some of the leading English painters and photographers have rushed to the defense of the girl of today. "You had the 'beauties'—but we have beauty," is their cry. Philip de Lasso, painter of famous personages, admits, however, that the women of today are not so typical of English beauty as they were—but he attributes it all to the rage for French fashions.

"I do not think that English women are less beautiful now than they were in the times that Mrs. Asquith refers to," said the painter. "But I do not think they are so typically English as they were. They do not take the same care to dress in such a way that they will preserve that peculiar dignity and distinction which sets them apart from the women of other nations. Distracts From Beauty. "The English woman, for instance, is taller than most Continental women. She has a more graceful and easier carriage, a better and healthier complexion. She bears the marks of more open-air life. "Yet when she adopts the dresses of her French sisters—which become them exceedingly well—she is detracting from her own individual charms. "It is the same with the coiffure. At present a mode of dressing the hair is in vogue which seems to me really a product of the war, when munition girls and others were obliged to treat their hair in that

way. If 'woman's crowning glory is her hair' this coiffure is most unsuitable.

"It is in ways like that that fashion influences the beauty of our women. The women of thirty years ago dressed themselves in such a manner that their unique 'English' style of beauty was seen to the best advantage.

"Nevertheless, I am still of the opinion that Mrs. Asquith is wrong in her statement and I do not believe that England is at all lacking in lovely women to-day."

Another of the celebrated painters who gave his opinion was Augustus John, who said he was not despairing in the least. He added: **Beauty Not Passing.**

"I can't speak for the 'eighties,' but I don't think our English women are losing their beauty. Perhaps they are really getting more beautiful. Anyway, I am keeping up my hopes. "One of the leading photographers for whom many famous beauties have sat, claimed it was because there were so many beautiful women in the public eye to-day in comparison with the days of yore that an ordinary beauty was hardly noticed. "Instead of there being one leading society beauty who puts every one else in the background there

are so many that distinction is impossible. Certainly we do not find that beauty is passing away."

Other society and state photographers concurred with this viewpoint. Therefore, it seems as though Mrs. Asquith has stirred up a little trouble for herself and it is more than likely that every society beauty—as well as the "would-be's"—who meet her for some time will be anxious to know if she is or is not an example of the dictum issued by the wife of the ex-prime minister.

Under the English common law no one has a right to bathe in the sea. This was decided by the courts a hundred years ago, and an attack on that decision at the beginning of this century failed to upset it, the higher court deciding that in the strict legal sense one could fish in the sea but could not bathe.

The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

Elks Will Try to Bring Another Pennant Here

Winners of Local League to Leave To-night to Play Vancouver Champions for British Columbia Title; Two Teams Will Play Double-Header Here Next Week; Elks Expect to Win.

In an effort to bring another championship to Victoria, the Elks, winners of the Victoria Amateur Baseball League, will leave for Vancouver tonight to play the first of a series of games for the British Columbia title with the Arnold & Quigley team, the Mainland pennant winners. The first game will be called on Saturday afternoon. The following week the Vancouver team will come to Victoria to engage in a double-header with the Elks at the Stadium.

Walter Lorimer is fairly confident of taking the series. He hopes to make a strong bid for the game in Vancouver, but if nosed out of it he figures his band of warriors capable of grabbing the double-header to be staged here.

Doc Balcom, the brilliant pitcher, is the hope of the Elks. During the final games of the season here he showed a lot of stuff and topped over the hard-hitters of the opposing teams like a bunch of nine-pins. Balcom would make a good prospect for the pros, but considered the simple task of mending matters more beneficial to his health and finances.

To Have Big Time. The local boys will have a big time over in Vancouver. They are assured of a big crowd of supporters as the Elks branch there has agreed to stack up behind the Capitals and root them to victory.

The local branch of the Elks is planning a big reception for the Mainland champions on their visit here next week-end. It is expected that at least one thousand people will attend the game.

The Team. Manager Lorimer announced this morning that the following team would go to Vancouver: W. S. Balcom, R. H. Plows, Theo. Townley, H. Green, Frank Moore, Art Minnie, M. C. Cottet, E. N. Newman, Bob Whyte, J. Painter, A. C. Irvine, Ed. Bryn-Johnson, O. Carroll, W. Gravelin and J. Cummins.

"We are hoping that the fans who so loyally followed the Victoria professional baseball team in its effort to win the championship will turn out and give us a hand to trim the Mainlanders when they visit here one week from Saturday," said Manager Lorimer this morning. "The amateurs have not had one good crowd out all Summer and have had little encouragement to go after the British Columbia championship, but we hope to have the city with us in this effort."

Two Jacks to Hold SNOOKER TOURNAMENT. The snooker tournament at the Two Jacks billiard rooms will soon be in full swing. The draw has been made as follows for the first round and a ten-day limit from this date has been set for the playing of these opening round matches:

Black (receives 40) plays Henderson (receives 30). Blackmore (rec. 50) plays Door (rec. 30). Dippie (rec. 40) plays Livesey (rec. 40). Fenton (rec. 35) plays H. Y. Smith (rec. 40). Williams (rec. 50) plays G. Smith (rec. 40). Mitchell (rec. 30) plays Coldwell (rec. 30). Gardner (rec. 40) plays Taylor (rec. 35). Vernon (scratch) plays Orchard (rec. 30). A match in the second round of the billiard handicap was played yesterday, Crowe (rec. 100) beating Ralton (over 100) by 41 points. Crowe's high break was 20 and Ralton's 32.

PENNANT RACES HAVE TIGHTENED UP AGAIN

Few Points Separate Three Leading Teams in American and National Leagues

New York, Sept. 9.—The pennant races in the National and American Leagues tightened up another notch as a result of Wednesday's games. In the senior circuit the Cincinnati Reds, who are setting the pace, were idle, while Brooklyn, in second place, defeated Philadelphia, and New York in third place, won two games from Boston. The Superbas' victory put them into a tie with Cincinnati so far as games are concerned, but the Reds have a lead of four per cent. in points. The Giants' double victory over the Braves enabled New York to gain four points on Brooklyn and seven on Cincinnati. In games the Giants are one and one-half behind Cincinnati and Brooklyn.

White Sox Come Up. Cleveland and New York did not play in the American League, while Chicago defeated St. Louis and thereby gained three points on the first and second teams. As a result there are only eleven points between Cleveland in first place and Chicago in third place. The Indians have a half game lead over the Yankees, and the latter have the same advantage over the White Sox. The final inter-sectional series of the season opens in both leagues to-day.

Cincinnati in the Nationals and New York Americans have the hardest work-out for them among the contenders. The real test for the Reds will come next week, when Manager Moran's team will face the Superbas in Brooklyn for three games and then come to New York for four games with the Giants.

Bodie is Hurt. The Yankees also will be obliged to meet their nearest competitors—Cleveland and Chicago on foreign soil. The New York team will start under a decided disadvantage because the Yankees owners have decided not to use Pitcher Carl May's in the Cleveland series.

Duffy Lewis, the regular left-fielder, has not entirely recovered from an injury to his leg. It is believed that Sam Vick, utility outfielder, will be pressed into service to take Bodie's place.

HAD HUNCH PATRICK WAS STARTING RAID

Eastern Hockey Moguls Felt Better; Lester Announced Agreement Stands

Ottawa, Sept. 9.—Lester Patrick, famous hockey star, now of Victoria, B. C., who broke the hearts of Ottawa fans away back in 1905, and won the Stanley Cup for Montreal Wanderers when he scored two goals in the dying moments of a memorable game, at the Gladstone arena rink, has been a visitor in the Capital. Lester came up from Montreal, where he conferred with President Frank Calder and George Kennedy, of the Ottawa Hockey Club, on time.

Mr. Patrick issued an emphatic denial to the report from Toronto that the Coast League had formed an alliance with the promoters of any new league. He declared, on the other hand, that the Coast League would honor its agreement with the N. H. L. which still has two years to run.

Lester states that sports are thriving at the Coast. Lacrosse, baseball and soccer have had great Summers, and he looks for a general boom along the line. Patrick hopes to see the Ottawa Hockey Club win out in the N. H. L. again, and play off at the Coast for the Stanley Cup, now held by the Senators.

Bodie is Injured. Pittsburgh, Sept. 9.—A crowd of more than 20,000 fans witnessed an exhibition game between the New York Yankees and the Pittsburgh Pirates yesterday, the victory going to the visitors. Both teams worked recruit pitchers. Zinn for Pittsburgh, and Ferguson for New York. Bodie, the Yankee centerfielder, in sliding into the home plate, caught his foot on the rubber, fracturing his right ankle. He will be out of the game for the remainder of the season.

Up-Island Footballers To Open Season Saturday

Six Teams Entered This Year and Promise Exceptionally Fine League; Will Play Victoria Champions For Island Honors; Vancouver Soccer Season Starts September 18.

Nanaimo, Sept. 9.—The schedule has been drafted for the Up-Island Football League, the opening games to be played on September 11, Nanaimo City playing Nanaimo United, Granby being at home to South Wellington and Ladysmith playing Cumberland at Ladysmith.

As will be noted by the schedule, there are six teams in the league, each team playing home and home games, for a total of ten games each. The trophy to be played for is the old B. C. Challenge Cup, the handsome piece of silverware purchased by the contributions of Nanaimo citizens upwards of twenty years ago. When the B. C. Challenge Cup was put up for competition it was expressly stated that the final game for the trophy should be played in Nanaimo. Following out the original regulations it has been decided that in case two teams should be tied at the end of the Up-Island League schedule, the final and deciding game shall be played in Nanaimo.

Will Play Victoria. At the close of the Up-Island League season the two leading teams in the league will meet the two leading teams in the Victoria League in a series of games for the Island championship, which carries with it the Vancouver Island Cup, the winners of the championship meeting the Mainland champions later for the McBride Shield, emblematic of the championship of the Province, both of which trophies are at present held by Cumberland.

The Schedule. The schedule of the Up-Island has been drafted as follows, the game being played on the grounds of the first named club: September 11—Nanaimo City vs. Nanaimo United, Granby vs. S. Wellington, Ladysmith vs. Cumberland.

September 15—Cumberland vs. S. Wellington, Nanaimo United vs. Granby, Ladysmith vs. Nanaimo City. September 25—Granby vs. Nanaimo United, S. Wellington vs. Ladysmith. October 2—Cumberland vs. Nanaimo City, Ladysmith vs. S. Wellington, Cumberland vs. Nanaimo United.

October 16—Nanaimo United vs. Nanaimo City, Granby vs. Ladysmith, S. Wellington vs. Cumberland. October 23—Nanaimo City vs. S. Wellington, Ladysmith vs. Nanaimo United, Cumberland vs. Granby.

October 30—Nanaimo United vs. Cumberland, S. Wellington vs. Nanaimo City, Ladysmith vs. Granby. November 6—Nanaimo City vs. Ladysmith, Granby vs. Cumberland, S. Wellington vs. Nanaimo United, S. Wellington vs. S. Wellington. November 13—Nanaimo United vs. S. Wellington, Granby vs. Nanaimo City, Cumberland vs. Ladysmith.

Mainlanders Are Ready. Vancouver, Sept. 9.—Mainland soccer teams will tilt the lid on the 1920-21 series on Saturday, September 18, when opening matches will be played in both the Vancouver and District and Greater Vancouver football leagues. Altogether thirty-four clubs are competing in the two organizations, the V. and D. and with eighteen clubs, and the Vancouver League with sixteen teams.

The draw for the opening series next week follows: First Division. Marpole vs. Imperial Veterans, Royal Bank vs. Collingwood, Queen's Park vs. Kerrisdale. Second Division. Mount Pleasant vs. North Vancouver, Knights of Columbus vs. Central Fairview, Collingwood vs. Queen's Park, Royal Bank vs. Riverview, St. Saviour's vs. Province.

Cricketers and Baseball Players Have Amusing Time at Stadium Yesterday. It is fortunate that the Stadium was not crowded with spectators or the stands would have been rocked off their foundations yesterday afternoon. The two encounters between the Victoria baseball players and the cricketers produced so many excruciating incidents that the fans were victims of laughing tortures.

The setting was entirely unique. The cricketers entered the arena minus their bonnets; their hair oiled and their forms housed in immaculate flannels. The ball players looked as though they had been sliding about in a sack alley. They had their dirty and torn uniforms on, sweaters buttoned around their necks and peaked caps which hid the greater part of their faces. It so happened that the Victoria cricketers—rocked about on the dusty diamond for four innings, and got all mused up, and then the ball players dirtied up the carpet with the crease.

Both games were interesting, and the results were as expected, the ball players having things their own way in their favorite pastime while the cricketers scaped the clement warriors on the crease.

OLD COUNTRY SOCCER NOTES

(By Veritas.) At St. James' Park yesterday, Newcastle defeated their old rivals Everton by two goals to nothing. Newcastle have quite a lot of new blood in the forward line this year, but they are all men of experience in first class football, and with the last season's defence still intact Newcastle should remain amongst the top-notchers. Everton also have some new talent, and should give a good account of themselves before the season is through. In the Second Division Blackpool had the honor of dividing the points with Bristol City at Bristol, Leicester fell down badly before the onslaughts of Bury, who defeated them by four clear goals. Leeds United also met with a heavy defeat at South Shields, the score being 2 to nothing in favor of the latter.

In Scotland observance of the Sabbath is—or was—very strict, and manual labor on that day is looked on with horror. One Sunday the good wife of Jock was horrified to hear knocking in the garden. Going out, she found her husband hammering away at a barrow behind the trees.

"what are you doing, don't ye know it's the Sabbath?"

"Aye," replied Jock, "but I'm behind the trees, and I must knock the nails in."

"Ma gudness, Jock," said she, "With the exception of the floor, every piece of timber used in the construction of a church recently completed at Santo Rosa, Calif., was cut from one tree—a giant redwood, 13 feet in diameter. The tree produced 75,000 feet of timber, besides a large number of shingles."

## It's Made in Canada

When you purchase a boot made in Canada, you keep the entire purchase price at home, where it belongs. When you purchase a boot made outside, only a small part of the money stays here—and that part is the dealer's profit.

The fact that a Leckie Work Boot is Canadian-made is not its only recommendation. The extra wear it gives, due to careful workmanship and high-grade materials, has given this boot a wonderful amount of prestige. No matter what the make, or what it costs, you can't find a better work boot than a "Leckie."

### MANY JUNIORS ENTER FOR TENNIS TITLES

Competition at Willows Starting on Saturday, Draws Large Entry List

Given good weather the British Columbia tennis championships for boys and girls under sixteen years of age scheduled to commence on Saturday morning next at 10 o'clock, promises to be very interesting. A number of entries have already been received, and many others promised, and it is expected that the largest entry will be received since the inception of the tournament a number of years ago when the late Hon. C. E. Pooley presented the handsome trophies, each having to be won three years in succession. So far the only person to win the championship and cup was Miss Marjorie Leeming, Mrs. C. E. Pooley kindly donating another cup to take its place.

Entries for the tournament must be made to J. G. Brown, secretary Victoria Lawn Tennis Club, P. O. Box 1140, Victoria, B. C., at his residence, 1295 Fernwood Road. Entries will be received at the latter place from 6.30 to 8 o'clock, Friday evening.

### ROYAL VICTORIA

Women who are interested in beautiful gowns, in perfect millinery creations, in wonderful pearl necklaces and jewels of every form conceivable should see the "Yellow Typhoon." First National photograph which stars Anita Stewart in Harold MacGrath's greatest adventure story, which picture will be shown at Royal Victoria Theatre again to-day.

Miss Stewart, who plays a dual role in the picture, wears some of the most wonderfully artistic creations ever seen. They were made especially for her by this picture and imported from Paris. As The Yellow Typhoon, the woman who lives for pleasure, and excitement, she has a new gown on almost every time she appears. And every one who is up-to-the-minute and the last word in style and artistry.

It is a thrilling melodrama of twin sisters, one good and one bad, who finally cross each other's path in the secret service of the United States.

Edward Peple's charming play, "The Prince Chap," is declared to have been given an excellent presentation as a film drama, with William De Mille as the producer and Thomas Meighan in the leading part. The photoplay will be the main attraction at the Dominion Theatre this week.

The central figure, played by Mr. Meighan, of "The Miracle Man" and "Male and Female" fame, is a sentimental California bachelor who joins the Bohemian artist colony in Soho, London, to win fame and fortune with his brush. Becoming the guardian of a four-year-old orphan girl, he refuses to abandon the child, even when it means a break with his father. And, after many vicissitudes, when his ward blossoms into glorious womanhood, he marries her and "lives happy ever after."

The Variety Theatre offers as its star attraction for this week, "The Valley of Doubt," a Selznick picture in which Arline Greer and Thurston Hall play the leading roles. It is described as an "outdoor" picture, as most of the action takes place out in the Canadian snows. Marjorie Hillgrade goes with her father, Tommy, a working in their father's lumber camp, hoping that the free outdoor life will make a man of him. There Marion meets Jules Bonnyvet, and they fall in love with each other. This does not please Macy, the manager of the lumber camp, who has designs on Marion, and he does all he can to discredit Jules. The story promises much in the way of intrigue and unusual plot development. Burton George directed "The Valley of Doubt" and the result is said to be a vivid picture of life and conditions in the far North.

William S. Hart's latest picture, "Sand!" now at the Columbia, presents the famous star in a typical western characterization. According to the story, he is a wandering railroad worker who finally gets a job at the little Southwest border station of Condar. A train robbery has taken place there some time previous.

Through his acquaintance with Young, the former agent, and his pretty daughter, Mary, Hart makes an enemy of Barber, the local "bad man," who has enough influence to have him fired from his job. This does not please Macy, and he is able not only to clear up the former robbery, but to reveal Barber and his gang in another attempted hold-up and win Margaret for his own. Mary Thurman is the girl "Smashing Barriers" and the great serial, "Elmo the Fearless," starring Elmo Lincoln of Tarzan fame, are the added attractions at the Columbia this week.

One of the strongest companies of players ever assembled in a picture production, appears in "Fires of Faith," the splendid massive Paramount picture which will be shown at the Romano again to-day. The principals are Catherine Calvert, Eugene O'Brien and Ruby de Remer, three of the best known artists of the screen world. Miss Calvert is seen as Elizabeth Blake, a woman of the slums, who is reclaimed through the efforts of the Salvation Army; and who does superb humanitarian work at the fighting front in France and wins the love of a young American soldier. She is beautiful and has appeared in numerous picture successes, but her role in "Fires of Faith" is said to be the best she ever has ever played.

Eugene O'Brien is a handsome athletic leading man who plays the part of an aviator. He scoffs at the work of the Salvation Army until he learns the real value of that organization in world affairs. Miss de Remer plays opposite to Mr. O'Brien, she appearing as a society girl of wealth who joins the Salvation Army and does her bit for humanity at the fighting front in France.

No better known nor better loved woman ever graced the comic opera stage than Jessie Bartlett Davis, who always was the "Alan-a-Dale" with the noted Bostonians, who played, for so many years, De Koven's famous comic opera "Robin Hood," which will appear at the Royal Victoria Theatre next Monday and Tuesday nights, September 13 and 14. It was this dashing young "outlaw" that sang "O Promise Me" so it thrilled the English speaking world. Betty Baxter, a charming young contralto, sings this role in the coming production, and, according to press comment, has brought new honors to the role.

Tom Burton, known by thousands as the leading comedian of the famous Princess Opera Company, plays the crafty "Sheriff of Nottingham" and William White, the veteran Bostonian whose portly figure and curly snow white hair fit so admirably, does "Friar Tuck." Albert Farr, who enacted the name part

### OLD COMEDY FARCE

#### PRESENTED WITH VIM

"Sis Hopkins" Sees Hilarious Times at the Princess; Crowded House

Adding another comedy farce to their lengthening list of successes in this week present "Sis Hopkins," opening at the Princess Theatre last night to a crowded house. The story of the play is too well-known to need rehearsal, but the evolution of Sis from a country girl into more of a woman of the world was attended with every humorous incident that could be attached to the situation.

Mildred Page herself in the title role is seen to advantage in the difficult and "gawky" role. Her oddities and unexpected philosophy is always new and humorous, and the audience followed the fortunes of the heroine throughout the action of the piece with interest. Some new faces were seen last night, swelling the ordinary number in the cast beyond its accustomed limits. The newcomers conducted themselves with fitting accomplishment and were in keeping with more experienced men on the stage.

Byron Alden as Bart Varnum, a young college graduate on holiday, added a masterly role to his already lengthy record, and was popular for his breezy representation of the youth of the day. Joseph Lawlis made an excellent ride, the stolid but honest lover of the heroine, and endeared himself for his devotion to the object of his affections through

Toltec Legend is Basis of Colorful Ballet; Jazz Sextette Make Musical Hit

Ted, Shawn's pre-Aztec dance drama, "Xochitl," is the central attraction of this week's bill at the Pantages, the barbaric setting and costuming providing something distinctly unusual.

Telling in dance and pantomime a tale of the invention of Mexico's national drink pulque.

Martha Graham as Xochitl is the central figure of the story, which reaches its culmination when a draft of the fiery liquor causes the Toltec king to attempt to win her by force. The dancing is of the dramatic order, and the whole affect is one of savage speed, force and fiery coloring.

Eddie Mack and Dot Williams open the bill with well executed step dancing, Mack being a master of his art, and his partner being dainty both as a dancer and as a child character actress.

"A rapture dining car" is the vehicle used by Howard and Fields, two blackface comedians, to pull off some amusing patter, aided by Oscar Lee as a foil to the converse of the two jested gentlemen.

What can be accomplished with a lemon, other people's money and a ready wit is shown by the success attending Jarrow, who is billed as a humorous trickster and with practically no equipment provided a most amusing turn.

Gus Elmore, as a real sidedown wild man, put his turn across in excellent style, the contrast between the wild man and his partner Esther, a consistently carried out small girl part, being well designed and maintained.

Steed's Syncoated Sextette, purveyors of the jazziest jazz music yet heard or seen here close the bill with the fastest of dancing steps, in which the five men feature the dancing ability of Anna Mae Bell in a reckless sensational finale.

**LOSSES HEAVY  
IN SUGAR DROP**  
Scores Who Bought Heavily  
Caught In Slump, Officials Find

Washington, D. C., Sept. 9.—Rapid decline in sugar prices, and an expected drop to lower figures, to-day diverted attention of Government officials to probable startling disclosures of enormous losses sustained by manufacturers and dealers of the sugar price slump. Caught in the sugar price slump are scores of individuals and concerns who bought up heavily at top prices and now are forced to unload their surplus stock in a declining market.  
Purchasers of surplus stocks "now flooding the market, were in the general class of "speculators" referred to by the Federal Reserve Board in its order to all banks to liquidate "frozen loans" outstanding on commodities held for speculative purposes. At the Treasury Department officials had reports showing that the banks had called in loans amounting to many millions of dollars, involving deals by speculators on necessities of life. No available figures, however, indicated precisely the amounts which thus were tied up in sugar speculation alone. But returns from Federal Reserve Banks reflected a very quick and general response to the board's appeal to the banks to curb "non-essential" borrowings.  
**Soft Drink Firms Hit.**  
Some of the hardest hit among the speculative element in the sugar market, according to the Department of Justice, were the buyers closely affiliated with the large confectionary and soft drink industries. They do not stand alone, as officials were informed that other "interests" close to the sugar refiners are due for heavy losses. Treasury officials were hopeful to-day the losses of sugar speculators will be gradually absorbed without endangering the stability of any of the many financial institutions identified with the transactions.  
The effect of Governor Harding's action in putting the brakes upon non-essential loans, particularly borrowings from banks to aid get-rich-quick adventurers, gambling in the necessities of the people, will be truly reflected in the forthcoming statements of the condition of banks under the supervision of the Comptroller of the Currency.  
Special reports to the Federal Reserve Board also are expected to disclose accurately the extent to which

**NEW MOTOR ENGINE  
SLASHES FUEL COST**

Charles M. Schwab Announces Invention Tested By Bethlehem Plant  
New York, Sept. 9.—A new fuel-saving, internal combustion heavy oil marine engine, adaptable to cargo vessels of any size, has been perfected by the Bethlehem Steel Corporation and the Bethlehem Shipbuilding Corporation, Ltd., according to an announcement made by Charles M. Schwab, Chairman of the corporation.  
The new engine is described as a two-cycle marine Diesel engine, and Mr. Schwab declares it not only represents a far greater advance over the oil-burning steamship than the latter is over the coal-fired ship, but will solve the problem facing owners and operators their ships by greatly reducing the costs.  
The new engine produces the same horse power as a four-cycle engine practically twice its size, and is at the same time adapted to large cargo ships, while saving two-thirds in fuel cost alone, as compared with steam driven, oil-fired vessels.  
The success of the new engine has been demonstrated in two ways. It was installed and operated for ten months as part of the power plant of the Bethlehem Steel Corporation, and it was installed in one of the corporation's new oil-carrying vessels, the Cubore, which yesterday completed its first round trip voyage to Cuba.  
The operation of the engine at the Bethlehem plant has been so successful that a second has been built as part of the power plant for the steel mill.  
Mr. Schwab says that the operation of the new engine on the Cubore not only demonstrated its practicality, but its remarkable economy. The operation at the steel plant shows, also, that the engine is adaptable to industrial uses ashore.

**CROP REPORT SHOWS  
REDUCED WHEAT YIELD**  
Corn Estimates, However, Are Still Farther Increased

Chicago, Sept. 9.—The Government crop report issued here last night shows quite a reduction in the spring wheat yield, and will no doubt be construed as a bullish document. It started wheat prices rising to-day, and kept them strong during the whole session.  
The report on corn on the surface will be figured as being quite bearish, although not likely to be a market factor.  
The indicated yield of oats is somewhat higher than expectations.  
The Government report estimates are: Winter wheat, 53,732,000; spring wheat, 237,262,444. All wheat, 770,775,000; corn, 3,131,000,000; oats, 1,447,000,000.  
Increase, corn 39.2; oats, 35.1; rye, 38.2; rye, yield, 195,000,000; flax, 11,800,000.  
Condition, spring wheat, 64.1; all wheat, condition, 74.1; corn, condition, 86.4; oats, condition, 83.3; bar, condition, 85.5; flax, condition, 63.5.

**CROP YIELDS GOOD**  
Harvesting in Northwest Progressing Well, Bank of Montreal Report Shows

Montreal, Sept. 9.—With the exception of a few scattered sections of the Prairie Provinces where rains have occurred, the harvesting of all crops has progressed under favorable conditions and threshing returns are showing yields well up to and above the average, says the Bank of Montreal's crop report compiled to-day.

London, Sept. 9.—(Canadian Associated Press).—New Zealand bank returns show deposits have more than doubled since 1914. The current balance has increased more than 150 per cent, and fixed deposits fifty per cent.  
The excuses offered by schoolboys are often ingenious, perhaps none so than those of two pupils of a country school for being late. Asked why he did not come when he heard the bell, one boy said:  
"Please, sir, I was dreaming I was going to California, and I thought the school bell was the steamboat I was going on."  
"You did, eh?" said the teacher.  
"And now, sir—turning to the second (and boy), what have you to say for yourself?"  
"Please, sir, I-I was waiting to see Tom off."—Boston Transcript.

**WHEAT MARKET STRONG  
IN CHICAGO TO-DAY**  
(By Burdick Brothers, Ltd.)  
Chicago, Sept. 9.—Grains were active and further gains were recorded in wheat caused by the bullish crop report issued late yesterday. The report showed, however, 120,000,000 bushels more than last year in corn and as a consequence lower prices were witnessed. Sept. corn dropped nearly 2 cents, Dec. 2 1/2 lower, while May lost 1/4 cent. Oats closed steady.

**TO-DAY'S TRADING IN  
WINNIPEG MARKETS**  
Winnipeg, Sept. 9.—The grain markets all opened higher this morning, the strength in wheat being influenced by the American crop report. There was slight reaction, but the market closed strong. The cash market was very strong most of the session, but showed signs of weakness toward the close and the premium broke 1 cent, making 10 cents above October.  
In the coarse grain market the volume of business was not large as the offerings were very light, but the market opened higher and the undertone was strong throughout the session.  
October closed 3 1/2 cents higher, December 3 1/2 cents up, October oats closed 1/2 better, December unchanged and May higher, October barley closed 1/2 cent higher, December 1/2 cent higher, October rye closed 2 cents up.

Robert Bain, Superintendent at Bamfield, to Go to Australian Station; Now On Holiday

Robert Bain, superintendent of the Pacific Cable at Bamfield Cable Station, is being transferred to the station at Sydney, Australia. He will likely be succeeded here by J. Smith, of the Bamfield staff.

Mr. Bain is now on his way to his home in Edinburgh on a holiday that will last until the end of the year. He came to the Bamfield station in 1902. After serving there a term he was superintendent at the Fanning Island and Norfolk Island stations, in Australia and at Halifax.

**EQUITABLE WITHDRAWS**

Life Assurance Company of New York Leaves Canadian Field; Old Policies to Stay.

New York, Sept. 9.—The Equitable Life Assurance Society is withdrawing from the Canadian field. For many years the Equitable Life

Assurance Society, New York, has been following the policy of gradually withdrawing from the writing of new business in territory outside of the continental limits of the United States, and of concentrating its energies upon the intensive development of its agency forces in the latter field. In furtherance of that policy the Equitable from time to time has so withdrawn from all outside fields except Canada, Great Britain and Ireland. It has now decided to discontinue writing new business in those countries.

The net assurance premium income of the Equitable in Canada last year was \$1,269,532, with 15,913 policies in force amounting to \$38,166,048. Present policy holders will not be affected by the change.

There are now eleven American companies doing a life business in Canada. A massive chair made of copper, which natives believe was given by the late Queen Victoria to an Ashanti chieftain and used by him as a throne, has been discovered in the midst of a jungle far from habitation in the Gold Coast Colony of Africa.

**CIVIL SERVANTS  
 SEEK PAY INCREASE**

Vancouver Members Formulate Schedule Calling For Further Raises

Civil servants of the Provincial Government in Vancouver are out for salary increases.

At their meeting Tuesday night they formulated their demands, which will be placed before the Government in Victoria. These demands call for increases of from \$10 to \$25 a month.

The increase schedule runs this way: For householders receiving up to \$125 a month, an additional \$25; for householders receiving up to \$175 a month, an additional \$20; for householders receiving up to \$250 a month, an additional \$15; for non-householders, \$10.

Another recommendation asked that non-householders capable of establishing to a joint commission representative of the Government and the association that they had dependent should be granted the same bonus as householders.

A recommendation from the Kootenay and Boundary branches that an all-around 25 per cent bonus be granted was disapproved as favoring the high-salaried men.

Work of Miss Mary Mason On View All This Week; Worth Seeing

Art-lovers thronged the Island Arts and Crafts Club rooms in Room 202 Union Bank Building yesterday afternoon on the occasion of the opening of the exhibition of the works of that well known artist, Miss Mary Mason, of Victoria, and found much to satisfy their sense of the beautiful. The exhibit was formally opened by the Lieutenant-Governor, who was accompanied by Mrs. Prior, and who referred in congratulatory terms to the fine work of the artist and wished the exhibition the maximum amount of success. Afternoon tea was daintily served under the direction of Miss Agnew.

The exhibit will remain open daily until Saturday and it is anticipated that Victorians as well as visitors to the city will welcome this unique opportunity of viewing the work of this successful artist.

Miss Mason's art is versatile, for while she confesses to a preference for portraiture, she is equally at home with landscape, interiors and still life, while she shows extraordinary skill in depicting fabrics. Perhaps the finest specimen of her work is "Desdemona," showing the Shakespearean heroine standing in graceful attitude against a background formed by handsome blue brocade curtains, whose very texture can almost be felt. This painting earned for Miss Mason a much-coveted diploma in England. In another class but equally charming in their appeal are two moonlight studies, sea and sky showing the delicate blendings of soft blues and greens, while another seascape depicting sunset on the Gulf of Georgia is a veritable poem of soft values.

In "Laodamia," the artist has graphically conveyed the tragedy of the medieval legend. There is a hint of Burpe-Jones in this picture—an impression which is enhanced by the fact that the particular model used by Miss Mason had frequently sat to the greater artist. A corner of the Queen's Room at Hampton Court is a fascinating study in light and shade, the rays of the sun through the embroidered windows throwing into bold relief the wonderful tints of the mural tapestries, the fine old oak panelling and the seated figure. There is a hint of the Dutch school in this charming interior.

Like Whistler, the artist has among her treasures a beautiful study of her mother and has cleverly caught the waning charms of advancing years. It is difficult to believe that such wonderful effects have been achieved through the medium of watercolor, so strong is her work, but by reason of her fidelity to this medium her art bears close inspection. After a session yesterday's exhibit one can only express the hope that an effort will be made to retain for the public some specimens of this artist's work with a view to their inclusion at some not too distant date, in a Provincial art gallery.
