The MEYER-STISSER CO. BALTIMORE, MD.

WE TAKE THIS OPPORTUNITY

of thanking our many customers for their generous patronage in the past, and to assure them that we will continue to do all in our power to merit their confidence in the future. We have been in business Eleven years and have made continuous strides. This was in large measure due to our many customers, who consistently favored us with their patronage. Our great-est asset has been and is "Our Satisfied Customers." Our whole efforts and time are unsparingly devoted to uphold the reputation which we have established, and we shall ever be on the alert to support our motto: "Punctuality, Sterling Quality, Courteous Treatment."

PLEASE READ!

We aim to give our customers the best service possible. If we make an error, tell us about it and we'll make it right to your satisfaction. If there is any information you want in our line of business, write us (if you can't call), and we shall be glad to give it careful attention. Our various departments are in charge of experts, who are able to answer intelligently almost all inquiries pertaining to horticulture or agriculture. Always write inquiries on a sheet separate from your order; it means quicker reply.

The attention of our customers is respectfully called to the following directions, which will, if followed, be an aid to purchasers as well as ourselves.

Please Order Early,

thus enabling us to forward promptly—as a rule the day after the order is received. During the March and April rush we may fall a day or two behind; if any greater delay is likely, we will advise.

The Order Blanks accompanying this catalogue will be con-venient for customers and facilitate our filling orders (extra ones mailed on request).

Remittances

Remittances should be made by Express Money Order, P. O. Money Order, Bank Draft or Registered Letter.

Accounts

Parties having no account with us-who order goods without remittance-must furnish satisfactory reference. Baltimore reference preferred on account of the shorter delay pending investigation.

We Forward as Customer Directs,

by mail, express, freight or steamer. When no shipping instruc-tions are given we send according to our judgment. Shipping and Packing Charge.

We Make No Charge for Shipping and Carting of goods to any railroad station, steamship line or express office. All pack-ing charges at cost.

Order by Telephone.

We have installed a most modern system, enabling our cus-tomers to receive instant attention. Our Phone Number is C. & P. Plaza 6916.

IMPORTANT NOTICE-PLEASE READ

The Meyer-Stisser Company endeavors to send out only the very best quality of Seeds, Bulbs and Plants, but can-not guarantee results or crops. If customers do not accept goods on the above conditions, they can be returned to us within ten days.

Prices are subject to any advances over present prevailing freight rates, customs duties or war tax, and all deliveries are subject to delay, restrictions, embargoes, crop shortages and all conditions beyond our control. All quotations are made and all orders are booked subject to the above conditions.

Merchandise to be credited must be returned within 5 days in good order free of expense to us.

When seeds are ordered by mail, postage must be added to catalogue prices at the regular parcel post rate, according to the zone the purchaser is in. One quart of Peas and Beans, weighing about 2 lbs. each, and Corn about 1½ lbs. Packages and ounces are mailed postpaid.

Squash

All the seeds mentioned in the April table may also be sown in May. Set out early cabbage, early cauliflower and tomato plants started indoors in March and

April.

JUNE

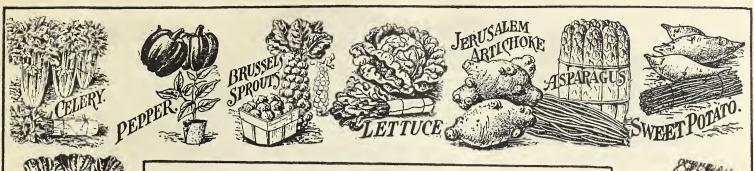

Plant Outdoors Beans, Late Bush

Beans, Late Pole Set out Globe artichokes, Brussels sprouts, late cabbage, cauliflower, celery, eggplants, and peppers which have start-

ed indoors. Plant Swiss chard, sugar corn, lettuce, late peas, ra-dishes, beets and turnips for late crops.

September 1921

All Seeds bought from you were true to name, and I had the best garden in a radius of five miles. Yours truly, B. Van Ness, Mayo, Md.

Vegetable Plants and Roots SPECIAL NOTICE

All of our plants are produced from our M. & S. Sure Growing Seeds, and will give wonderful result. If wanted in larger quantities write for special quotations.

ARTICHOKES (Ready in April)

Green Globe. Pot grown. \$1.75 per doz.; 25 for \$3.00; \$10.00 per 100 (by express only). Jerusalem. Used for the table and stock feeding. 35c. qt.;

peck, \$1.50; \$5.00 per bushel of 60 lbs.

ASPARAGUS ROOTS

(Ready from October 15th to May 15th) The two-year-old roots usually produce two years after planting.

2-Year-Old Roots	Doz.	100	1000
Argenteuil	\$0.50	\$2.00	\$15.00
Barr's	. 0.50	2.00	15.00
Conover's	. 0.50	2.00	15.00
Palmetto	. 0.50	2.00	15,00

BEET PLANTS (Ready April 1st)

Popular varieties. 15c. doz.; 60c. per 100; by mail, add 5c. to doz.; 15c. to 100.

BORECOLE PLANTS (Ready July 1st)

- 20c. doz.; 60c. per 100; by mail, add 5c. to doz.; 15c. to 100. BRUSSELS SPROUTS (Ready in July)
- Matchless Improved (Hot-Bed Grown.) 12 for 25c.; 75c. per 100; per 1000, \$6.00. If wanted by mail, add 10c. per 100 for postage; 5c. per doz.

CABBAGE PLANTS

(Ready in season beginning April 1st)

Early Sorts. From hot beds. 15c. per doz.; 50c. per 100; per 1000, \$4.00.

Late Sorts. Popular varieties 15c. doz.; per 100, 50c.; \$4.00 per 1000. If cabbage plants are wanted by mail, add 10c. per 100 for postage; 5c. doz.

M. & S. RED CABBAGE

25c. doz.; 100, 75c. If wanted by mail, add 10c. per 100; 5c. per doz.

M. & S. FROST-PROOF CABBAGE PLANTS

Will Mature Heads Two to Three Weeks Earlier Than Your Home-Grown Plants and Double Your Process.

To get the advantages of these Frost-Proof Cabbage Plants they must be planted a month or six weeks earlier than you would plant home-grown plants.

MARKET

COPENHAGEN

ENORMOUS BUSH

EARLY MARVELOUS

GREEN CURLED BEAUTY

You will see from the lists below that the varieties offered in these collections will please everybody.

The "collection idea" of Vegetable Seeds is getting more popular each year; so many persons, even gardeners of many years' experience, sometimes do not know the varieties to order. They often use the same sorts year after year, thus missing some of the better and newer strains of vegetables. These collections have also a decided feature of advantage, as they save time and money. The most popular kinds of vegetables are used in these collections and will be found very practical to every household.

It is by far the best Summer Lettuce, I have ever grown. Yours truly, Chas. Koch, Annapolis, Md.

WORLD'S RECORD

ASPARAGUS—Seeds and Roots

(German-Spargel. French-Asperge) (ROOTS READY AFTER MARCH 1st)

One ounce to forty feet of drill. 5 lbs. per acre. Culture—Sow in March or April, in rows one foot apart. When two years old transplant into permanent beds, which should be well and deeply manured, and trenched to the depth

trenched to the depth of two feet. In plant-ing for private use, set out in beds five feet wide, three rows in a bed, the outer being each one foot from the edge, and allow eighteen inches between the rows: between the rows; set the plants from four to six in ches below the surface. If set out in autumn, top-dress with six inches of manure. manure. inches of manure. For market, on a large scale, set out four by one and one-half feet. On the approach of winthe approach of win-ter cover with man-ure or compost; fork the beds early in spring, and apply a dressing of salt. Cut for use the second year after planting in permanent bed. Never cut too closely. The roots need the benefit of some foliage during the year, else they will weaken and die. Slugs are easily destroyed by applying air - slaked applying air - slaked lime or paris-green.

Asparagus Giant Argenteuil

Giant Argenteuil—A new and entirely distinct variety that produces shoots that are white, and remain white as long as fit for use. Pkg., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., \$100. Columbian Mammoth White-Pkg., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 75c.

Conover Colossal-Of large size, tender and of excellent qual-y. Green shoots. Pkg., 5c.; oz., 10c.; ½ 1b., 25c.; 1b., 75c. ity.

PALMETTO

It is of very large size, even and regular in growth and appearance. It is a very early sort, and immensely productive and of the best quality. Green shoots. Pkg., 5c.; oz., 10c.; ¼ 1b., 25c.; 1b., 75c.

FOR PLANTS SEE PAGE 3

ARTICHOKES

ARTICITORES Large Green Globe—This is a very delicious vegetable. Some prefer it cooked like asparagus—that is, takes the flower head before it begins to open and cook much the same as asparagus. Pkt., 10c.; oz., 50c. Plants, See Page 3. Artichoke Roots (Jerusalem)—The tubers roasted or boiled, served with butter, salt and pepper, make a dish some think superior to potatoes. They are most excellent feed for cows. and will cause an increase in quantity and quality of milk. Price, See Page 3

BROCCOLI

French-Buocoli.)

(German-Spargelkohl. One ounce of seed to 200 feet of row.

A plant much resembling the Cauliflower. Broccoli re-quires a longer season to de-velop than Cauliflower. It has more numerous and stiffer leaves and the heads are smaller. Treat same as Cabbage.

Early Large White—Heads medium size, close and com-pact. One of the most certain to head. Pkt., 10c.; oz., 50c.

Early Purple Cape-Rather har-dier sort, with greenish - purple heads, good flavor. Pkt., 10c.; oz., 50c.

BRUSSELS SPROUTS (German-Rosenkohl.

French-Choux de Bruxelle)

French—Choux de Bruxelle) A variety of the Cabbage family, possessing the peculiarity of bear-ing upon its stem or stalk from fifty to one hundred buds resem-bling miniature Cabbage heads. The leaves composing these heads re-sembling Savoy Cabbage in their crumpled texture and also in their color. The heads or buds, one to two inches in diameter. form one of color. The heads or buds, one to two inches in diameter, form one of the most delicious garden vege-tables, only equalled by the Cauli-flower. Treat same as Cabbage.

Improved Dwarf-Produces coma good keeper. Pkt., 5c. and 10c.; oz., 20.; 1/4 lb., 75c.; lb., \$2.00. D' TES

See Page 3 Plants, per Dozen. Improved Dwarf Brussels Sprouts.

BEANS

BUSH BEANS (Green Pod)

(German-Bohnen. French-Haricot Vert)

(German-Bohnen. French-Haricot Vert) Bushel Prices of Beans on Application Culture-The seed should not be planted before the ground becomes light and warm, in favorable seasons, usually about the middle of April to first of May. The soil should be rich and mellow, and the seeds scattered about three inches apart in drills two feet apart, and covered about three inches apart in drills two feet apart, and covered about two inches deep. Suc-cessive sowings made at intervals of about two weeks until August 15th, will give a plentiful supply of Beans all season. One quart of seed will sow 100 feet of drill; two bushels will sow an acre. We furnish 5c. and 10c. packages of all Beans. Burpee's Stringless Green Pod-An ideal variety having round, slightly curved, fleshy and exceedingly tender pods. Matures a few days earlier than the Giant sort. Pt., 30c.; qt., 50c.; pk., \$3.00.

\$3.00.

Hopkins Improved Extra Early Red Valentine—One of the most popular early snap beans with round, fleshy pods about five inches in length; very brittle, tender and of fine quality. Pt., 25c.; qt., 40c.; pk., \$2.50.

M. & S. Legume Inoculation for all kinds of Beans—Means bigger crops, healthier vines, early and more continuous crops. Garden size, 50c.; 75c. per acre bottle; 2 acres, \$1.45; 4 acres, \$2.25; 6 acres, \$3.00. It will pay you to use this when you plant peas and beans. (See index.)

(Beans Continued on Next Page)

5

Use Manure for your garden crops. We can sell you a whole wagon load in a bag of M. & S. Sheep or Cattle Manure, for much less money.

Black Valentine, or May Queen—Has very long handsome round pods, and being immensely productive places this va-riety as one of the most profitable for the market gardener. It is very early. Pt., 30c.; qt., 50c.; pk., \$3.50.

M. & S. Giant Stringless Green Pod Beans

M. & S. Giant Stringless Green Pod Beans M. & S. Glant Stilligless Green Fog Deans Our finest quality, large handsome pods, some of which meas-use fully 6 inches in length. Very productive, very fleshy and entirely stringless. Specially adapted to the home garden. Pt., 30c.; qt., 50c.; pk., \$3.00. Dwarf Horticultural, or Cherry—This is a broad, long, flat, meaty bean, very productive, delicious flavor. It also makes a good dried bean for winter. Pt., 25c.; qt., 40c.; pk., \$2.50. White Navy, or Boston Pea Beans—Yields large quantities of white shell beans, which are used for baking. Pt., 15c.; qt., 30c.; pk., \$1.75.

Red Kidney—Like the above, but the seed when ripe is brick red, very rich quality and fine flavor. Pt., 25c.; qt., 40c.; pk., \$2.25.

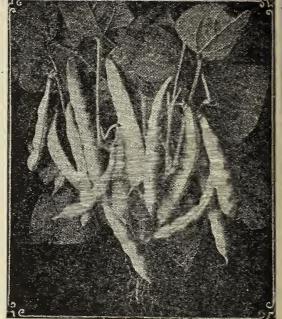

We furnish 5c. and 10c. packages of all Beans.

WAX POD VARIETIES

WAX POD VARIETIES M. & S. SURE CROP STRINGLESS WAX—This is a grand bean of recent introduction. Absolutely stringless and a great rust resister. Will produce an abundance of long yellow flat pod. pt., 25c.; qt., 40c.; pk., \$2.50. Hodson Wax—A fine strong growing bean. Pods 6 inches long, golden waxy color. Nearly straight, thick flat and meaty. Pt., 25c.; qt., 40c.; pk., \$2.25. Currie's Rust-Proof Black Wax—Valuable for general use, being early, hardy, and a heavy yielder. Extra long flat pods of fine color and not apt to rust. Pt., 25c.; qt., 40c.; pk., \$2.50. Dwarf Black Wax—Pencil pod strain. It is so good that it is worthy of special notice. The pods are round. brittle, of handsome golden yellow color, and of buttery flavor when cooked. Pt., 25 c.; qt., 40 c; pk., 2.50. Wardwell's Kidney Wax—In growth of vine and productive-ness this variety exceeds any other wax-podded bean. The long flat pods are of handsome appearance and usually free from rust. Pt., 25c.; qt., 40c.; pk., \$2.50.

Farmogerm Nitrogen-Fixing bacteria means bigger crops, healthing vines early and more continuous crops. Garden size, 50c.; \$1.00 per acre bottle; 3 acres \$2.50; 12 acres, \$9.00. It will pay you to use this when you plant peas and beans. (See Index.) Improved Golden Wax—Small plants of erect growth, bear-ing flat, thick pods about 5 inches in length, and of excellent quality An early and reliable variety, recommended for home use. Pt., 30c.; qt., 50c.; pk., \$3.00. Refugee Wax—Great bearer, pods beautiful white wax color, curved round thick and nearly stringless when young, good blight resister. Pt., 25c.; qt., 40c.; pk., \$2.25. Bound Pod

Round Pod Kidney Wax — This mid-sea-son variety is exceedingly handsome and and nandsome and very desirable, especially for snaps for the home garden. Vines dwarf, spreading and very product-ive. Leaves roughened. roughened. Pods long, slightly curv-ed, light yel-low, wax-like. of the best quality. They are uniformly are uniformly perfect, an ill-shaped one be-ing rarely seen. Seed long, cy-lindrical, me-dium - sized, nearly white, with a little dark marking about the eye. pt., 25c.; qt., 40c.; pk., \$2.25. Davis White Kidney Wax— Pods remarka-

Pods remarka-M. & S. Sure Crop Stringless Wax Beans blv straight. long and handsome, waxy white color; enormously productive; seed white. Pt., 30c.; qt., 50c.; pk., \$3.00.

POLE STRING BEANS (GREEN AND WAX POD)

Culture—Same as Pole Lima. M. & S. Golden Cluster Wax—Deep yellow flat pods, often 8 inches long. Heavy yielder, bearing in large clusters. Pt., 30c.; qt., 60.; pk., \$3.00. Yard Long, or Snake Beans—This is an ornamental as well as useful pole bean. Producing an abundance of dark green foli-age and stringless green pods, often measuring from two to three feet long, which, when cooked, make a delicious dish. Seeds very small. Pkt., 5c. and 10c.; 1, oz., 25c. Horticultural or Pole Cherry—Pods green, dashed with red when beans are matured. Very showy. Pt., 25c.; qt., 40c.; pk., \$2.25.

pk., \$2.25.

pk., \$2.25.
Kentucky Wonder, or Old Homestead—The most popular of the pole varieties, and should be in every garden where beans are planted. It grows luxuriantly and bears for a long period. Pods are very long, very fleshy and deeply creased or saddle-backed, green in color and stringless. Seed light brown. Pt., 25c; gt., 40c; pk., \$2.50.
Lazy Wife's, or White Cherry—Pods six to eight inches long, entirely stringless, of a rich, buttery flavor when cooked as a snap bean; also a good, white shell-bean for winter. One of the very finest flavored. Pt., 30c.; gt., 50c.; pk., \$3.00.
M. & S. Kentucky Wonder Wax—Same as above with excep-tion of beautiful yellow pods. Pt., 30c.; gt., 50c.; pk., \$3.00.

ENGLISH, or BROAD WINDSOR BEANS

Culture—Same as Bush Lima, only plant thinner. A bean similar to Lima Beans, but different flavor and larger. Should be planted early, March and April, as they are very hardy. Pt., 35c.; qt., 60c.; pk., \$4.00. We furnish 5c. and 10c. packages of all Beans.

BUSH LIMA BEANS 1 qt. to 100 feet of drill.

Culture-Plant in rows two feet apart, and about one foot

apart in the rows. M. & S. Enormous Bush Lima Beans—As the name implies, these are truly enormous, bearing in abundance, large pods which are filled with delicious large beans. Pt., 30c.; qt., 50c.; pk., \$3.75.

pk., \$3.75.
Henderson's Dwarf Lima—Beans are small, but their flavor is excellent. Pt., 30c.; qt., 50c.! pk., \$2.75.
Burpee's Bush Lima—Pods abundantly and well filled with handsome beans. Pt., 30c.; qt., 50c.; pk., \$3.50.
Fordhook Bush Lima—Beans large, round, thick, green and of delicious flavor, bearing in clusters of from four to eight, averaging four large beans to the pod. Pt., 30c.; qt., 50c.; qt., 50c.; pk., \$3.75.

the finest crop of beans I ever had. John Fisher, Bengies, Md.

POLE LIMA BEANS

Culture—These require pole eight to ten feet long. The beans should be planted in May if the season is suitable. Set poles four feet apart each way, and plant four to six beans, about one inch deep, around each pole. Thin out to three plants to a pole, if the soil is rich; pinch off the ends of plants when they overrun the top of the poles to effect more perfect growth below. Lima Beans for early use may be grown in frames and transplanted. 1 quart to 100 poles.

KING OF THE GARDEN

Vigorous grower, bearing large pods, five to eight inches ng. Beans large and of rich flavor. Pt., 30c.; qt., 50c.; pk., long. \$3.00.

Dreer's Improved, or Potato Lima—Beans round and thick, delicious flavor, easy to shell, immense cropper. Pt., 30c.; qt., 50c.; pk., \$3.50.

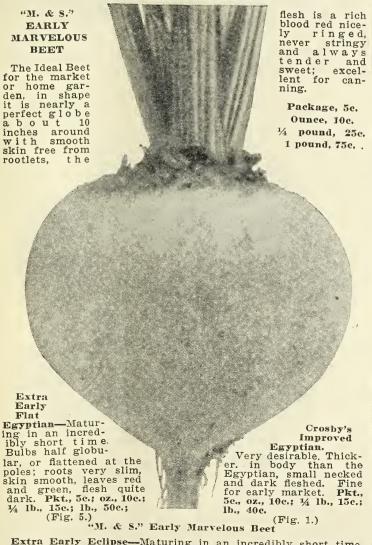

Carpenteria Early Lima—Very fine, immense beans, which re-tain their green color a long while. Pt., 30c.; qt.. 50c.; pk., \$3.50.

TABLE BEETS

(German—Rote Beete. French-Bette)

One ounce of seed sows sixty feet of drill; five pounds will sow an acre in drills.

an acre in drills. Culture—The soil best suited to the culture of the beet is that which is rather light, provided it is thoroughly mixed with manure. If wanted very early, sow in hotbeds and transplant; but for main crop sow in the Spring as soon as the ground be-comes fit to work, in drills 18 inches apart and two inches deep. For winter use sow as late as June. When the plants have at-tained three or four inches in height, thin out so that they stand five to six inches apart. Keep free from weeds. Before freezing weather sets in, the roots may be stored in cellars or pits, same as Potatoes; dry earth thrown over them before the straw and earth covering is put on insures their keeping over winter. Be careful not to bruise them in handling.

Extra Early Eclipse-Maturing in an incredibly short time, round-shape beet. Small top, and of excellent table qualities. Makes an attractive seller in market. Pkt., 5c.; oz., 10c.; ¼ lb.,

Edmand's Blood Turnip—This beet of American origin is the most uniform of all Turnip Beets. The root is always smooth, round and handsome, tops small, of good marketable size. Color dark red, flesh purplish, crisp, tender and sweet. An excellent keeper. Pkt., 5c; oz., 10c.; ¼ lb., 15c.; lb., 40c.; (Fig. 7.)

Detroit Dark Fed-(Fig. 2.) Blood red, early, turnip-shaped variety. Has small upright top; fine round shape. Skin and flesh dark blood-red. Very tender and sweet. Remarkably uni-form in growth, and a particularly desirable sort for truckers and market gardeners. Pkt., 5c.; oz., 10c.; ¼ Ib., 15c.; Ib., 40c. Long Smooth, Dark Blood—(Fig. 6.) This variety has long, ender roots. The beets are seldom more than two inches

 $\mathbf{2}$

Long Smooth, Da slender roots. Th through. Matures rather rate, but is an excellent keep-er. The flesh is dark red and qual-ity sweet and ten-der. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; Ib., 60c. Beet Plants. See Beet Plants, See

Page 3. Crimson Globe

A second early variety, does not grow large and coarse, the ma-tured beets being medium in size and of good shape. The flesh and skin are both very are both very dark and quality fine, being sweet and tender. The tops are small and dark in color. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.

Swiss Chard—See Page 18. COW BEETS (Mangel-Wurzel)

French-Betterave) (German-Runkelruben.

Used for feeding cattle. Sow five pounds per acre. Culture-Sow in April and May in thoroughly plowed, well-manured soil, in drills two inches deep and about 18 inches apart. Thin out to 12 inches and keep the weeds down by fre-quent hoeing and cultivating. Low ground is best adapted for Mangel-Wurzel.

Mangel-Wurzel. An ever-increasing acreage is being planted for stock beets, be-cause of the wonderful results by feeding them as shown by the reports of our Experiment Stations and leading farmers and stockmen. Fattening, breed-ing and milk cattle do equally well on them. About one-fourth of the daily rations should be of roots. Hog cholera is prevented by their use. Where many are grown a good drill and cultiva-tor are needed. Five pounds sows an acre. an acre.

SLUDSTRUP BARRES MANGEL.

Recently introduced from Den-mark. The finest, largest and most prolific Mangel in existence. Half-long, stump-rooted, yellow flesh. Outside color orange with red top. Oz., 10c.; ¼ 1b., 15c.; 1b., 35c.; 5 1bs., \$1.50.

Jumbo Mangel—Immense, long, red, very fine quality. Oz., 10c.; 14 lb., 15c.; lb., 35c.; 5 lbs., \$1.50. Gate Post Mangel-Large, yel-low, excellent sort. Oz., 10c.; ¹/₄ lb., 15c.; lb., 35c.; 5 lbs., 81.50. Mammoth Long Red-This is

Gate Post Mangel centage of sugar. Oz., 10c.; ¼ Ib., 20c.; 1b., 50c.; 5 Ibs., \$1.50. Gate Tost Mangel centage of sugar. Oz., 10c.; ¼ Ib., 20c.; 1b., 50c.; 5 Ibs., \$2.00. Centage of M. & S. Sheep or Cattle Manure, for

M. & S. CHOICE CABBAGE SEED

One ounce will produce about 2500 plants; one-quarter pound for transplanting an acre. Culture—Sow seeds in January or February in hotbeds, and transplant latter part of April or early in May to open ground, or an early sowing in open ground can be made as soon as weather will permit. Set the plants in rows two feet apart, and 12 to 18 inches apart in the row. For second early sow in April and transplant in May, or sow in May and transplant in July, setting plants in rows three feet apart and two feet in rows. Never plant in the same ground two years in succession. Our Cabbage Seed is all grown from selected heads only, by a specialist on Long Island.

EARLY VARIETIES

M. & S. COPENHAGEN MARKET—A valuable new early cab-bage from Denmark, producing a large globe-shape head, which comes into market along with Charleston Wakefield. It is well known that Denmarket along with charleston Warkened. It is went try, and our seed comes direct from the originator. Produces fine, large heads uniform in shape and size and very solid, with few loose leaves. It is a vigorous grower and an excellent keeper. Pkt., 5c. and 10c; oz., 20c.; 14 lb., 75c.; 1 lb., \$2.50. New Early-The largest of the early cabbage. The head is roundish flat and remarkably solid. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 50c.; lb., \$1.50.

Early Flat Dutch—A dwarf-growing type, principally used for early summer. Pkt., 5c. and 10c.; oz., 15c.; ¼1b., 50.; lb., \$1.50

Early Jersey Wakefield Cabbage

The

Early Jersey Wakefield Cabbage Early Jersey Wakefield—The finest oblong-shaped cabbage in existence. The head is solid, there being very few outside leaves . Pkt., 5c and 10c.; oz., 20c.; 1b., 60c.; 1b., \$1.75. Large Charleston Wakefield—Similar to Early Jersey, but the heads are more blunt, equally as solid, while almost twice the size, but ma-tures one week later. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 60c.; 1b., \$1.75. Early York—Resembles the Early Wakefield somewhat, but the heads are more pointed and not so early. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 60c.; 1b., \$1.75. Early Winnigstadt—One of the best medium early pointed cab-bages, very hearty and heading. Heads of good size, very hard and of excellent quality. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 75c.; 1b., \$2.50. All Head Early—A thoroughbred sort, especially recommended on account of its uniform size and shape and reliability for heading. Makes a deep, flat head, solid and uniform in color, shape and size. In tender-ness it is unsurpassed. Can be grown either for summer or winter use. By reason of its compactness it can be planted closer and will yield more heads to the acre than varieties of a spreading habit. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 50c.; 1 1b., \$1.75.

SECOND EARLY VARIETIES

SECOND EARLY VARIETIES Early Drumhead—A large solid roundish flat-headed sort with few outer leaves. One of the best sorts to follow the Large Charleston Wakefield. Pkt., 5c. and 10c; oz., 15c; ¼ 1b., 50c; lb. \$1.75. Henderson's Early Summer—The leaves have a more bluish cast than other cabbages; the heads are roundish flat. Pkt., 5c. and 10c.; oz., 15c; ¼ 1b., 50c.; lb. \$1.75. Succession—A very popular sort with the market gardeners. It matures about 10 days later than Early Summer. Pkt., 5c. and 10c.; oz., 20c; ¼ lb., 60c; lb., \$1.75. Surehead—As its name indicates, this is a sure header and one of the most reliable main crop and late cabbages. Heads are large, thick, some-what flattened, very uniform in size and color, firm and solid, keeps well and makes a splendid shipper. Heads ordinarily weigh 10 to 12 pounds each, and of the finest quality. Surehead has all the good qualities that make for a first-class main crop cabbage. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 60c., lb., \$2.00. 1/4 1b., 60c., 1b., \$2.00.

LATE, or WINTER VARIETIES

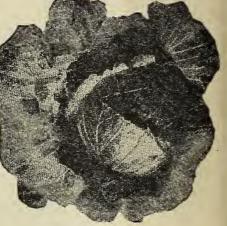

All seasons. (Vandergaw)—A very large head, round and solid. It is valuable for Summer or Winter use. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 50c.; lb., \$1.75. Danish Ballhead—An elegant medium late variety. Pkt., 5c. and 10c.; oz., 25c.; ¹/₄ lb., 55c.; lb. \$256.

and 10c.; oz., 2 75c.; 1b., \$2.50.

Late Flat Dutch—Im-proved Strain. This has been selected especially for our trade, and seed for our trade, and seed was taken from the fin-est type of heads which were selected for solidity and uniformity. Pkt., 5c. and 10c; oz., 15c., ¼ 1b., 50c.; 1b., \$1.75.

Large Late Drumhead —Much like the above except the heads are not quite as large nor as quite as large nor as flat. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., oz., 1 \$1.75.

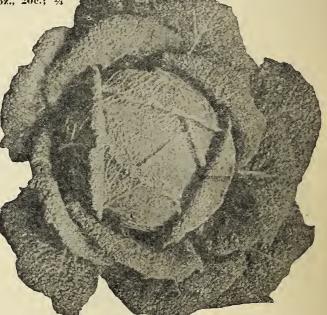

Red Dutch Drumhead A red butten Drummeau —A red variety, used extensively for pickling. Pkt., 5c. and 10c.; oz., 20c.; 1/4 lb., 75c.; 1 lb. \$2.50.

Red Dutch Drumhead

Perfection Drumhead Savoy—A beautifully crimpled-leaved sort, color a deep glossy green. The head is almost round. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.75.

CABBAGE PLANTS. SEE PAGE 3.

M. & S. PERFECTION DRUMHEAD SAVOY CABBAGE (German-Wirsing Kohl. French-Choufrise.)

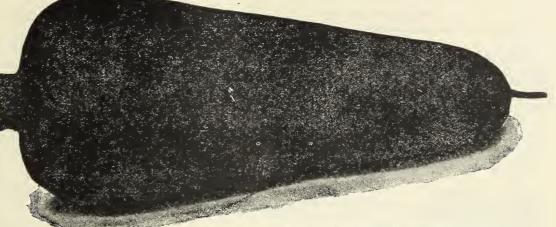

CHINESE CABBAGE, or CELERY

Pe Tsai-Improved Chinese Cabbage. The market appearance of this cabbage in quantity the past few years has created a widespread demand for the seed. It is very easily grown and does well in nearly all parts of the country. It should be grown like a late cabbage, planting in July (turnip planting time), as early plantings run quickly to seed. The seed is sown in drills 16 to 20 inches apart and the seedlings thinned two or three times. The full-grown plant somewhat resembles a Cos Lettuce in appearance. It has a mild flavor and may be eaten raw or as a salad, or cooked. Boiled, minced and seasoned with butter, it is especially delectable. Pkt., 10c.; ½ oz., 25c.; oz., 45c.; 2 oz., 75c.; ¼ lb., \$1.25. Wong Bok-Similar to the above; considered more choice by a great many. Pkt., 10c.; ½ oz., 25c.; oz., 45c.; 2 oz., 75c.; Do not forget to include in your Spring Order a bag of S heep or Cattle Manure, a bag of manure will give as much re-sult as a cart load of barnyard manure.

CARROT

(German—Moehre oder Gelbe Rübe, French—Carotte) One ounce to 100 feet of row. 2 or 3 lbs. to acre.

2 or 3 ibs. to acre. Culture—A light, loamy soil that has been well manured the previous year is preferred for growing carrots, although good crops may also be ob-tained from ordinary garden soil. For early use seed may be sown in hotbeds from January until March, and in the open ground as soon as the weather becomes warm and settled, usually in April. Sow seed one-half inch deep in rows 15 inches apart, and later thin to five inches in the rows well hoed and free from weeds. From July 1st to 15th sow for Winter crops. M. & S. SOUTHERN PRIDE—

M. & S. SOUTHERN PRIDE—An ideal medium early, stump-rooted Carrot; smooth and uniform in shape, averaging five inches in length, with thick, heavy shoulders, rather large tops and deep orange color, almost coreless and of fine flavor. Positively the best carrot for home garden or market. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ 1b., 30c.; lb., \$1.00.

Parisian Forcing-Extremely early, of small size, but very sweet, tender and beautiful orange-red color. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 30c.; lb., \$1.00.

Chantenay .- Top medium sized, neck small, roots tapering Chantenay.—Top medium sized, neck small, roots tapering slightly but uniformly stump-rooted and smooth; color deep orange-red; flesh very crisp and tender. Although this is a medium early sort, it furnishes roots of usable size as early as any, is a heavy cropper, and is undoubtedly one of the best for both the market and private garden, and its great productive-ness makes it desirable as a field sort. Pkt., 5c; oz., 10c; 1/4 lb., 20c; the 60c. lb., 20c.; 1b., 60c.

Pride of Market Carrot-Similar to the above.. Pkt., 5c.; oz.,

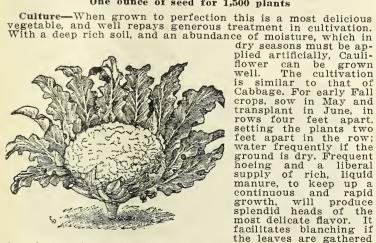

Danvers, or Half-Long Orange—Owing to its enormous yield, this variety is the best and most profitable for main crop, also desirable for feeding cattle. It is some what longer, thicker and a better keeper than the Chantenay. Pkt., 5c.; oz., 10c.; 1/4 1b., 20c.; 1b., 60c.

Guerande, or Oxheart—A short thick carrot not exceeding four inches in length and about the same in width which does quite well on hard, heavy soils where the longer varieties are useless. Pkt., 5c.; oz., 10c.; ½ Ib., 20c.; Ib., 60c.

Useless. Fkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.
Long Orange Improved—The longest and latest of all carrots; unsurpassed for its keeping qualities. Fine for feeding stock. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.
White Belgian—Used principally for stock, not being desirable for table, produces a long thick white root. It is also used for turning under, being a valuable humus maker. It is 8 to 10 inches long, has green top. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; b., 60c. 20e.; 1b., 60e.

CAULIFLOWER

(German-Blumenkohl. French-Chou-Fleur) One ounce of seed for 1,500 plants

well. The cultivation is similar to that of Cabbage. For early Fall crops, sow in May and transplant in June, in rows four feet apart, setting the plants two feet apart in the row; water frequently if the ground is dry. Frequent hoeing and a liberal supply of rich, liquid manure, to keep up a continuous and rapid growth, will produce growth, will produce splendid heads of the most delicate flavor. It facilitates blanching if the leaves or the leaves of the leav

loosely together and tied over the top of the head to protect it from the sun. Cut before the flowers begin to open. Sow as late as June 20 for late crops, in beds or in hills, covering one-

M. & S. EARLY SNOWBALL—An extremely early dwarf va-riety, producing magnificent white heads of fine quality. Well adapted to hotbed culture and outdoor. Pkt., 10c., 25c. and 50c.; oz., \$1.25.

M. & S. SOUTHERN PRIDE CARROT

Dry Weather or Danish Giant—The great drought resisting variety; the heads are large, snow white and are protected with a liberal growth of foliage. This is the ideal variety to plant for summer use if you want to be sure of cauliflower at that season. Pkt., 10c., 25c., 50c.; \$1.25 per oz.

Select Early Dwarf Erfurt—Of highest excellence, and for field culture not much surpassed by any type of newer name. Some so-called new varieties appear to be identical with Select Erfrut. Pkt., 10c., 25c. and 50c.; oz., \$1.25.

Veitch's Autumn Giant—A distinct and valuable late variety; heads large and fine, well protected by foliage. Pkt., 10c.; oz., 75c.

CAULIFLOWER PLANTS, PAGE 3

CELERY

(German-Sellerie. French-Celeri)

One ounce will produce about 2000 plants.

Une ounce will produce about 2000 plants. Culture—Sow the last of March or early in April, in an open border, in rich, mellow ground, in shallow drills, watering freely in dry weather. By rolling or pressing in the seed the result will be more satisfactory than when covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are five or six inches high transplant the dwarf varieties three feet, and the taller sorts four feet bethe dwarf varieties three feet, and the taller sorts four feet be-tween the rows; plant six inches apart in the rows. Cultivate well, and when large enough, blanch by earthing-up. The first operation is that of "hand-ling," generally done the be-ginning of September; after the soil has been drawn up with the hoe it is drawn closer around each plant by the beand

with the hoe it is drawn closer around each plant by the hand to keep the leaves firm, in an upright position, and to pre-vent spreading. When the plants have become set in an upright position the Celery wanted for early use should be banked, by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth up nearly to the tops of the plants. **M.& S. MAGNIFICENT**—It is well named for its many good

to the tops of the plants. M. & S. MAGNIFICENT-It is well named for its many good qualities; it is a semi-late sort, coming into use about January. The stalks which blanch almost white are ex-ceedingly brittle, so that it has a tendency to melt in the mouth; it is a truly good sort and should be planted exten-sively. Pkt., 10c; oz., 25c.; '4 lb., 75c. M. & S. MONARCH-This va-riety is a decided acquisition bright golden yellow heart. The stalks are very solid, brittle and of most delicious flavor, and entirely free from stringiness. It is a remarkably good keeper and presents a handsome appearance when ready for the table. Pkt., 10c; oz., 25c.; '4 lb., 75c. French Golden Self-Blanching-For early use; preferred by many to all other sorts; as self-blanching as white Plume, and simply needs a slight earthing-up. The entire plant is an at-tractive yellowish green, and approaching its maturity the in-ner stems and leaves become a beautifully waxy golden color. Grows to a good size, very tender, crisp and solid, and when well grown is of excellent quality and very beautiful. Seed supply very limited. Pkt., 10c. and 25c.; oz., \$1.00; '4 lb., \$3.50; 'b., \$13.50.

CELERY—Continued.

American Self-Blanching-Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.

White Plume—Unsurpassed for Fall and Early Winter use, requiring very little earthing-up to blanch it. Pkt., 5c. and 10c; oz., 20c.; ¼ lb., 50c.; lb., \$1.50. Giant Pascal—The stalks are very large, thick, solid, crisp and of a rich, nutty flavor; it blanches very easily and quickly, and retains its freshness a long time. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Golden Heart-Largely used, always giving satisfaction; a showy sort; solid, of fine flavor and a good keeper. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Boston Market—A short, bushy, white, solid, excellent flav-ored market variety, constantly increasing in demand. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 60c.; lb., \$1.00. Winter Queen—This variety grows a very thick, solid and heavy stalk, and has a large heart. It is a close, compact grower, and when blanched is a creamy-white color. Pkt., 5c. and 10c., oz., 15c.; ¹/₄ lb., 50c.; lb., \$150

\$1.50.

\$1.50.

Giant Prague Celeriac

GEORGIA COLLARDS

Georgia Collard—Culture like Cabbage. The lower leaves are pulled off and used same as Cabbage Sprouts and Kale; will be found very delicious if you have never tried it; give it a place in your garden this coming season. Pkt., 5c. and 10c.; oz., 20c.; ¹/₄ lb., 60c.

(German—Acker Lattig. French—Mache) cench-Mache) Culture-Sow in Spring, in drills one foot apart; it will mature in six to eight weeks. For Winter and early Spring use, sow in drills in August and Sep-tember.

Victory—Runs a close second to the above, very similar. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb.,

CELERY PLANTS, SEE PAGE 2

General Phavits, SEE PAGE 2 Giant Prague Celeriac—This is unquestionably the largest and best Celeriac in existence. The roots are very large, twice as large as the Erfurt, a l most globe-shaped, smooth, with only a few roots at the bottom. Flavor is excellent. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 50c. lb., \$1.50.

tember. Large Leaved-

Pkt., 5c.; oz., 15c.; ¼ lb., 25c.; lb., 75c.

SWEET, or SUGAR CORN Bushel prices furnished on application

(German—Zuckermais. French—Mais)

(German-Zuckermais. French-Mais) One quart will plant 200 hills; eight quarts in hills to acre. Culture-The Sweet or Sugar varieties, being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm; for a succession, continue plant-ing every two weeks, until the middle of July, in rich, well-manured ground, in hills three feet apart each way, covering about half an inch, and thin out to three plants to a hill. Ex-tra early varieties can be planted 18 inches in the row and 2½ feet between the rows. The field varieties should be plant-ed four feet apart each way, leaving three plants to a hill. Extra Early Adams-Height of stalk three to four feet, ears

Extra Early Adams—Height of stalk three to four feet, ears set within six inches of ground. Not a sugar corn, but a de-cided acquisition so early in the season. Pt., 15c.; qt., 25c.; pk., \$1.25.

Early Adams—Similar to Extra Early Adams; larger, but not so early. Pt., 15c.; qt., 25c.; pk., \$1.25. EARLY SHEFFIELD.—The best early Sugar Corn for truck-ers, making fine large ears. Pt., 15c.; qt., 30c.; pk., \$1.50.

Howling Mob—Another new early Sugar Corn, with fine, large ears, excellent for truckers. Pt., 20c.; qt., 35c.; pk., \$1.50. M. & S. SNOW WHITE EVERGREEN SUGAR CORN—It pro-duces large uniform ears, which are well filled to the top with beautiful white kernels; it is 10 to 12 days earlier than Sto-well's Evergreen. Splendid sort for market and home garden; keeps well after being cut. Pt., 25c.; qt., 40c.; pk., \$1.75.

Country Gentleman or Shoe Peg—A short-stalked, productive sort. Ears large for so small a stalk; grain narrow and very deep; excellent quality. Pt., 20c.; qt., 30c.; pk., \$1.50.

M. & S. Evergreen Egyptian Strain M. & S. Evergreen Egyptian Strain Sugar Corn.—This is a strong growing corn, making fodder equal to field corn, matures in 85 days, bearing fine large uniform ears which are as sweet as sugar. Pt., 20c.; qt., 35c.; pk., \$2.00. Stowell's Evergreen—Matures for table in about 80 days from germina-tion. Pt., 15c.; qt., 30c.; pk., \$1.25.; bu., \$4.00.

84.00.

Peep-O-Day—This corn has two val-uable points—extraordinary earliness and unsurpassed sweetness. Pt., 15c.;

qt., 30.; pk., \$1.50. GOLDEN CREAM—The originator says: "It is good enough to eat raw." It says: "It is good enough to eat raw." It is a cross between Country Gentleman and Golden Bantam: has the color of the latter and the fine quality of the former. It is really a very early yellow Country Gentleman—that means earli-ness, good size and first-class roasting ears. Pt., 15c.; qt., 30c.; pk., \$1.75.

Golden Bantam-Extremely early. A true sugar corn. The grain when ripe is a bright golden-yellow, the flavor is exceptionally rich and sugary. Pro-duces from two to three good ears to the stalk. Pt., 15c.; qt., 30c.; pk., \$1.75.

Black Mexican—An old favorite, be-ing very tender and sweet. Pt., 20c.; qt., 35c.; pk., \$2.00.

Early Mammoth — Large ear, and early; splendid early market sort. Pt., 15c.; qt., 30c.; pk., \$1.25.

Late Mammoth Sugar . Late Manmoth Sugar — The strongest growing of all sugar corns. Takes 85 days to reach maturity for table. The ears are very large and showy. Pt., 15c.; qt., 30c.; pk., \$1.25.

Stowell's Evergreen on Ears — Each, 10c.; dozen, 75c.

M. & S. Snow White Evergreen Sugar Corn

Red Cob, or 90-Day Corn—A distinct and well-known sort of white corn; matures in about 90 days; produces large, hand-some ears. ¼ pk., 25c.; pk., 75c.; Bus., \$2.50.

CRESS

(German—Kresse)

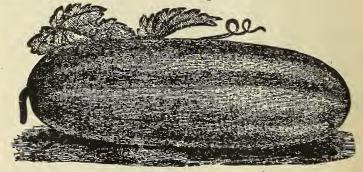

Water Cress—Sow early in spring near pond or running water; when established will last for years. Pkt., 10c.; oz., 50c.

Land Cress or Pepper Grass—Sow in early spring in rows, two feet apart, and repeat often as it runs to seed very quickly. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c. Chervil—Sow like the above, used as a salad seasoner. Pkt., 5c. and 10c.; oz., 25c.

CUCUMBER

(German—Gurke. French-Concombre)

One ounce will plant fifty hills; two pounds, one acre. Culture—For very early Cucumbers, sow the first of April in a hotbed, upon pieces of sod or in small pots, so that they can be readily transplanted to the open ground (in rich soil) when danger of frost is over. For general crop plant, if the weather has become settled and warm, in hills about four feet apart each way; thin out to four of the strongest plants to each hill. They succeed best in a warm, moist, rich, loamy soil. For suc-cession sow until the middle of August.

M. & S. Cool and Crisp

M. & S. COOL AND CRISP-Ideal for home and market gardening. Extra early and very prolific, long straight, slender and very dark green; good either for pickling or slicing. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 40c.; 1 lb., \$1.25.

We have had perfect satisfaction with all the seeds which we purchased for the Baltimore Public School Gardens, Mrs. A. Derringer.

CUCUMBERS-Continued.

Early Fortune—A great favorite with our Anne Arundel County farmers for its early maturity, productiveness, uniform-ity in large size and dark green color. Pkt., 5c.; oz., 10c.; ¼ 1b., 30c.; 1b., \$1.00.

New Klondike—One of the best for shippers. Grows vigor-ous vines, fruits early and abundantly. Dark green in color, large size, and of fine flavor. Pkt., 5c.; oz., 10c.; 1/4 lb., 30c.; 1b., \$1.00.

Improved Early White Spine-The old standard favorite kt., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 90c. Special prices on large Pkt., quantities.

Arlington White Spine-Another standard sort. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c.; Special prices on large quantities.

Improved Long Green—Long and crisp; a popular and reliable variety for pickles. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c. Jersey Pickle—Productive and said to "green" better than any other variety, and to "hold color." Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c.

Livingston's Evergreen—A very strong grower, very early, bears firm crisp fruit, which is excelent for slicing or pickling. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c. Early Green Cluster—A short, prickly variety, bearing clus-ters, prolific. Fine for bottle pickles. Pkt., 5c.; oz., 10c.; ¼

Early Green Cluster—A short, prickly variety, bearing clus-ters, prolific. Fine for bottle pickles. Pkt., 5c.; oz., 10c.; ¼ Ib., 25c.; Ib., 90c. Small Gherkin, or Burr—Used only for pickling while young and tender. Pkt., 5c. and 10c.; oz., 25c. Danish Pickling Cucumber—A new introduction from Den-mark. Seeds extremely scarce. A very prolific grower produc-ing small dark green warty fruit, especially desirable for pick-ling. Pkt., 10c.; oz., 25c. Japanese Climbing—Distinct from other varieties, being a real climber. Very prolific of fruit. A valuable, interesting novelty. Pkt., 5c. and 10c.; oz., 20c.; ¼ Ib., \$1.00. English Foreing Telegraph Cucumber—These are ideal for growing outdoors as well as under glass. They produce enor-mous fruits, generally 18 to 24 inches long and 3 inches in diameter. They have a delicate flavor and possess very few seeds; for slicing, no other sorts can approach them. Pkt. of 12 seeds, 25c.; 100 seeds, \$1.25.

EGGPLANT

(German-Eierpflanze. French-Aubergine) One ounce will produce about 1,000 plants.

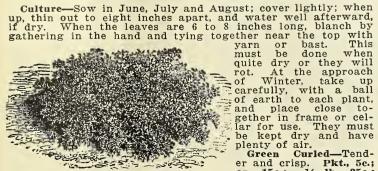

New York Improved Purple—The leading market variety; of large size, skin deep purple, smooth, free of thorns; flesh white, of excellent qual-

thorns; nesh white, of excellent qual-ity; very productive. Pkt., 5c. and 10c.; oz., 35c.; ¼ lb., \$1.25. Black Beauty—The earliest large va-riety; color, rich, dark purple. Pkt., 5c. and 10c.; oz., 35c.; ¼ riety; col lb., \$1.25.

EGGPLANT PLANTS, SEE PAGE 3 ENDIVE

(German-Endivie. French-Endive)

Culture-Sow in June, July and August; cover lightly; when

Green Curled—15... er and crisp. Pkt., 5c.; 15c.; ¼ lb., 35c.; Green Curled Endiveer and crisp.Pkt., 5c.;02., 15c.;4 lb., 35c.;1b., \$1.00.White Curled—Self-blanching. Very tender when young;blanches readily.Pkt., 5c.; 02., 15c.; 34 lb., 35c.; lb., \$1.00.Broad Leaved Batavian (Escarrole)—This variety is chieflyused in soups and stews; it requires to be tied up for blanching.Pkt., 5c. and 10c.; 1 oz., 15c.; 34 lb., 35c.; lb., \$1:00:

WHITLOOF CHICORY, or FRENCH ENDIVE

(German-Succory, French-Chicoree)

(German-Succory. French-Chicoree) Whitloof Chicory, or French Endive-Known in restaurants as French Endive. We want to get our customers interested in this delicious vegetable, and feel confident that after it has once been tried it will become quite as popular as Swiss Chard, which was only planted very spar-ingly a few years ago. Every garden should have a row of Whitloof Chicory and we feel sure that every amateur or experienced gar-dener will be pleased with the results. Whit-loof is eaten raw or as a salad, and is also some-times cooked like ordinary Endive. Pkt., 5c. and 10c; oz., 25c; ¼ 1b., 90c.

Chicory

Large Rooted Chicory—The roots are dried and ground and used for flavoring or to sub-stitute coffee. It can also be served like salsify. Pkt., 5c. and 10c.; oz., 25c.

HERBS

(German-Kraeuter. French-Herbes)

Culture—Herbs delight in a rich, mellow soil. Sow seeds early in Spring in shallow drills, one foot apart; when up a few inches thin out to proper distances, or transplant. They should be cut on a dry day just before they come into full blossom, tied in bunches and hung up or spread thinly where they can dry quickly.

Borage-Pkt., 5c. and 10c.

Carroway-Seeds used to flavor bread. Pkt., 5c. and 10c.; oz., 25c.

Coriander—Pkt., 5c. and 10c.

Dill—The seeds are used as a condiment and for pickling. Pkt., 5c.; oz., 15c.; ¼ lb., 30c.; lb., 75c. Fennel—Pkt., 5c. and 10c.

Horehound-For medicinal purposes and flavoring. Pkt. 5c. and 10c.

Lavender-For flavoring and perfumery. Pkt., 5c. and 10c.

Martynia—Produces long green pods which are used for pickling. Pkt., 5c. and 10c.; ½ oz., 25c.

Pot Marigold-Pkt., 5c. and 10c.

Rosemary-Leaves used for seasoning. Pkt., 5c. and 10c. Rue-Pkt., 5c. and 10c. Sage-For seasoning and dressing. Pkt., 5c. and 10c.; oz., 40c. Summer Savory-Used for flavoring. Pkt., 5c. and 10c.; oz., 25c. Sweet Basil-For flavoring soups. Pkt., 5c. and 10c.; oz., 25c. Sweet Marjoram-Leaves and ends of shoots used for season-ing. Pkt., 10c.; oz., 40c. Saffron-For medicinal and coloring purposes. Pkt., 5c. and 10c.

10c

The control of the co

KOHL-RABI

One ounce will sow 150 feet of drill.

This is a favorite vegetable in Europe, where it is extensively grown for table use. The bulb is formed above ground, and, if used when young and tender, makes a most delicate dish for tender, ma the table.

Earliest White Vienna — Greenish white outside, with clear white flesh within. Smooth, short leaf. Pkt., 5 and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Earliest Purple Vienna—Same in every respect as the Earliest White Vienna, except in the outside color. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.

KOHL-BABI PLANTS, SEE PAGE 3

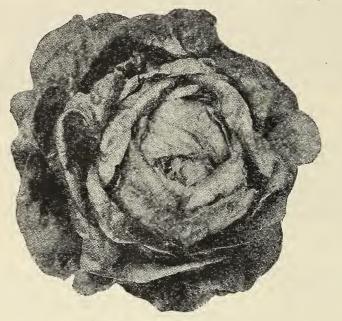

Mr. Arthur Owens, of Greencock, Md., says he has had the most magnificent garden from seeds purchased of us the past season,

Don't Forget to Order that Cart Load of Manure in a 100 lb. Bag. M. & S. CHOICE STRAINS OF LETTUCE (German—Salat. French—Laitue.)

TWO OUNCES OF SEED TO 100 YARDS OF ROW; ONE OUNCE FOR 2,000 PLANTS

CULTURE—Lettuce is now sown during most all seasons of the year. For outdoor use the seed can be sown in well-manured hotbeds in February and March. Transplant there or outdoors when the weather will permit, in rows about 12 inches apart, 10 inches apart in the row. If the salad is not to head, sow thickly and cut as desired. For best results it is well to sow only the varieties best suited to the different seasons and conditions. For winter use sow the seed in September in hotbeds and follow it with other sowings for succession.

M. & S. Belvedere Lettuce

M. & S. BELVEDERE LETTUCE-In 1912 we introduced this M. & S. BELVEDERE LETTUCE—In 1912 we introduced this grand Lettuce after having it in our trial grounds for two sea-sons, and we were amply repaid by the success which our Truck Farmer customers had with it. TheM. & S Belvedere is extremely slow in running to seed; it is therefore the ideal Let-tuce to plant in the Spring, as it withstands the Summer heat better than any variety we have known so far. It is all green, no red edges, is tender and crisp and has a fine yellow heart. The seed is scarce, and we advise our customers to order quick. Pkt., 10c.; 0z., 25c.; 1/4 lb., 75c.; 1 lb., \$2.50.

Pkt., 10c.; 0z., 20c.; '4 10., 45c.; 1 10., 42.00. **May King**—This valuable new Lettuce is, with-out any question, one of the best Lettuces on the list for early Spring planting in the open ground. The heads are six to seven inches in diameter, of a clear ilght green, the outer leaves being slightly tinged with brown, the inner being clear, bright yellowish, with very rich, oily flavor. It is an excellent market sort, the round, compact heads being so solid that they carry extremely well. **Pkt.**, 5c. and 10c.; oz., 15c. ½ Ib., 30c., lb., 90c.

Romain White Cos Lettuce.

Romain White Paris Cos—Has long, narrow, upright leaves; does not head, but when tied up blanches very nicely. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 35c.; lb., \$1.25.

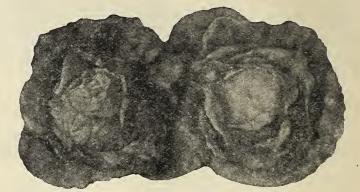

Best of All—A great drought and heat resister; forms large compact heads of light green leaves and yellow heart. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 35c.; 1 lb., \$1.04.

M. & S. ALL-RIGHT—For early Spring and Fall sowing. Pro-duces beautiful light green heads, often 12 inches in diameter, very solid and with a rich buttery heart of light yellow. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., \$1.00.

Grand Rapids—Excellent for forcing, fine quality, large, loose, yellowish-green head, stands well. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., 90c.

California Cream Butter—A good Summer sort, of reliable heading quality. Yellowish-green, slightly marked with brown specks. This is a variety growing in favor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 39c.; 1, lb., 90c.

Improved Hanson-Large, compact, reliable header; outside leaves curled. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., 90c.

Big Boston Lettuce.

Big Boston-Resembles Boston Market, but nearly twice as large, desirable for forcing and Spring and Fall outdoor plant-ing. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., \$1.00.

and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., \$1.00. Boston Market, or White-Seeded Tennisball— Early and compact, quite desirable, good forcer. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., 90c. Improved White Loaf—Large, com-pact heads. Light-green color; tender and crisp. The best Winter lettuce to plant. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 25c.; 1 lb., 90c. Iceberg—Leaves green, heads large, solid; one of the best large, solid; one of the best

M. & S. STRAIN ALL-SEASON-A cabbage lettuce of sterling merit, making larger and more closely folded heads than any other known variety. The outer leaves are a bright, soft green, the inner ones rich golden yel-low. The solid heads measure from eight to ten inches across. Black seed. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., \$1.00. Way-a-Head-Similar to the above, but suitable for all-season in or out-door planting. Pkt., ic. and 10c.; oz., 15c.; ¼ lb., 35c.; 1 lb., \$1.25. Unrivalled-This grand new let-

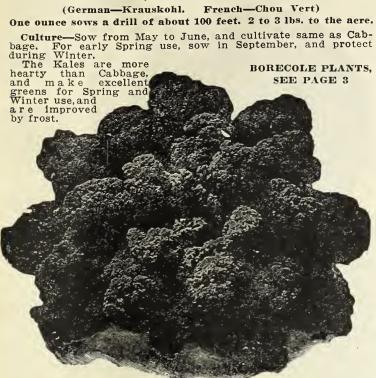

1 lb., \$1.25. Unrivalled—This grand new let-tuce can be sown most any time, slow in running to seed; has beautiful green outside leaves and white heart and is tender and crisp. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; 1 lb., \$1.00. ular terrucce plants ; ¼ POPULAR VARIETIES, SEE PAGE 3

Black Seeded Simpson Lettuce

Black Seeded Simpson Lettuce—Fine, large, loose heads, early, finely fringed and curled; very popular for family garden and forcing. Pkt., 5c. and 10c.; ¼ lb., 30c.; 1 lb., \$1.00.

Dear Sirs:—I am writing to let you know that the twenty-five R. I. Red pullets arrived O. K., and they are a fine looking I am very much pleased with them. FREDERICK AROLD, Mngr. for S. Proctor Brady, Lutherville, Md. lot.

KALE, or BORECOLE

Borecole—Hardy Winter

Borecole—Hardy Winter Borecole, Hardy Winter—This variety is grown and treated like cabbage. The plant attains a height of 18 inches, with an abundance of beautiful light green leaves which are densely curled and crimpled. Besides being very hardy it possesses the advantage of all other varieties in forcing a second crop of moss-curled leaves as soon as the first ones are cut. This new growth is of the finest quality, and is ready for market during the Winter and early Spring months, when it demands fancy prices. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00.

Emerald Isle Kale—This is really the handsomest Kale that has ever come under our notice, and is entirely distinct from other strains. The closely curled, handsome leaves are most attractive. A fine exhibition plant of medium height. Very hardy. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 30c.; lb., \$1.00.

Dwarf Green Kale—Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

Tall Scotch-Best for Summer. Very spreading, nicely curled and hardy; frost improves it. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 30c.; lb., \$1.00.

New Imperial Curled Long Standing-The leaves are very crimpy and of a dark green color. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

Dwarf Green Curled Scotch, or Norfolk—One of the most popular shipping sorts; very largely used in Norfolk trucking district. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb. 60c.

LEEK

(German-Lauch. French-Poireau) One ounce to 150 feet of row.

Culture-Sow the seed and care Culture—Sow the seed and care for the young plants same as for Onions, but they need a little more room to develop fully. When the young plants are about the size of a goose quill, transplant into a pre-pared bed in rows one foot apart pared bed in rows one foot apart and four to five inches in the rows. Set the roots deep and draw the earth to them when cultivating, so that they may be well blanched by the time they are fit for use. Giant Carentan—Produces a large. thick stem, and of mild flavor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

\$1.50.

American, or Flag—One of the hardiest and best for Winter use. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

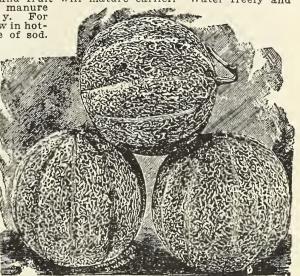

MUSKMELONS, or CANTALOUPES (German-Melone, French Cantaloup)

One ounce will plant about 50 hills; two to three pounds in hills to acre.

Culture—Thrives best in light, rich soil. Plant early in May, in hills six feet apart. Manure in hill and sow seed freely. After danger from bugs is past thin to three plants per hill. When one foot long, pinching off tips makes vines branching and strong, and fruit will mature earlier. Water freely and feed liquid manure occasion a live.

feed liquid manure occasion ally. For early use, sow in hot-bed, on piece of sod.

M. & S. GOL-DEN WON-DER CANT-ALOUPE Most delicious flavored golden yellow meat, which is thick and solid. Mesize, dium oval in shape, very vigorous and proand pro-ductive vines, which are great drought and blight re-sisters. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 50c.; 1 lb., \$1.50.

M. & S. Golden Wonder Cantaloupe.

Rocky Ford—We have a very fine stock of this popular can-taloupe. Small, oval, of excellent quality and a good shipper; early; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 90c.

Bottomly Cantaloupe—True Anne Arundel strain. Great favorite with the Anne Arundel County truckers. Medium size, round, deeply netted, green flesh and delicious flavor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; 1 lb., \$1.50.

M. & S.DELICIOUS GOLD-LINED ROCKY FORD CANTALOUPE —This strain of the Eden Gem type is the result of several years' selection by one of the most progressive farmers of Rocky Ford, Colo. Its shape is ideal, very slightly oval, no ribs, and it is heavily netted over the entire melon. The bloom button is small and flesh as thick at the end as elsewhere. The melon is thick meated, fine grained and sweet; color, green, with a gold margin next to the seed cavity. Our claim for this melon is its uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Every seed we offer from this strain will be from a select melon Growers' Associations and high-class Market Gardeners. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 35c.; 1 lb., \$1.25. Early Netted Gem—One of the best of small melons, and very M. & S.DELICIOUS GOLD-LINED ROCKY FORD CANTALOUPE

Early Netted Gem—One of the best of small melons, and very opular. Prolific and of excellent quality. Very early. A reat favorite. Green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; popular. great favorite. Ĭb., 90c.

Emerald Gem-Small, green skin, delicious yellow flesh. Pkt., 5c.; oz., 10c.; 1/4 lb., 30c.; lb., \$1.00.

Acme, or Baltimore Nutmeg—A great favorite for retail mar-ket and for shipping. Large, oval, deeply netted, solid and of fine quality; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 25c. lb., 90c. Jenny Lind-Very early, small, round, netted and of fine quality; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., \$1.00. Hackensack, or Turk's Cap-A very fine, large sort; green fleshed. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 90c.

Miller's Cream, or Osage—Melons are large and round, with light green, netted skin, and thick, sweet, salmon-colored flesh. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; lb., \$1.00.

Knight Cantaloupe—True Anne Arundel County grown strain. The great favorite of the Baltimore market, of good size, deep-ly netted, green flesh, and delicious flavor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.50.

Banana-This melon surpasses all others in its delicious frag

Banana—This melon surpasses all others in its delicious frag-rance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is first rate when the melon is thorough-ly ripe. It grows from 20 to 28 inches in length and is very prolific. Pkt, 5c. and 10c; oz., 15c; ¼ lb., 40c. Montreal Market—The large fruits are nearly round in form, slightly flattened at ends, with very large, broad, heavy ribs. Dark green skin, thickly covered with heavy netting. The flesh is two inches thick, light green, melting, and of delicious flavor. This is the variety which is grown exclusively on the Island of Montreal, and commands such high prices during the Fall months. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; lb., \$1.00. NTALOUPE OR MELON

NEW HONEY DEW CANTALOUPE OR MELON

Honey Dew produces a melon with smooth, almost white rind, measuring about six inches in diameter by seven to eight inches long. The green flesh is thick and is of a peculiar sweet flavor, resembling a well-ripened banana. To have the melons in the best condition we suggest gathering (or picking) as soon as they slip from the vine and store in a cool place for two or three days before serving, as (like a Casaba) they apparently are at their best when a trifle over-ripe. While we cannot yet recommend Honey Dew for general culture, we offer selected seed at: Packet, 10c.; oz., 40c.; ¼ lb., \$1.25. WATERMELONS-SEE PAGE 17

PURE CULTURE, SPORE PROCESS MUSHROOM—SPAWN (German—Champignonbrut. French—Champignon)

Have you ever raised Mushrooms or are you trying to and not meeting with success? The Spawn we offer is the best obtainable, and with each purchase of same we give away, when desired, a complete guide on Mushroom culture.

Culture—Mushrooms can be grown in cellars, sheds, hotbeds, and some-times in the open air. Fermenting horse manure, at a temperature of about 70 degrees and mixed with an equal weight of fresh sod loam, is made into beds the required size, eight inches deep. See to it that the bed is packed solidly and evenly. In this bed plant the broken pieces of Spawn six inches apart, covering the whole with two inches of light soil, and protect from cold and rain. One brick will plant eight or ten feet of bed. The Mushroom will ap-pear in about six weeks. Water sparingly with lukewarm water. Es-

feet of bed. The Mushroom will appear in about six weeks. Water sparingly with lukewarm water. Es-timate one brick for about eight square feet of bed. Prices for Pure Culture, Spore Process Spawn (if ordered to be sent by Parcel Post, include postage, according to zone; a bricks weighs 1¼ lbs). 1 brick, 25c.; 5 bricks, \$1.00; 25 bricks, \$4.50; 50 bricks, \$8.50; full case, 100 bricks, \$16.00. Mushroom, or Hotbed Thermometers—Wood frame, heavy brass point. Price, \$2.25. Parcel post weight, 2 lbs. Iron frame and point very strong. Price, \$2.00 Leaflet on Growing Mushrooms free.

MUSTARD

(German-Senf. French, Moutarde)

White Mustard—For salads and culinary purposes. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c. Brown Mustard—Stronger than above. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

OKRA, or GUMBO

(German-Safran.) Four ounces to forty feet of drill.

Four ounces to forty feet of drill. Culture—Sow the seed thickly in rich ground about the mid-dle of May, or when the ground has become warm, in drills three feet apart, one inch deep; thin to 10 inches apart in drills. Grown for its green pods, which are used in soups, stews, etc., to which they impart a rich flavor, and are considered nutritious. White Velvet, or Lady Finger—Bears round, white, smooth pods, unlike oth-er varieties, which are ridged or square edge. The pods are of extra large size, and are produced in great abundance. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c, Improved Dwarf Green Prollife -Of dwarf growth, but immense-ly productive and very early. Short, thick, green pods. Home grown seeds of superior quality. Pkt., 5c.; oz., 10c.; ¼ lb., 20.; Ib., 50c. Perkins' Mammoth Podded—A distinct in upble august

1b., 50c. **Perkins' Mammoth Podded**—A distinct, valuable new okra. Its productiveness is simply wonder-ful. The pods shoot out from the stalk within three inches of the ground, and the whole plant is covered with them to the extreme of its beight. The pods are of covered with them to the extreme of its height. The pods are of an intense green color, of un-usual length — eight or nine inches—and do not get hard, as is the case with other okras. Very superior for canning. **Pkt.**, **5c.**; oz., 10c.; ¹/₄ lb., 25c.; lb., 60c.

Improved Dwarf Green Prolific Okra.

ONION

(German—Zwiebel. French—Eignon) American Grown Seed. One ounce for 100 feet of drill; six pounds for one acre.

six pounds for one acre. Culture—For sets sow the seeds early as possible in the Spring, very thickly, in drills. As soon as the tops dry off in the Summer, remove them to a dry, airy place, and early in the following Spring replant by placing the sets in shallow drills 12 inches apart and about four inches apart in the drills; the Onions of this process obtained are of a large size early in the season. They may also be grown to full size during the first season by sowing thinly in drills one foot apart and about one-quarter inch deep in March or early April, in strong land, well manured, and thinning them out to stand three or four inches apart in the drills.

Gentlemen-I think it may be of some interest to you to Mushroom Spawn.

Prizetaker— This is the large, pale yellow on-ion that is offer-ed for sale in fruit stores and markets in the Fall. It grows to a very large size; flesh white, of mild and delicate flavor. The large onions are raised first year from seed, and with or-dinary culture produce enormous crops. The onions sometimes go over three pounds each in weight where good soil and cul-Prizetakergood soil and cul-ture is given them. Our seed is Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Prizetaker Onion

Yellow Globe Danvers—One of the most extensively used yel-low onions. Bulbs of medium size, uniformly globe shaped with small neck, and ripen very evenly. Flesh white, crisp, and of mild and excellent flavor. We have developed a strain which has the ripening habit and small neck of the original Danvers and yet is more globular, thus giving larger yields and handsomer bulbs without sacrificing any of the good quali-ties of the Original Danvers. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 40c.; 1b., \$1.25. White Silverskin—Ripens early; of large size, mild in flavor and excellent for Winter use; much esteemed for pickling when small. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 40c.; 1b., \$1.25. Large Red Wethersfield—Grows to full size the first season

Large Red Wethersfield—Grows to full size the first season from seed; almost round, large size, deep red color, and keeps well. Pkt., 5c. anl 10c.; oz., 15c.; ¹/₄ lb., 40c.; lb., \$1.25.

Australian Brown—The bulbs grow to a good marketable size, and are very hard and solid. They ripen earlier than eith-er Yellow Danvers or Red Wethersfield, are beautiful brown color and mild flavor. Pkt., 5c. and 10c.: oz., 20.; 1/4 lb., 60c. 1b., \$1.50.

White Bermuda—They are of a mild and delicate flavor, and keep longer than any foreign variety. They will produce full-grown onions from seed the same season. In the South seed sown in the Fall will produce fine large onions for market in early Spring. Pkt., 10c.; oz., 25c.; ¼ lb., 75c.

Red Bermuda—Pkt., 10c.; oz., 25c.; ¼ lb., 75c.

Chives Seed-Pkt., 10c.; oz., 75c.

ONION SETS

One quart will plant a row about 50 feet.

plant a row about 50 feet. Used for an early crop of onions, as the should be planted just as soon as the ground can be worked. Press the bulb lightly in the ground and do not cover; in rows 12 inches apart, 2 inches apart in the row; so that all the development goes in the onion; on signs of their going to seed, bend the top over, but do not break it off. They can be harvested in this locality for Winter storage as early as July 10th. The advantage in planting set lies in the fact that the young onion is ready in five weeks from time of planting, while those grown from seed cannot be used un-til well in the Autumn. Ship-ped on local orders about March 1st, unless otherwise requested.

requested.

If ordered to be sent by Parcel Post, include postage according to zone; a quart of Onion Sets weighs about ½ lb.

know that I have had wonderful results with your pure culture Most respectfully, MRS. J. J. GEORGE, Long Green, Md.

(German-Erbsen. French-Pois)

M. & S. SUPERIOR HAND PICKED PEAS

Bushel Prices on Application.

Sow one quart of seed to 100 feet of row; one and one-half to two bushels to the acre in drills.

Extra Early Peas-Weigh 60 lbs. to the bushel.

Wrinkled Peas-Weigh 56 lbs. to the bushel.

Culture—Peas succeed best in light, dry, loamy soil. Early and dwarf sorts require richer soil than the late varieties. If manure is used, let it be old and well rotted, or there will be a rank growth of vines with few pods. Sow the early, smooth, round sorts as early in the Spring as the ground can be worked. Seeds of wrinkled varieties are more liable to rot if the ground is cold, and must be planted later. Sow in single rows, dwarf sorts three feet apart and tall sorts four feet apart, or in dou-ble drills, six to eight inches apart, one inch apart in the drill, and not less than four inches deep. Deep planting prevents mildew. Packets of all varieties of Peas.

Packets of all varieties of Peas,

Fackets of all varieties of Feas, 5c, and 10c. If wanted by Parcel Post, include postage, according to zone. Weight, 1 pt., 1 lb.; 1 qt., 2 lbs.; pk., 15 lbs. Prices on all Pea Seeds are subject to market changes.

EARLY WRINKLED VARIETIES

M. & S. WORLD'S. RECORD-The M. & S. WORLD'S. RECORD—The earliest wrinkled pea ever intro-duced. Medium vines of dark green color and heavy foliage, bearing large handsome well-filled pods measuring sometimes 4 inches and longer, filled with from 8 to 12 ten-der luscious Peas. The best early wrinkled variety for private and market gardeners. Pt., 25c; qt., 40c; pk., \$2.75.

Gradus, or Prosperityof the most popular wrinkled sorts. Even though it ma-tures a short time later than the extra earlies, the pods, fully as long as those of the well-known Telephone, con-tain very large page that are weil-known Telephone, con-tain very large peas that are unexcelled for sweetness. Su-perior variety for market or garden. Pt., 25c.; qt., 40c.; pk., \$2.50. M. & S. LITTLE MARVEL

PEA—An extremely valuable variety, superior to Nott's Ex-celsior and American Wonder, especially suited to small home gardens, and also a splendid variety for early market gardening. It mamarket gardening. It ma-tures very early and produces large crops. The vines grow about 15 to 18 inches in height. The pods are dark green, fair sized, produced in pairs, and are closely filled with seven to eight peas of extra fine flavor. Pt., 25c.; qt. 40c.; pk., \$2.50. Thomas Laxton — An exceptionally fine variety, growing three feet in height and yielding large podded peas, four to five inches in length, of the finest flavor. Pt., 25c.; qt., 40c.; pk., \$2.50.

\$2.50.

\$2.50. Nott's Excelsior—One of the best dwarf early wrinkled peas. It grows about 14 inches high, very productive, and the pods three inches long, gen-erally contain six or seven large, sweet peas of the finest quality. Well recom-mended for home use. Pt., 25c.; qt., 40c.; nk. \$2.50.

mended for home use. Pt., 25c.; qt., 40c.; pk., \$2.50. American Wonder — Dwarfer and a trifle earlier than the preceding, but not quite so productive. The peas are sweet, tender and of delicious flavor. Pt., 25c.; qt., 40c.; pk., \$2.50. Use M.-S. Inoculating Bacteria on the Peas you plant and be surprised by results. Garden size, 50c. one-acre size, 75c.; two-acre size, \$1.45; four-acre size, \$2.25, and six-acre \$3.00.

EXTRA EARLY VARIETIES

EXTRA EARLY VAR Extra Early Alaska – Popular among market gardeners for an early crop. The pods are medium size, dark green in color and ripen almost at one time. Pt., 20c; qt., 35c.; pk., \$2.00. **Pedigree First and Best**-An ex-cellent strain of first early peas: very popular and largely planted throughout the trucking sections. Height two to two and one-half feet. Pt., 20c; qt., 35c.; pk., \$2.00. Market Surprise-Larger pod than the Pedigree First and Best. Fine quality, a little longer picking sea-son. Pt., 20c.; qt., 35c.; pk., \$2.00.

Extra Early Alaska Peas

Prolific Early Market—This is one of the largest podded and most productive of all smooth-seeded extra early peas. Vines grow about 30 inches in height, and can all be gathered in two pickings. The pods are remarkably well filled, and the peas sweet and fine flavored. A most satisfactory prolific early sort, both for the market gardener and the home gardener. Pt., 20e.; qt., 35e.; pk., \$2.00.
Long Podded Alaska — Vines of this variety grow about three feet high and are heavy bearers. The pods, three inches long, mature sh or tly after Alaska and are well filled, with sweet, tender peas. Pt., -This is one **Prolific Early Market-**

Alaska and are well filed with sweet, tender peas. Pt., 20c.; qt., 35c.; pk., \$2.25. M. & S. BOUNTIFUL-Re-sembling Long Pod Alaska in general habit of growth.

sembling hold rold analytic in general habit of growth. Vines light green in color. Pods 3 inches long, slightly curved. Seed bluish green, medium size and pitted. Height of straw, 30 inches. Pt., 20c.; qt., 35c.; pk., \$2.25. M. & S. SAXONIA--This is a grand new extra early pea, maturing in 75 days. Height of vine 30 inches, a very prolific bearer, bear-ing handsome pods 2% inches long all along the vine. Truckers will find this a profitable pea to. plant. Pt., 20c.; qt., 35c.; pk., \$2.25. pk., \$2.25. Bushel prices on applica-

tion.

MEDIUM EARLY WRINKLED

WRINKLED Daisy, or Dwarf Telephone—The striking features of the Daisy pea are its large pods and the way in which they are heaped up in ridges on the short, strong vines. The pods are nearly double the size of Amer-ican wonder, or Premium Gem, and are always well filled with large peas of most excellent quality. The vines are 16 to 18 inches high, and, being strong and thrifty, require no support, making it an ideal variety for use where brush or stakes are not available. This pea is desirable on account of the fine appearance of the pods, and always finds a ready sale. Pt., 25c.; qt., 40c.; pk., \$2.50. \$2.50.

M. & S. WORLD'S RECORD

Gentlemen-I bought one bushel of Telephone Peas from you and treated same with your M.-S. Legume Inoculation, same yielded 116½ bushels and sold for \$404.80. I beat all my neighbors. Yours truly, GEORGE PEARCE, Fork, Md.

MEDIUM and LATE VARIETIES PEAS-Continued

M. & S. Legume Inoculation for All Kinds of Peas—Means bigger crops, healthier vines, early and more continuous crops. Garden size, 50c.; 75c. per acre bottle; 2 acres, \$1.45; 4 acres, \$2.25; 6 acres, \$3,00. It will pay you to use this when you plant peas and beans. (See index.)

Telephone—For general planting this tall-growing variety is undoubtedly the most popular among market gardeners. The pods, four to four and one-half inches long, are light green in color and filled with large, sweet, tender peas. Pt., 25c.; pt., 40c.; pk., \$2.50.

Champion of England--A standard pea; vines grow four and

Champion of England—A standard pea; vines grow four and one half feet high and bear medium-sized pods of peas of good quality. Pt., 25c.; qt., 40 c; Pk., \$2.50. Improved Sugar Marrow Peas—We have the genuine stock of this variety. This pea is the kind planted principally by the larger growers around Baltimore for late crop. It is a strong grower and produces an abundance of large, well-filled pods. Pt., 25c.; qt., 40c.; pk., \$2.50; 60 pounds to bushel.

French Canner—Largely grown for canning. It is very productive, the pods are long, slightly curved and well filled; quality is good; late. Pt., 25c.; qt., 40c.; pk., \$2.50 60 pounds to bushel.
Dwarf Melting Sugar—The pods as well as the peas of this variety are edible and both very sweet. Pt., 30c.; qt., 50c.

PARSNIP

(German—Pastinake. French—Pannais) One ounce for 200 feet of drill; five to six pounds for an acre.

Culture—Sow as early in the Spring as the weather will admit, in drills 15 inches apart and one-half inch deep, in a rich, deep soil; thin out to six inches apart in the rows. The quality of the roots is im-proved by leaving them in the ground over Winter for Spring use.

Improved Hollow Crown-The best varismooth, white, tender, sugary, and of excellent flavor. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; 1b., 50c.

M. & S. IMPROVED JUMBO PEANUTS (German—Erdnüsse.

(French—Pistache de terre)

Culture—Plant in May or early June, in rows about two and one-half to three feet apart, dropping the nuts eight to ten inches apart, one in a hill. Cover one or two inches door Cultivote three two inches deep. Cultivate three or four times with a cultivator, so as to loosen the earth and keep down weeds, and at the last working, with a shallow turn-plow throw the dirt to the nuts.

Price—(Shelled)—¼ lb., 15c.; ½ lb., 25c.; lb., 50c. Special price on large quantity.

PEPPER

(German-Pfeffer. French-Poivre) One ounce will produce 1,000 plants.

Culture—Sow in hotbeds in March or April, or on a warm, sheltered border in May, and when the season is favorable transplant in rows two feet apart and 18 inches in row, in good, rich ground.

Large Bell, or Bull Nose-Large, early variety; hot flavor,

thick and flexible. **bin bin bin**

Perfection Pimento Pepper—Compact plant of uniform growth. Bearing an abundance of perfectly sweet large pep-pers, which can be used in their green state or when the fruit has turned red. It is the best sweet pepper for the home gar-den. Pkt., 10c.; ½ oz., 30c.; 1 oz., 50c. Large Sweet Spanish—A variety rivaling with Chinese Giant, is, however, not as large. Color and shape very similar, also late in maturing; for mangoes or pepper hash this is an ideal sort. Pkt., 5c. and 10c.; oz., 40c. Long Red Cayenne—Long, slim, and very pungent. Pkt., 5c. and 10c.; oz., 50c.

M. & S. Everbearing Sweet Pepper

Neapolitan—This variety is an excellent one, grows a long shape and somewhat narrow; it stands upright on the bushes. The fruit is sweet and bright red; a very early sort. Pkt., 5c.

and 10c.; oz., 50c. Golden Dawn—A large yellow variety, very sweet. Pkt., 10c.; oz., 50c.

PEPPER PLANTS LISTED ON PAGE 3

PARSLEY

(German—Petersilie. French—Persil) One ounce to 150 feet of drill.

Culture -Parsley requires rich, mellow soil. The seed is even slower than Parsney requires rich, menow soil. The seed is even as early as possible in the Spring, in drills one foot apart, and when the plants are well up thin to one foot in the row. When the plants are about three inches high cut off the leaves, the plant will start a new growth.

M. & S. GREEN CURLED BEAUTY PARSLEY — Very handsome, dark green, im-mensely curled. Dwarf habit, hardy and productive; very slow going to seed; it can be cut the year around. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 25c.; I lb., 75c.

Champion Moss Curled — A distinct variety of unequalled merit, beautifully crimped and curled. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Green Mountain Parsley —Beautifully crimpled and curled; perfectly hardy and vigorous grower. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; 1 lb., 60c.

M. & S. Green Curled Beauty Parsley. Plain, or Single-Very strong in flavor,

but not curled. Pkt., 5c.; oz., 10c.; 1/4 lb., 30c. Hamburg, or Rooted-Edible roots. Pkt., 5c; oz., 10c.; 1/4 1b., 30c.

POTATOES

(German-Kartoffeln. French-Pomme de Terre) Present Price on All Kinds: Pk., \$1.00; Bu., \$3.50.

Ten bushels cut tubers will plant one acre.

Prices on quantity of Potatoes furnished on application. Potato prices subject to market fluctuation.

Culture—Planting may commence as early in the Spring as the ground can be worked. Place one piece every twelve inches in rows two and one-half feet apart, covering about four inches. When cutting the seed allow one eye to each piece.

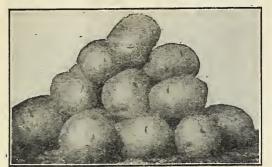

Our potatoes are put up in barrel sacks of 165 lbs. each Red Bliss-Very early, thin, red skin, round, white flesh.

Irish Cobbler—This is an early potato of exceptional merit, which has given our trade entire satisfaction. The shape is round. Flesh is white and the eyes strong and deeply set. Houlton Early Rose—The Houlton strain of the old favorite Early Rose has been the most popular on our market in recent years.

Write for prices on potatoes.

M. & S. FILL BASKET-On account of the large yields that have been reported on this potato, our sales on it have in-

creased won-derfully. It is of hands o m e shape and most shape and most desirable for the best trade. It is a vigor-ous grower. ripens uni-formly, is a good keeper and is fast be-coming one of the most poputhe most popu-lar medium late varieties. late varieties. The vines are

Irish Cobbler Potato Irish Cobbler Potato Irish Cobbler Potato Ivigorous, and tubers always good size, where soil is well tilled. Our customers will find the M.-S. FILL BASKET a very reliable potato. Very smooth and a good cooker. We can furnish nice stock while the supply lasts. Crown Jewel—A well-known and deservedly popular early variety. Very productive and an excellent cooker. Skin white and smooth, eyes shallow, but strong. Early Ohio—This is a very profitable variety. It is fit for use before fully ripe. It is shorter and rounder than the Early Rose, of good quality and very early. Improved Green Mountain, Early Norther, New Queen, Carmen No. 3, Prosperity, Burbank, McCormick, Rehoboths. Prices furnished on application. Choice Seed Sweet Potato Plants. SEE PAGE 3

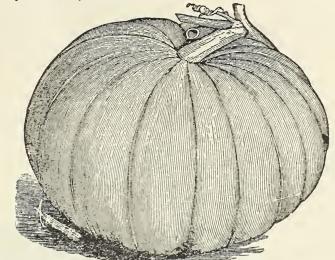

PUMPKIN

(German-Kürbiss. French-Potiron)

One ounce for fifteen hills; three to four pounds plants an acre.

One ounce for fifteen hills; three to four pounds plants an acre. Culture—Sow in the month of May. Make hills the same as you do for squashes, but do not make the hills too close. M. & S. YANKEE PIE PUMPKIN—The best Pie-Pumpkin that grows. Strong vines bearing an abundance of good keeping, large handsome pear shaped, golden yellow pumpkin, which are so sweet that they require very little sugar and ripen early. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; 1 lb., \$1.50.

Cushaw, or Winter Crookneck—An old standard variety, which is very popular. It is also used for feeding stock. Long yellow crook-neck, fine grained yellow flesh, very solid. Pkt., 5c. and 10c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25. Cushaw Striped—Same as above, but it is green and white striped. Price, same as above.

King of the Mammoths Pumpkin

King of the Mamoths, or Pot Iron-An immense variety, which always wins prize offered for the largest and best pump-kins grown to weigh over 200 pounds. Flesh of a rich, golden yellow; a splendid keeper. Pkt., 5c. and 10c.; oz., 15c.; ¹/₄ lb., 50c.; lb., \$1.50.

Japanese Pie—Flesh very thick, rich salmon color, fine grain, dry and sweet. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 45c., lb., \$1.25. 1b., \$1.... Cheese-5c.; 1b., \$1.25.
Cheese—Shape flat like a cheese box; good keeper, popular.
Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.
Common Yellow, or Connecticut Field—Very productive; for feeding stock. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

WATERMELON

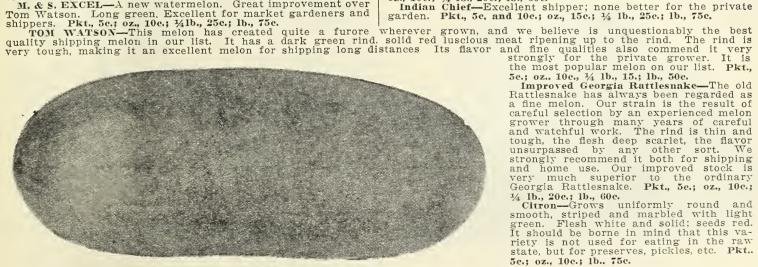

(German-Wasser Melone.

Culture-Watermelons should be planted in hills eight to ten et apart. Otherwise for culture, see directions for canta- b feet apart. loupes. Do not grow them near pumpkins or gourds.

TRY THESE IN YOUR NEXT GARDEN

NEW M. & S. GOLDEN HEART WATERMELON—A decided novelty in Watermelons. Vigorous vines producing an abun-dance of light green melons, which have delicious yellow meat almost to the rind. Pkt., 10c.; oz., 25c.; ¼ lb., 75c.

M. & S. SWEET HEART WATERMELON-The sweetest melon

M. & S. EXCEL WATERMELON

French-Melon d'eau)

French-Melon d'eau) r to five pounds for an acre. Monte Cristo, or Kleckley Sweet-Where sweetness com-bined with large size is desired this variety will surely please, as it not only produces melons above the medium size, but has that crisp, sugary flavor so much desired in a watermelon. It is the sweetest of all. Oval shape, skin dark green and some-what mottled; rind is thin, but sufficiently tough to stand car-rying to nearby markets. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c. Florida Fargarita-Large long stringd excellent for family

Florida Favorite—Large, long, striped, excellent for family garden. Rind thin, but firm; fiesh very deep red and very sweet. Splendid shipper. Pkt., 5c.; oz., 10c.; ¼lb., 15c.; lb., 50.

McIver's Wonderful Sugar-Resembles Old Rattlesnake, superior in quality. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 60c.

Gray Monarch, or Long White Icing—Very large, long, crim-son fiesh. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c. Mountain Sweet—Popular sort; early and sweet. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c. Indian Chief—Excellent shipper; none better for the private garden. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 25c.; lb., 75c.

Georgia Rattlesnake. Pkt., 5c.; oz., 10c.; ¹/₄ 1b., 20c.; 1b., 60c. Citron—Grows uniformly round and smooth, striped and marbled with light green. Flesh white and solid; seeds red. It should be borne in mind that this va-riety is not used for eating in the raw state, but for preserves, pickles, etc. Pkt.. 5c.; oz., 10c.; lb., 75c.

Capt. J. M. Moore, Revenue Cutter Service, Arundel Cove, Md., tells us that he was highly pleased with results he obtained from flower and vegetable seeds purchased from us.

M. & S. SELECT RADISH SEED (German-Radies. French-Radis)

One ounce for fifty-foot drill; ten pounds in drills to one acre.

Culture—To be tender and crisp Radishes must be grown quickly, and this requires rich soil and plenty of moisture. Com-mencing with the first mild spell in the Spring, sow at intervals of ten days. May also be sown as a catch crop between rows of beets, lettuce, onions, etc. Radishes can be forced in hotbeds, but must have plenty of ventilation and moisture.

EXTRA EARLY VARIETIES

M. & S. EARLY CARDINAL RADISH-These are the best little **M. & S. EARLY CARDINAL RADISH**—These are the east interest retrieves a season; they grow globular in shape and are of the most brilliant cardinal red color; are tender and crisp; will stand the heat and are fine for forcing. The most desirable kind for home garden and market gardeners' use. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 75c.

M. & S. SPECKLED BEAUTY RADISH—This is a very early, short leaved, handsomely spotted and striped; red and white globular-shaped radish. Very tender and crisp, to be highly recommended for home garden and retail market stall. Pkt., 5c; oz., 10c; ¼ Ib., 20c;; Ib., 60c.

Scarlet Globe Early—This variety can be used for forcing and is recommended for early outdoor planting. It is small, round, red radish, of excellent flavor. its rich, crisp, tender flesh makes it very popular. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50.

French Breakfast, Early-Oblong shape, rapid grower, very mild and tender; of a beautiful scarlet color, topped with white. Pkt., 5c; oz., 10c.; ¹/₄ lb., 20c.; 1b., 60c.

Early Long Scarlet Short Top-The principal outdoors quick-growing var-riety, also very good for forcing. Grown in light, rich soil, its average length is about eight inches; grows half out of the ground, straight, uniform in color, brittle, crisp, small tops, bright scarlet. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; b. 50c 1b., 50c.

Icicle—A beautiful long, slender radish, of recent introduction. Beautiful pearl-white color, firm and solid, slow to get woody. A good seller. Pkt, 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60e.

White Strasburg—Handsome, oblong, tapering shape, both skin and flesh pure white; flesh firm, brittle, tender and pos-sessing the most desirable character of retaining its crispness, even when the roots are old and large. Excellent for Summer use, as it withstands severe heat and grows very quickly. Pkt., 5c.; oz., 10c.; ¹/₄ lb., 15c.; lb., 50c.

New Glass, or Cincinnati Market—A long Scarlet Radish with a distinctive white tip. A suitable radish for deep mellow soil. A fine radish for the home garden as well as an attractive one for the mar-ket stall. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c. White Turnip (Short Top)—Of quick growth; roots round, pure white, tails very thin; leaves short, flavor excellent. Fine for forcing and open ground. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

White-Tipped Scarlet Globe-A good forcing variety. Small

White-Tipped Scarlet Globe

Prussian Globe—This is a short top, round red Radish, which will always stay popular on account of its good qualities; can be used for facing and outdoors. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.;

1 lb., 60c. Ruby King, Extra Early—Of brilliant red color, fine for forc-ing or open ground; roots are tender, juicy and mild. The best round red Radish that grows. Pkt., 5c.; oz., 10c.; ¹/₄ lb., 20c.; lb.,, 60c.

Crimson Giant—Like above but much larger. Very desirable. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; lb., 60c. Strawberry—The exceptional merit of this radish is proved by its popularity increasing every year with successful mar-

by its popularity increasing every year increasing every year. ket gardeners. This radish is a table dainty, crisp, tender and sweet; it is turnip shaped, bright scarlet color, and is a high class strain for out-door planting. It combines beautiful appearance with finest radish-quality—appealing to the eye and palate. Pkt., 5c.; oz., 10c.; ¹/₄ lb., 20c.; lb., 60c.

Summer Varieties

Large White Stuttgart—Very large, top-shaped, kesh and skin white, fine quality, firm and brit-tle, seldom pithy. Can be stored for Winter. Pkt., 5c.; oz., 10c.; ¹/₄ lb., 20c.; lb., 60c.

Large White Summer Turnip — Round, smooth and very white; crisp and tender. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.

Golden Globe—A favorite summer radish. Golden-brown skin, perfect globe shape, mild and brittle slow to seed. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Long White Vienna or Lady Finger — Has slender pure white roots which are smooth and average about 6 to 7 inches in size when matured. They are quite early and of excellent quality. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Improved Chartier — Somewhat resembling brightest scarlet— early radish. It is double the size and later; long scarlet and tipped with white. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Winter Varieties

Willtel Valiettes
 Long Black Spanish—Large radish, with black skin and white firm flesh, grows six to eight inches long. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.
 Round Black Spanish—Like the above, except that it is round shape. Pkt., 5c.; oz., 10c.;
 M. & S. EARLY
 M. b., 20c.; lb., 60c.
 Long White Spanish—Like the Long Black Spanish, only different in color. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.
 Long White Spanish—Like the Long Black Spanish, only different in color. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60e.

Round White Spanish—Like the Round Black, but white, like all the Spanish radishes, which are fine keepers, mild flavor and brittle. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

China Rose, or Scarlet China-Bright rose-colored, stump-ooted, of excellent quality. Pkt., 5c.; oz., 10c.; ½ 1b., 20c., 1b., 60c.

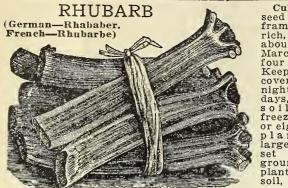

White Chinese, or New Celestial—Large stump-rooted, white skin and flesh, mild in flavor, brittle and never woody. For late planting and a splendid keeper. Market gardeners will find this a good variety that sells readily. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.

Sakurajima (Mammoth Japan)—The largest sort in cultiva-tion. Sow early in rich soil. In Japan it grows as much as twenty-one inches long and forty-three inches in circumfer-ence. Thin well to allow of proper development. Pkt., 5c. and 10c.; oz., 25c.; ³/₄ lb., 75c.

Merima—Also a Japanese radish. Similar to Sakurajima, but round instead of long. Very tender and sweet. Pkt., 5c. and 10c.; oz., 25c.; ¼ 1b., 75c.

HORSERADISH (German-Meerrettig; French-Raifort)-SEE PAGE 3

The best soil improver you can use is manure. Use plenty of it. We can sell you a whole wagon load in a 100 lb. bag of our High Grade Sheep or Cattle Manure, at a surprisingly low figure.

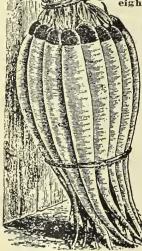

Culture — Sow seed in a cold-frame, in a fine, rich, sandy loam, about the first of March, in drills four inches apart. Keep the frames covered during nights and cold days, so that the soil will not freeze, and in six or eight weeks the plants will be large enough to set in the open ground. Trans-

solution in the open ground. Trans-plant to a rich soil, and set in rows twelve Spring transplant to a permanent location, setting four or five feet apart each way. In good soil Rhubarb is ready to use the second year from seed. If our two-year-old roots are used, a crop may be had the same season, which is much better than sowing seed where only a few plants for family use are needed. In the Fall the bed should have a thick dressing of coarse manure, to be spaded under in Spring. Queen Victoria—The leading variety. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.

ROOTS-SEE PAGE 3.

SALSIFY, or OYSTER PLANT (German-Haferwurzel. French-Salsifi)

One ounce to seventy feet of drill; about eight pounds to the acre.

Mammoth Sandwich Island Salsify

M. & S. Swiss Chard

Delmonico

pounds to the acre. Culture — Sow as early as the ground can be worked in the Spring, in drills twelve inches apart, one inch deep, and thin out to six inches in the row. Keep them free from weeds. Cultivate the same as for Carrots and Parsnips. A part of the crop may be left in the ground till Spring, when it will be found fresh and plump. The roots are cut into pieces one-half inch long, boiled until tender, and then served with drawn butter, in which way it is a delicious vegetable. They are also mashed and baked like Parsnips, and have a sweet and agreeable flavor like that of the oyster.

Mammoth Sandwich Island—This is an improved type and the lar-gest and most profitable salsify now in cultivation. It is white in color, and a satisfactory sort in every way; invaluable to market-gardeners and truckers gardeners and truckers.

Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

M. & S. SWISS CHARD DELMONICO

This is the finest swiss chard that grows, making large handsome, finely crimpled light green leaves, which are tenfleen leaves, which are ten-der and have a delicious flavor, the ribs are about and not unlike asparagus. Ab-solutely the best for home gardens. Pkt., 5c. and 10c.; oz., 15c.; ½ Ib., 25c.; 1 Ib., 75c. 75c.

Swiss Chard, or Spinach Swiss Chard, or Spinaca Beet, Giant Lucullus—The leaves of Swiss Chard are used as greens, cooked in the same man-ner as spinach, and the large ribs are prepared like asparagus, in which manner they are delicious. Pkt., 5c; oz., 10c.; ¼ 1b., 20c.; 1 lb., 60c.

TOBACCO SEED

Connecticut and Pennsylvania Seed Leaf-Pkts., 5c. and 10c.; No., 25c. Havana Seed Leaf-Pkts., 5c. and 10c.; oz., 35c. Maryland Tobacco-Pkts., 5c. and 10c.; oz., 25c.

SORREL, or SOURGRASS (German-Sauerampfer. French-Oseille)

(German-Sauerampfer. French-Oseille) Culture-Sow in Spring in drills 18 inches apart, in a rich soil and keep the flower-stems cut off as they appear. It re-mains in the ground year after year, and only needs to be taken up and divided once in four or five years. To be cut and cooked precisely like Spinach; or it is excellent cooked with it, one-third Sorrel to two-thirds Spinach. It is also used for soups. Very nice to be eaten after it has become cool. Inasmuch as the hot sun tends to increase its acidity, a north-ern exposure is preferable. Large French-Pkt, 5c.; oz., 25c.; ¼ lb., 75c.

SQUASH

(German-Gemüse Kürbis. French-Courge) Bush sorts, one ounce for fifty hills; five to six pounds to acre; running varieties three to four pounds in hills for an acre.

Culture Culture-Squashes should be planted in a warm, light, rich soil after the weather has be-come settled and warm, about the middle of May or June. Plant in well-manured or June. Plant in well-manured hills, in the same manner as Cu-cumbers and Melons — the Bush Varieties

31. & S. PERFECTION BUSH SQUASH—This is the finest scalloped white squash that grows, obtaining large size but stays tender as butter for a long time. The best for home gardens and market gardeners. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; 1 lb., \$1.25 M. & S. PERFECTION BUSH SQUASH-This is the finest scal-

Early Mammoth White Bush Squash—An excellent strain. Early prolific and much larger than the old White Bush. Splendid for market and best for shippers. Pkt., 5c,; oz., 10c.;

Splendid for market and best for shippers. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; lb., \$1.00. Summer Crookneck, Bush Variety—About one foot long, with crooked neck, bright yellow, warty, shell hard when ripe. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25. Hubbard—An excellent keeper and of splendid quality. Vines of strong running growth. Large olive-shaped fruits with dark-green skin and very rich flesh. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25. Golden Hubbard—Like the above, but of a beautiful orange-red color, except for a bit of olive-green on blossom end. Flesh deep orange, dry, fine grained and richly flavored. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Boston Marrow—This is a large-fruited, hard-shell sort, highly esteemed for Winter use, having bright orange skin and deep orange flesh. Very fine and extensively used for pumpkin pies. Fine strong running growth. Very productive, oval shape. Pkt., 5c.; oz., 10c.; ½ 1b., 20.; 1b., 60.

Gentlemen—The Sweet William Seed which I purchased from you last year turned out to be the most beautiful I have ever a. One bush seemed to be an exception. I can recommend them highly to any of your customers. seen. A. L. LEPPER, Raspeburg, Md.

TURNIP

(German-Rübe. French-Navet) One ounce for 100 feet; two pounds to the acre.

Culture—For early use sow as soon as the ground opens in Spring, drills from 12 to 15 inches apart; thin out to six or nine inches in the rows. For a succession, continue to sow in July and August. The Ruta Bagas are grown for feeding stock, and are also excellent for the table. Take up the roots in November or before severe frosts; cut off the tops within an inch of the crown, store in a cool cellar or pit, or pile up in a conical form, out of doors, in dry ground; cover care-fully with long straw and finish by earthing up, covering them with about 12 or 15 inches of earth, leaving a trench around the heap to carry off the water. Put away in this manner they will be found in good condition in the Spring. M. & S.

M. & S. EARLY CHAMPION TURNIP

This is the best Turnip for best Turnip for home gardens and market gar-deners to plant. It is large perfect globe shape, white assnow with a beautiful distinct red distinct red shoulder (tops are not over large), stays tender and sweet a long time. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; 1 lb.,

75c. Red, or Purple Top White Globe. A variety of decided of accurate merit, and the most popular in ourmarkets. Globularshape, very h a n dsome and of su-

perior qual-ity. Is a heavy pro-ducer, early, and of rapid growth, and an excellent keeper. Be-sides being a first-class table turnip, it is also very good for stock. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

Extra Early Purple Top Strap Leaved—The earliest in cultivation and a splendid turnip. Is very flat. medium size, smooth, with bright-purple top. Leaves bright-purple top. Leaves are few and short and grow compactly, making very small top.

Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

M. & S. Early Champion Turnip

Cow Horn—A long, white, carrot-shaped turnip, which grows half out of the ground. Mostly used for feeding stock, but makes a fine table sort. Has lately been brought to promi-nence for green manuring in connection with rape. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 60c.

Seven Top—Grown exclusively for its tops, and when proper-ly prepared and cooked, make a fine dish. Withstands our Winter without any protection. Pkt., 5c.; oz., 10c.; ½ 1b., 20.; lb., 75c. Tennoji Turnip-

Tennoji Turnip—A Japanese variety of exceptional merit. **Tennoji Turnip**—A Japanese variety of exceptional merit. Flat, snow white and of immense size, but very fine flavor. Seed very scarce. **Pkt.**, 10c.; oz., 25c. **Improved Purple Top Ruta Baga, or Swede**—The leading va-riety of Ruta Baga and is grown principally for stock, although it is very often used for table. Hardy, productive, flesh yellow, solid, sweet, fine grained and of good flavor. Ruta Bagas should be sown about one month earlier than other turnips. **Pkt.**, 5c.; oz., 10c.; ¹/₄ lb., 20c.; lb., 75c.

VEGETABLE MARROW

Italian (Cocozelle di Napoli)—Grows about 20 inches long, with a diameter of 3 or 4 inches. Skin smooth, dark green, marbled yellow or pale green. In Italy it is eaten when quite young. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.

Purple Top Yellow Aber-deen — Medium size, round, pale - yellow, tender and and sugary. Is hardy and productive and keeps well. Closelyapproaches Ruta Baga in har-diness and firm-ness of texture. This is an old es-teemed variety for stock. Pkt., 5c.; oz., 10c.; ¹/₄ 1b., 20c; 1 lb., 50c. Pkt., White

White Egg. A quick-grow-ing, egg-shaped variety. Very s mooth, pure white, grow halfout ofground. Has a small top and rough leaves. Flesh is of excel-lent quality. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb.,

50c Yellow, or Amber Globe —Excellent for table use or stock. Fine quality, keeps well. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c., 1b., 60c. Pomeranean White Clobe Free growing and Globe-Free growing and rough-leaved. Pure white. Useful for table and stock. Large and productive.

Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

Fall Spinach so largely grown for market. Grows up-right, the leaves be-ing crumpled, dark green and very thick. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 50c. 50c. Prices on larger quantities furnished

application. Boone County White—Recommended by the Agricultural Experimental Stations. A fine, large deep-grained variety, origi-nated by one of the best corn breeders. Qt., 25c.; ¼ pk., 40c.; bu., \$2.50. Price for larger quantity on application. Collier's Excelsior—White corn, especi-bly advated for horiny corn on eccount

ally adapted for hominy corn on account of its flintiness. Great producer on poor soil. Qt., 25c.; ½ Pk., 40c.; bu., \$2.50.

Boone County White Corn M. & S. White Ensilage Corn-Very prolific, tall grower. Qt., 25c.; ¼ pk., 40c.; bus., \$2.75.

Dear Sirs—I am writing to let you know that the twenty-five R. I. Red pullets arrived O. K., and they are a fine looking lot. I am very much pleased with them. FREDERICK AROLD, Mngr., for S. Proctor Brady, Lutherville, Md.

M. & S. "SURE CROPING TOMATOES (German-Liebesapfel, French-Tomate) EARLY VARIETIES

M. & S. Early Wonder—This is the first year that we are offering this wonderful extra early Tomato, after several years of careful selection. The fruits are large for so early a variety, round or slightly flattened, deep scarlet red color, smooth, free from cracks and of fine quality. It produces ripe fruit as early as Earliana and continues to yield marketable fruit a longer period than the other first early varieties. The vines are vigorous and very productive. We consider this a valuable addition to the list of early tomatoes for the market or home garden. Pkt., 25c.; oz., \$1.25; 2 oz., \$2.15; '4 Ib., \$4.00; Ib., \$15.00.

One ounce for 1,500 plants; quarter pound (to transplant) an acre.

Culture - This delicious vegetable is one of the most important of all garden products. The seed should be sown in a hotbed about the first week in March, or latter part of February, in drills five inches apart, and half an inch deep. When the plants are about two inches high they should be set into small pots, allowing a single plant to a pot. About the first of May the plants may be set out in the open ground in hills three feet or four feet apart, each way. (Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower pot, and placing it in a sunny window of the room or kitchen.) Cultivate thoroughly as long as the vines will permit, but the last two or three workings of the soil should be very shallow (surface cultivation), or the crop may be badly injured, especially if the cultivator is run too near the young plants.

M. & S. INCOMPARABLE TOMATO

We pronounce this the best medium early Tomato that grows. It produces large smooth fruit, which are very thick from stem to blossom end, very solid and of a deep red color. It yields immensely and clean up to frost, we have counted fifteen marketable fruit on a single crown setting. We do not mean to say that half the patch will do this, but we can honestly say that we saw a great many plants with seven, eight and nine fruits on a crown setting. The vines are stout and dark green, holding the fruit well off the ground.

Seed scarce, order early, grown exclusively by us.

Packet, 10 and 25 cents; ounce 50 cents; ¼ pound, \$1.75; 1 pound, \$6.00. Extra Early I. X. L.—Combines extreme earliness, immense size and prolificness. Fruit red, ripening mostly all at one time. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 75c.; lb., \$2.50.

> Sparks Earliana — Particularly desirable for shipping and for earliest market. The fruits are smooth, round, of red color, making desirable and salable fruits. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 75c.; lb., \$2.50.

Chalk's Early Jewel—The finest of the very early tomatoes. About a week later than the Earliana, but far superior in quality. Fine red color, fine quality, hardy and productive. Excellent flavor. A most profitable variety for early and main crop. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 75c.; 11b., \$2.50.

Extra Early Mascot—Great favorite among the Anne Arundel County truckers on account of its earliness, productiveness, and uniformity of good size; smooth, red-skinned tomatoes. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 90c.; 1 lb., \$3.00.

King of the Earliest—One of the largest Early Red Tomatoes, which well deserves its name. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 90c.; lb., \$3.00.

Bonnie Best—A tomato of fine quality. Early, round, smooth, red fruit of excellent flavor. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 75c.; lb., \$2.50.

John Baer—This tomato compares with Bonnie Best, but grows much heavier foliage and larger fruit; is also more productive. While not as early as the Earliest, it will pick some fruit quite early; the bulk of the crop coming five to seven days later. It is a good, all around tomato, the fruit being smooth, ripening clear to the stem and of a good rich red color. Pkt., 5 and 10c.; oz., 20c.; ¼ lb., 90c.; lb., \$3.00.

> June Pink—For gardeners who have a market for a nearly purplish pink fruit (which is produced in clusters.) This is the va-

riety to plant. True strain seed. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.50.

Sunnybrook Special—A great favorite with the Anne Arundel County truckers on account of its earliness, productiveness and uniformity. Pkt., 5c. and 10c.; oz., 25c.; ¼ 1b., 90c.; 1b., \$3.00.

Dear Sirs-My first order has been received. The plants, trees and rose bushes are all living beautifully. The magnolia MRS. ELMER O. TOWNSEND. Marion, Md.

M. & S. INCOMPARABLE TOMATO

M. & S. MAIN CROP AND SMALL FRUITED TOMATOES

M. & S. BIG CHIEF—A grand new main-crop tomato of the very highest quality. It produces an abundance of large handsome red fruit, which ripens clean to the stem and will bear heavily from early part of July until frost. It is a very shy seeder. The meat is deliciously juicy and free from acid. It is rare to see an ill-shaped fruit on a M.-S. BIG CHIEF VINE. We have tested this valuable new variety very carefully and have always been more than satisfied with the results. Order quick, as the seed is scarce, grown exclusively by us. Pkt., 25c.; oz., 50c.; ¼ lb., \$1.75; 1 lb., \$6.00.

-This variety has ob-Kelly's Red-**Nelly's Red**—This Variety has ob-tained immense popularity in the last few years. It was originated in Anne Arundel County. Its solidity and carrying qualities are remark-able. Its color is a desirable red. Its shape perfectly smooth and thicker from stem to blossom than most varieties making it most varieties, making it very handsome and salable. very handsome and salable. Nobody finds any fault with this variety, but all speak in the highest terms of its beautiful color, its wonderful yielding quali-ties, its un-equaled firm-ness, or some other of its good points. Pkt., 5c. and 10cc; oz., 25cc; 4 lb., 75c; lb., 14 1b., 75c.; 1b., \$2.50.

Greater Balti-more —General crop tomato of more —General crop tomato of sterling merits; large, smooth, beautiful red skin fruits, which are pro-duced in great abundance un-til frost kills the vine. Pkt., 5c and 10c.;

be and 10c.; oz., 25c.; 14 lb., 75c.; 1 lb., \$2.50. B. B. (Brinton's Best) --A very fine late crop tomato, which is simi-lar to the New Stone. Keeps well after being picked A vigorous ge Reeps weri arter being picked. A vigorous grower and quite popular. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00. Ponderosa-Remarkably large and of fine quality. Very solid. Pkt., 10c.; oz., 35c.; ¼ lb., \$1.25. M. & S. IMPROVED NEW STONE-This variety is one of the very best tomatoes grown. For pro-ductiveness, shipping and canning qualities it is excelled by none. Bright scarlet, fine flavor, very smooth and round. We recommend it as a thoroughly reliable main crop tomato. Pkt., 5c. and ly reliable main crop tomato. **Pkt., 5c. and** 10c.; oz., 20c.; 1/4 lb., 60c.;

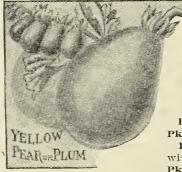

1b., \$2.00.

Livingstone's Globe—Glossy rose - color, tinged with purple, very early, smooth and of large size; very pro-ductive and a good keeper. A standard va-riety which re-tains its popu-larity; very popular with ers. Pkt., 5c. Livingstone's Pkt., 5c. ers. and 10c.; oz., ¼ lb., 20c.; 60c.; 1 1b., \$2.

New Queen-Large, solid, smooth, hand-some, deep red color, a heavy cropper and popular with canners. Pkt., 5c. with canners. Pkt., 5c. and 10c.; oz., 20c.; ¹/₄ lb., 60c.; 1 lb., \$2.00.

Maryland Pride — A tomato for main crop. Producing enormous quantities of fine,

Prices Subject to Market Fluctuation.

or Lucerne (Medicago sativa)-Requires deep, Alfalfa, or Lucerne (Medicago sativa)—Requires deep, rich, well-drained soil. Roots very deeply, the tap-root descending often to a depth of 10 or 15 feet in loose soil. It is, conse-quently, capable of resisting great droughts. It should be sown alone (about the same time as oats are sown in this section) in thoroughly prepared, deeply plowed soil, at the rate of 20 to 25 pounds to the acre. It is also successfully sown as late as August and up to the middle of September. The crop should be cut when the plant is coming into bloom. In suitable soil it is perennial, and several crops may be cut every year. Height, one to three feet. We handle home as well as foreign grown alfalfa. **30c.**, per lb. Large quantity price on application. application.

Alsike, or Hybrid Clover (Trifolium hybridum)—A perennial, one to three feet high; grows well in our locality and can with-stand severe cold. A good honey plant for bees. Fifteen lbs. to the acre. Lb., 30c. Red Clover (Trifolium pratense)—One of the most

Red Clover (Trifolium pratense)—One of the most valuable farm crops for pasture, hay, or for turning under for green manure. It requires a deep, rich soil and yields two hay crops in the season. Sow at the rate of 15 pounds to the acre. Lb., 35c. Mammoth Red, or Sapling Clover—Grows larger and lasts longer than the common red clover; valuable for plowing under. Ten pounds to the acre. Lb., 35c. Crimson, or German Clover (Trifolium incarnatum)—Erect annual, one to two feet high, with bright-scarlet flowers. It is largely grown for improving the soil by turning under. It is a valuable crop for pasturage or green manure. For hay it

Is largely grown for improving the soil by turning under. It is a valuable crop for pasturage or green manure. For hay it should be cut when in full bloom. Sow 20 pounds to the acre. Lb., 20c.
 White Sweet Clover (Melilotus Alba or Bok hara)—Valuable sort for soiling and for ensilage and bees. Grows from 3 to 5 feet high; sown in rich soil; may be cut three times; last for year if cut before flowering 25c., lb.
 White Clover (Trifolium repens)—It makes an excellent turf that stands constant trampling. It is of dwarf habit, spreads rapidly and is very hardy. It is valuable in lawns and permanent pastures, being sweet and nutritious. Sow in Spring. In mixtures, one or two pounds; if alone eight or ten pounds to the acre. 14 lb., 20c.; 1/2 lb., 35c.; lb., 60c.

M. & S. Legume Inoculation for All Kinds of Clover—Means bigger crops, healthier growth, early and more continuous crops. Garden size, 50c.; 75c. per acre bottle; 2 acres, \$1.45; 4 acres, \$2.25; 6 acres, \$3.00. It will pay you to use this when you plant peas and beans. (See index.)

Baltimore Are Seeded With M. & S. Well-Known LAWN SEEDS M. & S. ROLAND PARK GRASS SEED

M. & S. ROLAND PARK GRASS SEED One of the most essential parts of the country place and suburban home is a carefully made and well-kept lawn. No trouble should be spared in its making, as much of the fu-ture results depend upon the start or foundation of the lawn, which, if correctly made, can easily be kept in perfect condi-tion for years, and give pleasure not only to the owner, but to others who see it. In seeding for lawn-making, care should be taken that a well-balanced mixture of grasses is used, one composed of such varieties as will blend together well and also ripen successively, thus securing a healthy and beautiful color throughout the summer. Our M. & S. Roland Park Lawn Grass Seed produce beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvet appearance throughout the entire summer and fall. In making up this brand we are careful to use seed that has been thoroughly re-cleaned, the light seed and chaff having been blown out. 1 lb., 40c; 3 lb., \$1.15; 5 lb., \$1.S5; 10 lb., \$3.50; bu., of 20 lbs., \$6.75. M. & S. SHADY NOOK GRASS—It is quite difficult to obtain a setificatory growth of cruss under theors and in short

Ibs., \$6.75.
M. & S. SHADY NOOK GRASS—It is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.
I lb., 40c; 3 lb., \$1.15; 5 lb., \$1.85; 10 lb., \$3.50; bu, of 20 lbs., \$6.75.
M. & S. PLEASURE GROUND MIXTURE—For fair greens

Ibs., \$6.75.
M. & S. PLEASURE GROUND MIXTURE—For fair greens, etc. The turf required for pleasure grounds must be of a character to withstand rough usage. This special mixture is made from our own formula, and will produce a permanent turf that will stand the hardest wear. For tennis courts, cricket tables, golf links, polo grounds, or wherever a good sward is wanted, this seed will give perfect satisfaction. We believe that the golf links should be as fine as a velvety lawn, hence the need of a fine mixture.
1 ba, 40e; 3 bb, \$1.15; 5 bb, \$1.55; 10 bb, \$3.50; bu, of 20 lbs., \$6.75.

White Clover---¼ lb., 20c.; ½ lb., 35c.; lb., 60c.
M. & S. Permanent Pasture Mizture, either for Low or Up Lands. It is made up of the grasses best calculated to afford an abundant and nutritious food supply for stock. The formulas are based upon successful experience. For all ordinary permanent pasturage, they will be found entirely satisfactory. 1 lb., 35c.; bu. of 20 lbs., \$6.00.

M. & S. FLOWER SEED DEPAR

Our flower seeds have a reputation for their superior quality and for the excellent results obtained by sowing them. It is our

constant endeavor to supply only such varieties and strains that will give the best of satisfaction. Throughout the following pages of Flower Seeds the different varieties are designated as Annuals, Biennials, Perennials, etc., and for the benefit of those who are not familiar with these terms, we wish to make the following explanation: Annuals. These grow and bloom, mature their seed, and then die in the same year, such as Asters, Balsams, Poppies, Sweet Peas, Morning Glories, etc., some of which may be sown in the house from March to May, or outdoors after danger from frost is over.

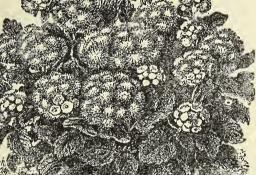

Biennials. These grow from seed sown during mid-summer, flowering the second year, after which they die; many of the varieties bloom the first season if sown early. In this class we have Pansies, English Daisies, Campanula Medium, Dianthus, etc. **Perennials.** Those which live from year to year, such as Aquilegia, Delphinium, Foxglove, etc. Seed may be sown outdoors from June to September and transplanted late in fall into their permanent quarters, and protected during winter with a light litter of straw or leaves. The hardy perennials not usually needing any protection after the first winter; the half-hardy perennials require protection during the winter, and the tender perennials during the winter require greenhouse protection. All Flower Seeds are 5c. Package, unless otherwise noted. All annuals are marked (a); Biennials (b); Perennials, (p).

Adonis (a) (Bird's Eye)-One of the choicest Spring flowering plants. Crimson.

Ageratum (a) (Floss Flower) -An excellent plant for edging or solid effects. fects. A con-tinuous bloomconer. Imperial Dwarf Blue, Imperial Dwarf White or mixed.

Alyssum (a) (Carpet Snow)-One of lar garden

flowers; in bloom all season. vases

Ageratum Used for edging or in rockeries

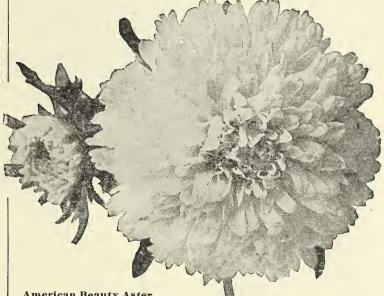

Amaranthus (a)-Decorative Foliage plants. Caudatus (Love Lies Bleeding) drooping crimson racemes. Tri-color Splendens (Joseph's Coat), leaves red, yellow and green.

> Antirrhinum (p) (Snapdragon) · A splendid plant for beds or borders and one of our choicest cut flowers. To have flowers early, sow indoors during February and March.

M. - S. Giant Yellow, Pink, Striped, Scarlet colors and also

Antirrhinum or Snapdragon mixed. M. & S. SUPERB ASTERS To our minds there is no other flower which combines so much beauty with grace and usefulness. In bloom from July till frost. To have early flowers sow indoors from March till May, otherwise sow outdoors. Asters require well-pulverized soil.

M. & S. AMERICAN BEAUTY ASTER—The Queen of All Asters. Very new, far superior to Pacony and Branching varieties. In 5 colors. Carmine, Rose, Purple, Lavender, Sept-ember Beauty, (Shell Pink and Rose). Pkt., 10c., 25c., and 50c.; oz., \$2.50.

American Beauty Aster

Aster Paconie—Flowering: White, rose, scarlet, lavende: dark blue and choice mixed. 10c. pkt.; 3 for 25c.; oz., \$2.00. lavender.

Aster (Ostrich Plumed)—Very beautiful; White, rose, scar-let, lavender, dark blue and choice mixed. 10c. pkt.; 3 for 25c.; oz., \$2.00.

Asters, Semple's Branching--In five distinct colors. pink, dark red, light blue, dark blue and all colors mixed. 10c. pkt.; 3 for 25c.; oz., \$1.75.

Aster, Queen of the Market-Very early; white, pink, lav-ender, scarlet, dark blue and choice mixed. 10c. pkt.; 3 for 25c.; oz., \$1.50.

Asters-China, mixed, double, choice colors. Perennial Aster (Michaelmas Daisy)-10c. pkt. Balloon Vine (a) (Love in a Puff)-A rapid growing annual climber. Seed pods look like miniature balloons.

Balsam (a) (Lady's Slipper)—An old-fashioned flower. With plenty of room they will develop to immense plants with gorgeous flowers.

Balsam Apple (a) (Momordica)—Handsome climbing annual, bearing ornamental orange colored fruit. Begonia (a)—Invaluable for bedding and pot culture; about one foot high, beautiful foliage, pink, white and crimson mix-ed. 10c. pkt.

ALL FLOWER SEED PACKAGES ARE 5 CENTS UNLESS **OTHERWISE STATED**

Calendula (a) (Pot Marigold)—Free flowering, in bloom from early summer till frost. They may also be successfully grown indoors. Lemon, Queen, Meteor, Orange King and mixed. Oz., 35c.; pkt., 5c. and 10c.

35c; pkt., 5c. and 10c. California Poppy—(See Eschscholtzia). Calliopsis (a) —A very showy annual in bloom from early summer till frost. Lemon, yellow with dark brown centres, rich crimson and mixed. Oz., 40c.; pkt., 5c. and 10c. Campanula Media (p) (Canterbury Bell)—These are strictly biennials and require the following cultural directions: Sow from June 1st till September 1st; when strong enough trans-plant to a distance of six inches apart, after frost has set in protect with leaves and straw. They flower the following June, after which they die. Their colors are so pure that gorgeous effects can be achieved with them. Single blue, pink, white or mixed. Oz., 75c. Canary Bird Vine (a)—One of the most charming annual climbers, bear-ing hundreds of pretty, fringed bright yellow flowers, which resemble a can-ary bird with expanded wings. Oz., 35c.; pkt., 5c. Candytuft (a)—Dwarf, profuse flow-

Carnation

continuously. If slight-ly protected the first winter they will re-vive the following spring and bloom during that whole season.

Pkt., 10c.; 3 for 25c.; oz., \$1.00.

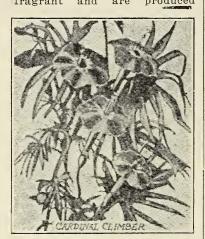

Pkt., 10C; 5 for 20C; 0.3; \$1.00. Cardinal Climber (a) (Ipomea Quamoclit Hy-brida)—One of the finest anual climbers known to-day. Very graceful and beautiful, growing rapidly, and in a warm, sunny loca-tion with good soil, it reaches often a height of 20 feet; it is densely clothed with palm-like, rich green leaves, bespan-gled with clusters of fiery scarlet, tubular spear-shaped flowers, measuring about 1¼ inches across (See illustration.) Price: Pkg., 25c.; 5 pkts. for \$1.00. illustration.) Price: 25c.; 5 pkts. for \$1.00.

Vinca (p) Mada gascar Periwinkle) — —Dwarf bedding plants with deep green glossy foliage and bright single

CHINESE WOOL-FLOWER

This was introduced from China some years ago and has proved a great success everywhere. There is not the slightest doubt but that it is the most magnificent garden annual. Its ease of culture and long continued season of bloom (early in July until frost), together with its massive bunches of wool-like flowers and glowing color combine to make it the showiest as well as the most odd and novel garden flower.

Plants grow two to three feet high, the blooms starting early with a central globular head which often reaches the immense size of two feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage so that a plant looks like an immense bouquet splendidly arranged and set in the ground. None of the blooms fade in any way until hit by frost, but all continue to expand and glow with a deepening richness of color, a deep crimson-scarlet. Seed: 10c. per pkt.; 3 pkts. for 25c.

M. & S. STANDARD INOCULATING BACTERIA-SPECIALLY PREPARED FOR SWEET PEAS-GARDEN SIZE, 50c.

MADERIA, OR MEXICAN VINE (Hardy)—The tubers, if planted deep and protected during the Winter, are hardy. The leaf is very deep green, and grows very dense; the flower is small, white in color and fragrant. This very rapid-growing vine should be planted wherever a dense, quick shade is de-sired. Roots, 5c. each; 50c. doz. Parcel post weight, 1 doz. 1 b. 1 lb.

DAHLIA-FLOWERING ZINNIA

We are intro-ducing to our patrons a distinct new type of Zinnia. Very of Zinnia. Very exquisite in shape and col-or. We feel positive that this Dahlia flowering type, will be the commencement of a new era in the Zinnia the Z World. Pkt., 10c., 25c. and 50e.

30c. M. & S. Picotee Type Zinnia.—We offer for the first time this exquisite new Zinnia. The flowers, which are not quite as large as the double giants, are very effective in appearance, as the edges of the petals are all well marked with a distinct color to the body of the flower, making them very attractive as bedders and cut flowers. Pkt., 10c., 25c. and 50c. 25c. and 50c.

Do not forget to order that Bag of Sheep Manure and be assured of success in your flower garden.

M. & S. SUPERFINE GLADIOLUS

If by Parcel Post, add postage at Zone Rates (average weight, 10 lbs. per 100. Single bulbs and dozens we deliver free in U.S. Culture—What a wonderful stride the Gladiolus has made during recent years. Its popularity today is exceeded by few other flowers, and it has by no means reached its limit. And there are good reasons for this popularity. Failure with it has never been known. Gladiolus will grow in any open position, where there is a fair amount of sun, and bloom well. They are not only showy in the garden, but, when cut with the first flower open will last for 10 days in the house. The newer colorings defy the choicest orchids. Plant bulbs 3 to 4 inches deep, 6 inches apart and stake when 2 feet high. Flowers appear from early July until late in the fall.

M. & S. NAMED GLADIOLUS Our bulbs are 1½-inch and up.

Our bulbs are 1½-inch and up. America—A beautiful flesh pink, tinged with lavender. A va-riety of robust growth and easy cultivation. The flowers are very large and expanded, many being open at one time. 6c. each; 60c. doz.; 100, \$4.00. Schwaben—A most meritorious imported variety of wonder-ful vigor, with strong erect spikes and large well-expanded flowers of a clear canary yellow with a small blotch of deep garnet in the throat. 10c. each; \$1.00 per doz.; \$7.50 per 100. Niagara—An entire new color in Gladiolas, to describe it in-telligently one must imagine a shade of rich cream combined with canary yellow. The form and habit of this variety is exactly like America, except that the spike grows faller. The individual fibwers are very large and borne in pairs opposite each other. 7c. each; doz., S0c.; \$6.00 per 100. Mrs. Francis King—One of the best and most popular sorts, which comes in for much admiration, both for size of flower and beauty. A most beautiful flame pink. Immense flowers on a spike growing 4 feet high, with from 18 to 20 flowers, 6'to 8 being open at one time. Many of the bulbs produce two and three flower-spikes; a gem among Gladiolus. 6c. each; doz., 60c.; \$4.00 per 100. M & S Blue Hybrids—A fine mixture of dark blues including

being open at one time. Many of the burss produce two and three flower-spikes; a gem among Gladiolus. 6c. each; doz., 60c.; \$4.00 per 100.
M. & S. Blue Hybrids—A fine mixture of dark blues, including Baron Joseph Hulot and most all recent Blue introductions.
7c. each; 80c., doz.; \$6.00 per 100.
Princeps—Amaryllis-shaped, gigantic flowers of a dazzling bright scarlet, marked with white on the lower petals. Two to three flowers open at one time. 10c, each; doz., S0c.; 100, \$6.00.
Halley—Delicate flesh rose, with white blotch, very lovely.
6c. each; 60c. doz.; \$4.00 per 100.
Panama—A grand new seedling of America which it resembles, but is of deeper pink; flowers very large and spike long.
10c. each; \$2.00 doz.; \$7.50 per 100.
Chicago White—Pure white, lavender markings. 7c. each; 75c. doz.; \$5.00 per 100.
Augusta—Beautiful ivory-white, faintly-tinted rose without markings; large flower with frilled edges. 7c. each; 75c. doz.; \$5.00 per 100.
M. & S. Choice Mixed Gladiolus, composed of all named varieties in gorgeous blending. 5c. each; 50c. doz.; \$3.00 per 100.

ties in gorgeous blending. 5c. each; 50c. doz.; \$3.00 per 100.

Gladiolus "America"

M. & S. SUPERFINE CANNA BULBS

In almost every In almost every private garden, in all public parks and in most of the large cemeteries, Cannas are used with the greatest effect to adorn the surroundings. It is difficult to convey difficult to convey in language an idea of the beauty of the Canna plant and flower.

Culture --- Canna Culture — Canna tubers should not be put into the ground until the soil has become warm. They com-mence blooming in June and continue until late in Sep-tember. Every shoot hears a flowshoot bears a flow-er and these shoots are being constantly proconstantly pro-duced throughout the blooming season.

Note-Our prices Note—Our prices are for dormant roots in strong di-visions of two and three eyes. After May 1st our stock of roots is usually sold, at which time we can fill orders with well-developed plants.

Rosea Gigantea—A wonderful novelty, the largest of pink cannas in existence, colored a rich rose pink, foliage green. 4 ft. 10c. each; \$1.00 doz.; \$8.00 per 100. Gladiator—One of the finest bedders, color deep yellow freely dotted with red; 4½ feet; green foliage. 7c. each; 70c. doz.; 57.00 per 100.

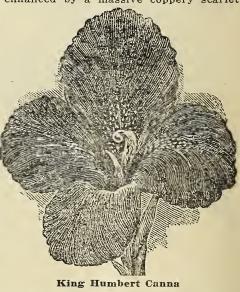

5.00 per 100. Gustav Gumper—This is an ideal, rich yellow bedding Canna; the flowers of a good size, are held well above the foliage. The

color is a rich golden yellow; a shade that can be seen as far as the eye can carry. **7c. each; 70c. doz.; \$5.00 per 100. Maros**—The best white flowering Canna. Its flowers of creamy white are produced very freely on stems thrown well above the foliage. **7c. each; 70c. doz.; \$5.00 per 100. King Humbert**—Truly a king among the Cannas, its majes-tic growth is doubly enhanced by a massive coppery scarlet flower and the broad deen bronze foliage.

deep bronze foliage. It grows 4 feet high and is splendid either as a centre, edged with a dwarf yellow Canna, or vice versa, placing it around a centre of a tall yel-low variety. Sc. each; S5c. per doz.; \$6.25 per 100. J. D. Eisele-Bril-lian vermilion scare.

lian vermilion scar-let. 3½ feet. 7c. each; 70c. doz.; \$5.00 per 100.

100. Jean Tissot—Bril-liant vermilion, orange shading. 3½ feet. 7c. each; 70c. doz.; \$5.00 per 100. Uncle Sam — Clear, deep orange flowers, borne in large clus-ters; often a foot across each, branch-ing stems, about 4 feet; strong vigorous grower. 10c each; grower. grower. 10c each; 1.00 doz.; \$7.50 per 100.

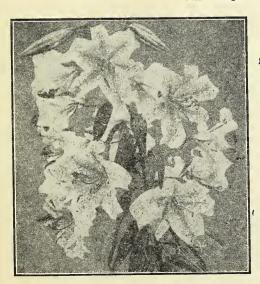

100. Louisiana—Large orchid flowering, beautiful orange scarlet; 5 feet; green foliage. 10c. each; \$1.00 doz.; \$7.50 per 100. Queen Charlotte—Makes a gorgeous display when planted in masses; color a wide band of yellow, bordering a centre of scar-let; 3 feet high; green foliage. 7c. each; 70c. doz.; \$5.00 per 100. Florence Vaughan—Grows 5 feet high green foliage, rich gol-den yellow, dotted red. 7c. each; 70c. doz.; \$5.00 per 100. Venus—Rose Pink with mottled border of creamy white. 7c. each; 70c. doz.; \$5.00 per 100. Wyoming—Bronzy-purple foliage with immense spikes of massive orange flowers;. 7 feet. 7c. each; 70c. doz.; \$5.00 per 100.

THE NEW DAHLIA PATRICK O'MARA

HARDY JAPANESE GARDEN LILIES All Postpaid

Lillium Auratum

All herbaceous borders should have a few lilles scattered through them. The sorts offered below can be planted with ex-cellent results during the early Spring months. It is in the hardy border that Lilles do best, as they get the benefit of the shade of the surrounding plants, which is so necessary for their wel-fare; other varieties should be planted in the Autumn, and are offered in our Autumn catalogue. Auratum (Goldbanded Lily)-Large, graceful flowers, composed of six petals of a delicate ivory-white, thickly studded with choc-olate-crimson spots and striped through the centre by a golden yellow. 30c. each; \$3.00 per doz. Speciosum Album-Large white flowers of great substance, with a greenish band running through the centre of each petal. 30c. each; \$3.00 per doz. Speciosum Rubrum, or Rosenm -White, heavily spotted with

Speciosum Rubrum, or Roseum —White, heavily spotted with rich, rosy-crimson spots. 30e. cach; \$3.00 doz. Speciosum Magnificum—Rich, Acce wed 20e archi \$2.00 doz

deep red. 30c. each; \$3.00 doz.

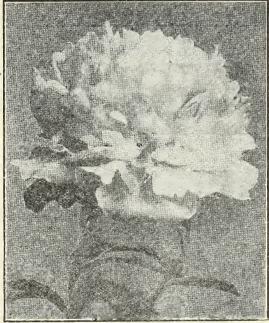

THE NEW DAHLIA **PATRICK O'MARA**

PATRICK O'MARA-The sensation of the New York show of the American Dahlia Society in 1920 where it was awarded the following:-American Dahlia Society, Gold Medal; Society of American Florists, Silver Medal; Toronto Horticulture Society Bronze Medal; Re-ceived the highest score at the trial grounds of the American Dahlia Society at the Conneti-field culture. During the trying season of 1921 it maintained its reputation in every way, giv-ing almost universal satisfaction all over the country and a prize winner wherever exhibited. The flowers can be grown to enormous size by special care under ordinary field culture, they are about five to six inches in diameter, pro-duced on long stems, which holds the flower erect. The color is an unusually soft and with neyron rose, a rare autumn shade that is greatly in demand. It is a splendid shipping and long keeping Dahlia. We feel safe in saying there is none better for commercial use or more pleasing for the garden, Price of tubers or plants \$3.00 each; \$30.00 doz. postpaid.

M. & S. CHOICE PAEONIES

Double Paeonies are too well know to re-quire description. Their present popularity is due to the great improvement in them in recent years, their easy culture the hand-some appearance of the plant, and the bril-liant and striking effect of their massive, finely formed and richly colored flowers.

Parcel Post weight, 1 pound each.

M. and S. Choice Paeonies

The attention given to them, in Europe and America, has resulted in the production of many notably fine new varieties. Among hardy, herbaceous perennials, the Chinese Paeonies rank about first for lawn or flower-border, or shrubbery decoration. They are all hardy.

all hardy. Duchess de Memours—Pure white, profuse-bloomer, 30c. each; \$3.00 doz. Jeanne d'Arc—Fine rose, centre creamy white and sulphur. 30c. each; \$3.00 doz. Rosea—Beautiful pink. 30c. each; \$3.00 doz. Rubra—Bright red. 30c. each; \$3.00 doz. Extra large clumps of any of the above, 50c. each; \$5.00 doz.

M. & S. SUPERB DAHLIAS If to be sent by parcel post add 10% to the purchase Price

CLASSIFICATIONS OF DAHLIAS

Class 1.—Cactus—This class embraces the long, narrow-petaled varieties, the petals of which are generally pointed or twisted.

Class 2. Decorative—This class is an intermediate form having broad, flat petals.

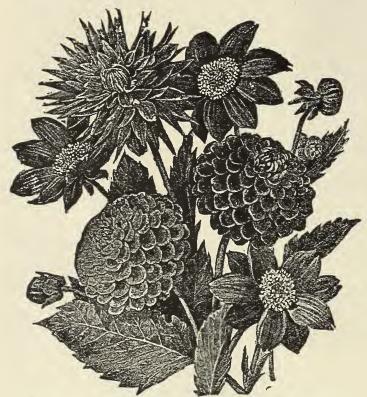

Class 4. Peony Flowered-A semi-double of the decorative form.

Class 5. Pompon-This class embraces the small, round Dahlias.

Class 6. Show—The name Show applies to those varieties producing large, well-formed flowers, showing only solid colors, but may frequently have shaded tips.

Class 7. Single-Too well known to require a description.

Class S. Collerettes-Single flowers with another layer of petals on the stamen.

No Garden is Complete without these Great Favorites. Alba SuPerba (Single)—Pure white. 15c. each; \$1.50 doz.

A. D. Livonia (Show)-Rich sea shell pink. 15c. each; \$1.50 doz.

Arabella (Show)-Pale primrose, tipped old rose and lavender. 15c. each; \$1.50 doz.

Big Chief (Century)—Brilliant cherry red, margined rich velvety maroon. 20c. each; \$2.00 doz.

Annie Doppenberg (Peony)—A beautiful, bright yellow flower, with a white reflex good size holding heads erect on long, stiff stems very free flowering 25c. each; \$2.50 doz.

Bon Ton (Show)-Deep, rich garnet. 20c. each; \$2.00 doz.

Little Herman (Pompon)-Deep red topped white. 15c. each; \$1.50 doz.

Hampton Court (Peony)—One of the best yet introduced. Bright mauve pink. 30c. each; \$3.00 doz.

Henry Patrick (Decorative)—Large pure white. 20c. each; \$2.00 doz.

Hortulanus Witte (Decorative)—Very large, long stemmed, free flowering, pure white. 30c. each; \$3.00 doz.

Lyndhurst (Decorative)—Intense rich, vivid scarlet. 15c. each; \$1.50 doz.

Miss Minnie McCullough (Decorative)-Soft yellow, overlaid with bronze very popular. 15c. each; \$1.50 doz.

Meteor (Decorative)—Red nose and mottled buttercup yellow, very free yielder of medium size flowers on good long stiff stems. 20c. each; \$2,00 doz.

John Stisser (Peony)-See page 34.

Magnificent (Show)—The most perfectly quilled dahlia grown, soft lemon yellow. 20c. each; \$2.75 doz.

Masterpiece (Peony)—A gigantic flower of rich clear tango, borne on stems 20 inches long, blooms freely all season. 25c. each; \$2.75 doz.

Mrs. F. Gromsted (Cactus)—Deep rich crimson. 25c. each; \$2.75 doz.

Queen Mary (Decorative)—Fine rose pink. 15c. each; \$1.50 doz. free bloomer, long stems.

Ottilia Meyer (Peony)-See page 34.

Planet (Cactus)—Rose pink, variegated with maroon. 30c. each; \$3.00 doz.

Princess Mary (Decorative)—Mauve rose, exquisite. 35c. each; \$3.50 doz.

Rembrandt (Peony)—Anemone center; one of the most distinct and refined varieties of recent introduction, color yellow, spotted light pink. One of the finest. **35c. each; \$3.50 doz.**

Rene Cayeaux (Cactus)—Rich geranium red. 20c. each; \$2.00 doz.

Rosalia (Pompon)-Yellow edged crimson, 15c. each \$1.50 doz.

Rose Pink Century-Clear rose pink. 20c. each; \$2.00 doz.

Ruby Queen (Show)—Clear ruby red. 20c. each; \$2.00 doz.

Souv. Mme. A. Moreau (Show)—Deep rose pink (new). 25c. each; \$2.75 doz. Standard Bearer (Cactus)—Rich, fiery red. 20c. each; \$2.00

doz.

Sylvia (Decorative)—Rich pink, white center. 15c. each; \$1.50 doz.

Sweet Briar (Cactus)—A superb variety of an exquisite shade of pink, very free blooming, on good stiff stems. 25c. each; \$2,75 doz.

Souv. de Masdijk (Peony)—An ideal Dahlia. Its large slight salmon orange flowers are borne on long stems which hold the flowers free above the foliage. Excellent for both cutting and garden decoration, a free bloomer. \$1.00 each; \$10.00 doz.

Tricolor (Decorative)—Buttercup yellow with a splotch of yellow on each petal. 20c, each; \$2.00 doz.

Virginia Maule (Decorative)—Delicate tint of shell pink. 15c. each; \$1.50 doz.

Yellow Livonia (Show)—Soft lemon yellow. 15c. each; \$1.50 doz.

Zebra (Show)-Pearl white, edged pink. 20c. each; \$2.00 doz.

BOX COLLECTION OF DAHLIAS

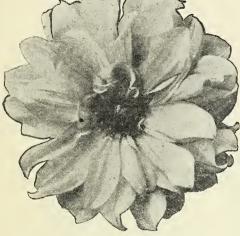

A new departure; put up in sets of 8 assorted varieties, unlabeled, embracing a wide range of colors, red, white, pink, yellow, variegated, etc. This collection is put up in a telescope box and is sent through Parcel Post to any part of the United States for \$1.00.

M. & S. "GIANT FLOWERING" DAHLIAS

If to be sent by parcel post, add 10 per cent to the purchase price. The native home of the Dahlia is Central America and Southern Mexico. Its earliest known history dates back to 1657, and at this date was called Acocti by the Aztec Indians. Later its name was changed to Georgina, after Prof. Georgi, of St. Petersburg, which name is still used in some of the German catalogs. Again the name was changed to DAHLIA, after Mr. Dahl, a Swedish botanist. The Dahlia in its native state is single. The first double forms appeared in 1814 and are credited to Mr. Donkelaar. The first double forms were the types now known as SHOW and FANCY. The POMPOM form appeared in 1858 to 1860. Next came the DECORATIVE form, but its origin is not clearly defined, but probably dates back some forty years. The first CACTUS Dahlia originated in 1872, but was not placed on the market until 1880. It was named Juarezi after President Juarez of Mexico. This is the popular type of the present day and there are some two hundred named varie-cent origin, dating back but a few years and is becoming very popular. Spade or plow the ground to a depth of about 10 inches. As a fertilizer, use either well-rotted stable manure, or better still, sheep manure, which should be well mixed with the soil. When the soil is properly prepared, dig a hole 6 inches deep, in which to plant the Dahlias. The bulbs should be laid down flat and covered to a depth of 4 inches. Every Dahlia should have from 2½ to 3 feet space and at least 4 feet between the rows. As soon as the plants are a foot above the ground they should be tied to a stake. Keep the ground well cultivated and free from weeds. An implication of sheep manure about every two weeks will be of great benefit. Never leave more than one shoot to a plant. You will have better plants and larger flowers if you will allow or the order the present than one shoot to a aplant. You will have better plants and larger flowers if you will allow or the price of the present than one shoot to a aplant.

ver leave more than one shoot to a plant. You will have better plants and larger flowers if you will allow only one main shoot to a plant.

TWO NEW DISTINCT PEONY DAHLIAS

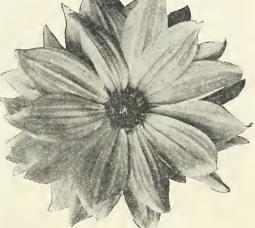

OTTILIA MEYER

"My dahlias turned out to be as fine as I have n more than pleased with them." Maurice F. Gentlemen: ever seen. Am more than Molder, 102 Oakley Avenue.

OTTILIA MEYER—Named after Mr. Meyer's young daughter. A beautiful peony dahlia. The plant is all that could be asked in a sturdy, symmet-rical growth, attaining a height of 6 feet. Blooms very freely on strong stems of remarkable length. Color a tinted cream pink. Beautiful by day and simply grand under artificial light. Being a free root maker it is priced remarkably low for its quality. **Price**, **50e**: **35.00 doz**. 50c.; \$5.00 doz.

JOHN STISSER—A new king among this popular type of Peony Dahlias, producing its immense flowers in pro-fusion on long stems. Beyond question one of the grandest flowers of the type. Flowers range in size from 6 to 8 inches in diameter and almost perfect in form. Color clear orange red. In habit the plant is an extra long, robust grower, attaining a height of 6 feet, and carries its large handsome flowers well above the foliage. Price, 50 cents each; \$5,00 doz. each; \$5.00 doz.

JOHN STISSER

Mr. Gustav John, of Catonsville, Md. said, "The collection of dahlias which you sold me last season was wonderful. I cer-tainly had some beauties and am highly pleased with them.

M. & S. HARDY ROSES SPECIAL DIRECTIONS FOR PLANTING AND CARING FOR ROSES Open a good space in the soil and spread out roots; never cramp them into a small hole. Do not let manure come in con-tact with roots, but place it underneath and a layer of soil on the top. If the rose is a bush plant, set it so deep that only the branches are visible above the ground and never the main stem, but too deep is as bad as too shallow; 2 to 4 inches of the lower branches may be under the surface, but no more. If the plant is a budded rose, be sure that the bud or graft is fully 3 inches below the surface. Prune in spring only, when life is just apparent, and remove what might appear to be surplus wood. The stronger growth should be cut back to within six inches above the ground; the weaker growth to 4 inches. All soil above the roots should be well pressed down. Feed your roses with "Ground Bone" and "Pulverized Sheep Manure." Mulch the ground during summer with cow manure or Cocoanut Fibre. As Winter approaches draw soil 6 to 8 inches high around the stem; this avoids winter killing. Our Roses are not ready for delivery until May 1st. Prices are \$1.00 each; dozen, \$11.00. All two year old plants.

Radiance

roses.

Double Pearl Tuberose

German Iris (Germanica)-The popular Flag Iris, which thrives so Iris. well in our section.

30c. each; \$3.00 per oz. Postage 5c. each doz. Pos 30c. doz.

Japanese Iris (Kemp-ferl) — Very beautiful flowers, very large, which, however, do not last as long as the Ger-man Irie man Iris.

30c. each; \$3.00 per doz.; postage 5c. each 30c. doz.

DOUBLE PEARL TUBEROSES

TUBEROSES Culture—One of the most fragrant and popular of the Summer-flowering bulbs. May be started early in hot-beds or pots, or planted in open ground after first of May. The bulbs we offer are not to be compared with cheap ones— ours are sure bloomers. Soak-ing them over night in luke-warm water promotes rapid growth. 5c. each; 40c. doz., \$3.00 per 100. Parcei Post weight, 1 doz., 2 lbs.

TUBEROUS ROOTED BEGONIAS

We are pleased to inform our patrons that after several our patrons that after several years we are again offering these wonderful flowering bulbs. They will bloom all summer, but must be planted in the shade. We have single varieties in scarlet, yellow, white and rose white and rose. 20c. each; \$2.00 doz.; post-

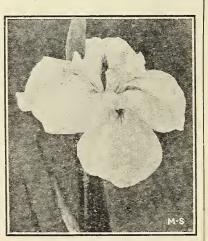

TRITOMA

(Flame Flower, Torch Lily, or Red Hot Poker Plant). In mid-Summer and Autumn, when other flowers are on the wane, Tritoma looms up and furnishes a wealth of bloom till killing frosts check it. The roots are considered hardy, though we, however, recommend that they be lifted in the Autumn and placed in a box of soil or sand, preferably in the cellar. **Pfitzeri**—Blooms from August till October; rich orange scarlet. We are now taking orders for next May delivery for good, strong plants, **50c. each.** postage 5c. each.

German Iris

Japanese Iris

HARDY POMPON CHRYSANTHEMUM

These are now universally popular for outdoor bedding, and, considering their many good qualities, there is no cause for surprise to see them cultivated so extensively. They produce a lavish profusion of blooms, giving color, life and beauty to the garden just at a time when other plants have been destroyed by frost and are looking their worst. Frost does not materially affect the flowering, and it will frequently happen that an arm-ful of flowers can be cut late in November. They are quite hardy if planted in a well-drained position, and, with a slight covering of leaves or litter during the winter, will take care of themselves after once planted.

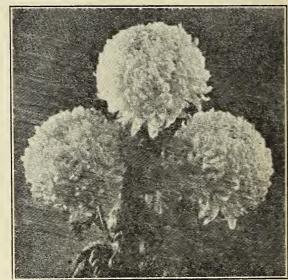

covering of leaves or litter during the winter, will take care of themselves after once planted. **Pink Diana**—Fine free blooming. **Early Bronze**—Very effect-ive. **Golden Martha**—Profuse bloomers. **Florence Stanton**— **Gold, good size. All these above, 30c. each; \$3.00 per doz. Postage extra at 5c. per plant. Dozen lots 25c. extra.

M. & S. LARGE FLOWERING CHRYSANTHEMUM PLANTS

For Parcel Post, add 5c. a Plant. Dozen Lots 25c. extra. Crimson Marie Masse—A crimson sport. Ralph Curtis—Creamy-white sport of M. Masse. Horace Martin—Deep-yellow sport of M. Masse. Mile. Marie Masse—Beautiful lilac mauve. Bobby Burns—A rosy cerise. White Quintus—Pure white, M. Cassimer Perrier—White, tinted pink. Louise Lemaire—Beautiful golden-yellow. C. H. Totty—A glowing chestnut scarlet; flower, stem and foliage are alike enormous. One of the best all-around Chrysanthemums we have ever introduced to the American trade.

trade.

Colonel Appleton—At one time the most largely grown yel-low in cultivation. It is too well known to need description. Mary Mason—Gigantic, bronzy-red; one of the handsomest varieties and easiest doers in cultivation.

Mrs. O. H. Kahn-A first-class bronze; comes good on almost any bud, but produces the best color from a bud taken August 20th or later. One of the finest varieties in the bronze section. All of these Early Flowering Varieties have given good re-sults for outdoor culture. Ready for delivery after May 1. Each, 30c.; \$3.00 per doz.

ESCULENTIUM CALADIUM

(Elephant's Ear) As centre pieces of specimen in flower beds Caladiums answer well. They also make an excel-lent edging for a hardy bed of grass, for Ricinus and other tall growing plants. When planted in a bed alone, a border of Scar-let Sage removes the one color effect and makes a beautiful con-trast. Do not plant Caladiums outdoors until after May 1, but to get them in early growth they may be started indoors. Monster Bulbs, 15c, each; \$1.75 doz. Parcel Post weight, 1 lb. each.

doz. each.

Mammoth Bulbs — 10c. each; .00 doz. Parcel Post weight, ½ \$1.00 doz. 1b. each.

M. & S. HARDY PERENNIAL PLANTS

Our hardy perennial plants are perfectly hardy and thoroughly acclimated, invariably giving real results and flowering the season of planting. Order early and plant as early as possible, or as soon as the frost is permanently out of the ground.

All plants are forwarded latter part of April and during May, and are sent by Express, purchaser paying charges. We can forward small plants or small numbers of plants by Parcel Post, and if wanted sent in this way add 10 per cent. to value of order for postage to points east of the Mississippi River, and 20 per cent. to points west of the Mississippi River.

can forward small plants or small humbers of plants by Parcel order for postage to points east of the Mississippi River, and 20 ACONITUM (Monkshood or Helmet Flower)—40c; doz., \$4.50. AQUILEGIA (Columbine)—For Spring blooming these are invaluable, producing their graceful spurred flowers on stems rising 2 feet over their attractive foliage, during May and June. For rockery gardens, semi-shaded places, in hardy borders or planted in clumps, they are very effective. 35c. each; \$3.00 for 10. ANCHUSA (Sea Bugloss)—Plants grow 4 feet high in pyra-midal shape, branch freely and are loaded with bright blue, Forgetme-not-like flowers in June; very showy and valuable. 30c. each; doz.. \$3.00. HARDY ASTERS—Tall-flowering, stately plants, which may be used with splendid effect in borders or in clumps as speci-mens on lawns, in large groups or beds. They form the basis of a color scheme in a perennial border during the months of September and October even into November. CAMPANULA (Bell Flower)—Showy perennial plants of spe-cial merit; some are tall, being suitable for borders; others are dwarf, for rockeries and edging. In every well-ordered hardy garden Campanulas should have a prominent place. COREOPSIS (Lanceolata Grandiflora)—Flowers rich golden yellow and of graceful form; fine for cutting. A few plants make a handsome display. CHRYSANTHEMUMS, OR HARDY LARKSPURS—In view of the wonderful display that Larkspurs make, it is worth while to exercise care in locating a most suitable position and in the preparation of the ground, the latter should have a good natural drainage. Never use animal manure in planting Del-phiniums, unless it has been incorporated in the soil a year before planting. Pure bone-meal is the best fertilizer in pro-moting growth; apply with it also some wood ashes. DIANTHUS (Garden Pinks)—These are brilliantly colored flowers, which appear in great numbers on the plant, and have a rich clove scent. For table bowls, as a cut flower, they are much in use.

have a rich clove scent. For table bowls, as a cut flower, they are much in use. **DIGITALIS** (Foxglove)—These showy plants are but bien-nials (that is, live outdoors for two seasons), but can be made perennial by the following treatment: Immediately after bloom-ing remove the flower stalk right down to the ground, also crop some of the large leaves; the result is a number of new plants start from the old crown, which produce splendid flow-ers the second year. Digitalis will do well in semi-shaded spots; plants grow from 4 to 6 feet high; flower in June. **FUNKIA** (Plantain Lily; Day Lily)—Japanese perennials pro-ducing attractive clumps of foliage and interesting lily-like blossoms.

blossoms. GAILLARDIA (Blanket Flower)—One of the most useful of the hardy flowers when planted in clumps. GYPSOPHILA (Baby's Breath)—During August and Septem-ber this is a mass of delicate flowers. These may be used as fresh cut flowers, also for a semi-everlasting effect. HELIANTHUS (Hardy Sunflower)—Very effective in borders, among shrubbery or as clumps on the lawn, etc. HIBISCUS (Mallow) Giant Flowering—A wonderfully im-proved form of our greatly admired Marsh Mallows. They are unusually attractive. HOLLYHOCK. nusually attractive. HOLLYHOCK. IRIS GERMANICA (Fleur de lis)—See page 36. LILY OF THE VALLEY—25c. each; \$2.50 doz. LUPINUS (Lupins). OENOTHERA (Evening Primrose). HARDY PHLOXES.

THE **EVERBLOOMING** BUTTERFLY BUSH

(Buddley's Variabilis Magnifica)

(Buddley's Variabilis Magnifica) The name "Butterfly Bush," was applied to it because it attracts butterflies in large numbers. It produces long, graceful stems which termi-nate in tapering panicles of beautiful lilac-colored flow-ers that are of miniature size and borne by the hundreds on a flowerhead which is fre-quently ten inches long. A single plant the first season will throw out as many as 50 flower spikes, which increase greatly in number during suc-ceeding years. The year after planting it generally com-mences to flower in June and continuing each season until severe frost nips it. This plant is very desirable as an indi-vidual specimen in the lawn and garden, or placed promis-cuously in the shrubbery border. border.

Special Merits:

Very hardy.
 Blooms the first season.
 Flowers from early summer till frost.

4. Rich, striking color.
5. Splendid for cutting.
Very free flowering.
6. Will thrive anywhere. cutting.

Order early, as last year we could not supply sufficient. Price for strong young plants, which will bloom the first season (ready in May), 60c. each; \$6.00 doz.

HEDGE PLANTS

California Privet is somewhat of an evergreen nature, and looks attractive until real winter sets in. To establish a good hedge, the

proper foundatio n is necessary. The trench should be thorough 1 y manured, and receive an additionliberal al application pure bone meal and both worked in both with a s p a d e. P l a n t s shoul ã

Sent via Express or Freight

Only

Hedge of California Privet inches apart in double rows, in zig-zag fashion, so that the plants are diagonally opposite each other; this practically places them 6 inches apart, which is desirable to get a quick dense growth. Plant from October 1st to November 15. Two years 2 to 3 ft., \$6.00 per 100; \$27.50 per 500; \$50.00 per 1,000.

per 1,000. Bcrberis Thunbergii (Japanese Barberry)—A good hardy plant of low dense growth. There is an air of grace and refinement to the Barberry Bush, which is not embodied in any other hedge plant. It is a brilliant light green from early spring to winter. It has a manner of growth which does not give it the stiff, cold appearance which many other hedge plants have. It should really be regarded as a shrub, as it can be planted individually in lawn or border. The slender branches are prickly with small thorns, and tend to make a defensive hedge that few animals will attempt to penetrate. In autumn the foliage is a bright crimson; when it falls a profusion of scarlet berries, which remain throughout the winter, are re-vealed on the branches. vealed on the branches. Price of Berberis, 1½ to 2 ft., 50e. each; \$5.00 per doz.;

EVERGREEN SHRUBS AND TREES

Mahonia Aquifoiia-Holly - like leaves, very handsome yel-low, flowers in May; especially g o o d for shady places; 18 to 24 inches. **\$2.50** each. SELECTION OF

APPLES

TREE SPRAYING, TRIMMING ETC. We are now in Position to estimate on and execute work like ornamental tree work, tree surgery, pruning, spraying for insects and fungi diseases, cavity treatment by filling with sectional cement, the treatment of split and weak crotches and limbs by bolting PEACHES and chains, and cultural treatment.

> Baldwin — Large, roundish; deep bright red; very productive; roundish; handsome fruit.

Ben Davis-Large, handsome, striped; productive; a late keeper.

Grimes' Golden (Grimes Golden Pippin)—Of the highest quality; deep golden yellow, aromatic, spicy and rich. Tree vigorous and productive and productive.

Maiden's Blush-Rather large and smooth, evenly shaded red or blush on a clear, pale yellow ground; with a pleasant flavor.

Wine Sap-Medium size, dark red; of rich flavor, very pro-ductive; late.

Red Astrachan—Large, round-ish. deep crimson, overspread with a thick bloom; juicy, rich, acid, very productive.

Rhode Island Greening-Large, greenish-yellow; tender, juicy and rich, with rather an acid flavor; an abundant bearer. **Smokehouse**—Roundish oblate; yellow, shaded and striped with bright red; flesh yellowish; very

Any of the above in 6 to S-ft. trees, \$1.50 each; four year old tree, \$2.50 each. We can also supply all other varieties, also Crab Apples.

CHERRIES

Black Tararlan Cherry - Very large, purplish black; half ten-der; flavor mild and pleasant. Tree a remarkably vigorous, erect and beautiful grower, and an im-mense bearer. Ripe last of June Black Tartarian Cherries

and beginning of July.

Governor Wood-Yellow; Florence, Red; English Murillo, red tart and other leading varieties. \$2.00 each.

CURRANTS

(Extra Strong Plants) Currants like good rich soil. They are particularly suscept-ible to scale, and steps should be taken to keep them from this by liberal spraying, when the bushes are dormant. Black Naples—Fruit varies from small to large, averaging above medium; strong flavor. An old and well-known variety. Cherry—Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red.

red Fay's Prolific-Not quite so strong a grower as Cherry; cluster medium to long, with rather long stems; color darker

than cherry. White Grape—Clusters long; berries very large; of very attractive color; mild flavor and good quality. All the above, 75c. each.

Gooseberries, Blackberries, Logan Berries

Gooseberries should be cultivated during the growing season and fertilized with manure in the early Spring or late Fall. They will repay you for this trouble with an extra big crop.

Downing-Fruit medium to large, whitish green; flesh soft, juicy. Each, 60c.; \$7.00 doz.

Houghton—Bush a vigorous grower, with rather slender branches; very productive. Fruit medium size, pale, red, ten-der and good. 60e. each; \$7.00 doz.

BLACKBERRIES-Popular varieties, 25e. CULTIVATED each; \$2.00 doz.

LOGAN BERRIES-30e. each; \$3.00 doz.

CULTIVATED RASPBERRIES

(Extra Strong Plants) Raspberries should be carefully staked, to get large crops. We recommend that well-rotted manure or other suitable ferti-lizer be dug around the bushes, either in the Fall or early Spring Spring.

Spring.
Brilliant—Ripens its fruit early and fast, producing bright, glossy, brilliant red berries, handsome. 30c. each; \$3.00 doz.
Cuthbert—Berries very large, measuring 3 inches around; conical; rich crimson. 30c. each; \$3.00 doz.
Columblan—Fruit very large, often an inch in diameter; color dark red, bordering on purple. 30c. each; \$3.00 doz.
St. Regis—Everbearing Raspberries. They yield their first crop of berries in June (the regular season), and yields an equally heavy crop the latter part of August, and continues bearing right up to November. 25e. each; \$2.50 doz.

TO HAVE FRUIT TREES IN PERFECT CONDITION, SPRAY 3 TO 4 TIMES EACH YEAR.

Trees such as we furnish will often bear the year after they

have been set out. **Crawford's Early**—The best yellow peach; large, oblong; skin yellow, with fine red cheek; juicy; wonderfully productive. **Crawford's Late**—Fruit of the largest size; skin greenish-yel-low, with dull red cheek; flesh yellow; one of the finest late sorts.

Elberta—Large, yellow, with red cheek; flesh yellow; firm, juicy, of high quality. Follows Early Crawford. Mountain Rose—The largest early peach. White, with red cheek; rich and very good; productive and reliable. Freestone. Oldmixon Free—Uniformly large; white, covered with bright

Extra Strong Trees, 5 to 6 feet high, \$1.25 each. We can also supply all other varieties.

PEARS

Bartlett-Large size, with a beautiful blush; buttery, very juicy; bears early and abundantly.

Flemish Beauty-Large, beautiful, juicy,

Hemisis Beauty-Large, beautiful, juicy, melting; good bearer. Howell-Large, light, waxon yellow, with a fine, red cheek; handsome, rich, aromatic flavor. An early and profuse bearer. Keiffer-While not of the best quality, properly ripened it is the very best for canning and preserving. Lawrence-Fruit medium, canary-yel-low sweet mod known.

Lawrence—Fruit medium, canary-yel-low, sweet, good keeper. Le Conte—Very large, greenish-yellow, handsome; juicy. Early. Rossney—A large variety of rare merit; ripening in September. Worden -Seckel—A seedling of the Seckel. Equal in quality to its famous parent, but larger; fruit keeps well. Any of the above extra strong trees, 5 to 7 feet high, \$1.75 each. We can also supply all other varieties. PLUMS

PLUMS Abundance—The fruit is very large, showy, and beautiful. Amber, turning to a rich, bright cherry color, Ripens in August. Burbank—Medium to rather large, conical in form; orange-yellow, overlaid with red; flesh firm, meaty yellow. Red June (Japan)—Vigorous and early; fruit medium to large, deep vermilion-red; very showy; flesh light lemon-yellow. Sultan—Very large in size, deep purplish-crimson in color; flesh very firm, dark crimson shaded with pink. Wickson—Fruit large, obconical, dark crimson-purple; flesh very firm, highly flavored; pit small. An excellent keeper. Wild Goose—Large, rich, crimson; productive and profitable. Extra Strong Trees, 5 to 6 feet high, \$1.75 each. Quinees, Aprleots and other fruit trees, as well as nut trees, can be furnished promptly at reasonable prices for Reliable STRAWBERRY PLANTS

STRAWBERRY PLANTS

Ready from April 1st to May 15th, and from September 1st to November 15th. Early Varietles—Senator Dunlap, Early Jer-sey Giant, Excelsior, Superior, Klondyke, etc. Mid-Season Varieties—Nick Ohmer, William Belt, Marshall, New York, Tennessee, Prolific, Glen Mary, Magic Gem, etc. Late Season Varieties—Gandy, Chesapeake, Chester, Aroma Stevens, Late Champion, etc. Price of any of the above, 50c. doz.; 50 \$1.00; 100 \$1.75; 500 \$5.00; 1,000, \$5.50. RAINBOW

Low or High Pressure Brass Lawn Sprinkler, World's

Lawn Sprinkler, World's Best Rain Insurance. Does not stick or rust— the water descends in small particles like mist and rain combined over an area of 40 to 50 feet, watering every inch of

ground.

Instantly set in motion with low water pressure—The Rain-bow Sprinkler is supported on a brass sled, which may be eaisly drawn over the lawn, or on a brass stick stand, which is very effective on uneven surfaces. The Sprinkler may also be connected to a stand pipe. The Rainbow lawn sprinkler works prefectly from artesian well or tank pressure. Strong in construction. Attractive in appearance. Parcel Post weight, 3 lbs. Price, \$3.00.

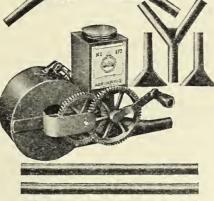

Made of Heavy Brass Easily moved over the lawn with-out turning off the water. The mist-like spray is a veritable "thing of beauty." Parcel Post weight, 2 lbs. Price, 80c. Baby Fourther

Baby Fountain Lawn Sprinkler-fig: 2. Same as above but smaller. Parcel Post weight, 2 pounds. Price 60 c.

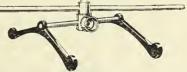

Fig. 3

nicely made and strong. Our Special Price, \$11.50. Weight, 12 lbs.

M. & S. POWDER BELLOWS No. 600—Strong and serviceable, for Paris Green and other preparations. Parcel Post weight, 3 lbs. Price \$2.00.

EVEN-SPREAD LAWN SPRINKLER

At last! The Sprinkler that every lawn owner has been look-ing for—the product of a famous inventor—a sensational suc-cess. Sprays the water over greater radius than any other; throws an equal amount on each square foot within the im-mense circle, JUST LIKE RAIN; elevates it only three to four feet above ground, preventing the wind blowing it to one side, and yet does not cut it into a fine mist to be lost in the air. Attached to hose, its wonderful little spreader spins like a top, spreading the drops as evenly as a shower, causing all to stop, wonder and admire. Sturdily built, sound in principle, will last a lifetime. Is truly a little wonder. Customers de-lighted. Weight, 3 lbs. boxed. We cannot recommend too highly. Price, Postpaid, \$2.50.

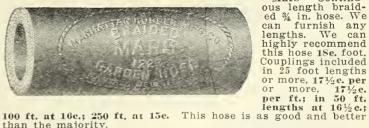

"M. & S." LAWN SHOWER SPRINKER— A most complete lawn sprinkler, which will throw even shower spray for a ra-dius of 20 feet. Price, 25c, each. Parcel Post weight, 2 lbs.

No. 955-Three-Arm Sprinkler—Can be operated with moderate pressure, covers wide area, and distributes water evenly. Revolving arms throw water in a fine spray into the air and the motion produces a fine mist. Height, 1 foot. Nickel-plated and nicely finished. Price, \$2.25. Weight, 4 lbs 4 lbs.

Hose Couplings-Brass, regular size, 30c.

Hose Couplings—Brass, regular size, over per pair. Hose Washers—Rubber, regular size. 10c. per dozen. Hose Bands—For ¾ and ½-inch hose. 5c. each; 50c. doz. Hose Nozzles—Combined solid stream and spray. S5c. each. Hose Reels—Wood, \$2.00; Steel, \$2.50. The hose we offer is the best. It is guaranteed not to break. Mars — Continu-

Mars — Continu-ous length braid-ed 34 in, hose. We can furnish any lengths. We can can furnish any lengths. We can highly recommend this hose 18c. foot. Couplings included in 25 foot lengths

Wixom Garden Hose—5-ply, coupled in 50 ft. lengths. Price, \$6.75; 25 feet \$3.75; per foot 14c.

"Perfect Clinching" Hose Mender-Slip in the hose and hammer down-that's all. It leaves the hose as smooth and strong and tight as a new hose. It does the work of the mender tube and two clamps formerly used.

Price, 15c. each; 2 for 25c.; \$1.25 doz., postnaid.

The Eclipse

The Eclipse The Eclipse self-sharpening Lawn Mower "the machine with no bad features"—The Eclipse is a strong durable handsome machine in which simplicity is the key note. Has ten-inch drive wheels, six-inch four blade reel, flat spring steel clutches, crucible steel blades, the strongest frame and best hard maple handle and roller in any lawn mower. The Lever Adjustment for bringing the stationary blade up to the revolving blades is so simple that a child can do it. No troublesome set screws or bolts to operate,—no tools needed, —just two thumb nuts do it.

The "Little Wonder" Hedge Trimmer

The Little Won-der has been in practical use for eight years. Its ex-tensive manufac-ture was prohibit-ed during the war. They are now made by the thou-sands sands.

sands. What the man-ufacturer says. The many unso-licited testimoni-als that came to us are very encour-aging indeed. Al-though we spent many thousands of dollars in perfect-ing and patenting the machine and know we have the know we have the best machine ever produced for the hedge owner. It is not only practi-

is not only practi-cal but very easy to orperate. Weight of machine 12 lbs. Each machine packed in wooden c as e; shipping weight, 25 pounds. May be sent by parcel post. Price, \$25.00. Full and com-plete instructions (so simple that a

(so simple that a child can assem-ble) come with ble) come with each machine.

This cut shows method employed in making side cut of hedges up to 45" high. It is a very easy cut to make, the machine runs almost by itself on this cut.

This cut shows method used for 40-inch and 60-inch machines for trimming high growth when assisted by a child. It is wonderful how fast it mows it down, and how even it cuts and how easy it runs.

The machine is built along the most practical mechanical lines and of the best material obtainable. Blades are made of high carbon steel tempered tough (not brittle) and hold a sharp edge for a long period.

The bearings are bushed with the best high speed "Non-Gran" Bronze. Studs are made from steel hardened same as best auto bearings are made. With reasonable care the machine will last a lifetime. Weight in only 10 lbs.

It is so simple to operate, especially where tail end is held by some one as shown below that the amateur becomes an expert almost instantly.

It runs so easy and is so light that a lady can easily operate

Not built for "Cutting Back" hedges but to keep the new growth trimmed and to enable you to do it so quickly and easily that it can be done frequently, eveny few weeks and add one-hundred per cent. appearance to the entire property.

This cut shows method employed in trimming top of low and medium height hedges. The machine is supported over the shoulders by wide webbing, which supports the weight.

No more waiting for some gardener to come and trim your hedge while it grows tall and spoils the looks of the whole place. With just a few minutes you can now do it yourself with the "Little Wonder". It runs astonishingly easy.

PRIVET HEDGE AND PRIVET HEDGE TRIMMING

The homeland of this beautiful hedge is Japan. Some thirty day it is known all over our land as California Privet.

For beauty of home and lawn decorations it has no equal in the line of shrubbery. It is perfectly hardy, will stand heat or cold, wet or dry, and adapts itself readily to any soil. Be-cause of its splendid qualities people have planted it every-where. BUT IT HAS ONE DRAWBACK. It must be trim-med and be trimmed often, but it pays to do this, for the more you trim it the more beautiful it grows.

A LOW HEDGE FOR BEAUTY

An extensive survey has been made of the hedges of several surburban towns, to see whether the prevailing sentiment for beauty was in favor of high or low hedges. We find that pre-ference for the hedge ranging from 18 in. to $3\frac{1}{2}$ ft. in height stands 6 to 1.

Parcel post weight, 25 lb. weight of machine 12 lb. Price, \$25,00.

Notice: Kindly send your order in at once as we expect to be sold out early, we want none of our costumers to be diss-appointed in not being able to procure this wonderful machine.

Gentlemen: Your LITTLE WONDER Hedge Trimmer, purchased this season is in the opinion of the writer, the great-est invention and labor saver of the age to the Nursery and Horticultural Trade. Paid for itself in one cutting, with at least 25 per cent. of Labor cost. Not only on Hedges, but on specimen shrubbery, plants and trees has this machine proved itself indeed the LITTLE WONDER. P. H. Williams, Supt. Estate John E. Hurst, Esq., "Hurstleigh", Woodbrook, Md.

Gentlemen: I just want to say that the "Little Wonder" Hedge Trimmer, has been put to the most severe test this past season, and has proven perfectly satisfactory, in every respect. Your very truly, J. Fred Wessler, District Superintendent Dep't of Parks, Baltimore, Md.

M. & S. PRUNING TOOLS Etc.

"M°KENNEY PRUNER"

The easiest cutting pruner in the world. 2. The

2. The only perfect cutting pruner in the world. One that does not injure the bark in any way, as both blades have cutting edges. 3. The only pruner that will cut seasoned limbs 1½ inches in diame-

ter. 4. The lightest pruners on the

arket. 5. "McKenney" Pruners are made of steel throughout. Nothing about them to break.

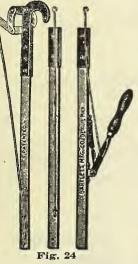

In order that you may be con-vinced that the "McKenney" Pruner is the best, we ask you to test it out against all other pruners that are

against all other pruners that are on the market. The slot in the handles of the No. 2 Pruner gives this machine three separate cutting powers. Made in two sizes: No. 1 and No. 2. The No. 1 cuts limbs up to 1 inch in diameter. The No. 2 cuts limbs up to 1 inch

The No. 2 cuts limbs up to 1½ inch in diameter. Splendid for dishorning young

cattle. . .

No. 5 22 7/16 20¹/₄ 18¹/₂ 5.25 26 The **Richmond Style** tree tubs are made of seasoned selected Virginia white cedar, are bound with electric-welded wire hoops, galvanized, three hoops to each. The Richmond Style fills a long-felt want for a cheap type of plant tub and is being used by many large florists in the place of earth pots. These plant tubs are nicely painted with the best oil paints—a hand-some green color inside and out. The tops of the staves are slightly beveled, which gives them a neat, trim finish. Has no feet or handles.

BANER ROOT CUTTER No. 7—A practical Machine for Cut-ting and Preparing Roots, Vegetables for Feeding Poultry.. Price, \$6.50.

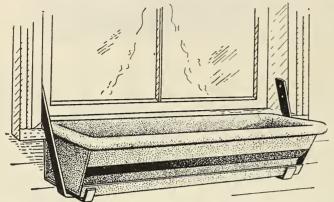

M. & S. Hand Seeders and Miscellaneous Supplies

M.&S. SUCCESS SELF-WATERING WINDOW BOXES

52

The Success Plant Box is made of strong galvanized iron, neatly enameled in dark green. It is so constructed that the watering is easy, the drainage ample, the air circulation perfect.

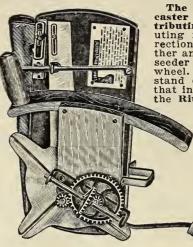

fect. The Success Box is made with a water pocket on one side at the bottom. This pocket runs the full length of the box. Lead-ing from it, into the box itself, are openings to convey the water to the soil. To prevent these openings from clogging up a roof-shaped piece of metal extends from the pocket openings to the center of the box, at the bottom. The pocket is simply filled with water and the soil takes it up. Or, water is poured in the usual way on the top of the soil and the pocket takes care of the surplus. The water outlet also forms an alr inlet, conveying the air to the center of the soil, where it distributes to every part. Plants thrive wonderfully in these boxes. For window or porch use they are ideal, as, unless excessively over-watered, there is no drip. No staining of paint or disfiguring in any way.

The top edges have an attractive rolled finish. They are made in a number of lengths to suit different places and purposes, and may be equipped with brackets for securely fastening them to window sills or hanging below them, also to porch rails. Length, Width, Depth, Weight Inches Inches · Inches Pounds Each

GRASS AND CLOVER SEED SOWERS RITTENHOUSE DOUBLE FAN SEEDER No. 3

OUBLE FAN SEEDER No. 3 The most efficient hand broad-caster ever invented, double dis-tributing wheel—The two distrib-uting fans revolve in opposite di-rections, throwing the grain fur-ther and more evenly than from any seeder with a single distributing wheel. This means a more even stand of grain and a larger yield, that in one season pays the cost of the Rittenhouse Seeder many times over. The material used in making this seeder is of the very best—the seeder is well painted — runs very lightly—and lasts a life-time. The Rittenhouse S e d er is suspended from the shoulder at the side, and is far more convenient to han-dle than seeders which must be hung around the neck. Price \$1.75. Parcel Post weight, 6

Parcel Post weight, lbs.

SEGMENT CORN PLANTER-Sliding Feed. Price, \$2.50. Parcel Post weight, 6 lbs.

This mill has greater capacity than the No. 5 Mill, and makes an excellent cof-fee and spice mill for grocers or family use, as well as being a very rapid grinder of chicken feed or meal. Weight, 35 lbs.; capacity, 2 to 4 bus. per hour. Price, \$9.50, with stand.

LIOUID CEMENT

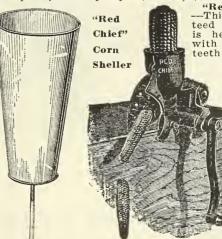

THE EVER-SET SPARROW TRAP Will reduce the sparrow pest on your pro-perty to a minimum. The Ever-Set Trap is entirely automatic in action; simply set trap in your garden, poultry yard, or other spot frequented by sparrows. Bait with grain or chicken feed. The first sparrow action: simply set The first sparrow caught acts as a de-coy to others and in a very short time the entire sparrow popu-

entire sparrow popu-lation near your property is either caught or frightened away. One Ever-Set Trap caught 1,529 sparrows from June to October in a city yard. Think of the damage these pests could have done in five months. 50 sparrows will eat a bushel of grain a month. a month. The I

Ever-Set Trap

The Ever-Set Trap is strongly constructed from 5% inch galvanized hardware cloth. In ordinary use it is pratically indestructible. It costs nothing to operate, there is nothing to get out of order. The trap comes complete with full instructions for use and a receiving cage for removing the captured sparrows. The English sparrow must go. State and National govern-ments, farmers, fruit growers and poultry raisers have de-clared war in earnest. The counts against the sparrow are many, the destruction of grain, fruits and young vegetables, the driving away of the useful native songbirds, and the filthy condition of buildings where sparrows nest will not be toler-ated. The Ever-Set Trap is the easy, safe way to get rid of these pests. Sent postpaid, **Price**, \$5.00. "Red Chief" Corn Sheller

Mrs. R. H. Evans, of Kribi, Cameroun, West Africa (150 miles south of the Equator), writes that M. & S. seeds turned out fine.

M. & S. Poultry Department

We carry everything in the line of Poultry Accessories and we cheerfully give free advice how to raise Poultry profitably. M. & S. Wonder Bred Chicks during February, March, April, May, and June (see back inside cover page).

ELECTRIC INCUBATORS

Use a Lectro-Hatch Electric Incubator and say good-bye to work and worry in hatching. It eliminates the watching of lamps or stoves and automatically holds the heat at the desired temperature through-

temperature through-out the hatching period. Its steady, even heat, pure air and perfect ventila-tion mean more and better chicks. You yoid all danger from fire or explosion with a Lectro-Hatch.

Even Heat, Pure Air. Electric hatching has been pronounced superior by leading poultrymen and the foremost poultry ex-perts because it in-sures even heat with-out continual watch-ing. There is no smoke or gas to stunt or kill the embryo chicks. You have additional as-surance of a continu-ous supply of fresh air because the elec-tric controller box in the incubator creates ng element in air. hatching Electric

ozone or oxygen, which is the life-giving element in air. More and Better Chicks.

With the Lectro-Hatch it is not unusual to get chicks from more than 75 per cent of the fertile eggs. Lectro-Hatch users say their chicks are as strong and sturdy on the first day as ordinary chicks from four days to a week old. Because of perfectly normal development in the shell electrically hatched chicks are less subject to baby chick diseases.

Easy to Operate.

Easy to Operate. A Lectro-Hatch Incubator is as simple as ABC to operate. You do not have to know anything about electricity to run it. First you attach the incubator cord to an electric light socket. Then you adjust the machine to hold hatching temperature by giving one or two turns to a small thumb nut. That's all there is to it. After you make the first temperature adjust-ment the Regulator, which is an exclusive feature in Lectro-Hatch Incubators, watches the temperature for you. A Lectro-Hatch Incubator can be run from any kind of elec-tric current and costs no more to operate than any other style of machine.

Lectro-Hatch Price List. 65-egg capacity, \$25.00; 150-egg, \$38.50; 300-egg, \$68.75; 600-egg., \$123.50.

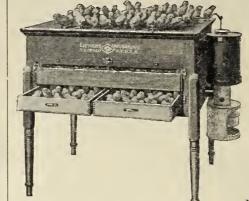

The 600-egg size is used also as a sectional unit in a mam-moth hatchery and can be arranged in decks or in series to suit the needs of any plant. Write us for special information on Lectro-Hatch equipment for mammoth hatcheries.

ectro hatch Electric Brooder

Just turn an electric socket button and the Lectro-Hatch Brooder socket button and the Lectro-Hatch Brooder begins to warm up. Same device to maintain constant, even heat as in Lectro-Hatch Elec-tric I n cub at ors. No danger of overheating or fire. No lamps to fill, no stoves to tend, no ashes to carry out. No muss or dirt. Lectro-Hatch Brooders really cost less to operate than other style brooders.

STANDARD CYPHERS INCUBATORS

Prices Subject to Change Without Notice.

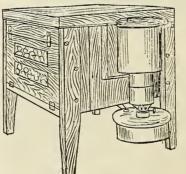

CYPHERS INCU-BATORS are built to hatch and to last. With proper care-With proper care— the same care you would give a valu-able piece of house-hold furniture — a Standard C yp hers will last an ordinary lifetime. Lectro-Hatch Brooder, 150-chick capacity \$16.00; 500-chick, \$23.50. IF IN THE MARKET FOR A MAMMOTH INCUBATOR, SEND FOR CATALOG.

Complete Line of Incubators and Brooders

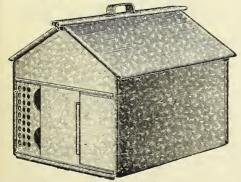

This is used to heat a home-made brooder, which will take the best of care of from 30 to 60 chicks. Instructions for making brooder packed with every heater. A boy can make the brooder in an hour with saw and hammer. The ma-terials need not cost over 25c. The Putnam Brooder Heater holds one quart of oil and will burn 10 days without filling or trimming: without filling or trimming;

needs no other attention. The Putnam Brooder can be operated anywhere and in any climate. It is built on the principle of an open fire-place. It carries out the foul and draws in fresh air, providing continous ventilation. Heat is radiated from above upon the backs of the chicks just as with the mother hen. The floor of the hover is even with the ground: the chicks have no inclines to learn and don't get lost and cold.

The Putnam Brooder Heater The Putnam Brooder Heater is made of brass and galvan-ized iron. It is practically in-destructible. Price of Put-nam Brooder Heater \$4.75. post paid. Illustrated circular on request.

THE "LULLABY" BROODER

Is positively the most simple brooder on the market, and yet it is built on lines true to nature, which insures the raising of nearly every chick entrusted to its care. Made of corrugated pasteboard. Ca-pacity, 25 chicks. Price, com-plete, \$2.00. Weight, 2 lbs.

Weight, 10 lbs Price, \$3.25. THE SIMPLICITY

If you hatch chicks-either the Mother Hen Way-or the Incubator Way-I want you to read about this indoor hover! It's really got mother hen herself outclassed! No tram-pled-no lost-no crowded out chicks!

Our special new folder-cata Our special new folder-cata-log of hovers and brooders tells all about it. Cares for fifty to seventy-five chicks without crowding. See this hover in our win-dow with chicks. Write today for new frider-catalog describ-ing it in detail! The price of the "Cozy" Hover is \$5.50.

"Lullaby" Brooder llaby" Brooder THE DELPHOS SUPERIOR GAL-VANIZED BROOD-ER COCP — Packed flat and can be put together without any tools. The bottom is elevated so chicks tools. The bottom is elevated so chicks are not exposed to are not exposed to dampness, and it can be removed in an in-stant to be cleaned. All parts slide to-gether in a bead and coop is perfectly rigid. Can be taken apart and packed away flat, occupying very little space when not in use. Bat when not in use. Rat and vermin - proof.

"COZY" HOVER

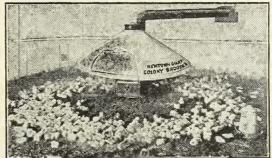

CYPHERS STYLE "B" OUTDOOR BROODER

Brooding chicks outdoors is robbed of most of its difficulties and inconveniences when Cyphers Brooders are used. They are substantial, well-built and comfortable, even when the ther-mometer drops to zero or below on cold nights. Cyphers Style B Outdoor Brooder is the best product of our twenty years' experience in outdoor brooder construction. Remember, it is not a question of price in buying brooders, it's a question of raising the chicks! Thousands of users have proved that this brooder will do it where others fail. Price, \$35.00. Cyphers Adaptable Hover—Which is the heating and hover-ing part of the above, \$18.00. CYPHERS CENTER LAMP PORTABLE HOVER This is a Centre Lamp Hover. Built of galvanized iron and canvas curtains; the well-known Hover, which has been on the market for years. Capacity, 100 chicks. Price, \$13.50.

"BABIE" CHICK FEEDER (Patented) THE

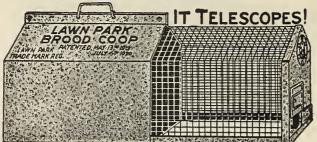

Through years

Send for Descriptive Catalogue.

Made of best grade galvanized materials, it is rust proof and will last a lifetime. Will readily accomtate thirty to forty chicks at once. The feed is dropped through the top and the little chicks can eat and drink in contentment without being crowded or trampled by older fowls. It is so designed that it can be placed in front of the "Lawn Park" Coop and securely fastened to make an additional runway of two feet, or it can be used in connection with any brood coop, as the door of the feeder is so made that it will fit practically any brood coop, thus suppying a yard to the ordinary closed coop. Size 6 inches high, 18 inches wide and 24 inches long. Saves feed and chicks.

BROOD COOPS FOR HENS WITH CHICKS PROTECTS THE CHICKS FROM HAWKS, RATS, WEASELS, VERMIN, COLD, STORMS, ETC. SAVES TIME, WORK AND WORRY

The "fawn Park" Brood Coop. Pat. May 13, 1919. The "fawn Park" Brood Coop. Pat. May 13, 1919. The made entirely of gavanized materials, will not rust, and absolutely protects chicks against rats, cats, dogs, hawks, artually repels lice—that's important. The main part of the coop is made from heavy galvanized steel, while the park is neade from strong galvanized wire screen, which has the edges neatly bound and strongly reinforced with galvanized steel. The "Lawn Park" is large and roomy, being 18 inches wide, the "Lawn Park" is large and roomy, being 18 inches wide, the the park are of equal length. Closed

from the jar to the edge of the pan, where the chicks can reach it through the openings. The small openings prevent dirt from getting into the pan—prevent the chicks from getting into the feed or water and prevent them from crowding too close around the feeder, thereby giving the weaker chicks an equal chance with the stronger ones. This overcomes every objection to the ordinary open pan Mason jar feeder and foun-tain. It fits any Mason jar. The top of the pan can be removed in a second to clean or fill. It is the most inexpensive, most practical and most sanitary feeding and watering device on the market and is fully covered by U. S. letters of patent. 25c. each; 30c. postpaid. 25c. each; 30c. postpaid.

TALCIMIZED SODIUM FLUORIDE KILLS POULTRY LICE— The U. S. Department of Agriculture recommends Sodium Fluor-ide to kill poultry lice. They report that it does the work bet-ter than anything else, killing both old and young lice, includ-ing the young which come from the eggs present on the fowl at the time of treatment. Taleimized Form Made Especially for Poultry—Talcimized Sodium Fluoride is made especially for poultry and carries the Government's direction for applying. It is safe, easy to use, inexpensive and absolutely does the work quickly and effectively. Price, 35c. (enough to treat 50 chickens). chickens).

work quickly and effectively. Price, 35c. (enough to treat 50 chickens). AVICOL STOPS CHICKS DYING—A few years ago it was considered impossible to prevent or cure White Diarrhoea. To-day, science offers the poultry raiser a new wonderful discov-ery, Avicol, that is easily given in the drinking water either for prevention or cure. The thousands of poultry raisers who have used Avicol are unanimous in their praise of it. Avicol positively stops chicks dying. Get a package today and use sole judge. Sold in three sizes: 25c. size (trial size); 50c. size (2½ times 25c. size) \$1.00 size (2½ times 50c, size). Add war *DON SUNG MAKES HENS LAY—Eggs will undoubtedly be higher in price this year than ever before. If you can keep your hens laying, this is your opportunity to make money. Don Sung (Chinese for egg-loying) is a new scien-tific discovery for hens that stimulates the egg-laying organs and makes the hen healthy, strong and vigorous. As a result, she lays regularly in any season. Don Sung is easily given in the feed, and costs nothing to try. It doesn't force or hurt the hen in any way. In fact, it makes her healthier. It is used by housands of successful poultry raisers, the world over. Price, 50 cents; large size, \$1 housands of successful poultry raisers, the world over.
