SPECIAL EDUCATION FUNDS AND POLICIES

AN ACT to create and enact a new subsection to section 15-40.1-07.6 of the North Dakota Century Code, relating to authority of the superintendent of public instruction to withhold state special education funds; and to amend and reenact section 15-59-02.1 of the North Dakota Century Code, relating to special education policies.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-59-02.1 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-02.1. Legislative intent - Special education. This statement of legislative intent is provided to define more clearly the relationship between the federal government, state, school districts, and parents of students with disabilities in the provision of special education and related services. State special education policies are directed to achieving the purposes set out in the Individuals With Disabilities Education Act [Pub. L. 91-230; 84 Stat. 121; 20 U.S.C. 1400 et seq.]. State funding along with federal resources are matched with local funds to achieve these purposes. "Related services" means transportation and such developmental and corrective or supportive services required to assist a student with disabilities to benefit from special education.

The school administrator or the administrator's appointed representative or director of special education other than the student's teacher is responsible for bringing together professionals and parents to share assessment information related to all areas of suspected disability, develop an individualized education program plan for the student with disabilities, and make recommendations for required special education and related services.

~~The legislative assembly believes that in order to assure equality of services that are provided for by limited state funds, the superintendent of public instruction will be required to approve a contract for services based on an individualized education program developed for each student with disabilities placed in a private school program or in programs outside the student's original special education unit.~~

The legislative assembly recognizes that a student with disabilities whose individualized education program so requires is entitled to an educational program in excess of one hundred eighty days per year if regression caused by an interruption in educational programming, together with a student's limited recoupment capacity, renders it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers that the student would otherwise be expected to reach in view of the disability. ~~All summer programs attended by these students must have approval of the superintendent of public instruction before receiving foundation aid or state special education reimbursement.~~

In the case of students with disabilities who require boarding care away from the family residence in order to receive special education and related services in an approved program, it is the intent of the legislative assembly that the instructional costs and costs of related services, including boarding care, be borne by state special education funds and school district funds.

"All students with disabilities have the right to a free appropriate public education" means that all students with disabilities have the right to special education and related services which must be provided at public expense, under public supervision and direction and at no cost to parents. "At no cost" means specifically designed instruction and related services as described in the student's individualized education program plan provided without charge but does not preclude incidental fees that are normally charged to nondisabled students or their parents as a part of the regular education program.

School districts must require use of family insurance, or similar third-party payments, in whatever amount is allowed, as long as there is no financial loss to the student or the student's parent, for determining a student's medically related disability or other required related services which results in the student's need for special education. It is the school district's responsibility to assume costs not covered by the insurer or similar third party in the above situation.

The school district in which a student with disabilities resides is responsible to provide transportation for the student as prescribed in the student's individualized education program.

Costs of transportation for the student to attend an approved special education program are the responsibility of the school district with aid from the superintendent of public instruction.

The district of residence may use any reasonably prudent and safe means of transportation at its disposal to carry out the requirements of the individualized education program. Such means may include a regularly scheduled schoolbus, public or commercial transportation where appropriate, charter or specially contracted transportation, or transportation provided by the parent of a student with disabilities or other responsible party at school district expense.

If the transportation between the district of residence and the educational facility is provided by the parents, the reimbursement to the school district from department of public instruction funds must be for mileage costs only and may not include per diem costs for meals, lodging, lost wages, or other costs of any kind.

As the department of human services has authority under chapter 25-16 to provide early intervention services to meet the needs of children with disabilities ages zero through two years, the legislative assembly recognizes this provision and requires the superintendent of public instruction, the state department of health, and the department of human services to cooperate in planning and coordinating programs for these children.

SECTION 2. A new subsection to section 15-40.1-07.6 of the 1997 Supplement to the North Dakota Century Code is created and enacted as follows:

The superintendent of public instruction may enforce the department's determination of a complaint by withholding state special education funds due a school district that is found to be in violation of providing a free appropriate public education in an amount equal to the cost of meeting the affected individual students' needs.

15.1-04-01. Compact for education. The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

COMPACT FOR EDUCATION

Article I - Purpose and Policy

- A. It is the purpose of this compact to:
1. Establish and maintain close cooperation and understanding among executive, legislative, professional, educational, and lay leadership on a nationwide basis at the state and local levels.
 2. Provide a forum for the discussion, development, crystalization, and recommendation of public policy alternatives in the field of education.
 3. Provide a clearinghouse for information on matters relating to education problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.
 4. Facilitate the improvement of state and local education systems so that all of them will be able to meet adequate and desirable goals in

a society that requires continuous qualitative and quantitative advances in educational opportunities, methods, and facilities.

- B. It is the policy of this compact to encourage and promote local and state initiatives in the development, maintenance, improvement, and administration of education systems and institutions in a manner that will accord with the needs and advantages of diversity among localities and states.
- C. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own education system and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare, and economic advancement of each state are supplied in significant part by persons educated in other states.

Article II - State Defined

As used in this compact, "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III - The Commission

- A. The education commission of the states, hereinafter called "the commission", is hereby established. The commission consists of seven members representing each party state. One of the members must be the governor and two must be members of the state legislative assembly selected by its respective houses. The governor shall appoint the remaining four members, all of whom serve at the pleasure of the governor. If the laws of a state prevent legislators from serving on the commission, the governor shall appoint six members, all of whom shall serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements that a state may establish for the appointment and service of its members on the commission, the guiding principle for the composition of the membership on the commission from each party state is that the members representing the state must, by virtue of their training, experience, knowledge, or affiliations, be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, and lay and professional, as well as public and nonpublic educational leadership. Of those appointees, one must be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may not be more than ten nonvoting commissioners selected by the steering committee for terms of one year. The nonvoting commissioners shall represent leading national organizations of professional educators or individuals concerned with educational administration.
- B. The members of the commission are entitled to one vote each on the commission. No action of the commission is binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of the action. Action of the commission may be only at a meeting at which a majority of the commissioners are

present. The commission shall meet at least once a year. In its bylaws, and subject to any directions and limitations contained in the bylaws, the commission may delegate the exercise of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV, and the adoption of the annual report pursuant to this article.

- C. The commission shall have a seal.
- D. The commission shall elect annually, from among its members, a chairman, who must be a governor, a vice chairman, and a treasurer. The commission shall provide for the appointment of an executive director. The executive director shall serve at the pleasure of the commission and, together with the treasurer and other personnel deemed appropriate by the commission, shall be bonded in an amount determined by the commission. The executive director shall be secretary.
- E. Notwithstanding the civil service, personnel, or other merit system laws of a party state, the executive director, subject to the approval of the steering committee, shall appoint, remove, or discharge personnel as necessary for the performance of the functions of the commission, and shall fix the duties and compensation of the personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.
- F. The commission may borrow, accept, or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.
- G. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize, and dispose of the same. Any donation or grant accepted by the commission or services borrowed pursuant to this article must be reported in the annual report of the commission. The report must include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.
- H. The commission may establish and maintain facilities for transacting its business. The commission may acquire, hold, and convey real and personal property and any interest therein.
- I. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind the bylaws. The commission shall publish its bylaws in convenient form and shall file a copy of the bylaws and any amendment to the bylaws, with the appropriate agency or officer in each of the party states.
- J. The commission annually shall make to the governor and legislative assembly of each party state a report covering the activities of the

commission for the preceding year. The commission may make additional reports, as it deems desirable.

Article IV - Powers

In addition to authority conferred on the commission by other provisions of the compact, the commission has the authority to:

- A. Collect, correlate, analyze, and interpret information and data concerning educational needs and resources.
- B. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public education systems.
- C. Develop proposals for adequate financing of education as a whole and at each of its many levels.
- D. Conduct or participate in research if the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.
- E. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment of public education, and make the recommendations available to appropriate governmental units, agencies, and public officials.
- F. Do any other thing necessary or incidental to the administration of its authority or functions pursuant to this compact.

Article V - Cooperation With Federal Government

- A. If the laws of the United States specifically so provide, or if administrative provision is made within the federal government, the United States may be represented on the commission by not more than ten representatives. Representatives of the United States must be appointed and serve in the manner provided by or pursuant to federal law, and may be drawn from any branch of the federal government. No representative may have a vote on the commission.
- B. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common education policies of the states, and may advise the agency or officer concerning any matter of mutual interest.

Article VI - Committees

- A. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee must

consist of governors, one-fourth must consist of legislators, and the remainder must consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows: sixteen for one year and sixteen for two years. The chairman, vice chairman, and treasurer of the commission must be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee do not affect its authority to act, but the commission at the next regular meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person may serve more than two terms as a member of the steering committee; provided, that service for a partial term of one year or less does not count toward the two-term limitation.

- B. The commission may establish advisory and technical committees composed of state, local, and federal functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.
- C. The commission may establish such additional committees as its bylaws may provide.

Article VII - Finance

- A. The commission shall advise the governor or designated officer of each party state regarding its budget and estimated expenditures for the period required by the laws of that party state. Each of the commission's budgets of estimated expenditures must contain specific recommendations regarding the amount to be appropriated by each party state.
- B. The total amount of appropriation requests under any budget must be apportioned among the party states. In making the apportionment, the commission shall devise and employ a formula that takes equitable account of the populations and per capita income levels of the party states.
- C. The commission may not pledge the credit of any party state. The commission may meet its obligations in whole or in part with funds available to it pursuant to paragraph G of Article III of this compact; provided, that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in this manner. Except when the commission makes use of funds available to it pursuant to paragraph G of Article III, the commission may not incur any obligation prior to the allotment of funds by the party states adequate to meet the obligation.
- D. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission must be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission must be audited annually by a qualified public

accountant, and the report of the audit must be included in and become part of the annual report of the commission.

- E. The accounts of the commission must be open at any reasonable time for inspection by duly constituted officers of the party states and by any person authorized by the commission.
- F. Nothing contained herein may be construed to prevent commission compliance with laws relating to the audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VIII - Eligible Parties; Entry Into and Withdrawal

- A. This compact has as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. With respect to any jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official and the jurisdiction.
- B. A state or eligible jurisdiction may enter into this compact and it becomes binding on the state or jurisdiction when adopted; provided, that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions is required.
- C. Adoption of the compact may be either by enactment of the compact or by adherence to the compact by the governor; provided, that in the absence of enactment, adherence by the governor is sufficient to make a state a party only until December 31, 1967. Any party state may withdraw from this compact by enacting a statute repealing the compact. A withdrawal may not take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of withdrawal.

Article IX - Construction and Severability

This compact must be liberally construed to effectuate its purposes. The provisions of this compact are severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability of the compact to any government, agency, person, or circumstance is not affected. 2. The size of any school district board may be increased to either five, seven, or nine members or decreased to seven or five members if a petition is signed by at least one-third of the qualified electors of the district and the change is approved by a majority of the qualified electors of the district voting on the question at a special election called for that purpose.
3. If a majority of the qualified voters in a district elect to increase the size of the school board, the additional members must be elected to the board at the next annual district election in the same manner as other board members.
 - a. If the total number of board members after approval of the increase is five, the terms of two members extend until the first annual election, the terms of two members extend until the second annual election, and the term of the remaining member extends until the third annual election.
 - b. If the total number of board members after approval of the increase is seven, the terms of three members extend until the first annual election, the terms of two members extend until the second annual election, and the terms of the remaining two members extend until the third annual election.
 - c. If the total number of board members after approval of the increase is nine, the terms of three members extend until the first annual election, the terms of three members extend until the second annual election, and the terms of the remaining three members extend until the third annual election.
 - d. The length of the terms specified in this section must be determined by lot.
 - e. All board members shall serve for the terms specified in this section and until their successors are elected and qualified.
 - f. The length of any term in existence before the increase in board membership and held by a board member who is duly qualified may not be modified.
 - g. Terms subsequent to the first term are for the normal period of three years and extend until a successor is elected and qualified.
4. The voters of a school district shall elect school board members at large. If, however, the district has been reorganized, board members may be elected at large, by geographical area, or at large by geographical area.
5. An election on a reorganization proposal takes the place of the petition and election requirements of this section. Approval of the reorganization proposal has the same effect as if the approval were by the election provided for in this section.
6. If the qualified electors of a district approve a reduction in the size of the school board, the excess number of members will serve out existing terms until the number approved by the electors has been reached.

7. If the board of a school district has elected to convert its members' terms to four years and has also increased the number of its board members, the board by lot or by some other random selection method shall provide for a combination of initial terms of office not to exceed four years for the new members. The combination must equalize to the greatest extent possible the number and length of terms for old board members and for new members to be elected during the next three election years. 1. A school board by resolution may change the terms of office for its members from three to four years. The resolution must provide that upon the expiration of each member's current three-year term, the term of office for that position on the board will become four years. The resolution may provide for the conversion of one position to a two-year term and, thereafter, to a four-year term. If the resolution so provides, the term must be chosen by lot. If as a result of an extension to four years a term would conclude in an odd-numbered year, the resolution must provide for one transitional three-year term before the four-year term commences.
2. If a school board changes its terms of office as provided for in this section:
 - a. References in this title to annual elections mean biennial elections when applied to the board; and
 - b. The election held pursuant to section 15.1-09-31 must be held in even-numbered years.
3. A school board that has converted the terms of its members to four years may revert to three-year terms by passing a resolution providing for the reversion. The first school board election in a newly reorganized district is governed by chapter 15.1-09.
2. Members of newly formed school boards representing reorganized districts may not enter upon the duties of office until the time specified in section 15.1-12-18, except as provided in sections 15.1-12-15 and 15.1-12-16. Before the completion of a reorganization, the board of an existing district may not contract or obligate the district, except with the approval of the county committee.

15.1-12-15. School district reorganization - School board - Duties.

1. The board of a reorganized school district established under this chapter shall negotiate with the district's teachers and may contract with the teachers' representative organization prior to the effective date of the reorganization. If by five p.m. on July first of the year the reorganized district begins operations, a negotiated agreement has not been entered between the board and the teachers pursuant to statute, no teacher employed by the board may receive less in salary and benefits than that teacher received for the preceding school year. For purposes of this section, "salary and benefits" means salary, insurance benefits, teachers' fund for retirement contributions, personal leave, sick leave, accumulated sick leave, extracurricular salary, reduction-in-force policy, grievance procedures, and recall procedures.
2. On or before February first of the year in which the reorganization becomes effective, the board of the reorganized school district shall hold a public hearing to present the curriculum, course offerings, and staff positions to be available during the coming school year. The board shall publish notice of the hearing in the official newspaper of each county having land in the reorganized district, at least fourteen days before the date of the hearing.
3. By five p.m. on April fifteenth of the year in which the reorganization becomes effective, the board of the reorganized school district shall notify in writing each teacher employed by the districts being reorganized, whether or not the teacher will be offered a contract of employment with the reorganized district.

Unless otherwise provided, debts, obligations, and liabilities of the districts or parts of districts incorporated into the reorganized district become the debts, obligations, and liabilities of the reorganized district.

15.1-12-19. School district reorganization - Sale or removal of school buildings. The board of a reorganized district may sell or move a school building located in the district. If a petition calling for the sale of a school building is signed by a majority of the qualified electors residing within the boundaries of a former school district now wholly located within the boundaries of the reorganized district, and is submitted to the board, the board shall sell the building. If the petition calls for the board to move the building, the board shall move the building to the location designated in the petition. The board shall deposit proceeds of the sale in either the district's general fund or the building fund. If the purchaser or recipient of the building is a political subdivision of this state, the board, upon a unanimous vote, may sell the building for less than its fair market value.

15.1-12-20. School district reorganization - Cost of elections. If the electors reject a reorganization plan, the cost of the election must be borne by each school district that had real property included in the proposed district. The percentage of the total cost for which each district is obligated is the same as the percentage that the district's real property included in the proposed reorganized district bears to the total amount of real property in the proposed reorganized district. If the electors approve a reorganization plan, the cost of the election is borne by the newly reorganized district.

15.1-12-21. School district reorganization - Changes in plan.

1. All provisions of a reorganization plan, except those relating to boundaries and geographic voting areas, may be changed upon the concurrence of a majority of the qualified electors voting on the question. The question may be placed before the voters at a regular or special election upon a motion of the school board and shall be placed before the voters upon receipt by the board of a petition signed by at least:
 - a. Twenty-five percent of the qualified electors residing in the district, if the population of the district, as determined by the county superintendent, is less than twenty-five qualified electors;

- b. Twenty percent of the qualified electors residing in the district, if the population of the district is at least twenty-five but not more than four thousand; or

No other school board may impose a proportionate tax rate on different classes of property within the district.

15.1-12-24. Nonoperating school district - Reorganization or dissolution. 4. Receipt of notice by a county committee under this section:

7. The order of dissolution becomes effective July first following approval by the state board, unless the county committee provides for a different effective date.
8. If the boundaries of the dissolving school district cross county lines, the proceeding to dissolve the district must be conducted jointly by the county committees representing counties containing twenty-five percent or more of the dissolving district's taxable valuation. If, after the hearing, a majority of the county committees are unable to agree upon an order of dissolution and attachment, the county superintendent of the county in which the administrative headquarters of the dissolving school district is located shall notify the state board. The state board shall conduct a public hearing, as required in this section, and order the dissolution of the district and the attachment of its real property to adjacent districts in the manner it deems appropriate.

The treasurer shall issue the refund to the owner of the property as shown on the county's assessment list at the time of payment. If there is a lien for unpaid taxes against the property, the treasurer shall first apply the property owner's tax credit toward any outstanding balance. At the conclusion of the recount, the county auditor or other election official shall submit all challenged ballots to the recount board for decision. Except for political subdivision recounts other than counties, the recount board must be composed of the state's attorney of the county, the chairman of the board of county commissioners, and the clerk of the district court of the county. Unless otherwise specified by law, for a political subdivision other than a county, the governing body of the political subdivision shall appoint the recount board. PRESIDENTIAL PREFERENCE CONTEST

AN ACT to create and enact two new sections to chapter 16.1-11 of the North Dakota Century Code, relating to requirements for conducting a presidential preference contest and a presidential caucus; to amend and reenact section 16.1-11-02 and subdivision v of subsection 2 of section 28-32-01 of the North Dakota Century Code, relating to the time for holding presidential preference contests and the adoption of rules by the secretary of state; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 16.1-11-02 of the North Dakota Century Code is amended and reenacted as follows:

16.1-11-02. Presidential preference contest - Time for holding. In a presidential election year after 2003, there must be conducted a presidential preference contest on the last Tuesday in February of that year. The presidential preference contest may be used only to instruct delegates to a national political convention and may not further the electoral process for any other purpose. No other election or vote on a measure of any kind may be held in conjunction with the presidential preference contest.

SECTION 2. A new section to chapter 16.1-11 of the North Dakota Century Code is created and enacted as follows:

Presidential preference contest - Rules. Notwithstanding any other provision of law, the secretary of state shall adopt rules relating to the presidential preference contest, including rules providing for the reduction of poll workers, the reduction of poll hours, the reduction of precincts, the arrangement of the names of candidates on the official ballot, the publication of the sample ballot, and open voting within cities or counties.

SECTION 3. A new section to chapter 16.1-11 of the North Dakota Century Code is created and enacted as follows:

2000 presidential caucus.

1. On one designated day between the last Tuesday in February and the first Tuesday in March in the year 2000, every political party entitled to a separate column under section 16.1-11-30 may conduct a presidential preference caucus. If employed by a political party, the results of a presidential preference caucus must be used to instruct delegates to a national political convention.
2. A presidential preference caucus must be conducted in the manner provided in chapter 16.1-03 with the exception that a political party is not required to hold individual caucuses in every election precinct

throughout a district. Only those persons who either voted or affiliated with the party at the last general election or intend to vote or affiliate with the party at the next general election may participate and vote at the presidential preference caucus.

3. Unless specifically forbidden by national party rules, the delegates selected by political parties at a presidential preference caucus are bound to cast their first ballots at the party national convention in such a manner that each candidate at the party's presidential preference caucus receives a proportion of the total votes cast by the delegates equal to the proportion received by that candidate of the total votes cast for all candidates for president of that party at the caucus. If party rules do not allow apportionment of a delegate and such an apportionment appears necessary because no candidate received more than five-tenths of a delegate, in computing the number of delegates to which a candidate is entitled on the first ballot that delegate must be assigned to the candidate receiving the highest number of votes in the contest. If a candidate withdraws before the first ballot voting begins, delegates obligated to vote for that candidate on the first ballot are released from that obligation.
4. A presidential preference contest, as provided for in chapter 16.1-11, may not be conducted in the year 2000 nor is a political party entitled to conduct a presidential preference contest in the year 2000. A political party must notify the secretary of state before August 1, 1999, if the political party will conduct a presidential preference caucus in the year 2000 according to this section.

¹⁶⁵ **SECTION 4. AMENDMENT.** Subdivision v of subsection 2 of section 28-32-01 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

- v. The secretary of state with respect to rules adopted for the presidential preference contest under section ~~16.1-11-02.2~~ 2 of this Act.

SECTION 5. EFFECTIVE DATE. Sections 2 and 4 of this Act become effective on January 1, 2003.

SECTION 6. EXPIRATION DATE. Section 3 of this Act is effective through April 1, 2000, and after that date is ineffective.

Approved March 18, 1999
Filed March 19, 1999

¹⁶⁵ Section 28-32-01 was also amended by section 1 of Senate Bill No. 2110, chapter 304.

Candidates seeking nomination to an unexpired term are required to indicate whether or not they are seeking a regular term of office or an unexpired term of office on their nominating petitions as set forth in section 40-21-07.~~

There is a presumption of forfeiture for money, coin, currency and everything of value, furnished or intended to be furnished, in exchange for a controlled substance in violation of chapter 19-03.1 or imitation controlled substance in violation of chapter 19-03.2, if the state offers a reasonable basis to believe, based on the following circumstances, that there is a substantial connection between the property and an offense listed in chapter 19-03.1 or 19-03.2:

A license authorizing two 7-day hunting periods may allow hunting in a different zone during each period. The governor, in the governor's proclamation, shall specify various waterfowl hunting zones for which nonresident waterfowl hunting licenses will be available, and may specify the number of licenses which may be issued in each zone and the manner in which they are to be issued. The land must be within a unit open for the hunting of deer. The license must include a legal description of the eligible land described in the ~~affidavit~~ completed application and may be used to hunt deer only upon that land. Upon request, a lessee shall provide proof that the land described in the ~~affidavit~~ completed application is leased for agricultural purposes. A person who is eligible for a license under this subsection may transfer that eligibility for the license to a spouse or legal dependent residing customarily with that person, but no more than one license may be issued under this subsection for any qualifying land. A person transferring eligibility under this subsection may not receive a license under this subsection for the season for which the eligibility was transferred. If not otherwise specified in an agricultural lease, the landowner is entitled to receive the license.

5. The land must be within a unit open for the hunting of antelope. The license must include a legal description of the eligible land described in the ~~affidavit~~ completed application and may be used to hunt antelope only upon that land. Upon request, a lessee shall provide proof that the land described in the ~~affidavit~~ completed application is leased for agricultural purposes. A resident who is eligible for a license under this subsection may transfer that eligibility for the license to a spouse or legal dependent residing customarily with the resident, but no more than one license may be issued under this subsection for any qualifying land. A resident transferring eligibility under this subsection may not receive a license under this subsection for the season for which eligibility was transferred. If not otherwise specified in an agricultural lease, the landowner is entitled to receive the license. The number of licenses issued without charge under this subsection may not exceed the total number of licenses prescribed for each district or unit in the governor's proclamation. If the number of eligible persons who apply for licenses issued without charge under this subsection exceeds the number of licenses prescribed for the district or unit in the governor's proclamation less any licenses that are otherwise designated to be issued with a charge under this subsection, the licenses to be issued without charge must be

issued by lottery as prescribed in the governor's proclamation. If the number of licenses prescribed for the district or unit in the governor's proclamation exceeds fifty and if the number of applications for these licenses exceeds the number of licenses prescribed for the district or unit in the governor's proclamation, then one-half of the licenses exceeding fifty must be issued by lottery as prescribed in the governor's proclamation and may not be issued to landowners without charge.

7. A resident who has executed a lease for at least one hundred sixty acres [64.75 hectares] of land and who actively farms or ranches that land or a resident who holds title to at least one hundred sixty acres [64.75 hectares] of land is eligible to apply for a license to hunt elk upon filing ~~an affidavit~~ a signed application describing that land and payment of the fee requirement for a resident big game license. The land must be within a unit open for the hunting of elk. The license must include a legal description of the eligible land described in the ~~affidavit~~ completed application and may be used to hunt elk within the district or unit in which the land described in the ~~affidavit~~ completed application is located. Upon request, a lessee shall provide proof that the land described in the ~~affidavit~~ completed application is leased for agricultural purposes. A resident who is eligible for a license under this subsection may transfer that eligibility for the license to a spouse or legal dependent residing customarily with the resident, but no more than one license may be issued under this subsection for any qualifying land. A resident transferring eligibility under this subsection is not eligible to apply for a license to hunt elk in future years but is eligible to participate in the rocky mountain elk foundation raffle under section 20.1-08-04.6. If not otherwise specified in an agricultural lease, the landowner is entitled to receive the license. The governor's proclamation may restrict the districts or units for which preferential licenses may be issued under this subsection. However, the governor shall give primary consideration to allowing preferential licenses under this subsection to be issued to persons owning or leasing land in the following areas: that portion of township one hundred forty-seven north, range ninety-five west which is north and west of state highway 22; township one hundred forty-six north, range ninety-six west; township one hundred forty-seven north, range ninety-six west; township one hundred forty-eight north, range ninety-six west; township one hundred forty-six north, range ninety-seven west; township one hundred forty-seven north, range ninety-seven west; township one hundred forty-eight north, range ninety-seven west of the fifth principal meridian, in Dunn County; the west one-half of township one hundred forty-nine north, range ninety-five west; township one hundred forty-nine north, range ninety-six west, and township one hundred forty-nine north, range ninety-seven west of the fifth principal meridian, in McKenzie County; and other areas within a district or unit open for hunting of elk as prescribed in the governor's proclamation. The number of licenses issued under this subsection for each designated district or unit for hunting elk may not exceed fifteen percent of the total licenses prescribed in the governor's proclamation for each district or unit. If the number of applications for licenses to be issued under this subsection in a district or unit exceeds the maximum number of such licenses allocated to that district or unit, the licenses to be issued must be issued by lottery as prescribed in the governor's proclamation. A person who receives a license under this subsection is not eligible to apply for a license to hunt elk in future years but is eligible to participate in the rocky mountain elk foundation raffle under section 20.1-08-04.6.

Notwithstanding this subsection, if a person other than the transferee of license eligibility is unsuccessful in harvesting an elk under this subsection, that person may return the unused license to the department and is eligible to apply for, but not transfer, a one-time additional license to hunt elk in future years. A person who receives a second license under this subsection is not eligible to participate in the rocky mountain elk foundation raffle under section 20.1-08-04.6. Licenses to hunt elk may not be issued under this subsection when the total number of licenses prescribed in the governor's proclamation is less than twenty. If a person receives a license under this subsection, the person's spouse, children, and parents living with the person are not eligible to receive a license under this subsection for the district or unit in which the land described in the ~~affidavit~~ completed application is located, unless the person has sold or otherwise transferred the person's rights to the land described in the ~~affidavit~~ completed application. The director may issue special elk depredation management licenses to landowners in designated areas around Theodore Roosevelt national park upon payment of the fee requirement for a resident big game license. The provisions of this section governing the number of licenses issued for each designated district or unit for hunting elk do not apply to special elk depredation management licenses and a person who receives such a license under this subsection is eligible to apply for a license to hunt elk in future years and is eligible to participate in the rocky mountain elk foundation raffle under section 20.1-08-04.6.

8. A resident who has executed a lease for at least one hundred sixty acres [64.75 hectares] of land and who actively farms or ranches that land or a resident who holds title to at least one hundred sixty acres [64.75 hectares] of land is eligible to apply for a license to hunt moose without charge upon filing ~~an affidavit~~ a signed application describing that land. The land must be within a unit open for the hunting of moose. The license must include a legal description of the eligible land described in the ~~affidavit~~ completed application and may be used to hunt moose only upon that land. Upon request, a lessee shall provide proof that the land described in the ~~affidavit~~ completed application is leased for agricultural purposes. A resident who is eligible for a license under this subsection may transfer that eligibility for the license to a spouse or a legal dependent residing customarily with the resident, but no more than one license may be issued under this subsection for any qualifying land. A resident transferring eligibility under this subsection is not eligible to apply for a license to hunt moose in future years but is eligible to participate in the North Dakota game warden association raffle under section 20.1-08-04.2. If not otherwise specified in an agricultural lease, the landowner is entitled to receive the license. The number of licenses issued under this subsection for a district or unit may not exceed fifteen percent of the total licenses prescribed in the governor's proclamation for that district or unit. If the number of eligible persons who apply for a license under this subsection exceeds the number of licenses available under this subsection, the licenses must be issued by lottery as prescribed in the governor's proclamation. A person who receives a license under this subsection and who is successful in harvesting a moose is not eligible to apply for a license to hunt moose in future years but is eligible to participate in the North Dakota game warden association raffle under section 20.1-08-04.2. Notwithstanding this subsection, if a person other than the transferee of license eligibility is unsuccessful in harvesting a moose under this subsection, that person may return the unused license

to the department and is eligible to apply for, but not transfer, an additional license to hunt moose in future years. A person who receives a second license under this subsection is not eligible to participate in the North Dakota game warden association raffle under section 20.1-08-04.2. If a person receives a license under this subsection, the person's spouse, children, and parents living with the person are not eligible to receive a license under this subsection for the district or unit in which the land described in the affidavit completed application is located, unless the person has sold or otherwise transferred the person's rights to the land described in the affidavit completed application. The governor's proclamation may restrict the area of land within a unit open for the hunting of moose for which a preferential license is issued under this subsection. If the proclamation restricts the area for issuance of preferential licenses, an applicant must own or lease land within the restricted area to be eligible to apply for a license to hunt moose upon payment of the fee required for a resident big game license. The license may be used to hunt moose within the entire unit in which the land described in the affidavit completed application is located. A successful applicant from a restricted area may not return an unused license to regain eligibility for a license to hunt moose in future years.

1. Upon the adoption of a resolution, the governing body may form a multicounty or a city-county health district.
2. Notwithstanding this chapter, in a county without a countywide public health unit, the board of county commissioners, upon adoption of a resolution, may contract with a city that has a public health department to provide health services to the county and in the cities throughout the county which do not have a public health unit. The contract must comply with chapter 54-40.3. When a contract is executed, any provision of this chapter relating to organizing district boards of health does not apply, and the city public health department shall exercise all the necessary powers and duties of a public health unit under this chapter. The department shall treat a county with a contract under this subsection as a public health unit.

23-35-05. Health districts - Expansion - Merger.

1. Upon adoption of a resolution, a county that is not included in any public health unit may request inclusion as a part of an existing health district. Upon receipt of a request to become part of an existing health district, the district board of health shall consider the request and, if the board approves the request by a majority vote, shall submit the matter to each county in the health district. If a majority of the counties approve the request by a majority vote, the requesting county becomes a part of the health district.
2. Upon expansion of a health district under this section, the number of board of health members must be adjusted to allow the added county the same proportion of members allowed to member cities and counties of the existing health district as determined under this chapter.

3. Any two or more health districts may merge into a single health district upon a majority vote of the respective boards of health and a majority vote of the governing body of each county. The assets of each merging health district become the property of the newly created health district. Board of health membership of a new health district must be determined under section 23-35-03, unless otherwise decided by the board. The new health district maintains the same authority and powers of the previous health districts. The mill levy of the newly created health district is not limited by the old mill levy but may not exceed the amount allowed under section 23-35-07.
4. Upon adoption of a health district plan by two or more counties, the joint board of county commissioners shall appoint a district board of health.

23-35-06. Health districts - Dissolution - Withdrawal.

1. If a health district has been in operation for two years, the district may be dissolved as provided for under this section. If a petition is filed with the county auditor of each county of a health district which is signed by qualified electors of that county equal to ten percent or more of the votes cast in that county at the last general election, an election on the question of dissolution must be presented to the qualified electors in each county in the district at the next election held in each county in the district. If a majority of the votes cast on the question in a majority of the counties favor dissolution, the health district is dissolved on the second January first following the election. If a majority of the votes cast on the question in a majority of the counties are against dissolution, no other election on this issue may be held for two years.
2. If a health district has been in operation for two years, any county may withdraw from the district as provided under this section. If a petition is filed with the withdrawing county's auditor which is signed by qualified electors of the county equal to ten percent or more of the votes cast in that county at the last general election, an election on the question of withdrawal must be presented to the qualified electors in the county at the next election in the county. If a majority of the votes cast on the question favor withdrawing from the district, the county is withdrawn from the district on the second January first following the election. If a majority of the votes cast on the question are against withdrawal, no other election on this issue may be held for two years.

23-35-07. Health district funds.

1. A district board of health shall prepare a budget for the next fiscal year at the time at which and in the manner in which a county budget is adopted and shall submit this budget to the joint board of county commissioners for approval. The amount budgeted and approved must be prorated in health districts composed of more than one county among the various counties in the health district according to the assessed valuation of the respective counties in the health district. For the purpose of this section, "prorated" means that each member county's contribution must be based on an equalized mill levy throughout the district. Within ten days after approval by the joint board of county commissioners, the district board of health shall certify the budget to the respective county auditors and the budget must be included in the levies

of the counties. The budget may not exceed the amount that can be raised by a levy of five mills on the taxable valuation, subject to public hearing in each county in the health district at least fifteen days before an action taken by the joint board of county commissioners. Action taken by the joint board of county commissioners must be based on the record, including comments received at the public hearing. A levy under this section is not subject to the limitation on the county tax levy for general and special county purposes. The amount derived by a levy under this section must be placed in the health district fund. The health district fund must be deposited with and disbursed by the treasurer of the district board of health. Each county in a health district quarterly shall remit and make settlements with the treasurer. Any funds remaining in the fund at the end of any fiscal year may be carried over to the next fiscal year.

2. The district board of health, or the president and secretary of the board when authorized or delegated by the board, shall audit all claims against the health district fund. The treasurer shall pay all claims from the health district fund. The district board of health shall approve or ratify all claims at the board's quarterly meetings.

23-35-08. Boards of health - Powers and duties. Except when in conflict with a local ordinance or a civil service rule within a board of health's jurisdiction, each board of health:

13. May supervise any matter relating to preservation of life and health of individuals, including the supervision of any water supply and sewage system.

15. Shall appoint a local health officer.
16. May employ any person necessary to effectuate board rules and this chapter.
17. If a public health unit is served by a part-time local health officer, the board of health may appoint an executive director. An executive director is subject to removal for cause by the board of health. The board of health may assign to the executive director the duties of the local health officer, and the executive director shall perform these duties under the direction of the local health officer.
18. May contract with any person to provide the services necessary to carry out the purposes of the board of health.
19. Shall designate the location of a local health officer's office and shall furnish the office with necessary equipment.

21. Shall set the salary of the local health officer, the executive director, and any assistant local health officer and shall set the compensation of any other public health unit personnel.
22. Shall pay for necessary travel of the local health officer, the local health officer's assistants, and other personnel in the manner and to the extent determined by the board.

23-35-09. Abatement and removal of nuisance, source of filth, and cause of sickness.

1. If necessary for the protection of public health to abate or remove any nuisance, source of filth, or cause of sickness, the board of health shall serve notice on the owner or occupant of the property requiring the owner or occupant, at the owner's or occupant's expense, to remove or abate the nuisance, source of filth, or cause of sickness within a time specified by the board, not exceeding thirty days. If the owner or occupant fails to comply with the notice to remove or abate or if the nuisance, source of filth, or cause of sickness exists on property of

nonresident owners or on property the owners of which cannot be found, the board of health may remove or destroy the nuisance, source of filth, or cause of sickness at the expense of the appropriate city or county, which shall charge the expense against the lot, piece, or parcel of land on which the work is done.

2. The governing body of the city or county may levy and assess against the property the cost of the removal or destruction of a nuisance, source of filth, or cause of sickness, and the member of the governing body who is responsible for streets shall return and file the assessment in the office of the auditor of the city or county. The auditor shall publish, in the same manner as provided under section 40-22-06, the amount of the assessment together with a notice of the time and location the governing body will meet to consider the approval of the assessment. Each assessment must be recorded, collected, and paid as other taxes are recorded, collected, and paid.
3. If a board of health determines it necessary for the preservation of public health to enter any building within the board's jurisdiction to examine, destroy, remove, or prevent any nuisance, source of filth, or cause of sickness and is refused entrance into the building, the local health officer, or a designated agent of the local health officer, may make a complaint under oath to a district judge within the jurisdiction of the board of health stating the facts in the case which the local health officer, or a designated agent of the local health officer, has knowledge. If a warrant is issued and if requested by a board of health, a county sheriff or city police department shall provide assistance to that public health unit in any action to search or seize material in or on any private property to destroy, remove, or prevent the nuisance, source of filth, or cause of sickness, if there is probable cause to believe a public health hazard or public health nuisance exists on or in that property, and shall carry out any other preventive measures the public health unit requests. For purposes of this subsection, a request from a public health unit means a request for assistance which is specific to a public health nuisance and is not a continuous request for assistance.

23-35-10. District boards of health - Acquiring and disposing of property.

1. A district board of health may acquire by lease, purchase, construction, or gift for district health office use and control property for all purposes authorized by law or necessary to the exercise of the powers granted in this chapter. The district board of health may finance the purchase, construction, or equipping of a building on owned or leased property for the use and purpose for which the health district is formed and carry out the functions of the health district in either of the following ways:

2. Bonds issued under this section and income under this section are exempt from any taxes except inheritance, estate, and transfer taxes. The indebtedness for which the bonds are issued, or for which a mortgage may be given as under this section, is neither an obligation or an indebtedness of this state nor of the counties or cities comprising the district board of health. Any indebtedness under this section may be foreclosed in any manner provided by law. The district board of health may convey or transfer property acquired as provided under this section. If, upon dissolution of a health district, any balance remains in the health district fund after all obligations have been paid, the balance must be transferred to the general fund of the counties comprising the health district in proportion to the assessed valuation most recently used in preparing the health district budget under this chapter. If any county in the district withdraws from a health district, any assets and inventory of supplies and equipment located in the county for use in health district programs and services remain the property of the district for use elsewhere in the district.

23-35-11. Budget. A city, county, or health district, as the case may be, shall prepare a county public health unit budget for the next fiscal year at the time and in the manner a county budget is adopted and submit the budget to the board of county commissioners for approval, shall prepare a city public health unit budget for the next fiscal year and submit the budget to the governing body of the city for approval, or shall prepare a district budget as provided under this chapter. The governing body or auditor shall audit any expenses incurred in quarantining or disinfecting any property outside an incorporated city and shall pay for any expenses out of the general fund of the county.

23-35-12. Local health officers.

1. A local health officer shall serve a term of five years, subject to removal for cause by the governing body or the district board of health. The health officer must be a physician licensed to practice medicine in this state and need not be a resident of the public health unit. If the state health officer finds a local health officer is failing to perform the duties of the position, the state health officer may report the case to the governing body of the appropriate city, county, or district board of health. At the next meeting of the city's or county's governing body or district board of health, the governing body or district board of health shall declare the office vacant and may appoint another physician to fill the unexpired term, or shall report the matter to the board of health, and the board shall declare the office vacant and promptly shall appoint another physician to fill the unexpired term.

RABIES CONTROL

AN ACT to create and enact chapter 23-36 of the North Dakota Century Code, relating to rabies control; to repeal sections 23-01-18 and 23-01-19 of the North Dakota Century Code, relating to rabies control; to provide a penalty; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 23-36 of the North Dakota Century Code is created and enacted as follows:

23-36-01. Definitions. As used in this chapter:

1. "Bite" means any penetration of the skin by an animal's teeth.
2. "Clinical symptoms of rabies" means physical signs or symptoms, or animal behavior that would lead a reasonably prudent veterinarian to conclude that a diagnosis of possible rabies is indicated.
3. "Confinement" means separation of an animal from humans, other than the owner, caretaker, a member of the owner's family, or the caretaker's employees, and from other animals, by means of a building, cage, fence, pen, or other secure enclosure that restricts the animal's movement within definite boundaries and prevents the animal from exiting the enclosure.
4. "Department" means the state department of health.
5. "Domestic animal" means any dog [*canis familiaris*], cat [*felis domestica*], horse, mule, bovine animal, sheep, goat, bison, llama, alpaca, swine, or captive-bred, currently vaccinated ferret.
6. "Emergency" means a situation in which an immediate search and seizure of an animal is necessary and authorized by section 8 of article I of the Constitution of North Dakota and the fourth amendment to the Constitution of the United States because of a risk of death or serious bodily injury to a human or another animal.
7. "Exposure to rabies" means any bite or scratch, and includes any nonbite contact of an individual with an animal, animal tissue, or fluids that are defined as an exposure to rabies by the federal advisory committee on immunization practices referred to in Public Law No. 103-66 [107 Stat. 636, 642; 42 U.S.C. 1396s(e)].
8. "Impound" means quarantining an animal at a public pound or an animal facility of a licensed veterinarian.

9. "Law enforcement officer" has the meaning of that term as set forth in section 12.1-01-04.
10. "Quarantine" means confinement in a fixed area that keeps a possibly rabid animal secure and isolated from all other animals so there is no reasonable possibility of rabies being mechanically transmitted from the confined area.
11. "Vaccinated animal" means an animal that has been vaccinated in compliance with the compendium of animal rabies control issued by the national association of state public health veterinarians.
12. "Wild mammal" means any animal of the order mammalia which is not a domestic animal and includes any hybrid of a domestic animal and a mammal regardless of whether the animal is:
 - a. Wildlife as defined in section 20.1-01-02; or
 - b. Held in private ownership.

23-36-02. Policy - Local authority.

1. The department shall establish a rabies control program that must place primary emphasis on human exposure to rabies.
2. The department shall consider national peer-reviewed recommendations for the control of rabies during the development of the department's rabies control program.
3. This chapter may not be construed to limit the authority of any local agency to control or prevent rabies, and, upon request, the department may assist any local agency in rabies control and prevention activities, but the fact that possible rabies exposure is subject to a local ordinance does not limit the department's authority under this chapter.
4. This chapter may not be construed to limit a law enforcement officer's ability to immediately seize, humanely kill, and request the testing of an animal for rabies if emergency circumstances exist that endanger human health or safety.

23-36-03. Enforcement authority.

1. The department, or an agency acting on the department's behalf, may promptly seize and humanely kill, impound at the owner's expense, or quarantine any animal if the state health officer, or the state health officer's designee, has probable cause to believe the animal presents clinical symptoms of rabies.
2. The department, or an agency acting on the department's behalf, may promptly seize and humanely kill, impound at the owner's expense, or quarantine any wild mammal that is not currently vaccinated for rabies by a vaccine approved for use on that species by the national association of state public health veterinarians, inc., or any stray or unwanted domestic animal, if the state health officer, or the state health officer's designee, determines the animal is a threat to human life or safety due to the possible exposure of an individual to rabies.

3. The department, or an agency acting on the department's behalf, may promptly seize and quarantine, or impound at the owner's expense, any dog, cat, or currently vaccinated ferret for a period of ten days, or any other domestic animal for a period not exceeding six months, if the state health officer, or the state health officer's designee, determines the animal is a threat to human life or safety due to the possible exposure of an individual to rabies.
4. If an animal is humanely killed under this section, then at the request of the state health officer, or the state health officer's designee, the animal's brain must be tested for rabies by the state microbiology laboratory of the department if there is possible human exposure to rabies and by the North Dakota veterinary diagnostic laboratory in any other case.
5. If an animal that has bitten or otherwise exposed an individual or another animal is not seized for testing, a law enforcement officer with jurisdiction over the place where the animal is located may determine whether to impound or quarantine the animal under subsection 3 and which method of confinement to use.
6. A licensed veterinarian shall examine, at the owner's expense, a confined animal on the first and last day of the animal's confinement and, at the request of the department or a local public health unit, at any other time during confinement.

23-36-04. Administrative search warrant. Except in the case of an emergency, the department, or another state or local agency acting on the department's behalf, may seize an animal located on private property only as authorized by an administrative search warrant issued under chapter 29-29.1. A warrant to seize an animal under this section must include a request to quarantine, impound, or humanely kill and test the animal.

23-36-05. Assistance of state and local agencies. If a warrant is issued under section 23-36-04 and upon written request of the department, the game and fish department, the state veterinarian, or the wildlife services program of the United States department of agriculture animal and plant health inspection service shall provide assistance to the department in any action to seize, impound, quarantine, or test an animal suspected of having rabies or that has possibly exposed an individual to rabies, and shall carry out any other preventive measures the department requests. For purposes of this section, a request from the department means only a request for assistance as to a particular and singular suspicion of exposure to rabies and does not constitute a continuous request for assistance.

The duty of the game and fish department to cooperate and provide assistance under this section is limited to cases involving a wild mammal and is applicable only if no other agency is available for law enforcement or animal control services.

23-36-06. Payment for postexposure treatment. The department may provide, at no cost, rabies postexposure vaccine to an individual possibly exposed to rabies if the department determines the individual is financially unable to pay for the postexposure vaccine treatment.

23-36-07. Penalty for violation of order or interference. A person is guilty of an infraction if the person:

1. Conceals, releases, or removes an animal from the place where the animal is located with intent to impair that animal's availability for seizure under that warrant or order while the person is under the belief that a search warrant or judicial order is pending or is about to be issued for the seizure of an animal;
2. Fails to impound or quarantine an animal for the period and at the place specified after having been ordered to impound or quarantine the animal; or
3. Recklessly hinders any state or local official in any pending or prospective action to seize, impound, quarantine, or test an animal under this chapter.

23-36-08. Limitation on liability. Subject to any other requirements of section 32-12.2-02, the owner of an animal may bring a claim for money damages, and may recover an amount up to the replacement value of the animal, if the owner establishes that before the animal was seized and tested for rabies under this chapter, the state health officer, or the state health officer's designee, knew or recklessly failed to determine that the animal, at the time of the exposure, was lawfully owned and licensed and that:

1. The animal was a wild mammal, and, at the time of the exposure, was currently vaccinated with a vaccine approved for use on an animal of that species by the national association of state public health veterinarians, inc.;
2. The animal had not bitten, scratched, or otherwise possibly exposed a person to rabies; or
3. The animal was a domestic animal and there was not probable cause to believe the animal was rabid.

23-36-09. Owner's responsibility.

1. The owner of an animal is liable for the cost of quarantine and veterinary services, and for the cost of any postexposure treatment received by an individual who is possibly exposed to rabies by the owner's animal, if the animal is not:
 - a. Licensed or registered as required by any state or local law or rule applicable to that species; or
 - b. Confined or vaccinated as required by any state or local law or rule applicable to that species.
2. This section may not be construed to limit any other liability of an animal owner for injury or damage caused by the owner's animal.

SECTION 2. REPEAL. Sections 23-01-18 and 23-01-19 of the 1997 Supplement to the North Dakota Century Code are repealed.

SECTION 3. EMERGENCY. This Act is declared to be an emergency measure.

"Health organization" does not include an organization that is licensed as either a life and health insurer or a property and casualty insurer that is otherwise subject to either the life or property and casualty risk-based capital requirements.
6. "Risk-based capital instructions" means the risk-based capital report including risk-based capital instructions adopted by the national association of insurance commissioners, as these risk-based capital instructions may be amended by the national association of insurance commissioners from time to time in accordance with the procedures adopted by the national association of insurance commissioners.
7. "Risk-based capital level" means a health organization's company action level risk-based capital, regulatory action level risk-based capital, authorized control level risk-based capital, or mandatory control level risk-based capital and:

Accordingly, health organizations should seek to maintain capital above the risk-based capital levels required by this chapter. Additional capital is used and useful in the insurance business and helps to secure a health organization against various risks inherent in, or affecting, the business of insurance and not accounted for or only partially measured by the risk-based capital requirements contained in this chapter.

 - a. The filing of a risk-based capital report that indicates that the health organization's total adjusted capital is less than its mandatory control level risk-based capital;
 - b. Notification by the commissioner to the health organization of an adjusted risk-based capital report that indicates the event in subdivision a, provided the health organization does not challenge the adjusted risk-based capital report under section 26.1-03.2-07; or
 - c. If, pursuant to section 26.1-03.2-07, the health organization challenges an adjusted risk-based capital report that indicates the event in subdivision a, notification by the commissioner to the health organization that the commissioner, after a hearing, has rejected the health organization's challenge.
2. In the event of a mandatory control level event, the commissioner shall take such actions as are necessary to place the health organization under regulatory control under chapter 26.1-06.1. In that event, the mandatory

control level event must be deemed sufficient grounds for the commissioner to take action under chapter 26.1-06.1, and the commissioner shall have the rights, powers, and duties with respect to the health organization as are set forth in chapter 26.1-06.1. If the commissioner takes actions pursuant to an adjusted risk-based capital report, the health organization is entitled to the protections of chapter 26.1-06.1 pertaining to summary proceedings. Notwithstanding any of the foregoing, the commissioner may forego action for up to ninety days after the mandatory control level event if the commissioner finds there is a reasonable expectation that the mandatory control level event may be eliminated within the ninety-day period.

26.1-03.2-07. Hearings. Upon the occurrence of any of the following events, the health organization shall have the right to a confidential departmental hearing, on a record, at which the health organization may challenge any determination or action by the commissioner. The health organization shall notify the commissioner of its request for a hearing within five days after the notification by the commissioner under subsection 1, 2, 3, or 4. Upon receipt of the health organization's request for a hearing, the commissioner shall set a date for the hearing, which may not be less than ten nor more than thirty days after the date of the health organization's request. The events include:

1. Notification to a health organization by the commissioner of an adjusted risk-based capital report;
2. Notification to a health organization by the commissioner that:
 - a. The health organization's risk-based capital plan or revised risk-based capital plan is unsatisfactory; and
 - b. Notification constitutes a regulatory action level event with respect to the health organization;
3. Notification to a health organization by the commissioner that the health organization has failed to adhere to its risk-based capital plan or revised risk-based capital plan and that the failure has a substantial adverse effect on the ability of the health organization to eliminate the company action level event with respect to the health organization in accordance with its risk-based capital plan or revised risk-based capital plan; or
4. Notification to a health organization by the commissioner of a corrective order with respect to the health organization.

26.1-03.2-08. Confidentiality - Prohibition on announcements - Prohibition on use in ratemaking.

1. All risk-based capital reports, to the extent the information is not required to be set forth in a publicly available annual statement schedule, and risk-based capital plans, including the results or report of any examination or analysis of a health organization performed pursuant to this chapter, and any corrective order issued by the commissioner pursuant to examination or analysis, with respect to a domestic health organization or foreign health organization, which are filed with the commissioner constitute information that might be damaging to the health organization if made available to its competitors, and therefore shall be kept confidential by the commissioner. This

information may not be made public or be subject to subpoena, other than by the commissioner and then only for the purpose of enforcement actions taken by the commissioner pursuant to this chapter or any other provision of the insurance laws of this state.

2. It is the judgment of the legislature that the comparison of a health organization's total adjusted capital to any of its risk-based capital levels is a regulatory tool that may indicate the need for corrective action with respect to the health organization and is not intended as a means to rank health organizations generally. Therefore, except as otherwise required under the provisions of this chapter, the making, publishing, disseminating, circulating, or placing before the public, or causing, directly or indirectly to be made, published, disseminated, circulated, or placed before the public, in a newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over a radio or television station, or in any other way, an advertisement, announcement, or statement containing an assertion, representation, or statement with regard to the risk-based capital levels of any health organization, or of any component derived in the calculation, by any health organization, agent, broker, or other person engaged in any manner in the insurance business would be misleading and is therefore prohibited. However, if any materially false statement with respect to the comparison regarding a health organization's total adjusted capital to its risk-based capital levels, or any of them, or an inappropriate comparison of any other amount to the health organization's risk-based capital levels is published in any written publication and the health organization is able to demonstrate to the commissioner with substantial proof the falsity of the statement, or the inappropriateness, as the case may be, then the health organization may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.
3. It is the further judgment of the legislature that the risk-based capital instructions, risk-based capital reports, adjusted risk-based capital reports, risk-based capital plans, and revised risk-based capital plans are intended solely for use by the commissioner in monitoring the solvency of health organizations and the need for possible corrective action with respect to health organizations and may not be used by the commissioner for ratemaking nor considered or introduced as evidence in any rate proceeding nor used by the commissioner to calculate or derive any elements of an appropriate premium level or rate of return for any line of insurance that a health organization or any affiliate is authorized to write.

26.1-03.2-09. Supplemental provisions - Rules - Exemption.

1. The provisions of this chapter are supplemental to any other provisions of the laws of this state, and do not preclude or limit any other powers or duties of the commissioner under such laws, including chapter 26.1-06.1.
2. The commissioner may adopt reasonable rules necessary for the implementation of this chapter.
3. The commissioner may exempt from the application of this chapter a domestic health organization that:

- a. Writes direct business only in this state;
- b. Assumes no reinsurance in excess of five percent of direct premium written; and
- c. Writes direct annual premiums for comprehensive medical business of less than an amount determined by the commissioner; or
- d. Is a limited health service organization that covers less than a number of lives determined by the commissioner.

26.1-03.2-10. Foreign health organizations.

1. a. A foreign health organization, upon the written request of the commissioner, shall submit to the commissioner a risk-based capital report for the calendar year just ended, the latter of:
 - (1) The date a risk-based capital report would be required to be filed by a domestic health organization under this chapter; or
 - (2) Fifteen days after the request is received by the foreign health organization.
- b. A foreign health organization, at the written request of the commissioner, shall promptly submit to the commissioner a copy of any risk-based capital plan that is filed with the insurance commissioner of any other state.
2. In the event of a company action level event, regulatory action level event, or authorized control level event with respect to a foreign health organization as determined under the risk-based capital statute applicable in the state of domicile of the health organization or, if no risk-based capital statute is in force in that state, under the provisions of this chapter, if the insurance commissioner of the state of domicile of the foreign health organization fails to require the foreign health organization to file a risk-based capital plan in the manner specified under that state's risk-based capital statute or, if no risk-based capital statute is in force in that state, under section 26.1-03.2-03, the commissioner may require the foreign health organization to file a risk-based capital plan with the commissioner. In such event, the failure of the foreign health organization to file a risk-based capital plan with the commissioner is grounds to order the health organization to cease and desist from writing new insurance business in this state.
3. In the event of a mandatory control level event with respect to a foreign health organization, if no domiciliary receiver has been appointed with respect to the foreign health organization under the rehabilitation and liquidation statute applicable in the state of domicile of the foreign health organization, the commissioner may make application to the district court permitted under section 26.1-06.1-04 with respect to the liquidation of property of foreign health organizations found in this state, and the occurrence of the mandatory control level event shall be considered adequate grounds for the application.

26.1-03.2-11. Immunity. There is no liability on the part of, and no cause of action shall arise against, the commissioner or the insurance department or its

employees or agents for any action taken by them in the performance of their powers and duties under this chapter.

26.1-03.2-12. Notices. All notices by the commissioner to a health organization which may result in regulatory action under this chapter is effective upon dispatch if transmitted by registered or certified mail, or in the case of any other transmission is effective upon the health organization's receipt of notice.

26.1-03.2-13. Phasein provision. For risk-based capital reports required to be filed by health organizations with respect to 1999, the following requirements apply in lieu of the provisions of sections 26.1-03.2-03, 26.1-03.2-04, 26.1-03.2-05, and 26.1-03.2-06:

1. In the event of a company action level event with respect to a domestic health organization, the commissioner shall take no regulatory action under this chapter.
2. In the event of a regulatory action level event under subdivision a, b, or c of subsection 1 of section 26.1-03.2-04, the commissioner shall take the actions required under section 26.1-03.2-03.
3. In the event of a regulatory action level event under subdivision d, e, f, g, h, or i of subsection 1 of section 26.1-03.2-04 or an authorized control level event, the commissioner shall take the actions required under section 26.1-03.2-04 with respect to the health organization.
4. In the event of a mandatory control level event with respect to a health organization, the commissioner shall take the actions required under section 26.1-03.2-05 with respect to the health organization.

AN ACT to create and enact three new subsections to section 26.1-04-03, two new subsections to section 26.1-26.4-02, and four new sections to chapter 26.1-36 of the North Dakota Century Code, relating to fairness in health insurance practices, disclosure of health plan information, confidentiality of medical information maintained by health carriers, contract limitations, and health care grievance procedures; and to amend and reenact subsection 14 of section 26.1-04-03, subsection 9 of section 26.1-26.4-04, and section 26.1-47-02 of the North Dakota Century Code, relating to prohibited health insurance practices, health care utilization review procedures, and preferred provider arrangements.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁸⁸ **SECTION 1. AMENDMENT.** Subsection 14 of section 26.1-04-03 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

14. As used in subsections 15 ~~and~~, 16, and section 2 of this Act, unless the context otherwise requires:
 - a. "Entity" includes a third-party administrator ~~or other person with responsibility for contracts with health care providers under a health plan~~, an insurance company as defined in section 26.1-02-01, a health maintenance organization, or any other entity providing a plan of health insurance subject to state insurance regulation.
 - b. "Health care provider" means a person that delivers, administers, or supervises health care products or services, for profit or otherwise, in the ordinary course of business or professional practice.
 - c. "Health plan" means any public or private plan or arrangement that provides or pays the cost of health benefits, including any organization of health care providers that furnishes health services under a contract or agreement with this type of plan.
 - d. "Medical communication" means any communication, other than a knowing and willful misrepresentation, made by a health care provider to a patient regarding the health care needs or treatment options of the patient and the applicability of the health plan to the

patient's needs or treatment. The term includes communications concerning:

- (1) Tests, consultations, and treatment options;
 - (2) Risks or benefits associated with tests, consultations, and options;
 - (3) Variation in experience, quality, or outcome among any health care providers or health care facilities providing any medical service;
 - (4) The process, basis, or standard used by an entity to determine whether to authorize or deny health care services or benefits; and
 - (5) Financial incentives or disincentives based on service utilization provided by an entity to a health care provider.
- e. "Patient" includes a former, current, or prospective patient or the guardian or legal representative of any former, current, or prospective patient.

¹⁸⁹ **SECTION 2.** Three new subsections to section 26.1-04-03 of the 1997 Supplement to the North Dakota Century Code are created and enacted as follows:

Incentives to withhold medically necessary care. An entity may not offer a health care provider, and a contract with a health care provider under a health plan may not contain, an incentive plan that includes a specific payment made to, or withheld from, the provider as an inducement to deny, reduce, limit, or delay medically necessary care covered by the health plan and provided with respect to a patient. This subsection does not prohibit incentive plans, including capitation payments or shared-risk arrangements, that are not tied to specific medical decisions with respect to a patient. In addition to the proceedings and penalties provided in this chapter, a contract provision violating this subsection is void. As used in this subsection, "medically necessary care" means health care services, supplies, or treatments that a reasonably prudent physician or other health care provider would provide to a patient for the prevention, diagnosis, or treatment of illness, injury, disease, or its symptoms which are in accordance with generally accepted standards of medical practice, clinically appropriate in terms of type, frequency, extent, site, and duration, and not primarily for the convenience of the patient, physician, or other health care provider. This definition does not preclude an entity from establishing a definition of "medically necessary care" for determining which services are covered by the health plan.

Retaliation for patient advocacy. An entity may not take any of the following actions against a health care provider solely because the

provider, in good faith, reports to state or federal authorities an act or practice by the entity that jeopardizes patient health or welfare, or advocates on behalf of a patient in a utilization review program or grievance procedure:

- a. Refusal to contract with the health care provider;
- b. Termination of or refusal to renew a contract with the health care provider;
- c. Refusal to refer patients to or allow others to refer patients to the health care provider; or
- d. Refusal to compensate the health care provider for covered services that are medically necessary.

Unfair reimbursement. An entity may not require that a health care provider receive under a health plan, pursuant to policies of the entity or a contract with the health care provider, the lowest payment for services and items that the health care provider charges or receives from any other entity. In addition to the proceedings and penalties provided in this chapter, a contract provision violating this subsection is void.

¹⁹⁰ **SECTION 3.** Two new subsections to section 26.1-26.4-02 of the North Dakota Century Code are created and enacted as follows:

"Emergency medical condition" means a medical condition of recent onset and severity, including severe pain, that would lead a prudent layperson acting reasonably and possessing an average knowledge of health and medicine to believe that the absence of immediate medical attention could reasonably be expected to result in serious impairment to bodily function, serious dysfunction of any bodily organ or part, or would place the person's health, or with respect to a pregnant woman the health of the woman or her unborn child, in serious jeopardy.

"Emergency services" means health care services, supplies, or treatments furnished or required to screen, evaluate, and treat an emergency medical condition.

¹⁹¹ **SECTION 4. AMENDMENT.** Subsection 9 of section 26.1-26.4-04 of the North Dakota Century Code is amended and reenacted as follows:

9. ~~Utilization review agents shall allow a minimum of twenty-four hours following an emergency admission, service, or procedure for an enrollee or the enrollee's representative to notify the utilization review agent and request certification or continuing treatment for that condition. When~~

- a. A utilization review agent may not deny coverage for emergency services and may not require prior authorization of these services.
- b. Coverage of emergency services is subject to applicable copayments, coinsurance, and deductibles.

SECTION 5. A new section to chapter 26.1-36 of the North Dakota Century Code is created and enacted as follows:

An insurance company, as defined in section 26.1-02-01, a health maintenance organization, or any other entity providing a plan of health insurance subject to state insurance regulation may not deliver, issue, execute, or renew a health insurance policy or health service contract unless that insurer makes available to persons covered under the policy or contract a plan description that discloses in writing the terms and conditions of the policy or contract. The plan description must use the plain and ordinary meaning of words so as to reasonably ensure comprehension by a layperson and must be made available to each person covered under the contract, in any manner reasonably assuring availability prior to the delivery, issuance, execution, or renewal of the policy or contract.

1. The information required to be disclosed by the insurer must include, in addition to any other disclosures required by law:

 - i. A general description of any utilization review policies and procedures, including a description of any required prior authorizations or other requirements for health care services and appeal procedures;
 - j. A general description of all complaint or grievance rights and procedures used to resolve disputes between the insurer and persons covered under the policy or contract or a health care provider, including the method for filing grievances and the timeframes and circumstances for acting on grievances and appeals;
 - k. A general description of any methods used by the insurer for providing financial payment incentives or other payment arrangements to reimburse health care providers;
 - l. Notice of appropriate mailing addresses and telephone numbers to be used by persons covered under the policy or contract in seeking information or authorization for treatment;
 - m. If applicable, notice of the provisions required by section 26.1-47-03 that ensure access to health care services in preferred provider arrangements; and

- e. Whether a specifically identified drug is included or excluded from coverage.
3. Nothing in this section may be construed as preventing an insurer from making the information under subsections 1 and 2 available to a person covered under the policy or contract through a handbook or similar publication.

SECTION 6. A new section to chapter 26.1-36 of the North Dakota Century Code is created and enacted as follows:

Confidentiality of medical information.

1. An insurance company, as defined in section 26.1-02-01, health maintenance organization, or any other entity providing a plan of health insurance subject to state insurance regulation may not deliver, issue, execute, or renew a health insurance policy or health service contract unless confidentiality of medical information is assured pursuant to this section. An insurer shall adopt and maintain procedures to ensure that all identifiable information maintained by the insurer regarding the health, diagnosis, and treatment of persons covered under a policy or contract is adequately protected and remains confidential in compliance with all federal and state laws and regulations and professional ethical standards. Unless otherwise provided by law, any data or information pertaining to the health, diagnosis, or treatment of a person covered under a policy or contract, or a prospective insured, obtained by an insurer from that person or from a health care provider, regardless of whether the information is in the form of paper, is preserved on microfilm, or is stored in computer-retrievable form, is confidential and may not be disclosed to any person except:
- a. If the data or information identifies the covered person or prospective insured upon a written, dated, and signed approval by the covered person or prospective insured, or by a person authorized to provide consent pursuant to section 23-12-13 for a minor or an incapacitated person;
 - b. If the data or information identifies the health care provider upon a written, dated, and signed approval by the provider. However, this subdivision may not be construed to prohibit an insurer from disclosing data or information pursuant to chapter 23-01.1 or from disclosing, as part of a contract or agreement in which the health care provider is a party, data or information that identifies a provider as part of mutually agreed upon terms and conditions of the contract or agreement;
 - c. If the data or information does not identify either the covered person or prospective insured or the health care provider, the data or information may be disclosed upon request for use for statistical purposes or research;
 - d. Pursuant to statute or court order for the production or discovery of evidence; or

- e. In the event of a claim or litigation between the covered person or prospective insured and the insurer in which the data or information is pertinent.
2. An insurer may claim any statutory privileges against disclosure that the health care provider who furnished the information to the insurer is entitled to claim.
3. This section may not be construed to prevent disclosure necessary for an insurer to conduct utilization review or management consistent with the standards imposed by chapter 26.1-26.4, to facilitate payment of a claim, to analyze health plan claims or health care records data, to conduct disease management programs with health care providers, or to reconcile or verify claims under a shared risk or capitation arrangement. This section does not apply to data or information disclosed by an insurer as part of a biomedical research project approved by an institutional review board established under federal law. Nor may this section be construed to limit the insurance commissioner's access to records of the insurer for purposes of enforcement or other activities related to compliance with state or federal laws; however, medical records acquired by the commissioner as part of an examination of an insurer's business practices under section 26.1-03-19.2 or any other regulatory action or proceeding commenced by the commissioner are confidential.

SECTION 7. A new section to chapter 26.1-36 of the North Dakota Century Code is created and enacted as follows:

Contract limitations.

1. An insurance company as defined by section 26.1-02-01 issuing a health and accident policy, a health maintenance organization, or any other entity providing a plan of health insurance subject to state insurance regulation may not terminate a practitioner's participating contract, designate a practitioner as nonpayable, or otherwise impose sanctions on any practitioner solely for an excessive or inappropriate practice pattern unless the requirements of this section are met. If a practitioner engages in an excessive or inappropriate practice pattern for the practitioner's specialty, the entity shall inform the practitioner, in writing, as to the manner in which the practitioner's practice is excessive or inappropriate. The entity shall consult with the practitioner and provide a reasonable time period of not less than six months within which to modify the practitioner's practice pattern. If the excessive or inappropriate practice pattern continues, the entity may impose reasonable sanctions on the practitioner, terminate the practitioner's participating contract, or designate the practitioner as nonpayable. If considered for sanction, termination, or nonpayable status, the affected practitioner must first be given the opportunity to be present and to be heard by a committee appointed by the entity which must include at least one representative of the practitioner's specialty. The entity may not impose sanctions on a practitioner, terminate a practitioner, or designate a practitioner as nonpayable in the absence of the committee's recommendation to do so. All reports, practice profiles, data, and proceedings of the entity relative to a practitioner who is sanctioned, terminated, or considered for designation as nonpayable are confidential and may not be disclosed or be subject to subpoena or other legal process. Nonpayable status under

this section may not commence until after appropriate notification to the entity's subscribers and the affected practitioner. As used in this section "practitioner" includes an optometrist, a physician, a chiropractor, or an advanced registered nurse practitioner duly licensed to practice in this state.

2. If the entity uses a practice profile as a factor to evaluate a practitioner's practice pattern, the entity shall provide upon request of the practitioner at any time, a description of the criteria, data sources, and methodologies used to compile the practice profile concerning the practitioner and the manner in which the practice profile is used to evaluate the practitioner. An entity may not sanction a practitioner, terminate a practitioner's participating contract, or designate a practitioner as nonpayable on the basis of a practice profile without informing the practitioner of the specific data underlying those findings. For purposes of this section, a "practice profile" means a profile, summary, economic analysis, or other analysis of data concerning the cost, quality, or quantity of services rendered by an individual practitioner, group of practitioners, or preferred provider. In addition, an entity in developing practice profiles or otherwise measuring practitioner performance shall:
 - a. Make severity adjustments, including allowances for the severity of illness or condition of the patient mix and allowances for patients with multiple illnesses or conditions;
 - b. Periodically evaluate, with input from specialty-specific practitioners as appropriate, the quality and accuracy of practice profiles, data sources, and methodologies;
 - c. Develop and implement safeguards to protect against the unauthorized use or disclosure of practice profiles; and
 - d. Provide the opportunity for any practitioner at any time to examine the accuracy, completeness, or validity of any practice profile concerning the practitioner and to prepare a written response to the profile. The entity shall negotiate in good faith with the practitioner to correct any inaccuracies or to make the profile complete. If the inaccuracies or deficiencies are not corrected to the satisfaction of the practitioner, the entity shall submit the written response prepared by the practitioner along with the profile at the time the profile is used pursuant to subsection 1 or provided to any third party consistent with section 6 of this Act.

SECTION 8. A new section to chapter 26.1-36 of the North Dakota Century Code is created and enacted as follows:

Grievance procedures.

1. An accident and health insurance policy may not be delivered or issued for delivery by an insurance company, as defined in section 26.1-02-01, or any other entity providing a plan of health insurance subject to state insurance regulation to a person in this state unless the entity establishes and maintains a grievance procedure for resolving complaints by covered persons and providers and addressing questions and concerns regarding any aspect of the plan, including access to and availability of

services, quality of care, choice and accessibility of providers, and network adequacy. The procedure must include a system to record and document all grievances since the date of its last examination of the grievances.

2. The procedure must be approved by the insurance commissioner. The commissioner may examine the grievance procedures.

¹⁹² **SECTION 9. AMENDMENT.** Section 26.1-47-02 of the North Dakota Century Code is amended and reenacted as follows:

26.1-47-02. Preferred provider arrangements. Notwithstanding any provision of law to the contrary, any health care insurer may enter into preferred provider arrangements.

1. Preferred provider arrangements must:
 - a. Establish the amount and manner of payment to the preferred provider. The amount and manner of payment may include capitation payments for preferred providers.
 - b. Include mechanisms, subject to the minimum standards imposed by chapter 26.1-26.4, which are designed to minimize the cost of the health benefit plan. These mechanisms may:
 - (1) ~~Provide for the review and control of the~~ utilization of health care services-
 - (2) ~~Establish and establish~~ a procedure for determining whether health care services rendered are medically necessary.
 - c. Include mechanisms which are designed to preserve the quality of health care.
 - d. With regard to an arrangement in which the preferred provider is placed at risk for the cost or utilization of health care services, specifically include a description of the preferred provider's responsibilities with respect to the health care insurer's applicable administrative policies and programs, including utilization review, quality assessment and improvement programs, credentialing, grievance procedures, and data reporting requirements. Any administrative responsibilities or costs not specifically described or allocated in the contract establishing the arrangement as the responsibility of the preferred provider are the responsibility of the health care insurer.
2. Preferred provider arrangements may not unfairly deny health benefits to persons for covered medically necessary services.

¹⁹² Section 26.1-47-02 was also amended by section 10 of House Bill No. 1178, chapter 253.

3. Preferred provider arrangements may not restrict a health care provider from entering into preferred provider arrangements or other arrangements with other health care insurers.

If the insurer is a member of an insurance holding company system, the insurer or any affiliate insurer is entitled to a credit against taxes under section 26.1-03-17 or 26.1-11-06 as determined under this section.

1. An insurer making or participating in a loan under this chapter or an affiliate insurer under this chapter is entitled to a premium tax credit calculated for each calendar year the loan is in place. The amount of the credit is the difference between:
 - a. The participating insurer's share of the interest earned on the loan during the calendar year; and
 - b. The participating insurer's share of an amount of interest that would have been earned during the same period by applying an interest rate, calculated by adding three hundred basis points to a comparable treasury security rate at the date of the issuance of the loan.

2. The maximum credit allowed an insurer for any calendar year is the amount of interest that would have been earned during the period by applying an interest rate of three hundred basis points. A credit may not be allowed if the interest earned exceeds the interest that would have been earned by applying the calculation in subdivision b of subsection 1.
3. The credit may not exceed the total amount of the insurer's tax liability under subsection 1 of section 26.1-03-17 and no unused credit may be carried forward.
4. Credits under this section for all insurers may not exceed seven hundred fifty thousand dollars in a calendar year.

SECTION 3. AMENDMENT. Section 26.1-50-07 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

26.1-50-07. Assets of insurers. The amount of a loan made by an insurer or the amount of an insurer's participation in a loan made under this chapter may not be considered or reported on the insurer's annual statement as an admitted asset except to the extent provided under ~~subsection 33~~ of section 26.1-05-19.

9. "Guaranty association" means the North Dakota insurance guaranty association created by chapter ~~26.1-42~~ 26.1-42.1 or the North Dakota life and health insurance guaranty association created by chapter 26.1-38.1, and any other similar entity now or hereafter created by the legislative assembly for the payment of claims of insolvent insurers. "Foreign guaranty association" means any similar entity now in existence in or hereafter created by the legislature of any other state.

SECTION 2. AMENDMENT. Section 26.1-14-15 of the North Dakota Century Code is amended and reenacted as follows:

26.1-14-15. Optional membership in insurance guaranty association. The company may not be a member insurer under chapter ~~26.1-42~~ 26.1-42.1 unless the board of directors by appropriate resolution, certified to and filed with the commissioner on or before December thirty-first following the issuance of its certificate of authority, elects to become a member. If there is an affirmative election, the company becomes a member of the insurance guaranty association effective July first of the following year. The election is irrevocable. In absence of a timely election, no policyholder, claimant, or creditor of the company may receive any payment by the insurance guaranty association.

SECTION 3. AMENDMENT. Subdivision b of subsection 3 of section 26.1-40-15.1 of the North Dakota Century Code is amended and reenacted as follows:

SECTION 4. AMENDMENT. Subsection 3 of section 26.1-40-15.5 of the North Dakota Century Code is amended and reenacted as follows:

3. ~~Whenever~~ If an insurer makes payment under uninsured or underinsured motorist coverages because of an insurer insolvency, as defined in ~~subsection 4 of section 26.1-42-03~~ 26.1-42.1-02, the paying insurer's rights of reimbursement and subrogation do not include any rights of recovery against the insured of the insolvent insurer, ~~nor~~ or against the North Dakota guaranty fund, except for the amount ~~which~~ that is in excess of the limits of liability of the policy of the insolvent insurer.

SECTION 5. AMENDMENT. Subsection 1 of section 26.1-41-18 of the North Dakota Century Code is amended and reenacted as follows:

1. Basic no-fault insurers authorized to provide basic no-fault benefits in this state shall organize, participate in, and maintain an assigned claims plan to provide that an injured person who suffers economic loss and is eligible for basic no-fault benefits under section 26.1-41-06, other than a person not entitled to benefits under section 26.1-41-07, may obtain basic no-fault benefits through the plan if:
 - a. Basic no-fault benefits are not applicable to the injury for some reason other than those specified in section 26.1-41-07; or
 - b. Basic no-fault benefits applicable to the injury are inadequate to provide the contracted-for benefits because of financial inability of a basic no-fault insurer to fulfill its obligations.

Payments made by the assigned claims plan pursuant to this subsection constitute covered claims under chapter ~~26.1-42~~ 26.1-42.1.

SECTION 6. Chapter 26.1-42.1 of the North Dakota Century Code is created and enacted as follows:

26.1-42.1-01. Scope. This chapter applies to every kind of direct insurance, except:

1. Life, annuity, health, or disability insurance;
2. Mortgage guaranty, financial guaranty, or other forms of insurance offering protection against investment risks;
3. Fidelity or surety bonds or any other bonding obligations;
4. Credit insurance, vendors' single interest insurance, collateral protection insurance, or any similar insurance protecting the interests of a creditor arising out of a creditor-debtor transaction;
5. Insurance of warranties or service contracts, including insurance that provides for the repair, replacement, or service of goods or property; for indemnification for repair, replacement, or service; for the operational or structural failure of the goods or property due to a defect in materials, workmanship, or normal wear and tear; or for reimbursement for the liability incurred by the issuer of agreements or service contracts that provide these benefits;

6. Title insurance;
7. Ocean marine insurance;
8. Any transaction or combination of transactions between a person, including affiliates of such person, and an insurer, including affiliates of that insurer, which involves the transfer of investment or credit risk unaccompanied by transfer of insurance risk; or
9. Any insurance provided by or guaranteed by government.

26.1-42.1-02. Definitions. As used in this chapter:

1. "Affiliate" means a person who directly, or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with an insolvent insurer on December thirty-first of the year immediately following the date the insurer becomes an insolvent insurer.
2. "Association" means the North Dakota insurance guaranty association created under section 26.1-42.1-03.
3. "Claimant" means any insured making a first party claim or any person instituting a liability claim, provided that no person who is an affiliate of the insolvent insurer may be a claimant.
4. "Control" means the direct or indirect possession of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control is presumed to exist if any person directly or indirectly owns, controls, holds with the power to vote, or holds proxies representing at least ten percent of the voting securities of any other person. This presumption may be rebutted by a showing that control does not exist in fact.
5. "Covered claim" means an unpaid claim, including an unpaid claim for unearned premiums, submitted by a claimant, that arises out of and is within the coverage and is subject to the applicable limits of an insurance policy to which this chapter applies, issued by an insurer, if this insurer becomes an insolvent insurer after the effective date of this chapter and the claimant or insured is a resident of this state at the time of the insured event; provided that for entities other than an individual, the residence of a claimant, insured, or policyholder is the state in which the entity's principal place of business is located at the time of the insured event; or the claim is a first-party claim for damage to property with a permanent location in this state. The term does not include:
 - a. Any amount awarded as punitive or exemplary damages;
 - b. Any amount sought as a return of premium under any retrospective rating plan;
 - c. Any amount due any reinsurer, insurer, insurance pool, or underwriting association as subrogation recoveries, as reinsurance recoveries, as contribution, as indemnification, or otherwise. A

claim under this subdivision for any amount due any reinsurer, insurer, insurance pool, or underwriting association may not be asserted against a person insured under a policy issued by an insolvent insurer other than to the extent the claim exceeds the association obligation limitations set forth in section 26.1-42.1-05;

- d. Workers' compensation insurance, including any contract indemnifying an employer who pays compensation directly to employees;
 - e. Any first-party claim by an insured whose net worth exceeds ten million dollars on December thirty-first of the year immediately following the date the insurer becomes an insolvent insurer; provided that an insured's net worth on that date is deemed to include the aggregate net worth of the insured and all of the insured's subsidiaries as calculated on a consolidated basis; and
 - f. Any first-party claim by an insured that is an affiliate of the insolvent insurer.
6. "Insolvent insurer" means an insurer licensed to transact insurance in this state at the time the policy was issued or when the insured event occurred, and against whom a final order of liquidation was entered after the effective date of this Act with a finding of insolvency by a court of competent jurisdiction in the insurer's state of domicile.
7. "Member insurer" means any person, except a county mutual insurance company, that writes any kind of insurance to which this chapter applies under section 26.1-42.1-01, including the exchange of reciprocal or interinsurance contracts and that is licensed to transact insurance in this state. An insurer shall cease to be a member insurer on the day following the termination or expiration of the insurer's license to transact the kinds of insurance to which this chapter applies, however the insurer remains liable as a member insurer for every obligation, including an obligation for assessments levied before the termination or expiration of the insurer's license and assessments levied after the termination or expiration, which relate to any insurer that became an insolvent insurer before the termination or expiration of that insurer's license.
8. "Net direct written premiums" means direct gross premiums written in this state on insurance policies to which this chapter applies, less return premiums on these policies and dividends paid or credited to policyholders on this direct business. The term does not include premiums on contracts between insurers or reinsurers.

26.1-42.1-03. Creation of the association. A nonprofit unincorporated legal entity known as the North Dakota insurance guaranty association is created. Every insurer defined as a member insurer in section 26.1-42.1-02 shall be and remain a member of the association as a condition of that insurer's authority to transact insurance in this state. The association shall perform association functions under a plan of operation established and approved under section 26.1-42.1-05 and shall exercise association powers through a board of directors established under section 26.1-42.1-04.

26.1-42.1-04. Board of directors.

1. The board of directors of the association consists of a minimum of five and a maximum of nine persons serving terms as established in the plan of operation. The members of the board must be selected by member insurers, subject to the approval of the commissioner. A vacancy on the board must be filled for the remaining period of the unexpired term by a majority vote of the remaining board members, subject to the approval of the commissioner. If the initial board members are not selected within sixty days after the effective date of this Act, the commissioner may appoint the initial members of the board.
2. In approving selections to the board, the commissioner shall consider at least whether all member insurers are fairly represented.
3. Every member of the board may be reimbursed from the assets of the association for expenses incurred by the member in the course of the member's official duties.

26.1-42.1-05. Powers and duties of the association.

1. The association:
 - a. Shall pay covered claims existing before the order of liquidation and arising within thirty days after the order of liquidation or before the policy expiration date if less than thirty days after the order of liquidation, or before the insured replaces the policy or causes the policy's cancellation, if the insured does so within thirty days of the order of liquidation. The obligation must be satisfied by paying to the claimant an amount as follows:
 - (1) An amount not exceeding ten thousand dollars per policy for a covered claim for the return of unearned premium.
 - (2) An amount not exceeding three hundred thousand dollars per claim for all other covered claims.
 - b. Is not obligated to pay a claimant an amount in excess of the obligation of the insolvent insurer under the policy or coverage from which the claim arises. Notwithstanding any other provision of this chapter, a covered claim does not include a claim filed with the association after the earlier of eighteen months after the date of the order of liquidation or the final date set by the court for the filing of claims against the liquidator or receiver of an insolvent insurer and a claim does not include any claim filed with the association or a liquidator for protection afforded under the insured's policy for incurred, but not reported, losses.

Any obligation of the association to defend an insured on a covered claim ceases upon the association's payment, by settlement releasing the insured or on a judgment, of an amount equal to the lesser of the association's covered claim obligation limit or the applicable policy limit or upon the association's tender of that amount.

Notwithstanding any other provision of this chapter, an obligation of the association to any person ceases when ten million dollars is paid in the aggregate by the association and any one or more associations similar to the association of any other state or states or any property and casualty security fund that obtains contributions from insurers on a preinsolvency basis, to or on behalf of any insured and the insured's affiliates on covered claims or allowed claims arising under the policy or policies of any one insolvent insurer. For purposes of this section, the term "affiliate" means a person who, directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with another person. If the association determines that there may be more than one claimant having a covered claim or allowed claim against the association or any associations similar to the association or any property and casualty insurance security fund in other states, under the policy or policies of any one insolvent insurer, the association may establish a plan to allocate amounts payable by the association in any manner the association deems equitable.

- c. Is deemed the insurer only to the extent of the association's obligation on the covered claims and to that extent, subject to the limitations provided in this chapter, has all rights, duties, and obligations of the insolvent insurer as if the insurer had not become insolvent, including the right to pursue and retain salvage and subrogation recoverable on paid covered claim obligations. The association may not be deemed the insolvent insurer for any purpose relating to the issue of whether the association is amenable to the personal jurisdiction of the courts of any state.
- d. Shall assess member insurer's amounts necessary to pay the obligations of the association under subdivision a following an insolvency, the expenses of handling covered claims following an insolvency and other expenses authorized by this chapter. The assessments of each member insurer must be in the proportion that the net direct written premiums of the member insurer for the calendar year preceding the assessment bears to the net direct written premiums of all members insurers for the calendar year preceding the assessment. Each member insurer must be notified of the assessment at least thirty days before the assessment is due. A member insurer may not be assessed in any one year an amount greater than two percent of that member insurer's net direct written premiums for the calendar year preceding the assessment. If the maximum assessment, together with the other assets of the association, does not provide in any one year an amount sufficient to make all necessary payments, the funds available must be prorated and the unpaid portion must be paid as soon as funds become available. The association shall pay claims in any order the association determines reasonable, including the payment of claims as the claims are received from the claimants or in groups or categories of claims. The association may exempt or defer, in whole or in part, the assessment of any member insurer, if the assessment would cause the member insurer's financial statement to reflect amounts of capital or surplus less than the minimum amounts required for a certificate of authority by any jurisdiction in which the member insurer is authorized to transact insurance;

provided, however, that during the period of deferment, dividends may not be paid to shareholders or policyholders. Deferred assessments must be paid when payment will not reduce capital or surplus below required minimums. Deferred assessment payments must be refunded to those companies receiving larger assessments by virtue of this deferment, or at the election of any such company, credited against future assessments. Each member insurer may set off against any assessment, authorized payments made on covered claims and expenses incurred in the payment of these claims by the member insurer.

- e. Shall investigate claims brought against the association and adjust, compromise, settle, and pay covered claims to the extent of the association's obligation and deny all other claims. The association may review settlements, releases, and judgments to which the insolvent insurer or the insolvent insurer's insureds were parties to determine the extent to which these settlements, releases, and judgments may be properly contested. The association may appoint and direct legal counsel retained under liability insurance policies for the defense of covered claims.
- f. Shall handle claims through the association's employees or through one or more insurers or other persons designated as servicing facilities. Designation of a servicing facility is subject to the approval of the commissioner, but this designation may be declined by a member insurer.
- g. Shall reimburse each servicing facility for obligations of the association paid by the facility and for expenses incurred by the facility while handling claims on behalf of the association and shall pay the other expenses of the association authorized by this chapter.

2. The association may:

- a. Employ or retain persons necessary to handle claims and perform other duties of the association;
- b. Borrow funds necessary to effect the purposes of this chapter in accord with the plan of operation;
- c. Sue or be sued, and this power to sue includes the power and right to intervene as a party before any court in this state which has jurisdiction over an insolvent insurer;
- d. Negotiate and become a party to contracts that are necessary to carry out the purposes of this chapter;
- e. Perform acts that are necessary or proper to effectuate the purpose of this chapter; and
- f. Refund to the member insurers in proportion to the contribution of each member insurer that amount by which the assets of the association exceed the liabilities, if at the end of any calendar year, the board of directors finds that the assets of the association exceed the liabilities for the coming year as estimated by the board.

3. Except for actions by member insurers aggrieved by final actions or decisions by the association pursuant to subdivision h of subsection 3 of section 26.1-42.1-06, all claims for relief relating to this chapter against the association must be brought in the courts of this state. These courts have exclusive jurisdiction over all actions relating to this chapter against the association. Exclusive venue in any action by or against the association is in the district courts of this state. The association, at its option, may waive this exclusive venue as to specific actions.

26.1-42.1-06. Plan of operation.

1. The association shall submit to the commissioner a plan of operation and any amendments to this plan necessary or suitable to assure the fair, reasonable, and equitable administration of the association. The plan of operation and any amendments become effective upon written approval by the commissioner. If the association fails to submit a suitable plan of operation within ninety days following the effective date of this Act, or if at any time after the effective date of this Act the association fails to submit suitable amendments to the plan, the commissioner, after notice and hearing, shall adopt rules as necessary or advisable to implement this chapter. These rules continue in force until modified by the commissioner or superseded by a plan submitted by the association and approved by the commissioner.
2. All member insurers shall comply with the plan of operation.
3. The plan of operation must:
 - a. Establish procedures by which all the powers and duties of the association under section 26.1-42.1-05 will be performed.
 - b. Establish procedures for handling assets of the association.
 - c. Establish procedures for the disposition of liquidating dividends or other moneys received from the estate of the insolvent insurer.
 - d. Establish the amount and method of reimbursing members of the board of directors under section 26.1-42.1-04.
 - e. Establish procedures by which claims may be filed with the association, if necessary, and establish acceptable forms of proof of covered claims. Notice of claims to the receiver or liquidator of the insolvent insurer are deemed notice to the association of the association's agent and periodically a list of claims must be submitted to the association or similar organization in another state by the receiver or liquidator.
 - f. Establish regular places and times for meetings of the board of directors.
 - g. Establish procedures for records to be kept of all financial transactions of the association, the association's agents and the board of directors.

- h. Provide that any member insurer aggrieved by any final action or decision of the association may appeal to the commissioner within thirty days after the action or decision.
 - i. Establish procedures by which selections for the board of directors will be submitted to the commissioner.
 - j. Contain provisions necessary or proper for the execution of the powers and duties of the association.
- 4. The plan of operation may provide that powers and duties of the association, except those under subdivision d of subsection 1 of section 26.1-42.1-05 and subdivision b of subsection 2 of section 26.1-42.1-05, are delegated to a corporation, association, or other organization that performs or will perform functions similar to those of this association or this association's equivalent in two or more states. This corporation, association, or organization must be reimbursed as a servicing facility would be reimbursed and must be paid for performance of any other functions of the association. A delegation under this subsection takes effect only with the approval of the board of directors and the commissioner, and may be made only to a corporation, association, or organization that extends protection not substantially less favorable and less effective than that provided by this chapter.

26.1-42.1-07. Duties and powers of the commissioner.

- 1. The commissioner shall:
 - a. Notify the association of the existence of an insolvent insurer within three days after the commissioner receives notice of the determination of the insolvency. The association is entitled to a copy of any complaint seeking an order of liquidation with a finding of insolvency against a member company at the same time that this complaint is filed with a court of competent jurisdiction.
 - b. Upon request of the board of directors, provide the association with a statement of the net direct written premiums of each member insurer.
- 2. The commissioner may:
 - a. Suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this state of any member insurer that fails to pay an assessment when due or fails to comply with the plan of operation. In the alternative, the commissioner may levy a fine on any member insurer that fails to pay an assessment when due. A fine under this subdivision may not exceed five percent of the unpaid assessment per month, except that a fine may not be less than one hundred dollars per month.
 - b. Revoke the designation of any servicing facility if the commissioner finds claims are being handled unsatisfactorily.

26.1-42.1-08. Effect of paid claims.

1. Any person recovering under this chapter is deemed to have assigned that person's rights under the policy to the association to the extent of recovery from the association. Every insured or claimant seeking the protection of this chapter shall cooperate with the association to the same extent as that insured or claimant would have been required to cooperate with the insolvent insurer. The association does not have a claim for relief against the insured of the insolvent insurer for any sums the association paid out except for claims for relief the insolvent insurer would have had if the sums had been paid by the insolvent insurer and except as provided in subsection 2. In the case of an insolvent insurer operating on a plan with assessment liability, payments of claims of the association do not reduce the liability of the insureds to the receiver, liquidator, or statutory successor for unpaid assessments.
2. The association may recover from the following persons the amount of any covered claim paid on behalf of that person pursuant to this chapter:
 - a. Any insured whose net worth on December thirty-first of the year immediately preceding the date the insurer becomes an insolvent insurer exceeds twenty-five million dollars and whose liability obligations to other persons are satisfied in whole or in part by payments made under this chapter;
 - b. Any person who is an affiliate of the insolvent insurer and whose liability obligations to other persons are satisfied in whole or in part by payments made under this chapter; and
 - c. Any insured who is not a resident of this state at the time of the insured event, except for first-party covered claims for property damage to an insured's property that is permanently located in this state.
3. The association any any similar organization in another state are recognized as claimants in the liquidation of an insolvent insurer for any amounts paid by the association or similar organization on covered claims obligations as determined under this chapter or similar laws in other states and receive dividends and any other distributions at the priority set forth in section 26.1-06.1-41. The receiver, liquidator, or statutory successor of an insolvent insurer is bound by determinations of covered claim eligibility under this chapter and by settlements of claims made by the association or a similar organization in another state. The court with jurisdiction shall grant these claims priority equal to that which the claimant would have been entitled in the absence of this chapter against the assets of the insolvent insurer.
4. The association shall periodically file with the receiver or liquidator of the insolvent insurer statements of the covered claims paid by the association and estimates of anticipated claims on the association which preserve the rights of the association against the assets of the insolvent insurer.

26.1-42.1-09. Exhaustion of other coverage.

1. Any person with a claim against an insurer, regardless of whether that insurer is a member insurer under any provision in an insurance policy other than a policy of an insolvent insurer which is also a covered claim, is required to exhaust first that person's right under that policy. Any amount payable on a covered claim under this chapter must be reduced by the amount of any recovery under the insurance policy.
2. Any person with a claim that may be recovered under more than one insurance guaranty association or equivalent shall seek recovery first from the association of the place of residence of the insured except that if the claim is a first-party claim for damage to property with a permanent location, the person shall seek recovery first from the association of the location of the property. Any recovery under this chapter must be reduced by the amount of recovery from any other insurance guaranty association or equivalent.

26.1-42.1-10. Prevention of insolvencies. To aid in the detection and prevention of insurer insolvencies:

1. The board of directors, upon majority vote, may make recommendations to the commissioner for the detection and prevention of insurer insolvencies.
2. The board of directors, upon majority vote, may make recommendations to the commissioner on matters generally related to improving or enhancing regulation for solvency.
3. The board of directors, at the conclusion of any domestic insurer insolvency in which the association was obligated to pay covered claims, may prepare a report on the history and causes of the insolvency, based on the information available to the association and submit this report to the commissioner.

26.1-42.1-11. Examination of the association. The association is subject to examination and regulation by the commissioner. The board of directors shall submit, by March thirty-first of each year, a financial report for the preceding calendar year in a form approved by the commissioner.

26.1-42.1-12. Tax exemption. The association is exempt from payment of all fees and all taxes levied by this state or any political subdivision except taxes levied on property.

26.1-42.1-13. Recognition of assessments in rates. The rate and premiums charged for insurance policies to which this chapter applies must include amounts sufficient to recoup a sum equal to the amounts paid to the association by the member insurer less any amounts returned to the member insurer by the association. These rates may not be determined to be excessive because they contain an amount reasonably calculated to recoup assessments paid by the member insurer.

26.1-42.1-14. Immunity. There is no liability on the part of and no claim for relief may arise against any member insurer, the association or the association's agents or employees, the board of directors, or any person serving as a representative of any director, or the commissioner or the commissioner's

representatives for any action taken or any failure to act by these entities in the performance of their powers and duties under this chapter.

26.1-42.1-15. Stay of proceedings. All proceedings in which the insolvent insurer is a party or is obligated to defend a party in any court in this state, subject to waiver by the association in specific cases involving covered claims, must be stayed until the last day fixed by the court for the filing of claims and additional time after this as may be determined by the court from the date the insolvency is determined or an ancillary proceeding is instituted in the state, whichever is later, to permit proper defense by the association of all pending causes of action. As to any covered claims arising from a judgment under any decision, verdict, or finding based on the default of the insolvent insurer or the insolvent insurer's failure to defend an insured, the association on its own behalf or on behalf of such insured may apply to have the judgment, order, decision, verdict, or finding set aside by the same court or administrator that made the judgment, order, decision, verdict, or finding and may defend the claim on the merits. The liquidator, receiver, or statutory successor of an insolvent insurer covered by this chapter shall permit access by the board or the board's authorized representative to the insolvent insurer's records that are necessary for the board in carrying out the board's functions under this chapter with regard to covered claims. In addition, the liquidator, receiver, or statutory successor shall provide the board or the board's representative with copies of these records upon the request by the board and at the expense of the board.

SECTION 7. AMENDMENT. Subsection 3 of section 26.1-46-04 of the North Dakota Century Code is amended and reenacted as follows:

3. When a purchasing group obtains insurance covering its members' risks from an authorized insurer, only risks resident or located in this state may be covered by the state guaranty fund subject to chapter ~~26.1-42~~ 26.1-42.1.

SECTION 8. REPEAL. Chapter 26.1-42 of the North Dakota Century Code is repealed.

A plan of reorganization under this section must be approved by the eligible members of the domestic mutual insurance holding company in accordance with subsection 2 of section 26.1-12.1-09.

Concurrent reorganization - Domestic or foreign. The concurrent reorganization of a domestic mutual insurance company with one or more mutual insurance companies, whether domestic or foreign, into a single mutual insurance holding company structure, whether domestic or foreign, may be accomplished by a joint application and a joint plan of reorganization and may be approved by complying with the requirements and standards of section 26.1-12.1-06 by the commissioner following a hearing as provided for in this chapter. The commissioner may allow such other procedures to avoid unnecessary or duplicative costs and efforts in satisfying the requirements of this chapter and effectuating the reorganization.

 - (a) The ~~insurers~~ insurer that issued such policies or contracts ~~are~~ is domiciled in this state;
 - (b) ~~Such insurers never held a license or certificate of authority in the states in which such persons reside~~ The states in which the persons reside have associations similar to the association created under this chapter;
 - (c) ~~Such states have associations similar to the association created by this chapter; and~~
 - (~~d~~) ~~Such~~ The persons are not eligible for coverage by ~~such associations~~ an association in any other state due to the

fact that the insurer was not licensed in the state at the time specified in the state's guaranty association law.

In determining the application of the provisions of this

subdivision in situations in which a person could be covered by the association of more than one state, whether as an owner, payee, beneficiary, or assignee, this chapter must be construed in conjunction with other state laws to result in coverage by only one association.

2.  - j. An obligation that does not arise under the express written terms of the policy or contract issued by the insurer to the contractowner or policyowner, including:
 - (1) Claims based on marketing materials;

5. However, under subsection 4 in no event shall the association be obligated to cover more than an aggregate of three hundred thousand dollars in benefits with respect to any one life under subdivision b of

The costs of the association's obligations under this chapter may be met by the use of assets attributable to covered policies or reimbursed to the association pursuant to its subrogation and assignment rights.
7. In performing its obligations to provide coverage under this chapter, the association is not required to guarantee, assume, reinsure, or perform, or cause to be guaranteed, assumed, reinsured, or performed, the contractual obligations of the insolvent or impaired insurer under a covered policy or contract that do not materially affect the economic values or economic benefits of the covered policy or contract.

The association may retain a portion of any amount received equal to the percentage determined by dividing the aggregate amount of policyowners' claims related to that insolvency for which the association has provided statutory benefits by the aggregate amount of all policyowners' claims in this state related to that insolvency and shall remit to the domiciliary receiver the amount so paid to the association and retained pursuant to this subsection. Any amount paid to the association less the amount retained by it is treated as a distribution of estate assets pursuant to section 26.1-06.1-43 or similar provision of the state of domicile of the impaired or insolvent insurer.
- ~~40.~~ 9. If the association fails to act within a reasonable period of time with respect to an insolvent insurer, as provided in ~~subsections 2, 3, and 4,~~ subsection 2, the commissioner shall have the powers and duties of the association under this chapter with respect to ~~impaired or~~ insolvent insurers.
- ~~44.~~ 10. The association may render assistance and advice to the commissioner, upon request, concerning rehabilitation, payment of claims, continuance of coverage, or the performance of other contractual obligations of any impaired or insolvent insurer.

Such standing extends to all matters germane to the powers and duties of the association, including proposals for reinsuring, modifying, or guaranteeing the policies or contracts of the impaired or insolvent insurer and the determination of the policies or contracts and contractual obligations. The association shall also have the right to appear or intervene before a court or agency in another state with jurisdiction over an impaired or insolvent insurer for which the association is or may become obligated or with jurisdiction over a ~~third party~~ any person or property against whom the association may have rights through subrogation of the insurer's policyholders or otherwise.

the covered policy or contract to the association to the extent of the benefits received because of this chapter, whether the benefits are payments of or on account of contractual obligations, continuation of coverage, or provision of substitute or alternative coverages. The association may require an assignment to it of such rights and causes of action by any payee, policy or contractowner, beneficiary, insured, or annuitant as a condition precedent to the receipt of any right or benefits conferred by this chapter upon such person.

44. 13. The subrogation rights of the association under this section have the same priority against the assets of the impaired or insolvent insurer as that possessed by the person entitled to receive benefits under this chapter.

15. If subsections 12, 13, and 14 are invalid or ineffective with respect to any person or claim for any reason, the amount payable by the association with respect to the related covered obligations must be reduced by the amount realized by any other person with respect to the person or claim that is attributable to the policies or portion of the policies covered by the association. If the association has provided benefits with respect to a covered obligation and a person recovers amounts as to which the association has rights as described in the preceding paragraphs of this subsection, the person shall pay to the association the portion of the recovery attributable to the policies or portion of the policies covered by the association.

 - h. Request information from a person seeking coverage from the association in order to aid the association in determining its obligations under this chapter with respect to the person, and the person promptly shall comply with the request; and
 - i. Take other necessary or appropriate action to discharge its duties and obligations under this chapter or to exercise its powers under this chapter.
17. The association may join an organization of one or more state associations of similar purposes, to further the purposes and administer the powers and duties of the association.
18. At any time within one year after the date on which the association becomes responsible for the obligations of a member insurer, the association may elect to succeed to the rights and obligations of the member insurer which accrue on or after this coverage date and which relate to contracts covered in whole or in part by the association under any indemnity reinsurance agreement entered by the member insurer as a ceding insurer and selected by the association. However, the association may not exercise an election with respect to a reinsurance agreement if the receiver, rehabilitator, or liquidator of the member insurer previously and expressly has disaffirmed the reinsurance agreement. The election is effected by a notice to the receiver, rehabilitator, or liquidator and to the affected reinsurers. If the association makes an election, subdivisions a through d apply with respect to the agreements selected by the association.
- a. The association is responsible for all unpaid premiums due under the agreements, for periods both before and after the coverage date, and is responsible for the performance of all other obligations to be performed after the coverage date, in each case which relate to contracts covered, in whole or in part, by the association. The association may charge contracts covered in part by the association, through reasonable allocation methods, the costs for reinsurance in excess of the obligations of the association.
 - b. The association is entitled to any amounts payable by the reinsurer under the agreements with respect to losses or events that occur in periods after the coverage date and that relate to contracts covered by the association, in whole or in part, provided that, upon receipt of any of these amounts, the association is obliged to pay to the beneficiary under the policy or contract on account of which the amounts were paid a portion of the amount equal to the excess of

the amount received by the association, over the benefits paid by the association on account of the policy or contract less the retention of the impaired or insolvent member insurer applicable to the loss or event.

- c. Within thirty days following the association's election, the association and each indemnity reinsurer shall calculate the net balance due to or from the association under each reinsurance agreement as of the date of the association's election, giving full credit to every item paid by the member insurer or its receiver, rehabilitator, or liquidator, or the indemnity reinsurer during the period between the coverage date and the date of the association's election. The association or indemnity reinsurer shall pay the net balance due the other within five days of the completion of the aforementioned calculation. If the receiver, rehabilitator, or liquidator received any amounts due the association pursuant to subdivision b, the receiver, rehabilitator, or liquidator shall remit the amounts to the association as promptly as practicable.
- d. If the association, within sixty days of the election, pays the premiums due for periods both before and after the coverage date that relate to contracts covered by the association, in whole or in part, the reinsurer may not terminate the reinsurance agreements, to the extent the agreements relate to contracts covered by the association, in whole or in part, and may not set off any unpaid premium due for periods before the coverage date against amounts due the association.
- 18. If the association transfers its obligations to another insurer, and if the association and the other insurer agree, the other insurer shall succeed to the rights and obligations of the association under subsection 17 effective as of the date agreed by the association and the other insurer and regardless of whether the association made the election, provided that:

 - a. The indemnity reinsurance agreements automatically terminate for new reinsurance unless the indemnity reinsurer and the other insurer agree to the contrary;
 - b. The obligations described in the proviso to subdivision b of subsection 17 no longer apply on and after the date the indemnity reinsurance agreement is transferred to the third-party insurer; and
 - c. Subsection 18 does not apply if the association previously expressly determined in writing that it will not exercise the election referred to in subsection 17.
- 19. Subsections 17 and 18 supersede the provisions of any law of this state or of any affected reinsurance agreement that provides for or requires any payment of reinsurance proceeds, on account of losses or events that occur in periods after the coverage date, to the receiver, liquidator, or rehabilitator of the insolvent member insurer. The receiver, rehabilitator, or liquidator remains entitled to any amounts payable by the reinsurer under the reinsurance agreement with respect to losses or events that occur in periods before the coverage date, subject to applicable setoff provisions.

20. Except as otherwise expressly provided in this section, this section does not alter or modify the terms and conditions of the indemnity reinsurance agreements of the insolvent member insurer. This section does not abrogate or limit any rights of any reinsurer to claim that it is entitled to rescind a reinsurance agreement. This section does not give a policyowner or beneficiary an independent claim for relief against an indemnity reinsurer which is not otherwise set forth in the indemnity reinsurance agreement.
21. The board of directors of the association has discretion and may exercise reasonable business judgment to determine the means by which the association is to provide the benefits of this chapter in an economical and efficient manner.
22. If the association arranged or offered to provide the benefits of this chapter to a covered person under a plan or arrangement that fulfills the association's obligations under this chapter, the person is not entitled to benefits from the association in addition to or other than those provided under the plan or arrangement.
23. The association is not required to give an appeal bond in an appeal that relates to a cause of action arising under this chapter.

SECTION 5. AMENDMENT. Section 26.1-38.1-06 of the North Dakota Century Code is amended and reenacted as follows:

26.1-38.1-06. Assessments.

1. For the purpose of providing the funds necessary to carry out the powers and duties of the association, the board of directors shall assess the member insurers, separately for each account, at such time and for such amounts as the board finds necessary. Assessments must be due not less than thirty days after prior written notice to the member insurers and must accrue interest at eighteen percent per annum on and after the due date.
2. There must be two classes of assessment, as follows:
 - a. Class A assessments must be ~~made~~ authorized and called for the purpose of meeting administrative and legal costs and other expenses ~~and examinations conducted under the authority of section 26.1-38.1-09~~. Class A assessments may be ~~made~~ authorized and called whether or not related to a particular impaired or insolvent insurer.
 - b. Class B assessments must be ~~made~~ authorized and called to the extent necessary to carry out the powers and duties of the association with regard to an impaired or insolvent insurer.
3. The amount of any class A assessment must be determined by the board and may be ~~made~~ authorized and called on a pro rata or non-pro rata basis. If pro rata, the board may provide that it be credited against future class B assessments. ~~A~~ The total of all non-pro rata assessment assessments may not exceed one hundred fifty dollars per member insurer in any one calendar year.

4. The amount of any class B assessment must be allocated for assessment purposes among the accounts pursuant to an allocation formula which may be based on the premiums or reserves of the impaired or insolvent insurer or any other standard deemed by the board in its sole discretion as being fair and reasonable under the circumstances.
5. Class B assessments against member insurers for each account and subaccount must be in the proportion that the premiums received on business in this state by each assessed member insurer on policies or contracts covered by each account for the three most recent calendar years for which information is available preceding the year in which the insurer became ~~impaired or insolvent~~ or, as in the case may be of an assessment with respect to an impaired insurer, the three most recent calendar years for which information is available preceding the year in which the insurer became impaired, bears to such premiums received on business in this state for such calendar years by all assessed member insurers.
6. Assessments for funds to meet the requirements of the association with respect to an impaired or insolvent insurer may not be ~~made~~ authorized or called until necessary to implement the purposes of this chapter. Classification of assessments under subsection 2 and computation of assessments under this ~~subsection~~ section must be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible. The association shall notify each member insurer of its anticipated pro rata share of an authorized assessment not yet called within one hundred eighty days after the assessment is authorized.
7. The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. In the event an assessment against a member insurer is abated, or deferred in whole or in part, the amount by which such assessment is abated or deferred may be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. Once the conditions that caused a deferral are removed or rectified, the member insurer shall pay all assessments that were deferred pursuant to a repayment plan approved by the association.
8.
 - a. ~~The Subject to subdivision b, the total of all assessments upon authorized by the association with respect to a member insurer for each subaccount of the life insurance and annuity account and for each subaccount thereunder may the health account may not in any one calendar year exceed two percent and for the health account may not in any one calendar year exceed two percent of such insurer's average of that member insurer's average annual premiums received in this state on the policies and contracts covered by the subaccount or account during the three calendar years preceding the year in which the insurer became an impaired or insolvent insurer. If the maximum assessment, together with the other assets of the association in any account, does not provide in any one year in either account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds must be assessed as soon thereafter as permitted by this chapter.~~

- b. If two or more assessments are authorized in one calendar year with respect to insurers that become impaired or insolvent in different calendar years, the average annual premiums for purposes of the aggregate assessment percentage limitation referenced in subdivision a must be equal and limited to the higher of the three-year average annual premiums for the applicable subaccount or account as calculated pursuant to this section.
- c. If the maximum assessment, together with the other assets of the association in an account, does not provide in one year in either account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds must be assessed as soon after as permitted under this chapter.
9. The board may provide in the plan of operation a method of allocating funds among claims, whether relating to one or more impaired or insolvent insurers, when the maximum assessment will be insufficient to cover anticipated claims.
10. If ~~a one percent~~ the maximum assessment for any subaccount of the life and annuity account in any one year does not provide an amount sufficient to carry out the responsibilities of the association, then pursuant to subsection ~~4~~ 7, the board shall assess ~~at the other~~ subaccounts of the life and annuity account for the necessary additional amount, subject to the maximum stated in subsection 8.
11. The board may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each insurer to that account, the amount by which the assets of the account exceed the amount the board finds is necessary to carry out during the coming year the obligations of the association with regard to that account, including assets accruing from assignment, subrogation, net realized gains and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future ~~losses~~ claims.
12. It is proper for any member insurer, in determining its premium rates and policyowner dividends as to any kind of insurance within the scope of this chapter, to consider the amount reasonably necessary to meet its assessment obligations under this chapter.
13. The association shall issue to each insurer paying an assessment under this chapter, other than a class A assessment, a certificate of contribution, in a form prescribed by the commissioner, for the amount of the assessment so paid. All outstanding certificates must be of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the insurer in its financial statement as an asset in such form and for such amount, if any, and period of time as the commissioner may approve.
14. a. A member insurer that wishes to protest all or part of an assessment shall pay when due the full amount of the assessment as set forth in the notice provided by the association. The payment must be available to meet association obligations during the pendency of the protest or any subsequent appeal. Payment must be accompanied by a statement in writing that the payment is made

under protest and must set forth a brief statement of the grounds for the protest.

- b. Within sixty days following the payment of an assessment under protest by a member insurer, the association shall notify the member insurer in writing of its determination with respect to the protest unless the association notifies the member insurer that additional time is required to resolve the issues raised by the protest.
 - c. Within thirty days after a final decision was made, the association shall notify the protesting member insurer in writing of that final decision. Within sixty days of receipt of notice of the final decision, the protesting member insurer may appeal that final action to the commissioner.
 - d. In the alternative to rendering a final decision with respect to a protest based on a question regarding the assessment base, the association may refer protests to the commissioner for a final decision, with or without a recommendation from the association.
 - e. If the protest or appeal on the assessment is upheld, the amount paid in error or excess must be returned to the member insurer.
15. The association may request information of member insurers in order to aid in the exercise of its power under this section and member insurers shall comply promptly with a request.

SECTION 6. AMENDMENT. Subsection 5 of section 26.1-38.1-07 of the North Dakota Century Code is amended and reenacted as follows:

5. The plan of operation may provide that any or all powers and duties of the association, except those under subdivision c of subsection 45 16 of section 26.1-38.1-05 and section 26.1-38.1-06, are delegated to a corporation, limited liability company, association, or other organization which performs or will perform functions similar to those of this association, or its equivalent, in two or more states. Such a corporation, limited liability company, association, or organization must be reimbursed for any payments made on behalf of the association and must be paid for its performance of any function of the association. A delegation under this subsection shall take effect only with the approval of both the board of directors and the commissioner, and may be made only to a corporation, limited liability company, association, or organization which extends protection not substantially less favorable and effective than that provided by this chapter.

SECTION 7. AMENDMENT. Subsection 3 of section 26.1-38.1-08 of the North Dakota Century Code is amended and reenacted as follows:

If the appeal on the assessment is upheld, the amount paid in error or excess must be returned to the member company.~~ Any final

SECTION 11. AMENDMENT. Section 26.1-38.1-12 of the North Dakota Century Code is amended and reenacted as follows:

26.1-38.1-12. Examination of the association - Annual report. The association is subject to examination and regulation by the commissioner. The board of directors shall submit to the commissioner each year, not later than one

hundred twenty days after the association's fiscal year, a financial report in a form approved by the commissioner and a report of its activities during the preceding fiscal year. Upon the request of a member insurer, the association shall provide the member insurer with a copy of the report.

SECTION 12. AMENDMENT. Section 26.1-38.1-16 of the North Dakota Century Code is amended and reenacted as follows:

26.1-38.1-16. Prohibited advertisement of Insurance Guaranty Association Act in insurance sales - Notice to ~~policyholders~~ policyowners.

1. No person, including an insurer, agent, or affiliate of an insurer may make, publish, disseminate, circulate, or place before the public, or cause directly or indirectly, to be made, published, disseminated, circulated, or placed before the public, in any newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over any radio station or television station, or in any other way, any advertisement, announcement or statement, written or oral, which uses the existence of the insurance guaranty association of this state for the purpose of sales, solicitation, or inducement to purchase any form of insurance covered by ~~the North Dakota Life and Health Insurance Guaranty Association Act chapter 26.1-38.1.~~ chapter 26.1-38.1. Provided, however, that this section does not apply to the North Dakota life and health insurance guaranty association or any other entity ~~which~~ that does not sell or solicit insurance.
2. ~~Within one hundred eighty days after July 1, 1989~~ Before January 1, 1990, the association shall prepare a summary document describing the general purposes and current limitations of the chapter and complying with subsection 3. This document should be submitted to the commissioner for approval. Sixty days after receiving ~~such~~ approval, no insurer may deliver a policy or contract ~~described in subsection 2 of section 26.1-38.1-04~~ to a ~~policyholder or contractholder~~ policy or contractowners unless the summary document is delivered to the ~~policyholder or contractholder~~ policy or contractowner to or at the time of delivery of the policy or contract ~~except if subsection 4 applies.~~ The document should also be available upon request by a ~~policyholder~~ policyowner. The distribution, delivery, or contents or interpretation of this document does not mean that either the policy or contract or the ~~holder~~ owner thereof would be covered in the event of the impairment or insolvency of a member insurer. The document must be revised by the association as amendments to the chapter may require. Failure to receive this document does not give the ~~policyholder~~ policyowner, ~~contractholder~~ contractowner, certificate holder, or insured any greater rights than those stated in this chapter.
3. The document prepared under subsection 2 must contain a clear and conspicuous disclaimer on its face. The commissioner shall ~~adopt a rule establishing~~ establish the form and content of the disclaimer. The disclaimer must:

- c. State the types of policies for which guaranty funds will provide coverage;
 - d. State that the insurer and its agents are prohibited by law from using the existence of the North Dakota life and health guaranty association for the purpose of sales, solicitation, or inducement to purchase any form of insurance;

 - f. Explain rights available and procedures for filing a complaint to allege a violation of any provisions of this chapter; and
 - e. g. Provide other information as directed by the commissioner, including sources for information about the financial condition of insurers provided the information is not proprietary and is subject to disclosure under the state's public records law.
4. ~~No insurer or agent may deliver a policy or contract described in subsection 2 of section 26.1-38.1-01 and excluded under subdivision a of subsection 3 of section 26.1-38.1-01 from coverage under this chapter unless the insurer or agent, prior to or at the time of delivery, gives the policyholder or contractholder a separate written notice which clearly and conspicuously discloses that the policy or contract is not covered by the North Dakota life and health guaranty association. The commissioner shall by rule specify the form and content of the notice. A member insurer shall return evidence of compliance with subsection 2 for so long as the policy or contract for which the notice is given remains in effect.~~

HOUSE BILL NO. 1255

(Representatives Wald, Berg, Porter)
(Senators Klein, Mutch, Tallackson)

SELF-CRITICAL INSURANCE ANALYSIS PRIVILEGE

AN ACT to provide a self-critical insurance analysis privilege.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. In this Act, unless the context or subject matter otherwise requires:

1. "Commissioner" means the insurance commissioner.
2. "Insurance compliance audit" means a voluntary, internal evaluation, review, assessment, audit, or investigation for the purpose of identifying or preventing noncompliance with, or promoting compliance with, laws, regulations, orders, or industry or professional standards, which is conducted by or on behalf of an insurer licensed or regulated under title 26.1, or which involves an activity regulated under title 26.1.
3. "Insurance compliance self-critical analysis audit document" means a document prepared as a result of or in connection with an insurance compliance audit. An insurance compliance self-critical analysis audit document may include a written response to the findings of an insurance compliance audit. An insurance compliance self-critical analysis audit document may include, as applicable, field notes and records of observations, workpapers, findings, opinions, suggestions, conclusions, drafts, memoranda, drawings, photographs, exhibits, computer-generated or electronically recorded information, phone records, maps, charts, graphs, and surveys, provided this supporting information is collected or developed for the primary purpose and in the course of an insurance compliance audit. An insurance compliance self-critical analysis audit document also includes:
 - a. An insurance compliance audit report prepared by an auditor, who may be an employee of the insurer or an independent contractor, which may include the scope of the audit, the information gained in the audit, and conclusions and recommendations, with exhibits and appendices;
 - b. Memoranda and documents analyzing portions or all of the insurance compliance audit report and discussing potential implementation issues;
 - c. An implementation plan that addresses correcting past noncompliance, improving current compliance, and preventing future noncompliance; or
 - d. Analytic data generated in the course of conducting the insurance compliance audit.

4. "Insurer" means an insurance company, nonprofit service corporation, or health maintenance organization organized under the laws of this state or a foreign insurance company, nonprofit service corporation, or health maintenance organization authorized to do business in this state.

SECTION 2. Self-critical analysis privilege created - Scope. An insurance compliance self-critical analysis privilege is created to protect the confidentiality of insurance compliance self-critical analysis documents or communications in regard to their content relating to voluntary internal compliance audits conducted by insurers and persons in regard to activities regulated under title 26.1, both to conduct voluntary internal audits of its compliance programs and management systems, and to assess and improve compliance with state and federal statutes, rules, and orders. The insurance compliance self-critical analysis privilege applies to all litigation or administrative proceedings pending on the effective date of this Act.

SECTION 3. Insurance compliance self-critical analysis document not discoverable or admissible. Except as provided in sections 5, 6, and 7 of this Act, an insurance compliance self-critical analysis audit document is privileged information and is not discoverable or admissible evidence in any legal action in any civil, criminal, or administrative proceeding. The privilege is a matter of substantive law of this state and is not merely a procedural matter governing administrative, civil, or criminal procedures in the courts of this state.

SECTION 4. Application of privilege. If an insurer, person, or entity performs or directs the performance of an insurance compliance audit, an officer, employee, or agent involved with the insurance compliance audit, or any consultant who is hired for the purpose of performing the insurance compliance audit, may not be examined in any civil, criminal, or administrative proceeding as to the insurance compliance audit or any insurance compliance self-critical analysis audit document. This section does not apply if it is determined under section 6 or 7 that the privilege does not apply.

SECTION 5. Submission to commissioner.

1. Upon request of the commissioner, an insurer must submit an insurance compliance self-critical analysis audit document to the commissioner, or the commissioner's designee, as a confidential document under the provisions of section 26.1-03-19.4 without waiving the privilege set forth in this Act to which the insurer would otherwise be entitled. However, the provisions of sections 26.1-03-19.3 and 26.1-03-19.4 permitting the commissioner to make confidential documents public and accessible to the national association of insurance commissioners does not apply to the insurance compliance self-critical analysis audit documents voluntarily submitted. To the extent the commissioner has the authority to compel the disclosure of an insurance compliance self-critical analysis audit document under other provisions of applicable law, any report furnished to the commissioner may not be provided to any other person or entity and must be accorded the same confidentiality and other protections as provided above for voluntarily submitted documents. Any use of an insurance compliance self-critical analysis audit document furnished as a result of a request of the commissioner, whether under a claim of authority to compel disclosure or not, is limited to determining whether any disclosed defects in an insurer's policies or procedures or inappropriate treatment of customers has been remedied or that an appropriate plan for their remedy is in place. The commissioner may not impose any type of administrative fine or penalty as to any area

addressed or matter covered in an insurance compliance self-critical analysis audit document furnished at the commissioner's request, except where there is clear and convincing evidence that the insurer failed to undertake reasonable corrective action, eliminate inappropriate treatment of customers, or failed to implement an appropriate plan to rectify any noncompliance with state and federal statutes, rules, and orders.

2. An insurer's insurance compliance self-critical analysis audit document submitted to the commissioner remains subject to all applicable statutory or common law privileges including the work product doctrine, attorney-client privilege, or the subsequent remedial measures exclusion. An insurance compliance self-critical analysis audit document submitted to and in the possession of the commissioner remains the property of the insurer and is not subject to any disclosure or production under section 44-04-18.
3. Disclosure of an insurance compliance self-critical analysis audit document to a governmental agency, whether voluntary or pursuant to compulsion of law, does not constitute a waiver of the privilege with respect to any other person or any other government agency.

SECTION 6. Waiver of privilege by insurer - Grounds for determination of privilege - Civil, administrative, or criminal proceedings.

1. The self-critical analysis privilege does not apply to the extent that it is expressly waived by the insurer that prepared or caused to be prepared the insurance compliance self-critical analysis audit document.
2. In a civil or administrative proceeding, a court of record, after an in-camera review, may require disclosure of material for which the privilege is asserted, if the court determines one of the following:
 - a. The privilege is asserted for a fraudulent purpose; or
 - b. The material is not subject to the privilege.
3. In a criminal proceeding, a court of record, after an in-camera review, may require disclosure of material for which the privilege is asserted, if the court determines one of the following:
 - a. The privilege is asserted for a fraudulent purpose;
 - b. The material is not subject to the privilege; or
 - c. The material contains evidence relevant to commission of a criminal offense, and all three of the following factors are present:
 - (1) The commissioner, state's attorney, or attorney general has a compelling need for the information;
 - (2) The information is not otherwise available; and
 - (3) The commissioner, state's attorney, or attorney general is unable to obtain the substantial equivalent of the information

by any other means without incurring unreasonable cost and delay.

SECTION 7. Determination of privilege - Procedure.

1. If a person seeks from an insurer communications involving an insurance compliance audit or any insurance compliance self-critical analysis audit document during the course of a pending civil or criminal proceeding, the insurer may assert the self-critical analysis privilege and provide the information set forth in subsection 6 during the course of those proceedings just as any other privilege is asserted in the courts of this state. If the court is required to make a determination as to the privilege, the court shall follow the procedure and conditions set forth in subsection 5.
2. If there is a pending administrative proceeding, or there is no pending civil or criminal proceeding, the commissioner, state's attorney, or attorney general may serve on an insurer a written request by certified mail for disclosure of an insurance compliance self-critical analysis audit document. Within thirty days after the commissioner, state's attorney, or attorney general serves on an insurer a written request by certified mail for disclosure of an insurance compliance self-critical analysis audit document, the insurer that prepared or caused the document to be prepared may file with the appropriate court a petition requesting an in-camera hearing on whether the insurance compliance self-critical analysis audit document or portions of the document are privileged under this Act or subject to disclosure. The court has jurisdiction over a petition filed by an insurer under this subsection requesting an in-camera hearing on whether the insurance compliance self-critical analysis document or portions of the document are privileged or subject to disclosure. Failure by the insurer to file a petition waives the privilege for only the specific request made.
3. An insurer asserting the insurance compliance self-critical analysis privilege in response to a request for disclosure under this section shall include in its request for an in-camera hearing all of the information set forth in subsection 6.
4. Upon the filing of a petition under this section, the court shall issue an order scheduling, within forty-five days after the filing of the petition, an in-camera hearing to determine whether the insurance compliance self-critical analysis audit document or portions of the document are privileged under this Act or subject to disclosure.
5. The court, after an in-camera review, may require disclosure of material for which the privilege is asserted if the court determines, based upon its in-camera review, that any one of the conditions set forth in subsection 2 of section 6 of this Act is applicable as to a civil or administrative proceeding or that any one of the conditions set forth in subsection 3 of section 6 of this Act is applicable as to a criminal proceeding. Upon making such determination, the court may only compel the disclosure of those portions of an insurance compliance self-critical analysis document relevant to issues in dispute in the underlying proceeding. A compelled disclosure may not be considered to be a public document or be deemed to be a waiver of the privilege for any other civil, criminal, or administrative proceeding. An insurer unsuccessfully opposing

disclosure may apply to the court for an appropriate order protecting the document from further disclosure.

6. An insurer asserting the insurance compliance self-critical analysis privilege in response to a request for disclosure under this section shall provide at the time of making and filing any objection to the disclosure all of the following information:
 - a. The date of the insurance compliance self-critical analysis audit document.
 - b. The identity of the entity conducting the audit;
 - c. The general nature of the activities covered by the insurance compliance audit; and
 - d. An identification of the portions of the insurance compliance self-critical analysis audit document for which the privilege is being asserted.

SECTION 8. Privilege - Burden of proof - Stipulation. An insurer asserting the insurance compliance self-critical analysis privilege set forth in this Act has the burden of demonstrating the applicability of the privilege. Once an insurer has established the applicability of the privilege, a party seeking disclosure has the burden of proving that the privilege is asserted for a fraudulent purpose. The commissioner, state's attorney, or attorney general seeking disclosure of the privilege has the burden of proving the elements set forth in subdivisions a and c of subsection 3 of section 6 of this Act.

The parties may at any time stipulate in proceedings under section 6 or 7 of this Act to entry of an order directing whether the specific information contained in an insurance compliance self-critical analysis audit document is or is not subject to the privilege provided under this Act. Any such stipulation may be limited to the instant proceeding and, absent specific language to the contrary, is not applicable to any other proceeding.

SECTION 9. Nonapplication of privilege. The self-critical analysis privilege set forth in this Act does not extend to:

1. Documents, communications, data, reports, or other information expressly required to be collected, developed, maintained, or reported to a regulatory agency pursuant to title 26.1, or other federal or state law;
2. Information obtained by observation or monitoring by any regulatory agency; or
3. Information obtained from a source independent of the insurance compliance audit.

 - a. A child, for whom this state has agreed under the terms of an adoption assistance agreement to provide medical assistance, is eligible for medical assistance in this state during the entire period for which the agreement is in effect and shall receive the same benefits as any other child who is covered by the medical assistance program in this state;

 - b. May enter into supplementary agreements, not inconsistent with the compact, with some or all party states, provided that no supplementary agreement may relieve a party state of any obligation to provide adoption and medical assistance in accordance with applicable state and federal law and this compact.

Joinder and withdrawal.

1. This state's joinder of the compact is effective upon execution of the compact by the executive director of the department.
2. The compact may be joined by any state.
3. This state may withdraw from the compact only by written notice sent to the appropriate officials of all other party states, but no such notice may take effect until one year after it is given.

AN ACT to provide for year 2000 information requests; to create and enact a new section to chapter 32-12 of the North Dakota Century Code, relating to the liability of the state for a contract claim resulting from the failure of computers or computer equipment; and to amend and reenact subsection 3 of section 32-12.1-03 and subsection 3 of section 32-12.2-02 of the North Dakota Century Code, relating to the liability of political subdivisions and the state for a claim resulting from the failure of computers or computer equipment as a result of the year 2000 date change.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Year 2000 information requests - Use - Exceptions.

1. Any public entity may gather year 2000 processing information from any person which relates to computer hardware or software, telecommunications networks, or devices containing a computer processor. An information request under this section may specify the person to gather responses to the request. Any year 2000 processing response made to an information gathering request from a public entity is not a public record under section 44-04-18 or section 6 of article 11 of the Constitution of North Dakota and the response may not be directly or indirectly used, offered in evidence, or be subject to discovery in any civil action for damages in tort, contract, or for any other form of relief against the public entity or person.
2. This section does not preclude the public entity from using its requests for year 2000 information or responses to year 2000 information requests as evidence of a good-faith effort to determine year 2000 compliance of its computer hardware or software, telecommunications networks, or devices containing a computer processor.
3. For purposes of this section, year 2000 processing includes calculating, comparing, sequencing, displaying, or storing; transmitting; or receiving data from, into, and between the twentieth and twenty-first centuries, and during the years 1999 and 2000, and any leap year.
4. This section does not preclude any party from separately obtaining the information submitted in response to a year 2000 information request made under this section through other independent legal authority and using the separately obtained information in any action or proceeding.
5. This section does not apply to any information disclosed to the public with the express written consent of the party responding to a year 2000 information request under this section or disclosed by that party separately from a response to a year 2000 information request under this section.

6. This section applies to all responses to any year 2000 information requests received by a public entity whether the response was received before or after the effective date of this Act.

SECTION 2. A new section to chapter 32-12 of the North Dakota Century Code is created and enacted as follows:

Claims resulting from year 2000 date change computer failures prohibited.

The state is not liable for a claim arising upon contract which is the result of the failure of any computer hardware or software, telecommunications network, or device containing a computer processor to interpret, produce, calculate, generate, or account for a date that is compatible with the year 2000 date change if the state has made a good-faith effort to make the computer hardware or software, telecommunications network, or device containing a computer processor compliant with the year 2000 date change. For the purposes of this section, the state is presumed to have made a good-faith effort to make the computer hardware or software, telecommunications network, or device containing a computer processor compliant with the year 2000 date change if the results of testing establish that the computer hardware or software, telecommunications network, or device containing a computer processor meets the compliance requirements of this section, or if the state has sought and received an assurance of compliance from the manufacturer or supplier, or if the state has sought an assurance of compliance from the manufacturer, supplier, government or other reliable source when testing or receiving an assurance from the manufacturer or supplier of the computer hardware or software, telecommunications network, or device containing a computer processor is not practicable. For the purposes of this section computer hardware or software, a telecommunications network, or device containing a computer processor is compliant with the year 2000 date change if:

- e. The failure of any computer hardware or software, telecommunications network, or device containing a computer processor to interpret, produce, calculate, generate, or account for a date that is compatible with the year 2000 date change if the political subdivision has made a good-faith effort to make the computer hardware or software, telecommunications network, or device containing a computer processor compliant with the year 2000 date change. For the purposes of this subdivision, a political subdivision is presumed to have made a good-faith effort to make the computer hardware or software, telecommunications network, or device containing a computer processor compliant with the year 2000 date change if the results of testing establish that the computer hardware or software, telecommunications network, or device containing a computer processor meets the compliance requirements of this section, or if the political subdivision has sought and received an assurance of compliance from the manufacturer or supplier, or if the political subdivision has sought an assurance of compliance from the manufacturer, supplier, government or other reliable source when testing or receiving an assurance from the manufacturer or supplier of the computer hardware or software, telecommunications network, or device containing a computer processor is not practicable. SENATE BILL NO. 2303 (Senators Klein, D. Mathern) (Representative Berg)

FINANCIAL INSTITUTION YEAR 2000 LIABILITY

AN ACT relating to the liability of financial institutions and credit unions for malfunctions or failures of computer or other electronic systems as the result of a year 2000 disruption; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. As used in this Act:

1. "Comparative responsibility" means any act or omission that is negligent or willful, assumption of risk, breach of warranty, misuse of a product, or failure to use reasonable care to avoid or mitigate damage.
2. "Economic damages" means actual monetary losses proximately caused by a year 2000 disruption. The term does not include projected losses of future income or earnings and lost future business or employment opportunities.
3. "Year 2000 disruption" means a malfunction or failure of a computer or other electronic information or a malfunction or failure of an operating system or of equipment, including an electrical or telecommunications malfunction or failure, which prevents the system or equipment from correctly reading or processing data fields containing time or date information, functioning consistently regarding that time or date information, or from correctly calculating, comparing, or sequencing time or date information.
4. "Year 2000 readiness plan" means the process by which a federally insured financial institution or credit union prepares the computers and other electronic information and operating systems and equipment under the financial institution's or credit union's control to correctly read and process time and date information and to function consistently regarding that time and date information.

SECTION 2. Year 2000 readiness plan. Notwithstanding any other provision of law, this Act governs every claim for relief in which damages are sought from a federally insured financial institution or credit union for an alleged year 2000 disruption if the financial institution or credit union has made a good-faith effort to make and implement a year 2000 readiness plan. A financial institution or credit union that has substantially complied with the requirements of the financial institution's or credit union's primary federal regulator to address potential year 2000 disruptions is conclusively presumed to have made a good-faith effort to make and implement a year 2000 readiness plan.

SECTION 3. Time for commencing action. A claim for relief in connection with a year 2000 disruption must be commenced before January 1, 2001. Any claim that is not timely brought is barred.

SECTION 4. Requirement for privity of contract. A federally insured financial institution or credit union may not be held liable to any person not in privity of contract with the financial institution or credit union for damages or other relief relating to a year 2000 disruption.

SECTION 5. Liability for actual damages. The liability of a federally insured financial institution or credit union that experiences a year 2000 disruption is limited to actual economic damages.

SECTION 6. Comparative responsibility. A contributory act or omission does not bar recovery in an action under this Act, unless the contributory act or omission was as great as the combined responsibility of every other person whose act or omission contributed to the economic damages. Any damages allowed, however, must be diminished in proportion to the amount of a contributing act or omission that is attributable to the person making the recovery. The court may, and if requested by any party, shall direct the jury to find separate special verdicts determining the amount of economic damages and the percentage of responsibility attributable to each contributing person, regardless of whether the contributing person is a party to the action. In the case of contribution, the court shall reduce the amount of damages in proportion to the amount of responsibility to the person recovering. If two or more parties contributed, the liability of each party is several only and is not joint, and each party is liable only for the amount of damages attributable to the percentage of responsibility of that particular party.

SECTION 7. Elimination of damages other than economic damages. A party claiming relief from a federally insured financial institution or credit union as a primary consequence of a year 2000 problem may not be awarded punitive damages, consequential damages, extraordinary damages, noneconomic damages, or any other relief in excess of economic damages.

SECTION 8. EXPIRATION DATE. This Act is effective through July 31, 2003, and after that date is ineffective.

- j. That has had a substance added to it or mixed or packed with it so as to increase its bulk or weight, or make it appear better than or of greater value than it is.

8. "Prepared" means slaughtered, canned, salted, rendered, boned, cut up, or otherwise manufactured or processed.

Inspectors - Appointments - Duties.

1. The commissioner shall appoint inspectors to examine and inspect meat food products prepared solely for intrastate commerce in a slaughtering, meat canning, salting, packing, or similar establishment. The inspections must take place at any time during which the slaughtering of animals or the preparation of food products is being conducted. 3. Meat food products inspected and passed under this chapter may be sold at retail in this state.

4. Neither the commissioner, nor any inspector appointed by the commissioner, may undertake any activity that is duplicative of an activity performed by meat inspectors of the United States department of agriculture.

Access by inspectors - Penalty.

1. The commissioner and any authorized representative of the commissioner have access to:

False or misleading marks, labels, and containers. A person may not sell in intrastate commerce any meat food product subject to inspection under this chapter under a name, mark, or label which is false or misleading, or in a container of a misleading form or size. If the commissioner has reason to believe that a mark, label, or container is false or misleading, the commissioner may direct that its use be withheld unless the mark, label, or container is modified in a manner approved by the commissioner. If the person using or proposing to use the mark, label, or container does not accept the determination of the commissioner, the person may request a hearing. The commissioner may direct that the mark, label, or container not be used pending a hearing and final determination by the commissioner. The commissioner by rule may require that the preparation of whole equine carcasses, parts of equine carcasses, and equine meat food products take place in establishments separate from those in which cattle, sheep, swine, or goats are slaughtered or in which their carcasses, parts of their carcasses, or meat food products are prepared.

Bribery. A person may not give or receive anything of value to influence the performance of an inspector under this chapter.

Individual and custom processing.

1. This chapter does not apply to an individual processing the individual's own animals and the individual's preparation and transportation in intrastate commerce of the whole carcasses, parts of carcasses, and meat food products provided the animals are for the exclusive use of the individual, members of the individual's household, the individual's nonpaying guests, and employees.
2. This chapter does not apply to the custom processing by a person of animals delivered by the owner for processing, and the preparation or transportation in intrastate commerce of the whole carcasses, parts of carcasses, and meat food products of the animals, provided that the products are to be used exclusively in the household of the animal's owner by the owner and members of the owner's household, nonpaying guests, and employees.
3. A custom processor may not engage in the business of buying or selling whole carcasses, parts of carcasses, or meat food products of animals usable as human food unless the whole carcasses, parts of carcasses, or meat food products have been inspected and passed and are identified as inspected and passed by the commissioner or the United States department of agriculture.

Storing and handling conditions. The commissioner shall adopt rules regarding the manner in which all whole carcasses, parts of carcasses, and meat food products of animals usable as human food and subject to this chapter must be stored, handled, and transported.

Articles not intended as human food. The commissioner may not provide inspection under this chapter at an establishment for the slaughter of animals or the preparation of carcasses or parts or products of animals which are not intended for use as human food. Before these articles are offered for sale or transportation in intrastate commerce, they must be denatured or otherwise identified, as prescribed by rules of the commissioner, to deter their use for human food, unless they are naturally inedible by humans. A person may not buy, sell, transport, offer for sale or transportation, or receive for transportation, in intrastate commerce, any carcasses, parts of carcasses, or meat food products of animals which are not

intended for use as human food, unless the articles are denatured or otherwise identified.

Records. The following persons shall keep records that fully and accurately disclose the transactions described:

1. A person in the business of slaughtering animals or preparing, freezing, packaging, or labeling animal carcasses, parts, or products of carcasses for use as human or animal food.
2. A person buying, selling, transporting, or storing animal carcasses or parts or products of animal carcasses.
3. A person rendering or buying, selling, or transporting dead, dying, disabled, or diseased animals or parts of the carcasses of animals that died other than by slaughter.

Records - Examination. Upon notice by the commissioner, any person subject to the recordkeeping requirements of this chapter shall give the commissioner and the United States department of agriculture access to their places of business at all reasonable times and an opportunity to examine the facilities, inventory, and records of the business, to copy business records, and to take reasonable samples of their inventory upon payment of the fair market value of the samples.

Records - Retention. Any person subject to the recordkeeping requirements of this chapter shall maintain the records for the period prescribed by the commissioner.

Registration of business. A person may not engage in intrastate business as a meat broker, renderer, or animal food manufacturer; a wholesaler of animal carcasses, carcass parts or products of carcasses, intended for human food or other purposes; a public warehouse operator storing carcasses or parts of carcasses of animals in or for intrastate commerce; or a buyer, seller, or transporter of dead, dying, disabled, or diseased animals, or parts of the carcasses of animals that died other than by slaughter, unless the person first provides the commissioner with the person's name, the address of each place of business under which the person conducts business, and all trade names under which, the person conducts business.

Dead, dying, disabled, or diseased animals - Rules. The commissioner shall adopt rules to ensure that dead, dying, disabled, or diseased animals are not used as human food.

Cooperation with federal government. The commissioner shall cooperate with the United States department of agriculture to develop and administer the state meat inspection program provided for under this chapter and to ensure that its requirements are at least equal to those imposed by federal law. The commissioner may accept, from the United States department of agriculture, advice and assistance in planning and otherwise developing the state meat inspection program; technical and laboratory assistance and training, including necessary curricular and instructional materials and equipment; and financial and other assistance for the administration of the program.

Refusal or withdrawal of inspection.

1. For the length of time the commissioner considers necessary to carry out the purposes of this chapter, the commissioner may refuse to provide, or

withdraw, inspection services from an establishment if after a hearing the commissioner determines that the recipient or potential recipient is unfit to engage in any business requiring inspection under this chapter because the recipient, potential recipient, or anyone responsibly connected with the recipient or potential recipient has been convicted of:

- a. An offense determined by the commissioner to have a direct bearing on the person's ability to serve the public in a business requiring inspection under this chapter, or the commissioner determines the person is not sufficiently rehabilitated under section 12.1-33-02.1;
 - b. More than one violation of a law based on the acquisition, handling, or distributing of unwholesome, mislabeled, or deceptively packaged food; or
 - c. Fraud in connection with transactions involving food.
2. For the purpose of this section anyone responsibly connected with a business means an individual who is a partner, officer, director, holder, or owner of ten percent or more of its voting stock or an employee in a managerial or executive capacity.

Detention of animals or products. If an inspector finds a whole carcass, part of a carcass, or meat food product, a product exempted from the definition of a meat food product, or a dead, dying, disabled, or diseased animal on premises where it is held for purposes of, during, or after distribution in intrastate commerce, and the inspector reasonably believes that the article is adulterated or misbranded and is usable as human food, or that it has not been inspected, in violation of this chapter or federal law, or that the article or animal has been or is intended to be distributed in violation of this chapter or federal law, the inspector may detain the article for up to twenty days pending a hearing or notification of federal authorities having jurisdiction over the article or animal. The article may not be moved by any person from the place at which it was located when detained, until released by the commissioner. The commissioner may require all official marks to be removed from the article or animal before it is released unless the commissioner is satisfied that the article or animal is eligible to retain the official marks.

Seizure and condemnation. The commissioner may initiate action to seize and condemn a whole carcass, part of a carcass, or meat food product, or a dead, dying, disabled, or diseased animal that is being transported in intrastate commerce, or is held for sale in this state after transportation in intrastate commerce if:

1. The article is or has been prepared, sold, transported, or otherwise distributed or offered or received for distribution in violation of this chapter;
2. The article is usable as human food and is adulterated or misbranded; or
3. The article is in any other way violative of this chapter.

Sale of condemned items. If an article or animal is condemned, it must be disposed of by destruction or sale, as directed by a court. If it is sold, the proceeds must be paid to the state, less the court costs, fees, storage, and reasonable expenses, but the article or animal must not be sold contrary to this chapter or federal law. If a bond is delivered conditioned that the article or animal not be sold or otherwise

disposed of contrary to this chapter or federal law, the court may direct that the article or animal be delivered to its owner subject to supervision by the commissioner.

Types of proceedings - Award of costs. If a decree of condemnation is entered against an article or animal and it is released under bond or destroyed, a court may award costs, fees, storage, and other reasonable expenses against any person intervening as a claimant of the article or animal. Either party to a proceeding may demand trial by jury of any issue of fact joined in the case, and all proceedings must be in the name of the state. Nothing in this section changes the authority for condemnation or seizure otherwise conferred by law.

Powers of commissioner. For the purposes of this chapter, the commissioner may:

1. Gather and compile information concerning and investigate the organization, business, conduct, practices, and management of a person in intrastate commerce and the person's relation to other persons.
2. Require that a person engaged in intrastate commerce file with the commissioner, in the form and manner prescribed by the commissioner, annual and special reports or written answers to specific questions, giving the commissioner the information the commissioner requires about the organization, business, conduct, practices, management, and relation to other persons, of the person filing the reports or answers.
3. Examine and copy documentary evidence of a person being investigated or being proceeded against. A person may not refuse to submit the commissioner, for inspection and copying, any documentary evidence of a person subject to this chapter in the person's possession or control.
4. A person required by this chapter to file an annual or special report may not fail to do so within the time fixed by the commissioner, and continue the failure for thirty days after notice of failure to file.
5. Adopt rules to implement this chapter, including establishing inspection fees for providing inspection services under this chapter.

Interstate shipment. Meat and meat products inspected under this chapter may be shipped in interstate commerce when federal law permits state inspected meat and meat products to be marketed interstate.

General penalty. Violation of this chapter or a rule adopted under this chapter is a class A misdemeanor. The commissioner is not required to report for prosecution or for the institution of injunctive proceedings a minor violation of this Act if the commissioner believes that the public interest will be adequately served by a suitable written warning.

SECTION 2. APPROPRIATION. There is hereby appropriated from special funds derived from federal funds and other income, the sum of \$454,000, or so much of the sum as may be necessary, to the agriculture commissioner for the purpose of implementing and operating the state meat inspection program for the biennium beginning July 1, 1999, and ending June 30, 2001.

SECTION 3. TRANSFER. The Bank of North Dakota shall transfer the sum of \$250,000 from uncommitted funds of the agricultural partnership in assisting

Each appointed member is entitled to receive sixty-two dollars and fifty cents per day as compensation for time actually spent devoted to the duties as provided in this section and is entitled to receive necessary expenses in the same manner and amounts as state officials for attending meetings and performing other functions of the office.

SECTION 5. LEGISLATIVE INTENT. ~~67.~~ 68. "Semitrailer" includes every vehicle of the trailer type so designed and used in conjunction with a truck or truck tractor that some part of its own weight and that of its own load rests upon or is carried by a truck or truck tractor, except that it does not include a "housetrailer" or "mobile home" as defined in subsection ~~82~~ 83.

SECTION 3. AMENDMENT. Subsection 2 of section 39-04-36 of the North Dakota Century Code is amended and reenacted as follows:

2. Upon applying for the transfer of the registration and paying a five dollar fee, a person who transfers or assigns to another person the ownership of a registered vehicle may receive credit for the unused portion of the fees paid for the transferred vehicle. One-twelfth of the annual fee must be credited for each month of the registration period remaining after the month in which the transfer is made. The credit may not extend beyond the original expiration of the registration. Except as provided in section

39-04-44, the credit must be applied to the registration fees for a replacement vehicle. The transferor shall apply for the transfer of registration within thirty days of the purchase of the replacement vehicle.

²³⁸ **SECTION 4. AMENDMENT.** Section 39-05-17.2 of the North Dakota Century Code is amended and reenacted as follows:

39-05-17.2. Body damage disclosure - Rules - When required - Penalty.

1. The department shall adopt rules relating to the manner and form of disclosing motor vehicle body damage on the certificate of title to a motor vehicle. The rules must provide for a damage disclosure statement from the transferor to the transferee at the time ownership of a motor vehicle is transferred and provide that the department must refuse to transfer the title without the required damage disclosure statement.
2. Motor vehicle body damage disclosure requirements apply only to the transfer of title on ~~all current year models~~ of motor vehicles of a model year which have been released in the current calendar year and those models manufactured motor vehicles of a model year which were released in the seven calendar years before the current model calendar year. When a motor vehicle has been subject to this disclosure requirement and ~~more than eight years have elapsed since the date of manufacture~~ a motor vehicle of a model year has not been released in the current calendar year or the seven calendar years before the current calendar year, the holder of the certificate of title with the damage disclosure may have the disclosure removed and a new certificate of title issued for a fee of five dollars.
3. As used in this section, "motor vehicle damage" means a change in the body or structure of a motor vehicle, generally resulting from a vehicular crash or accident, including loss by fire, vandalism, weather, or submersion in water, resulting in damage to the motor vehicle which equals or exceeds the greater of five thousand dollars or forty percent of the predamage retail value of the motor vehicle as determined by the national automobile dealers association official used car guide. In addition, the dealer shall maintain that person's business records in one central location.

²³⁹ Section 39-06-14 was also amended by section 2 of Senate Bill No. 2233, chapter 339.

REST AREA VENDING MACHINE PERMITS

AN ACT to create and enact a new section to title 39 of the North Dakota Century Code, relating to rest area vending machine permits from the department of transportation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Permits for vending machines at rest areas. A vending machine that allows access to a tobacco product may not be placed or remain upon a rest area, and any other vending machine may not be placed or remain upon a rest area under the supervision of the director without a permit from the director. The director shall charge a fee for the issuance of a vending machine permit. The amount of the permit fee must relate to the department's actual cost of administration, annual review, and enforcement of the permit process, but may not exceed twenty-five dollars annually. The permit process may not be affected by the content of a publication. The director shall require permittees to comply with appropriate indemnification, insurance, and other risk management provisions of the permit. Vending machines must be secured in a manner that prevents tipping and moving, deters theft, and leaves state property undamaged. Plexiglass, safety glass, or other shatter resistant materials must be employed in windows or displays. All vending machines must be sufficiently enclosed to prevent the distributed product from inadvertently being removed or blown from the machine or weathered by the elements. Stolen or damaged vending machines do not result in liability to the department and must be repaired, restored, or replaced within thirty calendar days. All cash boxes and accesses to cash boxes must be metal and securely locked in place. All vending machines must be placed in a well-lighted area visible from the rest area roadway. All vending machines must be placed on a route allowing parallel access by motorized or standard wheelchairs, with at least sixty-six inches [1676.400 millimeters] of clear width. A vending machine may not have a component or function used by the public which requires more than five pounds [2.268 kilograms] of force to be applied. The height of controls, doors, or access points necessary for use by the public may not exceed sixty inches [1524 millimeters]. The director may determine the maximum number of vending machine placements at a given rest area. Priority must be given to vending machines placed pursuant to the Randolph Sheppard Act [Pub. L. 74-732; 49 Stat. 1559; 20 U.S.C. 107], as administered by the vocational rehabilitation division of the department of human services under section 50-06.1-13. When, after allowing for the placement of vending machines pursuant to the Randolph Sheppard Act, [Pub. L. 74-732; 49 Stat. 1559; 20 U.S.C. 107], the director determines that the number of permit applications for a particular rest area would exceed the remaining available space or would prevent compliance with this section or other law, the director shall grant permits by means of a lottery, with permits allocated pro rata according to the number of applications for each type. The permittee is solely responsible to ensure that any trash, wrapping, boxes, or debris, generated when stocking or servicing vending machines is not left on or at the rest area. The permittee is solely responsible for all installation, maintenance, replacement, inspection, access area cleaning, and stocking of vending machines. Vandalism and graffiti on vending machines must be repaired or

removed within fourteen days of written notice by the director. The permittee must inspect and stock vending machines as needed, but at least monthly, to provide adequate service to the public. Vending machines removed for repair or for other reasons must be restored or replaced by the permittee within thirty days. Vending machines in violation of this section or any other applicable law may be removed by the director fourteen days after notice of violation is provided and without liability to the director. Vending machines judged by the director to pose a risk to safety may be removed immediately without liability to the director and without prior notice to the permittee. The director shall retain any removed vending machines for thirty days to allow retrieval by the permittee, after compensation to the director for removal costs. The director may dispose of or sell machines not retrieved within thirty days of removal, but removal costs must be satisfied only to the extent of proceeds received by the director. The director has a cause of action to recover any deficiency, attorneys' fees, and litigation expenses. The director, upon the determination that a rest area must be closed for a period of greater than thirty days, may order the permittee, at the permittee's expense, to remove all vending machines in a manner that does not damage state property, or remove all product and money and place upon the vending machine a prominent notice that all product and money have been removed. Should the director determine that removal of vending machines is necessary to conduct repairs, construction, surveys, or other duties of the department, the permittee, at the permittee's expense, shall remove all vending machines in a manner that does not damage state property, upon fourteen days' notice. The current address and phone number where customer service or business is conducted by the permittee must be legibly and prominently posted upon the vending machine. The director shall cancel the permit should the permittee remove vending machines, except as provided in this section. The cost of any removal must be borne by the permittee. The permittee, at the permittee's own expense, must restore the site the machine formerly occupied to the satisfaction of the director. For purposes of this section, "vending machine" means any device that allows access to a newspaper, magazine, beverage, concession, or other item for public consumption or use. For purposes of this section, "permittee" means any person or organization, including any corporation, partnership, firm, or any other legal entity capable of owning property and transacting business, which has applied for a permit under this chapter. For purposes of this section, "notice" consists of a written communication and must be deemed to have occurred within seventy-two hours of mailing, if mailed within North Dakota, or one hundred twenty hours of mailing, if mailed outside North Dakota. "Notice" to a vendor of the condition of a vending machine also occurs if a period of time greater than the required inspection interval for the vending machines has passed.

When the retail value of labor has not been determined by a purchase in the ordinary course of business, for example when the labor is performed by the owner of the vehicle, the retail value of the labor is presumed to be the product of the repair time, as provided in a generally accepted autobody repair flat rate manual, multiplied by thirty-five dollars.
6. A person who violates this section or rules adopted pursuant to this section is guilty of a class A misdemeanor.

SECTION 2. AMENDMENT. Section 39-05-20.2 of the North Dakota Century Code is amended and reenacted as follows:

39-05-20.2. Issuance of salvage certificate of title. The owner of a vehicle that is damaged in excess of seventy-five percent of its retail value as determined by the national automobile dealers association official used car guide, shall forward the title for that vehicle to the department within ten days and the department shall issue a salvage certificate of title.

If a vehicle for which a salvage certificate of title has been issued is reconstructed, a regular certificate of title may be obtained by completing an application for the certificate. The applicant shall include with the application a certificate of inspection in the form required by the department, the salvage certificate of title, and a five dollar fee. The department shall place on the regular certificate of title and on all subsequent certificates of title issued for the vehicle; the words "previously salvaged" and a notation that damage disclosure information is available from the department. The department may not issue a new certificate unless the vehicle identification number of the vehicle has been inspected and found to conform to the description given in the application or unless other proof of the identity of the vehicle has been provided to the satisfaction of the department.

For purposes of verification, an officer may require the licensee to write the licensee's signature in the presence of the officer. The director may adopt rules, pursuant to chapter 28-32, relating to the manner in which photographs are to be obtained and placed on operator's licenses. The photograph may be produced by digital imaging or other electronic means and is not a public record.

2. a. All applicants holding a valid North Dakota operator's license making application for renewal must be issued a class D license without being subjected to an examination as herein provided.
- b. All applicants, except those holding a valid North Dakota operator's license who will be issued a class D license, applying for issuance of operator licenses must be issued a classified license after having been required to submit to an examination in the type of motor vehicle or combination of vehicles for which license is desired and which license shall authorize the holder to drive the vehicles as provided in section 39-06.2-09, or as follows:

Applicants for a motorcycle operator's license who are under sixteen years of age shall hold an initial learner's permit for at least two months before applying for a class M operator's license, shall have completed an approved motorcycle safety course, and shall hold a valid motorcycle learner's permit at the time of application. Any person under sixteen years of age who holds a permit or license is restricted to the operation of a motorcycle powered with an engine of two hundred fifty cubic centimeters, or less, displacement. Evidence that the applicant has satisfactorily completed a motorcycle safety course which meets the minimum requirements of the motorcycle safety foundation must accompany the application.
3. Any holder of a classified license who drives a motor vehicle otherwise than as permitted by the class of license issued to the holder is deemed to be driving a motor vehicle without being duly licensed under this chapter. The holder of a classified license who desires to obtain a different class license in one of the classes provided by this chapter must exchange or renew the license. The director may adopt rules the director determines are necessary with respect to such renewals or exchanges for the proper administration of this chapter. No class A, B, or C license may be issued to any person under eighteen years of age, except a class A, B, or C type license specially restricted to use for custom harvest purposes must be issued to a person at least sixteen years of age who satisfactorily completes the appropriate examinations.

 5. The director may issue a motorized bicycle operator's permit to an applicant who is at least fourteen years of age. To obtain a permit, the applicant shall pay a fee of ten dollars and take a written examination of the applicant's knowledge of traffic laws and general rules of the road.

If the applicant passes the written examination and the director is satisfied that the applicant has adequate eyesight, the director may issue the applicant a motorized bicycle operator's permit, even if the applicant does not have an operator's license. The permit expires in the same manner as an operator's license. A person who has an operator's license, a temporary permit, an instruction permit, or a motorcycle permit is not required to obtain a motorized bicycle operator's permit.

SECTION 3. AMENDMENT. Section 39-06-19 of the North Dakota Century Code is amended and reenacted as follows:

Upon the recommendation of the court, the director may issue a temporary permit to the licensee under section 39-06.1-11 if the temporary permit is necessary for the licensee to work and the court has determined the licensee is making a good-faith effort to comply with the child support order. Every application for renewal of a license by an applicant must be accompanied by a certificate of examination from either the driver licensing or examining authorities or a physician or an optometrist, licensed in this or another state, containing a statement as to the corrected and uncorrected vision of the applicant. The director shall provide visual examination equipment at each location where a license may be renewed. The initial application for a motor vehicle operator's license may be accompanied by a statement of examination from a licensed physician or an optometrist, stating the corrected and uncorrected vision of the applicant, in lieu of the department examination. Such examination must be within six months of the driver license application. Every person submitting an application and fee for renewal of license one year or more after the expiration of a license, except an applicant whose military service has terminated less than thirty days prior to such application, must be treated as a new driver. The fee for renewal or replacement of an operator's license is ten dollars.

4. Any physician or other medical professional who fails to make a report or who in good faith makes a report, gives an opinion or recommendation pursuant to this section, or participates in any proceeding founded upon this section is immune from any liability, civil or criminal, that might otherwise be incurred, as a result of such report, except for perjury.

any North Dakota resident under twelve years of age who fulfills the requirements of this section, except that the form of verification of the name and the date of birth is in the director's discretion, as is the manner in which the records are kept. A nondriver color photo identification card issued to a resident under twelve years of age expires on the twelfth birthday of that resident. If the person is under the age of twenty-one, the photo must be against the same color background required on a motor vehicle operator's license of an operator under the age of twenty-one years.

SECTION 3. AMENDMENT. Subsections 1, 2, and 3 of section 39-06-07.2 of the North Dakota Century Code are amended and reenacted as follows:

1. The director is authorized to seek professional medical advice from any physician or optometrist authorized to practice in this state, and to use that advice in decisions made by the director in regard to the issuance, renewal, suspension, revocation, or cancellation of driver's licenses pursuant to this chapter. The advice may be received in any manner deemed advisable by the director or the director's authorized agent.
2. In addition to advice sought and received pursuant to subsection 1, the director may consider information and advice received from an individual applicant's or driver's personal physician or optometrist. 3. Any physician or optometrist providing advice to the director or director's authorized agent pursuant to subsection 1 shall incur no liability for any opinion, recommendation, or advice provided.

SECTION 4. AMENDMENT. Section 39-06-27 of the North Dakota Century Code is amended and reenacted as follows:

39-06-27. Suspending licenses upon conviction, suspension, or revocation in another state jurisdiction. The director may suspend or revoke the license of any resident of this state or the privilege of a nonresident to drive a motor vehicle in this state upon receiving notice of the conviction of ~~such~~ that person in a tribal court or in another state of an offense therein which, if committed in this state, would be grounds for the suspension or revocation of the license of an operator. The director may act on a report of a conviction in tribal court received from any tribal law enforcement agency. This section may not be construed as authorizing the assessment of points against a resident driver's record in accordance with chapter 39-06.1, except upon conviction of a resident driver for a criminal offense in a tribal court or in another state which is equivalent to one of those offenses defined in section 39-06.1-05. ~~No~~ A suspension or revocation may not be imposed for convictions for driving under suspension or revocation on an Indian reservation or in another state if a valid North Dakota license or permit was in effect at the time of the violation. For the purposes of this section, originals, photostatic copies, or electronic transmissions of the records of the drivers licensing or other authority of the other jurisdiction are sufficient evidence whether or not they are certified copies.

Upon receipt of a certification that the operating privileges of a resident of this state have been suspended or revoked on an Indian reservation or in any other state pursuant to a law providing for the suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle

accident, under circumstances ~~which~~ that would require the director to suspend a nonresident's operating privileges had the accident occurred in this state, the director shall suspend the license of ~~such~~ the resident if the resident was the driver of a motor vehicle involved in ~~such~~ the accident. ~~Such~~ The suspension continues until ~~such~~ the resident furnishes evidence satisfactory to the director of the person's compliance with the laws of ~~such~~ the Indian reservation or the other state relating to the deposit of security or payment of a judgment arising out of a motor vehicle accident, to the extent that ~~such~~ compliance would be required if the accident had occurred in this state.

SECTION 5. AMENDMENT. Subsections 4, 6, and 7 of section 39-06-32 of the North Dakota Century Code are amended and reenacted as follows:

4. Refusal to submit to an implied consent chemical test on an Indian reservation or in another state. For purposes of this subsection the specific requirements for establishing a refusal used on the Indian reservation or in the other state may not be considered, and photostatic copies of the records of the other jurisdiction's drivers licensing authority are sufficient evidence of the refusal whether or not those copies are certified. The suspension must be for the same length of time as the revocation in section 39-20-04. If the refusal arose out of an arrest or stop of a person while operating a commercial motor vehicle, the period of suspension must be the same as the period of revocation provided in section 39-06.2-10.
6. Failure, as shown by the certificate of the court, to appear in court or post and forfeit bond after signing a promise to appear, in violation of section 39-06.1-04, ~~or~~ willful violation of a written promise to appear in court, in violation of section 39-07-08, or violation of equivalent ordinances or laws in another jurisdiction. Upon resolution by the operator of the underlying cause for a suspension under this subsection, as shown by the certificate of the court, the director shall record the suspension separately on the driving record. This separate record is not available to the public.
7. An administrative decision on an Indian reservation or in another state that the licensee's privilege to drive on that Indian reservation or in that state is suspended or revoked because of a violation of that Indian reservation's or state's law forbidding motor vehicle operation with an alcohol concentration of at least ten one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, or because of a violation of that Indian reservation's or state's law forbidding the driving or being in actual physical control of a commercial motor vehicle while having an alcohol concentration of at least four one-hundredths of one percent by weight. The specific requirements for establishing the violation on the Indian reservation or in the other state may not be considered and certified copies of the records of the Indian reservation's or other state's drivers licensing authority are sufficient evidence of the violation. The suspension must be for the same duration as the suspension in section 39-20-04.1, if the violation does not involve a commercial motor vehicle. If the violation involves a commercial motor vehicle, the period of suspension must be the same as the period of suspension provided in section 39-06.2-10.

²⁴⁹ **SECTION 6. AMENDMENT.** Section 39-08-21 of the North Dakota Century Code is amended and reenacted as follows:

39-08-21. Medical qualifications exemption for intrastate drivers. Notwithstanding the adoption by the superintendent of the state highway patrol of federal motor carrier safety regulations pursuant to subsection 2 of section 39-21-46, the provisions of 49 CFR 391.41(b)(1)-(11) do not apply to a person who is qualified through a state medical waiver program to operate a commercial motor vehicle within the boundaries of this state or a person who:

1. Is otherwise qualified to operate a commercial motor vehicle and who possesses, on March 26, 1991, a class 1 license issued pursuant to section 39-06-14, as that section existed on June 30, 1989, or a class A license issued pursuant to chapter 39-06.2;
2. Operates a commercial motor vehicle only within the boundaries of this state;

4. Has a medical or physical condition which:
 - a. Would prevent such person from operating a commercial motor vehicle under federal motor carrier safety regulations contained in 49 CFR, Chapter III, subchapter B;
 - b. Existed on March 26, 1991, or at the time of the first required physical examination after that date; and
 - c. An examining physician has determined has not substantially worsened since March 26, 1991, or the time of the first required physical examination after that date.

²⁵⁰ **SECTION 7. AMENDMENT.** Subsection 1 of section 39-20-05 of the North Dakota Century Code is amended and reenacted as follows:

1. Before issuing an order of suspension, revocation, or denial under section 39-20-04 or 39-20-04.1, the director shall afford that person an opportunity for a hearing if the person mails a request for the hearing to the director within ten days after the date of issuance of the temporary operator's permit. The hearing must be held within ~~twenty-five~~ thirty days after the date of issuance of the temporary operator's permit; ~~but the hearing officer may extend the hearing to within thirty days after the issuance of the temporary operator's permit to accommodate the efficient scheduling of hearings.~~ If the hearing date is extended beyond

²⁴⁹ Section 39-08-21 was also amended by section 1 of House Bill No. 1343, chapter 348.

²⁵⁰ Section 39-20-05 was also amended by section 62 of House Bill No. 1275, chapter 278.

~~twenty five~~ thirty days from the issuance of the temporary operator's permit, the director shall provide extended temporary operator's privileges to the date of the hearing. If no hearing is requested within the time limits in this section, and no affidavit is submitted within the time limits under subsection 2 of section 39-20-04, the expiration of the temporary operator's permit serves as the director's official notification to the person of the revocation, suspension, or denial of driving privileges in this state.

AN ACT to create and enact a new section to chapter 39-06 of the North Dakota Century Code, relating to an operator's license for a person under eighteen years of age; and to amend and reenact sections 39-06-04, 39-06-17, and 39-06.1-08 of the North Dakota Century Code, relating to operator's permits and licenses for minors.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 39-06-04 of the North Dakota Century Code is amended and reenacted as follows:

39-06-04. Instruction permit. Any person who is at least fourteen years of age may apply to the director for an instruction permit. The director may issue to the applicant an instruction permit ~~which~~ that entitles the applicant while having such permit in the permittee's immediate possession to drive a motor vehicle upon the public highways for a period of one year when accompanied by a licensed operator who holds a license corresponding to the vehicle the permittee operates ~~and, who is at least eighteen years of age, who has had at least one year~~ three years of driving experience, and who is occupying a seat beside the driver. An individual other than the supervising driver and the permitholder may not be in the front seat unless the vehicle has only a front seat, in which case, the supervising driver must be seated next to the permitholder. Persons holding an instruction permit for the operation of a motorcycle shall operate the motorcycle only during hours when the use of headlights is not required pursuant to section 39-21-01, and may not carry or transport any passenger. Any instruction permit may be renewed or a new permit issued for an additional period. A person who is not yet eighteen years of age is not eligible for a license until that person has had an instruction permit issued for at least ~~three~~ six months. The director may recognize an instruction permit issued by another jurisdiction in computing the ~~three-month~~ six-month instructional period.

SECTION 2. AMENDMENT. Section 39-06-17 of the North Dakota Century Code is amended and reenacted as follows:

39-06-17. Restricted licenses - Penalty for violation.

1. The director, upon issuing an operator's license or a temporary restricted operator's license pursuant to section 39-06.1-11, has authority to impose restrictions suitable to the licensee's driving ability with respect to the type of or special mechanical control devices required on a motor vehicle which the licensee may operate or such other restrictions applicable to the licensee as the director may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee.

2. The director may either issue a special restricted license or may set forth such restrictions upon the usual license form. The director shall likewise restrict licenses pursuant to the requirements of section 39-16.1-09.
3. A restricted operator's license or permit to operate the parent's or guardian's automobile, or an automobile which is equipped with dual controls and while accompanied by a qualified instructor, may be issued to any child, who is at least fourteen years of age, and otherwise qualified, upon the written recommendation of the parent or guardian. No operator's license may be issued until the child, accompanied by the parent or guardian, appears in person and satisfies the director that:
 - a. The child is at least fourteen years of age.
 - b. The child is qualified to operate an automobile safely.
 - c. It is necessary for the child to drive the parent's or guardian's automobile without being accompanied by an adult.
 - d. The child has ~~completed~~:
 - (1) Completed a course of classroom instruction and a course of behind-the-wheel instruction acceptable to the director; or, ~~in the alternative, has successfully~~
 - (2) Successfully completed a course at an approved commercial driver training school.

The parent or guardian at all times is responsible for any and all damages growing out of the negligent operation of a motor vehicle by any such child. The provisions of this subsection do not authorize the child to drive a commercial truck, motorbus, or taxicab except the holder of a class D license, fourteen or fifteen years of age, may drive a farm motor vehicle having a gross weight of fifty thousand pounds [22679.62 kilograms] when used to transport agricultural products, farm machinery, or farm supplies to or from a farm when so operated within one hundred fifty miles [241.40 kilometers] of the driver's farm.

4. The director may upon receiving satisfactory evidence of any violation of the restrictions of such license suspend or revoke the same but the licensee is entitled to a hearing as upon a suspension or revocation under this chapter.
5. It is a class B misdemeanor for any person to operate a motor vehicle in any manner in violation of the restrictions imposed in a restricted license issued to that person other than restrictions imposed under subsection 6. If the restricted license was issued under section 39-06.1-11 and the underlying suspension was imposed for a violation of section 39-08-01 or equivalent ordinance, or is governed by chapter 39-20, punishment is as provided in subsection 2 of section 39-06-42 and upon receiving notice of the conviction the director shall revoke, without opportunity for hearing, the licensee's restricted license and shall extend the underlying suspension for a like period of not more than one year. The director may not issue a restricted license for the extended period of suspension imposed under this subsection. If the conviction referred to in this section is reversed by an appellate court, the director shall restore the

person to the status held by the person prior to the conviction, including restoration of driving privileges if appropriate.

AN ACT to amend and reenact sections 39-06-35, 39-06-36, and 39-08-20 of the North Dakota Century Code, relating to revoked and suspended licenses and driving without liability insurance.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 39-06-35 of the North Dakota Century Code is amended and reenacted as follows:

39-06-35. Period of suspension. When the period of suspension imposed under this title ceases, the operator's license or driving privilege that has been suspended may not be returned or reinstated, and remains under suspension, until the operator pays to the director a reinstatement fee of ~~twenty five~~ fifty dollars, or ~~fifty one hundred~~ dollars if the suspension was the result of a violation under section 39-08-01 or chapter 39-20, and, if applicable, until ~~the provisions of compliance with subsection 3.1 of section 39-06.1-10 have been complied with.~~ Upon payment of the reinstatement fee the license must be returned to the operator. A reinstatement fee is not required for a license to be returned to the operator if the return of the license is due to the findings of a hearing, reexamination of hearing, or court or judicial review under chapter 39-06, 39-06.1, or 39-20.

SECTION 2. AMENDMENT. Section 39-06-36 of the North Dakota Century Code is amended and reenacted as follows:

39-06-36. Restoration of revoked licenses. Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked is not entitled to have such license or privilege renewed or restored unless the revocation was for a cause which has been removed, except that after the expiration of the revocation period such person may make application for a new license as provided by law, but the director may not then issue a new license unless and until the director is satisfied after investigation of the individual's driving records, driving habits, and driving ability of such person that it will be safe to grant the privilege of driving a motor vehicle on the public highways. A person whose license or privilege to drive a motor vehicle has been revoked must pay to the director a revocation reinstatement fee of ~~twenty five~~ fifty dollars, or ~~fifty one hundred~~ dollars if the revocation was imposed for violation of subsection 5 of section 39-06-17, section 39-06-31, 39-06-43, or 39-20-04, in addition to any license renewal fee, for issuance of a new license. Until the reinstatement fee is paid the license and privilege to drive a motor vehicle remain under revocation. A reinstatement fee is not required if a revoked license is reinstated due to the findings of a hearing, reexamination of hearing, or court or judicial review as provided under chapter 39-06, 39-06.1, or 39-20.

SECTION 3. AMENDMENT. Section 39-08-20 of the North Dakota Century Code is amended and reenacted as follows:

39-08-20. Driving without liability insurance prohibited - Penalty.

1. A person may not drive, or the owner may not cause or knowingly permit to be driven, a motor vehicle in this state without a valid policy of liability insurance in effect in order to respond in damages for liability arising out of the ownership, maintenance, or use of that motor vehicle in the amount required by chapter 39-16.1. Upon being stopped by a law enforcement officer for the purpose of enforcing or investigating the possible violation of an ordinance or state law or during the investigation of an accident, the person driving the motor vehicle shall provide to the officer upon request satisfactory evidence of the policy required under this section. If unable to comply with the request, that person may be charged with a violation of this section if that person fails to submit ~~such~~ satisfactory evidence of the policy to the officer or the officer's agency within twenty days of the date of the request. If that person produces a valid policy of liability insurance in effect at the time of violation of this section to the officer, officer's agency, or a court, that person may not be convicted or assessed any court costs for violation of this section. If the driver is not an owner of the motor vehicle, the driver does not violate this section if the driver provides the court with evidence identifying the owner of the motor vehicle and describing circumstances under which the owner caused or permitted the driver to drive the motor vehicle. Violation of this section is a class B misdemeanor and the sentence imposed must include a fine of at least one hundred fifty dollars which may not be suspended. A person convicted for a second or subsequent violation of driving without liability insurance within an eighteen-month period must be fined at least three hundred dollars which may not be suspended.
2. Upon conviction for a violation of this section or equivalent ordinance, the person who has been convicted shall provide proof of motor vehicle liability insurance to the department in the form of a written or electronically transmitted certificate from an insurance carrier authorized to do business in this state. This proof must be provided for a period of three years and kept on file with the department. If the person fails to provide this information, the department shall suspend that person's driving privileges and may not issue or renew that person's operator's license unless that person provides proof of insurance.
3. A person who has been convicted for violation of this section or equivalent ordinance shall surrender that person's operator's license and purchase a duplicate operator's license with a notation requiring that person to keep proof of liability insurance on file with the department. The fee for this license is fifty dollars and the fee to remove this notation is fifty dollars.

4. When an insurance carrier has certified a motor vehicle liability policy, the insurance carrier shall notify the director no later than ten days after cancellation or termination of the certified insurance policy by filing a notice of cancellation or termination of the certified insurance policy; except that a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any motor vehicle designated in both certificates.

FAILURE TO YIELD TO EMERGENCY VEHICLE

AN ACT to create and enact section 39-10-26.2 of the North Dakota Century Code, relating to the presumption of owner violation for failing to yield right of way to an emergency vehicle; and to amend and reenact subsection 2 of section 39-06.1-06 of the North Dakota Century Code, relating to the fees for noncriminal traffic violations.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁵¹ **SECTION 1. AMENDMENT.** Subsection 2 of section 39-06.1-06 of the North Dakota Century Code is amended and reenacted as follows:

2. For a moving violation as defined in section 39-06.1-09, a fee of twenty dollars, except for:
 - a. A violation of section 39-10-26, 39-10-26.2, 39-10-41, 39-10-42, 39-10-46, or 39-10-46.1, a fee of fifty dollars.
 - b. A violation of section 39-10-05 involving failure to yield to a pedestrian or subsection 1 of section 39-10-28, a fee of fifty dollars.

SECTION 2. Section 39-10-26.2 of the North Dakota Century Code is created and enacted as follows:

39-10-26.2. Permitting use of vehicle to violate section 39-10-26 prohibited - Presumption of permission - Defense - Dual prosecution prohibited. The registered owner of a motor vehicle may not permit that motor vehicle to be operated in violation of section 39-10-26. If a motor vehicle is seen violating section 39-10-26, it is a disputable presumption that the registered owner of the motor vehicle permitted that violation. It is a defense to a charge of violating this section that the registered owner of the vehicle was not operating the vehicle, if that registered owner identifies the person authorized by that owner to operate the motor vehicle at the time of the violation of section 39-10-26, or if that motor vehicle had been taken without the registered owner's permission. A person may not be charged both with violating this section and with violating section 39-10-26. Violation of this section is not a lesser included offense of violation of section 39-10-26.

TRAFFIC CONTROL SIGNALS

AN ACT to amend and reenact sections 39-10-05, 39-10-06, and 39-10-07 of the North Dakota Century Code, relating to traffic control signals.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 39-10-05 of the North Dakota Century Code is amended and reenacted as follows:

39-10-05. Traffic-control signal legend. Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors green, red, and yellow may be used, except for special pedestrian signals carrying a word or legend, and said lights must indicate and apply to drivers of vehicles and pedestrians as follows:

1. ~~Green indication~~ indications:

- a. Vehicular traffic facing a circular green ~~signal~~ indication may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
- b. Vehicular traffic facing a green arrow ~~signal~~ indication, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.
- c. Unless otherwise directed by a pedestrian-control signal as provided for in section 39-10-06, pedestrians facing any green ~~signal~~ indication, except when the sole green ~~signal~~ indication is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

2. Steady yellow indication:

- a. Vehicular traffic facing a steady circular yellow ~~signal~~ or yellow arrow indication is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic may not enter the intersection.

- b. Pedestrians facing a steady circular yellow signal or yellow arrow indication, unless otherwise directed by a pedestrian-control signal as provided for in section 39-10-06, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian may then start to cross the roadway.
3. Steady red indication:
- a. Vehicular traffic facing a steady circular red signal indication alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and shall remain standing until an indication to proceed is shown, except as provided for in subdivision ~~b~~ c.
- b. Vehicular traffic facing a steady red arrow indication may not enter the intersection to make the movement indicated by the arrow and, unless entering the intersection to make a movement permitted by another indication, must stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and must remain standing until an indication permitting the movement indicated by the red arrow is shown except as provided for in subdivision c.
- c. Except when a sign is in place prohibiting a turn, vehicular traffic facing a any steady red signal indication may cautiously enter the intersection to turn right, or to turn left from a one-way street into a one-way street, after stopping as required by ~~subdivision~~ subdivisions a and b. Such vehicular traffic shall yield the right of way to pedestrians lawfully within adjacent crosswalk and to other traffic lawfully using the intersection.
- ~~e.~~ d. Unless otherwise directed by a pedestrian-control signal as provided for in section 39-10-06, pedestrians facing a steady circular red signal or red arrow indication alone may not enter the roadway.
4. In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section are applicable, except as to those provisions which by their nature can have no application. Any stop required must be made at a sign or marking on the pavement indicating where the stop must be made, but in the absence of any such sign or marking the stop must be made at the signal.

SECTION 2. AMENDMENT. Section 39-10-06 of the North Dakota Century Code is amended and reenacted as follows:

39-10-06. Pedestrian control signals. Whenever special pedestrian control signals exhibiting the words "Walk" or "Don't Walk" or the symbols of a walking person, symbolizing "Walk", or an upraised hand, symbolizing "Don't Walk" are in place, such signals must indicate as follows:

1. "Walk": Pedestrians facing such signal indication may proceed across the roadway in the direction of the signal indication and must be given the right of way by the drivers of all vehicles.

2. "Don't Walk" (steadily illuminated): ~~No~~ A pedestrian may not start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed crossing on the walk signal shall proceed to a sidewalk or safety island while the "Don't Walk" signal is showing indication.
3. "Don't Walk" (flashing): A pedestrian may not start to cross the roadway in the direction of the indication, but any pedestrian who has partially completed a crossing during the "Walk" signal must proceed in the direction of the indication to a sidewalk or safety island.

SECTION 3. AMENDMENT. Section 39-10-07 of the North Dakota Century Code is amended and reenacted as follows:

39-10-07. Flashing signals.

1. Whenever an illuminated flashing red or yellow light is used in a traffic signal or with a traffic sign, it requires obedience by vehicular traffic as follows:

When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, or, if none, before entering the crosswalk on the near side of the intersection, or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it, and the right to proceed is subject to the rules applicable after making a stop at a stop sign.
 - b. Flashing yellow (caution ~~signal~~ indication). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such ~~signal~~ indication only with caution.
 - c. Flashing red arrow and flashing yellow arrow indications have the same meaning as the corresponding flashing circular indications, except that they apply only to drivers of vehicles intending to make the movement indicated by the arrow.

EXTRATERRITORIAL ZONING

AN ACT to amend and reenact section 40-47-01.1 of the North Dakota Century Code, relating to extraterritorial zoning.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 40-47-01.1 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

40-47-01.1. Extraterritorial zoning - Mediation - Determination by administrative law judge.

1. A city may, by ordinance, extend the application of a city's zoning regulations to any quarter quarter section of unincorporated territory if a majority of the quarter quarter section is located within the following distance of the corporate limits of the city:
 - a. One mile [1.61 kilometers] if the city has a population of less than five thousand.
 - b. Two miles [3.22 kilometers] if the city has a population of five thousand or more, but less than twenty-five thousand.
 - c. Four miles [6.44 kilometers] if the city has a population of twenty-five thousand or more.
2. If a quarter quarter section line divides a platted lot and the majority of that platted lot lies within the quarter quarter section, a city may apply its extraterritorial zoning authority to the remainder of that platted lot. If the majority of the platted lot lies outside the quarter quarter section, the city may not apply its extraterritorial zoning authority to any of that platted lot.
3. A city exercising its extraterritorial zoning authority shall hold a zoning transition meeting if the territory to be extraterritorially zoned is currently zoned. The city's zoning or planning commission shall provide at least fourteen days' notice of the meeting to the zoning board or boards of all political subdivisions losing their partial zoning authority. The purpose of the zoning transition meeting is to review existing zoning rules, regulations, and restrictions currently in place in the territory to be extraterritorially zoned and to plan for an orderly transition. The zoning transition meeting must take place before the city's adoption of an ordinance exercising extraterritorial zoning.
4. If two or more cities have boundaries at a distance where there is an overlap of extraterritorial zoning authority under this section, the governing bodies of the cities may enter into an agreement regarding the

extraterritorial zoning authority of each city. The agreement must be for a specific term and is binding upon the cities unless the governing bodies of the cities agree to amend or rescind the agreement or unless determined otherwise by an administrative law judge in accordance with this chapter. If a dispute arises concerning the extraterritorial zoning authority of a city and the governing bodies of the cities involved fail to resolve the dispute, the dispute must be submitted to a committee for mediation. The committee must be comprised of one member appointed by the governor, one member of the governing body of each city, and one member of the planning commission of each city who resides outside the corporate city limits. The governor's appointee shall arrange and preside over the meeting and act as mediator at the meeting. A meeting may be continued until the dispute has been resolved or until the mediator determines that continued mediation is no longer worthwhile.

4. 5. If the mediation committee is unable to resolve the dispute to the satisfaction of the governing bodies of all the cities involved, the governing body of any of the cities may petition the office of administrative hearings to appoint an administrative law judge to determine the extraterritorial zoning authority of the cities in the disputed area. A hearing may not be held until after at least two weeks' written notice has been given to the governing bodies of the cities involved in the dispute. At the hearing, the governor's appointee who mediated the meetings under subsection 3 shall provide information to the administrative law judge on the dispute between the cities involved and any proposed resolutions or recommendations made by a majority of the committee members. Any resident of, or person owning property in, a city involved in the dispute or the unincorporated territory that is the subject of the proposed extraterritorial zoning, a representative of such a resident or property owner, and any representative of a city involved, may appear at the hearing and present evidence on any matter to be determined by the administrative law judge. A decision by the administrative law judge is binding upon all the cities involved in the dispute and remains effective until the governing bodies of the cities agree to a change in the zoning authority of the cities. The governing body of a city may request a review of a decision of an administrative law judge due to changed circumstances at any time ten years after the decision has become final. An administrative law judge shall consider the following factors in making a decision under this subsection:
- a. The proportional extraterritorial zoning authority of the cities involved in the dispute;
 - b. The proximity of the land in dispute to the corporate limits of each city involved;
 - c. The proximity of the land in dispute to developed property in the cities involved;
 - d. Whether any of the cities has exercised extraterritorial zoning authority over the disputed land;
 - e. Whether natural boundaries such as rivers, lakes, highways, or other physical characteristics affecting the land are present;
 - f. The growth pattern of the cities involved in the dispute; and

- g. Any other factor determined to be relevant by the administrative law judge.

(Legislative Council)
(Taxation Committee)

PROPERTY TAX EXEMPTION DECISIONS FOR NEW INDUSTRIES

AN ACT to amend and reenact section 40-57.1-03 of the North Dakota Century Code, relating to inclusion of school board and township representatives in negotiations and deliberations on granting property tax exemptions or payments in lieu of taxes for new industries.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁶⁵ **SECTION 1. AMENDMENT.** Section 40-57.1-03 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

40-57.1-03. Municipality's authority to grant tax exemption or payments in lieu of taxes - Notice to competitors - Limitations. After negotiation with a potential project operator, a municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements used in or necessary to the operation of a project for a period not exceeding five years from the date of commencement of project operations. A municipality may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations.

In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project upon which initial construction is begun after June 30, 1994. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.

By November first of each year, the municipality that granted the option to make payments in lieu of taxes shall certify to the county auditor the amount of

²⁶⁵ Section 40-57.1-03 was also amended by section 1 of House Bill No. 1456, chapter 497.

payments in lieu of taxes due under this section in the following year. After receiving the statement from the municipality, the county auditor shall certify the payments in lieu of taxes to the county treasurer for collection at the time when, and in the manner in which, ad valorem taxes must be certified. Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.

Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.

During the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes under this chapter, a municipality shall include, as nonvoting ex officio members of its governing body, a representative appointed by the school board of each school district affected by the proposed action and a representative appointed by the board of township supervisors of each township affected by the proposed action.

SECTION 2. Eligibility - Local zone authority designation. Any incorporated city may apply to the office of intergovernmental assistance to designate a portion of the city as a renaissance zone. Any individual, partnership, limited partnership, limited liability company, trust, or corporation may apply for a tax credit or exemption under sections 4 through 7 of this Act. The governing body of a city may designate a local zone authority to implement a development plan on behalf of the city.

SECTION 3. Renaissance zones.

1. A city may apply to the office of intergovernmental assistance to designate a portion of that city as a renaissance zone if the following criteria are met:
 - a. The geographic area proposed for the renaissance zone is located wholly within the boundaries of the city submitting the application.
 - b. The application includes a development plan.

 - c. Whether the development plan is creative and innovative in comparison to other applications.
 - d. Public and private commitment to and other resources available for the proposed renaissance zone, including the provisions for a renaissance fund corporation.
 - e. How renaissance zone designation would relate to a broader plan for the community as a whole.

 - g. The strategies for the promotion, development, and management of the zone, including the use of a local zone authority if designated.
 - h. Any other information required by the office.
4. The office of intergovernmental assistance may not designate a portion of a city as a renaissance zone unless, as a part of the application, the city provides a resolution from the governing body of the city that states if the renaissance zone designation is granted, persons and property within the renaissance zone are exempt from taxes as provided in sections 4 through 7 of this Act.
5. A city may not propose or be part of more than one renaissance zone.
6. A parcel of property may be exempted from property taxes under section 5 of this Act only once, but during the five taxable years of eligibility for that exemption, the property tax exemption transfers with the transfer of the property to a qualifying user. The ownership or lease

of, or investment in, a parcel of property may qualify for exemption or credit under section 4 of this Act only once, but during the five taxable years of eligibility for that exemption or credit, the exemption or credit under section 4 of this Act transfers with the transfer of the property to a qualified user and with respect to the year in which the transfer is made must be prorated for use of the property during that year.

SECTION 4. Income tax exemptions.

1. An individual taxpayer who purchases single-family residential property for the individual's primary place of residence as part of a zone project is exempt from up to ten thousand dollars of personal income tax liability as determined under section 57-38-29 or 57-38-30.3 for five taxable years beginning with the date of occupancy.
2. A business that purchases or leases property for any business purpose as part of a zone project is exempt from income tax for five taxable years beginning in the year of the investment or lease for income derived from the business locations within the zone.
3. An individual, partnership, limited partnership, limited liability company, trust, or corporation that purchases residential or commercial property as an investment as part of a zone project is exempt from any income tax for five taxable years resulting from income earned from that investment.
4. The exemptions provided by this section do not eliminate any duty to file a return or to report income as required under chapters 57-35.3 or 57-38.

SECTION 5. Property tax exemptions.

1. A municipality may grant a partial or complete exemption from ad valorem taxation on single-family residential property, exclusive of the land on which it is situated, located in a zone project if the property was purchased by an individual for the individual's primary place of residence. An exemption granted under this subsection may not extend beyond five taxable years following the date of acquisition.
2. A municipality may grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements purchased by a business for any business purpose, excluding investment, as part of a zone project. An exemption granted under this subsection may not extend beyond five taxable years beginning in the year of the investment.
3. A municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements to residential or commercial property located in a zone project if the property was purchased solely for investment purposes. An exemption granted under this subsection may not extend beyond five taxable years following the date of acquisition.

SECTION 6. Historic preservation and renovation tax credit. A credit against state tax liability as determined under sections 57-35.3-03, 57-38-29, 57-38-30, and 57-38-30.3 is allowed for investments in the historic preservation or

renovation of property within the renaissance zone if the investment is made between January 1, 2000, and December 31, 2004. The amount of the credit is fifty percent of the amount invested during the taxable year. Any excess credit may be carried forward for a period of up to five taxable years from the date of the investment.

SECTION 7. Renaissance fund corporation - Exemption from taxation.

1. Each city with a designated renaissance zone may establish a renaissance fund corporation, if the provisions for such a corporation are clearly established in the development plan and approved with the plan. The renaissance fund corporation may be a for-profit subsidiary of the local authority if one is designated.
2. The purpose of a renaissance fund corporation is solely to raise funds to be used to make investments in zone projects, and to provide financing to enterprise zone projects in a manner that will encourage capital investment in downtowns and central portions of cities, encourage the establishment or expansion of commercial businesses in downtowns and central portions of cities, and encourage the purchase of homes and encourage residency in the downtowns and central portions of cities.
3. A renaissance fund corporation may provide financing to zone projects, including projects undertaken by individuals, partnerships, limited partnerships, limited liability companies, trusts, corporations, nonprofit organizations, and public entities. The financing may include any combination of equity investments, loans, guarantees, and commitments for financing. The amount of financing is not limited by this Act.
4. A renaissance fund corporation is exempt from any tax imposed by chapters 57-35.3 or 57-38. A corporation or financial institution entitled to the exemption provided by this subsection must file required returns and report income to the tax commissioner as required by the provisions of those chapters as if the exemption did not exist. If an employer, this subsection does not exempt a renaissance fund corporation from complying with the income tax withholding laws.
5. A credit against state tax liability as determined under sections 57-35.3-03, 57-38-29, 57-38-30, or 57-38-30.3 is allowed for investments in a renaissance fund corporation. The amount of the credit is fifty percent of the amount invested in the renaissance fund corporation during the taxable year. Any amount of credit which exceeds a taxpayer's tax liability for the taxable year may be carried forward for up to five taxable years after the taxable year in which the investment was made.
6. The total amount of credits allowed under this section may not exceed, in the aggregate, two million five hundred thousand dollars for all taxpayers in all taxable years.
7. Income to a renaissance fund corporation derived from the sale or refinancing of zone properties financed wholly or in part by the corporation may be dispersed as annual dividends equal to the income, minus ten percent, derived from all sources and proportional to the investment. In the event of a loss to the fund resulting in a temporary diminishment of the fund below the original principal amount, no annual dividend may be paid until the fund is restored.

8. Income to a renaissance fund corporation derived from interest or the temporary investment of its funds in certificates of deposit, bonds, treasury bills, or securities may be used for administration.
9. If an investment in a renaissance fund corporation which is the basis for a credit under this section is redeemed by the investor within ten years of the date it is purchased, the credit provided by this section for the investment must be disallowed, and any credit previously claimed and allowed with respect to the investment must be paid to the tax commissioner with the appropriate return of the taxpayer covering the period in which the redemption occurred. When payments are made to the tax commissioner under this section, the amount collected must be handled in the same manner as if no credit had been allowed.
10. A renaissance fund corporation may invest in any housing, commercial, or infrastructure project in a zone project.
11. Each petition for investment must include a plan for sale or refinancing that results in proceeds equal to or in excess of the proportional investment made by the renaissance fund corporation.

SECTION 8. Contributions - Use. A local zone authority shall use contributions received under sections 4, 5, 6, and 7 of this Act for the support of the renaissance zone, including promotion, development, and management of the zone.

SECTION 9. Rules and administration - Income tax secrecy exception. The tax commissioner shall administer sections 1 through 10 of this Act with respect to an income tax exemption or credit and has the same powers as provided under section 57-38-56 for purposes of sections 1 through 10 of this Act. The office of intergovernmental assistance, in cooperation with the tax commissioner, shall issue forms to a taxpayer who may be eligible for the income tax exemption or tax credit sufficient for the tax commissioner to monitor the use of any exemptions or credits received by a taxpayer. The secrecy provisions of section 57-38-57 do not apply to exemptions or credits received by taxpayers under sections 4, 6, and 7 of this Act, but only when a local zone authority inquires of the tax commissioner about exemptions or credits claimed under sections 4, 6, and 7 of this Act with regard to that local zone authority or to the extent necessary for the tax commissioner to administer the tax exemptions or credits.

SECTION 10. Pass-through of tax exemption or credit. A partnership, subchapter S corporation, limited partnership, limited liability company or any other pass-through entity that purchases or leases property in a renaissance zone for any business purpose, invests in a historic preservation or renovation of property within a renaissance zone, or invests in a renaissance fund corporation must be considered to be the taxpayer for purposes of any investment limitations in sections 4, 6, and 7 of this Act, and the amount of the exemption or credit allowed with respect to the entity's investments must be determined at the pass-through entity level. The amount of the total exemption or credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the pass-through entity.

²⁶⁶ **SECTION 11.** A new subsection to section 57-38-30.3 of the 1997 Supplement to the North Dakota Century Code is created and enacted as follows:

A taxpayer filing a return under this section is entitled to the exemptions or credits provided under sections 4, 6, and 7 of this Act.

The application must contain a statement that the applicant desires the issuance of a license under this chapter, and must specify the class of license sought. No sooner than ~~ten~~ twenty days after sending written notice to a contractor at the contractor's last known address, the registrar shall use procedures of chapter 28-32 to revoke the license of any contractor who fails to:

43-07-09. Duty of registrar - Expiration of license. Within fifteen days from the date of application, the registrar may investigate and determine each applicant's fitness to act in the capacity of contractor as defined in this chapter, and no license may be issued to such applicant until the registrar receives all documentation necessary to obtain a license and the appropriate fee. The license issued on an original application entitles the licensee to act as a contractor within this state, subject to the limitations of such license, until the expiration of the then current fiscal year ending March first, except that an initial license issued to a licensee in January or February is valid until March first of the subsequent year.

SECTION 3. AMENDMENT. Section 43-07-10 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

43-07-10. Renewal of license - Time requirements - Invalidity of license for failure to renew. Any license issued under this chapter may be renewed for each successive fiscal year by obtaining from the registrar a certificate of renewal. To obtain a certificate of renewal, the licensee shall file with the registrar an application, which includes a listing of each project, contract, or subcontract completed by the licensee during the preceding calendar year in this state over the amount of ten thousand dollars, the nature of the work of each project, contract, or subcontract, and, if a performance bond was required, the name and address of the corporation, limited liability company, or other person who issued the bond. The registrar shall within a reasonable time forward a copy of the list to the state tax commissioner. The applicant shall include with the application a copy of a certificate of insurance indicating liability coverage as proof that the applicant has secured liability insurance unless the registrar has a current valid certificate of insurance on file, and a certification that the applicant has submitted all payroll taxes including North Dakota income tax, workers' compensation premiums, and unemployment insurance premiums due at the time of renewal, which documents need not be notarized. The application for a certificate of renewal must be made to the registrar on or before the first day of March of each year. At the time of filing the application for a certificate of renewal, the applicant shall pay to the registrar a renewal fee equal to twenty percent of the license fee established in section 43-07-07. If any contractor applies for a renewal under a class different from the license previously issued, the new class license may be issued upon the payment of the fee required for the issuance of the license of the class applied for. If any contractor fails to file an application for a certificate of renewal by the March first deadline, the contractor's license is not in good standing and the contractor must be deemed to be unlicensed within the meaning of sections 43-07-02 and 43-07-18. Within sixty days after March first, the contractor must be notified by mail that the contractor's license is not in good standing. The contractor then has until June first to renew by paying a penalty fee of seventy-five percent of the renewal fee, filing an application for a certificate of renewal, and paying the renewal fee. A contractor who applies for a certificate of renewal before or within ninety days of the filing deadline is not subject to the investigation authorized in section 43-07-09. After the June first deadline any licenses not renewed are revoked. Any application for a certificate of renewal must be fully completed within sixty days of the date the application is received by the registrar or it will be returned to the contractor who will then be subject to the provisions of section 43-07-09.

SECTION 4. AMENDMENT. Section 43-07-17 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

43-07-18. Penalty. Any person acting in the capacity of a contractor within the meaning of this chapter without a license as herein provided is guilty of a class B misdemeanor. Whether a person is subjected to criminal prosecution under this section, and in addition to the license fee that may be assessed when the person makes application for a license, the person may be assessed a civil penalty by the registrar, following written notice to the person of an intent to assess the penalty, in an amount not to exceed three times the amount set forth in section 43-07-07. Any civil penalty must be assessed and collected before a person is issued a license. The assessment of a civil penalty may be appealed in the same manner as appeals under section 43-07-04, but only on the basis that the registrar's administrative determination that the person acted as a contractor when not licensed as a contractor was clearly erroneous.

²⁶⁷ **SECTION 6. AMENDMENT.** Section 43-07-19 of the North Dakota Century Code is amended and reenacted as follows:

Unless the governing body of a political subdivision has submitted to the qualified electors of that political subdivision the question of whether to impose a fee other than a fee for management costs and a majority of the voters approved the fee, a political subdivision may not impose after December 31, 1998, any fee to recover from a telecommunications company for the use of its right

of way, other than a fee for its management costs. If requested by a political subdivision, in order to accomplish a necessary public improvement on the right of way, a telecommunications company promptly shall remove its facilities from the public right of way or shall relocate or adjust its facilities within the public right of way at no cost to the political subdivision. Necessary public improvements are limited to construction and maintenance activities directly related to improved transportation and safety. A political subdivision may recover from a telecommunications company only those management costs caused by the telecommunications company activity in the public right of way. A fee or other obligation under this section must be imposed on a competitively neutral basis. When a political subdivision's management costs cannot be attributed to only one entity, those costs must be allocated among all users of the public rights of way, including the political subdivision itself. The allocation must reflect proportionately the costs incurred by the political subdivision as a result of the various types of uses of the public right of way. This section does not prohibit the collection of a franchise fee as permitted in section 49-21-26.

SECTION 3. Section 49-21-24 of the North Dakota Century Code is created and enacted as follows:

49-21-24. In-kind services. A political subdivision, in lieu of a fee imposed under section 49-21-23, may not require in-kind services by a telecommunications company right-of-way user or require in-kind services as a condition of the use of the political subdivision's public right of way.

SECTION 4. Section 49-21-25 of the North Dakota Century Code is created and enacted as follows:

49-21-25. Arbitration.

1. A telecommunications company that is denied the use of or access to a political subdivision right of way, that has its right-of-way permit revoked, or that believes that the fees imposed on that company by the political subdivision do not conform to the requirements of section 49-21-23 may request in writing that the denial, revocation, or fee imposition be reviewed by the governing body of the political subdivision. The governing body of the political subdivision shall act within thirty days of the request. A decision by the governing body affirming the denial, revocation, or fee imposition must be in writing and supported by written findings establishing the reasonableness of the decision.
2. Upon affirmation by the governing body of the denial, revocation, or fee imposition, the telecommunications company may do either of the following:
 - a. With the consent of the governing body, submit the matter to final, binding arbitration. Binding arbitration must be before an arbitrator selected by the political subdivision and the telecommunications company. If the parties are unable to agree on an arbitrator, the matter must be resolved by the three-person arbitration panel made up of one arbitrator selected by the political subdivision, one arbitrator selected by the telecommunications company, and one arbitrator selected by the other two arbitrators. The cost of a single arbitrator must be paid equally by the political subdivision and the telecommunications company. If a three-person

arbitration panel is selected, each party shall pay the cost of its own arbitrator, and the parties shall jointly pay the cost of the third arbitrator and of the arbitration. Each party to the arbitration shall pay its own costs, disbursements, and attorney fees.

- b. Bring an action in district court to review a decision of the governing body made under this section.

SECTION 5. Section 49-21-26 of the North Dakota Century Code is created and enacted as follows:

49-21-26. Franchise ordinance not superseded. Sections 49-21-23, 49-21-24, and 49-21-25 do not modify or supersede the rights and obligations of a political subdivision and the telecommunications company established by the terms of any existing franchise. A city that collects a city franchise fee under a franchise may not collect a fee from that entity under section 49-21-23. A political subdivision that collects a fee prohibited by section 49-21-23 on January 1, 1999, may continue to collect that fee.

SECTION 6. Section 49-21-27 of the North Dakota Century Code is created and enacted as follows:

49-21-27. Cost recovery. A telecommunications company that is assessed either management costs by a political subdivision pursuant to section 49-21-23 or a city franchise fee pursuant to section 49-21-26 is entitled to recover those costs. If the telecommunications company serves customers within the boundaries of the political subdivision imposing the management costs, the costs may be recovered only from those customers.

²⁷³ **SECTION 7. AMENDMENT.** Subdivision g of subsection 3 of section 49-23-04 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

- g. An excavator may not use a location more than ~~seventy-two hours~~ ten days, or any extension of that period, after the planned excavation date unless the excavator has made previous arrangements with the operators affected.

Approved April 8, 1999
Filed April 8, 1999

²⁷³ Section 49-23-04 was also amended by section 28 of Senate Bill No. 2015, chapter 37, and section 1 of Senate Bill No. 2265, chapter 418.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁷⁴ **SECTION 1. AMENDMENT.** Section 49-02-01.1 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

49-02-01.1. Jurisdiction of commission limited as to certain utilities. Nothing in this chapter or in chapter 49-21 authorizes the commission to make any order affecting rates, contracts, services rendered, adequacy, or sufficiency of facilities, or the rules or regulations of any public utility owned and operated by the state or by any city, county, township, or other political subdivision of the state or any public utility, that is not operated for profit, that is operated as a nonprofit, cooperative, or mutual telecommunications company or is a telecommunications company having fewer than eight thousand local exchange subscribers. However, any telecommunications utility that is operated as a nonprofit, cooperative, or mutual telecommunications company or has fewer than eight thousand local exchange subscribers is subject to sections 49-21-01.4 ~~and~~, 49-21-08, sections 10, 11, and 12 of this Act, and ~~is subject to subsection~~ subsections 6 through 14 of section 49-21-01.7 and to sections 49-21-01.2, 49-21-01.3, 49-21-06, 49-21-07, 49-21-09, and 49-21-10, regarding rates, terms, and conditions of access services or connection between facilities and transfer of telecommunications between two or more telecommunications companies. Nothing in this section limits the authority of the commission under chapter 49-03.1 or sections 49-04-05 and 49-04-06.

²⁷⁵ **SECTION 2.** Five new subsections to section 49-21-01 of the 1997 Supplement to the North Dakota Century Code are created and enacted as follows:

²⁷⁴ Section 49-02-01.1 was also amended by section 2 of House Bill No. 1169, chapter 414.

²⁷⁵ Section 49-21-01 was also amended by section 3 of Senate Bill No. 2008, chapter 30, and section 1 of House Bill No. 1451, chapter 410.

"Competitive local exchange company" means any telecommunications company providing local exchange service, other than an incumbent local exchange carrier, whether by its own facilities, interconnection, or resale.

"Eligible telecommunications carrier" means a telecommunications company designated under section 214(e) of the federal act as eligible to receive universal service support in accordance with section 254 of the federal act.

"Federal act" means the federal Communications Act of 1934, as amended by the federal Telecommunications Act of 1996 [47 U.S.C. 151 et seq.].

"Incumbent local exchange carrier" means a telecommunications company that meets the definition of section 251(h) of the federal act.

"Rural telephone company" means a telecommunications company that meets the definition of section 153(37) of the federal act.

SECTION 3. A new subsection to section 49-21-01.1 of the 1997 Supplement to the North Dakota Century Code is created and enacted as follows:

Private line transport service.

SECTION 4. Subsections 5, 6, and 7 of section 49-21-01.3 of the 1997 Supplement to the North Dakota Century Code are created and enacted as follows:

5. The monthly price of residence service for group I telecommunications companies defined in subsection 2 of section 49-21-01 may be increased after July 31, 1999, up to fifteen dollars and fifty cents and may be increased after June 30, 2000, up to eighteen dollars. A telecommunications company increasing prices under this subsection must submit a report to the commission reasonably demonstrating that it reduced the prices of its intrastate intraLATA message toll service and intrastate switched access, as such prices existed on January 1, 1999, in aggregate by an annual amount not less than the annual revenue increase resulting from the service price increases under this subsection. Reductions in message toll and switched access prices attributable to the price increases under this section must be made by similar percentages as to be accomplished in a competitively neutral manner. The commission may review the report and may set aside pursuant to section 49-21-06 the prices of intraLATA message toll service and intrastate switched access if the reductions have not been made in a revenue neutral manner and by similar percentages. Prices set aside pursuant to this section remain effective until the effective date of revised prices filed by the telecommunications company within forty-five days of the commission's order.
6. The commission may investigate an increased price allowed pursuant to subsection 5 and may set aside all or part of the increase if it finds the price is unfair or unreasonable, provided a price for residence service at

or below the price in effect on January 1, 1999, may not be set aside under this subsection or section 49-21-06. The commission may not set aside all or part of an increased price as unfair or unreasonable if the commission determines after notice and opportunity for hearing the average cost of providing residence service, as calculated under either representative embedded or forward-looking economic cost methodologies, including shared and common costs, exceeds the price resulting from the increase.

7. Subject to the limitations of this section, nothing in this chapter prohibits an incumbent local exchange carrier from deaveraging local exchange service prices provided the incumbent local exchange carrier agrees to amend its commission approved interconnection agreements to allow for deaveraged interconnection prices effective concurrently with the deaveraged retail prices.

SECTION 5. Subsections 7, 8, 9, 10, 11, 12, 13, and 14 of section 49-21-01.7 of the 1997 Supplement to the North Dakota Century Code are created and enacted as follows:

49-21-04. Price schedules filed with the commission. Each telecommunications company shall file with the commission in such form and detail

A revolving loan fund must be maintained in the Bank of North Dakota for the purpose of making loans to nursing facilities, basic care facilities, assisted living facilities, or other entities providing alternatives to nursing facility care, to encourage and support conversion of nursing facilities. All moneys transferred into the fund, interest upon moneys in the fund, and collections of interest and principal on loans made from the fund are hereby appropriated for disbursement pursuant to the requirements of this chapter.

Nursing facility alternative loan fund.

1. There is hereby created a nursing facility alternative loan fund. The fund shall include revenue transferred from the North Dakota health care trust fund, interest upon moneys in the fund, and collections of interest and principal on loans made from the fund.

3. Any money in the fund not required for use under subsection 2 must be transferred to the North Dakota health care trust fund.

Loan application - How made. All applications for loans under this chapter must be made to the department. The department may approve the applications of qualified applicants who propose projects that conform to requirements established under section 3 of this Act. Applications approved by the department must be forwarded to the Bank of North Dakota. Upon approval of the application by the Bank of North Dakota, loans may be made from the revolving loan fund in accordance with the provisions of this chapter.

Such loans must bear interest at a rate determined by the Bank of North Dakota to be two percentage points less than the market rate for similar commercial loans, provided that no loan may bear interest at a rate less than one half of one percent, or more than seven percent, of the outstanding principal balance of the loan. In consideration of the making of a loan under this chapter, each borrower shall execute a contract with the department to operate the project in accordance with standards established under section 3 of this Act. The contract must also provide that if the use of the project is discontinued or diverted to purposes other than those provided in the loan application without written consent of the department, the full amount of the loan provided under this chapter immediately becomes due and payable.  - a. Any roll of tobacco wrapped in paper or in any substance not containing tobacco;
 - b. Tobacco, in any form, that is functional in the product, which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette; or
 - c. Any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in subdivision a.

The term "cigarette" includes "roll-your-own", which means any tobacco that, because of its appearance, type, packaging, or labeling is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes. For purposes of this definition of "cigarette", 0.09 ounces [2.556 grams] of "roll-your-own" tobacco constitutes one individual "cigarette".

5. "Master settlement agreement" means the settlement agreement and related documents entered on November 23, 1998, by the state and leading United States tobacco product manufacturers.
6. "Qualified escrow fund" means an escrow arrangement with a federally or state chartered financial institution having no affiliation with any tobacco product manufacturer and having assets of at least one billion dollars where the arrangement requires that the financial institution hold the escrowed funds' principal for the benefit of releasing parties and prohibits the tobacco product manufacturer placing the funds into escrow from using, accessing, or directing the use of the funds' principal except as consistent with subdivision b of subsection 2 of section 2 of this Act.
7. "Released claims" means released claims as that term is defined in the master settlement agreement.
8. "Releasing parties" means releasing parties as that term is defined in the master settlement agreement.
9. "Tobacco product manufacturer" means an entity that after the effective date of this Act directly, and not exclusively through any affiliate:
 - a. Manufactures cigarettes anywhere that the manufacturer intends to be sold in the United States, including cigarettes intended to be sold in the United States through an importer (except where the importer is an original participating manufacturer, as that term is defined in the master settlement agreement, which will be responsible for the payments under the master settlement agreement with respect to cigarettes as a result of the provisions of subsection ll(mm) of the master settlement agreement and which pays the taxes specified in subsection ll(z) of the master settlement agreement, and provided that the manufacturer of such cigarettes does not market or advertise the cigarettes in the United States);
 - b. Is the first purchaser anywhere for resale in the United States of cigarettes manufactured anywhere which the manufacturer does not intend to be sold in the United States; or
 - c. Becomes a successor of an entity described in subdivision a or b.

The term "tobacco product manufacturer" does not include an affiliate of a tobacco product manufacturer unless the affiliate itself falls within subdivision a, b, or c.

10. "Units sold" means the number of individual cigarettes sold in the state by the applicable tobacco product manufacturer, whether directly or through a distributor, retailer, or similar intermediary or intermediaries, during the year in question, as measured by excise taxes collected by the

state on packs or "roll-your-own" tobacco containers. The state tax commissioner shall adopt rules as are necessary to ascertain the amount of state excise tax paid on the cigarettes of the tobacco product manufacturer for each year.

SECTION 2. Requirements. A tobacco product manufacturer selling cigarettes to consumers within the state, whether directly or through a distributor, retailer, or similar intermediary or intermediaries, after the effective date of this Act, must do one of the following:

1. Become a participating manufacturer, as that term is defined in section II(jj) of the master settlement agreement, and generally perform its financial obligations under the master settlement agreement; or
2. a. Place into a qualified escrow fund by April fifteenth of the year following the year in question, the following amounts, as such amounts are adjusted for inflation:
 - (1) 1999: \$.0094241 per unit sold after the effective date of this Act;
 - (2) 2000: \$.0104712 per unit sold;
 - (3) For each of 2001 and 2002: \$.0136125 per unit sold;
 - (4) For each of 2003 through 2006: \$.0167539 per unit sold; and
 - (5) For each of 2007 and each year thereafter: \$.0188482 per unit sold.
- b. A tobacco product manufacturer that places funds into escrow pursuant to subdivision a shall receive the interest or other appreciation on the funds as earned. The funds may be released from escrow only under the following circumstances:
 - (1) To pay a judgment or settlement on any released claim brought against the tobacco product manufacturer by the state or any releasing party located or residing in the state. Funds must be released from escrow under this paragraph in the order in which they were placed into escrow and only to the extent and at the time necessary to make payments required under the judgment or settlement;
 - (2) To the extent that a tobacco product manufacturer establishes that the amount it was required to place into escrow in a particular year was greater than the state's allocable share of the total payments that the manufacturer would have been required to make in that year under the master settlement agreement (as determined pursuant to section IX(i)(2) of the master settlement agreement, and before any of the adjustments or offsets described in section IX(i)(3) of that agreement other than the inflation adjustment) had it been a participating manufacturer, the excess must be released from escrow and revert back to the tobacco product manufacturer; or

- (3) To the extent not released from escrow under paragraph 1 or 2, funds must be released from escrow and revert back to the tobacco product manufacturer twenty-five years after the date on which they were placed into escrow.
- c. Each tobacco product manufacturer that elects to place funds into escrow pursuant to this subsection shall annually certify to the state tax commissioner that it is in compliance with this subsection. The state tax commissioner shall refer every instance of noncompliance to the attorney general. The attorney general may bring a civil action on behalf of the state against any tobacco product manufacturer that fails to place into escrow the funds required under this section. Any tobacco product manufacturer that fails in any year to place into escrow the funds required under this section must:
- (1) Be required within fifteen days to place the funds into escrow as will bring it into compliance with this section. The court, upon a finding of a violation of this subdivision, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed five percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed one hundred percent of the original amount improperly withheld from escrow;
 - (2) In the case of a knowing violation, be required within fifteen days to place the funds into escrow as will bring it into compliance with this section. The court, upon a finding of a knowing violation of this subdivision, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed fifteen percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed three hundred percent of the original amount improperly withheld from escrow; and
 - (3) In the case of a second knowing violation, be prohibited from selling cigarettes to consumers within the state, whether directly or through a distributor, retailer or similar intermediary, for a period not to exceed two years.

Each failure to make an annual deposit required under this section constitutes a separate violation.

SECTION 3. EMERGENCY. This Act is declared to be an emergency measure.

UNEMPLOYMENT COMPENSATION RESERVES, RATES, AND BENEFITS

AN ACT to amend and reenact sections 52-04-05, 52-04-06, 52-04-09, and 52-06-05 of the North Dakota Century Code, relating to the required level of the unemployment compensation trust fund reserve, employer contribution rates, and maximum potential benefits.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 52-04-05 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

52-04-05. (Effective through December 31, ~~2000~~ 1999) Determination of rates.

1. For each calendar year, the bureau shall estimate the amount of income needed to pay benefits and maintain a balance in the unemployment compensation fund, that as of October 1, 1989, is equal to twenty-five percent of the average annual amount of benefits paid. On each October first after October 1, 1989, the amount of the trust fund reserve must be sixty percent of the average annual amount of benefits paid. The average annual amount of benefits paid must be computed by dividing the total amount of benefits paid and projected to be paid during the previous thirty-six months by three. On January 1, 2000, the required amount of the trust fund reserve becomes a targeted amount as determined under this subsection. The solvency target is an average high cost multiple of one. The average high cost multiple is the number of years the bureau could pay unemployment compensation, based on the reserve ratio, if the bureau paid the compensation at a rate equivalent to the average benefit cost rate in the one calendar year during the preceding twenty calendar years and the two calendar years during the preceding ten calendar years in which the benefit cost rates were the highest. "Reserve ratio" means the ratio determined by dividing the balance in the trust fund reserve at the end of the calendar year by the total covered wages in the state for that year. "Benefit cost rate" means the rate determined by dividing the unemployment compensation benefits paid during a calendar year by the total covered wages in the state for that year. The computation of the reserve ratio and benefit cost rate must exclude the wages and unemployment compensation paid by employers covered under section 3309 of the Internal Revenue Code of 1986, as amended, [26 U.S.C. 3309]. The trust fund reserve target will be achieved over a seven-year period from January 1, 2000. Progress toward achieving the targeted amount of the trust fund reserve is measured by reducing any difference between one and the average high-cost multiple of the state by an amount that is at least equal to the ratio of the number of years left to reach the targeted amount of the

trust fund reserve to the difference between the trust fund reserve and the targeted amount. If the calendar year annual average insured unemployment rate is above three percent and has increased one hundred ten percent of the average of the preceding two calendar years, a tax rate will be set to provide for fifty percent of the additional revenue needed for the trust fund to be derived from tax rate increases and the remaining fifty percent becomes a drawdown against the trust fund reserve. In setting tax rates, the amount of the trust fund reserve may not be allowed to fall below three hundred percent from a standard margin of error for the targeted amount of the trust fund reserve. The executive director may make reasonable adjustments to the tax rates set for a calendar year to prevent significant rate variations between calendar years. When the trust fund reserve is being rebuilt, rates will not be lowered until the target level is reached. If while achieving the trust fund reserve target the trigger of above three percent insured unemployment rate and an increase of more than one hundred ten percent of the average of the two preceding years has been in effect for two or more consecutive years, the period of time to achieve the trust fund reserve target is extended to seven years from the end date of the last year in which the trigger was in effect. If this trigger has been in effect for one year, the amount of tax increase towards achieving the targeted amount of the trust fund reserve must be determined using the number of years remaining of the seven-year period, excluding the year the trigger is in effect.

2. Rates must be determined as follows:

- a. The income required for the calendar year must be divided by the estimated taxable wages for the calendar year. The result rounded to the next higher one one-hundredth of one percent is the average required rate.
- b. ~~The minimum rate for each calendar year is the average required rate, multiplied by one-fourth, rounded to the nearest one-tenth of one percent.~~ If the positive employer maximum rate is at least one percent, the positive employer minimum rate is the positive employer maximum rate minus nine-tenths of one percent. If the positive employer maximum rate is less than one percent, the range for the positive employer minimum rate must be at least one-tenth of one percent and must be less than two-tenths of one percent (the minimum of one-tenth of one percent plus the increment of one-tenth of one percent), with the positive employer minimum rate equal to the positive employer maximum rate minus a multiple of the increment one-tenth of one percent as provided in subsection 2 of section 52-04-06 to fall within the range described above. Within the table of rate schedules for each calendar year, a rate schedule may not be used if it would generate less income than any rate schedule preceding it on the table of rate schedules. The negative employer minimum rate is the positive employer maximum rate plus five and one-tenth percent.
- c. ~~The maximum rate for each calendar year is the average required rate, multiplied by three, rounded to the nearest one-tenth of one percent.~~ The positive employer maximum rate must be set so that all the rates combined generate the average required rate. The negative employer maximum rate is the negative employer

minimum rate plus three and six-tenths percent. However, the maximum rate must be at least five and four-tenths percent.

3. a. Except as otherwise provided in this subsection, an employer's rate may not be less than the ~~maximum~~ negative employer minimum rate for a calendar year unless the employer's account has been chargeable with benefits throughout the thirty-six-consecutive-calendar-month period ending on September thirtieth of the preceding calendar year. If an employer in construction services has not been subject to the law as required, that employer qualifies for a reduced rate if the account has been chargeable with benefits throughout the twenty-four-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. ~~However, an employer in construction services must be assigned the maximum rate of seven percent, whichever is greater, for any year if, as of the computation date, the cumulative benefits charged to the employer's account equal or exceed the cumulative contributions paid on or before October thirty-first with respect to wages paid by that employer before October first of that year.~~ An employer identified as belonging to industry group number 161, highway and street construction, except elevated highways, provided in the standard industrial classification manual, must be assigned a ~~maximum rate of eight and one-half percent, whichever is greater,~~ within the negative employer rate ranges with an additional one and one-half percent added to the rate for any year if, as of the computation date, the cumulative benefits charged to the employer's account equal or exceed the cumulative contributions paid on or before October thirty-first of that year. If an employer in nonconstruction services has not been subject to the law as required, the employer in nonconstruction services qualifies for a reduced rate if the account has been chargeable with benefits throughout the twelve-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. During the building of the trust fund reserve, the rate assigned to an employer may not exceed one hundred thirty percent of the previous year's rate for that employer and an employer may not receive more than a ten percent decrease in that employer's rate from the previous year's tax rate, for the calendar years 2000, 2001, and 2002. The executive director may provide any negative employer whose contributions paid into the trust fund are greater than the benefit charges against that employer's account, for a minimum of three consecutive years immediately preceding the computation date or subject to the law as required, with up to a thirty percent reduction to that employer's rate for any year if that employer has in place a plan approved by the bureau which addresses substantive changes to that employer's business operation and ensures that any rate reduction provided will not put the employer account back into a negative status.
- b. An employer that does not qualify under subdivision a is subject to a rate determined as follows:
 - (1) For each calendar year new employers must be assigned a rate that is one hundred fifty percent of ~~two and two-tenths percent~~ the positive employer maximum rate or a rate of one percent, whichever is greater, unless the employer is classified

- in construction services. However, an employer must be assigned ~~the maximum rate~~ within the negative employer rate ranges for any year if, as of the computation date, the cumulative benefits charged to that employer's account equal or exceed the cumulative contributions paid on or before October thirty-first with respect to wages paid by that employer before October first of that year.
- (2) New employers in construction services must be assigned a ~~rate of seven percent or the maximum rate, whichever is greater~~ the negative employer maximum rate.
 - (3) Assignment by the bureau of an employer's industrial classification for the purposes of this section must be the two digit major group provided in the standard industrial classification manual, in accordance with established classification practices found in the standard industrial classification manual issued by the executive office of the president, office of management and budget.
4. An employer who has ceased to be liable for contributions shall continue its established experience rating account if it again becomes liable within three years from the date that it ceased to be liable. Such employer's rate, however, must be determined in accordance with subsection 3.

(Effective after December 31, ~~2000~~ 1999) Determination of rates.

1. For each calendar year, the bureau shall estimate the amount of income needed to pay benefits and maintain a balance in the unemployment compensation fund, that as of October 1, 1989, is equal to twenty-five percent of the average annual amount of benefits paid. On each October first after October 1, 1989, the amount of the trust fund reserve must be sixty percent of the average annual amount of benefits paid. Within the table of rate schedules for each calendar year, a rate schedule may not be used if it would generate less income than any rate schedule preceding it on the table of rate schedules. The negative employer minimum rate is the positive employer maximum rate plus five and one-tenth percent.
- c. ~~The maximum rate for each calendar year is the average required rate, multiplied by three, rounded to the nearest one-tenth of one percent.~~ The positive employer maximum rate must be set so that

all the rates combined generate the average required rate. The negative employer maximum rate is the negative employer minimum rate plus three and six-tenths percent. However, the maximum rate must be at least five and four-tenths percent.

However, an employer in construction services must be assigned the maximum rate of seven percent, whichever is greater, for any year if, as of the computation date, the cumulative benefits charged to the employer's account equal or exceed the cumulative contributions paid on or before October thirty-first with respect to wages paid by that employer before October first of that year. If an employer in nonconstruction services has not been subject to the law as required, the employer in nonconstruction services qualifies for a reduced rate if the account has been chargeable with benefits throughout the twelve-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. During the building of the trust fund reserve, the rate assigned to an employer may not exceed one hundred thirty percent of the previous year's rate for that employer and an employer may not receive more than a ten percent decrease in that employer's rate from the previous year's rate, for the calendar years 2000, 2001, and 2002. The executive director may provide any negative employer whose contributions paid into the trust fund are greater than the benefit charges against that employer's account, for a minimum of three consecutive years immediately preceding the computation date or subject to the law as required, with up to a thirty percent reduction to that employer's rate for any year if that employer has in place a plan approved by the bureau which addresses substantive changes to that employer's business operation and ensures that any rate reduction provided will not put the employer account back into a negative status.
- b. An employer that does not qualify under subdivision a is subject to a rate determined as follows:
 - (1) For each calendar year new employers must be assigned a rate that is one hundred fifty percent of ~~two and two-tenths percent~~ the positive employer maximum rate or a rate of one percent, whichever is greater, unless the employer is classified in construction services. However, an employer must be assigned the maximum rate within the negative employer rate ranges for any year if, as of the computation date, the cumulative benefits charged to that employer's account equal or exceed the cumulative contributions paid on or before October thirty-first with respect to wages paid by that employer before October first of that year.

- (2) ~~New employers in construction services must be assigned a rate of seven percent of the maximum rate, whichever is greater the~~ negative employer maximum rate.
 - (3) Assignment by the bureau of an employer's industrial classification for the purposes of this section must be the two digit major group provided in the standard industrial classification manual, in accordance with established classification practices found in the standard industrial classification manual issued by the executive office of the president, office of management and budget.
4. An employer who has ceased to be liable for contributions shall continue its established experience rating account if it again becomes liable within three years from the date that it ceased to be liable. Such employer's rate, however, must be determined in accordance with subsection 3.

SECTION 2. AMENDMENT. Section 52-04-06 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

52-04-06. Variations in standard rate of contributions - How determined.

1. ~~All employers eligible for an experience rate computation must be ranked in descending order by their reserve ratios. An employer's reserve ratio is the percentage of the average annual payroll by which difference between the cumulative six-year contributions paid by that employer on or before October thirty-first of any year, with respect to wages paid by that employer before October first of that same year, exceeds and the cumulative six-year benefits charged to that employer's account before October first of that year, divided by the average annual payroll. Employers whose cumulative contributions exceed cumulative benefits must be assigned within the positive employer rate groups. Employers whose cumulative contributions are equal to or less than cumulative benefits must be assigned within the negative employer rate groups.~~
2. ~~For each calendar year the bureau shall establish a schedule of rates, with the minimum rate determined under section 52-04-05 assigned to the first rate group. Each successive rate group must be assigned a rate equal to the previous group's rate plus two-tenths of one percent. The number of rate groups in the schedule must be the number required to provide for a rate group at each two-tenths of one percent interval between the minimum rate and two and one-fourth times the average required rate determined under section 52-04-05. For each calendar year the bureau shall establish a schedule of positive employer rate groups within the positive employer minimum rate and the positive employer maximum rate determined under section 52-04-05. Each successive rate group for positive employer rate groups must be assigned a rate equal to the previous group's rate plus one-tenth of one percent. The number of rate groups in the positive employer schedule must be the number required to provide for a rate group at each one-tenth of one percent interval between the positive employer minimum rate and the positive employer maximum rate determined under section 52-04-05. For each calendar year the bureau shall establish a schedule of negative employer rate groups with the negative employer minimum rate and the negative employer maximum rate determined under section 52-04-05.~~

Each successive rate group for negative employer rate groups must be assigned a rate equal to the previous group's rate plus four-tenths of one percent. The number of rate groups in the negative employer schedule must be the number required to provide for a rate group at each four-tenths of one percent interval between the negative employer minimum rate and the negative employer maximum rate determined under section 52-04-05.

3. Employers must be assigned to the groups in the rate schedule in the rank order of their reserve ratios, as determined in subsection 1, with the highest reserve ratio employers assigned to the first rate group. Each successively ranked employer must be assigned to the groups in the rate schedule so that those employers reporting seventy-eight percent of the eligible employer's prior year's taxable wages are equally distributed in these rate groups at or below the average rate required of employers eligible for experience rating or the minimum rate group, whichever is greater, and twenty-two percent of those wages are equally distributed in the remaining rate groups. Positive employers must be assigned to the rate in the positive employer rate schedule in the rank order of their reserve ratios, as determined in subsection 1, with the highest reserve ratio positive employers assigned to the first positive employer rate. Each successively ranked positive employer must be assigned to a rate within the positive employer rate schedule so that each rate within the rate schedule is assigned the same proportion of the positive employers prior year's taxable wages. Negative employers must be assigned to the rate in the negative employer rate schedule in the rank order of their reserve ratios, as determined in subsection 1, with the highest reserve ratio negative employers assigned to the first negative employer rate. Each successively ranked negative employer must be assigned to a rate within the negative employer rate schedule so that each rate within the rate schedule is assigned the same proportion of the negative employer's prior year's taxable wages.
4. The average rate of employers eligible for experience rating is determined as follows:
 - a. The estimated amount of taxes to be paid each year by employers not eligible for experience rating must be subtracted from the total required income for the year determined under section 52-04-05.
 - b. The remainder must be divided by the estimated taxable wages of those employers eligible for experience rating, with the result rounded to the nearest one-tenth of one percent.
5. After each year's rate schedule has been established, an employer may pay into the fund an amount in excess of the contributions required to be paid under this section. That amount must be credited to the employer's separate account. The employer's rate must be recomputed with the amount included in the calculation only if that amount was paid by April thirtieth of that year. Payments may not be refunded or used as credit in the payment of contributions.
6. 5. In the bureau's determination of the projected income requirements for computing contribution rates and taxable wage base, only the wages paid by, and the cost of benefits attributable to, tax-rated employers may be taken into account.

7. 6. If an employer has a quarterly taxable payroll in excess of fifty thousand dollars and at least three times its established average annual payroll, the tax rate for that employer is the negative employer maximum rate of contribution in effect that year, beginning the first day of the calendar quarter in which it occurred and for the remainder of the calendar year.

SECTION 3. AMENDMENT. Section 52-04-09 of the North Dakota Century Code is amended and reenacted as follows:

52-04-09. Classification of employers to determine contributions - Regulations governing. An employer's rate for a calendar year must be determined on the basis of the employer's experience with contribution payments and benefit charges as of October first of the preceding year. If when such determination is to be made an employer has failed to file a required report or filed an insufficient report, the bureau shall notify the employer thereof by certified mail addressed to the employer's last known address. Unless the employer files the report or a sufficient report within fifteen days after mailing of the notice, the employer's rate for the following calendar year may not be less than the negative employer maximum rate. For employers identified as belonging to industry group number 161, highway and street construction, except elevated highways, for the effective period set forth in section 52-04-05, the employer's rate for the following calendar year may not be less than the negative employer maximum rate plus one and one-half percent. If, at any time, an employer has failed to file a required report or filed an insufficient report, the bureau may, at any time, estimate the wage information required by the report on the basis of reasonably available evidence. The bureau shall notify the employer of the estimate by certified mail addressed to the employer's last known address. Unless the employer files the report or a sufficient report within fifteen days after the mailing of the notice, the estimate becomes final for all purposes, except that if the amount of estimated wages is less than the actual wages, the bureau may reconsider the estimate.

SECTION 4. AMENDMENT. Section 52-06-05 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

52-06-05. (Effective through December 31, 1999) Maximum potential benefits.

CHAPTER 436**HOUSE BILL NO. 1269**
(Representative Keiser)**UNEMPLOYMENT COMPENSATION BENEFIT
DISQUALIFICATION**

AN ACT to amend and reenact subsection 1 of section 52-06-02 of the North Dakota Century Code, relating to disqualification from unemployment compensation benefits.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 1 of section 52-06-02 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. For the week in which ~~he~~ the individual has left ~~his~~ the individual's most recent employment voluntarily without good cause attributable to the employer, and thereafter until such time as ~~he~~ the individual:
 - a. Can demonstrate that ~~he~~ the individual has earned remuneration for personal services in employment equivalent to at least eight times ~~his~~ the individual's weekly benefit amount as determined under section 52-06-04; and
 - b. Has not left ~~his~~ the individual's most recent employment under disqualifying circumstances.

A temporary employee of a temporary help firm is deemed to have left employment voluntarily if the employee does not contact the temporary help firm for reassignment before filing for benefits. Failure to contact the temporary help firm is not deemed a voluntary leaving of employment unless the claimant was advised of the obligation to contact the temporary help firm upon completion of an assignment and advised that unemployment benefits may be denied for failure to contact the temporary help firm. As used in this subsection, "temporary employee" means an employee assigned to work for a client of a temporary help firm; and "temporary help firm" means a firm that hires that firm's own employees and assigns these employees to a client to support or supplement the client's work force in a work situation such as employee absence, temporary skill shortage, seasonal workload, a special assignment, and a special project.

This subsection does not apply if the bureau determines that the individual in an active claim filing status accepted work which the individual could have refused with good cause under section 52-06-36 and terminated such employment with the same good cause and within the first ten weeks after starting work.

This subsection does not apply if the individual left employment or remains away from employment following illness or injury upon a

physician's written notice or order; no benefits may be paid under this exception unless the employee has notified the employer of the physician's requirement and has offered service for suitable work to the employer upon the individual's capability of returning to employment. This exception does not apply unless the individual's capability of returning to employment and offer of service for suitable work to the employer occurs within sixty days of the last day of work. However, the cost of any benefits paid under this exception may not be charged against the account of the employer from whom the individual became separated as a result of the illness or injury. The bureau may request and designate a licensed physician to provide a second opinion regarding the claimant's qualification; however, no individual may be charged fees of any kind for the cost of such second opinion.

This subsection does not apply if the individual left the most recent employment because of an injury or illness caused or aggravated by the employment; no benefits may be paid under this exception unless the individual leaves employment upon a physician's written notice or order, the individual has notified the employer of the physician's requirement, and there is no reasonable alternative but to leave employment.

For the purpose of this subsection, an individual who left the most recent employment in anticipation of discharge or layoff must be deemed to have left employment voluntarily and without good cause attributable to the employer.

For the purpose of this subsection, "most recent employment" means employment with any employer for whom the claimant last worked and voluntarily quit without good cause attributable to the employer or with any employer, in insured work, for whom the claimant last worked and earned wages equal to or exceeding eight times ~~his~~ the individual's weekly benefit amount.

This subsection does not apply if the individual leaves work which is two hundred road miles [321.87 kilometers] or more, as measured on a one-way basis, from the individual's home to accept work which is less than two hundred road miles [321.87 kilometers] from the individual's home provided the work is a bona fide job offer with a reasonable expectation of continued employment.

UNEMPLOYMENT COMPENSATION BENEFIT DETERMINATION

AN ACT to amend and reenact subsection 1 of section 52-06-04 of the North Dakota Century Code, relating to determination of weekly benefit amount for unemployment compensation purposes.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 1 of section 52-06-04 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. The procedures, provisions, and conditions of this section must determine the "weekly benefit amount" of those individuals who establish a benefit year ~~on and after July 1, 1973:~~
 - a. For the purpose of this section, the bureau shall each year, on or before the first day of June, determine the average annual wage paid to insured workers and, from that determination, an "average weekly wage", by the following computation:

The total wages reported on contribution reports for the preceding calendar year must be divided by the average monthly number of covered workers, whose number must be determined by dividing by twelve the total covered employment reported on contribution reports for the preceding calendar year, and the quotient obtained by dividing the total wages by the average monthly number of covered workers is the average annual wage; and such quotient must be divided by fifty-two and the amount thus obtained, rounded to the nearest cent, is the "average weekly wage".
 - b. An individual's "weekly benefit amount" is one sixty-fifth (if not a multiple of one dollar, to be computed to the next lower multiple of one dollar) of the sum of:
 - (1) The individual's total wages for insured work paid during the two quarters of the individual's base period in which the individual's wages were the highest; and
 - (2) One-half of the individual's total wages for insured work paid during the third highest quarter in the individual's base period.

However, if that amount is less than the "minimum weekly benefit amount" the individual is monetarily ineligible for benefits. The "minimum weekly benefit amount" is forty-three dollars. ~~For benefit years beginning after August 8, 1987, the~~ The "maximum weekly benefit amount" is ~~sixty~~ sixty-two percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar. However, if on October first of any calendar year ~~beginning with the calendar year 1989, the trust fund reserve is equal to or greater than the required amount, then as of July first of the next year, the maximum weekly benefit amount is sixty-two percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar. Further, if on October first of any calendar year beginning with the calendar year 1989, the trust fund reserve is equal to or greater than the required amount, and if this state's average contribution rate is below the nationwide average for the preceding calendar year, then the maximum weekly benefit amount is sixty-five percent of the "average weekly wage", rounded to the next lower multiple of one dollar if not a multiple of one dollar. The average contribution rate is determined on the basis of total contributions divided by total wages.~~

SECTION 1. AMENDMENT. Subsection 1 of section 52-06-30 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

Such rights to benefits are exempt from levy, execution, attachment, or any other remedy provided for the collection of a debt. 13. To establish a retirement program as an alternative to chapter 15-39.1 for employees of institutions under its control, subject to the following guidelines:
 - a. Benefits under the program ~~shall~~ must be provided through annuity contracts purchased by the board but which ~~shall~~ become the property of the participants;
 - b. The cost of the annuity contracts ~~shall~~ must be defrayed by contributions made pursuant to rules of the state board of higher education;
 - c. Eligible employees appointed before July 1, 1973, shall participate in the alternate retirement program only by their individual election. When the electing eligible employee is a member of the teachers' fund for retirement, the employee's assessments and employer's contributions together with interest credited at the current rate for one-year certificates then being paid by the Bank of North Dakota

²⁸⁰ Section 15-10-17 was also amended by section 2 of House Bill No. 1186, chapter 157.

~~shall~~ must be transferred to the employee's account in the alternate program. ~~Such~~ The election ~~shall~~ must be made ~~prior to~~ before July 1, 1980, and shall relinquish all rights the eligible employee or the employee's beneficiary may have to benefits provided in chapters 15-39 and 15-39.2;

- d. Employees of Bismarck state college and ~~university of North Dakota~~ - Lake Region state college coming under the jurisdiction of the board who are members of the teachers' fund for retirement may elect ~~prior to~~ before July 1, 1985, to continue membership in the teachers' fund for retirement in lieu of the alternate retirement program. If an employee does not elect to continue membership in the teachers' fund for retirement, membership in that fund will terminate and the employee will become a member of the alternate retirement program established by the board effective July 1, 1985. An employee of ~~the above-named these~~ colleges who becomes a member of the alternate retirement program may elect ~~prior to~~ before July 1, 1985, to have the employee's assessments and employer's contributions in the teachers' fund for retirement with interest transferred by the board of trustees of the teachers' fund for retirement to the employee's account in the alternate retirement program. However, before the employer's contribution may be used for an annuity purchase, the employee's combined years of service with the public employees retirement system and the alternate retirement program must equal or exceed the years of service necessary to be eligible for retirement benefits under the public employees retirement system. An employee who transferred from the public employees retirement system ~~prior to~~ before March 30, 1987, and who received a refund of that employee's contribution is entitled to have the employer's contribution, with interest, used to purchase an annuity even if that employee did not purchase an annuity in the alternate employee program with the employee's contribution. If an employee makes the election allowed under this subdivision, that employee relinquishes all rights the employee or any of the employee's beneficiaries may have had to benefits provided under chapter 54-52.

The board shall provide for the administration of the alternate retirement program and establish rules ~~therefor~~ for the program consistent with the foregoing guidelines this subsection. ~~Nothing in this~~ This subsection shall be construed in derogation of ~~does not derogate~~ any existing retirement programs approved by the board.

The funds may not be used by institutions of higher education for capital construction projects. The funds must be used to provide work force training, including operation and administration of a training division, acquisition of equipment, marketing, and program development. The institutions of higher education, job service, the work force 2000 advisory board and the tribal colleges in the state shall cooperate in addressing work force training needs in the state.

4. Each institution of higher education providing a work force training program shall submit a report annually to the legislative council, the governor, the state board of higher education, the state board for vocational and technical education, and the North Dakota work force development council regarding the work force training programs receiving funds under this section.
