FOR SALE BY

H O V E Y & C O.

1835.

Hovey & Co. beg leave to state, that their collection of FLOWER SEEDS, in addition to the old varieties, contains all those, new and rare, worthy of cultivation, which have been introduced. They are in correspondence with several of the most celebrated Seedsmen, Florists, and Nursery-men in London, Liverpool and Paris, and they flatter themselves that they enjoy such facilities as will enable them to procure every thing new and beautiful.

HOVEY & Co. have for sale one of the most extensive assortments of VEGETABLE and FLOWER SEEDS in the country: comprising all that are new and desirable, either for the KITCHEN or FLOWER garden. All those varieties which ripen their seeds the most perfectly in our climate, are raised by the most experienced and practical growers; and a large proportion under our own observation. Such as are imported, are obtained from seedmen and growers on whom we can rely for their genuineness and vitality.

AGRICULTURAL SEEDS of every description, including all the various grasses—red and white Clover, Lucerne, *Trifolium incarnatum*, Wheat, Oats, Buckwheat, Millet, Early Noupareil, Taylor's forty-fold, and Perkin's seedling Potatoes; Ruta Baga, Mangel Wurtzel, White Sugar Beet, Altringham Carrot, Yellow Locust, White Mulberry, &c. &c. &c.; Fruit Tree and Shrub Seeds of all kinds. No pains will be spared to render our establishment a complete repository for every variety of Garden, Flower and Agricultural seeds.

Seeds put up in boxes (marked and labelled,) for dealers, or supplied in quantities upon very liberal terms, and at the most reasonable rates. Flower seeds by the single paper, by the hundred, the single ounce or (except those rare,) in larger quantities. Boxes of seeds for the West Indies and South America put up in quantities to suit purchasers. Garden tools of many kinds, McCulloek's improved Syringe, budding and pruning knives, &c. &c.

H. & Co. have also for sale a large collection of rare Greenhouse Shrubs; perennial, herbaceous plants, Pæonies, Roses, Chrysanthemums, Bulbous Roots, Dahlias, &c. &c. *New catalogues* of these will be annexed in the course of the season, which may be had, *gratis*, on application (*post paid.*)

For the greater facility of purchasers, they will be published in the following order: 1st. A catalogue of Camellias (*Camellia japonica*), comprising a collection of upwards of *one hundred and fifty* of the choicest varieties; 2d. A catalogue of Greenhouse Shrubs and Plants; 3d. A catalogue of Bulbous Flower Roots; 4th. A catalogue of Dahlias.

Orders for Dahlias should be forwarded from January to May; for Tulips, Hyacinths, Narcissus and other Bulbous Roots from June to October.

☞ We are agents for the various nurseries around Boston, and all orders for trees or shrubs will receive immediate attention, and be punctually executed.

CONDUCTED BY

C. M. HOVEY, AND P. B. HOVEY, JR.;

Assisted by the following gentlemen, amateurs and Gardeners :
E. Vose, M. P. Wilder, Z. Cook, Jr., R. Manning, S. A. Shurtleff,
S. E. Coues, Wm. Kenrick, J. W. Russell, D. Haggerston, B. V.
French, Samuel Downer, S. Pond, S. Sweetser, T. Willott, Wm.
R. Prince, Professor John Lewis Russell, E. Putnam, F. Putnam,
S. Walker, E. M. Richards, B. Ives, C. Lawrence, R. Buirt,
Francis Hay, Ed. Sayres, Wm. Leathe.

The Magazine is devoted particularly to Horticulture, Flori-
culture, Botany, Natural History, and rural affairs ; notices of new
and rare fruits and flowers as they are introduced into the country ;
Reviews and extracts from periodicals treating on the subject both
foreign and domestic ; Miscellaneous Intelligence ; Prices Current
of the Market ; Reports of the various Horticultural societies
throughout the country ; Meteorological Notices ; engravings of
Greenhouses, Garden structures, &c. &c.

The work was commenced January 1st, 1835. The contents are
of a varied character from correspondents of acknowledged reputa-
tion, and useful to the Farmer, Gardener and Florist.

The following notice of the work is copied from one of the most
excellent Agricultural and Horticultural periodicals, the New York
Farmer :

‘ We cannot refrain from again calling attention to a periodical
which we deem worthy of a liberal support. It is very much on
the plan of Loudon’s Magazine ; and the editors, like Mr. Loudon,
appear to be much at home, in conducting their work.’

The following resolution was passed at a late meeting of the
New York Horticultural Society :

‘ *Resolved,* That the New York Horticultural Society hail with
pleasure the appearance of Hovey’s American Gardener’s Maga-
zine as a work highly creditable to the Horticultural talent of the
country, and thus the Society will subscribe to the work.’

All communications, letters, packets, books, &c. should be ad-
dressed to the conductors, Nos. 79 and 81 Cornhill, Boston, Mass
