For details, see "Land Areas of the National Forest System," File 1380 (5400).

This handbook is designed for use by members of the Forest Service, U.S. Department of Agriculture.

It shows the organization of the Forest Service, with the addresses and telephone numbers of the main field office and units. It lists the personnel chiefly responsible for the various units, key functions, lines of work, and research projects. THIS IS NOT A DIRECTORY OF ALL PERSONNEL.

The first person named for each unit, function, project, or installation is the one in charge. Titles are omitted unless needed to show the relation of individuals to the organization or to indicate specific duties.
