WHOLESALE PRICE=LIST

Of Hardy Decorative Flowering Shrubs and Plants, Ornamental Trees, Evergreens, Roses, Bulbs, Herbaceous Plants, Fruits, Etc., Etc.

1840.

B. M. WATSON,

1892.

OLD COLONY NURSERIES,

PLYMOUTH, MASS.

DEAR SIR:—I have the pleasure of handing you my **WHOLESALE** list of Shrubs and Plants and Young Trees. My system of packing, after fifty years' experience, is so perfect that I am enabled to send plants to California and the most distant parts of the Continent in perfect safety. Plants packed for Europe with great care. I give you the benefit of the lowest prices and hope to have your orders in full.

To persons about to ornament their grounds, I shall be happy to show the extensive plantations here, agreeably laid out in the modern style, covering fifty acres, containing many thousands of the leading hardy Ornamental Trees, Shrubs, Evergreens, Fruits, etc. My plantations, now forty years old, are perhaps the most extensive in New England.

Agents and Clubs.—Agents are wanted in every town in the United States for the sale of Trees, Plants, and Shrubs. These prices are net; agents must make their own prices.

Please remit by check or P. O. order. Autumn delivery begins October 1, and Spring delivery begins March 10. If you receive more than one list, please distribute to your friends. I will send lists to any address you may send me.

Yours respectfully,

B. M. WATSON.

Decorative Perennial Herbaceous Plants.

These plants are all hardy and produce an immediate effect, as they bloom the first year they are planted. They should be planted in the autumn, which is the best time for planting herbaceous plants, and should be covered with a forkful of dung to protect them from being thrown out by the frost. I offer the following choice collections of my own selection, in the very finest and most useful sorts. This class of plants is fast taking the place of bedding plants, as they do not have to be renewed every year.

Collection of 12 choice sorts, all different named,	\$2.50

The finest cranberries in the world are grown in this neighborhood. The crop last year amounted to more than a million dollars in value.

Only the very choicest and most approved sorts of fruit are grown, and all orders are filled with the greatest care in regard to variety, quality, and season.

ACORNS OF THE ENGLISH ROYAL OAK. It is found that this magnificent oak is the best grown on the Pacific coast, and I have sent many hundred pounds to the United States Government Stations there to grow plants for distribution to planters. I will send these acorns by mail, prepaid, for 50 cents per pound. By freight, \$4.00 per bushel.

THE BEST FERTILIZER is unleached hard wood ashes. I send a bag of 200 pounds to any address, by freight or express, at your expense for \$3.00 per sack. Send for Circular with all particulars for use, in full.

NEW PLANTS, shrubs, trees, evergreens, climbers, fruits, etc., etc.; or of recent introduction; or which are particularly useful and important to all planters whether on a small or large scale.

NEW CHINESE AND JAPANESE HERBACEOUS PEONIES; now offered for the first time in this country. These are considered the finest varieties of this gorgeous flower ever offered.

Well established plants from the open ground

in these nurseries.

EMPRESS AUGUSTA. Outer petals dark rose, center light rose with silvery points. Deliciously fragrant. A flower of great merit.

COUNT MOLTKE. Ring petals crimson rose, inner petals copper colored; light shaded toward the margin, changing to white. Giant flowers of extraordinary beauty.

GLORY OF ERFURT. Pure white, some of the petals slightly touched with crimson veins. A huge flower like a magnificent rose. Extra.

BELLE ALLIANCE. Pure tender rose, one of the most lovely varieties ever produced. A very double flower and a most abundant bloomer. Extra.

WACHT AM RHEIN. The flowers are a most brilliant purple with violet shadings. The stamens are sulphur yellow. A very charming flower of delicious perfume.

EDELKOENIG. Clear light crimson flower. The margins of the petals are silvery. The plant is of a magnificent high growth, very suitable for the center of a group. One of the most striking varieties ever produced. Extra.

FUERST BISMARCK. The flowers of this peony are a brilliant blood red. Their form is globular. The color is very novel and striking. The flowers are most agreeably and delicately perfumed.

LORD BYRON. The ring petals are very large, of a delicate crimson. The inner petals are small, pure milk white. When fully developed the flowers are light rose, and are very delicate indeed, or, as my correspondent says, "they are tremulous."

EMPEROR WILLIAM. The most superb dark variety ever grown. The flowers are of a rich black purple with brilliant yellow stamens, finely formed.

This is an exquisitely beautiful novelty of the first excellence.

In addition to the above novelties I have a very large and complete collection of the older varieties, many thousand plants. Of these I offer the following assortments at very low rates. They consist of the most celebrated sorts known, and include many that are yet rare.

12 different named sorts, the set, \$4.00
25 " " " " " 9.00
50 " " " " " 20.00

Also, the following first class kinds including all the fine old favorites.

12 distinct plants without names, \$2.50
25 " " " " " 4.00
50 " " " " " 8.00
100 " " " " " 15.00

The plants I offer are all well established in the open ground.

The peony, like all herbaceous plants, is best planted in October or November and should be protected the first winter by a forkful of dung. This is important to prevent heaving by the frost.

The Japanese and Chinese peonies are well known to be the most showy flowers in cultivation, and are particularly adapted to our climate. They are entirely hardy and bloom a long time. They are accordingly very much used now for large masses in cemeteries, parks, and pleasure grounds; and may be followed by Lemoine's beautiful new French Gladiolus, (See p. 12), the stiff foliage helping to support the spike of gladiolus.

THE CHINESE TREE PEONY. The tree peonies are shrubby sorts from China and Japan making hardy bushes of considerable size, and bearing immense flowers of great beauty. Rare, one sort, \$1.00. Six named sorts, \$6.00.

SEVERAL NEW hardy herbaceous plants of great merit.

The new pinks, Glen Valley and New Mound, light and dark varieties, are of high merit and should be in every garden. Great bloomers. .15 1.50 15.00
Most useful for cutting.
POLYANTHUS, new laced sorts in great variety. Excellent for cutting. .15 1.50 15.00
SPIRÆA JAPONICA GRANDIFLORA, or COMPACTA MULTIFLORA, a splendid novelty far superior to the old Spiræa Japonica. It produces an abundance of large compact luxuriant spikes of pure white flowers and is immensely superior in every way to the old variety. Indispensable to florists, who should plant it largely. .35 3.50 25.00
It blooms a long time. The flowers are like ostrich plumes. First class for forcing.
SPIRÆA ASTILBOIDES, a new and entirely distinct species from Japan, with long feathery spikes of the purest white flowers. The plant is entirely hardy and the greatest acquisition for many years. It is the finest thing possible for forcing, and is quite indispensable to florists. The above two plants are invaluable where cut flowers are required. .75 7.50
