Exotic nurseries

## Points of Interest and Difference

You will not only find names in this Catalogue, but also the plants in our nurseries.

EXOTIC NURSERIES' plants are grown in large quantities; this gives you the opportunity to select from thousands of plants.

EXOTIC NURSERIES' plants are never pot bound and give you the assurance to repay you by a splendid growth if you give them ordinary care.

EXOTIC NURSERIES' plants are leading for their good appearance, because they are regularly trimmed to have a good shape. A well trimmed tree will add to the value of your grounds, where a crooked one fails. Is this not especially true when you compare a line of straight sidewalk trees with a line of distorted trees? Our sidewalk trees are straight like a candle.

THE EXOTIC NURSERIES don't tolerate cheap, poor looking plants. All our potted plants are in pots or in special made boxes. The "tin can plants", we are glad to say for your benefit and our pride, don't find any room in our nurseries.

EXOTIC NURSERIES' plants are packed with special care, responding to all exegencies, our packing boxes are especially made for us and assure safe delivery.

THE EXOTIC NURSERIES' are able to furnish especially large plants for those who like immediate results.

THE EXOTIC NURSERIES mean to do business in a true business way; we are young and ambitious and we build up on the results obtained by serving you satisfactorily and courteously.

Order always from a responsible business concern because it will confirm its assertion by its acts. This is even more true for a firm handling plants intended to live.

```
WE ALWAYS INVITE YOU TO VISIT OUR NURSERIES IN ORDER TO INSPECT AND COMPARE OUR STOCK OF PLANTS FOR YOURSELF.
```

## ROSES

Santa Barbara is known for the fine growth of its roses. We have all leading varieties, giving general satisfaction.

Order your bare rooted rose bushes during the winter (end December, January and February). Large roses can be ordered most any time during the year. We have also a large assortment in pots available the year round.
