Ministry of Transportation Notification No. 25

February 7, 1950

In accordance with the provisions of Article 10 merce and Industry, Transportation, Communica- of the General Regulations for the Transportation tions and Labor Ordinance No. 1 of 1948) shall be Council (Ministry of Transportation Ordinance No. 75 of 1949), notification on the decision of the A part of the Appendix No. 1 shall be amended Transportation Council is hereby given as follows:

Minister of Transportation OYA Shinzo

Franchise for Construction of Nagoya Municipal Rapid Transit Railways

We submitted the subject for deliberation to the Transportation Council by Tetsu-Kan No. 902 dated December 12, 1949, and received the following recommendation therefrom:

No. 1

- 1 -

January 18, 1950

Subject: Franchise for Construction of Nagoya Municipal Rapid Transit Railway

Mr. OYA Shinzo, Minister of Trans-

portation

Mr. KIMURA Takanori, Chairman of Transportation Council

After due deliberation on the subject referred to the Council on December 12, 1949, we judged there can be no objection to your giving the franchise on condition that administrative guidances are given as follows:

1. To adopt a plan of underground system possibly, in stead of the plan of open-cut system;

- 2. To make a reorientation of the plan of connecting with and building into Nagoya Station, JNR, after conference with the parties concerned;
- 3. To promote the completion of transportation capacity of the existing street cars and buses, to improve the services thereof, and to take care of increasing traffic convenience for the general citizens, in addition to making efforts for completion of the construction work of the Rapid Transit Railway. Remark:

Committeeman Ota's opinion especially expressed on this subject to the following effect is appended here:

There is no doubt that the plan of the rapid transit railway applied for approval by the Municipality of Nagoya will contribute a great deal to alleviating the congested traffic of the city, when completed; but, on the other hand, from the financial point of view, it is feared much difficulty will be met with in putting the plan in practice, and 7. Others in addition the operation of the railway, after its completion, will not be so easy as generally expected.

If, in granting franchise to the new construction of a railway, the prospect of procuring the fund needed for the construction of the railway and various financial questions arising in the future as to its operation should be taken into consideration, the application by Nagoya City, in my opinion, ought to be rejected, but, on the other hand, I do not believe it is absolutely necessary to grant franchise to the construction of a new railway in strict accordance with this consideration, so I am for granting franchise to the present application.
