

Albany 4<sup>th</sup> July 1830

Dear Sir

I Received your favor of the 22<sup>nd</sup> ult which reminded me of my promise made to you when I was at your residence in Waterloo I have no excuse to make for my neglect in not fulfilling my promise in writing to you some time ago I hope Sir you will not be neglect to drop me a line as often as convenient it is with pleasure I receive from any of my friends in Seneca a sketch of what is going on there I was much pleased with the result of the deliberations of the Supervisors of that County in regard to the poor and the poorhouse hoping if we can carry into effect your resolve it will be a barrier against any attempt of a division of our County But permit me to say to you that there is some midnight work going on in our County <sup>I suspect</sup> from some inquiries made by one of the Citizens of that County whom I lately conversed with pray Sir watch every movement and endeavor to check the disorder before it reaches this place for I will assure you the spirit of revenge stands as high as ninety I feel sorry to see any thing that can possibly be converted into politics enter the gates of the City

at present I think at least four out of the five members  
from the two Counties are opposed to a division of the  
same but Sir I fear it would avail but little if the  
question assumed a political aspect for myself I  
should be opposed to any division at present. There has  
been two Citizens here from abroad & at present two of your  
townsmen are here these business I have not yet learned  
every little of importance is going on at the Capital  
there is much said about the bank Law the safety fund  
and rechartering banks and some says has been  
 is called the Loan Law but this bill  
has passed its third Reading, (I must close after  
saying I hope I may be more faithful) in regard  
to the District attorney I am with you with all  
my heart I have the Honor to subscribe myself  
yours with due respect -
