## P R E F A C E .

THE present is the sixth number of the Cambridge Directory. It is believed it will be found in no respect inferior, and in some particulars superior, to those which have preceded it. The Directory, which forms the main feature of the work, has been carefully revised with much labor and expense, and every effort has been made to render it accurate and reliable. The list of tax-payers, whose tax is over twenty-five dollars, has been carefully compiled from the Assessors' books. The calculations for the Calendar pages were made by Mr. Isaac B. Bradford, a gentleman connected with the Nautical Almanac office in this city.

It has been the object of the publishers to present the citizens of Cambridge with a work which should be valuable for every day reference, and a convenience both to citizens and strangers. Should the public avail themselves of the advantages thus presented, the publishers will find, in the ready sale of the work, the accomplishment of a further object they had in view—a moderate remuneration for the trouble and expense they have incurred.

At this school, boys are thoroughly prepared for College or fitted for Mercantile and Scientific employments.

It is under the supervision of the President of the College, who is Chairman of the Board of Visitors, and conducts the Semi-Annual Examinations, assisted by members of the Faculty and other Literary gentlemen of Cambridge.

It is now, for the twelfth year, under the charge of its present Principal, and during this time more than fifty of its pupils have been honorably admitted to College.

Possessing these peculiar advantages, it offers strong inducements for the patronage of those desirous of having their sons accurately prepared for the University.

Comer's system of Book Keeping and the Translation and Pronunciation of the French language, in the improved method of Prof. Taibot, are taught in the school.

## A Purely Vegetable Preparation,

*Has been used and sold in Boston for the last thirty years, and its virtues have stood the test of time.*

The power of the Russia Salve is astonishingly great. There is no salve now in general use that can surpass it in prompt and energetic action. If applied to the highly inflamed parts, externally, it at once subdues the inflammation and pain. It will quiet the most "argry" looking wounds, soften and reduce swellings of the hardest kind, and restore to perfect soundness old and inveterate sores. Among the diseases to which this
