THE DAILY BEE.

WEDNESDAY MORNING, MARCH 3 TOO CANUED BY HALF, The indiscretions of friendship have passes into a preverb. Open emistry can be seen and consequently resisted, but the love this blunderingly betrays is apt to remain unsus pacted until its work of misobier is accommended. pected until its work of misobhef is accom-pinhed. It has been the fate of all parties to be most vitally injured by their adherents. Davies Western is popularly held to have given the coup de grace to the Whig party; Wa. II. Suwano has undoubtedly hurt Black Republicanism, and Former, Douglas & Co.

have contributed powerfully towards the present depressed condition of the great emocracy. We think that the latter, indeed, ave more to contend with in the way of rash and invital friends than any other political organization. Even the accredited exponents of Democracy have not tact enough to steer

organization. Even the accuracy of Democracy have joint fact enough to steer of Indiacrect avowals.

For example, the Washingtop Union of the 33d contains an editorial article which is about the most discouraging to its own party we have ever read. Many portions of it would not be at all imappropriate in the columns of the New York Tribuse or the Albany Erraing Journal. It opens with the spice of the Albany Erraing Journal. It opens with the spice declaration that "it argues great weakness and demoralization in the Democratic party, if they are unable to meet and ope with the Republicans." It then goes on to demonstrate that the Republicans are without patriotism, without regard to the constitutional rights of the States; that they are subile disunionists; that they are pointed states and gamblers, and that PRODUCE Market.

The sema authority quotes the Bugar martial abolition of the Guidents and priority of Laverbook, March 12.—Richardson, Spence & Co.'s circular Pallow Wheat is quoted at 5s. 5d. to 6s. 2d. to 6s. 2d. to 10s. 4d. per cental. Yellow and mixed Corn 6s. 5d. per cental of 10 pounds; White Corn 7s. 3d. to 7s. 4d. per cental of 10 pounds; White Corn 7s. 3d. to 7s. 4d. per cental. The decline on lower qualities is quoted at 2s. 6d. And the stands of the stands o the university of the factor bad." A charming acknowledgement, truly, for a Democratic organ. Behold the inexorable logic of the Choon. The Black Republicans are unitigated accumps, and ought to be easily defeated by the Democracy. Nevertheless the Democracy are the vanquished instead of the victors. Ergo, the Democracy are worse than the Black Republicans. Q. E. D. But the frankness of the micropolitan organ does not stop here. The Choon is resolved to make a clean breast of it, and holdly to state the exact causes why Democracy lies in so forior and hopeless a condition. So it brings to bear a fermidable battery of complaints. It talks of the machinations of demagogues, and the designs of scialal ambition, of the faithlessness of representatives, of the relaxation of the rigorous party Shibboleths which of yors were found as effectual, of ambitious combinations and the literature of the rigorous party Shibboleths which of yors were found as effectual, of ambitious combinations.

In putting up
FINE CUT CHEWING TOBACCO s been adopted by Measure, E. GOODWIN & BRO., Naw York City. N New York CITY.
TOBACOLO of the BEST QUALITY is selected, meaty wrapped in THE FOIL, and PATENT PRESERD.
The great advantage of this over other brands
nousists in the size of the pacinges, rendering it mere
nonvesient to carry in the pocket, and by being
PRESERD RICH to know MOUTE and HERRA and inconvestent to carry in the pocket, and by being PRESSED SOLID it keeps MODIT and PRESSE, and improves in quality as it is used; while in other brands, as soon as the pocket, so to spend the quality rapidly DETERIORATES — the tobscoo growing dry—and illusing the pocket, to the great anneyance of the consumer. The Dressing which the Pine Cut Tobscoo undergoes in the process of manifacture frees it from all grit or impurities so objectionable in the use of Ping Tobscoo.
