Introduction to Phabricator

Slides by Birgit Müller and Andre Klapper
Phabricator

- Project management tool, primarily for software projects
- Management of "tasks"
- Easier collaboration / working together

https://phabricator.wikimedia.org/
Who uses Phabricator?

- Notifications / Echo (Extension)
- Page Views (Tool on Toolforge)
- SRE / Technical Operations (e.g. hardware)
- Wikimedia Deutschland’s Technical Wishes Team
- ProveIt (Gadget on Commons)
- Wikimedia Hackathon (Organisation, Sessions)
- Your project?
- Edit-a-thon organizers, to request removing the user account creation limit [1]
- Wikimedia communities, to request site configuration changes [2]
- Vector (Skin)
- Wikimedia Sverige (for any of their projects)

- [1] https://meta.wikimedia.org/wiki/Mass_account_creation
Who uses Phabricator?

- Technically interested people, authors …
- Developers
- Product managers
- Testers
- Deployers
- People doing communication
- Designers
- Translators
- Documentation writers
- Triagers
- Analysts
- Organizers of events
- …
Tasks, Metadata fields, Projects

- Tasks (e.g. individual tasks, software bug reports, feature requests) with a description and further comments
- Associated projects (tags)
- Further metadata (Status, Priority, Assignee, Author, Subscribers, etc.)
Projects and teams

- If you want to develop something yourself, you need a project.
- Tasks get associated to projects.
- Projects can have members.
A project can have a workboard which simplifies planning. Workboards have columns. Tasks associated to the project are shown as cards in the columns. Drag and drop of cards is supported.
Setting priorities of tasks

- Priority values: needs triage, lowest, low, normal, high, unbreak now!
- Priorities express the urgency of a task.
- Maintainers, developers, product managers set the priorities.
- [https://www.mediawiki.org/wiki/Phabricator/Project_management#Setting_task_priorities](https://www.mediawiki.org/wiki/Phabricator/Project_management#Setting_task_priorities)

Filing a task
Well-written tasks with enough information get fixed faster: How to write a good bug report.

**Title**

"f1" prefix in Hovercards text for specific page on de.wp

**Description**

Steps to reproduce:
3. Hover over "Waalbrücke bei Nimwegen, gebaut 1931/1936" link currently linking to https://de.wikipedia.org/w/index.php?title=Waalbr%C3%BCcke_bei_Nimwegen&oldid=155342759

Expected result: 'Clean' Text extract.

Actual result: "f1" prefix for unknown reasons;
  [F4172031]
Steps to reproduce:

Expected result: 'Clean' Text extract.

Actual result: "f1" prefix for unknown reasons:
Creating a software bug report or a feature request

- https://www.mediawiki.org/wiki/How_to_report_a_bug
Requesting/creating your own project

- [https://www.mediawiki.org/wiki/Phabricator/Creating_and_renaming_projects](https://www.mediawiki.org/wiki/Phabricator/Creating_and_renaming_projects)
- Special permission required to create projects yourself.
- Create a task to request a project. Someone will create it for you.
- It is also possible to create forms (some fields pre-filled). See [https://www.mediawiki.org/wiki/Phabricator/Help/Forms](https://www.mediawiki.org/wiki/Phabricator/Help/Forms)
Create Project

Name: MyProject

Description:
A MediaWiki extension that provides a kitchen sink (that does not leak) via a Special page.

Icon: Project

Color: Blue

Additional Hashtags:

Initial Members: AndreTest01

Visible To: Public (No Login Required)

Editable By: All Users

Joinable By: All Users

Create New Project

(only if the user has permissions to create a project)
Creating the workboard of the project
Configuring the workboard of the project
Sorting the tasks on a workboard
Filtering the tasks on a workboard
Following activity in tasks or projects interesting you

- Receiving notifications about activity / changes: Via email or in the upper left corner of Phabricator (bell symbol)
- Preferences: [https://phabricator.wikimedia.org/settings/](https://phabricator.wikimedia.org/settings/) → Email Preferences
- Individual tasks: “Subscribe”
- Projects (and all their associated tasks): “Watch”
Following activity in individual tasks

- Edit Task
- Edit Related Tasks...
- Edit Related Objects...
- Protect as security issue
- **Subscribe**
- Award Token
- Flag For Later

Tags
- WikiCon-Vortraege (September)

Subscribers
- Heinz, Birgit

Following activity in projects
More / advanced functionality (not covered here)

- "Spaces" for non-public projects (e.g. security issues)
- Personalize your Phabricator front page (dashboards)
- Advanced search; Saving / sharing custom your searches
- "Flags" (personal bookmarks for tasks, similar to a watchlist)
- Hierarchy between tasks (parent tasks and subtasks)
- Agile development (if you know terms like "Scrum" or "Burndown charts")
- etc.
