VICTORIA, B. C., FRIDAY, JUNE 13, 1913

NO. 138

NEW YORK STATE BANKERS PRESENT AT BANQUET HELD IN OTTAWA NOTABLE FOR PRONOUNCEMENTS ON UNIVERSAL PEACE

Toasts Are Honored Pledging Mutual Friendship and Good-
will Between English-Speaking Nations; Americans and
Canadians Make Reference to Trade Relations Be-
tween Neighboring Countries of the Continent

JAMES J. HILL ON VICTORIES OF PEACE SAYS CAPITAL MOST COSMOPOLITAN FORCE

Ottawa, June 12.—Notable for its many pronouncements for universal peace, with particular reference to the coming centenary celebration of peace between Great Britain and the United States, and with regard to trade relations between Canada and the United States was the banquet given last night by the Dominion government to delegates in attendance at the annual convention of the New York State Bankers' Association. Men eminent in the banking and political life of the two countries were present, and pledged mutual friendship and goodwill, and drank toasts to "The King," "The President," "H. R. H. the Duke of Connaught," "Sir Charles Fitzpatrick, Chief Justice and Administrator," "Our Guests," "The Canadian Bankers' Association," and "The City of Ottawa."

After the toast to the King had been honored, Right Hon. Mr. Borden read a reply from the King to the telegram of greetings sent by the association at the opening of the convention.

A delightful tribute was paid H. R. H. the Duke of Connaught, by Sir Charles Fitzpatrick, who referred feelingly to the reason His Royal Highness had been forced to leave Canada at the present time.

"The more we know of each other the better it will be for both nations," Mr. Borden said in proposing the toast, "Our Guests," and in welcoming the bankers to the capital. "We are met here to celebrate the 100 years of peace, and although we have had our differences, public men in the United States and Canada have been true to the public trust invested in them, and we thank God for it. We have shown the world a boundary line of 4,000 miles unguarded, and that surely is something worth showing."

"The glory of the citizenship of Canada and the United States," declared Hon. Cornelius A. Pugsley, "is that true bravery and devotion to duty are to be found not alone on the battlefield, but everywhere that men and women have tasks to perform. War and passion between our countries, I believe, have perished."

"Some victories of peace," was the keynote of the address of J. J. Hill, the noted American railway magnate, who responded to the toast, "Our Guests." He said:

"One hundred years ago what was probably the last war ever to occur between English-speaking people was drawing to a close. It was most bitterly contested along the northern boundary line of the United States. The population of the country then was almost exactly equal to that of Canada at the present time. The revenue of the United States during that war rose to more than ten million dollars per annum. There was no Dominion of Canada in those days, only a few provinces that had been the scene and the prey of so many of the European wars of the seventeenth and eighteenth centuries. Not yet, to use the immortal phrase of a great English statesman, had a new world been called into existence to redress the balance of the old."

"The one hundred years of peace succeeding the contest bravely waged on both sides have wrought for the better understanding, the larger view. Whatever have been the general movements among the nations in favor of peace, those whose mother tongue is English will never again take up arms against one another. A difference of opinion between Great Britain and the United States which arbitration could not settle is not conceivable. Frictions between Canada and the United States is impossible. Boundary questions and questions of fishing rights are either definitely passed upon or have their assigned tribunals. Before us stretch the long years of amulation in the time of brotherhood."

"It is fitting that such an occasion should be celebrated in your beautiful city and under the auspices of the representatives of capital in both countries. Capital is the most cosmopolitan force in the world. From the beginning of human intercourse it has broken down more barriers, cemented more bonds, than all the armies and navies in the world. Capital to-day furnishes the shew of war; for none can long be carried on anywhere, as a rule none would ever be begun, if the great bankers of the world should agree in refusing to finance it. Arbitrators of peace and agents of material development, everywhere it is most appropriate that they be heard here and to-day."

JAMES J. HILL

American Railway Magnate heard at Ottawa banquet last night on "Some Victories of Peace."

LARGE ALBERTA CROP WITH GOOD WEATHER

Early Summer Makes Up for
Backward Spring; Increased
Total Acreage

REPORTS FROM FORTY- FIVE CORRESPONDENTS

Calgary, June 13.—Given reasonably good weather for the next two months, Alberta will this year harvest the greatest crop in its history. This is the summary of crop reports which the Herald prints to-day from forty-five correspondents in this province.

The recent trouble between President Gomez and the federal council, composed of ten of the best known military leaders of Venezuela, arose over an agreement with France which was rejected by the council, although substantially approved by congress.

President Gomez resented the opposition of the council and prevailed on congress to pass a law providing that the substitute of each councillor might be called upon to serve even during the absence of the councillor himself. Several of the councillors, scenting danger to themselves in this move, took to flight and the remainder of them kept armed guards in front of their residences at all times.

San Francisco, June 13.—Nine more policemen, making seventeen in all, were named to-day by Michael Gallo, a convict in San Quentin penitentiary, as partners with the eight already under indictment or conviction in the bunco ring known as the "forty thieves," which is estimated to have cleaned up \$300,000 before it was scattered.

Other speakers were Hon. Andrew Jackson Montagu, Hon. Mr. Paget, Col. D. R. Wilkie, J. C. Cannon, and Mayor Ellis.

PLOTTED TO KILL PRESIDENT GOMEZ IS UNDER AGREEMENT

Details of Recent Venezuela
Political Disturbance Are
Made Public

MANY PROMINENT MEN IMPRISONED OR FLED

General Manuel Corara Asked
to Join, Refuses and Gives
Information

OPPONENTS ACCUSING GOMEZ OF JEALOUSY

Willemstad, Curacao, June 13.—Details of the recent political disturbances in Venezuela, where a large number of prominent men were imprisoned or took flight following accusations of conspiracy against the government reached here to-day. It is stated that a plot to assassinate President Juan Vicente Gomez was frustrated by the imprisonment of General Delgado Chabaud and a number of his friends. The plot was to have been carried out at the inauguration of the Venezuelan automobile club a few weeks ago.

The announcement made by the government says: "The plot was uncovered through General Manuel Corara, who flatly refused to join in the conspiracy. When invited to become a party to the plot, he started toward Miraflores Palace to inform the president of the danger. On his way he was shot at, but escaped injury. The information he gave to the president led to the imprisonment of the plotters."

In circles in which General Chabaud is well known it is stated that there was no plot of any kind against Gomez. The president is declared to have imprisoned General Chabaud because of jealousy and fear that he might become a candidate for president next April.

In connection with the approaching campaign for the presidency there is much speculation in Caracas. Many believe that Gomez will try to succeed himself, although such action is contrary to the constitution.

Should disorder break out, General Gomez has a great many things in his favor. The army is in splendid condition. The officers are loyal to him and there is plenty of money in the government treasury. Merchants in Venezuela who are at present enjoying great prosperity are not inclined to support any movement which would interfere with their welfare.

The recent trouble between President Gomez and the federal council, composed of ten of the best known military leaders of Venezuela, arose over an agreement with France which was rejected by the council, although substantially approved by congress.

President Gomez resented the opposition of the council and prevailed on congress to pass a law providing that the substitute of each councillor might be called upon to serve even during the absence of the councillor himself. Several of the councillors, scenting danger to themselves in this move, took to flight and the remainder of them kept armed guards in front of their residences at all times.

REWARD OFFERED FOR MEN WHO ROBBED CAR

Descriptions Given by Passengers
Being Implicated

Vancouver, June 13.—There have been no arrests by the police in connection with the daring hold-up of an interurban car of the B. C. E. R. on Wednesday night, while on its way from Vancouver to New Westminster. The transportation company offers a reward of \$250 to the person or persons who will provide the necessary information to secure the conviction of the guilty parties.

Description of the two men who held up the car, and robbed the conductor and passengers, is as follows: The man who appeared to be the leader of the pair talked like a Swede, he was five feet, nine inches in height, was rather stout, apparently weighing about 170 pounds, had a slouch hat and wore a dirty suit. The revolver carried by this man was a dark blue weapon of the automatic type. The other man was about five feet seven inches in height and weighed about 140 pounds, wore clothes similar to his companion and from his speech it was thought to have been an Italian.

AMERICAN SHIPPING IS UNDER AGREEMENT

Findings of Ship Trust Com-
mittee Appointed to Inves-
tigate Presented

UNDERWOOD BILL IS ROUNDING INTO SHAPE

Expect to Have Tariff List
Ready for Caucus by
Next Week

SENATE LOBBYISTS STILL FACE PROBE

Washington, D. C., June 13.—Competition between coastwise steamship lines has been largely eliminated, and agreements exist between practically all the established steamship lines operating to and from American ports. These are the findings of the House ship trust committee announced to-day by Chairman Alexander, of the House ship trust investigating committee.

Making public the first three volumes of the committee's proceedings, he declared there was contained evidence that competition between coastwise lines had practically been eliminated and all established lines from American ports were in agreements.

"In the domestic trade," said Mr. Alexander, "agreements between steamship lines to regulate competition do not play nearly so prominent a part as in foreign trade. But numerous methods may be used to accomplish the same purpose, and the committee is aware of at least thirty which have been, or are being used, to control competition between water carriers in the domestic trade."

"In the trade with foreign ports, the committee found at least seventy-six agreements or understandings, the purpose of which was to fix and maintain rates, regulate the traffic, and in many instances pool the business. These agreements govern nearly all the regular lines operating in various branches of the American foreign trade to Europe, Africa, South America and the Caribbean district."

"Practically all the lines serving both the Atlantic and Pacific seaboard of the United States are members of conferences or work in co-operation with written agreements or oral understandings."

With majority members of the senate finance committee continuing to approve reductions in tariff rates of the Underwood bill and transfers of articles to the free list, the measure is rapidly being whipped into shape for the senatorial Democratic caucus.

Majority members of the finance committee expect to have the tariff bill ready for the caucus by the middle of next week. They resumed consideration to-day of sub-committee reports.

Beet sugar interests and their efforts to retain a protective duty on sugar were again under scrutiny when the senate lobby committee to-day resumed hearings.

The extent to which public documents had been circulated in behalf of the campaign to retain the sugar protective tariff occupied the attention of the committee. The fact that the documents had been presented as "public documents" by senators or representatives made it possible for them to be circulated through the mails without the payment of postage.

UNDER SECRETARY DOWN ON TARIFFS

London, June 12.—F. D. Acland, foreign under secretary, speaking at Cardiff last night, said the tariff parties' proposals were calculated to smash the Empire by creating dissatisfaction between the home country and the colonies, and would endanger the position of Great Britain among the nations. Under tariffs, trusts would grow and a hopeless condition of politics would be engendered.

FIRE DESTROYS THE VILLAGE OF BISCOE

Sudbury, Ont., June 12.—The village of Biscoe, on the C. P. R. between Carleton and Chapleau, was completely wiped out by fire last night. Among the buildings destroyed were the Catholic church, Hudson Bay store, the depot and scores of dwellings. The big lumber yards of Booth & Shannon Lumber Company were all swept away also. The loss will be about \$250,000.

SELL ARTICLES ONCE OWNED BY M'KINLEY

San Francisco, June 13.—A number of articles once owned by former President McKinley are to be sold at auction here next week. They are part of a collection of the late George E. Morse, who was husband of Ida McKinley, known before her death as "the president's favorite niece." Badges, photographs, clippings and books are included in the list of things to be sold.

CABINET MINISTERS ABSOLVED FROM ALL BLAME IN MARCONI WIRELESS CHARGES

Parliamentary Committee Says All Acted Throughout in Be-
lief That Their Actions Did Not Conflict With
Their Official Duties

DAVID LLOYD GEORGE

London, June 13.—British cabinet ministers were to-day absolved by the parliamentary committee from all blame in connection with the scandals alleged to have surrounded the contracts between the British government and the Marconi Wireless Company.

The report of the parliamentary committee which investigated the affair, was issued to-day. It declares that there is no foundation for any of the charges made against Attorney-General Sir Rufus Isaacs, Chancellor of the Exchequer David Lloyd George, or Postmaster-General Herbert L. Samuel.

The committee finds that all of the ministers concerned acted throughout in the interest and belief that there was nothing in their action which would conflict with their duty as ministers of the crown.

The report further says that "no evidence was given showing that any member of the British government exercised influence in order to procure the contract for the English Marconi Company or in any way acted contrary to the public interest in behalf of that company or used knowledge acquired in his official capacity for his private profit or was concerned in any dealings in the shares of the company."

The report in conclusion strongly condemns the publication of charges which were absolutely untrue, and which those responsible for their circulation had no reason to believe true.

The foregoing extracts are from the report of the majority of the parliamentary committee composed of Liberal and Radical members of parliament. It is understood that there will be minority reports, but these have not yet been made public.

TWENTY-FIFTH YEAR OF KAISER'S REIGN

Festivities Open To-day With
Review of Automobile Corps
and Army Chase

EMPEROR AND EMPRESS WITNESS TOURNAMENT

Berlin, June 13.—The festivities in connection with the completion next Sunday of the twenty-fifth year of the reign of Emperor William opened this afternoon with a review of the imperial automobile club, the military volunteer automobile corps, and other automobile organizations on the army chaise in the western suburbs of Berlin.

LAUREATESHIP NOT STRONG FINANCIALLY

Butt of Sack, and \$350 An-
nually is Pay for England's
Most Honored Poet

IRISH WITS IN HOUSE ASK PREMIER ASQUITH

London, June 13.—The poet laureateship, which is vacant, owing to the death of Alfred Austin, carries a salary of \$350 a year with an allowance of \$15 in lieu of "a butt of sack." Premier Asquith enlightened the members of the House of Commons last night with this information when Arthur Lynch, the Irish member for West Clare, made inquiry as to the salary, perquisites and privileges, which were attached to the office. The premier admitted that he did not know the exact duties of the post.

Swift McNeill, another Irish member who is known as the wit of the House, suggested seriously the revival of the post of king's jester. Another member promptly suggested Mr. McNeill for the post. Captain Lynch wound up the discussion by asking whether a butt of sack was not an intolerable deal of as for a ha'porth of poetry.

British cabinet minister absolved from charges made in connection with Marconi Wireless Company.

THREE KILLED FIVE HURT BY EXPLOSION

Vernon, B. C., June 13.—Three men killed and five injured, some very seriously, in premature explosion in rock cut near Naramata on Wednesday afternoon at 5 o'clock. The killed, whose names are Pistro Guiseppo, Camillo Alluriso and his brother Dominico, were buried yesterday after inquest had been held by Dr. R. B. White. The injured men are in the Naramata hospital.

PORTLAND TO-DAY WILL HAVE BATTLE OF ROSES

Portland, Ore., June 13.—The battle of the roses this afternoon will be the main event to-day of Portland's Rose Festival. Six electric cars laden with roses will be the ammunition with which an onslaught will be made upon others stationed in buildings and along the walks similarly armed.

In preparation for the event great quantities of roses have been accumulated, and the battle is expected to be one of the most beautiful spectacles of the week. Other than harness races and a swimming contest, the battle will be the only event during the day.

TWO MEN DROWNED

Edmonton, June 13.—Robert Gilken-
son, 35, and Charles May, 30, were
drowned in the Saskatchewan river
here to-day by the upsetting of a boat
in which they were crossing the stream.

APARTMENT BLOCK FALLS IN VANCOUVER

One Workman Killed and Seven
Injured When Pender
Street Building Falls

DEFECTIVE CONCRETE IS GIVEN AS CAUSE

Three Stories Collapsed While
Bricklayers Were Working
on Construction

EMPLOYEES HAD NO CHANCE TO ESCAPE

Vancouver, June 13.—With a crash that was heard for many blocks, three stories of a new four-story block in the 200 block, Pender East, collapsed at 10 a. m. to-day, killing one man instantly, burying two more in a mass of debris and injuring five others so seriously that they were taken to the General hospital, practically all five in an unconscious condition. The man who was instantly killed, was a carpenter, Henry Anderson, who was at work on the first floor.

Three of the injured men taken to the General hospital were bricklayers working on the top of the second story, and were hurled to the bottom of the building when the wall gave way. Their names are A. Robinson, Thomas Evans and A. Berio.

It is claimed that the accident was caused by a defect in the concrete work at the lane end of the structure. The building is of the type known as mill construction, being largely of concrete. It is said that large concrete beams at the rear which apparently were to support the floors of the building at that point had not properly set.

While the men were engaged in laying bricks and proceeding with other construction the whole affair at the lane end gave way. The workmen were caught without a moment's warning and had no chance to dodge the falling mass of concrete, brick and timber.

A force of the city firemen are now engaged in trying to prevent the other walls of the building from falling, but it is believed these may go at any moment. A tremendous crowd surrounded the building and the work of the police and the firemen was rendered all the more difficult by the curiosity manifested. Firemen and policemen did their best to find two men supposed to be in the ruins. The building was being constructed by the J. F. Wineland Construction Company.

The structure was to be used as an apartment block by the owners of the property, Barrett and Dean. The contractors are said to be the firm now building the Empress hotel block on Hastings street, where a man named Axlund fell to his death some days ago. The dead man was pinned by an avalanche of two-by-four-inch flooring. He was jammed against the outer wall of the building and was dead when found. Anderson was a roommate of Axlund, who was killed on the Empress hotel block.

It was reported later to-day that the police had found the two men who were buried under the debris and that they had been taken to the hospital. One is supposed to be suffering from internal injuries while the other is hurt about the head. It is believed that neither will recover. There are now supposed to be six or seven men in the general hospital, all of whom are badly hurt.

CONFESSED TO MURDER NOW REPUDIATES CRIME

Harrisonville, Mo., June 12.—Mrs. Ida May Keller, who yesterday confessed in the presence of the sheriff, county prosecutor and coroner, that she killed her husband, Arthur Keller, and her seven-year-old daughter, Margaret, Tuesday, with an axe, called Sheriff Pratter to her cell in the county jail to-day, and repudiated the confession, saying that the Kansas City detective who investigated the murders "scared it out of her."

THREE FIRMS FAIL ON LONDON STOCK EXCHANGE

London, June 13.—Pay day on the London stock exchange in connection with the heaviest settlement since the occurrence of the American crisis, produced two small failures in addition to the one announced on Tuesday, this week. Some assistance had to be given in other quarters.

It is believed that the trouble is now over and the tone of the market was again cheerful this morning with prices generally higher.

KILLED BY LIGHTNING.
Moore Jaw, Sask., June 12.—Ralph W. Dawson, a homesteader, was killed by lightning at his farm 20 miles southwest of Expanse yesterday morning, when riding on a load of lumber.

VANCOUVER OFFERS STRIKE MEDIATORS

Board of Trade Notifies Mine Interests and Workers of Desire

Vancouver, June 12.—The Vancouver Board of Trade has officially offered its services as mediator between the striking miners on Vancouver Island and the mine owners, and communications were forwarded to W. F. Stockwell, Nanaimo, and E. Coulson, Cumberland, representing the mine managements, and Frank Farrington, representing the International Mine Workers' Union, to that effect. The board has also advised the premier, Sir Richard McBride, of its action. The board proposes to offer the services of its arbitration committee here towards settling the dispute or towards the appointment of an arbitration board to adjudicate all matters involved in the dispute, with the idea of securing an early return to work of the men now out on strike. The board operates under a federal charter, and is governed by a council of fifteen members elected annually, and of this council the twelve receiving the largest number of votes, is termed the arbitration board of the council.

In the communications sent to the opposing interests, it was said that Vancouver, being one of the largest consumers of the Island coal, the business interests of this city were naturally very anxious for a settlement. It was pointed out that neither the mine workers nor operators had suggested the action, but that the board of trade was stimulated by the desire for the welfare of this city.

STRANGE MESSAGE IS SENT TO VICAR

Events in Connection With Suffragette Arson Squad Foretold From Paris

London, June 12.—How the burning of the church of St. Catherine's at Barchin was foretold by an astrologer was related last night by the vicar, the Rev. Howard Truscott, at a meeting of the congregation called to consider the question of rebuilding.

Mr. Truscott mentioned that he had received sympathetic messages from Queen Alexandra, who forwarded a donation of £20, from the Princess Royal, and from Mr. A. J. Balfour, and then said that this time last year he received a letter from a man in Paris.

"The man in Paris," the vicar continued, "was called an astrologer, and in the ordinary way I should have put the letter into the wastepaper basket. However, I put it away in my desk, and it was only a few days since that I took it out and read it. Nothing particularly struck me until I came to the end of this communication, where he said:

"Allow me, sir, to give you a test. In May, 1913, on the 6th, you will lose something particularly dear to you, but you will find something very dear."

"On May 24, 1913, you will receive a royal message, and between the 18th and 24th a prominent politician will communicate something of interest to you."

"I thought nothing more about that communication," said Mr. Truscott, "until I turned it up while looking for something, and about that very date Queen Alexandra sent me a message, and Mr. Balfour also sent me a message. When we went over the ruins, the first thing my eye fell upon in the choir stalls was a book that I loved very dearly. There it stood in the stalls in its usual place, surrounded by debris untouched, and without a single spot or blemish upon it."

The vicar added that he hoped the church would be rebuilt in a more beautiful form than it was in its original state, and he made a strong appeal to all to do what they could to forward that object.

The Bishop of Southwark also made an appeal for funds.

TELLS OF OPERATIONS ON HEART AND BRAIN

Nobel Prize Winner is Heard in Lecture at the Benjoin Hospital

Paris, June 12.—Surgical research has proved that operations in the thoracic cavity can be performed as easily as in the abdomen, according to Dr. Alexis Carrel, of the Institute for Medical Research, New York.

In a lecture yesterday afternoon at the Benjoin hospital in Paris, the Nobel prize winner declared that experiments on animals had demonstrated the heart to be an organ of very great resistance and that it does not suffer harm if the circulation is interrupted for five or even ten minutes.

The brain, however, said Dr. Carrel, is more delicate and may not be interrupted for more than 3 to 4 minutes, which, nevertheless, gives time for the accomplishment of such surgical work.

PREFERS WORK TO CAPITAL SOCIETY

Daughter of Secretary Wilson Says Servant Has Best Time Among Working Women

St. Louis, Mo., June 12.—"I'd far rather be back at work as a stenographer than be doing Washington society," said Miss Agnes Hart Wilson, daughter of William B. Wilson, secretary of labor, to-day, in what she termed her first interview.

"Unfortunately, I had to quit work as my father's secretary when he received his portfolio. My mother is unable to perform the duties of hostess, and I must serve in her place."

Miss Wilson is in St. Louis attending the convention of the National Women's Trade Union League.

"What sort of girl do you think is the best off, the so-called business or working girl or the servant?" she was asked.

"The servant by all means. She has the time, her occupation is more healthy and she can improve her condition. And also, she is paid just as well. Of course, all girls are not adapted for housework, but for those who are I think it is the best thing."

"This matter of the stenographers looking down upon a waitress or of the bookkeepers frowning on a housemaid is all bunk. One is just as good as another, and the women must realize it."

POLAR HERO'S FLAG HUNG IN CATHEDRAL

Worked by Mrs. Wilson for Husband Who Perished With Captain Scott

London, June 12.—The sledging flag taken by the late Dr. E. A. Wilson on Captain Scott's South-Pole Expedition has been presented by Mrs. Wilson to Gloucester cathedral, and the dean has granted permission for the flag to be hung in the Lady chapel of the cathedral among the war-worn flags of the Gloucester regiments.

The flag was worked by Mrs. Wilson, who, in a letter to the dean, writes: "These sledging flags have always been taken on Polar expeditions since Franklin's time. They are long, narrow ones, 2 ft. by 1 ft. broad, with St. George's cross at one end and the man's crest in the middle. The ground-work of this flag is black, and of course, St. George's flag is red on white."

"The flag was found rolled up carefully by my husband's side in the tent, with the Caius College, Cambridge, flag, which he also took with him to the Pole, and another small flag which has been left for New Zealand."

"Gloucester cathedral was more loved by him than any other church in the world. I think he knew every inch of it, and I have the most beautiful drawing that he made of it, so I am venturing to ask you about the safe keeping of his flag."

UNIONISTS WIN THE WANDSWORTH SEAT

Samuel Defeats Havelock Wilson by Over Six Thousand Votes

London, June 12.—The Unionists succeeded by an increased majority of over 1,700, in retaining the Wandsworth seat, which became vacant owing to the resignation of Sir Henry Kimber. The figures are: Stuart Samuel, Unionist, 13,425; Havelock Wilson, Independent Labor, 7,088; Unionist majority, 6,337.

The two previous majorities over Liberal candidates were 5,939 in January 1910, and in the December election of the same year, 4,614. Issues on which the election was fought were mainly those of opposition to the Home Rule Bill, Welsh Disestablishment and need for amendment of the Insurance Act.

MANUFACTURER HEARD ON FINANCIAL AFFAIRS

Retiring Chairman of C. M. A. Speaks of Optimism and Uncertainty

Toronto, June 12.—"Nothing is further from my mind than to sound a discordant note, nor do I want to be classified as a panic monger, but I would like to suggest to you as manufacturers the necessity of restricting your business operations to a proper relationship to the capital invested over which you have control," said A. R. Clarke, retiring chairman of the Toronto branch of the C. M. A. at the annual meeting this afternoon.

"It has been a peculiar year, factories have been taxed to their capacity, and in many cases capacity has been increased. Money has been scarce, cost of living is still high. The country is prosperous, optimism prevails, yet with all this there is a feeling of uncertainty which appears to cloud the atmosphere and suggests conservatism for the time being," said Mr. Clarke.

MANY AT FUNERAL OF THE LATE V. V. MURPHY

Duncan, June 12.—The funeral of the late V. V. Murphy took place on Wednesday afternoon at the church of St. Peter's, Quamichan Lake, Duncan. The cortege left Duncan at 2 p.m. The hearse, entirely covered with beautiful wreaths, was followed by eight pallbearers, Messrs. Bundoock, Brooksmith, Cargenven, H. B. Hayward, Hills, Hilton, Lipscombe and Macadam, of the Cowichan cricket team, of which the deceased had been so popular a member. The service, most impressively conducted by the Rev. Canon Leakey, was choral, the chosen hymns being "O, God, Our Help in Ages Past" and "Jesus Lover of My Soul."

There was a large attendance, and many people came up from Victoria. The late Mr. Murphy was a man of singularly charming disposition, popular with all. The whole district mourns the loss of one who was so essentially a sportsman.

Wreaths were sent by J. Murphy, Cowichan Cricket Club, Oak Bay Cricket Club, Mr. and Mrs. Bundoock, Mr. and Mrs. Hayward, Dr. and Mrs. Barcroft, Mr. and Mrs. Charter, Mr. and Mrs. Clogston, Miss Holmes, the C. N. R. engineering department, H. B. Hayward, G. Perkins, P. M. Hills, Col. Hobday and sons, H. R. Sullivan, F. Orr and Mr. Pegler.

He Got Between the Sheets—Nice clean sheets—the rooms are beautifully clean and quiet too. Terms, \$4 per week and up "at The Kaiserhof."

ASSEMBLY FINISHES TORONTO CONVENTION

Votes of Thanks Passed to All Who Assisted in Large Presbyterian Gathering.

TRAINING OF MEN FOR MINISTRY DISCUSSED

Toronto, June 13.—The General Assembly of the Presbyterian church, which has been in session for the past eight days, and was preceded by a memorable congress attended by several thousand ministers, concluded its work last night. Votes of thanks were passed to all those who had helped in making the gathering a success, especially to the people of Toronto, who assumed the responsibility for the entertainment of the visitors for the entire period of their stay.

The attendance at the meetings was greatly lessened, but a very large amount of church business received attention. No controversial debate occurred, and the reports indicated great progress, especially in the West.

Steps were taken during the afternoon to complete the union of various organizations of women, who are engaged in securing money for the missionary enterprise of the denomination. Of these, the two largest have been the Women's Foreign Missionary Society. During the past two years there has been a movement for their amalgamation, and this has now been practically consummated. The two bodies will continue their separate existence for the current year, but will get together next year, when several other women's organizations in the Eastern provinces will also be taken in.

The deaconess' work was reviewed and a report on the training home in Toronto was received. This branch of activity was developed in very recent years, but already thirty-nine graduates of the school have been sent out to employment at home and abroad. This year sixteen girls were graduated from the school, and of these thirteen have gone into active service. Several went to the foreign field, while the balance were located in city churches between Vancouver and Halifax.

Rev. Dr. W. McMillan, of Halifax, presented a report on the training of young men for the ministry. For years there has been a lack of men offering for this work, and three years ago a special committee was appointed to ascertain the reasons for the state of affairs and to secure, if possible, a list of names of men who were considering the question of entering the work for the church.

Dr. McMillan reported that a list of 300 names had been obtained, and that the number in the colleges was increasing.

The eight theological colleges of the church reported through a committee, of which Rev. Dr. John Forrest, of Halifax, was the chairman.

Manitoba College, Winnipeg, was given permission to abolish its preparatory department and to appoint a professor in the theological department to give instructions in the English Bible.

Rev. E. H. Oliver, was continued in charge of the college at Saskatoon. The hymnal committee announced that a revision of the book of praise would be made and completed in 1915.

An announcement was made with reference to the union committee. No change is to be made in the membership of the body.

HOLDS THE RECORDS TO PRESERVE PEACE

Governor Hatfield Declined to Submit Information to Senate Committee

Charleston, W. Va., June 13.—Governor Hatfield, of West Virginia, declined last night to submit to the senate mine strike committee the records of the trials before the military committees, which took charge of the strike-ridden district of the state during the trouble this spring.

In a letter to the committee the governor said that the findings of the commission in these cases had never been approved, the men had been released, and he desired to keep the records for use in seeking indictments in the civil courts. To make them public at this time, he claimed, would be prejudicial to the public peace.

AIRSHIP IS INJURED.

Farnborough, Eng., June 12.—The British army airship Astra Torres met with a serious accident at its first trial here to-day. The envelope sprang a leak and part of the framework buckled up. The crew managed to land the airship safely and none of them were injured.

CLEMENCEAU FRIENDS NOW WITH POINCARE

Political Surprise for Paris When "The Tiger" is Asked to the Elysee

Paris, June 13.—The unexpected announcement was made yesterday that a reconciliation had taken place between President Poincare and his great opponent M. Clemenceau. "The Tiger," as M. Clemenceau is nicknamed, had been asked by the president to call at the Elysee, and M. Clemenceau, who had not met the president since his election in January, accepted the invitation. And this after bitter political fighting that nearly ended in a duel.

When M. Clemenceau two months ago caused the downfall of the Briand ministry he was not even summoned by the president to be consulted on the political situation.

While M. Clemenceau has been opposing the policies of the last three governments on electoral reform and the religious questions, he has given his support to the militarist policy of the government.

On the question of the return to the three years' system of active military service, he has separated from his Radical friends, and entirely approves the government's policy. Moreover, he is conducting an earnest campaign for this policy in "L'Homme Libre." It was on this account that the reconciliation took place.

The "Gil Bias" declares that it is in a position to state that the president thanked M. Clemenceau for his active support of the militarist policy of the government, and, with important documents in his hand, explained to him confidentially the grave matters which obliged the government to revert to the three years' system.

It is understood that should M. Barthou and his present ministry not possess sufficient influence to induce parliament to adopt the three years' service measure, against which there is great opposition in the Republican party, President Poincare, putting aside all other political question, will ask M. Clemenceau to form a ministry.

A Suit Sale of Special Interest

Ladies' Handsome Suits
Values to \$35 for \$19.75

Ladies know full well that when we advertise a line similar to the one here mentioned, that they can make the journey to town in full confidence of not being disappointed when they get here. We never advertise what we cannot fulfil to the letter. When we say it is a reduction in price, it is a reduction, and a genuine one. In proof we invite your inspection of these magnificent \$25.00 and \$35.00 Suits, which we are specializing for to-day and to-morrow (Saturday) only at \$19.75

These splendid New Season's Suits come in a variety of colorings, fabrics and styles too numerous to mention here; but they are each one examples of positively up-to-the-moment designs of taste and individuality. Guaranteed perfectly tailored garments, and of the best materials. The colors include golden tans mordore, tabac, castor, light and dark greys; very smart shepherd's checks and cord stripes in black and white, and a number of fine fast indigo dye navy serges. Among them also are corduroys, tweeds, repps and fine West of England worsteds; all lined with rich, heavy satin, and in beautiful styles from the strictly plain man-tailored suits of excellent workmanship and elegant lines to the more fanciful styles, to suit all sizes and figures. REMEMBER, ALL BRAND NEW—NOTHING UNDER \$25.00, SOME AS HIGH AS \$35.00, for \$19.75

A. Brown & Co., 1302 Douglas St.

The Fire Marriage of the Rani, Spectacular Opera and Pageant, to be produced at the Royal Athletic park from June 23 to 28 will present gorgeous dances of the Orient. Among these are the Dagger Dance and the marvelous Fire Dance of the Hindu Marriage of Fire. Beautiful display cards may be seen in prominent windows.

May View Rooms.—To-morrow afternoon Miss Bradshaw, general secretary of the Y. W. C. A., will be at the newly-acquired Y. W. C. A. (old Union Club) to show any intending members or intending residents over the building. The work of renovation and furnishing is progressing rapidly, and the management hopes that the association will be able to remove to the new premises some time about the end of next week or the beginning of the week following. This afternoon's meeting of the board of management is considering several important details in connection with the impending change.

Phone 994 for good millwood—\$3.00 double load. \$1.50 single load.

Build \$3,000 House.—The Ward Investment Company took out a building permit this morning for a dwelling to cost \$3,000 to be erected at 1025 Pendergaat street.

Council Will Not Meet.—The Friday night special meeting of the city council will not be held this evening. The regular council night is Monday, but this year business has been so pressing that special meetings have been held every Friday evening.

To Hear Applicants.—The special committee of the city council to receive applications for the office of assistant building inspector will meet to interview applicants at 3 o'clock Friday June 20, a week from to-day.

Accounts to Be Taken.—In the appeal of Disher vs. Dinkin, in which the plaintiff asks for the reversal of the judgment refusing an application for a dissolution of partnership, the court of appeal has allowed the appeal and ordered that there be a taking of accounts as between the parties.

Y. W. C. A. Girls Meet.—A pleasant little gathering took place last evening at the Y. W. C. A. rooms on Quadra street, when the gymnasium class had tea with the secretary, Miss Bradshaw, the tables being set in the garden, and the little feet being immensely enjoyed both by the hostess and her guests.

Left for Ottawa.—On a matter affecting the whole province W. A. Macdonald has left the city for Ottawa to appear on behalf of the province before the railway commission in connection with an application for a readjustment of freight and passenger rates west of the Great Lakes. Mr. Macdonald expects that a settlement will be arrived at this session.

Scottish Clans Association.—L. Graham H. Horton-Smith, M. A., F. S. A., Scotland, who was last year elected chief of the Scottish Clans Association, of London, in succession to Lord Inchcape of Strathnaver, has been re-elected chief for the ensuing year. J. McIntyre Masson has been re-elected president, and the new chaplain of the association is the Rev. Archibald Ewing.

Indian Commission.—During the last three days the members of the Royal Commission on Indian lands have been visiting reservations which are within easy distance of the city of Victoria. Wednesday they went out to Sooke and there met a number of the Indians who all seemed very satisfied with existing conditions. Yesterday the commission visited Beecher Bay. The members will be visited next week in order that the commission may inspect the reserve on Burrard Inlet.

Improvement Work.—Considerable local improvement work is being carried on in Oak Bay, the engineer having a very busy time. This work has included more particularly the laying of drains and sewers and the construction of sidewalks and pavements. Sewers have been laid on Bowker avenue, Fowl Bay road, Florence street, Olympia avenue, St. David street, Hart road and Pleasant avenue. Water mains have been laid on Muirgrave street, Dunlevy, St. David and Oliver street.

West End W. C. T. U.—Yesterday afternoon the West End branch of the W. C. T. U. met in the lecture room of St. Paul's Presbyterian church, Victoria West, when the following delegates were appointed for the provincial convention which opens next week at New Westminster: Mesdames McAdam, Armstrong, and Purdy. It was decided to assist the funds for the work of the Men's Mission on Store street, and a special parlor meeting will be held for this purpose on July 17 at the residence of Mrs. A. J. McKenzie, 566 McPherson avenue.

Maccabees at Church.—The supreme officers of the Ladies of the Maccabees of the World having appointed Sunday next as memorial day, the members of the order in this city will attend service at Emmanuel Baptist church, at the terminus of the Spring Ridge car line at 11 o'clock a. m. Members are to congregate on Gladstone avenue above Fernwood road, fifteen minutes before the commencement of the church service. A red rose, the floral emblem of the order, will be worn by all members. At 3 o'clock in the afternoon the ladies are to meet at the main gate of Ross Bay cemetery for the purpose of decorating the graves of deceased members.

A LINE O' CHEER EACH DAY O' TH' YEAR

By John Kendrick Bangs

FISHING.

All the world's a fishin' pool, And within its waters cool Lie all sorts of fishes. We can catch most any kind That is suited to our mind 'Cordin' to our wishes.

We can land a mess o' woe Any time we wish to go After trouble anglin' We can land no end of care In the waters everywhere On the hooks of wranglin'.

We can fill our basket up Like an overflowin' cup With a mess begullin' If we bait our fishin'-hooks With good cheer, and pleasant looks, Sympathy and smilin'.

J. S. BRANDON RUNS FOR SCHOOL TRUSTEE

Nominations June 23, Election June 26; Property Qualification Required

Nominations for the vacant position on the public school board created by the resignation of W. E. Staneland will take place on Monday, June 23, before Returning Officer W. W. Northcott, who will remain in the police court room from 12 a. m. until 2 p. m. to receive them. The election will also take place in police court on Thursday, June 26.

J. S. Brandon, the well-known member of the legal firm of Tait, Brandon and Hall, is the only candidate announced so far, and prospects are exceedingly bright that he will be elected by acclamation. Mr. Brandon is a comparatively young man, who has had considerable success in his chosen profession of law, and is eminently suited for the position, inasmuch as he has had several years' experience as a teacher. He was principal of school at Trail, B. C., for seven years, and was for two years president of the Kootenay Teachers' Association. He is a graduate of Queen's University.

For the first time in Victoria there is a property qualification required of candidates for the school board. Under the amendments to the School Act candidates are required to have the same property qualification as candidates for alderman, namely, a clear title to real property of the value of \$500 for six months before nominations.

WEATHER BULLETIN. Daily Report Furnished by the Victoria Meteorological Department.

Victoria, June 12.—5 a. m.—Low pressure area cover British Columbia and the prairie provinces, and the weather on the Coast is chiefly cloudy; rain has fallen on the Lower Mainland and in Oregon and Washington. East of the Rockies a thunderstorm occurred at Q'Appelle, and rain has fallen at Calgary, Medicine Hat and Swift Current, and the weather is mostly unclouded and warm.

Forecast: For 26 hours ending 6 p. m. Saturday, Victoria and vicinity—Light to moderate winds, chiefly cloudy and cool, with showers.

Lower Mainland—Light to moderate winds, mostly cloudy and cool, with showers.

Reports: Victoria—Barometer, 29.88; temperature, 50; minimum, 50; wind, calm; weather, part cloudy.

Yancouver—Barometer, 29.85; temperature, 48; minimum, 48; wind, calm; rain, .16; weather, clear.

Kamloops—Barometer, 29.74; temperature, 58; minimum, 56; wind, 8 miles S. E.; weather, cloudy.

San Francisco—Barometer, 30.00; temperature, 52; minimum, 52; wind, 12 miles W.; weather, clear.

Edmonton—Barometer, 29.64; temperature, 56; minimum, 56; wind, 4 miles S. E.; weather, cloudy.

Winnipeg—Barometer, 29.74; temperature, 68; minimum, 62; wind, 6 miles S. E.; rain, trace; weather, clear.

Victoria Daily Weather. Observations taken 5 a. m., noon and 5 p. m., Thursday: Temperature. Highest 60 Lowest 52 Average 57 Rain, trace. Bright sunshine, 1 hour 36 minutes. General state of weather, cloudy.

CUBS AND WARDS.

This evening at the North Ward park, the Cubs and Wards will clash in a junior league game at 6.30 p. m. This is the second time these teams have met and an interesting game is anticipated, as both teams are fairly equally matched. The Wards have won every game this season so far and intend to keep up their winning streak if possible. Balcom and Taylor will be the star artists for the Wards, while Finland and Woods will be on the mound for the Cubs. The following players are requested to be on hand at 6.30 p. m. for the Wards: Plovs, Dinadale, Lane, Cummins, Revercomb, Hall, Ledingham, Milne, Wall, Taylor, and Balcom.

ST. GEORGE CRICKET TEAM.

The Sons of St. George will have their regular cricket practice Saturday afternoon at 2.30 o'clock at Beacon Hill park. All interested are asked to turn out.

Never Ask a Favor from a man who has just lost a law-suit or banged his funny-bone—rather buy him a genuine imported "Humber" Bavaria's finest, 10c per glass "at The Kaiserhof."

Ask the Bride's Opinion

Of the Gerhard Heintzman Player-Piano, and, nine times in ten, the reply will be enthusiastically favorable. The young women of Western Canada know the merits of this great instrument. They meet with it in the houses of scores of their friends and they hear of it as a wonderful player on all hands. In seeking a gift worthy of any bride you cannot go wrong in selecting the

Gerhard Heintzman Player-Piano

Like the Gerhard Heintzman piano, this instrument is the best player-piano made in Canada. In design and finish it is superb; its action and player parts are unsurpassed for simplicity and absolute satisfaction. We sell the Gerhard Heintzman Player-Piano on easy terms to meet any requirements. It costs less than many inferior instruments.

ASSIST MEN'S MISSION. BOYS' CENTRAL WINS JUNIOR.

Members of West End Women's Christian Temperance Union Will Hold Parlor Meeting.

To assist in raising funds for the Men's Mission, Store street, the West End Women's Christian Temperance Union is to hold a parlor meeting on July 17 at Mrs. A. J. Menzies, 586 McPherson avenue. Arrangements were made at the union's meeting yesterday afternoon. Honorary members are being added to the roll as a further source of revenue and the membership is rapidly growing. The delegates to the provincial convention at New Westminster June 16 are Mrs. McAdam, Mrs. Armstrong and Mrs. Purdy.

Rock Bay Sang in Wrang Contest and Withdrews From Tie. No arrangement has yet been made for singing off the tie in the public school singing competition, but Rock Bay has withdrawn from the junior contest and Boys' Central will therefore hold the shield. Owing to a misunderstanding of the terms of the competition Rock Bay school sang in the junior instead of the senior contest and scored along with Boys' Central 27 points, the highest score made. Miss Hardie, the principal, discovered the error and came forward voluntarily, saying that it would be unfair to continue further in the contest with a junior school.

TEES COMPLETES TRIP TO OBSERVE SCHEDULE

West Coast Steamer Hurries Back to Leave To-night; Princess May Out Also

In order to keep the schedule date specially fixed for this month the Tees made a quick trip up the west coast, and will leave again to-night for the regular run. She sailed this morning so that there should be no delay in getting away.

When the steamer was at Kyquot whaling station four humpbacks were seen, and the staff was busy. Results appeared to be better than last season, although the fisheries in Barkley Sound were very energetic prosecuting the business while the run progresses. A fair number of passengers made the trip on this occasion, but the last few days down the officers experienced bad weather, and had experiences more appropriate to December than June with climatic conditions.

Another vessel to leave to-night will be the Princess May for Skagway and way ports. She will take a considerable amount of freight north. In harbor to-day to receive an overhaul, and attention to her engine room, where a thorough cleaning is thought to be desirable.

HERO OF CIVIL WAR PASSES AT SEATTLE

Seattle, June 13.—Capt. John Flynn, who was aboard the historic Monitor as a sailor when it made its fight against the Confederate ironclad Merrimack, and who was afterwards with Admiral Farragut when he ran the blockade at New Orleans, died on Wednesday at his home, 982 Second avenue west. He was 70 years old. All his active life was spent on the sea, and it was not until 20 years ago, when he came to Seattle to settle his brother's estate, that he lived for any time ashore.

He fought through the civil war and was in many of the sea fights. His last command was the Clinewitch. Since coming to Seattle he has lived a retired life, the centre of a large group of friends, who loved to hear him recount the adventures of his old sea-faring days.

Many stories have been written of him in the local papers. He was an authority on the history of those who go down to the sea in ships, and remained until the last a fine type of the rugged seaman of the old days.

Captain Flynn was born in Liverpool, England, in 1843. He was married in 1872 to Theresa, the youngest daughter of Peter Boggiano, of Liverpool. All his children were born at sea. He leaves, besides his widow, the following children: Captain George A. Flynn, captain of the steamship Arcti-koctus, of Liverpool; Henry C. Flynn, of Seattle; Mrs. N. Schmidt, Mrs. Wm. L. O'Connell, Mrs. L. J. Hollenath, and Miss Grace Darling Flynn, all of Seattle.

Funeral services were held from the cathedral this morning at 10 a. m., with interment at Calvary.

J. R. Forde, district engineer for the Dominion government at Revelstoke, is on the coast with a view to the purchasing of a dredge for the lakes in the Kootenays, but in view of the fact that the best example of a suction dredge here in the King Edward, employed on the Fraser river, it is doubtful if any other type will be selected.

SCIENTIFIC PARTY READY FOR START

Topographer Joins Arctic Expedition; Finishing Details Being Hurried

With the arrival last night of Djarne Mamen, a Norwegian, who was topographer with the Danish-Spitzbergen expedition, the scientific part of the Canadian Arctic expedition was completed. Mr. Mamen, who will be topographer with the expedition, brings the total number of scientists up to fifteen. The crew of the Karluk is complete and all is being made ready for the departure on Tuesday next. Part of the Karluk's men will man the Alaska, which is to join the expedition at Nome. The captain of the Alaska has not yet been selected, but the choice is to be made immediately.

The Alaska. The members of the expedition are greatly impressed with the suitability of the Alaska for polar work. She is said to be perfectly fitted for her task. Though 45 feet long and 17 feet beam, she is so constructed that she draws but six feet of water when loaded. Her bottom is so shaped that she will not list appreciably even though sitting on a sand bar. Furthermore she should be jammed by ice, her hull is so formed that she will be merely lifted, not crushed. With her 50 horse power Frisco standard engine she will make 7 1/2 miles an hour, and under favorable conditions 9 miles an hour. Her propeller is of the latest speed type.

In her gasoline tanks sufficient fuel may be carried to enable her to travel 1,800 miles. Her electric light plant will supply 20 lights. For a vessel of her size for 23 passengers, and her quarters for the crew forward, offering surprising accommodation. Covered with two-inch planking her hull is strong. One of the provisions which is expected to prove of great value is the 250 horse power winch. This, which is of much greater power than the engines, will be used to pull the ship off sand bars in case she grounds, a line being put out from the deck. The Alaska has been known as a power trading schooner.

To Nome by Steamer. Leaving for Nome by separate steamer on or before July 1, Stefansson will be one of a party which will include Dr. Anderson, second in command, and Mrs. Anderson, Burt McConnell, the explorer's secretary, and three friends from New York. They will proceed to Nome, where the Alaska will have been fitted out, and will be awaiting the party.

When the parties are in the ice field the nearest wireless station will be that on Herschel Island. The Northern party, it is expected, will be completely out of touch with the world while at work, but the southern party will be only about 200 miles from the Herschel Island station. It is expected that the southern party will be able to send word from the station to the outside world twice a year. This will be the only link of communication with the band of explorers for a long period.

The Karluk will return to the coal wharf on Monday to complete bunkering and will be fully ready to sail the following day.

The members of the party spent a busy morning at the navy yard to-day putting the finishing touches to the loading of the Karluk, and making sure that no detail had been overlooked. They continued their work until very shortly before the luncheon given by the Canadian Club to the explorer at the Alexandra Club, when they hurried down by automobile to the function.

RAINBOW OVERHAUL WILL NOW COMMENCE

For an overhaul, it has been arranged to bring H. M. C. S. Rainbow into drydock to-day, and prepare for work to commence upon her on Monday. With the exception of the trip to Barclay Sound with a party of military experts, she has been in the stream at Esquimalt for a considerable time, and probably a little attention to the cruiser will be necessary. The guns have already been removed.

While there has been much speculation as to the future of the vessel and the intention of the government upon the matter, no definite announcement of the arrangements to be made when the service term of the majority of the crew terminates next month has yet been made. It is stated that a watch crew will be placed in charge of the cruiser.

DEVELOP TRADE OF EAST COAST PORTS

Falls of Orchy Will Call After Berthing at Other Ports

When the Falls of Orchy arrives off this coast shortly from the Orient she will proceed direct to Vancouver, and after discharging there will continue to the Sound and Portland, and will then come to Victoria. Such are the arrangements in connection with the arrival of the second vessel of the Royal Mail Steam Packet Company on this coast in the newly organized service of the company to North Pacific ports.

The Vestalia and Den of Ruthven are both on their way out; here, and the former being the first of the vessels which left the Old Country after it was definitely decided to extend the China service to this country, she will really be the first which has loaded for British Columbia ports, apart from casual shipments picked up in the Orient.

The Royal Mail line is adopting a somewhat different position with regard to feeders for British freight to those lines already operating here. The ports of departure, and assembling of freight for this coast have by custom been London, Liverpool, and Glasgow, but now the Royal Mail line are looking after the east coast ports, particularly Hull, the eby tapping the business of the great Yorkshire cities and the Midlands countries.

Middlesboro, another east coast port on the Tees, is also like the ports of the Humber, the gate by which the products of a large industrial area reaches the world, and here the Royal Mail boats will call before leaving for the continent to collect freight at Rotterdam and Antwerp. There is not the slightest doubt that this trade will afford to be developed, and the recognition of the commercial possibilities of the British east coast has been shown of recent years in the establishment of docks on that side of the country.

Near Grimsby are the new deep water docks of the Great Central Railway at Immingham, which were opened last year, one striking proof of the value set by the railways on the North Sea trade.

NORONIC WILL BE QUEEN OF LAKE BOATS

Noronic Navigation Company Makes Handsome Addition to Service

Launched from the yards of the Western Drydock & Shipbuilding Co., Ltd., at Port Arthur, the Noronic will soon be available to assist the Grand Trunk route by way of the Great Lakes, and will be the largest and finest steamer on the lakes. She will become the flagship of the lake and rail route between east and west. The principal dimensions of the hull are as follows: Length over all, 385 feet; length between perpendiculars, 362 feet; breadth moulded, 52 feet; depth moulded, 23 feet 8 inches.

The hull is built on what is known as the Isherwood system of longitudinal framing. This construction is a very much stronger than the old system, at the same time being lighter, thus gaining in carrying capacity and speed. A double bottom is fitted four feet nine inches deep, extending the full length of the vessel, and the hull is divided by eight watertight transverse bulkheads into nine compartments. Two collision bulkheads are fitted forward, making her practically unsinkable.

SEATON PARK ALBERNI

This property consists of plots of five acres or so (which have proved most suitable for mixed farming and fruit and vegetable growing), and is situated less than two miles from the Alberni city limits and less than one mile from Sproat Lake.

The Trunk Road from Alberni to Sproat Lake and the West Coast, being a continuation of the Canadian National Highway from Halifax to Alberni, runs right through it.

It is one of the best sections of land in the Alberni district and was specially selected by experts of considerable farming experience.

The soil is of the finest quality, being nearly all Alder and Crab Apple bottom—excellent for crops of all kinds, also for fruit raising.

It has a beautiful river frontage, and the fishing at this point is of the best.

Altogether this property, both for location and quality of land, is adjudged much above the average in the Alberni district.

CHICAGO MARU BERTHS HERE AT EARLY HOUR WILL ADAPT VICTORIA FOR HALIBUT TRADE

Osaka Boat Will Be Here Tomorrow With Large Cargo; Canada Maru Follows

Early to-morrow the Osaka Shosen Kaisha liner Chicago Maru will berth at the outer wharf and will discharge 125 of the 167 passengers here, and about 200 tons of freight for Victoria, a similar amount for Seattle, and 400 for Tacoma, apart from another 2,000 tons of overland freight. There are consignments of silk, tea, matting, bamboo, braid and porcelain in the cargo.

She left Yokohama two weeks ago to-day, and was spoken from Estevan wireless station last night. The Chicago is being followed by the Canada Maru, which will be two days late in leaving Kobe on account of a slight accident which required attention to the steamer in the yards there. She will report on June 23 next.

EMPRESS OF ASIA SAILS TO-MORROW

Due in Victoria on August 30, the new Empress of Asia leaves Liverpool to-morrow for her maiden trip. Unlike the Empress of Russia, instead of using the Suez route, the new Empress will be shown to the citizens of Capetown and Durban en route here, and so bring before the people of South Africa some idea of the palatial steamers in the Pacific trade of the Canadian Pacific Railway.

A large number of round-the-world travellers will accompany the liner. The Empress of Asia is equipped with turbine engines and quadruple screws, and is capable of twenty knots. She has a displacement of 30,635 gross tons and is 533 feet in length, with a beam of 68 feet.

Captain Robinson is in command and will bring the vessel by way of Madeira, the June 18, Capetown, Durban (Port Natal), Colombo, Singapore, Hongkong, Shanghai (Woozung), Nagasaki, Kobe and Yokohama to Victoria.

DELAY IN SHIPMENTS OF FREIGHT NORTH

Matters of considerable importance to the shipping interests of Victoria are occupying committees of the Board of Trade to-day. This morning the railway freight committee considered the question of freight classification, and will make a report to the board, while a subject of considerable importance will occupy the trade and commerce committee sitting this afternoon, who take up the causes of the delay in securing deliveries of freight to northern points.

It is alleged that in cases where transshipment has to be made from steamers running out of Victoria, at Vancouver, such as deliveries to the Skeena, the Victoria freight for canneries and camps is kept waiting for dispatch north, and the intention to bring the subject up at the earliest possible moment with the authorities, to secure a revision of the system which operates against Victoria commercial interests.

25% DISCOUNT SALE

We have reduced our entire stock of Watches, Clocks, Jewellery, Silverware, Rich Cut Glass, etc., 25% until June 30

SPORTING NEWS

BEES CAPTURE ONE FROM THE TILICUMS

Once More Get Into Win Column; Harry Meek Responsible

With Johnny Rawlings out in front of him, Herr Meek, the relief first baseman of the Bees, squarely met one of the offerings of Pitcher Dell, of the Seattle Tillicums, yesterday, putting the cork-centre out of the lot and the home club's losing streak was a thing of the past. Score 5 to 4. It was Dell's second appearance against the Bees this week, Tealey Raymond evidently figuring on him to win a second game.

MEEK'S HOMER WINS FOR BUZZING BEES

Table with columns: Seattle, A.B.R.H.P.O.A.E. listing player statistics.

Los Angeles is certainly going the clip in the coast, excelling in fielding, batting and pitching. "Red" Dooin, who is thirty-three today, is only one among many diamond stars who has passed the thirty mark.

BUZUKOS CHALLENGES

Peter Buzukos, the lightweight wrestler who claims the championship of the world in that division and who defeated Charles Kelly in this city on Tuesday night, has issued an open challenge to any wrestler in British Columbia at 175 pounds for a side bet of \$500.

ATHLETES SUSPENDED

New York, June 13.—The Metropolitan Association of the Amateur Athletic Union announced to-day the suspension of five athletes, including the Olympic champion, Hannes Kolehmainen.

CARPENTER VS. WELLS

London, June 13.—Georges Carpenter, the French heavyweight pugilist, and Bombardier Wells, the British heavyweight, signed articles to-day for a return match in London in November.

HOW WE STAND

Table with columns: Yesterday's Results, Standing, To-day. W.L.Pct. Win Loss.

AS SEEN FROM THE PRESS BOX

Manager Tealey Raymond is making use of his three winning pitchers, Dell, Gipe and Fullerton are doing the most of the work.

Sam Felton, pitcher, who is twirling wonderful ball for Harvard, will likely find some big league manager dicker-ing with him before this season is over.

Felts who is still with the club cannot connect with the ball from the looks of things.

Bobby Steele added one more victory to his record on Tuesday over the leading Saskatoon team. He won by a score of 8 to 6.

Daniels, another old Victoria player, also pitched a winning game on the same day for Medicine Hat.

Jack Williams, who will be remembered as a member of the Bees, is pitching winning ball regularly for the Sacramento team in the coast league.

Los Angeles is certainly going the clip in the coast, excelling in fielding, batting and pitching.

Hurhey Jennings, manager of the Detroit Club of the American League, was notified to-day of his indefinite suspension by President Ban Johnson for alleged abusive language to Umpire Ferguson in the game at Washington yesterday.

President August Herrmann of the Cincinnati National League team received word to-day from President Lynch of the league, that Manager Tinker had been suspended for his conduct in yesterday's game pending the receipt of the umpire's official version of the affair.

While Freddie Welsh, the champion lightweight of England, scored a decision over Ray Campbell, a promising lightweight of Seattle, last night at Brighthouse arena, Vancouver, the showing of the latter was considered very remarkable for a scrapper so unknown to the game as Campbell.

Harry Pollock, the New York sporting impresario who is handling the tour of Freddie Welsh, says that Leach Cross, the dentist-scrapper, will have the better of Bud Anderson in their coming fight. Harry evidently has not seen Bud Anderson, for they are not thinking so on the other side of the line along this coast.

Cross, in a dispatch from Chicago, where he spent a day on his way to Los Angeles, is confident he can lick Bud Anderson. Equally as confident can be noticed coming from Vancouver, Wash.

"Harlem Tommy" Murphy, who fought one twenty-round draw with Ad Wolgast, and who later drew a decision over the former lightweight champion, and Johnny Dundee, have been matched to box twenty rounds in the Vernon arena July 15. Murphy has agreed to make 133 pounds ringside, for Dundee. The latter will weigh about 126 pounds.

For the second time this season the East End baseball team met defeat at the hands of the Hills last night at Beacon Hill, the final score being 14-2. The game, however, was more closely contested than the score indicates.

Watson and Falconer, of Beacon Hill, each rapped out a three base hit. Theo. Townsley, former pitcher of the Capitals and Hills, but who was forced to give up the slab work owing to an injury to his arm, played brilliant ball around the keystone sack, his best performance being a one-handed spear behind second. The East Enders have yet to win a game.

Davis' international tennis trophy has been postponed until Thursday, June 19, in order to give the South Africans more time to practice.

OAK BAY TAKES HEAD OF LEAGUE

Win Second Game of Season Last Night and Firmly Establish Position

The Oak Bay champion lacrosse team came through with its second win of the season last night at the North Ward park over the Lathers by a score of 4 to 2, in a fairly fast demonstration of the game. The Bays had their difficulties in getting through the Lather's defense up to the third quarter when they went in and won the game. There was no scoring in the final quarter.

The passing was good on the part of both teams, and the closeness of the score made it interesting from start to finish. The losing team played excellent lacrosse, but their defense fell down temporarily in the third quarter.

The goal work was good on both ends, Medridge, however, being called to accept more chances than Clark. The former saved his team several times in the early part of the game. The checking of Knox over his opponent was very effective. The score was 2 to 1 in favor of the Lathers at the end of the first half. There were only a few penalties handed out by Messrs. "McCaferly" Taylor and A. McGregor.

The next game of the series is scheduled for to-morrow at Sidney, but there seems to be some doubt among the Lathers as to whether they will be able to turn out so soon after last night's match.

The individual scores: First quarter, Beasley, Oak Bay, 9 minutes; Smith, Lathers, 5 minutes. Second quarter, S. Ross, Lathers, 2 minutes.

Third quarter, Dempster, Oak Bay, 12 minutes; Taylor, Oak Bay, 2 minutes. Fourth quarter, no score.

Penalties, first quarter, Lane, Oak Bay, 5 minutes, Moore, Lathers, 5 minutes. Second quarter, Martin, 10 minutes. Third and fourth quarters, none.

The teams: Lathers—Goal, Medridge; point, Balnes; cover, Sherwood; first defence, McLaren; second defence, Moore; third defence, McKay; centre, Brown; third home, Steele; second home, Ross; first home, Smith; outside, Coffey; inside, Stevens. Oak Bay—Goal, Clarke; point, E. McDonald; cover, Redgrave; first defence, Martin; second defence, Knox; third defence, Menzies; centre, Beasley; third home, Taylor; second home, Williams; first home, Lane; outside, C. McDonald; inside, Dempster.

FREDDIE WELSH IS GIVEN GOOD FIGHT

While Freddie Welsh, the champion lightweight of England, scored a decision over Ray Campbell, a promising lightweight of Seattle, last night at Brighthouse arena, Vancouver, the showing of the latter was considered very remarkable for a scrapper so unknown to the game as Campbell.

Harry Pollock, the New York sporting impresario who is handling the tour of Freddie Welsh, says that Leach Cross, the dentist-scrapper, will have the better of Bud Anderson in their coming fight. Harry evidently has not seen Bud Anderson, for they are not thinking so on the other side of the line along this coast.

Cross, in a dispatch from Chicago, where he spent a day on his way to Los Angeles, is confident he can lick Bud Anderson. Equally as confident can be noticed coming from Vancouver, Wash.

"Harlem Tommy" Murphy, who fought one twenty-round draw with Ad Wolgast, and who later drew a decision over the former lightweight champion, and Johnny Dundee, have been matched to box twenty rounds in the Vernon arena July 15. Murphy has agreed to make 133 pounds ringside, for Dundee. The latter will weigh about 126 pounds.

For the second time this season the East End baseball team met defeat at the hands of the Hills last night at Beacon Hill, the final score being 14-2. The game, however, was more closely contested than the score indicates.

Watson and Falconer, of Beacon Hill, each rapped out a three base hit. Theo. Townsley, former pitcher of the Capitals and Hills, but who was forced to give up the slab work owing to an injury to his arm, played brilliant ball around the keystone sack, his best performance being a one-handed spear behind second. The East Enders have yet to win a game.

HILLS UNFOLD ONE MORE STAR PITCHER

For the second time this season the East End baseball team met defeat at the hands of the Hills last night at Beacon Hill, the final score being 14-2. The game, however, was more closely contested than the score indicates.

FITZPATRICK & O'CONNELL. 1017-1019 Government South of Fort

WHO'S WHO IN SPORTS

A week from to-day the Harvard and Yale crews will clash in their annual four-mile race on the Thames. On the following day the big intercollegiate rowing regatta will be held on the Hudson at Poughkeepsie.

COURTESY FIRMLY BELIEVES

Courtney firmly believes, and he is giving a lot of attention to the "tumblers" of his athletes.

TO-DAY IN PUGILISTIC ANNALS

1908—Tommy Burns and Bill Squires played their second engagement on this date in Paris. The Canadian and the Australian first met in San Francisco the previous year, and Squires lasted only a part of one round.

REGATTA TO-MORROW SEVEN CREWS WORK

The second club regatta of the season will be held by the James Bay Athletic Club over the harbor course to-morrow afternoon. As there are seven crews entered it shows that the interest in the game is increasing.

SUCCESSFUL TRIP TO THE ALBERNIS

MANY EXCURSIONISTS ENJOYED THEMSELVES

Purpose Was to Strengthen Spirit of Co-operation Among the Island Communities

The main purpose of the excursion to the two Albernis on Wednesday was to strengthen a commonality of interest and the spirit of co-operation on the part of the various communities in the development of Vancouver Island.

This object, dominating the officials of the Vancouver Island Development League and the Board of Trade in organizing the expedition, met with a gratifying response all along the line.

The necessity of the island towns pulling together in perfect accord for the development of the island was the chord struck by every speaker at the public meeting in Port Alberni on Wednesday night.

Mayor Burde, who presided, referred to it in his few remarks of welcome. He alluded largely in the speech of C. M. Pineo, of Alberni, president of the Alberni District Development League, who succinctly defined the aims and objects of this admirable organization.

Mr. Shallcross also expressed his pleasure that the board of trade had initiated the Vancouver Development League which had grown from three or four branches to nearly thirty. He paid a warm tribute to the excellent work of Secretary McGaffey, who in the last year alone had contributed no less than sixty magazine articles on Vancouver Island.

An interesting and not generally known fact was disclosed by J. G. C. Wood, M. P. P. for the district. In the course of his remarks it was that last year Alberni district had a larger pre-emption record than any district in the province.

The remarks of Mayor Duncan, of Duncan, had special application to the agricultural possibilities of the

HONORED BY OXFORD

THE RIGHT REV. J. C. ROPER

Who was consecrated Bishop of Columbia in April, 1912, and who is at present visiting in England, is, according to the custom universally observed under the circumstances, to receive the degree of Doctor of Divinity from his old university, Oxford.

As the representative of a well-known farming community he was able to speak with unquestioned authority on this subject, and emphasized the value of co-operation on the part of the farmers in the development of agriculture and the welfare of the agriculturists themselves.

Mayor Duncan's observations formed the text for some good natured bantering remarks from the other side of the stage. Mr. Bledsoe, proprietor of the Alberni Advocate, Mr. Bledsoe reminded his audience that Alberni once had a creamery, but a far-sighted druggist at that stage embarked on all the cream, put the creamery out of business.

Mr. Day, a member of the council of Manchester, England, arrived on the Empress of Russia a few days ago, being the first passenger to set foot in Victoria. He declared that in all his travels since leaving Liverpool he had seen nothing to excel the beauties of Alberni district, which when sufficiently advertised, he said, would attract tourists from all parts of the world.

Both Alberni and Port Alberni enter-

ained their visitors in royal style. Mayor Burde declared a public holiday in Port Alberni yesterday, while the officials of the two municipalities, development leagues and boards of trade did everything possible to promote the pleasure of the small army which had invaded them.

Yesterday morning a large party were taken by boat down the canal to Murdoch & Company's Canadian Northern construction camp. There they were initiated into the big work of railroad building, and the domestic conduct of a construction camp.

Other parties were driven in automobiles to Sprout and Great Central lakes, whose scenic beauties have now won continental reputation.

The special train left Port Alberni for Victoria at 4.30 p. m., and made excellent time to its destination, which it reached shortly before ten.

There can be no doubt that the operation of the daily service between Victoria and Alberni will be of inestimable advantage to the southern portion of the island. It brings into intimate touch the older communities with what may be described as an almost virgin field.

Admiral Penrose Fitzgerald, in his "Memories of the Sea," tells among other tales of his career, how on occasion a new admiral—a Macdonald—had succeeded Admiral Campbell in the command of the Lisbon squadron.

KILLED TRYING TO STOP AUTOMOBILE

Well Known Alberta Rancher Jumps on Car Headed for Steep Bank

Medicine Hat, Alta., June 13.—In a vain but praiseworthy attempt to stop an automobile which was headed for a steep cut bank at Eagle Butte yesterday, in which were riding Mrs. James Hazard, of this city, and her infant daughter, George Mayberry, a rancher well-known all over Alberta, met his death.

At the time he jumped on the car he must have known that all chances were against his stopping it, still he stayed at the wheel and was instantly killed when the car turned over.

Mayberry, who was 35 years of age, has been a resident of Southern Alberta for many years, and was well-known all over the western country. He leaves a wife and one child.

A COMPLETE SWINDLER.

Egyptian "Prince" and Belgian Baron — Bogus Marriage.

Cairo, June 13.—The Alexandria native courts have been called upon to deal with an extraordinary case of heartless swindling. About two years ago, an Armenian, who lived in Alexandria, left for Belgium, and proceeded to Brussels. There he made the acquaintance of a rich Belgian baron, belonging to one of the best-known families of the country.

The Armenian, who posed as an opulent Egyptian prince, owning vast properties in Egypt, courted the baron's only daughter, and they were duly married. The couple continued to reside in Brussels, and the Armenian began to borrow from his father-in-law. So plausible were his excuses that in a very short space of time the Armenian had secured half a million francs.

Recently the three came to Alexandria and put up, at the baron's expense, of course, at the Savoy hotel. After about ten days, a richly furnished house was rented, and they moved into it. The Armenian would not allow his wife to go out alone or to receive visitors. However, one day the baron and his daughter made the acquaintance of a certain pasha, who informed them that the Armenian had been at one time one of his minor employees.

A Pasha's Revelation.

The latter, when interrogated by his father-in-law, ridiculed the idea, and said the pasha was jealous of him. Once again he allayed suspicions, and sealed the matter with yet another loan.

A few days later the Armenian entered his wife's room and stole all her money and a large dossier of shares, of which she was taking care for her father. Since then the pseudo-prince has disappeared. His wife has given birth to a little girl, and is forced to give music lessons, as she is destitute and her father has been ruined by his son-in-law.

Inquiries show that the Armenian was already married when he went to Belgium, and that his wife and children are still living in Alexandria. Not

only, therefore, has the baron been defrauded of his fortune, but his daughter's marriage is illegal.

MRS. T. DAVIDSON IS KILLED, OTHERS HURT

Nelson, June 13.—T. Davidson, railway agent at Midway, lost an arm, his wife was killed, and his child had a narrow escape from death yesterday when an ore train crashed into the gasoline speeder on which the three were riding near Greenwood. Mr. Davidson is lying in a critical condition at Greenwood. The child escaped with a severe shaking.

The whole of the injured man, is employed at the yard dispatch office of the C. P. R. at Nelson.

WAIT HUME RESULT BEFORE RESIGNING

Fisher Government May Yet Be Able to Hold Balance of Power

Sydney, N. S. W., June 13.—The Fisher government at a cabinet meeting yesterday decided to defer their resignation until a definite result in the Hume district of New South Wales is known.

The whole of the electoral position is now changed by the latest returns from Hume. There are nearly 3,000 absent votes unaccounted for in this electoral district, where Sir William Lynn is now in the minority by 578 votes.

Sir William, although not an official Laborite, is a consistent supporter of the Fisher government, and if the security of the absent votes involves the return of Sir William the government will be in a majority of one instead of in the minority.

There is sufficient margin for a possible reversal of the present position.

FOUR ARE DEAD AND MANY ARE INJURED

Stamford, Conn., June 13.—Four are dead and many injured, some seriously, as the result of a rear-end collision on the main line of the New Haven line, opposite the local passenger depot, late yesterday afternoon, when the second section of the Springfield express, west-bound, crashed into the first section, which was just leaving the station.

The engine of the second section ploughed half way through the Pullman car, the last car on the first section. In this car there were 31 passengers, and practically all of them were injured.

WATTS NOT GUILTY.

Clinton, B. C., June 12.—Before Mr. Justice Gregory to-day, Rex vs. Watts, a murder case, was heard. The case was placed in the hands of the jury about 9 o'clock this evening, and in fifteen minutes a verdict of not guilty was returned.

In Rex vs. Antione the jury failed to agree as between murder and manslaughter and were discharged. On coming for trial again yesterday accused pleaded guilty to manslaughter, having stabbed an Indian.

KANSAS CITY HAS VISIT FROM I. W. W.

Six Arrested in City Where Building Trades Have Started Strike

Kansas City, Mo., June 13.—Six members of the free speech league of the I. W. W. were arrested while attempting to make speeches on the street here last night.

The league has started a campaign here in support of 4,300 union members of the building trades council who were locked out by the contractors last Monday. As a sequel to the controversy between the contractors and their employees, Thomas R. France, first vice-president of the Bricklayers', Masons' and Plasterers' International Union, has ordered all the members of the union here to stop work until September 2. Many workers of the union already have gone to other cities for employment.

MANY ARE ARRESTED FOR ASSASSINATION

Constantinople, June 13.—Many arrests have been made in connection with the assassination of Mahmoud Scheffet Pasha. Among the alleged conspirators in the hold of the authorities is General Salto Pasha, a former aide to the sultan. A paper found on one of the prisoners contained the offer of a reward for the assassination of the grand vizier, signed by a number of the opposition party residing in Egypt.

INTEREST IN DAKOTA LAW.

Melbourne, June 13.—The Dakota law recently passed in the United States, prohibiting the marriage of units, has aroused considerable interest in the state of Victoria. The board of public health here intends inquiring regarding the provisions of the act, with a view to applying it in Victoria, if such legislation can be enacted.

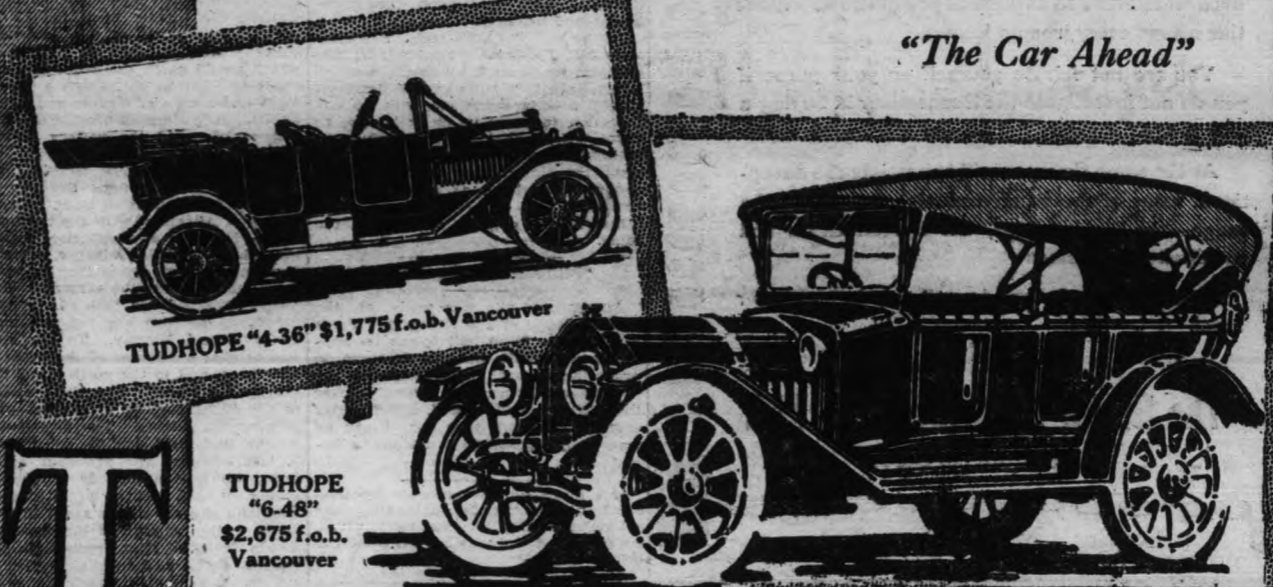

SUNRISE DESTROYED.

Seward, Alaska, June 13.—Fire yesterday destroyed almost the entire village of Sunrise, the oldest settlement on Kani Peninsula. The fire was caused by a defective fuse. The loss is estimated at \$10,000. Sunrise is a village of seventy-five population on the Turnagain Arm, Cook Inlet. It was settled in 1895 and consisted of half a dozen houses, two general stores, a saloon and road house and a hotel.

Matchless helps to women's comfort, physical well-being, and beauty—sure to promote healthy, natural action of the organs of digestion and elimination—the tonic, safe and ever reliable

TUDHOPE "6-48" \$2,675 f.o.b. Vancouver

TUDHOPE

Own the Car you want

A MAN sometimes buys a car that is not just what he wants. The question of price forces him to choose one far short of his ideal.

Saving the duty of 35% would perhaps bring the right kind of car within buying distance.

The TUDHOPE is such a car as men want to own. AND IT SAVES THE DUTY.

In finish, appearance and proportions it is a man's car. It has the long wheel-base, the large wheels, the low, well-balanced body and spring equipment that make a steady, easy-riding car.

A turn at the wheel tells the story of the Tudhope Motor. The Tudhope is the silent, powerful machine that men admire.

This car is sold at the Tudhope duty-saving price. It is the car you want, at a price lower than you would expect to pay.

If you are about to choose a car that does not come up to your idea of what a car should be, if you are about to pay the 35% duty on the kind of car you want, see the Tudhope first.

SCOTTISH COMEDIAN'S MERRY ADVENTURES

Some thrilling adventures were experienced by Harry Lauder recently, says the Glasgow News. The principal item in the famous comedian's programme was a visit to Gramophone Town, the famous centre of "His Master's Voice" at Hayes, in Middlesex.

Here he was to "make records." He made them, but they were not all gramophone records by any means. To begin with, there was a record crowd in Southampton Row to see him off in his big green motor-car. The little man was in a very merry mood. He wore kilts in celebration of the occasion, with a jewelled dirk buried up to the hilt in his tartan stocking. He danced a reel before the admiring crowd, flung jests in broad Scots at

their heads, and then sped off like lightning through the traffic. The Cuckoo's Rival. The next adventure was a mile or two on, where some burly laborers were at work turning the road. Up in a tall tree a cuckoo was singing a rich egg-and-milk solo, but the unromantic tars went on tarring, unmoved by the spring song. "When that lady's finished her turn, I'll have a go," said Harry, and presently he had the stolid roadmakers shaking in their wooden shoes at his quaint conceits. The audience was augmented by a tractor engine hauling a lorry laden with rusty iron and a tram conductor who had lost his tram. Several assistants were ranged for the little village of Hayes as (by pure luck) a cinematograph operator happened to be passing. A dreadful motor accident in the village street and Mr. Lauder's own escape from a blood-curdling death aroused the few inhabitants to enthusiasm.

A Critical Old Gentleman. Harry's next adventure was not so felicitous. A very old rheumy gentleman came up, leaning on an oak staff. There was still a trace of sandiness in the grey hair and a haggis touch in the old man's voice. "An' is it true that you're Harry Lauder we've all heard so much about?" said he. "Aye!" replied Harry proudly, "that's me!" "Then all I can say is you're a wee bit of a man to mak' such a fash about!" said the old gentleman. "It'd be a purr sort o' parritch they fed you on!" Harry turned away with a sigh. "And that from a brither Scot!" said he sorrowfully. "I thought at least Hayes would give me the glad hand. Alas! this is a world fu' o' disappointments."

A Joy's Reception. But there were no disappointments at Gramophone Town. Here the whole three thousand of the workpeople turned out to greet the famous comedian. A huge banner, "Welcome to Harry Lauder!" was displayed, and the little man fairly danced with joy at the reception he got. A pretty girl threw him a huge bunch of heather, which he caught—and kissed. Two sturdy pipers—also in kilts—escorted him to the main entrance of the big building, but before he entered the workpeople clamored for a song, which he gave.

After this there was grim business inside the works—Harry, in the recording-room, with a full orchestra crowded round him, singing his inimitable songs into an unsympathetic funnel—singing with a face so tremendously serious that even the trombonist had to laugh. At the end of a most trying performance Mr. Lauder emerged wiping the perspiration from his brow. "Eh, mon! 'tis an awfu' business singin' to a gramophone with no enthusiasm to carry ye on fra' verse to verse. No laughter, no cheering, no nothing except a wee bit o' a wirr beyond the tip of your neb. It's just about as inspiring as singing into a coalhole!" But it was a great success all the same.

"PRINCESS OF WALES." An amusing slip was made at the jubilee dinner of the Newspaper Press Fund at the Whitehall rooms on Saturday night. Sir Douglas Straight, in proposing a royal toast, included the "Prince and Princess of Wales." After the laughter had ceased, Sir Douglas adroitly remarked that he hoped he was "only anticipating matters a little."

At a smart tea the following conversation was heard: "My dear, three Duchesses subscribed." "Did they pay up?" "Well, not yet; but the charity has the benefit of their names."

LETTER BOX

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. When received later they will be held over until the following day. While unobjectionable anonymous communications are published, the name and address of every writer of such letters must be given to the editor.

ABOUT PILOTAGE.

To the Editor:—In your issue of June 11 there appears an article under the heading "Captain Comments on Victoria Pilotage, Vancouver Association Official Discusses Local Conditions; Objects to System." Now, sir, it is not my purpose to enter into a discussion as to the merits or otherwise of compulsory pilotage. What I do take strong exception to is that part of the article where Capt. Stewart is quoted as saying: "Is not the absurdity of this demonstrated by the fact that a few pilots sit in Victoria shielded by such an act, and, having power to collect pilotage dues from ships entering or leaving such ports as Ladysmith or Union Bay, where they don't even keep a pilot stationed to assist the mariner who may not have felt justified or inclined to lose the night cruising about Victoria, very probably until daylight, before getting a pilot, while he felt confident that he could be at Ladysmith wharf first thing in the morning ready for cargo or bunkers." I challenge Capt. Stewart's statement that ships cruise around Victoria Bay all night till daylight to obtain a pilot for Union Bay or Ladysmith. Further, if any shipmaster feels confident that he can take his ship to Ladysmith or Union Bay, he is at liberty to do so, and if the services of a pilot have not been offered him he is exempt from inward pilotage. I may say that ships coming off Victoria for a pilot as a rule get prompt dispatch. I suggest to Capt. Stewart that he inform himself of the facts before making statements calculated to do an injustice to a body of men who, like himself, have spent the best part of their lives at sea. In discussing pilotage later we expect fair play, not misrepresentation. J. C. FOOTE, Nanaimo Pilot.

MEMORIAL CHURCH TO WOLFE.

To the Editor:—Next year we are to celebrate the Pacific Centenary. One has been thinking of the best way in which we could mark that event in Quebec, for Quebec must not be left out in this celebration. There is something which churchmen might do which would mark the event in a unique way. James Wolfe was a churchman, and a man of sincere and devout habits. In an age of license, he lived a pure life, and the victory he won was a victory of character. On the Avenue des Braves, that magnificent new avenue built by the Battlemfields commission to connect the Plains of Abraham with the battlefield of St. Foye, is a slight rise in the ground. From this eminence, when the trees are leafless, one sees the monument which marks the very spot where Wolfe breathed his last. In another direction, one can see the monument to Levis and Murray. To the south one catches a glimpse of the great St. Lawrence, and to the north stand "the everlasting hills!" The little plateau is the highest piece of ground overlooking the Plains. The situation is superb, and, as I saw the sunset from it last evening, the grandeur of the hope, which has long been mine, of seeing on that spot an architecturally exquisite church—a true angel of peace—rise to the memory of the great hero whose deathbed that green plain was, possessed me, and I thanked God for the privilege which was mine, if we chose to use it, of coupling the honor of the hero with the honor and worship of the Lord whom he faithfully served. The idea is one which appeals to all those who in their minds know that the truest knighthood is founded in religion. It is my privilege to be able to say that Mr. William Laurie, the owner of the site, has offered to sell for this purpose as much ground as should be needed at the exceedingly low figure of thirty cents a foot. The particular location on that Avenue is worth double or treble that

First Principles

A kitchen range was originally thought of for cooking purposes. The fuel was placed in the fire pot and lighted. Drafts were turned on and the fire burned up. Drafts were checked as soon as the fire was well under way.

From the time the first kitchen range was made until the Gurney Economizer was invented a tremendous amount of heat was wasted, and absolutely wasted. This heat should be retained in the stove for the purpose for which it was created—to cook with.

The Gurney range absolutely retains the heat with the minimum amount of waste.

The Economizer enables you to produce in a few minutes an extreme or moderate heat in the oven whenever and as often as you desire it. What this means every woman knows.

You are not fair to yourself or your purse if you do not investigate the Economizer in buying a new range.

At the same time you will appreciate the exceptional value of the other exclusive features of the range—the Divided Flue, the Special Grate and the Broiler attachment.

The Gurney-Oxford is well able to speak for itself.

The Drake Hardware Co., Ltd. 1418 Douglas Street

The Semi-ready price in the pocket is not to stop price-cutting, but to prevent price boosting.

Most merchants say they can get higher prices for such fine tailoring, but we agree with the Semi-ready policy to give each customer his heaping money's worth in the all desirabilities of Good Clothes.

There is more value in "Semi-ready," more real value, than in any of the imitations, whether you pay \$15 or \$35, whether you want a medium quality or top-notch fabric.

Because we believe in the same square deal to every customer is one reason why you find Semi-ready tailoring here.

MEARNS & FULLER, Corner View and Douglas Streets

Must You Be Bald?

What have you done to stop your hair from falling? Have you tried Rexall "93" Hair Tonic? If not, we want you to try it at our risk.

If you have dandruff; if your hair is falling out and your scalp is itchy and shiny, if you use Rexall "93" Hair Tonic according to directions for thirty days, and at the end of that time you are not thoroughly satisfied with the results and will tell us so, we will immediately hand back your money. We won't ask you to promise anything. We'll only ask you a question: Will you take your money and return your money. Doesn't it stand to reason that Rexall "93" Hair Tonic must be a mighty good remedy and have given great satisfaction to our customers if we endorse it like this? We know of no similar remedy that is as good. It is because of what Rexall "93" Hair Tonic has done for others that we back it with our own money.

Why suffer scalp and hair trouble or be bald, when Rexall "93" Hair Tonic will remove dandruff, make your scalp comfortable and healthy, promote hair growth and tend to prevent baldness—when we will pay for the treatment should it fail to please you?

We don't obligate you to anything. You simply buy the treatment, use it, and if not pleased, come back to us empty-handed—and we will hand back what you paid us. Two sizes, 50c and \$1.00 a bottle. You can buy Rexall "93" Hair Tonic in this community only at our store:

D. E. CAMPBELL, British Columbia The Rexall Store There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment especially designed for the particular ailment for which it is recommended. The Rexall Stores are America's Greatest Drug Stores.

WARNING ISSUED AGAINST AGENTS

Police Chief is Notified of Clever Salesmen's Trick With Towels and Dress Goods

Chief of Police Langley wishes to draw the attention of the women of Victoria to a smooth game that is being worked by two men purporting to be salesmen. The game was worked successfully in various places on the mainland and has been tried with considerable success in Saanich and Victoria. Complaints have been received, but the police profess to be unable to lay any charge that would cover the case.

These men have some samples of very fine towels, obviously worth \$2 or \$3 a dozen. They approach housewives and offer them for sale at 75 cents, claiming to have some special arrangement by which they can sell them below their real value. Any astute woman realizes that she has a bargain before her and places an order.

When the woman becomes interested in their project the men produce some dress goods which they offer for sale at, say \$12. The woman having got a bargain once, thinks she has another and places an order on the strength of her first bargain. In a few days the agent calls and delivers the dress goods and collects his \$12. He tells the customer that the towels have not yet been delivered, but will be along in a few days. The complaints are that the towels never come. The dress goods, of course, are really no bargain and could probably be bought in a store for half or two-thirds of the price asked by the agents.

PASSING SHOW

Blanche Bates.

A beautiful woman married to a brute of a husband is goaded to despair and attempts to destroy herself. When her husband taunts and jeers her as she is about to send a bullet through her heart, she turns the weapon against himself. Tried by an English court of law, she is acquitted of the charge of murder. When she returns to her native land, England, she finds herself a social pariah, but finally wins the love of a good and noble man to whom she reveals the terrible secret of her life. This, in brief, is the outline of the powerful play in which Blanche Bates comes to the Victoria theatre, Friday, June 13. "The Witness for the Defence," as the play is aptly called, is from the pen of the well known novelist, A. E. W. Mason, and it provides Miss Bates with the strongest character she has ever been entrusted with.

Frances Starr.

It is seldom that this city is promised anything of more vital dramatic interest than the appearance here on Monday, June 16, of Miss Frances Starr. In her new and most successful play, "The Case of Becky," which comes from a long run at the Belasco theatre in New York City. It is seldom that the critics of New York have been so unanimous in acclaiming any theatrical performance as they were when they reviewed Miss Starr's really wonderful creation. Miss Starr enacts a character possessed of a dual personality, a sort of female Dr. Jekyll and Mr. Hyde. In this character she has scored what is undoubtedly the real success of her career.

"Fine Feathers"

Following a remarkable run at the Astor theatre, New York, "Fine Feathers," a play by Eugene Walter, author of the well-known plays, "Paid in Full" and "The Easiest Way," both of which have been successes in London, comes to the Victoria theatre June 17 and 18. The all-star cast is a notable one, including Robert Edson, Wilton Lackaye, Max Pigman, Rose Coghlan, Lolita Robertson, and Amelia Summers, stars who need no introduction to the theatre-going public.

PUT 'WAY PICKLES.

Mathematician Figures Out the Food Question.

If anyone requires a clear head it is the teacher of mathematics. He must reason in the abstract as it were, and full concentration of mind is necessary if correct results are to be forthcoming.

A man writes:
"I am a teacher of mathematics and for 15 years prior to four years ago I either took a lunch composed of cold sandwiches, pickles, etc. to school or hurried home and quickly ate a hot dinner.

"The result was that I went to my afternoon work feeling heavy, dull of brain and generally out of sorts. Finally I learned about Grape-Nuts food and began to use it for my noon-day lunch.

"From the first I experienced a great change for the better. The heavy, unpleasant feeling and sour stomach caused by the former diet disappeared. The drowsy languor and disinclination to work soon gave way to a brightness and vim in my afternoon work, a feeling entirely new to me.

"My brain responds promptly to the requirements put upon it, and what is of more importance, the results have been lasting and more satisfactory, the longer I have used Grape-Nuts as a food.

"My wife had been suffering from weak stomach accompanied by sick headaches nearly all her life. She is invariably relieved of these when she sticks to Grape-Nuts, either eaten dry or with milk. Her stomach has gradually grown stronger and her headaches less frequent since she began to eat Grape-Nuts." "There's a Reason."

Name given by Canadian Postum Co., Windsor, Ont. Read the booklet, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

"OVER THE RIVER" FULL OF MOVEMENT

Merry Extravaganza Featured Eddie Foy and His Seven Small Children

Verba and Luescher made a departure from the style of production that made them famous when they sent out Eddie Foy in "Over the River," which is an extravaganza more of the type of some of Lew Fields' creations. Everybody on the stage at the Victoria theatre last night appeared to be under the strict injunction not to stop moving under any circumstances, and noises played quite as great a part in the general confusion as movement.

Eddie Foy was, of course, the main attraction. Rumors that he had become aged and decrepit and unable to do his reputation justice were thrown into the discard when the veteran comedian made his first appearance. That famous little "stap" of his in which the hands play such an important part was a long time coming, but it came eventually and the audience went mad.

When Eddie Foy is past and gone there will still be Foy's to uphold the honor of the family name. His seven little children, varying in age from about four to sixteen years, clearly demonstrated that they would never let the Foy reputation become mouldy. The second eldest boy already possesses his father's peculiar little V-shaped mouth and all the droll mannerisms, while the two little girls gave promise of becoming brilliant little comedienne. There was no more spontaneous outburst of applause during the evening than when the elder girl and the third boy came on and imitated the whirlwind dance just previously done by Davis and Matthews, the clever dancing specialty artists of the production. Mr. Foy was compelled to come forward and express thanks for the appreciation of his offspring and the mother of the little ones also showed herself for a brief instant.

Miss Nellie Daly and her chorus of "ponies" scored a hit with their lively songs, while William Selbery as Cook, the man with the vest, added to the merriment at each appearance.

The scene in the warden's room of the jail provided a scene in which a novel line of comedy was introduced, while the last scene in which everybody wore Mexican costume was full of color and dash. It was a "good show."

MINING CASE APPEAL.

Court of Appeal Reserves Judgment After Hearing Argument in Vancouver Island Case.

An appeal involving a mining proposition on Vancouver Island was heard by the court of appeal and argument concluded yesterday in the case of Grant vs. von Alvensleben. In this the argument for the plaintiff-appellant was made by S. E. Taylor, K. C., and Har. McHarg was heard for the defendant-respondent.

Plaintiff was an employee of defendant's company and was engaged in the purchase of certain coal lands on the island for the company. He alleged that he was to receive in return for these services 11,000 shares in the Vancouver-Nanaimo Coal Mining Company and a sum of not less than \$25,000 as the sale of the surface rights progressed. The agreement made between the parties was a verbal one confirmed in a letter from defendant to plaintiff written in April, 1910.

Defendant contended that the agreement was a voluntary one, made by him when the indications looked good, and was conditional on the results proving as good as the indications. There was no consideration given for this promise, and in the event exploitation showed that there was no coal on the properties. One of these was abandoned to the original owner and the other was sold to the company. When this was communicated to the plaintiff he admitted that the defendant could not carry out his promise, it was claimed, and consented to accept \$5,000 in settlement. There was a balance due on this of \$2,058.78, which had been paid into court.

Mr. Justice Morrison gave judgment for \$2,037, with interest and costs, and from this plaintiff appealed, asking for judgment for the full amount he claimed in his action.

On the conclusion of the argument the court reserved judgment.

THE REASON.

"How did it come that the manager of the Uncle Tom's Cabin company discharged you last night?" inquired the landlord of the Ruralville hotel, addressing Mr. Walter Hamm, who had been left behind when the galaxy of stars and bloodhounds departed.

"It happened in this wise, sir," replied the Thespian, thrusting his good right hand into the bosom of his antiquated frock-coat. "The average Uncle Tom's Cabin actor is, paradoxical as it may sound, a person who cannot act, and, barring myself, the members of the organization of which we are speaking were no exceptions to the rule. But in my palmy days, sir, I was both Booth and Barrett, and 'twas said that I supported them becomgly."

"After joining this grand aggregation of 7—count them—7 genuine Siberian man-eating bloodhounds, I kept the fact that I could act carefully concealed for a time, and all went well. But, last night, in a moment of abstraction, I forgot myself and acted. The manager caught me in the act and discharged me. He asserted that such conduct was not only entirely unprecedented and unprofessional, but also dangerous to the prosperity of the organization. If I was permitted to remain, other members of the company might be inspired by my example to try to become actors too, and the public, misusing the familiar methods, would be likely to turn from the dear old drama and ruin the business."

Puck.

Come on Saturday You'll Make Big Saving on Prices of Summer Suits and Other Things

We have made large reductions in prices on all our Summer Suits which means money in your pocket if you buy now.

Our Suits are made in Canada by high class manufacturers, firms such as W. R. Johnston, of Toronto, Green, Swift & Co., of London, Ont., and the Stilenfit Suit Co., of Montreal, a guarantee of correct style and first class workmanship.

WELLINGTON J. DOWLER, C. M. C. Victoria, B. C. May 8, 1913.

"LAND REGISTRY ACT." NOTICE IS HEREBY GIVEN that the first sitting of the next Annual Court of Revision, appointed under the provisions of the "Municipal Act," by the Municipal Council of the Corporation of the City of Victoria, British Columbia, in respect of the Assessment Roll of the Municipality of the said City, will be held in the Council Chamber, City Hall, in said City, on Tuesday, the 17th day of June, 1913, for the purpose of hearing all complaints against the assessment as made by the Assessor, and of revising, equalizing and correcting the said Assessment Roll.

NOTICE IS HEREBY GIVEN that application will be made at the next sitting of the Board of Licensing Commissioners, after the expiration of 30 days from the date hereof, for a transfer of the license held by J. J. JACKMAN, of the City of Victoria, for the sale of spirituous and fermented liquors, on the premises known as the Steele Saloon, situate at 508 Station Street, in the City of Victoria, to A. W. OTTIGM, 616 and 617 Yates street, of the City of Victoria, B. C., this 12th day of May, 1913.
