## One Click, and Check Korea's Lauded COVID-19 In Vitro Diagnostics Pioneers

- **South Korea's health authorities, MOHW** (Ministry of Health and Welfare under Minister Park Neung-hoo), **in partnership with** its affiliated institution **KHIDI** (Korea Health Industry Development Institute under President Kwon Deok-cheol), have initiated to **offer prompt online updates on a list of Korean manufacturers and exporters specializing in COVID-19 diagnostics devices**, starting from **16:00PM on April 1, 2020**, through a website called "**Medical Devices Industry Information Platform**." (<http://www.khidi.or.kr/device>)
- The website provides the list containing **twenty-nine South Korean companies** which produce and export COVID-19 In Vitro Diagnostics Devices (**excluding companies which do not agree to disclose information**). The list includes the **product names and contact information** of the exporters, and will be regularly updated in accordance with **further approval**.

- Specifically, the visitor of the website can find the information on those companies(both in Korean and English) by **clicking a relevant pop-up or banner** on the main page of the website. Also, clicking on each manufacturer's name on the list **links to their respective homepage**.
  - The MOHW plans to introduce and promote ways to utilize the website through the country's **overseas embassies and KOTRA trade centers**. **Any foreign buyers** interested in importing Korea's COVID-19 in vitro diagnostic devices can find relevant information on manufacturers and exporters by accessing the website.
  - As for other concerns that might arise from the process of exporting and importing medical devices, **the Medical Devices Industry Support Center** is ready to offer consultation. It can be contacted through its website or e-mail (ytyman09@khidi.or.kr).
- ※ Attachment : Korean manufacturers and exporters of COVID-19 IVD devices (as of April 1, 2020)
