The President

EXECUTIVE ORDER

AUTHORIZING AND DIRECTING THE UNITED STATES MARITIME COMMISSION TO RESELL THE S. S. "NORMANDIE" TO THE FORMER OWNERS THEREOF

WHEREAS section 1 of the act of Congress approved June 6, 1941 (Public Law 101, 77th Congress), provides, in part:

... during the existence of the national emergency declared by the President on September 8, 1939, to exist, but not after June 30, 1942, the President is authorized and empowered, through such agency or officer as he shall designate, to purchase, requisition, for any period during such emergency charter or requisition the use of, or take over the title to, or the possession of, for such use or disposition as he shall direct, any foreign merchant vessel which is lying idle in waters within the jurisdiction of the United States, including the Philippine Islands and the Canal Zone, and which is necessary to the national defense * * *

AND WHEREAS the United States Maritime Commission (herein called the "Commission"), by virtue of the authority vested in it by the aforesaid act and by the Executive order dated June 6, 1941 and amendment thereto, took over the title to the possession of the S. S. *Normandie*, a foreign merchant vessel lying idle in waters within the jurisdiction of the United States, effective as of December 16, 1941;

AND WHEREAS the French Government has requested that said vessel, unless lost, be returned to the former owners thereof when the present emergency shall have ceased and the United States shall no longer have need of said vessel:

NOW, THEREFORE, by virtue of the authority vested in me by the aforesaid act, it is hereby ordered that, without limiting the authority of the Commission under the provisions of sections 3, 4, and 5 of the aforesaid act, or under the said Executive order or amendment thereto, or under any other provision of law, the Commission is authorized, upon such terms and conditions as the Commission shall deem desirable and conducive to

the national defense, to agree to resell the S. S. *Normandie* to the former owners thereof, or their successors, and to re-deliver the same to said former owners, or their successors, whenever the present emergency shall have ceased and the Commission shall determine that the United States no longer has need of said vessel.

§ 73.302 *Examinations.* General examinations will be conducted under the supervision of corps area commanders—

(a) *Preliminary.* A preliminary examination will be conducted at each post by a board of officers who will examine the applications and reports of physical examination, interview the applicants, and determine whether or not they possess the moral character, general fitness, and educational and technical qualifications necessary to justify their further consideration.

(b) *Final.* A final written examination will be conducted by post commanders under the supervision of corps area commanders and in accordance with special instructions issued by the War Department. This examination is general will consist of two parts: first, a general educational examination taken by all applicants; and second, a technical examination to determine the applicant's specialist qualifications.

These examinations will be scored by corps area commanders under instructions issued by the War Department.* [Par. 5]

§ 73.303 *Appointments.* Successful applicants will be reported by corps area commanders to the War Department. From a consolidated report arranged by classification of all such reports, the War Department will arrange a single list in order of military grade, length of service, and age. Appointments will be tendered to successful applicants in such numbers as may be required to fill existing vacancies. An additional number of successful applicants necessary to cover possible vacancies during the year will be carried on an eligible list for appointment until the next succeeding examination for appointment is held, but in no case longer than 1 year. All original permanent appointments as warrant officer, junior grade, will be probationary for a period of 3 years. See §§ 73.314 and 73.316.* [Par. 6]

Eligibility*

§ 73.304 *Age requirements.* All applicants must have attained their twenty-first birthday and must not have passed their forty-fifth birthday at the time of their appointment. If in active military service, applicants may be permitted to apply for appointment provided they are not less than 20 years and 9 months nor more than 44 years and 9 months of age on the date of the final examination.* [Par. 7]

§ 73.305 *Grade.* (a) Permanent appointments in the Regular Army as warrant officer, junior grade, will be tendered only to officers (except Regular Army officers), temporary warrant officers, and noncommissioned officers of the Army of the United States, and to former officers and noncommissioned officers of the Regular Army, whose separation from active service was under honorable conditions.

(b) In time of war or national emergency, other qualified applicants may be tendered temporary appointments as warrant officers, junior grade, in the Army of the United States.* [Par. 8]

§ 73.306 *Service requirements.* (a) Permanent appointments in the Regular Army as warrant officers, junior grade, will be tendered only to officers and noncommissioned officers who have completed 3 years' continuous service on active duty in the Army of the United States.

(b) Temporary appointments may be tendered only to persons who have completed not less than 1 year's continuous service on active duty in the Army of the United States.* [Par. 9]

§ 73.307 *Physical standards.* All applicants will be required to meet the physical standards prescribed for appointment as commissioned officers. See paragraph 18, AR 40-105.* [Par. 10]

§ 73.308 *Education.* The general educational examination is considered to require graduation from an accredited high school, or the equivalent thereof, in order to obtain a qualifying mark. For details see §§ 73.318 and 73.319.* [Par. 12]

Application, Examination and Appointment

§ 73.310 *Submission of application.* Application for appointment will be made

*The regulations contained in §§ 73.304 to 73.309 do not apply to appointment in the Army Mine Planter Service. See §§ 73.330 to 73.333.

*Administrative regulations of the War Department relative to standards of physical examination.

on W.D., A.G.O. Form No. 61 or a legible facsimile thereof. The application will be accompanied by a completed W.D., A.G.O. Form No. 63 (Report of Physical Examination) and will be submitted to the applicant's unit or detachment commander. Persons not in active military service will submit their applications to the nearest Army post commander. Applications will be submitted not later than September 30 of each year in which an examination is held. When special examinations are announced by the War Department, the date of submission of applications will be indicated in such announcement.* [Par. 13]

§ 73.311 *Preliminary examination*—(a) *Action by post commander.* When all applications have been received, the post commander will appoint a board of officers to conduct the preliminary examination. Wherever the appointment of a board is impracticable, report will be made to the corps area commander who will make suitable arrangements for the conduct of the preliminary examination.

(b) *Examination by board.* The board will carefully examine all applications and reports of physical examinations. Each applicant will appear before the board and will be interviewed by the members thereof. The applicant's past experience and general adaptability in military service, with particular reference to the appointment which he is seeking, will be carefully investigated. The board will observe the applicant's personality, appearance, bearing, moral character, and general fitness for military service. The purposes of the preliminary examination in general will be to eliminate from further consideration those applicants whose future value to the military service is questionable.* [Pars. 15 and 16]

§ 73.312 *Final examination*—(a) *Action by post commander.* The educational and technical examinations will be conducted on March 17-18, 1942, and each subsequent year by the post commander, who will appoint necessary boards of officers to supervise and conduct the final examination in accordance with special instructions issued by the War Department in connection therewith.

(b) *Educational.* The educational examination will be given to all applicants. This examination is designed to ascertain the extent to which the applicant possesses the general education required of warrant officers in the Army. It will test the applicant's powers of comprehension, judgment, and reasoning, and his knowledge of English, United States history, and contemporary affairs. A brief description of the subject matter covered in the educational examination follows:

(1) *Part I—Comprehension*—(i) *Section 1, vocabulary.* This section is designed to measure the candidate's knowledge of military terms and general terms widely used in military language.

(ii) *Section 2, reading comprehension.* This section requires the ability to comprehend details and select the principal ideas in portions of Army Regulations quoted.

(iii) *Section 3.* This section measures the ability to read and interpret charts,

paragraphs, and indexes widely used in different types of regulations, manuals, and military documents.

(2) *Part II—Judgment and reasoning*—(i) *Section 1.* This section measures the ability to reason in arithmetic problems, employing simple computations in addition, subtraction, multiplication, division, including decimals, percentages, and proportions.

(ii) *Section 2.* This section requires the ability to make reasonably sound decisions from a number of given facts in both theoretical and real situations.

(iii) *Section 3.* This section measures the ability to make approximate estimates for common sense interpretation of everyday numerical facts.

(3) *Part III—English expression*—(i) *Section 1.* This section is designed to measure the ability to use correct English and to recognize clear and effectively written expressions. It does not measure the ability to state specific rules of technical grammar, but it measures the ability to apply and recognize correct grammatical principles.

(ii) *Section 2.* This section is designed to measure the ability to arrange sentences properly within a paragraph and to arrange an outline.

(4) *Part IV—History and contemporary affairs.* This section is designed to provide a measure of the candidate's knowledge of and ability to interpret contemporary affairs, and the significance of important events in United States history.

(c) *Technical.* This examination is designed to test the applicant's knowledge and technical qualifications for the position for which he is applying. Separate examinations will be given for the respective classifications listed in § 73.301. The general scope of the various technical tests is given in §§ 73.318 and 73.319.* [Pars. 20 and 21]

§ 73.313 *Final list of applicants* (a) Upon the receipt of all reports from corps area commanders the War Department will prepare a final list of successful candidates in order of military grade, length of service, and age.

(b) This list will establish the order from which appointments will be made and where appointments are made on the same day, will establish the seniority of appointees.* [Par. 24]

§ 73.314 *Permanent appointments.* Permanent appointments as warrant officers, junior grade, United States Army, will be tendered successful applicants in order of their standing on the final lists. Each warrant officer so appointed will be classified according to the administrative or technical specialty for which he was examined and his classification will be designated upon his warrant. Warrant officers will be assigned to duty with the various arms and services with due regard to prior service, classification for which examined, the requirements of the arm or service concerned, and individual preference. All permanent appointments in the Regular Army as warrant officer, junior grade, will be probationary for a period of 3 years.* [Par. 25]

§ 73.315 *Eligible list.* The names of qualified applicants who are not immedi-

ately appointed will be carried on an eligible list until the next succeeding examination, but in no case longer than 1 year. Vacancies occurring subsequent to the final examination and prior to the next succeeding examination may be filled by appointments from this eligible list, subject to physical examination.* [Par. 26]

§ 73.316 *Temporary appointments.* In time of war or national emergency qualified applicants who do not receive permanent appointments may be given temporary appointments which will remain in effect at the pleasure of the Secretary of War, but in no case extend beyond 6 months after the end of the war or period of national emergency.* [Par. 27]

§ 73.317 *Future examinations.* The fact that an applicant's name has been borne on an eligible list or that an applicant has been tendered a temporary appointment will not exempt such applicants from future examinations for permanent appointment as warrant officers in the Regular Army.* [Par. 28]

In connection with the offer, etc., in commerce, of respondent's "Bright Ray Crest Driving Lamp" for use on motor vehicles, or any substantially similar lamp, representing, directly, or by implication, that said lamp, when used on a motor vehicle, (1) provides new and unusual lighting safety; (2) will develop 40,000 candle power, or any other number of candle power in excess of the number actually developed; (3) will penetrate fog, rain, snow, or dust regardless of their density; (4) will penetrate fog, snow, rain, or dust, regardless of their density, to the extent that safe driving visibility is provided for 1,500 feet, or for any other distance in excess of the actual distance for which safe driving visibility is provided; and (5) will penetrate fog, snow, rain, or dust to the extent that visibility and safety are assured under all conditions; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Do-Ray Lamp Company, Inc., Docket 4218, February 3, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3d day of February, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and answer of respondent and upon the amended and supplemental complaint of the Commission and the answer of the re-

spondent thereto, in which answer respondent admits all of the material allegations of fact set forth in said amended and supplemental complaint and waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Do-Ray Lamp Company, Inc., a corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of its "Bright Ray Crest Driving Lamp" for use on motor vehicles, or any substantially similar lamp, under the same or any other name, do forthwith cease and desist from representing, directly or by implication:

(1) That said lamp, when used on a motor vehicle, provides new and unusual lighting safety;

(2) That said lamp, when used on a motor vehicle, will develop 40,000 candle power, or any other number of candle power in excess of the number actually developed;

(3) That said lamp, when used on a motor vehicle, will penetrate fog, rain, snow, or dust regardless of their density;

(4) That said lamp, when used on a motor vehicle, will penetrate fog, snow, rain, or dust, regardless of their density, to the extent that safe driving visibility is provided for 1,500 feet, or for any other distance in excess of the actual distance for which safe driving visibility is provided;

(5) That said lamp, when used on a motor vehicle, will penetrate fog, snow, rain, or dust to the extent that visibility and safety are assured under all conditions.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

AMENDMENT TO RULE UNDER THE ACT RELATING TO SOLICITATION OF PURCHASES ON AN EXCHANGE TO FACILITATE A DISTRIBUTION OF SECURITIES

The Securities and Exchange Commission, deeming it necessary for the exercise of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 10 (b) and 23 (a) thereof, hereby amends § 240.10b-2 [Rule X-10B-2] by adding at the end thereof the following:

§ 240.10b-2 *Solicitation of purchases on an exchange to facilitate a distribution of securities.*

(d) (1) The provisions of this section shall not apply to any transaction involving the payment of a special commission to a person acting as a broker for a purchaser by a person selling any security which is listed on a national securities exchange or is admitted to unlisted trading privileges on such an exchange pursuant to the provisions of section 12 (f) (2) or (3) of the Securities Exchange Act of 1934, as amended (Sec. 12, 48 Stat. 892; sec. 1, 49 Stat. 1375; 15 U.S.C. 781), where such payment is made pursuant to the terms of an effective plan authorizing the payment of special commissions in connection with a distribution of securities, which plan has been

¹ 6 F.R. 708.

filed with the Commission by a national securities exchange, provided that such person, at the time he pays, or offers or agrees to pay, any such commission does not know or have reasonable grounds to believe that transactions connected with such distribution are being carried out in violation of such plan.

(2) For the purposes of this section a plan filed with the Commission by a national securities exchange shall not become effective unless the Commission, having due regard for the public interest and for the protection of investors, declares the plan to be effective. The Commission in its declaration may impose such terms and conditions relating to the provisions of the plan and the period of its effectiveness as it deems necessary or appropriate in the public interest or for the protection of investors.

(3) The provisions of this exemption shall terminate at the close of business on July 31, 1942, unless the Commission otherwise determines.

Effective February 6, 1942.

TITLE 30—MINERAL RESOURCES
CHAPTER III—BITUMINOUS COAL
DIVISION

[Docket No. A-552]

PART 322—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 2

ORDER ASSIGNING MINE INDEX NO. 1333 FOR THE COAL HILL MINE IN DISTRICT NO. 2 IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2 FOR REVISION OF THE EFFECTIVE MINIMUM PRICES OF TRUCK COALS PRODUCED AT VARIOUS MINES IN DISTRICT NO. 2, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

In General Docket No. 15 minimum prices were established, *inter alia*, for the coals of the Coal Hill Mine, Mine Index No. 1333, in District No. 2, for truck shipments. In Supplement No. 2 to Price Schedule No. 1 for District No. 2 For Truck Shipments, additional minimum prices were established for the coals of the said mine for truck shipments, but Mine Index No. 1439 was assigned therein to the said mine.

On January 31, 1941, 6 F. R. 809, the Director issued an Order Granting Temporary Relief and Conditionally Providing for Final Relief in Docket No. A-552, revising, *inter alia*, the effective minimum prices for the coals of the said mine for truck shipments, and assigning Mine Index No. 1439 to the said mine.

On May 21, 1941, 6 F. R. 2820, the Director issued an Order Granting Temporary Relief and Conditionally Providing for Final Relief in Docket No. A-847, establishing, *inter alia*, price classifications and minimum prices for the coals of the said mine for rail shipments, and assigning Mine Index No. 1333 to the said mine.

It appears that the assignment of Mine Index No. 1439 to the said Coal Hill Mine in the said Supplement No. 2 and in the said Order in Docket No. A-552 is in error and that only Mine Index No. 1333 should be assigned to the said mine.

Now, therefore, it is ordered, That the assignment of Mine Index No. 1439 to the Coal Hill Mine, in District No. 2, in the said Supplement No. 2 and in the said Order in Docket No. A-552 be revoked, and in lieu thereof, Mine Index No. 1333 be assigned to the said mine in § 322.23 (General prices).

It is further ordered, That in all other respects the said Order of January 31, 1941, be, and it hereby is, continued in full force and effect, until otherwise ordered.

Dated: February 4, 1942.

Acting Director.

ulations, Second Edition, Part 623, § 623.51, by adding thereto a new paragraph designated as (g), reading as follows:

§ 623.51 Procedure for classification after physical examination.¹

(g) As soon as the time in which the registrant may take an appeal has expired or, if an appeal is taken, as soon as the registrant's classification has been determined on appeal, the original and copies of the Report of Physical Examination and Induction (Form 221) of registrants classified under this section shall be distributed as follows:

(1) If the registrant has been classified in Class I-A, Class I-A-O, or Class IV-E, the original and all copies shall be placed in the registrant's Cover Sheet (Form 53) until the registrant is forwarded for physical examination by the armed forces in the manner provided in Part 629 or for final-type physical examination for Class IV-E registrants in the manner provided in Part 651.

(2) If the registrant is classified in Class I-B, Class I-B-O, Class IV-E-LS, or Class IV-F, the National Headquarters' Copy and the Surgeon General's Copy shall be transmitted to the State Director of Selective Service, who shall forward such copies to the Director of Selective Service, and the Armed Forces' Original and the Local Board's Copy shall be filed in the registrant's Cover Sheet (Form 53). PART 1306—IRON AND STEEL

PRICE SCHEDULE NO. 100—CAST IRON SOIL PIPE AND FITTINGS

Cast iron soil pipe and fittings are extensively used in the construction industry to carry off drainage and waste. In the defense program they are widely employed in housing projects, cantonments and all types of factories and industrial plants. The increased need for cast iron soil pipe and fittings has prompted Government efforts to secure expanded production by allocating needed pig iron to the industry, but the supply has failed to keep pace with the augmented demands stemming from the defense program and the accompanying economic expansion. As a consequence, inflationary pressure has caused price increases which outstrip advances in costs, and which will serve no purpose in bringing out appreciably increased production. Issuance of a price schedule accordingly is necessary to protect consumers, the industry, and the national economy.

In this price schedule the Office of Price Administration is utilizing the Birmingham, Alabama, single basing point system, presently in effect in the soil pipe industry. Such acceptance of this system, merely as a vehicle for determining maximum prices, should not be regarded as approval thereof, nor should this reservation be regarded as indicating disapproval.

Accordingly, pursuant to and under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1306.301 *Maximum prices for cast iron soil pipe and fittings.* On and after February 20, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no manufacturer, jobber, or wholesaler shall sell, offer to sell, deliver, or transfer any cast iron soil pipe and fittings, and no person shall buy, offer to buy or accept delivery of cast iron soil pipe and fittings from a manufacturer, jobber, or wholesaler at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1306.309.*

*§§ 1306.301 to 1306.310, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1306.302 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1306.303 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of cast iron soil pipe and fittings, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by making credit terms more onerous than those available or in effect on October 1, 1941, or by any other means.*

§ 1306.304 *Records and reports.* Every manufacturer, jobber and wholesaler who sells, and every person who buys from a manufacturer, jobber or wholesaler cast iron soil pipes and fittings of a value of more than \$200.00 per month after February 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the specifications and quantity of cast iron soil pipes and fittings purchased or sold.*

§ 1306.305 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of cast iron soil pipe and fittings, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1306.306 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That, no application under this section will be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1306.307 *Definitions.* When used in this Schedule, the term

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Manufacturer" means a person operating a foundry or plant which produces cast iron soil pipe and fittings. Except for purposes of the records requirements of § 1306.304, the term includes, without restricting the generality of the foregoing, any manufacturer's representative, factory commission salesman, or other manufacturer's agent.

(c) "Jobber" and the term "wholesaler" means a person who purchases cast iron soil pipe for purposes of resale, normally maintains a complete line of pipe and fittings, and sells primarily to plumbers, contractors and industrial concerns.

(d) "Cast iron soil pipe and fittings" means cast iron pipes and fittings of the types listed in Appendix B of this Schedule.

(e) "Delivered price" means net price including all commissions and all freight and delivery charges incident to transporting the pipe and fittings to the place of delivery as described in paragraph (b) (3) of Appendix A of this Schedule.

(f) "Carload shipment" or the term "carload quantity" means a shipment or quantity of cast iron soil pipe and fittings, the aggregate weight of which totals at least the lowest applicable minimum carload weight as specified in the established tariff of the rail carrier involved, or for which a carload rate would be paid.*

§ 1306.308 *Effective date of the Schedule.* This Schedule shall become effective February 20, 1942.*

§ 1306.309 *Appendix A; maximum prices for cast iron soil pipe and fittings.* (a) The maximum f. o. b. Birmingham, Alabama, prices for cast iron soil pipe and fittings shall be the prices arrived at by applying the following discounts to the prices set forth in Appendix B of this Schedule.

	Carload shipments by rail; ten ton or greater shipments by motor carrier	Less than carload shipments by rail; less than ten ton shipments by motor carrier
2" to 6" Extra Heavy Pipe....	52½-10-10	52½
2" to 6" Medium Pipe.....	47½-10-10	47½
2" to 6" Standard Pipe.....	42½-10-10	42½
2" to 6" Fittings.....	37½-10-10	37½
8" to 15" Pipe and Fittings....	43½-10-10	43½

(b) The maximum delivered price for domestic sales of cast iron soil pipe and fittings shall be the maximum f. o. b. Birmingham, Alabama, price established in paragraph (a) hereof, plus a freight and delivery charge computed in accordance with the following provisions (whether shipment is by rail or motor carrier):

(1) Where shipment moves directly from foundry to purchaser (regardless of whether the seller is a manufacturer,

jobber, or wholesaler), the delivery charge may not exceed the carload railroad freight from Birmingham, Alabama, to the railroad siding nearest to the point of delivery designated by the purchaser.

(2) Where shipment to a purchaser originates from some place other than a foundry (as where shipment originates at a distribution warehouse operated by a manufacturer, jobber, or wholesaler), the delivery charge may not exceed the carload railroad freight from Birmingham, Alabama, to the place at which the shipment originates. No further delivery charge may be made for transportation from the place at which the shipment originates to the location designated by the purchaser.

(3) For purposes of this paragraph, the seller shall be considered as having completed his delivery obligations when, in the case of a rail shipment, the shipment arrives at the rail siding nearest to the location designated by the purchaser; or when, in the case of shipment by motor carrier, the shipment arrives at the site designated by the purchaser.

(4) Carload railroad freight from Birmingham, Alabama, may be computed by deducting for every 25¢ ton freight ¼ point from the applicable base (or first) discount.

(c) The maximum price for export sales of cast iron soil pipe and fittings shall be the maximum price, as established by subparagraph (1) of paragraph (b) hereof, for delivery of carload quantities of pipe and fittings to the export loading dock, plus ocean freight and marine insurance to the extent that such charges are paid by the seller. Where the seller performs the service of wiring or otherwise bundling pipe and fittings for export shipment, an added charge of \$1.00 per ton of pipes and fittings may be made.

(d) No addition to the maximum prices herein established may be made for treating cast iron soil pipe and fittings with tar.*

PART 1309—COPPER AND COPPER ALLOYS
AMENDMENT NO. 4 TO PRICE SCHEDULE NO.
20—COPPER AND COPPER ALLOY SCRAP

The preamble and §§ 1309.61 to 1309.69 inclusive are hereby amended and re-numbered so that Price Schedule No. 20 shall read as follows:

The Office of Price Administration is charged with the maintenance of price stability and the prevention of undue price rises and price dislocation. Copper and copper alloy scrap is a basic material for the production of electrolytic copper, copper ingot, copper alloy ingot, and non-ferrous castings, all of which are important in the manufacture of defense products. Requirements of the war effort have increased the demand for copper and copper alloy scrap, causing its price to rise above levels which are in proper relation to the price level of primary materials. Price instability and dislocations injurious to the national defense and civilian economy have resulted. As a consequence, it has become difficult and in some cases impossible for the trade to cooperate with the Government in preventing inflationary price movements. On the basis of information secured by independent investigation by this Office, and after consultation with the trade, I find that the maximum prices set forth below constitute reasonable limitations on the price of copper and copper alloy scrap.

Therefore, under the authority vested in me by Executive Order 8734, it is hereby directed that:

§ 1309.61 *Maximum prices for copper and copper alloy scrap.* On and after February 27, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person shall sell, offer to sell, deliver, or transfer copper or copper alloy scrap to a consumer, and no consumer shall buy, offer to buy, or accept delivery of copper or copper alloy scrap at prices higher than the maximum prices set forth in Appendix A hereof incorporated herein as § 1309.69.*

*§§ 1309.61 to 1309.69, inclusive, issued pursuant to the authority contained in E.O. Nos. 5734, 8875, 6 F.R. 1917, 4483.

§ 1309.62 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1309.63 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of copper or copper alloy scrap, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.*

§ 1309.64 *Records and reports.* (a) Every person making purchases or sales of copper or copper alloy scrap on or after February 27, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one

year, complete and accurate records of (1) each such purchase or sale showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the quantity in pounds or tons of each kind or grade purchased or sold; and (2) the quantity in pounds or tons of copper or copper alloy scrap (i) on hand, and (ii) on order, as of the close of each calendar month.

(b) On or before the tenth day of each month beginning with the month of March, 1942, the consumer shall submit to the Office of Price Administration, Washington, D. C., an affidavit on Form 120:7 covering each delivery of copper or copper alloy scrap received during the preceding calendar month, and setting forth the name of the seller, the point of shipment, the date of delivery, the amount of each grade of scrap received and paid for, the price paid per pound for each such grade of scrap, the total freight paid, and the total amount paid to the seller.

(c) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1309.65 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of State, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule; and (e) that the War Production Board is requested to withhold priority ratings and allocation of materials from any person failing to comply with this Schedule. Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of copper or copper alloy scrap, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1309.66 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application

under this section will be considered unless filed by persons complying with this Schedule.*

§ 1309.67 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Copper and copper alloy scrap" means materials of the kinds and grades listed in paragraph (a) of § 1309.69. These kinds and grades include materials which are the waste or by-product of any kind of metal working as well as articles which have been discarded from use because of obsolescence, failure or other reason, and which are no longer useful for their original purpose.

(c) "Consumer" means a person whose business, either in his own plant or on toll, consists in whole or in part, of smelting, refining, melting, or otherwise processing copper or copper alloy scrap into a form other than scrap.

(d) "Point of shipment" means the point at which copper or copper alloy scrap is first loaded on a conveyance for transportation directly to the buyer. This is usually the seller's plant, warehouse, or yard, but where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.*

§ 1309.68 *Effective date of the Schedule.* This Schedule as amended by this amendment number 4 shall become effective on February 27, 1942.*

§ 1309.69 *Maximum prices—(a) Maximum prices f. o. b. shipping point.*¹

Index No. ²	Kinds or grades of scrap ³	Maximum prices per pound of material

2	Soft Red Brass.....	9.50

¹ The prices set forth in this paragraph are the maximum prices f. o. b. freight cars, trucks or other means of transportation at the point of shipment, and include all commissions and service charges. Any copper scrap sold "as is, where is" shall be sold at a price less than the applicable maximum price by an amount reflecting the cost of loading the material into the conveyance for shipment to the buyer.

² For the purposes of the quantity premiums defined in paragraph (f) of this section, all kinds or grades preceded by the same index number may be considered as one item.

³ The prices set forth in this paragraph are the maximum prices for the respective grades of copper and copper alloy scrap which meet the specifications set forth in paragraph (b) of this section. Copper or copper alloy scrap which falls within such grades but which does not meet such specifications must be sold at a price below the applicable maximum price. This Schedule does not include copper or copper alloy scrap which is a by-product of the fabrication of new sheet, tube, rod or other brass mill products, the maximum prices for which are established by Price Schedule No. 12—Brass Mill Scrap.

⁴ If the copper content of No. 2 copper wire or mixed heavy copper scrap is more or less than 96%, or if the copper content of light copper scrap is more or less than 92%, the maximum price per pound of material shall be increased or decreased at the rate of 0.11775 cents for each 1% variation in copper content with proportionate adjustments for variations of less than 1%.

6	Yellow Brass Breakage.....	6.50
7	Automobile Radiators.....	7.50

⁴ If soft red brass borings and turnings or cast yellow brass borings and turnings contain more than 2% iron, oil and moisture, the maximum price per pound of material shall be reduced 1% for each 1% of iron, oil and moisture in excess of 2%.

⁵ If red brass breakage and red carburetors with iron screws or yellow brass breakage contains more than 10% iron, the maximum price per pound of material shall be reduced 1% for each 1% of iron in excess of 10%.

⁷ If automobile radiators contain any iron, the maximum price per pound of material shall be reduced 1% for each 1% of iron.

(b) *Specifications.* (1) No. 1 Copper Wire shall have a copper content of not less than 98%, shall consist of clean, untinned copper wire or cable not smaller than 16 B&S wire gauge, and must be untangled, free of burnt or unburnt insulation, burnt copper wire which is brittle, and all foreign substances.

(2) No. 1 Heavy Copper shall have a copper content of not less than 98%, shall consist of clean, untinned copper segments not less than $\frac{1}{8}$ inch thick and must be free of solder and all foreign substances.

(3) No. 2 Copper Wire shall have a copper content of 96%, and shall consist of miscellaneous clean copper wire or cable, which may include tinned wire and soldered ends, but not hair wire nor burnt wire that is brittle.

(4) Mixed Heavy Copper shall have a copper content of 96% and shall consist of clean, tinned and untinned copper pipe and tubing, but must not include any nickel-plated material.

(5) Light Copper shall have a copper content of 92% and shall consist of copper in the form of bottoms of kettles and boilers, stills, bathtub linings, hair wire, bicycle wire, burnt copper wire, roofing copper and similar copper, and must be free of radiators, brass, lead and solder connections, mixed screens, readily removable iron, old electrotype shells, and excessive paint, tar or scale.

(6) Bell Metal shall consist of genuine bell metal containing a minimum of 16% tin.

(7) High-grade Bronze Gears shall consist of clean gears which contain 87 to 90% copper, 9 to 11% tin, and no more than 1% lead, and must be free of leaded, manganese, or aluminum, bronze gears.

(8) Babbit lined Brass Bushings shall consist of clean red automobile and ma-

chinery bushings or bearings containing 15 to 20% of genuine babbit, and must be free of iron-backed bearings, iron, and excessive grease or dirt.

(9) Red Trolley Wheels shall consist of genuine red trolley wheels which must be clean and free of bushings, iron and excessive dirt.

(10) Hard Red Machinery Brass shall have a tin content of not less than 6%, shall consist of heavy castings from machinery, such as valves and unlined bushings and bearings, and must be free of all iron, aluminum bronze and manganese bronze.

(11) Soft Red Brass shall consist of miscellaneous red brass castings, and must be free of iron, burnt or melted brass, cocks and faucets, railroad car boxes and other excessively leaded material, and of aluminum, manganese, and silicon bronze.

(12) Soft Red Brass Borings shall consist of clean red brass borings and turnings, free of aluminum, manganese, and silicon bronze, railroad car box turnings and other excessively leaded material, shall contain a total of not over 2% free iron, oil, or other moisture, and shall be free of grindings and foreign material.

(13) Aluminum Bronze (Ford) Gears shall consist of Ford gears and other bronze gears containing 10 to 12% aluminum.

(14) Unlined Standard Red Car Boxes shall consist of railroad boxes or car journal bearings, and must be free of yellow boxes, iron-backed boxes, linings, and excessive dirt or grease.

(15) Lined Standard Red Car Boxes shall consist of lined railroad boxes or lined car journal bearings and must be free of yellow boxes, iron-backed boxes, excessive dirt and grease.

(16) Cocks and Faucets shall consist of clean mixed red and yellow cocks and faucets containing a minimum of 35% of red faucets, and must be free of gas cocks, beer faucets, porcelain, dirt, and iron.

(17) Red Brass Breakage and Red Carburetors with Iron Screws shall consist of red brass containing not in excess of 10% free iron and must be free of die cast, yellow, or iron carburetors.

(18) Old Rolled Brass shall consist exclusively of old pieces of sheet brass and must be free from solder, tinned and nickel-plated material, paint, corrosion, dirt, iron, ship sheathing, rod brass, and Muntz metal material.

(19) Brass Pipe shall consist of sound, clean brass pipe and tubing, and must be free of sediment, plated, tinned, or soldered pipe, pipe with cast brass connections, condenser tubes, Muntz metal and Admiralty tubing.

(20) Clean Fired Rifle Shells shall consist exclusively of fired rifle shells, and must be free of unfired shells, gun shells containing paper, and dirt.

(21) Admiralty Condenser Tubes shall consist of sound Admiralty condenser tubings, which may be plated or unplated, but must be free of nickel silver material and of excessive corrosion, sediment, dirt, iron, scale and grease.

(22) Muntz Metal Tubes shall consist of sound Muntz metal condenser tubing which may be plated or unplated, but must be free of nickel silver material and of excessive corrosion, sediment, dirt, iron, scale, and grease.

(23) Yellow Brass Castings shall consist of strictly yellow brass castings, and must be free of manganese, aluminum, silicon brass, forgings, dirt, and iron.

(24) Heavy Yellow Brass shall consist of clean heavy yellow sheet brass and castings, chandelier brass, pipe and plumber's brass, and must be free of manganese or aluminum brass, condenser tubes, dirt and iron.

(25) Cast Yellow Brass Borings shall consist of yellow brass borings, shall contain a total of not more than 2% of free iron, oil, or moisture and must be free of aluminum, manganese and composition turnings and any grindings.

(26) Reflectors shall consist exclusively of clean automobile reflectors and must be free from iron and solder.

(27) Light Brass shall consist of clean miscellaneous yellow sheet brass that is too light for heavy yellow brass, and may include tinned or nickel-plated material but must be free of gun shells containing paper, ashes, or iron, and of clock works, loaded lamp bases, gaskets, iron, dirt, and foreign material.

(28) Yellow Brass Breakage shall consist of miscellaneous yellow brass containing a maximum of 10% free iron.

(29) Automobile Radiators shall consist of mixed unswaged automobile radiators, which must contain at least 40% of honeycomb radiators. Radiators must be complete, containing top and bottom tanks.

(c) *Maximum prices for lead-covered and insulated copper wire.* The maximum price for insulated copper cable or wire, except lead-covered cable or wire, shall be computed by multiplying the weight of such copper wire or cable, exclusive of insulation, by the applicable maximum price provided in paragraph (a) of this section, and deducting from the resulting product not less than 0.15 cent per pound of total weight before removal of insulation.

The maximum price for the copper content of lead-covered cable shall be computed by multiplying the weight of such copper cable, stripped of lead covering, by the applicable maximum price provided in paragraph (a) hereof. The maximum price for the lead content of such lead covering is fixed by Price Schedule No. 71.

(d) *Maximum prices for mixed lots of scrap.* If any scrap other than crucible copper or copper alloy scrap is delivered in a mixed lot containing scrap of more than one grade, then (1) the entire lot shall be considered to be of the lowest-priced grade, or (2) the buyer may sort the scrap and pay for each grade but in such event the maximum price provided in paragraph (a) of this section for each of such grades shall be reduced by $\frac{1}{4}$ cent per pound. If the same maximum price is established by paragraph

(a) of this section for all of the grades of scrap contained in such lot, the second method of settlement provided in this paragraph must be used. The provisions of this paragraph shall not apply if each grade of scrap is packed in separate containers or is otherwise physically segregated by the seller.

(e) *Maximum delivered prices.* Copper or copper alloy scrap may be sold, offered for sale, delivered or transferred at a price delivered buyer's receiving point. If such delivered price exceeds the applicable maximum price provided in paragraph (a) of this section, (1) the delivery charge shall be shown as a separate item and (2) the price f. o. b. shipping point (calculated by subtracting the delivery charge from the delivered price) shall not exceed the applicable maximum price provided in paragraph (a) of this section.

Whenever the seller delivers copper or copper alloy scrap in his own conveyance, the charge for delivery shall not exceed the lowest published rate for a similar delivery by a public carrier or, if there is no such carrier, the lowest available commercial rate for the most nearly comparable service.

(f) *Quantity premiums.* The maximum prices listed in paragraph (a) of this section may be increased by the addition of the applicable one of the following quantity premiums:

(1) For the sale and shipment at one time of 40,000 pounds or more containing only one item, $\frac{1}{2}$ ¢ per pound.

(2) For the sale and shipment at one time of 40,000 pounds or more containing not more than three items, $\frac{1}{4}$ ¢ per pound.

For the purposes of this paragraph an item means those kinds or grades of copper or copper alloy scrap which are preceded by the same index number in paragraph (a) of this section.

If the seller makes delivery by truck, or if the buyer carries the scrap away by truck, "the sale and shipment at one time" may include all scrap delivered under one order to the buyer at his receiving point or loaded on to the buyer's truck at the point of shipment within a period of forty-eight (48) consecutive hours excluding Sundays and legal holidays.

No quantity premium may be added to the price of any scrap to which a crucible scrap premium, as defined in paragraph (g) of this section, has been added.

(g) *Crucible scrap premiums.* (1) *Premiums for crucible copper.*⁸ To the maximum prices listed in paragraph (a) of this section a premium of 1¢ per pound for copper scrap in crucible shape may be added.

Copper scrap in crucible shape shall include only:

(i) Briquetted No. 1 copper wire. A briquette shall include any compressed, self-adhering bundle whose measurements do not exceed 16 x 10 x 12 inches.

(ii) Exclusively No. 1 copper (a) cut or bundled in lengths not exceeding 16 inches and (b) in a shape suitable for charging into the buyer's crucible or electric furnace.

No. 27—3

(2) *Premium for crucible copper alloy scrap.*⁹ To the maximum prices for copper alloy scrap listed in paragraph (a) of this section, a premium of $\frac{3}{4}$ cent per pound may be added for copper alloy scrap in crucible shape, specially prepared for foundry use. This premium may be added only on sales of scrap to those brass foundries authorized by the War Production Board to purchase copper alloy scrap.

Copper alloy scrap in crucible shape for foundry use includes only heavy, clean scrap of uniform alloy content, in pieces no one dimension of which exceeds 16 inches.

No crucible scrap premium may be added to the price of any scrap to which a quantity premium, as defined in paragraph (f) of this section, has been added.

(h) *Maximum prices for special purpose copper scrap.*¹⁰ Persons using copper wire or copper segments which are specially selected and prepared for their

⁸ No premium shall be demanded or paid for crucible copper or copper alloy scrap unless such copper is sold and shipped separately from any other grade of scrap or is packed in separate containers or otherwise physically segregated by the seller.

⁹ Pursuant to this paragraph the Administrator has granted the following special premiums:

(a) Metals Refining Company, Hammond, Indiana, by a letter dated December 4, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11 $\frac{1}{4}$ ¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for soft copper wire no larger than 6 B&S nor smaller than 18 B&S wire gauge, entirely free from solder ends, insulation, lacquer, ash or any other foreign substance, and packed in loose bales or coils.

(b) The Sherwin-Williams Company, Bound Brook, New Jersey, by a letter dated December 22, 1941—Permission to purchase not in excess of 50 tons of scrap copper wire per month during the period November 1, 1941 to June 1, 1942 at a price not in excess of 11 $\frac{1}{4}$ ¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for copper wire containing not less than 98% copper, reasonably free from tin and containing 80% or more of 10 gauge or smaller wire, packed in loose bales, boxes or barrels.

(c) Superior Copper Products Company, Chicago, Illinois, by a letter dated December 10, 1941—Permission to purchase not in excess of 120 tons of scrap copper wire per month during the period December 1, 1941 to June 1, 1942 at a price not in excess of 11 $\frac{1}{4}$ ¢ per pound f. o. b. shipping point, such wire to be specially selected and prepared to meet that company's specifications calling for strictly No. 1 copper wire no larger than 8 B&S wire gauge and no smaller than 16 B&S wire gauge, free from all tin, lead, solder, insulation, connections, lugs, et cetera and packed in bales.

Each of the foregoing exceptions was conditioned upon the use of all such copper scrap in the manufacture of copper powder, copper sulphate or other chemicals; upon compliance with all requirements of the War Production Board; and upon the furnishing of a report to the Office of Price Administration at the end of each month giving the amount of scrap purchased during the month, the dates of purchase and delivery, the name of the buyer, and the price paid.

use in the manufacture of copper powder or copper sulphate or other chemicals, or persons using any other copper scrap, specially selected and prepared for their use in the manufacture of iron, steel, aluminum or other alloys, except producers of copper, brass or bronze castings or ingots, may apply to the Office of Price Administration for permission to pay a price for such copper scrap in excess of the maximum prices fixed by this Schedule. Permission to pay such a price will be granted to such person only if the following conditions are fully complied with:

(1) The material, before August 19, 1941, normally commanded a premium over the price of No. 1, No. 2 or light copper scrap because of its special uniformity or preparation.

(2) The user normally purchased such material before August 19, 1941.

(3) Application is made in writing to the Office of Price Administration by the user setting forth such information as the Office of Price Administration deems necessary to determine the proper maximum price for such material.

(4) The user has complied with the terms of this Schedule to the satisfaction of the Office of Price Administration.

(i) *Maximum prices for imported scrap.* If copper or copper alloy scrap is imported into the United States, or if imported copper or copper alloy scrap is resold in the United States, there may be added to the maximum price established by this section the actual amount of United States import or customs duty paid on such scrap: *Provided, That:*

(1) The total amount paid or received for such imported scrap f. o. b. point of shipment in the continental United States¹⁰ does not exceed the maximum price established in this section plus the actual amount of import or customs duty paid;

(2) The import or customs duty paid is shown as a separate item on the records required to be kept in accordance with section 1309.64 hereof and on any invoice rendered to the buyer; and

(3) The buyer files a report of each such purchase with the Office of Price Administration on Form 120:8 within five (5) days of the date thereof.

Issued this 5 day of February 1942.

PART 1335—CHEMICALS

PRICE SCHEDULE NO 98—TITANIUM PIGMENTS

A sharp increase in the demand for titanium pigments has occurred in recent months as a result of the national defense program. Titanium pigments

¹⁰ "Point of shipment in the continental United States" in the case of overland shipments from Canada or Mexico means the freight station in the United States at or nearest to the point on the boundary at which the shipment enters the United States.

are extremely important pigments, essential in the production of a great many products necessary to the armed forces and civilian population.

In December 1941, after notice had been received of a proposed price advance by one of the largest producers, the Office of Price Administration requested the five United States producers of titanium pigments not to raise prices above those quoted on October 1, 1941. This request has been complied with by all of the producers.

Speculations by others than producers has greatly increased the resale prices of titanium pigments. These speculative prices are threatening to rise to even higher levels. It is necessary to curb such speculation, not only to prevent inflationary rises in the price of titanium pigments, but also to eliminate the danger of price rises in other industries that use titanium pigments.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.751 *Maximum prices for titanium pigments.* On and after March 1, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer titanium pigments in quantities of 50 pounds or more, and no person shall buy, offer to buy or accept delivery of titanium pigments in quantities of 50 pounds or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.759.*

*§§ 1335.751 to 1335.759, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.752 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.753 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of titanium pigments, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1335.754 *Records and reports.* Every person making purchases or sales of titanium pigments in quantities of 50 pounds or more on or after March 1, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the specifications and quantity, including the size of the containers, of the titanium pigments purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.755 *Enforcement.* In the event of refusal or failure to abide by the price

limitations, records and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocations of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of price of titanium pigments, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.756 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.757 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Titanium pigments" means the grades of titanium pigments listed in Appendix A hereof.*

§ 1335.758 *Effective date of the Schedule.* This Schedule shall become effective March 1, 1942.*

§ 1335.759 *Appendix A; maximum prices for titanium pigments.* The following maximum prices are established for titanium pigments:

(a) *Deliveries in Eastern Territory*¹—
(1) *Twenty tons or more.*

Grade	Per pound delivered in bags (cents)
Titanium Dioxide (Regular Grades).....	14½
Titanium Dioxide (Chalk Resistant Grade).....	15
Titanium Dioxide (Non-Chalking Grade).....	16½
Titanium Dioxide (Rutile Regular Grade).....	15½
Titanium Dioxide (Rutile Chalk Resistant Grade).....	16

¹When used in this Appendix, the term "Western Territory" means the States of California, Oregon and Washington and the term "Eastern Territory" means all other states of the United States.

Grade	Per pound delivered in bags (cents)
Titanium Barium Pigments.....	5¾
Titanium Calcium Pigments.....	5½
Titanium Magnesium Pigment.....	5¾
Titanium Calcium Pigment (Rutile Grade).....	5½
Lead Titanate.....	11

(2) *Five tons or more but less than twenty tons.* For titanium pigments sold in quantities of 5 tons or more but less than 20 tons, \$.0025 per pound may be added to the maximum prices established in subparagraph (1) of this paragraph.

(3) *One thousand pounds or more but less than five tons.* For titanium pigments sold in quantities of 1,000 or more pounds but less than 5 tons, \$.0025 per pound may be added to the maximum prices established in subparagraph (2) of this paragraph except in the case of Titanium Barium Pigment, Titanium Calcium Pigment, Titanium Magnesium Pigment, Titanium Calcium Pigment (Rutile Grade) where the maximum prices are the maximum prices established in subparagraph (2) of this paragraph.

(4) *Fifty pounds or more but less than one thousand pounds.* For titanium pigments sold in quantities of 50 pounds or more but less than 1,000 pounds, \$.0025 per pound may be added to the maximum prices established in subparagraph (3) of this paragraph except in the case of Titanium Barium Pigment, Titanium Calcium Pigment, Titanium Magnesium Pigment, and Titanium Calcium Pigment (Rutile Grade) where the maximum prices are the maximum prices established in subparagraph (2) of this paragraph and except in the case of Lead Titanate where the maximum prices are the maximum prices established in subparagraph (3) of this paragraph.

(b) *Deliveries in Western Territory*¹—
(1) *Twenty tons or more.* The maximum prices for deliveries of titanium pigments in quantities of 20 tons or more in Western Territory are the maximum prices established in paragraph (a) of this section for deliveries in Eastern Territory, plus \$.0025 per pound.

(2) *Less than twenty tons.* The maximum prices for deliveries of titanium pigments in quantities of less than 20 tons in Western Territory are the maximum prices established in paragraph (a) above for deliveries in Eastern Territory, plus \$.0025 per pound f. o. b. warehouse in Western Territory.

(c) *Barrels.* The maximum prices for deliveries of titanium pigments in Eastern or Western Territory in barrels are the maximum prices established above in paragraphs (a) or (b) of this section, whichever the case may be, plus \$.0025 per pound.

(d) *Export sales and sales to persons in Territories and Possessions of the United States*—(1) *Shipments by vessel from Eastern Territory.* The maximum prices for shipment by vessel from Eastern Territory are the maximum prices established in paragraph (a) of this section f. a. s. vessel at the port of shipment plus 10% of the applicable maximum price.

(2) *Shipments by vessel from Western Territory.* The maximum prices for ship-

ment by vessel from Western Territory are the maximum prices established in paragraph (b) of this section f. a. s. vessel at the port of shipment plus 10% of the applicable maximum price.

(3) *Overland shipments.* The maximum prices for overland shipment are the maximum prices established in paragraph (a) or (b) of this section, whichever the case may be, delivered to that station in the United States which is at or nearest to that point on the boundary at which the shipment crosses from the United States into Canada or Mexico plus 5% of the applicable maximum price except that for quantities of less than 20 tons shipped from warehouse in Western Territory the maximum prices are f. o. b. warehouse plus 7% of the applicable maximum price.

(4) *Expenses.* No expenses, commissions, or charges for service may be added to the maximum prices established by subparagraphs (1), (2) and (3) of this paragraph (d), except (i) ocean freight, (ii) marine and war risk insurance, and (iii) foreign agents' commission unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

Issued this 5th day of February 1942.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 99—ACETYL SALICYLIC ACID

Increased domestic and foreign demands for acetyl salicylic acid, commonly known as aspirin, has resulted in a shortage of supply. Speculation by others than producers has led to resale prices as high as \$1.50 per pound, in sharp contrast to the manufacturers' price of 40 cents per pound for a comparable grade and quantity. Further increases in resale prices are threatened.

After conferences with producers, resellers, and exporters of acetyl salicylic acid, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of their prevailing price of 40 cents per pound, or for resellers and exporters charging prices in excess of 52 cents and 56 cents per pound, respectively, for acetyl salicylic acid, either powdered or in crystals for sales of large quantities. Increases in such prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.801 *Maximum prices for acetyl salicylic acid.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer acetyl salicylic acid in quantities of one pound or more and no person shall buy, offer to buy or accept delivery of acetyl salicylic acid in quantities of one pound or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.809.*

*§§ 1335.801 to 1335.809, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.802 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.803 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of acetyl salicylic acid or in connection with a purchase, sale, delivery or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of acetyl salicylic acid, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.804 *Records and reports.* Every person making purchases or sales of acetyl salicylic acid in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the specifications and quantity including the kind and size of the containers, of the acetyl salicylic acid purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.805 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule;

(c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as ground for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from, those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of acetyl salicylic acid, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.806 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom; *Provided,* That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.807 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Acetyl salicylic acid" means the varieties and mixtures referred to in Appendix A, incorporated herein as § 1335.809.

(c) "Producer" means a person who manufactures acetyl salicylic acid.

(d) "Primary jobber" means a person who buys acetyl salicylic acid from producers for resale.

(e) "Reseller" means a person who buys acetyl salicylic acid for resale from persons other than producers.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.808 *Effective date of the Schedule.* This Schedule shall become effective February 16, 1942.*

§ 1335.809 *Appendix A; maximum prices for acetyl salicylic acid—(a) Sales by producers and primary jobbers.*

(1) The maximum prices for sales of acetyl salicylic acid by producers or primary jobbers are established as follows:

Quantity	80 mesh powdered or 20-40 mesh crystals, per pound	Any special mixture or formula per pound	10 percent starch granulation, per pound	16 percent starch granulation, per pound	20 percent starch granulation, per pound
200 pounds or more in barrels.....	\$.40	\$.45	\$.40	\$.38	\$.36

5 pounds or more in 5 pound cartons.....	.54	.59	.54	.52	.50
1 pound or more in 1 pound cartons ¹56	.61	.56	.54	.52

¹ 3 cents per pound may be added for acetyl salicylic acid packaged in one pound canisters, and 8 cents per pound for acetyl salicylic acid packaged in one pound bottles.

(2) The above maximum prices are f. o. b. the producer's or primary jobber's shipping point, with freight equalized at the rate for a shipment of identical quantity over standard routes from the following points, viz.: New York City, New York; Philadelphia, Pennsylvania; Midland, Michigan; Chicago, Illinois; and St. Louis, Missouri. The maximum prices which a purchaser may pay for acetyl salicylic acid delivered to him from a pro-

ducer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quality to destination from that City named above from which the transportation rate to destination is least.

(b) *Sales by resellers.* The maximum prices for sales of acetyl salicylic acid by resellers are established as follows, f. o. b. reseller's shipping point.

Quantity	80 mesh powdered or 20-40 mesh crystals, per pound	Any special mixture or formula, per pound	10 percent starch granulation, per pound	16 percent starch granulation, per pound	20 percent starch granulation, per pound
200 pounds or more in barrels.....	\$.52	\$.59	\$.52	\$.49	\$.47
100 pounds or more in kegs.....	.52	.59	.52	.49	.47
25 pounds or more in drums.....	.52	.60	.52	.50	.48
5 pounds or more in 5 pound cartons.....	.70	.77	.70	.68	.65
1 pound or more in 1 pound cartons ¹73	.79	.73	.70	.68

¹ 4 cents per pound may be added for acetyl salicylic acid packaged in one pound canisters and 9 cents per pound for acetyl salicylic acid packaged in one pound bottles.

(c) *Export sales and sales to persons in Territories and possessions of the United States.* The following maximum prices are established for export sales of acetyl salicylic acid to persons in foreign countries and for sales to persons in the territories or possessions of the United States, where the shipments pursuant to such sales originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (a) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(2) *Exports and sales by resellers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 40 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (i) ocean or overland freight (ii) marine and war risk insurance, and (iii) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established by this Schedule, except as specifically provided above.*

Issued this 5th day of February 1942.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 101—CITRIC ACID

Citric acid is produced by fermentation of beet molasses and extraction from lemon culls and pineapples. Its most important uses are in pharmaceutical manufacture, and in food and beverage flavoring. While estimated production for 1942 is in excess of the amount produced in 1941, it is anticipated that there will be an increased consumer demand for goods and beverages which will be reflected in the demand for citric acid.

In recent months, speculation in citric acid has led to resales of this commodity at prices over three times the prices quoted by producers. In addition, export sales have been made at abnormally high prices. Further increases in these prices are threatened.

After conferences with producers, resellers, and exporters of citric acid, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of 20 cents per pound, or for resellers and exporters charging prices in excess of 26 cents and 28 cents per pound, respectively, for sales of U. S. P. granular citric acid in carload lots. Increases above those prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.851 *Maximum prices for citric acid.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer citric acid in quantities of 5 pounds or more, and no person shall buy, offer to buy or accept delivery of citric acid in quantities of 5 pounds or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.859.*

* §§ 1335.851 to 1335.859, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.852 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.853 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of citric acid or in connection with a purchase, sale, delivery, or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of citric acid, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.854 *Records and reports.* Every person making purchases or sales of citric acid in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or seller, the price paid or received, and the specifications and quantity including the kind and size of the containers, of the citric acid purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.855 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of the Government, both state and federal are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocations of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to, or purchasing from those persons

who fail to comply with this schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of citric acid, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.856 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.857 *Definitions.* When used in this schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Citric acid" means the various grades referred to in Appendix A of this Schedule.

(c) "Producer" means a person who synthesizes, extracts, or otherwise manufactures or makes citric acid.

(d) "Primary jobber" means a person who buys citric acid from producers for resale.

(e) "Reseller" means a person who buys citric acid from other than producers for resale.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.858 *Effective date of the Schedule.* This Schedule shall become effective February 16, 1942*

§ 1335.859 *Appendix A; maximum prices for citric acid—(a) Sales by producers and primary jobbers—(1) Citric acid produced in the continental United States.* (1) The maximum prices for sales by producers or primary jobbers of citric acid produced in the continental United States are established as follows:

more, Maryland; New York City, New York; Portland, Oregon; and Seattle, Washington. The maximum prices which a purchaser may pay for citric acid delivered to him from a producer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quantity to destination from that city named above from which the transportation rate to destination is least.

(iii) The maximum prices for sales by producers or primary jobbers of citric acid produced in the United States and delivered from local stocks maintained in Chicago, Illinois or St. Louis, Missouri are the maximum prices listed above, plus one-half cent per pound, f. o. b. the warehouse in whichever city from which actual shipment is made.

(2) *Citric acid produced in territories of the United States.* The maximum prices for sales by producers or primary jobbers of citric acid produced in the territories of the United States are the maximum prices listed in subparagraph (i) of this paragraph (a), f. o. b. point of shipment in such territories.

(b) *Sales by resellers.* The maximum prices for sales of citric acid by resellers are established as follows, f. o. b. reseller's shipping point.

Quantity	U. S. P. granular per pound	U. S. P. powder per pound	U. S. P. anhydrous granular per pound	U. S. P. anhydrous powder per pound
	Carload or more.....	\$0.26	\$0.27	\$0.29

5 pounds or more, in 5-pound containers.....	.38	.38	.41	.42

(c) *Export sales and sales to persons in territories and possessions of the United States.* The following maximum prices are established for export sales of citric acid and for sales to persons in the territories or possessions of the United States, where the shipments originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (1) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(2) *Exports and sales by resellers.* (1) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in subparagraph (1) (i) of paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 40 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, plus 5 per cent of the applicable maximum price, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (a) ocean or overland freight, (b) marine and war risk insurance, and (c) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established above.

WAR DEPARTMENT

PART 203—BRIDGE REGULATIONS¹

Pursuant to the provisions of section 5 of the River and Harbor Act approved August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the following regulations are prescribed to govern the operation of the South Carolina State Highway Department bridge across the Ashepoo River at Brickyard Ferry, near Bennetts Point, South Carolina:

§ 203.376 *Ashepoo River, S. C.; highway bridge at Brickyard Ferry, near Bennetts Point, S. C.* (a) The owner of, or agency controlling, the bridge will not be required to keep a draw tender in constant attendance at the above-named bridge.

(b) Whenever a vessel, unable to pass under the closed bridge, desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of, or agency controlling, the bridge.

(c) Upon receipt of such notice, the authorized representative of, or agency controlling, the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) Any vessel navigating Ashepoo River with the intention of making repeated trips shall notify the authorized representatives of the bridge of the expected frequency of such trips. The bridge shall then be maintained in readiness to open promptly upon signal from the vessel without any further notice. Repeated trips shall be understood to mean trips not greater than 24 hours apart.

(e) The owner of, or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraphs (b) and (d) of this section may be reached.

(f) The operating machinery of the draw shall be maintained in a serviceable condition, and the draw opened and closed frequently enough to make certain that the machinery is in proper order for satisfactory operation. (Sec. 5, River and Harbor Act, Aug. 18, 1894, 28 Stat. 362; 33 U.S.C. 499) [Regs. January 24, 1942 (E. D. 6371 (South Carolina—Ashepoo River)—5/4)]

TITLE 46—SHIPPING

CHAPTER II—UNITED STATES MARITIME COMMISSION

[General Order No. 53]

PART 243—VALUATION OF VESSELS FOR WAR RISK INSURANCE

PRESCRIBING BASIS FOR VALUATION OF UNITED STATES FLAG VESSELS, AND OF FOREIGN FLAG VESSELS OWNED BY A NATIONAL OF THE UNITED STATES, FOR WAR RISK INSURANCE PURPOSES

JANUARY 22, 1942.

The Maritime Commission, pursuant to the authority vested in it by Merchant Marine Act, 1936, as amended, and related acts, hereby prescribes the following basis for the valuation of vessels for War Risk Insurance Purposes:

§ 243.1 *Vessels included.* All United States flag vessels and all foreign flag vessels owned by a national of the United States:

Upon which the Commission assumes war risk under the terms of a Charter Party, an insurance policy issued by the Commission, or otherwise,

Upon which the Commission pays war risk premiums, or with respect to which the liability for war risk premiums is assumed by the Commission under Charter Party, or otherwise,

With respect to which a factor for war risk insurance premiums is included in freight rate surcharges or in applications therefor,

will be valued for war risk insurance purposes pursuant to the provisions of this part.*

* §§ 243.1 to 243.5, inclusive, issued under authority contained in the Merchant Marine Act, 1936, (49 Stat. 1985; 56 U.S.C. Sup., 1101), as amended, and related acts.

§ 243.2 *Basis of valuation.* Vessels will be valued in accordance with the following formulae:

(a) *Basic valuation.* (1) Vessels completed in the year 1929 or in subsequent years as indicated by the American Bureau Record or by Lloyd's Register of Shipping will be valued as follows:

Vessels constructed under a construction-differential subsidy contract will be valued in accordance with General Order No. 24, Revised, promulgated by the Commission on April 1, 1941,¹ (Part 284 of this chapter).

Vessels, other than passenger vessels, constructed without benefit of a construction-differential subsidy will be valued at actual construction cost less a depreciation of 3% (computed without allowance for residual value) for each year of the vessel's age. With respect to Passenger Vessels, the depreciation will be at the rate of 4% per annum similarly

¹ 6 F.R. 1874.

computed. Where marine insurance values under policies attaching between September 1, 1938 and September 1, 1939 exceed these values, the Commission will consider allowing such higher values.

(2) Vessels completed prior to the year 1929 will be valued as follows:

Freighters and Tankers: \$100 per deadweight ton less a depreciation of 3% (computed without allowance for residual value) for each year of the vessel's age, subject to a minimum of \$50 per deadweight ton.

Passenger Vessels: \$150 per gross ton less a depreciation of 4% (computed without allowance for residual value) for each year of the vessel's age, subject to a minimum of \$75 per gross ton.

Where marine insurance values under policies attaching between September 1, 1938 and September 1, 1939 exceed the foregoing values, the Commission will consider allowing such higher values.

(3) Where a bona fide mortgage is in force on a vessel in an amount in excess of 80% of the valuation arrived at in accordance with the foregoing, special consideration will be given by the Commission to the allowance of a higher valuation.

(4) If at any time a vessel has been substantially reconstructed and the cost of such reconstruction exceeds 20% of the original cost of the vessel, special consideration will be given by the Commission to the allowance of a higher valuation.

(b) *Excess valuation.* On vessels contracted for prior to July 1, 1940, an amount additional to the amount of the basic valuation, to be designated as "Excess Valuation", may be insured against war risks, subject to the following limitations and conditions:

Insurance on "Excess Valuation" shall be limited to 25% of the amount permitted on "Basic Valuation" as provided above, except that when said basic values are less than \$60 per deadweight ton on freighters and tankers or less than \$96 per gross ton on passenger vessels, a sufficient amount may be insured as "Excess Valuation" to bring the total insurance

to \$75 per deadweight ton on freighters and tankers or \$120 per gross ton on passenger vessels.

All insurance on "Excess Valuation" shall be subject to the following provisions as to payments of losses:

(1) Payments of total or constructive total loss will be put in escrow.

Funds in escrow may be used for replacement of the vessel by new construction approved by the Commission, if such new construction is completed within three years after peace between the United States and the nations with which it is now at war is proclaimed. In the event that such funds are not so used within such prescribed period, they will be paid to the Commission, after deduction of insurance premiums paid with respect to "Excess Valuation" on the vessel involved and after deduction of the excess of any Federal income or profits taxes applicable to such "Excess Valuation" over any amounts of such taxes recovered or recoverable, which shall be returned to the owner of the vessel.

The escrow shall be in the form of a joint account with a depository satisfactory to the Commission, to which the Commission and the Assured shall be parties, pursuant to a resolution of the Commission containing such provisions consistent with the provisions of this part as the Commission may determine to be necessary or advisable.

In the event that the Owner elects to put the entire net proceeds of loss, as said term is defined in section 511 of the Merchant Marine Act, 1936, as amended, and regulations issued thereunder, in a Construction Reserve Fund, as provided in said Section 511 and said regulations, but fails to replace the vessel within the period and subject to the requirements of said Section, the portion of such funds applicable to "Excess Valuation" (less insurance premiums paid thereon) shall be paid from such Construction Reserve Fund to the Commission.

(2) Payments for all other claims to be made for the benefit of the Owner, in accordance with policy provisions.

Wherever insurance on "Excess Valuation" is written pursuant to this part,

the provisions of this part shall be incorporated, by reference or otherwise, in the policy of insurance.

(c) *Construction-differential subsidy.* Where required or approved by the Commission, insurance in addition to the foregoing may be placed on depreciated amount of Construction-Differential Subsidy.*

§ 243.3 *Applications for additional insurance.* Applications for permission to place insurance in addition to the amounts permitted by this part will be considered by the Commission only when it is demonstrated to the satisfaction of the Commission that such additional insurance will not result in additional cost to the public by reason of the inclusion of the ensuing costs in freight rate surcharges or otherwise and will not result in additional costs or liabilities to the Commission; and in any event, the Commission reserves the right to reject any and all such applications when the Commission believes such action will be in the public interest.*

§ 243.4 *General average and salvage.* If the foregoing limitations of valuation result in a shipowner becoming self-insurer for a portion of General Average or Salvage charges, war risk insurance policies underwritten by the Commission will provide for payment in full of such charges up to the face amount of the policy; or if such policies do not constitute the total amount of war risk insurance placed upon the vessel, they will provide for payment of that proportion of such charges which the amount of insurance underwritten by the Commission bears to the total amount of war risk insurance placed upon the vessel.*

§ 243.5 *Effective date.* The valuations hereby prescribed shall be effective as to all charters negotiated and insurances bound on and after February 5, 1942.*

By Order of the United States Maritime Commission.

TITLE 49—TRANSPORTATION AND RAILROADS

CHAPTER I—INTERSTATE COMMERCE COMMISSION

PART 120—ANNUAL SPECIAL OR PERIODICAL REPORTS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 19th day of January, A. D. 1942.

The subject of the requirement of annual reports from carriers by water being under consideration, the following order was entered:

It is ordered, That the order of this Commission dated November 8, 1940, in the Matter of Annual Reports from carriers by Water in so far as it relates to carriers having annual operating revenues exceeding \$500,000, and corresponding sections of the Code of Federal Regulations be, and hereby are annulled, effective January 1, 1942, and the following order shall become effective.

§ 120.51 *Form prescribed for carriers by water of Class A.* (a) All carriers by water of Class A, subject to the provisions of the Interstate Commerce Act be, and they hereby are, required to file an annual report for the year ended December 31, 1941, and for each succeeding year until further order, in accordance with Annual Report Form K-A (Class A Carriers by Water), which is hereby ap-

proved and made a part of this order.¹ Said annual report shall be filed in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates. (Sec. 20, 24 Stat. 386, Sec. 7, 34 Stat. 593, 35 Stat. 649, Sec. 14, 36 Stat. 555, Sec. 1, 38 Stat. 1196, 39 Stat. 441, Secs. 434-438, 41 Stat. 493, 494, 49 U.S.C. 20 (1)-(10), Sec. 313, 54 Stat. 944, 49 U.S.C. 4402).

(b) Carriers by water that were not required to keep and maintain their records during 1941 in accordance with the uniform system of accounts prescribed by the Interstate Commerce Commission, may apply to the Commission for a modification of specific schedules contained in the report form to conform to the accounting system used by them during that year.

By the Commission, division 1.

PART 126—CLASSES OF CARRIERS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 19th day of January, A. D. 1942.

¹ Filed as part of the original document.

The subject of the classification of carriers by water being under consideration, the following order was entered:

§ 126.2 *Classification of carriers by water for reporting purposes.* (a) For the purpose of annual, other periodical, and special reports, operating carriers by water subject to the provisions of the Interstate Commerce Act shall be, and they hereby are, divided into three general classes, designated respectively as Class A, Class B, and Class C. Class A shall include all carriers having annual operating revenues exceeding \$500,000; Class B all carriers having annual operating revenues exceeding \$100,000 but not more than \$500,000; and Class C all carriers having annual operating revenues of \$100,000 or less.

(b) Unless the Commission shall otherwise direct, the classification of carriers, as aforesaid, shall be based on the average annual operating revenues for the three-year period ended with the calendar year 1941; *Provided,* That nothing in this order shall prevent changes in the assignment of carriers to classes on the part of the Commission deemed to be warranted by special conditions; *And provided further,* That carriers by water beginning regular operations for revenue subsequently to December 31, 1941, shall be assigned to classes, as above defined, on the basis of their operating revenues as known or estimated for a year. (Sec. 20, 24 Stat. 386, Sec. 7, 34 Stat. 593, 35 Stat. 649, Sec. 14, 36 Stat. 555, Sec. 1, 38 Stat. 1196, 39 Stat. 441, Secs. 434-438, 41 Stat. 493, 494, 49 U.S.C. 20 (1)-(10), Sec. 313, 54 Stat. 944, 49 U.S.C. 4402)

PART 205—REPORTS OF MOTOR CARRIERS IN THE MATTER OF ANNUAL REPORTS FROM CLASS I MOTOR CARRIERS OF PROPERTY AND CLASS I MOTOR CARRIERS OF PASSENGERS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 5th day of February, A. D. 1942.

The subject of the requirement of annual reports from Class I Motor Carriers being under consideration:

It is ordered, That the Code of Federal Regulations be, and it is hereby, amended as follows:

§ 205.1 *Form prescribed for annual reports.* (a) Each Class I Motor Carrier of Property and each Class I Motor Carrier of Passengers, as defined in the Commission's orders of November 29, 1937, prescribing the Uniform System of Accounts, (Parts 182 and 181, respectively, of this title), shall file an annual report for the year ended December 31, 1941, and for each succeeding year until further order, in accordance with Motor Carrier Annual Report Form A (Class I

Motor Carriers of Property or Passengers) which is hereby approved and made a part of this order.¹

(b) The annual report shall be prepared in triplicate, two copies filed in the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates, and the third copy retained by respondent. (Sec. 220, 49 Stat. 563, 54 Stat. 926; 49 U.S.C., 320).

WAR DEPARTMENT.

INFORMATION AND PERSONNEL PLACEMENT AGENCIES

(1) *Establishment authorized.* An information and personnel placement agency has been established in the office of The Adjutant General to furnish information concerning opportunities for employment by the War Department and to receive, acknowledge, register, and classify information pertaining to such individuals who then or subsequently volunteer their services. Corps area commanders will establish similar agencies in each corps area with such branches thereof as necessity dictates.

(2) *Functions.* A primary function of these agencies is to furnish information and answer inquiries from individuals promptly and in the case of volunteers whose services are desired by the Army to place them properly with a minimum delay. Surplus Marketing Administration.

[Docket No. AO 117-A 2]

NOTICE OF HEARING WITH RESPECT TO A PROPOSAL TO AMEND THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 45, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE WASHINGTON MARKETING AREA, INCLUDING EXTENSION OF THE MARKETING AREA TO INCLUDE ADDITIONAL TERRITORY IN THE STATE OF MARYLAND

Notice is hereby given of a hearing to be held in the Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 9:30 a. m., February 12, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 45, as amended, regulating the handling of milk in the Washington marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 C.F.R. 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and, at the hearing, evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

I. Amendments Proposed by the Maryland and Virginia Milk Producers' Association, Inc.:

1. Delete § 945.1 (a) (3) and substitute therefor the following:

The term "Washington marketing area", hereinafter referred to as the "marketing area", means the territory included within the boundary lines of the

District of Columbia and that territory in the State of Maryland included between the District of Columbia Line and the following boundaries: Beginning at Fort Washington on the Potomac River, proceeding easterly along the old Fort Washington Road to Selesia. About one mile north of Selesia on the Selesia-Oxon Hill Road, turning right on the Allentown Road to Camp Springs, and along the Meadows Road to Meadows on Route 4. Proceeding on Route 4 easterly through Marlborough and Wells Corner to Hill Bridge on the Patuxent River. Following the course of the river northerly and westerly to Route 29 at Snell Bridge. Thence proceeding southerly along Route 29 to Ashton, taking Route 28 through Sandy Spring to Olney to Norbeck. Thence westerly through Redland on Route 115-1-2-3 to Smiths Corner and then Route 124-5 through Washington Grove to Gaithersburg. In Gaithersburg from Route 124-5 to Brooks Avenue, and right on Russell Avenue to Maryland Avenue. West along Maryland Avenue to Frederick Avenue and southerly on Route 124-6 to Quince Orchard. Thence on Route 28 to Darnestown. Route 112-1-2 from Darnestown to Seneca. From Seneca along the road bordering the great Seneca Creek to the Potomac River and along the northerly banks of the Potomac River to Fort Washington, the starting point.

2. Delete § 945.4 (b) (1) and substitute therefor the following:

Class I milk: All milk disposed of in the form of fluid milk, and all milk the utilization of which is not classified in Class II or Class III, and any loss or waste in excess of 1 percent shall be classified as Class I milk.

3. Insert after "cottage cheese" in § 945.4 (b) (2) the following:

loss or waste not to exceed 1 percent of milk received provided that any loss or waste in excess of 1 percent shall be classified as Class I, and all butterfat contained in milk or milk products on hand at the end of each delivery period.

4. Delete § 945.5 (a) and substitute therefor the following:

(1) Class I milk—\$4.03 per hundredweight: *Provided*, That the price of Class I milk disposed of by a handler from a plant not having a health department permit to sell fluid milk or fluid cream in the District of Columbia shall be \$3.57 per hundredweight; *And provided further*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income groups, including persons who are on relief, the price shall be not less than \$3.57 per hundredweight.

(2) Class II milk—\$2.56 per hundredweight.

(3) Class III milk—Each handler shall pay producers and associations of producers not less than the following: The standing offer of the Maryland and Virginia Milk Producers' Association, Inc., to buy 10 gallon cans of 40% cream for sale to manufacturers of ice cream,

cheese (other than cottage cheese) and butter sold at wholesale, on file with the Market Administrator on the date of such delivery, divided by 33, multiplied by 4, plus skim milk adjustment as computed under § 945.8 (g).

5. Add the following at the end of § 945.8:

(g) The minimum prices for Class III milk shall include any plus adjustment which shall be computed by the Market Administrator as follows: From the average price of all Dry Skim Powder as quoted in the monthly "Dry Milk Report of the Agricultural Marketing Service, United States Department of Agriculture," subtract 5 cents and multiply by 7.5.

6. In line 18 of § 945.9 (a) strike out the words "not more than 7½ cents" and insert in place thereof "one-half the cost."

7. In line 5 of § 945.9 (b) strike out the words "not more than 7½ cents" and insert in place thereof "one-half the cost."

8. Insert in § 945.8—"Payment to Producers" the following:

(a) *Advance payments.* On or before the 20th day of each delivery period each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. In no event shall such advance payment be at a rate less than the average price paid by such handler for milk in the immediately preceding delivery period.

Then the present paragraph (a) will become paragraph (b), entitled "Final Payments".

II. Amendment Proposed by Thompson's Dairy, Embassy-Fairfax Dairy, Inc., and Wakefield Dairy, Simpson Bros., Inc.

1. Delete § 945.4 (d) (4) and substitute therefor the following:

Total pounds of milk to be classified: Divide the net receipts of butterfat in pounds or the total pounds of butterfat accounted for in all classes, determined pursuant to subparagraphs (2) and (3) respectively, of this paragraph, whichever is the larger; less overage in butterfat resulting from variance in tests not to exceed one percent (1%) of net receipts of butterfat, from the total butterfat accounted for in all classes, or add thereto shrinkage not to exceed one percent (1%) of net receipts of butterfat, by the average test of milk received from producers.

III. Amendment Proposed by Embassy-Fairfax Dairy, Inc., and Wakefield Dairy, Simpson Bros., Inc.

1. Delete § 945.4 (b) (3) and substitute therefor the following:

Class Three (3) milk: (A) all milk the cream therefrom which is disposed of to a purchaser which is used by such purchaser to produce ice cream or ice cream mix, American Cheese, and butter: *Provided*, That a statement of such use by the purchaser is filed with the Market Administrator and subject to his

verification; and (B) milk or cream used by a handler to produce ice cream or ice cream mix in his plant, which is, or is not approved by the District of Columbia Health Department to sell milk or cream for fluid consumption within the District of Columbia.

IV. Amendments Proposed by Embassy-Fairfax Dairy Inc.

1. Amend § 945.5 (a) (3) entitled "Class Three (3) Milk" by providing that the price for said class three (3) milk shall be in accordance with what is known as Western cream prices based on the Chicago butter market and calculated in accordance with the prevailing custom in the ice cream trade.

2. Amend § 945.5 (d) (5) entitled "Class One (1) Milk" by providing for the payment by handlers of class one (1) milk based on sales of butterfat: Whatever of butterfat then remains from the handlers' receipts of milk to be settled for by the handlers in whatever classification said butterfat is sold by the handlers.

3. Amend Order No. 45, as amended, by establishing therein a marketing stabilization pool instead of, as now provided in said order, an individual-handler stabilization pool.

V. Amendments Proposed by the Market Administrator.

1. Delete § 945.4 (d) and substitute therefor the following:

For each delivery period, the market administrator shall compute for each handler the volume of milk that he is to account for in each class as follows:

(1) Total receipts of milk from producers: Add together the total pounds of milk received from producers and associations of producers, and produced by such handler and the milk equivalent of cream received from an association of producers converted at the average test of milk received from producers; and subtract the pounds of milk and milk equivalent of cream disposed of for the account of an association.

(2) Net receipts of butterfat: Compute the butterfat in milk and cream receipts computed pursuant to subparagraph (1) of this paragraph, plus the butterfat in milk and cream received from other handlers.

(3) Total pounds of butterfat accounted for in all classes: Add together the pounds of butterfat accounted for in all class uses, including butterfat in milk and cream disposed of to other handlers; not including butterfat disposed of for the account of an association of producers.

(4) Net excess of butterfat accounted for: Subtract the net receipts of butterfat from the total pounds of butterfat accounted for computed pursuant to subparagraphs (2) and (3), respectively, of this paragraph.

(5) Total pounds of milk to be classified: To the milk equivalent of any excess butterfat accounted for computed pursuant to subparagraph (4) of this paragraph, converted at 4 percent, add the total receipts of milk from producers computed pursuant to subparagraph (1)

of this paragraph, and add the pounds of milk and milk equivalent of cream converted at the average test of all milk received in the plant, received from other handlers.

(6) Class I milk—Multiply the weight of the various units disposed of by such handler which are classified as Class I milk by the number of units irrespective of the butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, not including such milk disposed of for the account of an association of producers, and classified pursuant to paragraph (c) of this section, add the net excess of butterfat accounted for converted to milk equivalent at 4 percent or the loss in butterfat converted to milk equivalent at the average test of all milk received in the plant.

(7) Class III milk—Add together the pounds of butterfat in the milk classified as Class III milk, including the pounds of butterfat in milk or cream delivered to other handlers, and not including the butterfat in milk or cream disposed of for the account of the association, and classified as Class III pursuant to paragraph (c) of this section, and divide by the average test of milk received in the plant; and

(8) Class II milk—Subtract the pounds of Class I and Class III milk combined from the total pounds of milk to be classified computed pursuant to subparagraph (5) of this paragraph.

(9) Classification of milk from producers—From the total pounds of milk in each class computed pursuant to subparagraphs (6), (7), and (8) of this paragraph, subtract receipts of milk and milk equivalent of cream converted at the average test of all milk received in the plant, from other handlers classified pursuant to paragraph (c) of this section.

2. Delete § 945.7 (a) and substitute therefor the following:

For each delivery period the market administrator shall compute the value of milk disposed of by each handler receiving milk from other producers and associations as follows—Multiply the hundredweight of milk in each class computed pursuant to subparagraphs (6), (7), and (8) subject to any deductions pursuant to (9) of § 945.4 (d), by the prices applicable pursuant to § 945.5, add the resulting values together, and divide by the hundredweight of milk received computed pursuant to § 945.4 (d) (1), except when a handler purchases milk or cream from an association of producers under an agreement for utilization in a specified class, then the value of this milk or cream shall be computed according to the agreed utilization and the milk pounds or milk equivalent pounds and the corresponding value shall be deducted before computing the composite price for the remainder.

3. Delete § 945.4 (b) (2) and substitute therefor the following:

Class II milk—All milk disposed of in the form of flavored or manufactured milk drinks, cream approved for consumption as cream, cream buttermilk and cottage cheese; and * * *

VI. Amendments proposed by the Consumers' Counsel, United States Department of Agriculture:

1. Delete § 945.4 (b) and substitute therefor the following:

(b) Classes of utilization—Except as provided in paragraph (c) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk—All milk disposed of in the form of fluid milk, flavored or manufactured milk drinks, cream for consumption as cream, cream buttermilk, cottage cheese, and all milk the utilization of which is not classified in Class II.

(2) Class II milk—(a) All milk the cream therefrom which is disposed of to a manufacturer of ice cream or ice cream mix, American cheese, and butter sold at wholesale, who does not engage in the processing or distribution of milk or cream for fluid consumption, other than to his own employees, or sell milk or cream to establishments selling milk or cream for fluid consumption in the Washington marketing area and which is used by such manufacturer to produce ice cream or ice cream mix, American cheese, and butter sold at wholesale: *Provided*, That a statement of such use by the purchaser is filed with the market administrator and subject to his verification; and (b) milk or cream used by a handler to produce ice cream or ice cream mix in his plant, which is not approved by the District of Columbia Health Department to sell milk or cream for fluid consumption within the District of Columbia.

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen (15) days, and it is hereby determined that the period of notice given is reasonable under the circumstances.

Additional copies of this notice of hearing and copies of Order No. 45, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0312, South Building, Washington, D. C., or may be there inspected.

ORDER GRANTING APPLICATION NO. 7 RELATING TO TRANSACTIONS INCIDENTAL TO DISSOLUTION OF THE MILWAUKEE SOLVAY COKE COMPANY

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 5th day of February 1942.

The Milwaukee Coke and Gas Company and Milwaukee Solvay Coke Company, subsidiaries of American Light & Traction Company, and The United Light and Railways Company and The United Light and Power Company, registered holding companies, having jointly filed herein Application No. 7 pursuant to the Public Utility Holding Company Act of 1935, particularly sections 11 and 12 thereof, and Rules U-23, U-42, 43, and 46 thereunder regarding the following proposed transactions:

1. The surrender by the Milwaukee Coke & Gas Company to Milwaukee Solvay Coke Company of all its outstanding capital stock in the amount of 100 shares with a par value of \$50 each.
2. The acquisition by Milwaukee Solvay Coke Company of its own capital stock for cancellation and in consideration therefor to release and discharge the open account indebtedness in the amount of \$5,000 owed to it by The Milwaukee Coke & Gas Company.
3. The cancellation of such capital stock and the dissolution of Milwaukee Solvay Coke Company.

Said application having been filed on January 9, 1942, and notice of said filing having been duly given as required by the Act and applicable Rules of the Commission and the Commission not having received a request for hearing with respect to said application in the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The applicants having requested that an order be entered granting said application on February 5th, 1942; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant said application pursuant to sections 11 (b) (1) and 12 (e) and (f) of the Act and Rules U-23, U-42, U-43, and U-46 thereunder; and

The Commission finding that the transactions described in paragraphs numbered 1 to 3, inclusive herein, are necessary to effectuate the provisions of section 11 (b) of the Act, and to comply with the applicable provisions of our order of August 5, 1941 (Holding Company Act Release No. 2923;)

It is hereby ordered, Pursuant to the applicable provisions of said Act and the applicable rules thereunder, subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application be, and the same hereby is, granted.

IN THE MATTER OF CRESCENT PUBLIC SERVICE COMPANY; G. M. DUNNE AND D. E. DUNNE, JR.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 5th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; and

Notice is further given that any interested person may, not later than February 20, 1942, at 4:45 P. M., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Crescent Public Service Company, a registered holding company, proposes to sell for \$80,500, to G. M. Dunne and D. E. Dunne, Jr., of Wichita, Kansas, all of the presently outstanding securities of The Caney Electric Company, its subsidiary, consisting of the following:

- (a) 248 shares of Common Stock, with a par value of \$100 per share; and
- (b) A 7% unsecured demand Promissory Note of The Caney Electric Company, dated October 1, 1934, in the original principal amount of \$31,467.73, of which there remains unpaid the sum of \$30,000.

The declaration states that the aforementioned securities of The Caney Electric Company have been pledged by Crescent Public Service Company with the City Bank Farmers Trust Company, as Trustee, under a Trust Indenture securing the Collateral Trust 6% Income Bonds, Series B, due October 1, 1954, of Crescent Public Service Company. The proposed sale price of \$80,500 will be deposited with the Trustee under the aforementioned Indenture and Crescent Public Service Company proposes to utilize the amount so deposited for the purchase and retirement of its Collateral Trust 6% Income Bonds, Series B, due October 1, 1954, at current market prices.

By the Commission.
