Cagle, Sequatchie Co., Tenn., Sept. 1st, 1891.

For two or three years I have been collecting tree and shrub seeds for Nurserymen, on a small scale. Last year I sold large quantities of our native tree and shrub seeds. About July 1st, last, I sent out a number of postal cards, with prices of some seeds. I have received so many replies and orders from old as well as new customers, that I have decided to revise and send out another and a larger list.

REMEMBER, I send all seeds prepaid, and to firms in good standing, or upon giving good references, I will ship, with bill, same to be paid when seeds are received. I guarantee good fresh seed, true to name, and it shall be my aim to please my customers. Orders received and booked now. Seed collected and sent prepaid to be paid for when delivered. No old seed sent out.

NOTE—(c.) clean seed. (d. b.) dried berries.

	oz.	lb	10 lb.
<i>Acer saccharinum</i> —Sugar Maple	10	40	3 00
