Eastern Prince

We have to advise you
of a still farther advance in the
Flour market. The highest price though
that of yesterday morning was 8 Dollars since
which the price is nominally run up
to 8 1/2 to 3/4 some ask 9 Dollars and others
will not name a price. We can hear
of no other cause for all this excitement
than is contained in the paper of this morn-
ing which we forward you. You will
observe that the highest foreign quotation
for Flour in France is 27/- or about \$6 1/8.
We do not believe in the stability of
the present price
with esteem

Yours
Edw. Childs
