2. Recommendation is in concurrence with request of 8th Army in msg GX 22247 KODO. The attachment of the 65th Inf Regiment to 8th Army, and the increased maintenance load imposed thereby, in addition to maintenance load increase due to greater vehicle use during present offensive operations, requires additional maintenance support in Korea with 8th Army.
3. The 2nd Ord MM Co. is a recent arrival in the FEC. This company has the mission of AAA support for Japan at the present time. This mission does not require use of a full company under present conditions and other maintenance units, presently in JLC, are capable of taking over this mission. The 2nd MM company is at full T/O&E strength in both men and equipment and is a well trained unit capable of furnishing the support required by 8th Army.

NOTE FOR RECORD:

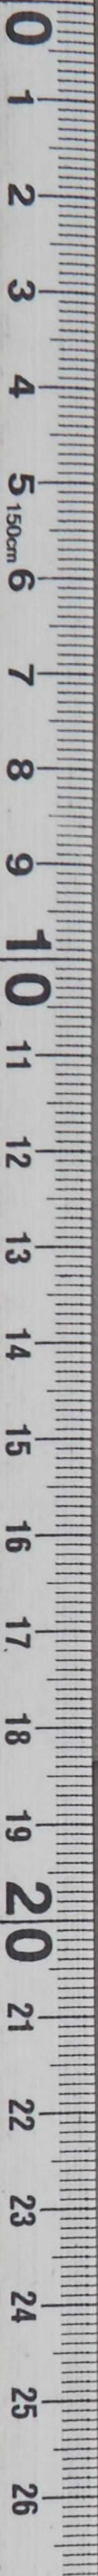

1. Context directs CG Hq & Svc Gp to receive and stage Signal Units arriving in FEC. Both units are required soonest for operation 100-C. Signal equipment requirement for the 518th Sig Rad Relay Co results from a reorganization of the unit on alert for shipment. The unit was organized and equipped to install and operate AN/TRC-5 and 6 equipment which does not net with the AN/TRC-3 and 4 equipment in use in Korea. DA advises in Msg W 90753 that unit will move less radio relay, carrier and repeater equipment. Signal Supply Division advises that equipment can be made available in time only if other issues now on requisition are curtailed or diverted to this unit.
