ESTABLISHMENT
of HOVEY & CO., Horticulturists,

7 MERCHANTS ROW, BOSTON, MASS.

NURSERIES AT CAMBRIDGE, TWO MILES FROM THE CITY.

CATALOGUE

OF

DAHLIAS.

FOR THE SPRING OF

1857.

PRESS OF J. L. HALLWORTH, NO. 37 WASHINGTON STREET, BOSTON.

Messrs. HOVEY & CO. invite the attention of cultivators of the Dahlia to their splendid collection for the present year. It has been much increased by the addition of a large number of new and rare STRIPED or FANCY flowers, raised by the Parisian florists, of the same unique character as those which attracted so much attention last year, wherever exhibited, carrying off the prizes above all others; some of which are very remarkable for their combination and striking arrangement of colors.

Messrs. Hovey have spared no pains to render their collection the most complete in this country.

ORDERS should be addressed to "HOVEY & CO., 7 Merchants Row, Boston."

The Nurseries are situated in Cambridge, on the road to Mount Auburn, and the Cambridge *Railway Cars* pass every few minutes during the day. Amateurs are invited to examine the collection of Dahlias when in full bloom in August and September.

CATALOGUES of *Fruit Trees, Ornamental Trees and Shrubs, Roses, Green-house Plants, Dahlias, Bulbs and Seeds* are issued separately, and will be forwarded to all applicants enclosing a postage stamp.

Boston, April, 1857.

12 Fine Varieties, - - - - -	2 00.

Selections to be made by Hovey & Co., who will give a good assortment of colors.

A great variety of the older kinds, not included in the above Catalogue, are offered for sale. Many of these are showy garden varieties, though not so well adapted for SHOW FLOWERS.

DRY ROOTS for exportation, will be ready October 1.

☞ A LIBERAL DISCOUNT FROM THE RETAIL PRICE MADE TO DEALERS.

DIRECTIONS.—The Dahlia delights in good, rich, loamy soil, at least eighteen inches deep; let it be well dug and enriched. Turn the plants out of the pots about the 10th of June, and they will soon make a rapid growth, and commence flowering in July. Stake the plants, and tie up the branches as they proceed in growth. Take up the roots in the fall, after the frost has killed the tops, and, after drying a few days, put them away in a dry cellar.
