NOAH SHOULD HAVE SCREENED THE ARK

Here's something to think about:
If Noah had used a little forethought and screened the ark, the world would be a better place to live in today, for the filthy fly would have perished in the flood.

OBSERVATIONS

By the Oldest Inhabitant
The little newspaper, "Tidings From Japan," issued quarterly in Tokio, Nippon land, by Fred E. Haglin and his capable wife, former residents of Glendale, noted in its February issue that Japan is suffering from the severest winter it has known for many years.

WILLIAMS PLEASED WITH GLENDALE

Charles E. Williams, who was in the business of selling ready-to-put-up houses in Marshall, Ill., for several years and recently sold out there to locate in Glendale, is mightily pleased with the change, especially as his wife and two children will join him here about Easter. Mr. Williams builds houses in sections that can be bolted together in one solid building, ready for occupancy in less than two days.

IF NOAH HAD SCREENED THE ARK

If Noah had exercised a little forethought and screened the Ark, the world would be a better place to live in today, for the filthy fly would have perished in the flood.

The Fly Is Your Enemy KEEP HIM OUT

The filthy fly is a source of much distress and disease that might be easily avoided. Screen your home thoroughly and see that the screens are kept in good repair. This precaution will keep your home in a sanitary condition, your family's health unmolested, and rid you of the eternal nuisance of swatting the pest. Noah didn't use his head. It's up to us to make up for his short-sighted negligence. Consult our Cost Department about screening your home. Add another room to the house by having a porch screened and use as a sleeping room or sun parlor. All modern houses are equipped with both. The cost of screening is comparatively small, especially when the safety and convenience are considered. You owe it to your family to protect them from the fly.

Reliable Home Builders' Directory

*Build Now and You Will
Never Regret It*

This design allows for expansion as the demand requires. The construction of this home is extremely simple and economical. Shingle roof with large siding on the walls make a pleasing and inexpensive combination. On the other hand if the popular style of Spanish Colonial, with its stucco walls and tile roof, is desired, the plan can be readily adapted to this type with a slight increase in the cost.
