XII. TACTICAL AND OPERATIONAL DATA. (Narrative and comment. Describe action fully and comment freely, following applicable items in check list at left. Use additional sheets if necessary.)

PSJ searched as far as 28°-50' N, 142°-10' E. The search was made at an average altitude of 1000 feet. PSJ made 5 visual runs on unidentified objects in the water at 27°-20' N, 141°-45' E. Crew stated that objects appeared to be several barrels or very small craft. Observations were all visual. No attack run could be made on AFQ-5 because objects were too small.
